## MORE MODERN BUSINESS

**WE CONGRATULATE** the business places on our next block as they modernize the fronts of their places.

**HOWEVER** Every time some business puts on a NEW FRONT or otherwise fixes up the store, we almost violate the 10th commandment "Thou shalt not covet" but thru the years we have maintained the same old FRONT and the same old INSIDE with a few exceptions.

**THE REASON** IF WE FIX UP we will have to SELL some stock we have to do it so we have decided it is **BETTER FOR OUR BUSINESS** if we have something to sell rather than a **NICE PLACE** to sell what we would have left.

**BUT** We did do a little fixing up the other day. IF YOU COME DOWN we will be glad to show you—WE PUT UP THREE BRAND NEW calendars on our wall above the shelves.

**AND SINCE** We are not able to MODERNIZE, we have almost decided that we will bend our efforts toward DE-modernizing or UN-modernizing (which ever is the least expensive) and STRIVE TO KEEP OUR MERCHANDISE UP TO PAR that we may have **WHAT YOU WANT** at just the time YOU NEED IT. ### Motion filed for new trial here in check case

Mrs. Harley Turbyfill, through her attorney, Pat N. Walker, has filed a motion for a new trial and a motion in arrest of judgement in connection with a defrauding by worthless check case in county court on Jan. 19.

Mrs. Turbyfill in filing motion in arrest of judgement and for a new trial states that the judgement has not been legally returned against her for five reasons. They include (1) that she was never aware that she was charged with a crime until Jan. 26 when she read it in a newspaper; (2) that she was never arrested by any officer, nor was she ever informed that she was charged with a crime, nor was bond ever set in her behalf.

(3) Defendant never appeared in court in the above cause at any time; (4) that she never authorized any person to make a plea of guilty in her name, and never received any personal knowledge that a judgment had been entered against her until she read it in the newspaper, and (5) the verdict and judgment is contrary to the laws of evidence, because there has been no evidence before the court tending to or convicting her with the alleged crime, nor no sworn testimony ever placed before the court.

County Judge J. E. Parker said the judgement was entered after Mrs. Turbyfill's husband appeared in his court and pleaded guilty in her behalf.

Court records show that the check in the case was signed "Harley Turbyfill by wife." Judge Parker said the defendant's name, as entered on the docket, was not changed because the check was given by Mrs. Turbyfill.

The judge said he informed the woman's husband when he appeared in court of his legal rights in regard of entering a plea in his wife's behalf.

The county judge also said that he had been informed by Deputy Sheriff Oscar Gray that Mrs. Turbyfill had been notified of the filing of the charge.

### WR directors-

(Continued from page 1) finance committee, said some \$3,300,000 of the loan will be placed with the First National Bank of Dallas for investment purposes until the money is needed. He said returns of around 3 per cent can be expected on such an investment, which would partially offset the interest charge by the state.

At the time the remainder of the loan is received, the board authorized the payment of \$80,000 to Henry, Seay and Black, the district's fiscal agents of Dallas, who have taken care of all financial costs on the bond issue, handled all the legal work involved, paid for the three district elections held on the White River dam, and some \$3,000 of the cost of coring the damsite.

The board also authorized payment of \$110,000 Feb. 15 to Nichols' engineering firm which drew the plans and specifications for the dam and the water pipelines to the four towns.

Tam Bouchier was re-elected president of the White River district's board for 1962. Directors also re-elected Marvin McLaughlin of Ralls, vice president, and Robert Work of Crosbyton, secretary-treasurer.

Final action of the board was authorization for Al O'Brien, the district's salaried manager, to rent a car for his district duties until bids can be received for purchase of a suitable vehicle.

O'Brien is working on the Post area now seeking easements for the water pipeline to Post from the White River damsite from property owners involved.

### Juveniles-

Both the Alliance and the Juvenile Board appeal to those who are willing to offer their homes as a temporary shelter for such boys and girls to give their names to their minister, to Judge Parker, or to Rev. Ramsey.

Plans for the community-wide Easter Services were also discussed by the Alliance but tabled until the February meeting.

