\$1.50 PER YEAR

Mahon Reports On Grain and Cotton For 1949

The present law permits but does not guarantee a loan, usually referred to as a support price, on grain sorghum. I have joined with others here in appealing to the Secretary of Agriculture to announce immediately a 90 percent parity loan on grain sorghum for the 1949 crop. I am also supporting legislation which would require such a loan support. Producers need to know what to expect in the way of support prices long in advance of planting time.

The Secretary has authority to announce a 90 percent parity loan, or a loan at any rate lower than 90 percent. A loan of less than 90 percent would be unsatisfactory and inadequate. What the Secretary may do and what Congress may do is not yet known. I hope we can secure passage of a long range farm program assuring a support of at least 90 percent of parity on grain sorghum, cotton and other important crops. Producers should be on the alert for developments, particularly in connection with the 1949 crop.

Here is the situation as to cotton. The present law assures a support price of 90 percent of parity for 1949 but after 1949 the support could be as low as 60 percent of parity. A 60 percent support would be practically worthless and we hope to fix the figure for the long range program at not less than 90 percent.

Two important questions as to cotton may be decided by Congress within the next few weeks. First, will acreage planted to cotton in 1949 be considered in arriving at cotton quotas on individual farms in 1950. Second, what sort of formula should be used in fixing cotton acreage quotas for the states, counties and individual farms in and after 1950? It is assumed that if there is to be a support price on cotton in 1950 there will be a cotton acreage control program in 1950.

Production controls, however would not be placed in operation without an affirmative vote of the producers themselves.

Members of the House Committee on Agriculture are seeking passage of a resolution specifying that the year 1949 shall not be considered as a base year in fixing 1950 acreage quotas.

The House Committee on Agriculture has heard some of the recommendations of the Farm Bureau, a nation wide organization, in regard to cotton acreage allotment problems. Farm Bureau members in West Texas should see to it that the West Texas viewpoint is not overlooked in the presentation of the Farm Bureau.

A group of West Texans are scheduled to appear before the House Committee on Feb. 7th. Committee officials advise that it will not be possible to hear all individual farmers who may want to appear, but they want to hear as many spokesmen of groups of farmers as possible in order to get a good picture of the situation throughout the cotton belt. The committee hopes to conclude hearings as to cotton on Feb. 11th but the final draft of the long range legislation will not be agreed upon until a much later date.

I shall seek to be of all possible assistance in this important matter. I welcome the views of the people of our district, and I shall submit any suggestions and plans which are submitted to me to the House Committee on Agriculture. Congressman Bob Poage of Waco and Congressman Gene Worley of Shamrock and Amarillo are members of the Agriculture Committee.

Breaks Arm At School

In an accident at the school Gym Monday afternoon, W. A. "Buddy" Teichik, suffered a fracture of the arm near the wrist. He is the son of Mr and Mrs. Adolph Teichik of Mesquite.

There will be services at the Mesquite Church of Christ Thursday night at 7 p. m. A cordial welcome is extended to all.

Meet An Outstanding FFA Boy

Elton Childress is one of our outstanding members. His projects has included a Duroc gilt, a cotton and a maize crop. He has shown a great deal of interest in the FFA and is a chapter farmer. He is also an officer in the senior FFA chapter. He is a junior in high school and a good student. He showed the Grand Champion Gilt in the Lynn County Fair and he is working toward a Lone Star Farmer's degree. His plans are to become a successful farmer.

FFA Teams To Brownfield

On February 9th Twelve FFA members will compete in contests in the Brownfield district. Schools entered in the contests are O'Donnell, Tahoka, Wellman, Brownfield, Plains, Meadow and Wilson. The contests will include Farm demonstration, Future Farmer quiz, news writing and public speaking. Banners and ribbons will be awarded the winners.

Alvin McMillan is fishing at Port Aransas.

Pvt. Rex Marshall, Jr. who has been stationed at Fort. Calif is now at Camp Stoneman, Calif from where he will go to Japan. He is a grandson of Mrs. Betty Terry.

Congratulations to Mr and Mrs Bobby R Fultz on the arrival of a fine 6 lb 4 oz. baby girl born Jan. 24th at Lamesa named Sharon Gale.

The Girl Scouts met Thursday Jan. 27th with Mary Frances Pearce as chairman. After a short business meeting, the group discussed the Scout's laws and enjoyed playing games. Chairman for the Feb. 3rd meeting will be Anne Singleton.

T A Wimberly, who has been fishing, is back on the job.

Stop Sand and Wind. For weatherstripping and caulking see Benny Moore Phone 111.

