## Two-part hike asked for new rural service

General Telephone Company's proposed rate boost for extended area service to cover new subscribers in the Verbena rural exchange will be reconsidered by the city council at a meeting with telephone officials Monday afternoon.

The telephone company, at a special meeting last Thursday afternoon, asked for a rate increase of 10 cents per main station and 25 cents per extension telephone. The city council went along with the telephone company's request for a 10-cent increase per main telephone, but balked at the 25-cent increase on extension telephones.

Mayor Harold Lucas and the council told the telephone men that they did not think the proposed increase on extension phone rates should enter into extended area service at all. They indicated that they were of the opinion that the company had taken advantage of the request for extended area service to present their request for a boost in the rates now being paid here on extension telephones.

Meanwhile, more than 100 rural telephone subscribers in areas of Garza County now without telephone service are waiting to see what the outcome will be.

THESE RURAL subscribers' telephones have been installed by Caprock Telephone Company, but they won't be able to use them for calls into Post until the extended area service is provided by General Telephone Company.

The extended area service on the part of General Telephone Company will consist of tying in with the Caprock Telephone Company's lines at a point about three miles (See Phone Hike, Page 8)

Approximately 140 ex-students and other guests attended the homecoming banquet here Friday night and heard Barry Thompson, superintendent of schools, speak on the subject, "To the Exes of Passing Years" was the theme of the banquet program.

## Clemmons resigns as principal here

Al B. Clemmons, principal of Post Primary School, resigned school administration position last Friday and announced he was opening an interior and exterior decorating business in Post. Clemmons was in his third year as principal here. Superintendent of Schools Barry Thompson announced that the resignation will be presented to school trustees Monday night at their regular meeting. Mrs. Bettye Scott and teacher for the year until principal is secured. Thompson is hoped to have a new administrator on the job in two weeks.

## Garza 1963 total up to 2,393 bales

## Almost thousand bales ginned in 7 days

Almost a thousand bales of Garza cotton was ginned in the seven days during the last week of stripping operations because more widespread.

The 1963 county total now stands at 2,393 bales. The ginners were quick to point out that there is more stripping on this week that the big crop of cotton farmers still are ginning on the first killing frost.

The gin total last Wednesday was 1,403 bales. Cotton gradings are still running good, ginners report.

The gin reported 375 bales ginned to date and working a 10 day with 34 bales ginned today. The Close City gin has ginned 20 bales a day.

## Saddle stolen from Carl Rains' farm

A proverbial shoe was on the foot for Carl Rains, former county sheriff, Sunday night, when a saddle stolen out of a stable that night on his south of Post.

It seems rather simple really—but it isn't, not where the American voter is concerned. There is simply bound to be some confusion with two different elections coming up in Post the next two Saturdays, especially with the ballot boxes in different places for the two elections.

## White River water district election Nov. 16 explained

Every time the White River Municipal Water District expands, it will have to hold an election to obtain voter approval for the assumption of the district's indebtedness by the enlarged district. This is the official explanation given for the first such election which will be held a week from Saturday, Nov. 16, in the four member cities.

Post voters of the district will vote in City Hall. This water district election is not to be confused with the special state-wide election on four state constitutional amendments which will be held this Saturday, Nov. 9. In "A message to the voters of the White River Municipal Water District" by the Board of Directors of the district, appearing on page 7 of today's Dispatch, this reason for the election is pointed up.

The district created about six years ago originally consisted of the townships of the four member cities of Post, Ralls, Spur and Crosbyton at that time. Three of the member cities, including Post, have expanded their city limits since that time and this year these expanded areas were taken into the water district by a special state law permitting such enlargement. The Nov. 16 vote will be to give voters the opportunity in the enlarged water district to assume the current bonded indebtedness of the district.

Water district supporters are urging a top-heavy vote of approval. Such elections will become necessary hereafter each and every time the water district expands.

## Funeral services for Will Wright held Wednesday

Funeral services for Will Wright, 76, well-known Post resident, who died at about 6 a. m. Tuesday at Garza Memorial Hospital, were conducted at 2:30 p. m. Wednesday at the First Christian Church.

Mr. Wright, who lived at 201 South Ave. P, had been a resident of Post and Garza County since 1924.

He served as chairman of the Agricultural Stabilization and Conservation Service Committee and its predecessors for 26 years, from 1932 until 1958, and was awarded a 25-year pin by the ASCS a few years ago.

Mr. Wright was also on the board of supervisors of the Duck Creek Soil Conservation District for a number of years when Garza County was included in the district, and was on the advisory committee of the county Farmers Home Administration.

Mr. Wright was born Feb. 20, 1887, at Van Alstyne, Tex. He was married to Miss Minnie Pierce in Fort Worth on Dec. 8, 1910, and they lived in Stonewall County and in Munday before moving to Garza County. Mr. Wright was a farm overseer for the Bear Ranch in Stonewall County for a number of years.

After moving to Garza County, the Wrights lived on a farm in the Graham Chapel community until moving into Post in 1960. Mr. Wright had been a member of the Methodist Church since childhood and was a Mason.

The Revs. Bernard S. Ramsey, pastor of the First Christian Church, and Oscar Bruce, pastor of the First Methodist Church of Post, officiated at the funeral. (See Wright Funeral, Page 8)

## Manager group to meet tonight

Ralph Duncan of Abilene, community service staff man of the West Texas Chamber of Commerce, is scheduled to meet with the Post Chamber manager research committee here at 7:30 tonight in the Community Room.

Duncan will advise the committee on Chamber organization, method of securing an experienced manager and probable cost.

The committee, which includes Jim Cornish, S. E. Camp, James Mitchell, J. B. Potts, and Mike Mitchell, also will study an analysis of the current Chamber membership, dropouts, and local firms not on Chamber rolls.

## City officials attend conference in Houston

Mayor Harold Lucas, City Supt. Eddie Warren and Councilman Arnold Parrish returned last night from Houston where they attended the annual conference of the Texas Municipal League.

The conference, which opened Sunday, took up the problems of Texas municipalities, large and small. Among the discussions was one on developing modern municipal revenue policies for the "sovereignty and independence of Texas cities."

## Nine floats planned for Christmas parade

Nine high school organizations will decorate floats for Post's Christmas Opening parade Saturday morning, Nov. 23, School Superintendent Barry B. Thompson, who is parade marshal, announced today.

The four high school classes—freshmen, sophomores, juniors and seniors—as well as the Future Farmers of America, Future Homemakers of America, Math and Science Club, Pep Squad, and Speech Club will enter floats on various portions of the parade theme—Christmas Around the World and Through the Ages.

The senior class has been assigned the float which will bring Santa Claus to town for the first time this Christmas season.

Cost of the float making will be paid by local merchants who are sponsoring the parade through a Retail Merchants Association committee. The nine high school organizations will compete for first, second, third and fourth place trophies.

It is planned to be the biggest Christmas parade in the town's history and will kick off the Christmas season here.

A number of area bands and an antique car division will be other major parade features.

Parade Marshal Thompson invited Governor John Connally to ride in the parade, but Texas' chief executive wrote he had to decline the invitation. "I am very sorry, but it will not be possible for me to be with you," Connally wrote Thompson. "Thanks for thinking of me."

Thompson said he is working on other parade features, which may be ready for announcement next week.

T. B. Odam, chairman of the Chamber Christmas decorations committee, said today that downtown street decorations will be up in time for the Nov. 23 Christmas opening.

Purchase of permanent decorations were ruled out for this year, but the lights and strings of greenery will be strung across Main street and a big downtown Christmas tree again will be lighted with 300 lights.

Stores are planning to put the community in a holiday mood with Christmas windows and holiday decorations up in their stores by parade time.

Post is getting an early Christmas season start this year. In case the crowds who come to see the novel Christmas parade—the first one like it in many years here, if ever before—merchants will be ready for early Christmas shoppers too. The first Christmas ads for the new season will appear in The Dispatch's Nov. 21 edition which will be given distribution to the far edges of this community's big trade territory.

## Petition to circulate

## Garza entry in water district is proposed

Petitions for annexation of a portion of Garza County into the High Plains Water District will be circulated soon, it was announced yesterday following a meeting Tuesday night of the Young Farmers organization.

The signatures of 50 landowners of that portion of the county involved will be necessary before the petition is presented to the water district's board of directors.

The only part of Garza County eligible for admission into the district is the part above the caprock inside the water district's original boundary line.

After the petition is presented, the water district's board of directors will hold a hearing at which a decision will be made whether or not to call an election for the annexation.

Thirteen members and 26 guests were present at Tuesday night's meeting of the Young Farmers, which was their regular November meeting. The guests included representatives Wayne Wyatt and Donald Reddell from the High Plains Water District and the district's attorney, H. G. Wells.

The purpose of the meeting was to explore the possibilities of the Plains section of Garza County going into the water district. Co-sponsoring the meeting with the Young Farmers was the local office of the Soil Conservation Service.

Doug Cunningham of the SCS office here brought the group up to date on the water district. (See Water District, Page 8)

## VETERANS' SUPPER SET FOR SATURDAY

The American Legion Post's annual Veterans' Day supper will be held at 7:30 o'clock Saturday night, Nov. 9, at the Legion Hall here.

The annual Veterans' Day supper launches the Legion post's membership drive each year. All veterans are invited to attend, whether or not they are a member of the American Legion. Post Commander John Davis said.

Following the supper, the evening will be spent playing dominoes and "just visiting" Davis said.

Elsewhere in Post, Veterans' Day, which is Monday, Nov. 11, will receive little attention. Most business places will be open, but a number of public places will be closed. These will include the courthouse and the city hall. The First National Bank will also be closed.

After the petition is presented, the water district's board of directors will hold a hearing at which a decision will be made whether or not to call an election for the annexation.

## Election Saturday on 4 amendments

A light turnout is expected in Garza County Saturday for the special election on four state constitutional amendments.

Polls will open at 8 a. m. and close at 7 p. m.

County Clerk Carl Cedarholm said the only precinct voting change for this election is for precinct No. 9 (Two Draw) which will vote in the old Postex Mill office fronting on South F street.

Other Post polling places, with out change, are the Garza Youth Center for precinct No. 1 and the High School building for Precinct No. 8.

A story on the poll tax amendment issue appears on page 15 of today's Dispatch. A public service ad by The Dispatch listing the four amendments which will be voted appears on page 12.

## Saddle stolen from Carl Rains' farm

A proverbial shoe was on the foot for Carl Rains, former county sheriff, Sunday night, when a saddle stolen out of a stable that night on his south of Post.

The Rev. Guy Self of Stamford, who grew up in the Verbena Community, was the principal speaker Sunday at ceremonies marking the installation of a Texas historical medallion on the community's old church building.

The Rev. Mr. Self told of the early days in the community and of the importance and far-reaching results of the religious training available there in those days.

Miss Henrietta Nichols of Post, a former resident of the community, opened the program with a welcome and thanked members of the Garza County Historical Survey Committee, who had secured the medallion for the church. Miss Nichols also thanked members of the Verbena Club, which paid for the medallion.

