

The O'Donnell Index

O'Donnell Delegation Meets With Brownfield

O'Donnell delegation composed of fifty-five or sixty men representing practically all business interest in O'Donnell and some of our most prominent citizens of our trade territory, met with Brownfield on Monday on a good-will mission. O'Donnell delegation took the train for Brownfield on Monday on a good-will mission. O'Donnell delegation took the train for Brownfield on Monday on a good-will mission. O'Donnell delegation took the train for Brownfield on Monday on a good-will mission. O'Donnell delegation took the train for Brownfield on Monday on a good-will mission.

spoke explaining the object of the visit. Judge W. H. Crunk, C. H. Doak, Mayor E. M. Wilder, Hal Singleton, Sr., A. A. House, S. G. French and others spoke briefly in the interest of O'Donnell's cause. The Brownfield railroad committee is compiling statistics as to tonnage to assist in every way possible, etc., which would be of mutual interest to the towns along the proposed route. Judge Winston spoke for thirty minutes on the East and West railroad proposition and strongly favored the Roswell, N. M., Brownfield, O'Donnell, Gail, Snyder and Rotan route as proposed by Capt. Kennedy which is along the old survey. The meeting was very interesting and enthusiasm was kept high by the presence of about ten or twelve O'Donnell ladies who acted as a pep squad which proved to be one of the features of the meeting. Before adjournment, president J. P. Aylor of the O'Donnell Luncheon Club, extended an invitation to the citizens of Brownfield to attend the first regular luncheon of the newly organized club which will be held on next Tuesday night. The invitation was accepted and plans are being made to entertain a number of Brownfield citizens Tuesday night.

Buttin' In

LUNCHEON CLUB MEETS TUESDAY NIGHT

The first regular luncheon to be served by the newly organized O'Donnell Luncheon Club will be served next Tuesday night, place to be announced later. In all probability it will be served at the high school building which is about the only place large enough to accommodate the enormous crowd that is expected. Brownfield, Tahoka, Lamesa, Gail and Snyder have been invited to attend an dall have accepted. The O'Donnell Luncheon Club has a charter membership of two-hundred which was organized a little less than two weeks ago. It is expected that a large per cent of the membership will attend the first luncheon. The local members together with Brownfield, Tahoka, Lamesa, Gail and Snyder citizens will probably swell the attendance to several hundred. A splendid program has been arranged by the committees which promises plenty of amusement throughout the evening. Don't forget the date, next Tuesday night.

ELLOWS MEMORIAL SERVICE

Today the Odd Fellows observed their annual Memorial Service in memory of their founder, William Wakeley, who organized the Odd Fellows in America at Baltimore in 1819. The Odd Fellows met at the hall and a body to the First Baptist Church, being led by standard formed in double formation. Prof. played as he only can. The Odd Fellows marched into the building. Fellow wore the regalia to his rank and office. The group had taken their place for the opening offered by Noble Grand. Another song and the offering being made the pastor of Baptist Church, Rev. Horn, gave a morning lesson that Sunday on love, 1 Cor. 13th. The pastor gave a brief sur- Odd Fellowship, telling in some of its achievements and its organization in this among other things he said under has expended since in this country One five million dollars, that money is around two mil- present time, and that of the order is about fifty years, showing that the Odd is not in the formative per- our work deals in things and vital. POLL TAX FOR '28 IMPORTANT

Many Elections And Political Meetings Are Scheduled During Year. (Lynn County News) Property owners are crowding the tax collectors office daily paying their taxes. Every potential voter in the county should be sure to pay his or her poll tax before February 1, as this will be an important year politically. Texans who pay their poll taxes or secure exemption certificates by midnight of January 31 will have an opportunity to participate in a large number of political meetings and elections this year. The interest will be greater this year on account of the election of a president. Dates on the political calendar are: May 5—Precinct primaries to elect delegates to county conventions. May 8—County conventions for national delegates. May 22—State convention to select delegates to national convention. June 4—Candidates for party nomination and state offices must file applications with state chairman, and candidates for nomination for district offices must file applications with district chairman. June 11—State executive committee meeting to select place for state convention. June 16—Last day to get name on official ballot for county and precinct nominations. June 18—County executive committee meets to determine the amount each candidate is to pay on ballot and transact other business. June 25—Candidates must pay assessment to get name on ballot. July 28—First state primary. August 1—Returns made to county chairmen. August 4—County executive committee canvasses results. August 20—State executive committee canvasses results. August 25—Run-off primary. Precinct conventions. August 29—Returns made to county chairmen. September 11—State convention make nominations. November 6—General election. December 4—Results canvassed by state board. Candidates for county and precinct offices will be especially interested in the date of Saturday June 16. That is the final date that any candidate may file for county or precinct nominations.

Noted Evangelist To Lecture Here

The Cleghorn Evangelistic Party, headed by Rev. W. F. Cleghorn, with Prof. Price and wife as singers, and Rev. Lon R. Woodrum as one of the preachers, begins a revival here Sunday morning, January 29, continuing until February 12. Rev. Woodrum, who is known as the West Texas Cowboy Evangelist is a splendid preacher of the rugged gospel. Mr. and Mrs. Price, of Kansas City are exceptional singers. Rev. Woodrum, also from Kansas City, is a convert from the Roman Catholic Church, and at one time started to study for the priesthood. Sunday night, January 29, at 7:15 o'clock, Mr. Woodrum will lecture on "Ramonism," bringing in his experience while united with the Catholic Church. He will present the truth concerning the aims and the actions of the church of Rome. This is a needy message of the hour and one which every protestant should hear. The entire public is cordially invited to attend this lecture and gain first hand information concerning the corruption of Rome.