Those leaving clothes with us during the fall for sale are urged to pick same up at earliest convenience. Mrs. J C Swinney

WANTED: An extra good farm hand. Must be experienced and qualified; good deal for the right man. See Clint Wright, Rt 2

Louis Hochman, Wm. Ed. Singleton, and J V Burdett, Jr. left Sunday on a fishing trip to Port Aransas.

Miss Mable Harris of Meadow visited relatives here over the week end.

Wanda Jean Huffhines, Shorty McLaurin of John Tarleton were home over the week end. Jane Thompson, Wayne Christopher of Abilene Christian College and Dan Blocker of Slu Ross and Misses Edna and Julia Edwards of H-S were home for week end.

Mr and Mrs. Truett Jones have moved here from Plains and are remodeling their home.

Mr and Mrs. Dodd of Oxnard, Calif. visited relatives here over the week end.

Why buy or use a vacuum cleaner when you can also have these advantages ----

Wash dust out of air you breathe add healthful humidity to air in your home; vaporize medicaments in sickroom and many other uses with REXAIR Conditioner and humidifier. Write box 333 or phone 274 W Tahoka for demonstration.

Future Farmers Attend Stock Show

The FFA boys left Jan. 28th and returned Jan. 30th from the Ft. Worth Fat Stock Show. The boys made the trip in a school bus and reported a good time except for the cold weather. One feature was a special rodeo Saturday morning for the FFA and 4 H boys. A disappointment was in missing seeing the Grand champion calf which had been taken from the show barn. All livestock entries were reported to have been very good.

One of the highlights of the O'Donnell livestock show will be the exhibition of the 5 gilts from Wenzel's Berkshire farm at Brownfield. The money to buy the gilts was a donation from Sears, FFA boys who were awarded gilts are: Tommy Billings, Carroll Pearson, Kenneth Pearson, Arvis Grogan and Raymond Hancock. Each boy will return 2 gilts back to the chapter for distribution. This stock of Berkshires exhibited by Mr. Wenzel at the Dallas Fair won 38 ribbons on 19 hogs. He exhibited the Champion Berkshire and Grand champion of the show.

Wildcat Well Set For Geo. Lindly Farm

SITE MILE NORTH O'DONNELL

Oil Discovery Near Mesquite

Sinclair Prairie Oil Co. Monday announced location of a 9,000 ft. Ellenburger wildcat on a block of about 4,500 acres in extreme southern Lynn County. It is located one mile north of town and the wildcat will be the No. 1 Geo. C. Lindly. 660 ft. from south and east lines of southwest quarter of section 47, block 8 EL and R survey.

TEST NEAR MESQUITE GETS SHOW OF OIL AND GAS

Shows of oil and gas on drill stem tests of a sandy lime section were reported Monday for the H L Hunt No 1 B Clayton and Johnson wildcat test about 5 miles east of Mesquite. Open 30 minutes on a drillstem test from 5,729 to 5,749 feet the test showed gas at the surface in 6 minutes. Recovery was 1,000 ft of gas cut mud, 270 feet of 40 gravity oil and 630 feet of mud cut oil. The well is awaiting orders. Interest in oil is running high in Borden as a commercial field was recently opened 6 miles south of Gail. That town is expected to boom in the months to come.

Mrs. J L Nolan of San Angelo visited her mother, Mrs. Sheperd Saturday.

Bart Burk spent weekend at Dallas.

Mr and Mrs. W E Huffhines are attending the Fat Stock Show at Ft. Worth.

BERRY FLAT NEWS

A bridal shower was given in the home of Mrs. Isaac Ledbetter Jan 20th honoring Mrs. J W Tucker. See Snookie Simpson, Cake and hot chocolate were served to many guests. Mrs. Minnie Stubbfield was co hostess.

Mrs. Dick Simpson and children spent Sunday in Slaton.

Several Berry Flat ladies quilted last week for Buckner's Orphan home.

There was no school last week on account of the weather and the roads.

Infant of Birdwells Passes Away at Lubbock

Funeral services were held at Krum for the infant son of Mr. and Mrs. L. L. Birdwell of here who died shortly after birth Saturday at a Lubbock hospital. Survivors other than the parents include a brother, Louis, age 2, and the grandparents Mr and Mrs. L E Robinson of here and Mr and Mrs Sam Birdwell of Dallas.