Special recognition was given Mrs. Firm Self of Lubbock, widow of the Rev. Firm Self, a Baptist minister who served as pastor of the church for seven years.

The Verbena church, organized in August of 1902 with nine charter members, is the oldest church building in Garza County.

In charge of the medallion dedication was Mrs. A. C. Surman, who is chairman of the county historical survey committee. Mrs. (See Verbena Church, Page 8)

## HALLOWEEN 'FIRES' MARK SPOOK NIGHT

The exuberance of youth here Halloween night was concentrated on outhouse burnings.

And for the adults who like to see them flame, they hit the jackpot.

Three were burned last Thursday night.

No serious damage by vandals was reported.

Trick and treaters were out in force, as usual, with all the concentration being on the treats—not the tricks.

Post's Halloween tradition has been preserved for another year.

## The Nov. 16 White River vote

With two special elections coming up on the next two Saturdays for local voters there is bound to be a considerable amount of confusion involved. The first election Saturday, Nov. 9, is for the four amendments to the state constitution. The second, the following Saturday, Nov. 16, is for the White River Municipal Water District to approve the assumption by the expanded water district of its present bonded indebtedness.

This editorial is to call attention to the Nov. 16 White River district election.

On page 7 of today's Dispatch, the White River district has an ad explaining the reason why it was necessary to call this final White River district election. A sample ballot also is included for your study.

The Dispatch urges the solid support of all Post voters in this water district election.

When the district this year expanded to include all added portions of the four member

cities since the district originally was organized as a new state law permitted it to do, it was merely passing on a fair portion of the district's bonded indebtedness to the new additions of the four member cities so that property owners in these additions would pay their share of the cost in taxes since they would receive equal benefits from White River water.

The election Nov. 16 gives the voters of the district their opportunity to approve passing on the district's indebtedness in the enlarged water district.

The White River dam facilities, filtration plant, and water pipe lines are virtually complete. Voters this time will not be voting on a "dream" — or something years in the future. It will be their last necessary act.

A top-heavy vote of approval should be mandatory. Our "dream" has become reality.—JC

## Help strike down the poll tax

Texans will go to the polls Saturday, Nov. 9, to vote on four amendments to their state constitution—the most important of which is repealing the poll tax as a requirement for voting.

Actually, if the repeal amendment passes the poll tax as such would still remain in the constitution, as it has since 1876, but few people would pay it, so for all practical purposes the tax would be eliminated.

The loss in revenue to the state will not be great. The maximum tax is now \$1.75 a year with \$1 going to the public schools and 50 cents to the state's general revenue fund. Counties may collect an additional 25 cents, as has been done here in Garza County, to pay for cost of administering the system. In 1962 Texas schools received \$1.6 million dollars from this source and the general revenue fund only \$328,000. The total was only about a third of 1 per cent of the state's total revenue.

Renewal is urgent Saturday because an amendment to the federal constitution outlawing the poll tax as a requirement for voting in the election of federal officials is practically certain to become effective next year. This means that unless the poll tax is removed as a requirement for voting in state and local elections, it will be necessary for the state to maintain two voter registration lists. The confusion at the polls in the 1964 presidential election year would be tremendous, not to count the greatly added cost.

It might even cost the voter more than the going \$1.75 rate to vote next November under such circumstances if he had to pay \$1.75 for a state and county ballot and something more for a registration fee for the national election.

Obviously, Texans must not let this happen. The Dispatch is solidly for poll tax repeal, has been for years, and views the Saturday election as a great opportunity. Our only regret is without the hoopla of some "big candidate races" only a minority of Texans will bother to vote and thus decide the issue.

Only five states of 50 now make payment of

the poll tax a requirement for voting and Texas is one of these.

Approval of the amendment will abolish the present voter registration system in the state, but the Legislature already has authorized a new system which will become effective next year if the amendment is approved. This new law provides for annual registration before Feb. 1 and fixes a registration fee of 25 cents.

While The Dispatch doesn't like the Feb. 1 deadline for re-registering for an entire voting year, we point out this law would be subject to change at any time by the legislature and thus could be more easily changed than going through the long, expensive constitutional amending process.

Since the right to vote is a constitutional one, The Dispatch and many others feel it should not be abridged in any unreasonable way in a governmental system based on representative democracy. In short, no one should be required to pay for the right to vote.

The extent to which the poll tax payment requirement actually keeps people from voting in Texas today is uncertain, but there is no doubt that it does prevent some. The Dispatch strongly believes that any deterrent to maximum citizen participation in their government, and the election process specifically, is bad and should be removed.

The voter registration fee that the new law would establish if the constitutional amendment is adopted is normal, barely sufficient to pay the cost of administering the voter registration system. But this fee can be removed very simply by the legislature at any time the people want it eliminated.

The poll tax as a requirement for voting is obsolete, a hangover from the past for which there is no longer any valid justification. The proposed amendment repealing it, therefore, should be adopted for both philosophical and practical reasons.

Do your part by going to the polls Saturday and helping to strike it down.—JC

## These headlines have second meaning

There is a refreshing new spirit of cooperation and responsibility in the air in Post these days to get on with the job of building a bigger and finer community.

Leadership is being exerted. Problems are being tackled — and solved. What's more there is a growing realization for the need to look ahead and plan not just for our next jump—but for the long pull.

The Dispatch front page has been full of invigorating headlines these past few weeks.

"Urban renewal plan for Post explained."  
"Christmas parade plans progressing."  
"Committee named to study Chamber manager hiring."  
"Blackeye pea project looks good for big 1964 kickoff."  
"Lay committee named to study school needs following school survey by experts."  
"\$80,000 Sewer Expansion Job to be underway soon."  
"City seeking municipal airport site."  
"City zoning ordinance recommended by planners."  
"White River dam project nears completion—new lake is catching water."

Those kinds of headlines over the last six weeks total up into an impressive display of community determination and drive.

We predict in the weeks and months ahead there will be many more of such "good news"

headlines.

When business and professional men take the time to come to night meetings and talk out problems and get together on projects, then the community is on the move again. And that is what has been happening.

Not only that but responsive leadership has picked up their assignments and quietly and constructively carried them out. Most of the "headline projects" are only in their working stage. But each of them promises to bear ripe fruit.

And we have the feeling that this is only the beginning of a new surge of community zeal to get things done. We are moving not just on one front—but on several fronts at the same time. We have not solved all of our problems, but we have come to grips with a good number of them.

We can't help but feel optimistic at such a community display of determination and togetherness for common good. It is the "on its toes" community which reaps the benefits. And Post is rapidly maneuvering itself into position to better itself, perhaps far more than most of us at this time realize.

We have made only a solid start. Let's keep it moving. There is plenty we can do—without raising taxes.—JC

## Antelopes capable of upset

The build-up is terrific for the Post Antelopes' game against Denver City Friday night in the Mustangs' home corral. It is, perhaps, too terrific.

Coach Harold Teal's Antelopes, already enjoying their best season in something like 15 years, can win the District 4AA championship by upsetting Coach Don Orr's Denver City team Friday night.

But, what are the odds facing this season's scrappy Antelope eleven? They are overwhelming, to say the least.

Denver City, one of Texas' top Class AA teams for the last five years—including one state championship—was the pre-season pick at the annual state coaches' school to win the state championship this year.

Ever since the season started, Denver City has been ranked well up among the top ten in both wire services' ratings, as well as by many big-city newspapers. They were No. 1 until week before last when they lost to Sweetwater, a Class AAA team, and their lowest drop then in any of the ratings wasn't lower than fifth among the top ten.

Outside of their District 4AA schedule, Denver City doesn't play any teams lower than Class

AAA, and they beat most of them. Thus, they well deserve the high rating given them by the wire services and the daily newspapers.

All this is by way of showing the odds against the Post Antelopes when they square off against the Mustangs Friday night. A Post victory, which no one is more hopeful of than we are, definitely would be one of the season's major upsets in Texas high school football.

The fact that such an upset is possible is what is going to draw large numbers of Post fans to the Antelope-Mustang game Friday night. None of them have forgotten the outstanding effort turned in by the Antelopes last year against Denver City when they faced odds just as great, or, maybe, greater.

It has been a long time since school spirit has been as high as it is this year and a long time since football fans have rallied behind the Antelopes as they have this season. It also has been a long time since a Post football team has staged an upset that would measure up to what Friday night's would be if the Antelopes were to beat Denver City. Can they do it? They're capable of it. Let's go see!—CD

**DID ANYONE TAKE** particular notice of how close together Halloween and Homecoming came last week? Some of the little tykes who were darting around in masks Thursday night should have just kept them on and joined in the fun at the football game Friday night. There weren't any masks used in the pre-game and halftime crowning ceremonies, but there were all sorts of crowns and helmets being placed on heads, and bouquets and boxed gifts changing hands.

If I have to make as many trips from the stands to the playing field with my camera at next year's Homecoming game, I'm in favor of them installing a gate nearer than the one at the north end.

**AMONG THE THINGS** I noticed at the Ex-Students' Homecoming banquet, which I had to leave early on account of picture-taking commitments at Antelope Stadium, was the fact that not many of the recent graduates were present. There was good representation for all the years up to about 1960, but from then on the number dropped to nothing for some of the years when exes' president and toastmaster Bob Collier asked them to stand. As the younger ones mellow with the passing years, of course, they'll start finding it more attractive to sit down at a nice, easy-going banquet than to spend their Homecoming time in other pursuits.

One of the 1960 graduates, Horace "Hoss" Smith, would have been a contender for the prize awarded the graduate coming the greatest distance, if he had been at the banquet. Hoss, who has been doing pipe line work in Montana, arrived home just in time for the big Homecoming event. He left Montana with his brother Bob, also a PHS graduate, but Bob's new automobile broke down between here and there, and Hoss came on in by plane.

**THE PROGRAM AT** the Homecoming banquet was one of the most enjoyable ever held at one of the annual events. The "Parade of Passing Years" theme went over big as delivered by the master of ceremonies, but he gave credit for the script to his wife, Mattie Collier, and to Boo Olson, Mattie and Boo did a real clever job on it, and Boo also made the evening more enjoyable with appropriate piano music as Bob recounted the highlights of each successive year.

"I'm sorry I didn't get to stay for all of Supt. Barry B. Thompson's Homecoming address, which I know has a good one from the way it started, but these pictures you're supposed to take at a certain time have a habit of folding up and slipping away if you're not there to take them.

**MY FRIEND UP** the street says how a man turns out depends a great deal upon what kind of woman decides to marry him.

Halloween and Homecoming, as mentioned earlier in this column, aren't the only things bumping into each other. With two games remaining on the varsity football schedule, basketball drills are already getting under way for some of the teams in the Post schools. That isn't all. This year's big Christmas event, the Nov. 23 parade, will be just five days ahead of Thanksgiving, which is Nov. 28, the latest it has been since 1958. The reason so many of us are confused these days is because it is so easy to get that way.