The radio schedule for the daily religious program over KUKO was set up as follows: week of Jan. 29, J. T. Crawford; Feb. 5, Graydon Howell; Feb. 12, Bernard S. Ramsey; Feb. 19, C. B. (Bill) Hogue; Feb. 26, J. R. Brincefield; and March 5, Lex Roby.

Norman also will continue to actively manage Judy's Cafe here. Watch for his opening announcement.

Post has another new independent business man. He's Pat Robinson who has opened the Post Body Shop at 603 North Broadway. You'll find his announcement on page 4 of today's Dispatch. Pat has 15 years experience in body shop work and has been a resident of Post for 5½ years and is well acquainted with many local car owners.

The Court of Criminal Appeals in Austin recently heard the appeal of Bennie Lee McIntyre, Grassland Negro, who was sentenced to death last May after being found guilty of the rape of a white woman in the Redwine community on April 25, 1961.

Representing the State in McIntyre's appeal were District Attorney George Hansard of Lamesa and Lynn County Attorney Harold Green of Tahoka. Also appearing was the court-appointed counsel for the defendant, Mitchell Williams of Tahoka and John Saleh of O'Donnell.

No ruling on the appeal is expected for several weeks.

# THE CALL FROM MOSCOW

### THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Of course, it was just a dream, Ed admits. (Too much pie at bedtime.) And, thoughtfully, he adds—it shouldn't take a nightmare to make us realize what we believe—and how to preserve that Faith.

"WE WILL BURY YOU," growled the harsh voice at the other end of the line.

"WHAT!" cried Ed Bryson, hardly believing his ears.

"Your belief in God..." the voice went on. "... an out-worn superstition leading to foolish notions about democracy and freedom and human rights. Communism will correct this."

"Who do you think you're talking to?" blustered Ed.

"To you, Mr. Bryson. The Party needs you to liberate your countrymen. Encourage them to forget morality for it is a myth. Conscience, it is cowardice. Worship, it is weakness..."

"NO," Ed exploded! "NYET if you understand that better! We aren't going to forget the spiritual principles that make the Free World strong. Our kind of liberty is built on God's Truth—and you'll never bury *That*. Go sell your party line somewhere else. I'm on my way to Church!"

## Student teachers at High School

**By Charlotte Taylor**  
Say, kids, has every one met the new student teachers? They are Judy Barnett from Friona and Jane Sessums from Lubbock. These two young ladies are seniors at Texas Tech this year. They plan to graduate in May. Miss Sessums and Miss Barnett plan to teach here in Post for some eight to ten weeks. They will be teaching the second and third year food classes. That means there should be some real good smells coming from the kitchens for awhile!  
It seems that their main interests at the present are to get through school. Their favorite pastime is eating?  
From what I gather we will be seeing them around at some of our basketball games and some of our other sports events. We hope that we won't disappoint them.  
We all want to welcome each of them to Post High and Post, Texas. If there is anything that we can do to make them feel right at home here, let it be done. We hope both of them enjoy their stay here with us.

## Lincoln School honor roll listed; cage tournament set for Saturday

The end of the third six-weeks exams and semester grades brought a hustle and bustle for all concerned at Lincoln. Many were successful as far as maintaining high scholastic ratings is concerned.

Also with said degree, Johnny has completed four years in the ROTC and has been commissioned a second lieutenant in the U. S. Army.  
Again we, the faculty members and student body of Lincoln, cordially invite all the citizens of Post, neighboring cities and communities, to attend the Class C Tournament and Class B playoffs, which get under way at the Junior High gym at 8:30 a. m. this Saturday.  
Tickets are now on sale and may be obtained from any Lincoln student or faculty member at 25 cents, student, and 50 cents, adult.  
The finals for both classes of schools will get under way in the afternoon around 4:30 o'clock.

## From Post Junior High

## First in series of faculty editorials

Junior High has decided to have a faculty member each week to write an editorial on a different topic of interest to our school and community. This week's editorial, which follows, was written by Principal Glenn Whittenberg.