Roping Club Elects Officers

At a recent meeting of the O'Donnell Roping Club the group elected the following officers:

President, Blondy Barnett
Vice President, J T Middleton, Jr.
Secretary Treas. Ralph Beach

CRUTCHER INFANT BURIED AT TAHOKA

The infant daughter of Mr and Mrs. A. G. Crutcher of Newmoore, still born early Sunday morning, was buried in the Tahoka cemetery Sunday afternoon following funeral services conducted by Rev. C. T. Aly at 2:30 in the Stanley Funeral home. The infant was given the name of Carol Ann. ---Lynn Co. News.

NEW PONTIAC TO BE SHOWN

This week end the City Service and Appliance, Burl Koeninger, owner, is holding open house showing the 1949 Pontiac. Mr. Koeninger recently saw a preview of this car at Dallas and he says it will be well worth the public's time to see this beautiful new model of the Pontiac line.

Bill Brandon is on the sick list this week.

Most garden soils should be prepared for spring planting in January or early February. Be sure to allow for good drainage of the garden plot.

Next week the City is publishing their annual audit. Every interested citizen will want to read this.

Local News

Mrs. G. W. Jones was honored with a surprise Pink and Blue shower last Thursday in the home of Mrs. Ervey Boothe. Co-hostesses were Mrs. J C Harris, Mrs. Raymond Wilson, and Mrs. Erwin Gilliam. Many attractive and useful gifts were presented the honoree.

Mr and Mrs. D Bingham and Nena are the proud owners of a new '49 Chevrolet; they broke it in with a trip to Odessa Sunday.

Mesdames Joe Harris, Ervy Boothe and J C Swinney visited in Lubbock Thursday.

Mr and Mrs. B K Cooley visited Mr and Mrs. Jack Wood Sunday

Little Sammy Gilliam has had the measles the past week.

Mr and Mrs. W. Leroy Waggoner of Lubbock are the proud parents of a fine baby girl born Saturday weighing 7 lbs 2 1-2 oz. Mr. Waggoner formerly was in the insurance business here.

Billy Burnett is back in Tech after being in California for several months.

Jimmy Haab, Ervy Boothe and Wm. Jackson returned from a fishing trip to Old Mexico.

Mr and Mrs. M W Pruitt and children of Sparenberg moved here recently.

Mr and Mrs. L E Lewzey moved to Plains recently.

Mr and Mrs. R L Keener visited Mr and Mrs. Romer Davis at Mesquite Sunday.

Mr and Mrs. Bill Orson of Mesquite visited here Monday.

Mr and Mrs. Preston Stokes spent last week with his parents in Wimborsboro.

Burl Koeninger was a business visitor to Dallas Friday.

Mr. and Mrs. Hervey Gardenhire and son returned Thursday from an enjoyable trip to Dallas and vicinity.

The Thursday Bridge Club will meet with Mrs. John Stephens Feb. 10th.

Mrs. Harvey McKee was called to the bedside of her sister at Glassville Ark last Thursday.

G W Thomas of Dallas is visiting his daughter Mrs. R O Baggett

WEST TEXAS GAS COMPANY COMPLETED ALL 1948 PROJECTS ON SCHEDULE... 1949 EXPANSION PROGRAM IS STARTING

1948 PROGRAM COST 2 1/2 MILLION

Last winter we experienced an unusually heavy demand on our gas system... a demand which briefly exceeded the capacity of our transmission facilities. At that time we told the people we serve that we would make every effort possible to correct this situation before the next winter.

Certain definite projects were required to increase capacity. Some had already been planned... others were added. We reported to our customers via the newspapers what projects we planned to carry out in 1948. In the panel at left is a re-listing of those 1948 projects.

We are happy to say all of the expansion and improvement projects so reported to our customers were actually completed during 1948... on schedule. West Texas Gas Company invested about \$2,280,000 during the year in these improvements and additional facilities.

In November, we began purchasing substantial quantities of gas at Amberst and at Umbarger from El Paso Natural Gas Company. These new supplies of gas will directly or indirectly benefit all towns served by us.

2 1/2 MILLION MORE IN 1949

Already our 1949 expansion program is beginning. Preliminary work is under way now for one important project. It is estimated that we will invest another \$2,250,000 or more during 1949 in additional facilities and improvements. Thus, in the two years of 1948 and 1949 we will have invested about four and one-half million dollars in order that we may provide a dependable, efficient and economical gas service to our customers.

West Texas Gas Company

HELPING BUILD WEST TEXAS SINCE 1927

(Following are the projects which we reported to our customers in July, 1948, that we planned to complete in 1948.)