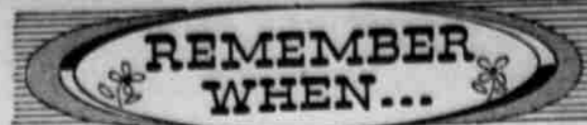

**NOT HELPING ANY** in clearing the confusion is the fact that we have two elections coming up the next two Saturdays. The one this Saturday, the 9th, will be on four proposed Constitutional amendments, including repeal of the poll tax as a requirement for voting. The election the following Saturday, the 16th, is on the assumption of bonded indebtedness within the annexation-expanded White River Municipal Water District.

Also, National Indigestion Season begins Thanksgiving Day and continues through Jan. 1.

A **PSYCHIATRIST** says conceit is a form of illness. It's a strange ailment that exhilarates the victim and makes his associates sick.

Melvin Belli, in case you haven't heard of him, is a San Francisco lawyer, who is head of the Anti-Digit Dialing League, which is giving the telephone company all sorts of trouble in California. Belli went to court and stopped the telephone company from making the change-over to digit dialing—which the company now declares is costing them \$500,000 a day.

**THIS FELLOW** Belli says the time is coming "when people all over the country, millions of us, will pick up the phone and dial the operator and demand that she connect them with Mr. George Puskarnick Jr. of Davton, Ohio. If he is not at home, find out where he is and reach him there. No, we do not want to be connected with

## Cotton farmers start big counterattack to hold, expand markets

PHOENIX, Ariz.—Cotton farmers launched a determined counterattack yesterday to hold and expand markets for their fiber by approving research and promotion projects calling for expenditures of \$2.6 million during 1964.

Projects totaling \$1.8 million for promotion and \$800,000 for research were announced at a meeting here of trustees for the Cotton Producers Institute, a voluntary organization financed by growers across the Belt.

Trustee Chairman Russell Giffen, Huron, Calif., said promotion projects will seek to better inform U. S. housewives and others on what cotton products have to offer in appearance, performance, comfort and economy. Campaigns are scheduled for the late winter and spring season and next fall.

Aims of research projects are to cut costs of producing cotton, to improve quality of the raw fiber, and to produce new or improved cotton products, Mr. Giffen said.

## GROWING LASER CRYSTALS

High-purity laser crystals of calcium tungstate are grown in crucibles made of iridium—one of the platinum-group of precious metals. Iridium is used because it can easily withstand the high temperatures, often more than 3200°F, necessary for laser crystal growth.

**Younsters ride horses from Fluvanna to Post**  
 When the A. P. Sweeten family moved back to Post from Fluvanna recently, their two sons, 13-year-old Noah and 11-year-old Tommy, made the move by horseback.  
 The youngsters left Fluvanna on their horses about 10 a. m. and had completed the 32-mile ride by sundown, their parents said.

**BEING TRANSFERRED**  
 Mr. and Mrs. Vernon Ferguson, who have been living at 107 East 14th for the past month, are being transferred to Amarillo soon. Mr. Ferguson is employed with a road construction company.

# 'Sweetheart' from Day of Birth Is National March of Dimes Girl

"She was a sweetheart from the day she was born." This is the way her mother describes winsome, bright little Mary Lou Graves, 5, of Flint, Mich., who has been named the 1964 National March of Dimes Child.

Blonde, blue-eyed, vivacious Mary Lou is indeed a sweetheart, but one who has had more than her share of sadness. She was born with a birth defect called spina bifida, which means that the base of her spine was not closed properly. At the age of one month, she underwent an operation to correct this condition. Since then, Mary Lou has fought to be able to walk, and sometimes, she has had to fight to live.

Today, the lower part of her body is paralyzed, and she is extremely vulnerable to infections. In spite of this, Mary Lou is a cheerful little girl determined not to miss any of the pleasures of growing up. Proud of the fact that she lives in a state known as the auto capital of the world, Mary Lou tells visitors that her wheelchair is a "Kadlac." She has a frisky puppy named Prince, and she scurries after him as fast as Kadlac's wheels can take her. She tags along after her mother, helping to sweep the floor, dust the furniture and dry the silverware.

One of her favorite jobs is baby sitting for her two younger sisters and brother who were all born without defects.

**March of Dimes Symbol**  
 The National Foundation-March of Dimes has chosen Mary Lou to symbolize the 250,000 children born with a serious birth defect each year in this country.

Basil O'Connor, president of The National Foundation, explains the problem of birth defects, and the voluntary health organization's attack on it, in this way:

"Why did something go wrong when Mary Lou's tiny body was being formed? Why is a seriously defective child born to one out of 10 American families?"

"Can more of these children be helped with present medical knowledge?"

**15 Rotarians at inter-city meet**  
 Fifteen Post Rotarians were among the 500 Rotarians who attended the 39th annual inter-city Rotary meeting in the Lubbock Municipal Auditorium Tuesday night, sponsored by the downtown Lubbock Rotary club.

Jeff Williams, noted philosopher-humorist from Oklahoma who made the main address, termed this inter-city meeting "the finest of its kind in the Rotary world."

A Rotarian himself, Williams made one of the feature addresses at the Rotary

## It's My Turn ...

—By MRS. C.

There were lots of happy homes over the weekend as college were home in force for homecoming event.

Home was one of the happy seemed like Miss C the here for a few short and then off on a long bus to San Antonio. We were to see that she hadn't wasted from eating college fare to fatten her up a bit for "bread and gravy."

Purchasing all the little ends (Kleenex, hair bobby pins, toothpaste, etc.) back to college so it doesn't come out her her dwindling account, I am glad we for the bread and gravy big way. You see, I spent my grocery budget money above-mentioned items so we on the bread and gravy the rest of the week. Ugh!

Mr. C., for whom I do other a s s o r t e d at me have Saturday morning to visit our college daughter going to see that she gets are often. The luxury of bed until 9 a. m. Saturday and then lying around the dining the lockdown on classmates, suitmates and spoiled me completely. said take more of.

I think one of the nicest out coming home from not only being treated loved missed member of but also being treated . It is a well-know fact nature that we all treat a much better fashion bers of family.

Unable convincing Miss C that all the buildings and Post had not been moved at 20 feet during her able wide-open spaces really her after green San An-the closed-in feeling.

I to be following him after dismissed early on Fri- were coming down Main rounding the courthouse. ns not only stopped to children cross the street signaled with his hand was slowing down. One to look at his license now he was from that

state where pedestrians are held dear.

The saying "old generals never die, they just fade away" certainly doesn't hold true in the case of old ex-general Edwin Walker. Instead of running around yelling "charge" he is now amusing himself flying our American flag upside down. (The reason I am mentioning this is I haven't had any letters from irate readers for some time and I usually manage one or two when I mention old-won't-fade-or-die and I don't want life to get too dull.)

My hat is off to Mrs. John Huffman this week. She started calling to report her new Brownie troop meetings a few weeks ago quite faithfully. Monday when she called, she reported two brownie meetings. She has her new troop still and has now added a second year troop. I sat there with my mouth open until I realized people were watching me and then I asked: "How come?" I've been all through this Brownie and Girl Scout bit and I know what it entails. Mrs. Huffman sweetly said this other troop didn't have a leader and one of her girls was in it and she wanted her to have scouting so she now has two troops. This woman should be decorated!

Last week Editor Didway told of a week coming up in November named "Youth Appreciation Week". I can't remember to ask if we are to appreciate our youth or if we parents are going to be appreciated. Gad, won't that be a glorious week if the last part is true?

### Art Guild hears talk by doctor

## C. E. Grays, area pioneers, to mark 50th wedding anniversary

TAHOKA — Mr. and Mrs. C. E. Gray, residents of eastern Lynn County for 46 years, will be honored by their children with an open house Sunday afternoon, Nov. 10, from 2 until 4 o'clock in observance of their Golden Wedding anniversary.

The Grays live on their farm two miles north and a half mile west of Central Baptist Church in a relatively new home. All old friends of the family are invited.

Charles Elmer Gray was born at Cropper, Delta County, on July 8, 1891. Sadie Hand, who was to become his wife, was born at Henrietta on Nov. 10, 1894, and she will also be celebrating her birthday on next Sunday.

Parents of the two moved to the old Retrop community, named by an early settler there named Porter, spelled backwards to get Retrop, eight miles west of Sentinel, Okla.

Both attended Retrop school, where they were "sweethearts," and each day they met down at the corner of a road intersection and walked to school together, returning together in the afternoon.

They received their marriage license over at Cordell, Okla., and were married on Nov. 9, 1913. They lived on a farm there for four years.

In 1917, the Grays came to Lynn County to make their home, buying a quarter section of the Post Double U lands from Frank Johnson, which they moved to on Dec. 18, 1917, just in time to get in on the big drought. They lived in the

same four-room house built by C. W. Post until last year, when they sold the old house to Dr. K. R. Durham and moved in a new one. They have long loved their home, their land, their neighbors and community, and had no desire to move to town.

Their children attended old Magnolia school, which was later consolidated with Garlyn, became Garnolia and the latter finally consolidated with Post.

At one time, back when people lived and farmed in the rural communities, there were nearly 100 people living in four miles along

the road where the Grays now live. Today, there are only four people, Mr. and Mrs. Gray and Mr. and Mrs. Charley Craig. Out of the original Post settlers in old Magnolia community, only the Grays, Mr. and Mrs. J. B. Ray, Mr. and Mrs. R. L. Craig, and Mr. and Mrs. J. W. Young remain.

The Grays have four children, Chester Gray of Sundown, Lester Gray of Dilley, Mrs. R. E. (Ruby) Shedd of Post, and Cecil Gray of Lubbock; 11 grandchildren, and eight great-grandchildren. All expect to be present to help them celebrate 50 years of married life.

MR. AND MRS. C. E. GRAY

### LOTS OF VISITORS

Visitors during the weekend in the home of Mr. and Mrs. R. B. Perrin were their children and families, Mr. and Mrs. Buck Perrin of Altadena, Calif., and her mother, Mrs. Landrum Hughes of Long Beach, Calif., Mr. and Mrs. O. F. Floyd and children of Corpus Christi, Mr. and Mrs. Jerry Epley and Debbie of Abilene and Mr. and Mrs. Roy Josey and Donna.

### ODESSA VISITORS

Mr. and Mrs. Jack Bowen of Odessa visited over the weekend with Mrs. Leila Parrock, Mrs. Ella Dye and Mr. and Mrs. Howard Ferguson and family.

### OHIO VISITORS

Visiting last week in the home of Mr. and Mrs. Hilbert Askins were their son and daughter-in-law Mr. and Mrs. Gilbert Askins, and their grandson of Leroy, Ohio.

Shall I force my child  
to go to Sunday  
School and Church?