O'DONNELL L. C. MEETS WITH TAHOKA C. C.

O'Donnell folks again demonstrated their progressive spirit and willingness to cooperate by turning out fifty strong to attend the banquet and reorganization of Tahoka Chamber of Commerce on Tuesday night of this week. The invitation had been extended by the Tahoka Chamber and O'Donnell folks believe that if a thing is worth doing it is worth doing well and practically every business concern in town was represented at the meeting. A banquet was tendered all visitors which included visitors from Lamesa and O'Donnell. Tahoka's Chamber of Commerce was reorganized with much interest being manifest. A number of splendid talks on community building was enjoyed by the large number present. Before adjournment an invitation was extended to the citizens of Tahoka to attend the first regular luncheon club to be held Tuesday night. Tahoka signified her intention of sending a large representation to Tuesday night's regular luncheon. Members of the O'Donnell Luncheon Club, with their wives, were banqueted by the Tahoka Chamber of Commerce on Tuesday evening, January 24. Termed by the O'Donnells, this is one of the most elegant affairs of the season. The dining-room was very beautifully decorated, carrying out the valentine effect throughout. Toastmaster J. A. Brasher, presided over this occasion. The Young Men's Glee Club delighted us with two numbers: "Kentucky Lullaby" and "Jog Along Boys." Our applause brought Hail, Hail, the High School Gang is Here. While being served the first course pineapple-mint cocktail, the Tahoka Band entertained us with several popular selections: "Forgive Me," and "My Blue Heaven" "El Captain" and others. Capt. Blaze then led us while we sang "Sweet Adeline," "There's a long, long Trail," and "Keep the Home Fires Burning." The main course, consisting of roast of stuff chicken with Russian dressing and giblet gravy, creamed peas in nests of potatoes, cranberry jelly, dinner rolls, and Southern cold slaw. Toastmaster Brasher introduced Mr. Wm. A. Wilson, secretary of the Chamber of Commerce of Lamesa, o'clock Friday can stay over for the evening meeting which will be held at 7:30 Friday evening. The first few meetings of the Institute have been big successes from the standpoint of interest and attendance and a number of visitors from other towns have been present at ever meeting thus far. These out-of-town visitors all declare they will attend the Friday afternoon meeting. Irwin will speak on the subject, "The Problems of the Smaller Store."

Special Merchants Meeting Planned

LUBBOCK, Texas, January 26.—(Special) A special meeting is being planned for merchants and other business men in South Plains towns at Lubbock Friday afternoon at three o'clock at the office of the Lubbock Chamber of Commerce with Pryor Irwin, national business counselor and investigator in charge. Irwin who has been brought to Lubbock at a considerable expense to conduct a "Better Business Week," which is a Merchants' Institute has suggested the meeting since his arrival here. Merchants in other South Plains towns may not have the same problems as those of Lubbock and for this reason a separate meeting for the visiting business men will be wise, Irwin says. Plains business men who come in for the afternoon meeting at three

WOMEN'S MISSIONARY SOCIETY MEETS AT METHODIST CHURCH

The W. M. S. of the Methodist church met Monday afternoon at three o'clock at the church, president Mrs. Gates, presided over the meeting. Mrs. B. M. Haymes was elected to take charge of the Baby Division and Miss Hester Gates the Primary Division of the Junior Epworth League. Mmes. E. T. Wells, B. J. Boyd and Marvin Pemberton were appointed as committee to decorate the church for the fifth Monday Social. Mmes. J. P. Bowlin, B. M. Haymes and W. H. Veazy were appointed to arrange and solicit the menu for the luncheon to be served at the Sunday School Institute, which convenes in O'Donnell February 3, 1928, at ten o'clock A. M. The luncheon will be served at the church. Rev. Mrs. J. T. Weems was appointed to Superintendent the mission Study the coming year. Mrs. Bell Knight was appointed as Superintendent of Bible Study. Mrs. Harvey Everett read a letter from our district Secretary, Mrs. S. H. Adams, pertaining to the History of the O'Donnell Society. Dismissed with prayer by Mrs. J. T. Weems.

MRS. H. B. HARVILLE'S FATHER SERIOUSLY ILL

Mrs. H. B. Harville received a message Monday that her father, Mr. John Tockett, of Bangs, Texas, was seriously ill. Mrs. Harville left Tuesday morning for Bangs, where she will be indefinitely. Mrs. D. M. Estes and son, Ewing Estes, went to New Mexico this week to be gone several days.

Delegation Goes To Snyder, Texas

Today (Thursday) a delegation composed of approximately one-hundred men and women of O'Donnell and trade territory are in Snyder, our neighbor just under the cap rock, for the purpose of discussing an East and West railroad which is being promoted by Capt. Ed Kennedy of Houston. During the past few weeks since Capt. Kennedy proposed to build a direct route from Roswell, N. M. through the South Plains to Fort Worth, Snyder has been using her influence in favor of Lamesa, trying to induce Capt. Kennedy to accept the Lamesa route which is many miles south of the right-of-way asked for by Capt. Kennedy. The delegation, one-hundred strong, left this morning heavily armed with data and statistics sufficient to convince the most skeptical that O'Donnell is entitled to the new road. The people of O'Donnell and surrounding territory are determined nothing is being left undone that would assist in the promotion and building of a new and shorter route from Roswell, N. M. to Fort Worth, via O'Donnell. The O'Donnell delegation will be served luncheon by the Snyder Chamber of Commerce. A report to the meeting will be given in next week's issue. PLAINVIEW—A three year contract for the Staked Plains Turkey Growers Association was proposed on motion of T. R. Galt, recently. The association has just completed a five year period of successful operation.