NEW FACILITIES TO BE INSTALLED ON PIPE LINE SYSTEM 1948

1. Near Turkey Creek Compressor Station will be installed a 300 horsepower booster compressor. Main plant is 2,350 horsepower.
2. At McSpadden Compressor Station: three more 400 horsepower compressors, increasing capacity to 2,850 horsepower.
3. At Plainview Compressor Station: one more 300 horsepower compressor, increasing capacity to 2,400 horsepower.
4. At Littlefield Compressor Station: one 80 horsepower compressor, to increase capacity to 330 horsepower.
5. Between Littlefield Compressor Station and Whitehall: nine miles of 6 1/2-inch pipe will replace 3 1/2-inch pipe.
6. From Littlefield to point of intersection with new El Paso Natural Gas Company line: ten and one-half miles of 8 1/2-inch pipe will replace 4 1/2-inch pipe.
7. At Tahoka Compressor Station: one more 300 horsepower compressor, to increase capacity to 780 horsepower.
8. Between Tahoka and Brownfield: ten miles of 6 1/2-inch pipe will replace 4 1/2-inch pipe.

TWO NEW SOURCES OF SUPPLY ARRANGED

We have signed an agreement with El Paso Natural Gas Company to purchase from that company at two points. Barring unforeseen contingencies, this gas, which will benefit all towns on our system, will be available by November 1, 1948.

 Practice All State and Federal Courts except County and Justice Courts. Land Title a specialty

Ten years can make a big difference. That youngster, now in pinstripes, will be grown up and ready for college in 10 years. Or you may be ready to tackle that pet project of yours, a new home, retirement, or starting a small business. Yes, 10 years can make a difference in many things. Money, for instance. If you go about it right you can make today's money grow, right along with those plans for the future.

Figure, today, how much you'll need in 10 years. Then put aside the amount in U. S. Savings Bonds each week, enough to equal the total you have in mind, always remembering that for every three dollars you invest today, you will receive four dollars in 10 years. If you are on a payroll, join the Payroll Savings Plan where you work. If you are self-employed, enroll for the Bond-a-Month Plan at your own bank.

It Pays to Fight

Everybody loves a fighter. For that reason, the popularity of Harry S. Truman is running pretty high at this time. All the pollsters, all the misled, have had their say: President Truman was the man who wouldn't be licked! Mr. Truman was apparently the only candidate who really took the opinion polls to heart. While the general public was being lulled to sleep by everybody's opinion as to the outcome of the election, Candidate Truman got in there and fought.

An American Ideal

Preferences for candidates in the voting on November 2 were not the same as reported by the poll takers before election. What happened? My guess is this: a larger percentage of those who favored a fighting man went out to vote than was the case with those favoring the non-fighter, who thought he would be elected anyhow. In other words, the opinion polls were interpreted by each candidate—by Mr. Truman in a way that helped elect Mr. Truman and by Mr. Dewey in a way that defeated Mr. Dewey.

The important thing is that the fighting man won. This is an old American principle. The man who works the hardest, who never-says-die, is favored in the struggle for success. Our nation has been built by heroes, sung and unsung, who lived by that rule. May I submit that in these critical times, it will not be possible for America to keep her traditional place as the most favored of lands, unless Americans are willing to take up the fight.

Fight or Die

Why has America more national income than any other six nations you can name? Why do more American youth have a chance to go to high school and college than go in all the rest of the world put together? Why do American workers have the highest wages in all the world? Here are some of the reasons: we have the right to own property, to operate our own businesses and compete with each other, to invest capital in industrial tools.

Moreover, we Americans can work at the job we like, wherever we like, with equal justice for all. If we keep these liberties, preserve constitutional government, and maintain freedom of individual opportunity, it will be possible for us to double our wages and standards of living, as we did during the last generation. If we turn to government management and thus kill our incentives, we can expect wages and living standards to go down 50 per cent below the present level.

Stakes Are High

Step by step America is being pushed in that direction. A few more steps, and we may find ourselves under such pressure that we cannot avoid socialism, and the communism that follows it. Our people must understand these facts. More important, we must be active in preserving the fundamentals of our American way of life.

When you are making sausage for freezing, add all the seasoning ingredients except the salt. Salt seems to speed up the rancidity process while the other seasonings keep the sausage from getting rancid.

**I GIVE YOU TEXAS
By Byce House**

In the good old days, the traveling men as they visited the towns could always be counted on for some dandy stories.