Yes, definitely!  
Startled? Why? How do you answer Lucy when she comes to the breakfast table and announces, "I'm not going to school today!" You know, Lucy goes.  
How do you answer when Lucy comes in besmudged with dirt and says, "I'm not going to take a bath!" You know, Lucy bathes.  
How do you answer when Lucy, threatened with illness, says, "I'm not going to take that medicine!" You know, she takes it.  
Why all this timidity, then, in the realm of spiritual guidance and moral training? Going to wait and let her decide what Church she'll go to when she's old enough? Don't fool yourself. By that time she'll probably believe that a decision neglected by her parents during her first twenty years might not be necessary at all. You didn't wait until she was "old enough" to decide she should go to school.  
Afraid she'll later succumb to the old story about "... too much religion when I was young... parents made me go?" This tale is obviously false. Just because she takes a bath tonight doesn't mean she'll discontinue them at the age of twenty-one.  
What shall I say to Lucy when she announces she doesn't like Sunday School and Church? That's easy. Be consistent. By firmness and example you can show her that church-going is a necessity. And in later years, she will thank you for bringing into her life the greatest values a mature person can possess — Christian habits and ideals.

THE CHURCH FOR ALL · ALL FOR THE CHURCH

The Church is the greatest factor in the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

**DROUGHT—A GROWING REALITY**  
 Emergency drought relief measures—a familiar seasonal activity in the 1950's—are once again underway for Texas in the fall of 1963.

For six years of relatively trouble-free crops, weatherwise, the state of drought looms across the land. In October, 88 Texas counties were declared disaster areas and more are expected. A paradox is evident from the weather map. Hardest hit area to date is the usually wet Central and South Texas while the usually arid Plains of West Texas is plagued with unseasonable moisture which hampers harvest.

Unfortunately, cash crops for this area are not yet too heavily hit. Areas had good subsoil and

initial rains with which to get crops off to a good start. Cotton and grain sorghum in the drought area were, for the most part, able to coast through the season and were partially helped by the hot, dry weather which made early harvest possible.

Since the current drought "came in the back door" at mid-season, our most pressing immediate problem is our livestock. Without rain on the powder-dry pastures this fall, there will be no range feed for winter.

Supplemental feeding is very expensive. It is in this field where the most immediate help is needed. Some parts of the state—particularly in North Central Texas—have been without local hay for 60 days. Local hay generally costs from \$20 to \$30 per ton. Many stockmen report they now have to pay \$50 to \$60 per ton to have hay trucked into the area.

A side effect of the dry weather is already being felt in Central and South Texas by the dairy industry. Lack of feed has cut dairy production to such an extent that milk must be trucked into areas which normally produce about enough for local consumption.

A supplemental or hay program is expected to be proposed in the near future to counteract the initial phases of the drought.

**TURBINE ALLOYS**  
 Nickel alloys play an important role in gas-turbine engines, particularly in those being developed for future automobiles. The first prototype gas-turbine sports car to race in this year's Le Mans endurance race in France used high nickel alloys in such essential components as turbine rotors and nozzles, gas ducting pipes, and as lining for its combustion chambers.

**FORT WORTH** — An attractive Floyd County girl will represent 17 counties in the South Plains area in the state finals of the 1963 Texas Farm Bureau queen contest in Fort Worth Nov. 11. She is Judi Shurbet, 17, daughter of Mr. and Mrs. Marvin Shurbet of Petersburg. Judi was elected District 2 Farm Bureau queen in a contest held Sept. 5 in Lubbock.

**TEXAS "65" SIGNER**  
 One of the over 13,000 senior citizens enrolled in Texas 65 is 102-year-old Mrs. Eunice Oliver of the Three Forks community, near Belton. The Texas 65 plan is explained to Mrs. Oliver by her 73-year-old daughter, Miss Sadie Oliver, by using a "spelling board" on which large plastic letters are placed for Mrs. Oliver to touch with her fingers. She has been deaf for 50 years and is almost totally blind. Texas 65 is the first health insurance she has ever owned.

**Driver safety performance honors won by Pioneer Natural Gas Co.**

**CHICAGO**—National honors for outstanding driver safety performance were won by Pioneer Natural Gas Company in the Gas Industry Division of the 32nd National Fleet Safety Contest conducted by the National Safety Council and sponsored by the American Gas Association.

The Pioneer Natural Gas Company fleet, consisting of 464 vehicles, was awarded third place here today in the Gas Industry Division of the contest at ceremonies held in conjunction with the 51st National Safety Congress and Exposition.

The award is based on the company's fleet safety performance from July, 1962 through June, 1963. During the period, the firm's drivers operated 7,521,800 miles and had 8.1 accidents per 1,000,000 vehicle miles of operation.

All accidents were counted in the contest except those occurring when a company vehicle was properly parked. Winners were determined after inspection of their records by an auditor appointed by the National Fleet Safety Contest Committee.

A total of 114 fleets competed in the Gas Industry Division of the Contest. They operated 39,784 vehicles and traveled 480,815,000 vehicle miles with a frequency rate of 12.58 accidents per 1,000,000 vehicle miles. The rate is a 3 per cent reduction below last year's rate.

**TOOTH FALLOUT**  
**AUSTIN**—Did you know that it's possible for perfectly good teeth, with absolutely no decay, to simply fall out?

Teeth in excellent condition are often lost because the structure on which they rest gives way.

When this support becomes diseased and gives way, the teeth become loosened and may fall out if treatment is not started early.

Gum disease precipitating tooth fall-out is popularly known as pyorrhea. But the term is misused. Dentists apply pyorrhea to only one stage of a sequence of events grouped under the general heading of periodontal diseases.

While tooth decay is the chief cause of tooth loss in young people, periodontal disease takes a greater toll in people over age 35.

Add ten more years—or by age 45—one of every two men is afflicted with periodontal disease.

Years ago, the disease was thought incurable. Now, however, dentistry saves many teeth if gum tissues are treated in time.

Periodontal diseases usually start with gingivitis, or inflammation of the gums. Bleeding is a frequent symptom. Bleeding gums may be shrugged off as a fairly common occurrence. But dentists point out that this is a symptom calling for attention.

Bleeding gums grow progressively worse if untreated, as a general rule, and lead to more serious involvement.

The gums, which ordinarily hug the tooth like the collar of a turtle-neck sweater, begin to fall away. Debris then works itself down into the pocket formed between gum and tooth. This leads to periodontitis with inflammation extending deeper into the tissues.

As disease progresses, pus pockets form and the springy, ham-mock-like tissue—or periodontal membrane—is destroyed.

Finally, the root is affected and the tooth becomes loose. By this time, the possibility of saving the tooth is slim.

## To The Voters of the White River Municipal Water District

The election that has been called by the Directors of the White River Municipal Water District for Saturday, November 16, 1963, is necessary because of the fact that at least three of the member cities of the District expanded and enlarged their city limits since the original formation of the District.

Since the District, after its said original formation, expanded and enlarged its territory, to include all of the presently expanded areas of the cities of Post, Spur, Ralls and Crosbyton, the election has been called to give voter approval for the assumption of the original District's bonded indebtedness by the expanded and enlarged District.

This type of election will have to be called each time that the District territory is enlarged, in order to maintain the District's responsibility as a whole for the District's indebtedness.

Will they last out winter?

# Garza a big part of boll weevil testing

To get an answer to the question of whether or not boll weevils can survive on the High Plains, the Texas Agricultural Experiment Station at Lubbock has placed some 50,000 weevils in cages both above and below the caprock in the areas where infestations were heaviest in 1963.

A total of 9,600 of these weevils have been placed in Garza County. One of the experiments is on Double U property on the Spur highway and the other is on the Robert Craig farm on the Tahoka highway.

The cages above the Caprock were placed in well established

field plantings of sorghum alum, on soil bank land, a likely area for winter hibernation. Installations below the Caprock were made in shinnery oak since such cover seemed to offer ideal conditions for winter survival of the weevil, it was explained. The cage locations above the Caprock were made in the area where boll weevil infestations were heaviest in 1963, or from 10 miles west of Post to the Crosby-Floyd county line.

All the boll weevils were collected locally for all except one cage at each location. Weevils from the College Station area were used in the one cage to determine whether those on the High Plains are of a more hardy strain. The collections and installations were made from Oct. 14-25 with 81 cages above the Caprock and 67 below it. Garza County Agent Syd Conner said cooperation from personnel of the Plant Pest Control and Entomology Research Divisions, Agricultural Research Service, U. S. Department of Agriculture, county agents and vocational agriculture classes aided greatly in getting the project moving.

Conner explained that the specially built cages will be checked for survival during the spring and early summer to determine winter survival at the different locations and under different types of cover. These records, Conner said, will be augmented with trash examinations to be made at various locations during the winter and early spring. The results of the research will be made available as soon as possible after the tests have been completed, he said.

## School committee—

Sanford, Mrs. Maxine Marks, the Rev. Bill Hogue, and Preston Alexander.

Child Study: Jim Bird, Jack Alexander, Bob Collier, and Lowell Short.

As School Superintendent Barry Thompson explained to the advisory committee at last Thursday's meeting, these sub-committees will study five areas of the total school program "so that long range planning may be undertaken."

"This committee study can be the finest thing that every happened to the Post schools," Thompson declared in his brief opening talk explaining committee aims. He termed long range planning an absolute essential to a "quality school program."

"Our schools do have problems," he added, "but with your help we think we can solve them." He said the committee will serve as a fact-finding group in the five areas listed above. He listed just a few of the many questions for which each of the five sub-committees in the months ahead will seek suitable answers. He said the sub-committee will add many more as their work progresses.

The sub-committees will report their recommendations back to the full committee for its final recommendations that will be made to the school trustees.

Thompson introduced Bill Shiver, new director of instruction of the Post schools, as the committee's research advisor. He termed Shiver "one of the sharpest people in Texas education today."

The superintendent said that two classroom teachers were included on the lay advisory committee because they are taxpayers too, because they can help answer questions on school needs, and because "they are interested in the education of your children just as you are." The two teachers are Hopkins and Alexander.

Thompson said the committee will "establish lines of communication from the professional school staff to the community."

He presented each committee member with a 15-page report from the superintendent which included the new school budget, various cost and enrollment figures, a committee agenda, an overall view of the Texas school program with the superintendent's commentary, his proposal to offer two types of high school diplomas, one vocational and the other academic, some of his thoughts on the social impact of automation which he believes the committee must consider, and the strengths and weaknesses of the Post schools as he sees them.

Highlights of this report were contained in the recent school budget story in The Dispatch when Thompson presented the same report to the school trustees last month.

Postis told Thompson on behalf of the committee that everyone was well pleased with the vigorous and efficient way the new school superintendent has taken over his new duties here this fall.

## Phone hike—

northeast of Post.

Three General Telephone Company representatives at last Thursday's council meeting told the council that studies made on the rate of returns on extension telephones show that these returns are not what they should be.

The telephone company representatives told the council that the decision to ask for the 25-cent per month increase on each extension telephone is a part of the company's plan to bring all its exchanges up to the same rate on extensions.

"WE HAVE 211 exchanges in Texas and 180 are paying the higher rate on extension phones," Brodie Allen of the company's rate and revenue section told the council.

The 25-cent higher rate here on extension phones would raise the cost from \$1 to \$1.25 per month on residential extensions and from \$1.50 to \$1.75 a month on business extensions.