G. C. Grider's Hat In Ring for County Judge

Just as we start to press with this week's issue of the Index, G. C. Grider, well known citizen of O'Donnell and Lynn County, rushes in our office and authorized us to announce him as a candidate for County Judge of Lynn County subject to the action of the Democratic primary in July. Further announcement will be made next week.

TAKE CARE OF YOUR FLOCK AND GET MORE EGGS.

By F. W. KAZMEIER Bryan, Texas

A successful poultryman, the other day referred to a "hen house" as a "hen home". Perhaps that is a good way of describing a good poultry home. Remove all windows wash them. Clean out all dust and cob-webs on inside of house from top to bottom. Comfort will do much to encourage egg production at this time of the year.

Raw Material and Finished Product

On the most farms the most profitable practice is to produce the raw material, and then divert it into a finished product like eggs, meat and milk. The finished product, is less bulky and can be shipped further at a greater profit.

For the last two years district two has held its meet at Texas Technological college and it will be held here this spring. The college buildings and athletic grounds afford ample accommodation for the meet.

tremely good, Rev. Horn did not try to place the Odd Fellows lodge or any other organization upon a level with the divine church of Jesus Christ but did prove they worked thru and under the teachings of Jesus going about doing the good among the widows and orphans as commanded by the Savior.

DISTRICT ORGANIZATIONS ARE COMPLETED

LUBBOCK, Texas, Januar y26.—According to announcement from the office of Roy Bedichek, chief of the Interscholastic League Bureau, all of the twenty-seven district organizations have been completed.

Other counties in this district are Andrews, Bailey, Borden, Cochran, Crosby, Dawson, Dickens, Floyd, Gaines, Garza, Hale, Hockley, Lamb, Lubbock, Lynn, Martin Terry, and Yoakum.

ROTARY CLUB OF LUBBOCK CONTRIBUT STUDENT LOAN

LUBBOCK, Texas January 26.—The Rotary club of Lubbock has arisen through voluntary contributions a student loan fund amounting to \$3,865.79 to be loaned to needy and deserving students of Texas Technological college.

Practically all of the available fund is now loaned out. Sixty-one students have already been aided since the opening of Tech, some of whom have already graduated and are paying their loans back to be used by other students.

Dean J. M. Gordon is chairman of the loan fund committee. Other members are: Rev. Walter P. Jennings, Walter S. Posey, Dean W. M. Miller, J. A. Rix, Dr. M. C. Overton, and I. C. Enochs.

"BEN-HUR" CONTAINS SCENES OF DRAMATIC INTENSITY

"Ben-Hur," the Metro-Goldwyn-Mayer film playing at the Lynn Theatre for its last showing tonight, owes its popular success not only to the grandeur of its spectacle and the absorbing nature of its action but likewise to the love story of Ben-Hur and Esther and the other love motif 'twixt mother and son which is brought powerfully to the fore through the many years of separation of Ben-Hur and his parent by the Romans who condemned him to the galleys and his womenfolk to a forgotten dungeon.

SUMMER SCHOOL AT TEXAS TECHNOLOGICAL

LUBBOCK, Texas, January 26.—Announcement is made that the 1928 Summer school at Technological will open June 4 and last until August 24. The summer session will consist of twelve weeks, divided into two terms of six weeks each.

Work will be offered in all branches of the school of liberal arts, also courses in engineering, agriculture, and home economics. Special work in the science of education will be offered. In addition to the regular faculty there will be special instructors from the outside.

Officials state that all privileges in the matter of teachers' certificates that are accorded by the laws of Texas to standard Texas colleges, including the law passed by the last legislature concerning the extension of certificates, will be given those who attend the Tech summer session.

Highest market price paid for your maize at all times. See me at Henderson-Boone Gin. A. H. Koeninger.

BOY HURT, HORSE KILLED IN CAR ACCIDENT FRIDAY

Arthur, the fourteen-year-old son of Mrs. N. T. Singleton was thrown from his horse receiving minor injuries Friday afternoon when hit by a Tahoka car. The horse he was riding received a broken back in the collision and later died.

Evidently the car was going at a terrific speed as the horse was thrown several feet from the road and the car was badly dilapidated, the wind shield was broken, radiator demolished and the two front casings which were blown out.

The boy was sore and stiff from the fall but doing splendidly at the last report from him.

Two children hurt in car wrecks one week in a place of O'Donnell's size is just a case of too much carelessness on some one's part if it should be the child or the drivers fault which ever the case, some one should strive to be more careful. Next time we may not be so fortunate and some little life will pay the toll.

THE YOUNG PEOPLES MISSIONARY SOCIETY

Our work is progressin gnically. We have very interesting programs as everyone seems to be interested and willing.

We wre in debt, but through the kindness of the ladies of the Methodist church donating cakes and pies we have managed to be square again.

Miss Jessie Sargent spent the past week-end with friends in Lubbock and Tahoka.

We regret very much to report the serious illness of Mrs. W. C. Hart. As we go to press we learn she is slightly improved.

Messrs Vaughn Power, D. L. Brown and Jack White spent Sunday ir Slaton.

What's Doing In West Texas By W. T. C. C.

FORT WORTH—Major John P. Hawley, Dr. P. C. Colmean of Colorado, J. A. Kemp of Wichita Falls, W. P. Hallmark of Dublin, and Clifford B. Jones of Spur are committeemen appointed at the West Texas Chamber of Commerce Executive Board meet to make investigations and recommendations in the troublesome water rights case.

CLAUDE—Ditch lines for natural gas are being laid here.

WEATHERFORD—Four of the

five major objectives for 1927 work of the Weatherford Chamber of Commerce are now accomplished facts, and the fifth, securing county agent and demonstrator, is expected to be a reality shortly.