As the group sat around the stove in the hotel lobby in a small town, one led off with this:

"Over in Southwest Texas in a town in the Big Thicket, where I've been recently, the malaria is mighty bad, and as you know, this produces chills and fever. A case of chills lasts about three weeks. Every other day, the malady takes possession of you causing your whole body to become acutely chilled; this is followed by a severe agitation of the body, a chattering of the teeth and a vibration similar to

that of the apron of a threshing machine. This condition lasts for about an hour; then a burning fever possesses you and you commence taking quinine which is about the most effective remedy.

Now you know that East Texas is a great section for persimmon trees, and their fruit is, when thoroughly ripened, very delicious. So the farmers have conceived an economical idea which has developed very successfully and is also proving remunerative. They take the children out to the persimmon grove on their chill day, tie one end of a rope to the fruit bearing limbs of the tree, fasten the other to the body and when the chill comes on, the 'simmons are shaken to the ground.

You don't have to cook young poultry with added water to make it juicy and tender. But for the older birds, long, slow cooking in steam or water is needed to make the meat tender.

Generally speaking, unfertilized farm ponds will support from 100 to 200 pounds of fish per acre while a fertilized pond will support from 500 to 600 pounds.

Hogs that are moderately fat and weigh between 180 and 240 pounds live weight, produce hams, shoulders, and sides of meat of the most desirable size for curing.

It takes 75 percent more energy to hang clothes from a basket on the ground than it does from a child's wagon.

Uncle Sam Says

Here's one big, safe resolution for 1949: "Resolved, I will take advantage of the opportunity presented by my government to buy U. S. Savings Bonds regularly; the finest, safest and most convenient investment in the world." If you stop to think of it there's no better time than right now to start building a comfortable cushion for later years. Upon maturity, U. S. Savings Bonds will return to you four dollars for every three dollars you put into them. They can be bought regularly under two convenient purchasing plans, the Payroll Savings Plan where you are employed or the Bond-a-Month Plan at your bank. U.S. Treasury Department

Sunshine, Cleanliness Help Kill Disease

Grass crops make ideal sanitary floors for the production and feeding of livestock because in order to maintain a good grass crop there must be plenty of sunshine, nature's own and unexcelled disease-germ killer. Veterinarians have been very successful in preventing swine erysipelas with the use of culture and serum—and in some cases, with serum alone.

Ends Bad Case of Constipation

"I used to have to take 3 or 4 pills regularly for constipation. Then I made KELLOGG'S ALL-BRAN my breakfast cereal and it proved to be a real regulator!" If your diet lacks bulk for normal elimination, eat an ounce of Kellogg's ALL-BRAN every day in milk—and drink plenty of water. If you are not satisfied after 10 days, send the empty carton to the Kellogg Co., Battle Creek, Mich., and get DOUBLE YOUR MONEY BACK. Order KELLOGG'S ALL-BRAN today.

Check that Cough from a cold Before It Gets Worse

—and get well quicker with the NEW FOLEY'S
The NEW FOLEY'S HONEY & TAR contains one of the most important cough treatment developments in years, one that ACTUALLY HELPS SPEED RECOVERY. Also soothes throat, checks coughing. Also delicious, non-narcotic, does not upset digestion. But most important, NEW FOLEY'S helps you get well quicker from cough due to cold. At your drugstore.

IF PETER PAIN TORTURES YOUR CHILD WITH

CHEST COLD

Does Government Management Work?
For a decade before World War II, France was moving toward control and management of her major industries. Private employers were unduly criticized. The profit system was represented as being abused. There were those who apparently found it easy to foment confusion and strife. Employees were set against employers. Production went down, standards of living went lower and lower. The security of France became doubtful, as dangers arose.

Then came the attack from Hitler. France fell quickly. Her divided condition, her hatreds and factionalism, made defense feeble and weak. Then five years later, liberation came. France again established her own government. But industrial confusion was still everywhere. Employers were so discredited by the propagandists that production couldn't get going.

From Chaos to Order
The trouble was that the French people in general, fretted by the propagandists, couldn't get down to straight thinking. The public wanted more and more for doing less and less. The call for government to take over major industries became louder and louder.

Certain industries were therefore taken over in 1945 and 1946. One of these was the coal industry, in which the government took over ownership of the mines. It employed the management, and hired all the workers. The government was placed in full and complete control. Three years passed.

No Happy Family
You have perhaps read the news in recent weeks. Government employed miners went out on strike against their government employer. These government employees so seriously damaged government owned mines that government soldiers had to be sent out to protect the property and the mines. You might think that under Socialism, everybody would be just one happy family.

Not at all. Fighting has been going on between the government and the government soldiers. Property has been so damaged that some mines cannot be reopened for many months at best. Lives have been lost in the fighting, and many persons wounded. All this at a time when France is in a critical hour, when her people need coal and fuel. This is all wrong, and it certainly proves that government management cannot insure industrial peace.