### COSTS OF OUR SCHOOLS

It is important that each student be in school every day that he is physically able. This is true for several reasons.  
First, let us discuss his academic achievement or school work. Each teacher has lesson plans made for a week in advance. If a student misses a day, even though his absence is excused, it is obvious that he will be unable to gain as much from doing make-up work on his own as he would have obtained had he heard the lesson presented by the teacher. It follows also that since the teacher will be busy with the next presentation, she will be unable to take time to give the explanation to one or two students that she gave the previous day to the whole class.  
Second, suppose a teacher has 60 total absences in one six-week period and it takes one minute to give make-up assignments to each student. One can see that the class has lost one hour of the teacher's instruction time during that six-weeks period.  
Third, let us consider cost. Our schools draw state aid or money for instructional purposes on the basis of average daily attendance of our students. We are allowed 80 per cent of one teacher's salary for every 25, (or major portion thereof.) students in ADA (average daily attendance). Then, since our students are required to attend school 175 days, we can lose that 80 per cent of a teacher's salary

for every 3,500 absences we have on our records. As we have approximately 1,200 students in school then if each student were absent three days during the school year we would lose one teacher. One can see that it is important for our students to be in school whenever they are able.  
I have had parents ask me if their children would miss anything if they were absent next day. I laughingly told them that certainly they would miss something and if they wouldn't, then we might as well not have school that day.  
With these thoughts in mind we earnestly request that parents be diligent in seeing that their children attend school every day possible. We make this request with the best interest of our students and our schools in mind.

### 'Mystery teacher' in Junior High School

This teacher looks stunning in blue.  
This teacher might remind one of a city in Italy.  
There is no language barrier where this one is concerned.  
This teacher's crowning glory is a silvery halo.  
Now, can you think who it would be?

## TO HAVE A FRIEND, BE A FRIEND

**By Cecelia Bland and Margaret Ritchie**  
What a horrible world this would be if we had no friends.  
Have you ever asked yourself, "What would I do without my friends?" I am sure everyone has said this at one time or another.  
Friends are not hard to get and not hard to keep. As the saying goes, "To have a friend, be a friend." A person cannot expect to have a friend and go around with a chip on his shoulder, or go around grumpy and gripy all the time.  
People want friends they can have fun with, people they can confide in, and people they can be proud to call their friends.  
I once heard a quotation that made me think a little. It goes something like this, "Oh, what gifts the gods would give us, if we could see ourselves as others see us."  
In our everyday life some of us forget about our true friends. Webster's definition of friendship is: Friendly attachment between persons; friendly. You should always take other people into consideration.

Our communities and schools can improve a lot on this. We should make new people or families feel welcome and feel they fit into a new place.  
The most important thing in keeping a friend is to treat him fair and square. Don't try to influence a friend wrong or let him influence you. Keep your name a name of a good friend and his a good name also.  
Remember that a man's name is to him the sweetest and most important sound in the English language.

## Unique displays trophy cases

Short hand class has up a attractive display in the trophy case this week.  
The display consists of some letters the girls have typed from hand notes, and also some in shorthand.  
The more displays are the ones judged by the General Business, Math III and Science classes.  
The General Business display consists of one side a man surd by bills and the other side funded by money, the bills behind through the man's income.  
The English display is very attractive and based upon an American History theme.  
The Science display is based upon a scientific method of investigation. The display shows how a scientist arrives at a solution, beginning with an hypothesis.

# Standard Soil Survey is making progress in Garza

The Standard Soil Survey now under way in Garza County is making good progress, according to information from the Soil Conservation Service office here, with 60,000 acres of the county having been surveyed since last July.  
 In November, a veteran soil scientist, Lee Putnam, was assigned to Garza County after he had helped complete a survey in Crosby County. Putnam has gained wide experience mapping soils in many areas of Texas.  
 The soil survey test here now consists of two men, according to Bobby J. Gray, work unit conservationist of the Garza County SCD. The Garza County survey is scheduled for completion in January of 1964.  
 When completed, the soil survey

report will be written and published in a booklet along with maps indicating the various soil types of the county. After publication, the reports will be available at no cost through U. S. senators and representatives.  
 "The purposes of a soil survey are many," Gray explains. "I hoped that information obtained the survey will be helpful to farmers and ranchers in using the land to the fullest without abusing it. This is the primary purpose. Information contained in the report will also be helpful to many other people, Gray pointed out. It will be helpful to all persons engaged in construction work, particularly those doing highway and port construction.  
 Bankers and real estate men will be provided finger-tip information about the soil of every farm and ranch in the county.  
 The completed survey will provide a complete inventory of soils, soil types and phases, which could be of help to any statistic-minded person.  
 The Standard Soil Survey is part of the technical services offered to the farmers and ranchers in the county through the Garza County SCD.  
 Gray said.