SILVERTON—Installation of a \$35,000 water system will start here at an early date.

PLAINVIEW—A three year contract for the Staked Plains Turkey Growers Association was proposed on motion of T. R. Galt, recently. The association has just completed a five year period of successful operation.

CHANNING—Channing business men have come in for a 100 per cent affiliation with the West Texas Chamber of Commerce.

SWEETWATER—A fund of \$7,200 will be raised to combat wolves in Nolan County for a period of one year.

ANTON—Anton is among the towns to affiliate with the West Texas Chamber this month. It is located in a good farming region where diversified farming is practised.

IDALOU—Business property in Idalou has been purchased by F. B. Petty of Bledsoe who has moved to take charge.

TUSCOLA—February 7 has been set as date for the Tuscola annual banquet. President R. W. Haynie and Manager Homer D. Wade of the West Texas Chamber of Commerce have been asked to attend.

EASTLAND—Work will soon get underway on Eastland County's \$260,000 courthouse.

MORAN—A \$50,000 sewer system is under construction here. Bonds will be voted on February 13.

SPUR—Spur ginned 17,754 bales of the 1927 cotton crop, according to figures made public here. A few bales remain to be picked.

COLORADO—Plans are underway for the district convention of the West Texas Chamber of Commerce to be held here in February.

ROTAN—Nearly every business house in town was represented at the annual banquet of the Rotan Chamber of Commerce held recently.

SPEARMAN—Actual construction is underway on a modern sewer system for Spearman.

WINK—The town of Wink, one of West Texas' fast growing oil centers, has affiliated with the West Texas Chamber of Commerce.

MULESHOE — The Muleshoe Chamber of Commerce will pay \$300 to help repair the road between Highway 7 and Baileyboro.

JUNCTION—The city of Junction has purchased a motor driven chemical engine with all standard fighting equipment.

OLTON—The Muleshoe-Olton routes has been changed to more rural residents.

Buy In Your Neighborhood

"PATRONIZE your Neighborhood Stores" mis-spell the advertisements. It may be the oddness of the spelling, or else the soundness of the advice, but it's safe to say that most people have noticed them. The advice is sound because it enables you to carry home your own parcels, thus keeping down prices by avoiding having delivery charges tacked on to them, because there are not so many uniform products nowadays that you get the same quality everywhere, and because it makes shopping a pleasant thing to be known and greeted by name where you do your buying.

And, after all, your neighborhood is really yours. If you shop there, your likes and dislikes become known, and this insures you better service. The French have a sense of locality so strongly ingrained that, if country folk, they retain a deep love for and loyalty to their "quartier" has no equal in any other part of the metropolis. They will maintain this loudly and long in the face of all opposition. Perhaps no more joyous word battles have ever been waged than those fought to the bitter end over the relative merits of the various parts of Paris by their loyal residents.

American Food Habits Uniform

Of course the greater part of our daily buying consists of purchases of food. This makes buying in our "neighborhood" comparatively easy because, as a people, our food habits are fairly uniform. This is due to the fact that we purchase so much food in ready prepared form. The sanitary tin can has made it possible to buy almost anything you want within easy walking distance of your home. You find not only a greater variety of ready-prepared foods in every grocery store, but you can get them now in different sized tin containers devised to suit the size of your family and your needs.

In the early days of canning the choice of the foods they contained was limited, but now meats and vegetables, fruits and fish, preserves, pickles, soups, relishes and all sorts of entrées are available in this sanitary form. Coffee, cereals, dried milk and nuts are now packed in a vacuum and so preserved perfectly, and even the full color of the red fruits and vegetables is retained by packing them in gold enamel lined cans.

Independent of Seasons

Ready-prepared foods make us not only independent of locality — since we can buy as good things near home as anywhere else — but they render us independent of seasons, and enable us to greet the unexpected guest at any moment, with a confident smile and a subsequent delicious meal. A food which will serve to illustrate most of these points is one which seemed likely, a few years ago, to disappear entirely from our tables with a consequent serious loss to our menus. Canned salmon is available to every household in the country, while fresh salmon has a brief season of only about six weeks. As most salmon is caught in rivers far and remote from the markets, it was seldom eaten except near its habitat until it was put up in cans.

In its canned form salmon stays on the grocer's shelves till called for, and on the housewife's table she needs it. Whether she wants to open a large can of salmon to serve in big red pieces, or a smaller can of red or pink for salmon salad or salmon loaf, she finds it fresh as when it was packed a few minutes out of its native river which is flowing perhaps hundreds of miles away.

Spring Fever Unnecessary

Fruits and vegetables are now obtainable in your neighborhood, irrespective of the seasons and locality where they were grown. In the old days spring fever, the result of too few fruits and vegetables with their content of heat-maintaining minerals and vitamins was a recurrent and expected thing. Today this is known to be an unnecessary evil and its occurrence an indictment of the housewife who could have warded it off with resources which her neighborhood grocer places at her disposal. Not only are foodstuffs in summer preserved for winter use, but the canning industry, but foodstuffs will not bear transportation made available by it in any locality in delicious form. Two instances of these are fruits — figs and waiian pineapple, — which were brought to just the right degree of ripeness before they are preserved in cans. Thus it is possible for American housewife to supply her family with the food elements necessary to health and even luxuries during all the winter months from a source, right at her elbow — almost any of her neighborhood stores.

How Beef Can Be Fed for a Dime a Day

BEEF breeding cows can be maintained during the winter at low cost almost entirely on the by-products of ordinary crop rotations, the Sears-Roebuck Agricultural Foundation points out. By this means, the purchase of feeder cattle at prices which are comparatively high, due to the current shortage of cattle, can be avoided.