Keep Industry Safe
There are other important observations. Very important is the fact that government ownership and management of mines did not increase production per man day. On the other hand, 4 million tons of coal have been lost, and the price has risen about 80 per cent. This has led to the diversion of 10 million Marshall Plan dollars from other purposes, to buy fuel for the French people.

'Soil Surgeon' Declared Seedbed-Making Boon
Performs Multiple Work, Cuts Needed Time in Half

A new, efficient device for producing finer, smoother seedbeds is the "Soil Surgeon" now on the market.

Designed for use in a plowed field only, the device does the combined work of a double-disc, spiked-toothed harrow and a float—and manufacturers declare it gives the farmer a finer, smoother seedbed in half the ordinary time.

The exclusive use of the soil surgeon after plowing does not turn up dormant weed seeds or plowed-under vegetation, thus giving a cleaner growing crop and richer soil. It levels the ground, fills all air pockets, and seals the moisture

This "soil surgeon" is designed for use in a plowed field only. It does the work of a double-disc, a spike-toothed harrow and a float—and is said to give you a finer, smoother seedbed in half the time.

in the soil, thereby making for quicker germination and a higher yield.

Sturdy and simple, the soil surgeon consists of two heavy steel pans with raised sides, to permit loading with dirt for added weight. These may be used singly or bolted together, depending on the desired width to be covered.

To the bottom of each pan are bolted 20 double-edged cultivator knives, each provided with a bearing to permit it to follow easily and automatically the tractor's line of travel. These heavy-duty knives slice the four and one-half inches of soil into one-inch strips, while the action of the pan pulverizes, smooths and levels the sliced soil in a way not approached by any other instrument currently in use on the farm.

The field should first be worked in the direction of plowing, using as many sections side by side as the tractor can pull with weight adjusted. The final finish is obtained by pulling the soil surgeon across the line of furrows. The soil surgeon should also be used as a crust breaker for all oncoming crops to mulch and kill small weeds.

The three main causes of nearly two thirds of the hunting accidents reported during hunting season are humans in the line of fire, mistaking humans for game, and hunting with the safety catch off.

Maybe you're the "slow" one!

Have you been a little slow about giving your engine the extra protection it needs for winter-weather driving?

It's easy to change now to winter-grade Conoco Nth Motor Oil and the extra protection of an engine that is OIL-PLATED!

Because free-flowing Conoco Nth actually fastens extra lubricant right to cylinder walls. This extra OIL-PLATING protects working parts from winter's grinding "dry-friction" starts... from metal-eating combustion acids... and from power-robbing sludge and carbon due to wear.

So stop trouble before it starts...

HOUSEHOLD MEMOS... by Lynn Chambers

Casseroles Please, Satisfy Appetites During Cold Weather

WOMEN LIKE casseroles for dinner and supper menus because they're taste-tempting and satisfying to the family. At the same time, a well-planned casserole contains high nutritive value and stays within hard-pressed food budgets.

If you're short on time when preparing a meal, it's easy to whip together a casserole. Then, too, because a casserole contains so many other foods and frequently includes vegetables, there's little to worry about for the remainder of the meal.

Even if the casserole contains no vegetables, you can serve those in a salad which takes no time to toss together. Fresh or canned fruits, and cookies from the old stone crock will do beautifully for dessert.

PORK LEFT over from a roast will work nicely in this biscuit roll. You may serve gravy left from the

A pound of pork makes a tasty dish when combined with flavorful apples in this biscuit roll. This main dish is quickly mixed and easily baked for a cold weather supper.

roast over it or substitute tomato sauce.

Pork Biscuit Roll (Serves 4)

- 2 cups sifted flour
- 3 teaspoons baking powder
- 1 teaspoon salt
- 4 tablespoons fat meat drippings
- 1/2 cup milk (about)
- 3 tablespoons melted fat
- 1 cup ground cooked pork
- 1 egg
- 2 tablespoons minced onion
- 1/2 teaspoon salt
- 5 or 6 apples

Sift together flour, baking powder and salt. Cut in fat; add milk to make a soft dough. Roll dough into rectangular sheet length of dish, 1/3 inch thick. Brush with melted fat. Combine meat, egg, onion and salt. Spread mixture over dough. Roll as for jelly roll. Place roll cut side down in a 10-inch heat-resistant glass dish. Cut apples in halves and arrange along sides of roll. Bake in a hot oven (400° F.) for 30 minutes. Cut in thick slices and serve with extra gravy or tomato sauce.