It was explained to the council that where a residence or business place has only one telephone line and no extensions, the increase would be but 10 cents a month. One telephone line and one extension would mean a 10-cent a month rate increase on the single telephone line and a 25-cent a month boost on the extension. The proposed increase would progress, depending upon how many lines and extensions a subscriber had, but never more than 10 cents for one line and 25 cents for each extension telephone.

The city council's displeasure with the proposed increase on the extension phones, the company men were told, included the fact that the city was not advised beforehand that such an increase would be sought.

"WE'RE WILLING to go along with you on the 10-cent per main station increase, but we don't like the idea of boosting the cost of extension phones 25 cents a month," Mayor Lucas told the telephone men.

Allen, the rates and revenue man from San Angelo, told the council that when the company began working out a proposed rate request for the extended area service here it decided to keep the increment down to 10 cents on each main telephone and to raise it on the extensions.

Allen said the reason the telephone company asked for the increase on extensions is because they are trying to bring the one-third of their exchanges now paying \$1.25 and \$1.50 a month up to the \$1.50 and \$1.75 a month being paid by the other two-thirds of the exchanges.

He explained that the telephone company thought it would be better to ask for the extension phone increase on the extended area service proposal than to have to come back and ask the city for it later.

THE TELEPHONE MEN told the council that there are approximately 1,200 main stations and some 450 extension telephones in Post that would come under the proposed rate increases.

The council was also told by the telephone company representatives that the cost to the company of running lines to the Verbena central station would be between \$6,000 and \$7,000, and that the additional cost of installing switching equipment in the exchange here also is involved.

"We are also taking into consideration," Allen told the council, "the toll revenues we will lose after we tie in with the Verbena exchange."

Telephone company men present besides Allen were Herb Emory of Brownfield, division manager, and Wayne King of Lamesa, district manager.

date on the salt water pollution problem in the county, Ralph Welch, who recently attended the Texas Soil Conservation Supervisors' meeting in McAllen, gave a short talk on water conservation.

Wyatt, one of the water district representatives, told the group of the structure of the district, after which Reddell showed a film on the functions of the district and what it has to offer in the way of service to the landowners of Garza County.

Wells, the district's attorney, discussed its legal aspects and the legal problems faced by people both in and out of the district.

The group was also informed of the declining water tables in the district. This discussion included such subjects as recharging of the water through recharge wells and the future needs and possibilities of a fresh water supply.

Following the water district discussion, a report was heard from David Tyler on the area-wide committee meeting on boll weevil control he attended in Lubbock recently. Almost all the counties on the South Plains were represented at the meeting, at which problems were discussed in case the boll weevils over-winter in this area. Walton McQuinn is the Garza County representative on the boll weevil control committee.

Some pickers are still needed in its area, the gin reported.

Storie Gin has 204 bales to date with not much defoliation as yet. It received 30 to 35 bales yesterday with cotton running a fairly good grade.

The Hackberry gin reports 5833 bales, half of which is counted as Garza County and has quite a few strippers now going. It received 125 bales yesterday, 93 Tuesday, and 60 on Monday.

Surman's talk included an explanation of the purposes of the committee and how the medallions are secured.

Following the dedication ceremony, a number of early settlers were interviewed by F. A. (Chief) Runkles, who recorded the interview on tape. This tape will become a part of the permanent records of the county's historical survey committee.

Committee members attending were Mrs. Surman, Walter Duckworth, Runkles, County Judge J. E. Parker and George Samson. Dinner "on the ground" was served preceding the ceremony. There were 22 former residents of the community registered from out of the county and 36 former residents from Post.

Out-of-town visitors registering included Mr. and Mrs. Clan Hancock of Midland, the Rev. and Mrs. Guy Self of Stamford, Mr. and Mrs. Bruce Tyler of Spur, Mr. and Mrs. Bill Barnett of Lorraine, Mr. and Mrs. Huffhines of O'Donnell, Mr. and Mrs. Carl Payne of Snyder, Mr. and Mrs. Gaylon Young and children, Debra, Karen and Robert of Del Rio, and Mrs. Firm Self and Clarence of Lubbock.

"The Garza County Historical Survey Committee wishes to express appreciation to the Verbena community for their generous hospitality on Sunday, Nov. 3. The great abundance of delicious food, the warm welcome, the inspirational message of Rev. Guy Self, a native son, and the general spirit of the people made us grateful for the privilege of having a part in preserving the history of the Verbena community and their church building."

## Vet's Forum

Q. My hitch is almost up. I did not have any wartime service. Am I entitled to any educational benefits like the GI Bill?

A. Only if you have a disability resulting from service-connected injury or illness. Congress has made available vocational rehabilitation training in such cases. If so, check with the VA office nearest your home.

Q. Are dividends payable on U. S. Government Life Insurance policies after approval of a waiver of premiums?

A. No. Approval of a claim of waiver on premiums under the Total Permanent Disability provision matures this type of policy. The proceeds of the policy are payable in monthly installments but dividends cease.

Q. I hear a lot about deadline dates for GI loans. Does it make any difference if the veteran is disabled?

A. If discharged (or retired) for disability incurred in the line of duty, a veteran is entitled to the maximum deadline date for the war in which he was disabled. This means July 25, 1967, for World War II service and Jan. 31, 1975, for Korean Conflict Service.

# Lopes to be trying for upset at Denver City Friday

## Best squad in top shape for game with 'Big Red'

That is expected to be the District 4AA champion Denver City vs. Post, will be held Friday night at 7:30 o'clock.

Harold Teal's Post Antelopes, a gaudy 7-1 mark in light games, have their eyes on Denver City for the bidistrict playoffs. So many of Antelope fans, who are the team to Denver City.

Teal said Tuesday that exception of the injured back, the Antelope squad is in top physical condition.

Winkle Charlie Brown, been sidelined for three weeks of grades, will be in the Denver lineup.

Now, the boys' mental attitude Friday night's tough is all that can be expected from the coach. "They're plenty of fight and a desire to win."

Now they're going to have to play their best game of the season to beat the Mustangs.

It is going to have to be more than just a top offensive effort.

Teal said he feels the Antelopes will have to score at least three times to win. Defensively they will have to be the most powerful in Class AA circles.

POST COACH said that in analysis, however, Denver's defense is stronger than Post's. "They just don't have offensive weaknesses," he said.

tical conference marks of 2-0, while on the season Post is 7-1 and the Mustangs are 6-2.

Denver City opened their season with a 41-0 victory over Seminole, then defeated Pecos, 36-16. They downed Lovington, N. M., 20-0, before losing their first game to Loveland, 20-14. The Mustangs bounced back to edge Littlefield, 7-6, before losing to Sweetwater, 28-16. They opened conference play by shellacking Frenship, 56-0, and followed with a 55-0 lacing of Slaton.

**IN RIGHT HALFBACK** Pat Hubbard, 170 pounds, the Mustangs have one of the best offensive, as well as defensive, backs in the state. He made the all-state team last year and with 106 points to his credit in eight games this season is almost sure to repeat. Hubbard is also a top blocker and defensive back. The Antelopes managed to hold him offensively here last year when Denver City won 20-0, but the big back was a whiz on defense and in carrying out his blocking assignments.

Other probable offensive starters for the Mustangs, and their weights, are: Ronnie Morgan, 169, left end; Justin Dewbre, 201, left tackle; Kenneth Rankin, 170, left guard; Kenneth Brown, 160, center; Mike Noble, 156, right guard; Thurman Williamson, 209, right tackle; Jimmy Young, 144, right end; Mike Martin, 157, quarterback; Kim Freeman, 157, left halfback; and Larry Rawls, 169, fullback.

Probable starters on offense for Post are: Ronald Simpson, split end; Charlie Brown, left tackle; Dennis Odom, left guard; Pat Sullivan, center; Jackie Braddock, right guard; Danny Odom, right tackle; Danny Pierce, tight end; Pat Cornell, quarterback; Teddy Scott, split back; Butch Cross and Benny Owen, halfbacks.

**PLAQUE PRESENTED EX-PRESIDENT**  
A. C. Cash, left, is receiving an appreciation plaque from Bob Collier at Friday night's Homecoming banquet. Cash, immediate past president of the Post Ex-Students' Association, was awarded the plaque in appreciation of his two years' served as president of the group. Collier, who is now serving as president, was master of ceremonies at the banquet.

### Raiders to wind up home slate against K-State

LUBBOCK — Texas Tech's Red Raiders conclude their 1963 home football schedule by playing Kansas State University of the Big Eight Conference in Jones Stadium at 2 p. m. Saturday.

Coach J. T. King has seen his youthful Raiders—including six sophomore starters—upset the experts by winning three of their first seven games. Despite a 17-3 loss to Rice last week, Texas Tech, with two conference wins to its credit, obviously will finish higher in the SWC race than its 1962 celebration.

Although the development of younger players has been one of the pleasing aspects of the campaign, the Raiders have relied heavily also upon their seniors, who will be playing their last game before South Plains fans.

These seniors include co-captains David Parks of Abilene and Bill Shaha of Dumas, David Rankin and Bill Worley of Midland, Richard Willis of Fort Sumner, N. M., M. L. Daniels of Marshall, and Roger Gill of San Antonio.

Only once before have Kansas State and Texas Tech met on the gridiron. Coach Pete Cawthon's Raiders upset Bob McMillan's Wildcats 6-0 in 1933.

K-State, loser of only one other game that season, hasn't fared as well this year. Coach Doug Weaver's Wildcats defeated Brigham Young in the opener but since have lost to San Jose, Colorado, Missouri, Nebraska, Oklahoma and Kansas.

### Big news from Detroit, Cash to stay with Tigers

Norm Cash, who will celebrate his 29th birthday this month at El Dorado, Tex., is expected to be back as first base for the Detroit Tigers next season.

That's the baseball news out of Detroit this week via the Nov. 9 issue of The Sporting News.

For a time it appeared that Cash might be involved in a trade, but General Manager Jim Campbell reported on his return to Tiger Stadium that the first baseman's name has hardly been mentioned in negotiations.

Why?

For the 15 weeks under Charlie Dressen's managing Cash hit nearly .300 for the Tigers.

Now Dressen is curious over which is the real Norm Cash.

Back in 1961, the Texan won the American League batting championship at .361. Cash fell off a whopping 118 points to .243 the following season.

He was hitting a meager .232 when Bob Scheffing was replaced by Dressen on June 18. But by maintaining a .292 pace under Dressen Cash pegged his average at .270.

He was topped in the American League by only two first basemen of 100 games or more, Norm Siebern batted .272 and Joe Pepitone finished at .271.

"Near the end of the season, Norm hit lefthanded pitching better than he did earlier," Campbell observed. "It seems that he should be a .285 hitter most any year. That's pretty good when you consider his power."

Cash's home-run output has declined in three years from 41 to 39 to 26. His RBI count has dwindled from its 1961 high of 132 to 89 to 79. However, he ranks near the top.