Such cows have been carried for a period of 154 days by the Illinois Agricultural Experiment Station on a ration consisting of 54.62 pounds of silage made from corn stover, 5.02 pounds of oat straw and one pound of nitrogenous concentrate. The cost averaged 10.11 cents a day, counting stover silage at \$2.75 a ton, oat straw at \$4 a ton and nitrogenous concentrate such as cottonseed meal at 1.6 cents a pound. The cost of the stover silage was based entirely on the man and horse labor and machine cost of putting the stover into the silo. When nitrogenous concentrate is higher or lower in price, the cost of the ration would be varied accordingly.

The high cost of feeder cattle probably will constitute a serious problem in the next few years, the Foundation states, owing to the decline in the number of beef cattle in the range states which furnish most of the feeder cattle supply, and the decline in market receipts which has resulted. A decided advance in prices of stocker and feeder cattle has occurred already. At Chicago, the average cost to buyers in the fall of 1927 has been about \$8.25 per hundred pounds compared with \$6.95 a year previous and an average cost of \$8.50 during the fall seasons of the last five years. By wintering on the stover silage, straw and nitrogenous concentrate ration and by carrying through the summer on legume pasture, particularly sweet clover, farmers can raise their own feeders at moderate cost. The calves produced should be pushed along as rapidly as possible and marketed as baby beef at twelve to eighteen months of age.

Farm Prices Take Upward Trend

The advance in prices of farm products from April to September, 1927, was one of the most remarkable in recent years, according to the Sears-Roebuck Agricultural Foundation. The values of the commodities sold by farmers, as compiled by the United States Department of Agriculture, rose from 25 per cent above the pre-war average

at the beginning of this period to 40 per cent above pre-war at the end. Farm prices had been declining for two years when this advance started. In five months, more than half of the two-year slump had been recovered. September, 1927, prices averaged nearly 5 per cent higher than a year previous, showing a complete reversal of the trend.

The purchasing power of the "farmer's dollar," or the ratio of prices of farm products to wholesale prices of industrial products is back to 90 cents compared with only 83 cents in September, 1926.

The advance of 82 per cent in the farm price of cotton from April to September was the most important change in the market value of the individual commodities. An advance of 46 per cent occurred in both corn and egg markets. Cottonseed meal prices rose 33 per cent; apples, 26 per cent; veal calf prices, 9 per cent; barley, 8 per cent, and beef cattle, 5 per cent. Smaller advances were recorded also in the values of wheat, oats, flax, and wool. In contrast with these advances were the declines of 20 per cent in hay, 15 per cent in potatoes, 11 per cent in chickens, 7 per cent in sheep, 6 per cent in hogs, and 5 per cent in lambs, as well as smaller declines in prices of butter, rye, sheep and horses.

Turkey Industry Stages a Comeback

ALTHOUGH the heyday of the turkey came to a close along with the passing of the frontier days, new interest in raising this king of feast birds is again developing as experiments prove they can be handled under ordinary farm conditions, says the Sears-Roebuck Agricultural Foundation.

The industry today is only a third as large as in 1890, when the turkey population totaled 10,754,000. In the twenty years, from 1890 to 1910, it dropped off to only 3,688,708. In 1920 when the last official count totaling 3,627,028, was taken, only 10.4 per cent of the farmers had turkeys compared with 90.5 per cent who reported chickens. Growing scarcity of range lands and heavy losses from disease probably were the largest contributing factors in discouraging farmers from raising turkeys.

The disease bug has been so successfully routed, however, that it is now possible to raise turkeys with no more losses than can be expected in the chicken yard. It costs but little more to feed a turkey than a chicken, and gains in weight are much larger. Most chickens weigh from 3 to 5 pounds when marketed, while turkeys are usually sold at around 12 to 15 pounds. Furthermore, prices paid to producers for turkeys since 1920 have averaged 28.5 cents a pound compared with 19.3 cents for chickens during the fall and early winter months. Part of this advantage of the turkeys, of course, is offset by the income from eggs from the chicken flock which furnishes a considerable portion of the total returns.

The Modern Eskimo

THE Eskimo, familiar to us all from the memory of the old geography pictures which showed a squat individual nearly hidden in fur garment and hood, standing beside his dome-shaped igloo, is a figure of the past even in the remotest and iciest stronghold of the Arctic.

Recent explorations by the Smithsonian Institution resulted in the information that the Eskimo man is wearing shirts and trousers and smoking cigarettes, and the woman a Mother Hubbard-like garment over her furs, and that she is a devotee of face powder. Their amusements and dietary are equally revolutionized to include the phonograph, the radio and canned foods.

According to these reports no self-respecting Eskimo woman would think of attempting to bring up her children without the aid of American canned milk, and canned foods are replacing the old diet of fish, seal blubber and fried sea-weed.

A Friend of All Races
Canned foods have been the standby of explorers since the quest of the poles replaced the crusading spirit and the search for the Holy Grail in the minds of adventurous men. Last year, in England, a can of meat, relic of an early expedition into the North was opened, and, in spite of its eighty-one years in Arctic cache and English museum, was found to be entirely fit for human food.

PERSONAL MENTION

Hugh McLaurin is on the sick list this week.

Mrs. George Shumake and W. M. Jones made a trip last week to Florence, San Angelo, and other points in that part of the state. They were transacting business and visiting relatives.

Mr. and Mrs. R. O. Stork of Lamesa visited friends in O'Donnell Sunday.

M. E. Jones, who is with the Tonsor Barber Shop of this city, moved his family here from Brownfield Monday.

Miss Thelma Palmer has been ill this week with an attack of Flu.

Mr. W. H. Ellis, one of the Santa Fe employees here, returned Monday from a visit to relatives in Kirksville, Mo.