## Let's do in '62

The start of a new Chamber of Commerce year is a good time for the Post business community to take inventory of its community efforts, its goals, and its methods.

The turning over of the reins will come shortly at the annual Chamber of Commerce banquet and the progress made and the hopes cherished can be noted at that time.

But while a new administration organizes for a new Chamber year, it is a fitting time for the membership to prepare too.

It is high time for a 100 per cent effort to pool abilities and resources in a coordinated Chamber effort.

Even in a small town's way of life there is simply too little time for anything. And that works a real hardship on community coordination on major projects.

A full Chamber of Commerce effort requires one simple ingredient for success—real membership interest and cooperation.

The ideas, funds, and follow-through must come from the membership.

## New cotton planting rule

News that the four-row limitation on skip-row planting will not apply to the 1962 cotton crops comes as probably the best word the dry-land cotton farmer has had in a long time.

"This puts us in a more favorable position with the irrigation farmers," is the way one dry-land cotton farmer put it.

Another said that, for many, this will mean an increase from a third to a half in the amount of cotton that can be planted.

Under regulations for 1961 and earlier crops, skip-row cotton planting was permitted providing the skips left idle or planted to other crops were equal in width to the four rows of cotton. If the skip-rows were any narrower, the entire acreage was counted as planted to cotton for acreage allotment and marketing quota purposes. Under this arrangement, many growers planted a four-and-four pattern—four rows to cotton and four

Now is a time to renew your interest in a Chamber drive to move Post forward.

The merchant oftentimes can profit more by building his town, than concentrating simply upon building his own particular business.

The gain in town growth comes to us all. It could even be said that it is not so important what we do, as it is that all of us do it wholeheartedly together.

Given the choice, each individual might have a different approach to any particular problem. But to bring full Chamber support to a project, the only method of accomplishment is to actively back the method of approach selected by the club's directors.

A great deal can be accomplished for community betterment here in Post, each and every year, if we will cooperate together and move together on appropriately selected goals.

Little can be accomplished without that cooperation. And that kind of cooperation right now is by far your Chamber's greatest need.—JC.

## THURSDAY to THURSDAY

By CHARLES DIDWAY

A FEW PEOPLE hereabouts who were disappointed over the U. S. not getting our first astronaut into space Saturday morning seem to be of the opinion that if a few clouds in the Florida sky is all that stopped the launching, then they should schedule the next try for West Texas. There wasn't a cloud in the sky here Saturday morning. But, of course, these people aren't serious—or are they? I'm of the opinion that they're just showing pride in their section's weather, and wouldn't think of having the government go to the expense of moving Cape Canaveral to West Texas.

The Man up the Street says some boys don't follow in father's footsteps because the old man didn't make any tracks.

ONE OF OUR readers found a copy of this letter, author unknown, in an old file:

Dear Superintendent:

I appreciate your offer of a job for my girl. She had her heart set on being a school teacher but I talked her out of it. Teaching school is too much like being a preacher's wife. It's a high calling but people expect you to give more'n they pay for.

You take the teachers here in this town. The only difference in them and Christian martyrs is the date and lack of bonfires. They're hired to teach the ones that learn and entertain the ones that fell on their heads. But that ain't enough, half the time they're nurses so mothers can get a rest.

But that ain't the worst. They've got to set up shows and plays to work the school out of debt and sing in the choir and teach Sunday school. I'd just as soon be a plow mule. A mule works just as hard but it can relieve its soul by kicking up its heels after quittin' time without startin' any talk.

I appreciate your offer and may the Lord have mercy on you but my daughter is not interested.