Cash was outstripped last season in home runs by two A. L. first basemen, Dick Stuart with 42 and Pepitone with 27. Norm's RBI total was surpassed by merely three—Stuart with 118, Pepitone with 89, and Siebern with 83.

In other words, the Tigers didn't realize how well Cash ranked until they began to do some hitting.

Cash won't be platooned to hit against only righthanders next season either after his fast finish. Bill Freehan, who usually played first base against lefthanders in 1963, is in line to open the season as Detroit's No. 1 catcher.

Actually, Cash is the only full-time first baseman on the winter roster of the Tigers, although Dressen and Campbell think highly of lanky Bill Roman who hit .282 last season at Syracuse and could be advanced.

It's quite certain, according to The Sporting News, that while Cash will stay, Rocky Colavito will be traded in a winter deal. Colavito's job next year may go to Willie Horton, 21-year-old Detroit who has impressed with his power hitting for the Dunedin club of the Florida (winter) Instructional League.

## Big Homecoming crowd sees victory Antelopes sputter to 32-0 win over Spur

Playing far below their potential, the Post Antelopes sputtered to a 32-0 victory over the Spur Bulldogs here Friday night before a large homecoming crowd.

Coach Harold Teal's charges piled up a 12-0 first quarter lead and increased it to 26-0 by half-time, but scored only six points in the second half, due more to their own erratic play than to any defensive effort by the winless Spur team.

Quarterback Pat Cornell got things rolling on the Antelopes' first series of plays when he cleared left end behind a couple of good blocks and went 69 yards for Post's longest scoring run from scrimmage this season. Cornell's attempted place-kick for the extra point was blocked.

THE ANTELOPES' second touchdown came after Spur had punted out of bounds on the Post 44. Running plays by Cornell and halfbacks Butch Cross and Benny Owen carried to the Bulldog 23, from where Cornell found end Ronald Simpson all alone in the end zone for a TD-scoring pass. Cornell's kick for the extra point failed.

A fumble recovery by tackle Danny Odom on the Spur 39 set up the Antelopes' first second quarter touchdown. Aided by a 15-yard penalty against the Bulldogs, the Antelopes moved the 7-yard line, from where Cornell again passed to Simpson for the six points. Post's only extra points of the night then came on a pass from Cornell to Cross.

Danny Odom pounced on another Spur fumble on the Post 49 to give the Antelopes field position for their fourth touchdown. From the Spur 35, Cornell passed over the middle to split back Teddy Scott, who went the rest of the way for the touchdown. Scott was tackled at about the five-yard line, but his momentum carried him across the double stripe.

A scoreless third quarter found the Antelopes inside the Spur 20-yard line three different times, but each time the Bulldogs held for downs, once on a five-yard stripe.

THE BULLDOGS' only real scoring threat came early in the fourth period when they drove to the Post 15 after recovering Cross's fumble on the Post 26. Simpson threw quarterback George Neaves for a four-yard loss and three passes fell incomplete to give Post the ball on downs on the Antelope 19.

### Ton players are nicked by club

Ronald Simpson, Benny Owen, Butch Cross and Danny Pierce were named as the four outstanding Antelopes in Friday night's Spur game when the 46-56 Lettermen's Club met Monday night.

Simpson, who scored two touchdowns on passes, received honors as top offensive lineman, while the top offensive back nod went to halfback Butch Cross, who also logged considerable time at the quarterback position.

Benny Owen was named the outstanding defensive lineman and Danny Pierce as the top defensive back.

### DALLAS BUSINESS TRIP

Mr. and Mrs. Tom Power and Mr. and Mrs. Powell Shytle returned Wednesday from a three-day business trip to Dallas.

### Game Statistics

Post	Spur	
14	First Downs	5
354	Net Yds. Rushing	58
3 of 8	Passes Comp.	1 of 9
65	Yds. Passing	8
419	Total Yds. Gained	66
0	Punts, Avg.	5-32.8
7 for 95	Penalties	5 for 35
1	Lost Fumbles	4

With Cross operating at quarterback, the Antelopes got up to their 35, but were set back to the 15 by a 15-yard clipping penalty from the point of the foul.

Scott took a pitch-out from Cross and gained 24 yards to the 39, and Owen went 16 for a first down on the Spur 45. Cross kept around left end for a sideline run of 41 yards to the Spur four-yard line from where Owen crashed through for the touchdown. Cross's place-kick for point was no good.

Reserves took over for Post during the closing minutes of play.

Despite the fact that the Antelopes' play as a whole was ragged against the outclassed Bulldogs, there was plenty for the homecoming crowd to cheer about. One of the most loudly cheered plays was one in which halfback Tom Clark took a pitch-out from Cross and gained 29 yards on a zig-zag run that covered about twice as many yards as were gained.

Hope Giles McCrary has taken good care of the white rabbit he won at a drawing sponsored by David Pierce.

Has anyone seen Jan Wilks speeding up her sidewalk on a miniature tractor? She's sure to get a ticket.

We would vote for Karon and Sharon as being the cutest cheerleaders at the high school pep rally Friday afternoon.

Sixth graders had a "secret" special treat in Mr. Barnett's room on Halloween day. We chose Mr. Barnett for King of the Goblins.

Mr. Schmidt went to Austin to attend a Science and Math meeting. Mrs. Sterling has been teaching us Math.

Gaylon Britton is a new student in our class. He moved from Brownfield. Glad to have you, Gaylon.

Tim Howell checked out of school Friday. Sorry to lose him out of our class.

Barbara, you sure show school spirit with your skirts.

Girls, we need to learn how to count. Right, Coach Hahn?

Sixth graders, I certainly hope that none of you had anything to do with the fires Halloween night.

Nina, can't you leave the boys alone, or is it the other way around?

Ginny, what's this about a note from Larry?

Hey, Mr. Burnett, 6-A isn't as sharp as you thought it was.

Becky, were you really afraid to go in the closet with me?

Some of the 6th grade girls are busy making braided rag rugs. Mrs. Lobban is helping them.

We have been having achievement tests during our Language Arts period. Hope everyone does all right.

Why did Brenda get mad at Gary? Was it because he wouldn't go with her. What about it, Brenda?

Who has been throwing ink in everyone's hair? Is that the new style in Junior High?

Mrs. Allsup has been reading "Treasure Island" to her classes. Everyone is enjoying it, too.

Why is Mr. Evans always saying, "Drummers, hush?"

One of these days someone is going to get it in Mrs. Wristen's class. Watch it, 7-B.

Congratulations to the cheerleaders on decorating the halls for our football games.

Wonder why Karen stuttered when Coach Black asked her what she was doing.

Sorry that the 7th grade lost its last football game, but maybe we will have better luck next season.

Well, Halloween is over and Thanksgiving is on the way. Gives us something to look forward to.

## Junior High teams conclude season

**By Gary Nichols**  
The Post Junior High football teams played Slaton Tuesday night. The 7th grade team put up a terrific fight but lost by four points. The score was 8 to 12. Thomas Cain faked a kick and took it 40 yards for a first down. Derrell McFadin made the touchdown for Post, and Thomas Cain made the extra points.

The 8th grade team tied Slaton. The score was 12 to 12. These games were the last that our boys will play this year. The 8th grade team won 2, lost 2, and tied 2. The 7th grade team won 1 and lost 5.

## 'Mystery Student' is tall and likes boys

**By Zelika Freeman**  
Do you know someone nice, cute, sweet and tall? Is there anybody about 5 feet 7 inches tall who might possibly fit these qualities? The answer, well—that's for me to know and you to find out.

This person has lived in Post most of her life, although some of it was spent in the country surrounding Post.

She puts much emphasis in playing basketball and is a guard on either the 7th or 8th grade basketball team. Also she plays a clarinet in our Junior High band and plays it very well, I think.

This girl is a very normal teenager with a well-rounded personality and a lot of original ideas. On the top of her list of likes you will probably find the word BOYS in heavy type, as you might on any girl's list.

Who is she? Perhaps it is... (Adrienne Cook)

## Senior Gossip

**By Mary Beth Ford**  
Last week, while gathering wood for the bonfire, the Seniors found a new hideway. Pass by the Algieria Hotel any time and more than likely they'll be out there gathering wood. Some of the most likely ones are: Shirley Sappington, Nita Wilson, Mary Beth Ford, Diane Kiker, Betty Jo Hill, Richard Hart, Billy Max Gordon, George McLaurin and Danny Richardson.

**By the way, Shirley, how is your hand? Too bad you couldn't make George believe you had caught it in the door. But after ten minutes of constant pleading, he finally decided to just look, and sure enough there it was! Hope it's okay now.**

Everyone had better start studying a little harder to keep up their grades if they want to keep going to the games. Everyone is just holding their breath until after the grades are turned in every week.

Demolish Denver City!

## Senior head cheerleader at PHS is a student of numerous talents

**By Argan Robinson**  
The spotlight falls this week on Linda McMahon, senior head cheerleader of PHS.

Linda was born June 1, 1946, and is 17 years of age. She began her school years at Graham Chapel, where she has lived all her life. She transferred to Post in the 6th grade, and so began the series of

her many contributions to this school and its functions.

In the 7th and 8th grades she was cheerleader and in the 8th grade she was football sweetheart. She has been cheerleader three years in high school. Linda stated: "Cheerleading has been the outstanding activity during my high school years, and means more to me than almost anything else."

Recently she has been a Mity Queen, FFA Sweetheart and nominee for football queen. She is an officer in several clubs, a member of the Senior ways and means committee and a choir officer.

Linda plans to go to college either in San Angelo or West Texas State.

Good luck to an outstanding leader and a hard-working, deserving person.

## Bonfire attracts big crowd here

**By Diane Kiker and Mary Beth Ford**  
Early last Thursday night, we had a big crowd turn out for the bonfire. Everyone was in great spirits.

The band started it out by playing the "Fight Song." The cheerleaders led us in two yells, "Beat the Bulldogs" and "Who Are the Antelopes?"

Coach Gregg gave a brief talk which had a very lasting effect. After the band played another song, the cheerleaders led us in three more yells. To close the bonfire we all sang the school song, accompanied by the band.

## Attention, Antelopes

The moment of truth arrives for the Antelopes this Friday night at 7:30 p. m. in Mustang Stadium at Denver City. All that has happened before is of little importance as this game will determine the playoff representative from District 4-AA. The Lubbock sportswriters have made DC the odds-on favorite as they have been talking about Denver City's playoff opponents. It is my conviction that the so-called experts have overlooked the spirit and dedication of the football team and the student body.

Denver City has not lost a home game since 1958. During this time they have won 58 games and have lost six. The Antelopes will be trying to win a district championship as well as ending the Mustangs unbeaten record at home. The game will be played before a sell-out crowd and numerous scouts from schools throughout West Texas will be present. I believe the 'Lopes have an excellent opportunity to confound the experts. With the bunch of kids playing football this year, I predict a hard-nosed, rock 'em, sock 'em type of game. The game will be won by the team that plays the best defense. I hope that by 10 p. m. Friday, November 8th, the Post Antelopes will be the team at the top of the district standings. Best of luck to the fighting Antelopes of Post Senior High School!