Mrs. W. H. Thornhill of O'Donnell joined Mr. and Mrs. R. K. Thornhill in Lamesa Saturday and together they left Sunday morning for Dallas where they will visit a few days besides doing some marketing for the Variety Stores, here and at Lamesa.

Mr. and Mrs. Carl Beatenbough made a business trip to Brownfield Tuesday.

Mrs. Loyd McClish of Brownfield was the guest of her brother, Carl Beatenbough and family the first of this week.

Jno. D. Coff and wife of Treadway was in our city shopping last week.

THE YOUNG PEOPLES MISSIONARY SOCIETY

Our work is progressing nicely. We have very interesting programs as everyone seems to be interested and willing.

We were in debt, but through the kindness of the ladies of the Methodist church donating cakes and pies we have managed to be square again.

The Supply Shelf

TWO chops for dinner, and Friend Husband walks in beaming, with the college friend whom he has not seen since the summer following the receipt of their diplomas. This chum's praises have been sung to you and you want him to feel properly envious of Friend Husband's happy and pleasant home. But dinner, the meat markets closed, and those chops shrink to microscopic size.

You scan your supply shelf hopefully. A can of corned beef promises relief from your embarrassment. Potatoes are already boiling on the stove, so by the time the corned beef is opened and put through the meat grinder, an onion peeled and reduced to juice, they will be ready for the chopping bowl and knife. A little salt, some pepper, and milk

to moisten, and the hash is ready for a skillet containing a small quantity of bacon fat supply. The shelf will also furnish a can of spinach and some pickled beets to chop and combine with it. Chop the spinach, season, and heat with the chopped beets. Spread the spinach over the top of the hash, folding hash like an omelette, onto a hot platter.

Another Quick Dinner Dish
Creamed chicken and mushrooms, all ingredients to be found on the shelf, served on halves of large, flat, rich baking powder biscuit would also make a good dinner dish. Make two cups of cream sauce, season with salt, paprika and nutmeg, add the contents of a can of chicken cut into small pieces, and one can of mushrooms drained from their juice. Garnish each serving.

How Much Is A Billion?

CAN you in any sense at all comprehend or visualize the inhabitants of the whole world, stage a parade of Europeans, Asians, Africans, Australians, North and South Americans, and the islands of the seas? There are one billion seven hundred and forty eight million of them according to combined census and estimated population figures. Think of an audience of thousands, and how overwhelming their numbers seem!

Having attempted so much, think of a warehouse huge enough to shelter six billion tins of canned food, for such is the number used yearly. This approximates three cans and one half for every person in the whole world. In comparison with the number of tins used yearly in the average American home, the world consumption is small, though the total staggers imagination. In reality, the bulk of these six billion

tins of food is canned and consumed in this country by over 125,000,000 people.

A Century's Progress
In view of the fact that the first patent for tin "canisters" was taken out in England in 1810 and the first American patent in 1825, it is astounding to realize the impressive part canned foods now, one hundred and two years later, play in our national dietary. Using the above figures, we find that each individual American consumes an average of 24, and each family of five, an average of 120 cans of food a year. It is difficult to imagine how we could feed our people if the supply of cans should fail. It could not conceivably be done in a way which would supply both needs and the pleasures of the table as well as it is now done by means of sanitary canned foods.

"WE KEEP THE QUALITY UP"

NATIONAL CONFERENCE WILL BE HELD IN LUBBOCK, APRIL 1-3

LUBBOCK, Texas, January 26.—A conference on international relations and foreign policies of the United States will be held in Lubbock April 1 to 3. The meeting is being sponsored by Dr. Jonh C. Granbery and other members of the faculty of Texas Technological College.

Among the prominent speakers who will be present are: Sherwood Eddy, internationally known figure in student work. Dr. Esther Calkin of Washington, secretary to the committee on international relations of the American association of university women; Dr. Charles W. Hackett of the University of Texas, an authority of national reputation on Latin American questions; Prof. W. A.

Stephenson of the department of government and history of Simmons University; Bishop E. C. Seaman of the Protestant Episcopal church of Amarillo; Honorable Enrique Santibanez, Consul-General of Mexico, stationed at San Antonio; Honorable R. Cantu Lara, Mexican Consul at Dallas; Prof. J. L. Duffot and Miss Hattie M. Anderson of the West Texas State Teachers College at Canyon.

NATIONAL GUARD ESTABLISHED AT TEXAS TECHNOLOGICAL

LUBBOCK, Texas, January 26.—A unit of the National Guard has been established here with its membership to be recruited from the ranks of students of Texas Technological college. Sixty-eight men have already been mustered into service. It will

be quite and aid to students who need work for part of their expenses while in school as the government equips and pays the men.

FOOTBALL STARTED AT TEXAS TECHNOLOGICAL

LUBBOCK, Texas, January 26.—Football training has started at Texas Technological college with Ewing Y. Freeland, head coach, and Grady Higginbotham, back-field coach, in charge of operations. In Lubbock the months of January and February are usually more favorable for football training than the later spring months. Fundamentals of the game are being taught and scrimmages will be taken up later.

Cold Weather Desserts

In winter, we are accustomed to have the furnace lighted, and feel aggrieved if we are chilly and the radiators are not sizzling hot. Another thing we come to know, in strike years anyway, is that it takes coal to keep the furnace running. The body is much like a furnace, but it uses food for fuel. Interestingly enough, both coal and food are graded by calories, or the amount of heat given off by a certain weight when burned. When the atmosphere is cold, the body is more rapidly cooled and so requires more fuel to maintain its constant temperature. If the extra fuel is not furnished in the diet, the body eats up first its fat and finally its muscle, until starvation, it burns itself out. This process of nature explains why we like certain foods in winter more than in summer. Most people do not wish to eat a greater bulk of food, but get the calories by choosing foods richer in fat. It takes two and one-quarter ounces of sugar to give off as much heat as one ounce of fat.