HEARTY CHEESE and noodles are combined to make this next casserole. Wedges of ripe tomato baked on top add color as well as interest.

Red-Top Olive Casserole (Serves 5-6)

- 1/2 cup ripe olives
- 2 cups noodles (4 ounces)
- 2 tablespoons butter or substitute
- 2 tablespoons flour
- 1 1/2 cups milk
- 1/2 teaspoon salt
- Black pepper to taste
- 2/3 cup grated American cheese
- 2 tomatoes

Cut olives from pits into large pieces. Cook noodles until tender in boiling, salted water. Drain and place in baking dish. Melt butter and blend in flour. Add milk and seasonings, cook and stir until thickened. Remove from heat; stir in cheese and olives. Pour over noodles. Cut tomatoes into 6 wedges and press skin side up on top of noodles. Bake in a moderate (350° F.) oven about 25 to 30 minutes.

If you've decided on the individual cheese and meat pies, here's the recipe which will give you 8 pie shells, 3 3/4 inches in diameter and 1 inch deep. It's a good idea to make these first so they can chill while you make the mixture for the pies.

LYNN SAYS:

Here's Help in Planning Quickly Prepared Meals

Sift dry ingredients for muffins, biscuits, meat pies, etc., to save last minute preparation time.

Keep grated cheese and buttered bread crumbs in refrigerator for casserole and vegetable dishes.

Even pies are easy to make if you keep pudding mix in a glass jar and pie crust which takes little time to roll and bake. Top with meringue or whipped cream for a tasty dessert.

LYNN CHAMBERS' MENU

- *Cheese-Meat Pies
- Tossed Green Salad
- Hot Rolls
- Apricots Beverage
- Cookies
- *Recipe Given

Pastry (For Cheese-Meat Pies)

- 2 1/2 cups sifted flour
 - 1 teaspoon salt
 - 3/4 cup shortening
 - 5-6 tablespoons cold water
- Sift together flour and salt. Cut in shortening with two knives or pastry blender until pieces are the size of a small pea. Sprinkle 1 tablespoon of water over a small portion of the flour mixture, lightly pressing moistened particles together with a fork. Put this dough to the side of the mixing bowl. Repeat until all flour is moistened, being careful to add water each time to an undampened spot. Lightly form into a ball, wrap in waxed paper and chill 1/2 hour.

Cheese-Meat Pies (Makes 8)

- 1/2 cup finely chopped onion
- 2/3 cup finely chopped green pepper
- 2 tablespoons butter
- 1 pound chuck beef, ground
- 1 teaspoon salt
- 1/2 teaspoon pepper
- 1 1/4 cups condensed tomato soup
- 3 cups cooked fine noodles
- 1/2 pound American cheese, grated

Line 8 individual pie pans with pastry. Cook onion and green pepper until tender and lightly browned. Add ground meat, salt and pepper and mix well. Stir in tomato soup and noodles. Blend well. Add cheese, saving 1/2 cup for top of pies. Fill pastry-lined pie pans with cheese-meat mixture. Sprinkle 1 tablespoon of cheese on top of each pie. Bake in a moderate (350° F.) oven for 45 minutes. Serve hot in pie pans, or, let cool in pans for 15 minutes and then lift from pans with aid of spatula.

YOU'LL GET a hearty, man-sized meal from both of these casseroles and at great economy:

Lima Bean Casserole (Serves 10)

- 2 cups dried lima beans
 - 1 pound pork, cubed
 - 2 tablespoons flour
 - 1 1/2 teaspoons salt
 - 1/2 teaspoon paprika
 - 1/4 teaspoon mace
 - 1 1/2 cups chopped onions
 - 2 1/2 cups canned tomatoes
- Soak lima beans overnight. Drain. Add water to cover and simmer, covered, until tender. Dip meat in flour mixed with seasonings. Brown in hot fat. Add onions and cook until golden. Alternate lima beans and meat in a greased casserole. Add tomatoes. Bake in a moderate

Individual cheese-meat pies are a sure-fire answer to the menu planning problem. These pies combine the high quality proteins of cheese and meat to make a low-cost main dish.

(350° F.) oven for 1 1/2 hours. Add bean liquor if mixture tends to dry too much.