Mary's Mother

Will Jones of the Minneapolis Tribune comments, "They're calling up so many National Guard divisions, there want be anybody to take the kids to school in Little Rock."

IN MY SPARE moments—usually while waiting for an idea to strike—I've been watching some of the store front remodeling work, just across the street from The Dispatch office and easily visible from the window at which my desk sits. I just saw a plate glass company truck drive up with the lettering, "You Can See Through Our Business." If I were that clever, I'd have had this column finished an hour ago and would have been on something else that's more important.

ANOTHER MARKET for verse is disappearing. The Burma Shave people have decided to switch from roadside jingles to TV spots, on the ground that people drive too fast and there are too many toll roads where signs are banned.

The company used to pay \$100 for each verse accepted from amateur jingle-makers.

Sometimes the signs got the Burma Shave people into trouble. One read:

"Free Fare  
A Trip to Mars  
Send 900 Empty Jars  
Burma Shave."

When an Appleton, Wis. grocer showed up at company headquarters in Minneapolis with the 900 required jars, company executives huddled, came up with a solution. The grocer got an all-expense-paid trip to Mars, Germany.

Now the Burma Shave people could have saved money by sending the prize-winner, provided he was willing, to Mars, Texas, which is a hamlet of some fifty souls in Van Zandt County. Or, if the prize-winner had balked at that, they could have changed the wording of the jingle and awarded him a trip to Venus, Texas, which, with 324 inhabitants, probably is a mite more impressive place to visit than Mars, Texas.

ON MUCH THE same subject, hardly anyone in Texas seems to care much about loving these days, county-wise anyway, according to the February Catholic Digest. Loving County, Tex., is the least populated of the nation's 3,072 counties, with only 266 people living in its 647 square miles. Loving County lies west of Kermit and Wink. It has one little town named Mentone on State Highway 302.

SCIENTISTS ARE developing machines which can translate languages at high speed. They are in an experimental stage and have run into some apparently insurmountable obstacles.

One machine, translating the phrase, "The spirit is willing, but the flesh is weak," into Russian, came out with this rendition: "The vodka was good, but the meat was terrible."

**In Our Time**

WINTER MONTHS CAN BE FUN...  
IT IS A PLEASURE TO WATCH THE SNOW FLEW UP OUTSIDE OF YOUR WINDOW COZY HOME WHEN YOU KNOW THAT PLANS HAVE BEEN MADE TO QUICKLY REMOVE THE SNOW FROM YOUR COMMUNITY'S STREETS AND YOUR OWN DRIVEWAY.

THUS, THE DIFFERENCE BETWEEN AN ENJOYABLE WINTER AND ONE OF TRIALS AND FRUSTRATIONS CAN BE NOTHING MORE THAN GOOD PLANNING TO COPE WITH THE PROBLEMS OF WINTER...

FOR EXAMPLE, HEAVY RUBBER Tired TROJAN TRACTOR SHOVELS EQUIPPED WITH SNOW FLOWS CAN TRAVEL RAPIDLY OVER CITY STREETS OR COUNTRYSIDE TO CLEAR THEM OF SNOW, OR WITH THEIR STANDARD HYDRAULIC LIFT-BUCKETS THEY CAN LOAD THE SNOW INTO TRUCKS FOR DISPOSAL... OVER-EXERTION FROM OLD-TIME HAND SHOVELING CAN BE Averted.

Dennis D. Taylor, 42, of Crosby County, announces his candidacy for the office of United States congressman from the 19th Congressional District, subject to the Republican primaries. Taylor, a farmer, has spent most of his life in Crosby County. His wife, Rachel, is a school teacher. They have three sons, John, Joe and Tom. Taylor's statement to the voters follows: "Feeling a high degree of personal responsibility, I offer myself as a candidate for nomination as representative of the 19th Congressional District in the Republican primary. "In rising to the defense of my family and its freedoms and to the defense of our national liberties, I invoke the wisdom and direction of Almighty God in my every decision, that I may be a worthy citizen of His Kingdom and of our nation. "I believe that candidates for public office and employees of government at all levels should state their beliefs with respect to capitalism, socialism, and communism. "I believe that the democratic principles of free enterprise and human freedom upon which our nation was founded are responsible for its greatness. "I believe in the right of every man to choose his own occupation free from compulsory unionism; to be rewarded in accordance with his productive contribution to society; to save, invest and spend his