AN ORCHID: To Mr. T. C. ... student body for the excellent work they have represented Post in the current football season. All the citizens of Post may take in the fine spirit exhibited by the who work, study, and learn in Post Senior High School. Keep the good work!

# NEW CHEVELLE! BY CHEVROLET

The kind of comfort you'd expect in a large interior. Come on down and sit in it.

Only a car that looks as good as this could come between Chevrolet and Chevy II. Come on down and stare at it.

The kind of handling ease you'd expect in a smaller car. Come on down and drive it.

## Now—Chevy spirit in a new kind of car!

We built this one to do more than just stand around looking beautiful. Held its weight down in the 3,000-pound range. Then built four lusty engines—two sizes and two V8's—with output all the way up to 220 horses\*! And if that makes you think this is one frisky car, you've got the right idea. You've also got a roomy car here. Yes! its 115-inch wheelbase keeps it highly maneuverable in traffic and very easy to park. With its Full Coil suspension, it's got a ride that reminds you of the Jet-smooth kind the

way it muffles noise and cushions bumps. And the fine hand of Body by Fisher craftsmen shows up beneath this one's suave good looks, too. Sound good? There's more. Like the fact that Chevelle comes in three series with eleven models—convertibles, sport coupes, sedans, wagons, even Super Sport models with front bucket seats. Like the fact that (and see if this isn't one of the nicest surprises of all) the new Chevelle comes at an easy-to-take price! Like to hear more? The listening's a wonderful at your Chevrolet dealer's—and so's the driving.

## SALUTING OUR VETERANS

THE MEN AND WOMEN WHO HAVE SERVED OLD GLORY

It is only fitting that we should honor those, who have served in our Armed Forces, with Veteran's Day, Monday, Nov. 11—without their sacrifices we would not be enjoying the freedom and American way of life we all cherish. We will be closed all day, Monday, Nov. 11.

## SHORT HARDWARE

# FOR DISTRICT CROWN

## Post Antelopes

vs.

## Denver City Mustangs

### 7:30 P. M. Friday, Nov. 8

### At Denver City

**Everybody's Going To Denver City**

Everybody in Post, that is, who loves football and supports the Post High Antelopes. Don't miss the district championship game.

This is the game Coach Harold Teal's Antelopes and their big following of Post rooters have been waiting a whole year to play—Denver City for the District 4AA football crown.

Both teams go into the Friday night game at Denver City with unblemished district records with two easy triumphs each.

The Mustangs are the top-rated Class AA club of the South Plains region—at least they have been for many weeks. The Antelopes have been rated No. 4.

Denver City is a running team headed by a high scoring halfback, Pat Hubbard. The Mustangs also boast of a right sticky defense.

The Antelopes with their best seasonal record in many years go into the game, all-out to win. And the report from Denver City is that the Mustangs are mighty wary of the Post threat to their long-standing district supremacy.

Denver City ranks the game as the top one of their 1963 home schedule.

Antelope followers will do their best to offset any home field advantage to the Mustangs by pouring west for the "big game". Post will have a tremendous delegation of fans on hand for this one.

Be in the Denver City stands Friday night. Make a lot of noise. Support the Antelopes all the way in their bid for their first district crown in 15 years.

# Homecoming class of '44 is honored with coffee

By MRS. O. H. HOOVER

Boo... It sure is nippy early in the mornings. The frost will be on the pumpkin for sure soon.

Mrs. Glenn Norman gave a coffee last Friday morning honoring the homecoming class of 1944. Attending were Mrs. Max Cowley (Kathryn Childress) of Abilene, Mrs. David Harpole (Johnnie Cato) of Plainville, Mrs. Morris Huff (Dorace Probst) of Post, Mrs. Harold Lucas (Doris Kirkendall) of Post, Mrs. T. A. Stone (Margaret Porterfield) Wilson, Mrs. T. H. Tipton (Imogene North) Lubbock. All had a wonderful time reliving old school days—their joys, sorrows, pranks and loves. See you again next year girls.

Dr. W. R. Bodine of Austin spent several days visiting in the home of his uncle, W. M. Davis, and Mrs. E. M. Walker.

Mr. and Mrs. C. E. Short entertained six of their grandchildren from Tahoka over the weekend.

Mrs. O. H. Hoover, Mrs. Ed Warren and Mrs. Lucy King visited the Twin Cedars and Golden Years Nursing homes in Post last Friday.

Mr. and Mrs. Marvin Fox of Yuma, Ariz., a nephew of J. W. Fox visited several days in the Fox home and with Mrs. E. A. Thomas in her home. John Paul Lawson and family visited Monday.

Mr. and Mrs. C. M. Greer were overnight guests of his brother, Aaron Greer, and family in San Angelo Saturday and Sunday.

Ruby and Morris McClendon and children of Abernathy and Glenn and Joy Huffaker and children were supper guests Sunday night of Mr. and Mrs. J. B. Greer.

Visiting Mrs. Hoover Tuesday afternoon were Mrs. Ed Warren, Mrs. Eva Bailey, Mrs. Thelma Kuykendall and Mrs. Lucy King.

Mr. and Mrs. L. G. Wood of Lamesa visited the Lucian Walkers and the Bob Normans Friday.

Miss Beulah Tew visited in the Edith Inklebarger home Sunday.

**THE REV. AND MRS. Ira Campbell** visited in the C. O. McCleskey home Friday night.

Mrs. Inklebarger visited Mrs. McCleskey Friday. Other visitors spending the day in the McCleskey home were Mr. and Mrs. Dubose of Brownfield.

Mr. and Mrs. Lucian Walker visited Mrs. Martha Harris in Tahoka Sunday afternoon.

Lorene Gerner visited her sister, Mrs. Ruby Claborn, Friday afternoon. They all went to the Post-Spur homecoming football game Friday night. Hurrah for our side! Post won by a big margin.

Mrs. Gerner has been staying most of the time the last few days with her mother, Mrs. Haley, who is not feeling well at all.

Mr. and Mrs. L. S. Turner visited Mr. and Mrs. H. B. Crosby in Wilson Sunday afternoon.

The Rev. Ira Campbell held services in the Lavoy Nursing Home in Tahoka Sunday afternoon. About 20 persons attended from Grassland.

Amos and Jerry Gerner, Lee Mason, Robert Craig, Reuben Wilke, Sammy and Granville Smith spent several days at Falcon Lake fishing. They caught a nice lot of fish and all the big ones DIDN'T get away.

Mrs. Edna Mason and Anna Marie Muller of Clinton, Okla., visited in the Amos Gerner home Sunday afternoon. Anna Marie has been transferred from Clinton to Lubbock. She works for the telephone company.

Mrs. Kathryn (Walker) Moore and Mrs. Joan (Scott) Billings of Seagraves attended the homecoming program at Tahoka Friday. They are both Tahoka graduates.

Mr. and Mrs. J. H. Burk and daughter, Mrs. Martha Parham, of Cisco visited the L. B. Burks family Sunday.

**MRS. MARTHA HARRIS**, a former resident of the Grassland community, celebrated her 83rd birthday Sunday, Oct. 27, at her home in Tahoka. Those present were Mr. and Mrs. "Red" Henry of Tahoka, Mr. and Mrs. Elmer Rash and children of Grassland, Mr. and Mrs. Billy Rash and children of Slaton. Incidentally, Mrs. Harris is still quite active despite her age. She lives alone, keeps her own house nice and tidy. We wish for her many more active and happy years.

Mrs. V. V. Laws of Tahoka was an overnight guest of the Kelly Laws Thursday and Friday nights.

Mrs. Amos Gerner attended family night at the Grace Lutheran Church in Slaton Sunday night.

Mrs. Mattie Jackson's son-in-law and daughter, Mr. and Mrs. Loyd Ballin, of Lubbock visited her Sunday.

John and Jim Thomas are home from school with bad colds. Hurry and get well, boys!

Mrs. Smelser is taking Mr. and Mrs. W. T. Luttrell to Olney Thursday to see their grandson, Keith Holloway, who has had recent surgery. He is doing well. Mrs. Smelser will go on to Vernon to visit her mother.

Mr. and Mrs. C. L. Cook and day Sunday with their mother and grandchildren of Lubbock spent the great-grandmother, Mrs. A. Z. Sewell.

Lewis McKay's sister, Mrs. Nora Cannon, of Quitman visited in the McKay home several days last week.

Guy LeMond of Snyder visited his sister, Mrs. A. Z. Sewell Saturday.

Mrs. L. S. Turner and Mrs. O. H. Hoover visited Mr. and Mrs. Will Wright in the Garza Memorial Hospital, and Mrs. A. H. Hood in her home Monday afternoon.

## Homecoming dance at elementary gym was one of biggest successes

By Linda McMahon  
The bit highlight of Friday night was the dance held at the elementary gym.

## "We're after Big Red," says Ricky

By Linda McMahon  
The football spotlight this week falls upon Ricky Little.

Ricky, who lettered last year in football, is one of the tri-captains this year and plays left tackle.

Ricky is a senior this year at PHS. He is an active member of the FFA and is also secretary-treasurer of that organization. After graduation he plans to go to San Angelo College and major in Vocational Agriculture.

On the Denver City game coming up this week, Ricky says: "Every time before there hasn't been a big turnout for the Post-Denver City game because they were afraid of a slaughter. This year we feel like it will be the other way around. When we go out there Friday night, we won't have anything on our mind but getting those Big Reds!"

tary gym. The "Raiders" played and did a fabulous job of keeping everyone dancing and having a good time.

The gym was decorated very pretty and our school colors of black and gold were used to carry out the theme. The football boys and the pep squad girls really worked to make it a success.

A large sign, "PHS Is Proud," was hung on the north wall of the gym and another sign showing all the scores of the season was on the east wall. A fountain in the center of the floor was one of the attractions.

Approximately 200 people attended. Everyone really enjoyed the dance and we hope to have many others like it in the future.

The conduct of the group was very good and certainly appreciated by all.

We, the pep squad and football boys, would like to thank Miss Stockton and Coach and Mrs. Teal for working so hard on making this such an excellent dance. Thanks also to Mrs. Walter Jones for being head of the refreshment committee.

PREY OF THE TRAPPERS

Crafty and lithe are the tigers, such as this one, which the trapping-party headed by Robert Mitchum in "Rampage" wants to bag. But the main aim of the hunt is soon diverted by the love-triangle which springs up between Mitchum and Elsa Martinelli, playing the mistress of Jack Hawkins, a big-game hunter. All three star in "Rampage," jungle drama in Technicolor now showing at the Tower Theatre.

## Who knows what might happen?

By Jo Beth Dillard

Who knows what might come to be within the next 15 or 20 years? Imagine this, if you can!

Ronnie Pierce, space scientist, has been committed to an insane asylum after sending two astronauts and one general into outer space without space capsules.

Who would have ever thought that Paul Walker, a top athlete in his day, would be one of the world's top hair stylists?