Corn-Hamburger Casserole (Serves 8)

- 1 pound ground beef
 - 2 tablespoons fat
 - 1/4 cup chopped onion
 - 1 can condensed tomato soup
 - 1 1/2 cups water
 - 4 ounces noodles, cooked
 - Salt and pepper
 - 2 1/2 cups canned corn
 - 1/4 cup chopped ripe olives
 - 1 cup grated American cheese
- Brown meat in hot fat, add onion and cook until tender. Add soup, water and noodles. Cook until noodles are tender. Season to taste, then add corn, olives and cheese. Bake in a casserole in a moderate oven for 45 minutes.

Released by WNU Features.

Sauces may be made in advance and refrigerated until heating time. Or, use canned soups for sauces. There are cream of mushroom, tomato, cream of chicken and cream of celery which are all good.

Puddings and gelatin salads and molds may easily be made in advance to save time preparing a meal.

Refrigerator biscuit and cookie doughs are handy to have when you're rushed for a meal. Cookies can bake while you're eating the main course.

International Union Sunday School League
By DR. KENNETH J. FOREMAN

Teaching Religion

Lesson for February 6, 1949

SOME PEOPLE, strange to say, don't believe in Sunday schools. Most North American Protestants do, because Jesus did. The word may not be found in the New Testament, but the thing is there.

Dr. Foreman

If Jesus did not believe that religion could be taught, then he was guilty of wasting much of his time, for he worked at teaching in season and out of season. He was a product of the Sunday school, in a sense. During his childhood he would go to the synagogue school week days and especially on Sabbaths; we know that by the time he was grown it was his "custom" to attend synagogue services.

And in every Jewish community the synagogue was the place where for two hundred years and more, children and youth and older people had been taught the Word of God.

If Christians today are faithful to Christ's example, we also will keep at the job of teaching our religion to every child within our reach.

Body and Soul
READERS of the gospels will note that when Jesus went home from the synagogue on the Sabbath, his day's work was not done. He would spend hours, sometimes till far into the night, healing people brought to him for cure. Jesus ministered to mind and soul. Jesus was interested in personalities, whole people, not half-people. Our minds have to be fed, but we live in bodies, and bodies have no little to do with personalities. Jesus was not content with teaching sick people; he made sick people well. So the church today, if it is faithful to Christ's principles, will consider people as complete personalities.

The Common People
WE FIND that Jesus did not insist on university audiences. Indeed, he never spoke to a university audience. There were great universities in those days, but it was not necessary for any one to be a graduate of one of them in order to enter Jesus' school, or to understand what he taught. He taught the plain people plainly. Again the church of today takes a leaf out of Jesus' book. Most of our Sunday schools, for instance, have graded lessons; the little tots do not study from the same quarterlies the grown people use.

In all our teachings we try to use the pupil's language and to put our Christian ideas in the thoughts that the pupils can understand.

At the best seminaries, young ministers-to-be are carefully taught how to put the great Christian doctrines in ways that the simplest over people's heads is not teaching.

God and Education

JESUS did not try to teach people carpentry, or arithmetic, or geography. No doubt he could have done so. But he had something more important on his mind, something which he alone could teach. He taught religion, or in other words he taught the truth about God, and about man, and about right relations between God and man. So the teaching church, whether in the Sunday school or in the books written by its scholars or in its schools and colleges, when it follows Christ's example, is always teaching religion first and foremost. We do not believe that religion is a secondary issue, something you can "take or leave."

Religion On Two Feet

JESUS did more than talk. He lived. His whole life and character were saying more loudly and plainly what his words said.

So the Christian church today, when it is faithful to Christ, must translate into actual living the faith he teaches in Sunday school lessons, in catechisms and books and sermons.

What we do, as Christians, speaks louder than what we say. Every Sunday school teacher needs to remember that what is said on Sunday is important, but what the teacher does on Monday is more impressive by far. The reason why Jesus was more effective than John the Baptist was that John, after all, was a voice, while Jesus was a Friend.

(Copyright by the International Council of Religious Education on behalf of 40 Protestant denominations. Released by WNU Features.)

and **WAKE UP FRESH EVERY MORNING**

with **Electric BED COVERING**

Automatic electric bed covering is an investment in effortless winter sleeping comfort . . . your assurance that you'll sleep warm and comfortable all through the night . . . under light-weight covering . . . from the moment your head hits the pillow until you awake refreshed the next morning. A few minutes before retiring, you can snap on the switch of the electric bed covering control. When you're ready to retire, you'll fall asleep faster in a bed that's warm all over. Wakeful bed-time chills are eliminated, and your bed covering maintains the warmth you select regardless of changing room temperatures.

Visit your favorite store which sells electric appliances and see these modern aids to better health and comfort. And remember, they are economical to operate with low-cost electric service.