earnings as he chooses, and to worship as his conscience dictates. "I believe that further centralization of power and authority in the federal government and the apathy of American people to this trend are among the greatest dangers threatening our Republic and the American way of life. Planned economy concepts, such as socialism and communism, fascism and other forms of totalitarianism must be opposed wherever and in whatever form they may be found. "In order that I may as an individual make greater contribution to the above stated principles I shall spend and be spent in my efforts to serve God and my country in the conservative movement most profound in the Republican party of Texas. "I earnestly solicit your vote and your help to win this political race. These fundamental principles which we hold near and dear to our hearts are consistent with the Word of God upon which our forefathers founded the Constitution of our land."

# Political interest picks up as Monday's filing deadline nears

## Poll tax receipts, exemptions point to 2,000 voters

With Monday, Feb. 5, the last day for candidates to file, outstanding developments this week in the 1962 political races in Garza County were the entry of a sixth candidate into the Precinct 2 commissioner's race and the filing of a Republican candidate for U. S. Representative from the 19th Congressional District.

The entry of Homer L. Gordon, Post stock farmer, in the Precinct 2 commissioner's race brought the number of candidates to six. The first Republican to announce his candidacy in The Dispatch is Dennis D. Taylor, Crosby County farmer and landowner, who is a

The six candidates is believed to be the largest number ever to file for a commissioner's race in Garza County.

The other candidates, in the order they announced their candidacy, are E. E. (Elva) Peel, who is seeking re-election; John N. Hopkins, R. E. Josey, A. P. (Chuk) Gurley and G. A. (Buck) Harrison.

There is also lively interest already in the county judge's race, where J. E. Parker, seeking re-election to another term, has drawn opponents in A. C. Cooke and J. Lee Bowen, a former county judge here for 12 years.

The only other contested race to date is that for Precinct 4 commissioner, in which the present of-

ice holder, Mason Justice, is opposed by Sid Cross, a former Precinct 4 commissioner.

Unopposed so far in announcing for re-election are District and County Clerk Carl Cederholm, County Treasurer Faye Cockrell, Precinct 1 Justice of the Peace D. C. Roberts and County School Supt. Dean A. Robinson.

Mrs. Connell and her husband, a retired rancher, banker and business man here, moved to Post from Gail after having also lived in Fort Worth. They moved to Los Angeles, Calif., seven years ago.

The Rev. Ed Herring, First Presbyterian pastor, officiated at the funeral services.

Mrs. Garland Huddleston sang "In the Garden," accompanied by Mrs. Warren Yancey, organist.

Program Chairman Jim Jackson introduced the guests after which Bell Telephone Company showed the film, "Seconds for Survival."

President Bob Meisch announced that the club's lamb will be assigned to some absentee member next Tuesday night if he misses the meeting.

A large sign has been painted to be placed on the member's front lawn. The sign reads: "This Lion and the lamb must live together until this Lion repents."

Most members thought the newly purchased lamb would be assigned Tuesday night. Only two were absent.

## For areas south and east of Post

# Loan 'okay' assures rural phone service

Rural telephone service is now assured for a large Garza area south and east of Post with the final approval of a \$510,000 REA loan in Washington for construction of the many miles of phone line.

Dale Cravy, who lives 18 miles east of Post and who helped initiate the project in November, 1960, told The Dispatch Wednesday that the Caprock Telephone Company of Spur will begin building the new lines just as easements for the property owners involved.

The easements are now being prepared. Cravy said he plans to start distributing these forms next week.

Plans and specifications for the equipment are now being drawn, Cravy said.

Plans call for a central office for the dial system to be located some six miles out of Post on the Spur highway.

Cravy reported that General Telephone and Caprock Telephone are working out an operating agreement for the handling of the rural calls into the Post trade center.

Mayor Powell Shytles told the city council last month that General Telephone Co. at Spur, said by letter it will seek a rate boost in connection with the tying in of the big rural phone hookup here.