Sugar, Spice and Everything Nice
Now is the season when pies come into their own, the succulent apple, the spicy squash or pumpkin, the rich, fruity mince, in crusts flaky and tender. There are, of course, many other favorites, fruit pies of all kinds and lemon meringue. These are no longer the burden to make that they used to be, for

the bulk of preparation has been taken out of the home. Canned fruits come ready to use, mincemeat, instead of being the labor of a week, also is put up in cans, and coconut grated and canned in its own bulk, needs only the service of the can opener.

The old favorites, steamed date, fig, plum puddings are now prepared in the same manner, taking the labor out of the home, and need only to be heated and served with whatever sauce is best liked. Some of the preferred sauces are a sweet Hollandaise, foamy sauce or hard sauce. Left-over canned fruit syrups, thickened with cornstarch and flavored with salt and lemon juice, are very satisfactory sauces.

Fruit Desserts are Good

While hot desserts appeal at this season, they are not necessarily rich in calories. Following a heavy dinner, a fruit soufflé would be better than a suet pudding, pie, or roly-poly. Bettys may be made quite rich with butter and brown sugar and served with hard sauce, or else nearly as simple as plain apple sauce, and served with no sauce at all, or light cream. To make the latter variety, butter a pudding dish and cover sides and bottom with a layer of dried, ground bread crumbs. Fill the dish with apple sauce, (a medium sized can is about the right amount for the average family) or crushed pineapple, top with crumbs,

and bake until brown. The richer variety is put together in layers with plenty of butter, brown sugar and cinnamon, and emerges from the oven quite candy-like.

Winter shortcakes are just as good as the summer varieties and suit the requirements of the body better. Almost any of the canned fruits, drained from their juice, arranged on layers of tender, buttery shortcake, heaped with whipped cream or spread with marshmallow cream are dishes to fill and satisfy the hungriest mortal and the most fastidious guest.

Cold Desserts for Heat

Strangely, our coldest desserts, with the exception of ices and sherbets are also the richest in heat and energy producing elements. Ice cream, mousses, and parfaits rich in eggs and cream may temporarily chill the body, but will give out a supply of energy to more than make up for their temporary cooling effect. The simplest ice cream is the Philadelphia, a combination of light cream, sugar and flavoring. This type is most satisfactory for fruit flavors. To three cups of coffee cream add the contents of a can of fruit and three-quarters of a cup of sugar, which should be dissolved in the syrup. The fruit itself should either be put through a ricer previous to combining with the cream, or added in small pieces before freezing process is completed.

Quality Pays in Poultry Market

Adding practically 50 per cent to the market value of a product by extra attention paid to improving its quality has the ring of a "get-rich-quick" proposition. Yet, that is the premium which the finest quality roasters commanded over the lowest grade during the past twelve months, according to the Sears Roebuck Agricultural Foundation.

The best fresh killed roasters, or young birds weighing four pounds or over, received in the New York wholesale market in the year ending September 30 brought an average of 36 cents a pound. During the same period, roasters were received which were so lacking in market quality that they could be sold for an average of only 24½ cents a pound.

To command top prices, birds must be plump and thick-fleshed with rather short, thick legs and wings. They must be young, hence their flesh must

UNIFORM CHICKENS WEIGHING 4 lb. OR OVER
YEARLY AVERAGE 36¢
NEW YORK MARKET

LIGHTER WEIGHT CHICKENS OF SUPERIOR QUALITY
YEARLY AVERAGE 24½¢
NEW YORK MARKET

SEARS-ROEBUCK AGRICULTURAL FOUNDATION

Not be coarse or darkened, and they must show light development of spurs. They must be milk-fed. American consumers prefer birds from yellow-skinned breeds.

Part of the premium is due to careful dressing and packing. First-grade birds are free from such imperfections as torn skin, bruises, blood spots, and pin feathers and are packed in boxes of a dozen birds of uniform size and color. Feed in the crops or dirty feet, heads or bodies, will lower the grade.

Farmers located near the cities and large towns can obtain some of the premium which consumers are willing to pay for superior birds through selling on roadside markets, booths in city markets, customer routes on which weekly deliveries are made, or contracts with grocers and catchers catering to high-class trade, or with restaurants, hotels and clubs. Farmers who must depend on distant markets usually find it best to non-fatten their birds, using dry grain instead of the soft milk mash employed in crate fattening. Express shipments of live birds fed in this way will command a premium from those wholesalers in the large markets who have a high-class trade and who are always looking for poultry which will fill their requirements.

COMING OUR WAY

With a gas franchise recently granted by the city of O'Donnell, water bonds voted, and two railroads being promoted to pass through the town, the O'Donnell Index declares that opportunity is knocking at her door with a sledge hammer. It does look rather promising for our sister city.—Lynn County News.

And brother, the promises grow brighter with each succeeding day for the citizens of O'Donnell are up on their toes and "rarin' to go." When you get a bunch of boosters started like the O'Donnell bunch opposition melts away like snowballs in July.

Highest market price paid for your maize at all times. See me at Henderson-Boone Gin. A. H. Koeninger.