Miss Halford, famed English teacher, isn't just sitting around gray-haired and helpless these days. She is spotlighted nightly in the flashy production numbers at Rick's exclusive night club.

Is it true? Is Beverly Avant really a pro lady wrestler? The unbelievably dainty Belinda Lee is said to be her tag team partner. La Gayluah Young, that tall, slim girl who said she would never marry, is now happy with 28 grandchildren.

### NORTH TEXAS STUDENTS

Janith Short, Ann Pennington, Mary Ann Williams and Janie Caradine, freshmen students at North Texas State University, made their first trip home to attend homecoming activities.

### ATTEND FOOTBALL GAME

Mr. and Mrs. Derwood Mayberry of Ralls attended the homecoming game Friday night.

## Teacher spotlight is on Mr. Leon Barnes

By Maria Carpenter

Mr. Leon Barnes is teaching in Junior High for the first time this year. He only teaches two classes here. They are 7th grade Math and Geography. In high school he teaches three classes of General Math to Freshmen.

Mr. Barnes attended college at Hardin-Simmons University. His wife's name is La Verne. They have four children whose names are Don, Kenneth, Neal and Mary.

Mr. Barnes' favorite sport is camping and fishing. His favorite food is "good food".

His opinion on the new schedule is: It is good, in that there is time to do part of the homework, however, sometimes it is too long.

## The younger Antelope boosters heard from at Friday pep rally

By Linda Gist and Susan Cornish

The homecoming pep rally last Friday got everything off to a good start. PHS was filled with school spirit.

After several yells, led by the high school cheerleaders, we heard from the younger Antelope fans.

Carol and Kimberly Thompson and Cindy and Lindy Byrd, from grade school, led "Antelope Boogie." Then Karon and Sharon Windham, from junior high, led us in "We're the Champs." Together, they led us in "Two bits, four bits."

# 240,000 Garza acres in Great Plains Program

By DOUG CUNNINGHAM  
Soil Conservation Service

The Great Plains Conservation Program was created in order to help speed up conservation of soil and water in the ten Great Plains states. These ten states have designated counties and Garza County is one of them.

To date, Garza County has a total of 50 counties, which cover about 240,000 acres. These acres are each receiving basic conservation treatment and are being treated within their capabilities. There are many more acres that need this basic treatment. With the help of this program available, we hope to obtain a more stable and better county in which to live. The purpose of this Great Plains Conservation Program is to help you, as the land-

owner, carry out a plan of operations that will help minimize climatic hazards and protect your land from erosion and deterioration by natural causes.

The program will help you solve difficult long-term land use and conservation problems on your ranch or farm. It will enable you to establish needed soil and water conservation measures with the help of federal cost-shares that are guaranteed for a long period (up to ten years).

You, as a landowner or operator, are eligible to participate in this voluntary program for the period needed to carry out a plan of operations.

Here are a few of the practices which may help you, and their federal cost-shares are: Range seeding, 80 per cent; pasture planting, 80 per cent; brush control, 50 per cent; terraces, 70 per cent; irrigation pipe line, 50 per cent; wells for livestock water, 50 per cent; ponds, 50 per cent, and fences, 50 per cent.

The Garza County Soil Conservation District urges all landowners who have a need for this program to contact the local Soil Conservation Service personnel for a closer look at your problems, with the assurance of technical assistance in solving them.

### TECH STUDENTS HOME

Among the Texas Tech students returning for the homecoming weekend were Dan Rankin, Marianne Jones, Bobby Hudman, Wendell Duncan, Buddy Moreland, and Delton Robinson.

# Anti-poll tax hot issue in Saturday's special election

Texans will vote Saturday on four proposed amendments to the State Constitution. Easily the most controversial of the four will be the first one on the ballot—repeal of the poll tax as a requirement for voting.

If adopted, the amendment will do away with the 61-year-old provision in the Constitution requiring payment of the poll tax as a prerequisite to voting. It will also give the Legislature authority to provide for registration of all voters instead of limiting registration of voters to those in cities of 10,000 or more population, as is now done.

Two events lent impetus to the Legislature's decision to submit the poll tax repeal amendment to the voters in a special election this year.

In 1962, a majority of voters in both the state Democratic and Republican primaries indicated in a referendum that they opposed the poll tax. Though this straw vote was merely an expression of opinion, the Legislature took it as a mandate to submit an amendment to repeal the \$1.75 poll tax.

THERE WAS ALSO another event which led the legislators to believe the election should be held this year rather than next.

Last year, Congress submitted to the state legislatures for ratification a proposed amendment to the U. S. Constitution outlawing the poll tax as a requirement for voting in federal elections.

To date, it has been ratified by 36 of the 38 states needed to put it into effect and favorable action by two more states is expected at least by early next year.

If the poll tax is outlawed in federal elections but retained as a voting requirement in state and local elections, Texas will be forced to establish a dual voting system in 1964. Such a system would be confusing, to put it mildly. Gov. John Connally has predicted there would be "chaos."

Two sets of ballots would be required, one listing local, state and federal candidates and issues and another listing only the federal candidates for non-poll tax payers.

Where voting machines were used all but the federal candidates would have to block off before the non-poll tax payer entered the booth.

WITH THE PROSPECT of such a confusing situation in mind the legislators decided to submit the state poll tax amendment to the voters this November. If approved, it will go into effect Dec. 1 of this year.

Besides offering the poll tax repeal amendment to the voters this year, the Legislature also passed a voter registration law to replace the poll tax if the repeal amendment is adopted. The law would establish an annual registration system very similar to that under the poll tax with a 25-cent registration fee.

Voters would register between Oct. 1 of one year and Jan. 31 of the next, the same period in which they now pay their poll taxes.

The county tax assessor-collector who now collects poll taxes, would also collect the registration fee, which would go into the county's general fund or its officers' salary fund.

THE VOTER WOULD use his registration certificate as evidence of his qualification to vote as he now uses his poll tax receipt.

The amendment would not abolish the poll tax as such, but would simply repeal it as a requirement for voting. However, if the state wanted to keep the tax in force the Legislature would have to designate a new means of collecting it.

Gov. Connally and the State Democratic Executive Committee have given their support to the present repeal movement and the Texas League of Women Voters are conducting a statewide poll tax repeal campaign.

Leaders of the repeal drive do not feel, however, that the passage of the amendment will be easy.

At least one group has been formed to retain the poll tax. Some conservatives—both Democrats and Republicans—believe that repeal of the poll tax would strengthen the liberals politically.

Backers of repeal say one of its main aims is to broaden the electorate. But repeal opponents say abolishment of the tax would encourage more voting among low-income groups which are susceptible to block voting pressure.

THERE IS ALSO the argument that the poll tax should not be repealed because it adds an average of about \$1 million a year to the

state's income. One dollar of the poll tax goes to the available school fund and 50 cents to the general fund. Counties can assess another 25 cents, bringing the total tax to \$1.75. The counties would not lose revenue if the tax were repealed but the state would.

Repeal supporters counter this argument by pointing out that the contribution of the poll tax is minute compared to other revenue producing taxes.

The amount of poll tax revenue produced in fiscal 1962 was less than 5 per cent of the total school revenue and .2 per cent of the total state revenue. Revenue from the tax also varies widely from year to year.

Texas is one of five states which still levies a poll tax. The others are Alabama, Mississippi, Virginia and Arkansas. It is one of the two states which still relies on the poll tax lists for voter registration. Arkansas is the other one. Texas voters will decide Saturday whether the number of poll tax states will be reduced to four.

COLLEGE STUDENTS HOME

Pete Dodson, Frankie Gary, Jerry Ligon and Royce Hart came home last Friday from South Plains College at Levelland to attend the homecoming game between Post and Spur.

## Early Christmas mailing urged

The U. S. Post Office Department is again urging the early mailing of all parcels for overseas persons, to reach them by Christmas. Postmaster Harold Voss said today.

The latest mailing date which would normally guarantee delivery overseas by Christmas is Nov. 15, the postmaster said.

For mailing, use strong boxes. Pack all contents by wrapping each in crumpled newspaper. Have plenty of packing between, then put name and address on a slip of paper on the inside. Wrap and tie securely and address (on one side only). Put return address in upper left hand corner.

Some items are not permitted by various countries and cannot be included as gifts. Also some parcels for gifts require a customs declaration tag and an international sticker.

It is well to consult your postmaster before packing your box and learn what the requirements are for your particular mailing.

For years, this great Texas newspaper has given your government free space in which to advertise U.S. Savings Bonds. You have seen the ads. Lately, their message has been *Keep Freedom in Your Future with U.S. Savings Bonds*. These ads have sold an impressive number of bonds in Texas. And they have helped, and are now helping, your government defend freedom at a moment in history when freedom urgently needs defending.

### "Post Dispatch

has earned the gratitude of the people of Texas," says Ed Gossett, Chairman of the Texas Savings Bonds Committee.

"When you buy U.S. Savings Bonds, you serve well the cause of liberty. You enable your country to build up her defenses without doing damage to her economy. The space occupied by the ads that pointed out these important truths was donated to your government—and that means to you—by this and other great Texas newspapers. We are grateful, and we think you will be too."

### Junior varsity in 38-22 victory at Tahoka Thursday

Pist's junior varsity, assisted by the freshmen, defeated the Tahoka Bulldog "B" team, 38 to 22, last Thursday night at Tahoka.

Post had Tahoka down, 38-6, late in the game, but gave up 16 points when Coaches Charles Black of the junior varsity and Elvin Jones of the freshmen gave all their boys an opportunity to play.

Tahoka scored on a reverse in the first quarter to grab the lead, but Post tied it up when Birch Lobban broke through the line on a quarterback sneak and went 40 yards to score. Lobban then passed to end Sammy Sims for the extra points to give Post an 8-6 lead.

Freshman Paul Walker went 35 yards on a slant play to give Post its second touchdown and a 14-6 margin. Sims then scored on a 60-yard pass play from Lobban and the latter carried over for the extra points to make it 22-6. Just before the half, freshman end Donnie Windham recovered a Tahoka fumble for a touchdown and Post was ahead, 28-6, at halftime.

Post increased their margin early

### Wellman defeats Eagles, 54 to 18

**By BEVERLY STOLLE**  
The Southland Eagles lost to the Wellman Wildcats, 54 to 18, at Wellman Friday night in an eight-man football game.

The Eagle defense held the Wildcats on the first series of plays and took the ball over. The second offensive play by Southland was a pass from David Dabbs to Rod Callaway, which covered 40 yards and placed the ball on the three-yard line.

Two plays later, Don Altman scored for Southland. The extra point try failed.

Wellman came back to score two touchdowns and lead, 14-6, at halftime.

Ronald Saunders came back for the Eagles with a touchdown on a 20-yard run, but once again the try for extra points failed.

David Dabbs finished out Southland's scoring on a 12-yard run. Wellman's scoring was led by David Franklin.

The Southland Eagles will play the Gail Coyotes on Friday night, Nov. 8, at Southland. This will be the Eagles' final game.

Anderson County was named for Kenneth L. Anderson, last vice president of the Republic of Texas.