Farmers and ranchers in southern and eastern Garza County have sought such telephone service for years. Some 116 subscribers to the new rural phone service already have made deposits for such service.

James Wright, manager of Caprock Telephone Co. at Spur, said some 128 miles of rural phone lines are planned in the project, offering service to the community of Justiceburg and to all rural patrons not now receiving service from other phone systems in southern and eastern Garza County.

The First National Bank has an announcement today of real economic significance to the Post area—bank deposits of over \$9,000,000 for the first time in the bank's history.

At the close of business Monday, deposits stood at \$9,183,284. This compares to the 1961 high in deposits of \$8,270,176 in early January of last year.

This is an increase of almost a million dollars in "deposit highs" in the last 12 months.

The boosting of deposits here over the \$9,000,000 mark is due to several factors, probably the principal one of which was Garza's record size, near 30,000 bale cotton crop.

An estimated 90 per cent of the big crop was sold as of Jan. 1. The bank reported deposits of \$7,698,368.97 at the close of business Dec. 31, 1961.

In this area with the influence of the big cotton crops, banks generally hit "deposit highs" for the year in January. Deposits here during the month have jumped almost \$1,500,000.

Homer L. Gordon this week announced that he has filed as a candidate for Precinct 2 county commissioner, subject to the Democratic primary elections.

Gordon's statement to the voters follows:

"After careful consideration, I have filed my candidacy for Precinct 2 county commissioner and earnestly solicit your support and influence, as well as your vote.

"I have been a resident of Post since 1946 and have lived in Precinct 2 for the last eight years. When I came to Post, I opened the city's first flower shop. Off and on since 1937, I have been engaged in heavy duty operations, building roads and other types of dirt construction, in Garza and surrounding counties. I am presently engaged in stock farming operations.

"I feel that I am fully qualified by experience to efficiently handle the precinct's needs in road maintenance, as well as in other matters coming within a county commissioner's duties.

"This is my first time to seek election to a public office. If elected, I will carry out the duties of the office with the interests of Precinct 2 and of Garza County always in mind.

"I intend to make every effort to see each and every voter of the precinct between now and the first primary election date. In the meantime, I solicit your support and influence."

Jimmy Cross, 19, one of those charged, was arrested here Monday by Sheriff L. E. (Fay) Claborn Jr. and held for Lubbock County officers.

## For White River damsite

# Directors accept offer on first sale of land

An offer to sell the first portion of land needed for the White River damsite was accepted by the directors of the White River Municipal Water District Friday night at a special meeting in Ralls.

Details of the purchase will be announced by the board as soon as final contracts for the purchase have been signed with the landowner involved. The sale contract, which includes various small details to be agreed to by both parties, is now being drawn.

The district's land committee has been negotiating for several weeks with the three landowners having property needed for the damsite.

Negotiations are now continuing with the other two landowners, the land committee reported.

Directors Friday night voted to give the land committee authority to make final determination of the land needed for the damsite.

Jim Nichols of the Fort Worth Engineering firm of Freeze and Nichols told White River directors that the board could figure dam construction would be started 120 days after "you give us the go" to advertise for construction bids.

He advised the board to be sure to have the land "in sight" before entering this phase.

He said about 30 days will be required for minor revisions of plans which have been completed for some months.

The board voted to agree to accept the remaining \$3,820,000 of its

## 1,625 Poll Taxes

A total of 1,625 poll tax receipts were issued through yesterday's deadline date, it was reported this morning by T. H. Tipton, county tax assessor-collector. This is considered an unusually high number of poll taxes for an election year other than presidential. Exemptions, which go to those past 60 and those just reaching voting age, will swell the voting potential to near the 2,000 mark, Tipton estimated.

candidate for the 19th District congressional seat now held by George Mahon.

Mahon has not yet officially announced for re-election, but has indicated that he will do so. He is a veteran of some 25 years in the Congressional seat from this district.

Another new announcement this week is that of Truett Smith of Tahoka for re-election to the office of District Judge of the 106th Judicial District, subject to the Democratic Primary election.

Prior to the announcement of Gordon that he had filed for Precinct 2 commissioner, five other candidates had announced that they had filed for the position.

## Runkles speaker on archaeology at Rotary meet

Frank (Chief) Runkles, former head of the South Plains Archaeology Society, told Post Rotarians at their luncheon in City Hall Tuesday that some 240 Indian campsites have been located in Garza County and recorded.

In an interesting talk on archaeology, Runkles went into considerable detail about the site "find" 17 miles southwest of Post on the U Lazy S ranch during survey work for the new Gail highway in November, 1958.

Members of the Garza chapter of the South Plains Society, working under heads of the West Texas Museum at Lubbock, worked weekends through 1959 and excavated over 1,000 square feet of occupation zone of the site and unearthed over 9,000 pieces of bone and Indian artifacts.

The site has since been covered over by the new highway. Runkles said carbon samples obtained at the site can be laboratory tested to determine the age in (See RUNKLES, page 4)

## Matthews baby's rites conducted in Post Sunday

Funeral services for Jimmy Matthews, infant son of Dr. and Mrs. James R. Matthews, who died Saturday night in Garza Memorial Hospital from injuries received in a fall with a sharp object in his mouth, were conducted at 3 p. m. Sunday in the First Baptist Church.

The infant, who would have been one year old Feb. 14, was fatally injured when he fell from his walker, lodging the sharp object in his throat.

The infant, apparently near death, was rushed to the hospital by his mother about 5 p. m., with death occurring some two and a half hours later.

The Rev. C. B. Hogue, First Baptist pastor, officiated at the funeral services. Lex Roby, First Baptist minister of music and education, sang "How Great Thou Art," accompanied by the organ by Mrs. Phil Crenshaw.

Interment was in Terrace Cemetery under direction of Hudman Funeral Home.

Besides his parents, the child is survived by two sisters, Kathy and Laurie, and his grandparents, Mr. and Mrs. J. E. Matthews of Kaufman and Mr. and Mrs. Pete Curry of Sweetwater.

## Retail Merchants hold weekly credit luncheons

The second of a weekly series of credit discussion luncheons was scheduled by the Post Retail Merchants Association at noon today at Levi's Restaurant.

Some 25 local merchants turned out last Thursday noon at the initial luncheon to discuss their mutual credit problems. Bad check information also was exchanged.

## Temporary homes are sought for juveniles

The new Garza County Board of Juvenile Referees and Counselors needs several homes in Post where youths can be kept in wholesome environments for periods of time not to exceed two weeks.

The Post Ministerial Alliance at its monthly meeting last week voted unanimously to place this urgent need before their congregations.

Rev. Bernard S. Ramsey, First Christian Church pastor and chairman of the Juvenile Board, explained at the meeting that several hearings and cases had been handled by the new board and that frequently it is deemed advisable to effect an immediate change in the environment for the future welfare of the various young people who come to the attention of the court and the Juvenile Board as well as for the best interests of all concerned.

The board serves under the jurisdiction and supervision of County Judge J. E. Parker.

"Some time is required for the placement of the young people in wholesome environment especially first offenders," Rev. Ramsey said. "So the board needs several homes in Post where the boys or girls can be placed temporarily, usually not longer than two weeks."

No more than one boy or girl will be placed in any private home at a time. Homes where some adult is present throughout the day and night are most desirable, he added.

Rev. Ramsey said the board already has compiled a number of

## Postings

By JIM CORNISH

The area's economic pulse rate is about getting better. Three of the Dispatch's major front page spots today bear this out.

First off, a hustling, on-its-toes is about the best stimulant to any economy. Announcement today that the First National Bank's deposits have zoomed over the \$9,000,000 mark in the last few days is indicative of the enterprise of our local and its fine team of young men. More deposits means simon pure funds available for loans.

Second news story of prime importance is that of telephone service being guaranteed to a large rural area for the first time. The quick dial communications are their trade center. It's the best news possible for 16 rural subscribers seeking service and good news too.

Third, and highly important too, is that at last the White River district has come to terms with the three landowners. Land is needed for the White damsite. Details will follow the contracts are signed. This hope that the other two will be terms within the next few weeks is of the essence now \$4,000,000 due to start drawing in just two weeks.