"Ben-Hur" After Talk With Robert Ingersoll

Wallace inspired To Write His of the Christ by Inwidel. BUILDING TO REFUTE HIM... Tradition; Wrote Most of in Crawfordville And The in New Mexico.

gave his friend a three-hour blast on this subject that made Wallace feel himself an ignoramus. Became a Believer. He went home and studied and finally decided to write the high theme and became neither skeptic nor indifferent but a convinced believer.

ville, Ind., in 1827 and died at Crawfordsville in 1905. In the Civil War he became a general officer and corps commander at Shiloh and Corinth. After the publication of "Ben-Hur" he was named U. S. Minister of Turkey, serving 1881-1885.

has been systematically looting the property and is now trying to make love to Janet. Buck stops the train and Tilford collapses. Janet maintains her composure, but in spite of the fact that he recognizes Janet as the girl of the Bright Angel trail, Buck takes the money.

mean the end of his job with the L. M. & R. So he and Doris plot to "save" young Luden from destruction. The day of the picnic comes. Bancroft makes the rounds of the concessions, winning many medals at the strong-man booths and at the hammer throw.

Dolly learns he is at the Blue Goose cafe and sends in word she is there to take supper with him. Just as Dolly arrives, gowned in extreme mode, two women who had been seated at the table return to pick up a vanity case one of them had left.

WHY IS IT — THAT — WESTMORELAND'S are doing such an exceptional good business? That's easy to answer. We are giving our customers the best of merchandise (all new) for enough less in price to induce every one to visit this store first.

ATTENTION! LADIES We will have our "keen line" of Ready-to-wear and millinery for your inspection February 1st. Wait for us and you will not regret. WESTMORELAND'S — We sell you Clark's O.N.T. Thread for 3 cents a spool.

There is only One way to save money on Motor Oil

NEVER let your crankcase receive a drop of oil that you do not absolutely know to be able to protect every moving motor part and to keep your motor running smoothly at any speed. Thereby you get real value in long motor service. Thereby you avoid costly repairs. You cannot make this economy if you buy cheap or unbranded oil.

CONOCO MOTOR OIL The same assurance of excellence in a 100% Pure Pennsylvania Oil comes with the use of Conoco Amalie. Extra Life for Your Car

The Story of "GOOD AS GOLD"

Buck Brady is a young man, who in his boyhood, was chased from a fabulously rich mine after claim jumpers had slain his prospector father, whose name is "Sonny" Holman. The boy takes his case to another miner, John Gray, who later becomes sheriff.

Thumb Nail Thrice of "The Love Thrill"

Joyce Bradgon, a member of the insurance firm of Bradgon and Chadwick, sees poverty staring her in the face on Christmas Eve.—As a last resort she attempts to break into the apartments on Anthony Creelman, a wealthy man who, for some reason, carries no insurance, and sell him a large policy.

Synopsis of "SINGED"

"Singed" is the story of a woman who could not undo her past—a woman who lived among the weeds in the garden of life—a woman who would have gone on the rack for the man she loved.

Synopsis of Story: "Tell It To Sweeney"

Luke Beamish (Chester Conklin) is one of those old-time engineers and for years he has operated the Isobel, a decrepit old iron steed that thunders along the tracks at twenty at best. But Isobel is his pride.

Let the voters of Lynn county in that I will be a candidate for Sheriff and Tax Collector of Lynn county in the coming Democratic primary. I was born in Bell county, Texas and always have been a Democrat and always have been in all of the primaries.

Little Son of Mr. and Mrs. McCarley Hurt

The eleven year old son of Mr. and Mrs. J. C. McCarley was run over by a Chevrolet Sedan car Thursday and sustained painful though not serious injuries.

A group of boys playing by the side of the road dashed in front of the car driven by J. Y. Everett, Jr., and the McCarley child turned back to sudden for the driver of the car to surmise his actions where before the car could not be stopped, it had knocked the fellow down and one of the front wheels passed over him. He was immediately rushed to a doctor who upon making a thorough examination found the child suffering from painful injuries but not seriously hurt. The child was able to be out Saturday.

P.-T. A. Play Was Great Success

The P.-T. A. play, "How The Story Grew" which was given Friday night at the High School Auditorium was well presented and fully appreciated by the audience. The play was a wealth of humor from start to finish.

The reading by Mrs. L. L. Purtle, was very good and highly appreciated. The piano solo by little Miss Jim Ellen Wells was very sweet and played beautifully.

The splendid piano music between acts of the play provided by Mrs. B. L. Cowden was greatly enjoyed.

Owing to the inclemency of the weather proceeds was not what one would really expect. Still a beginning has been made in the paying of the piano in the Grade School for which this money will be used.

Mrs. J. R. Sanders returned to her home at Eden, Texas Friday after a weeks visit here with her mother, Mrs. M. T. Gillespie. Mrs. Sanders left her little daughter Clarinda Mary with her grandmother. She will be in school here the rest of the term.

CORNER DRUG COMPANY ADDS IMPROVEMENTS

The Corner Drug store managed by B. J. Boyd is undergoing some much needed changes this week. Carpenters have been busy this week enlarging the present stand which takes in the building just to the rear which has been occupied by a cotton and real estate office. This new addition will add about one third more floor space than has been used in the past.

Mr. Boyd stated that more room has been needed for some time. The business has been growing so rapidly the past few months and prospects for future business are brighter today than at any time during the past three years, caused him to make preparations to take care of the additional business that is sure to come with the building of a water system, laying of gas mains and the construction of an East and West railroad through O'Donnell.

Several hundred dollars will be spent on the improvements now being made which will place the Corner Drug among the nicest to be found in this section.

HOLCOMB ANNOUNCES FOR SHERIFF & TAX COLLECTOR

Tahoka, Texas, January 16, 1928

To the Voters of Lynn County: Take this opportunity to

Growing Young Firm

The Palmer & Tull Implement Co., a new firm just entering the commercial field of O'Donnell, starts out with prospects brighter than most young concerns, the proprietors, Mr. M. C. Tull and W. L. Palmer, are two of the most energetic, go-getting business men of this section and need no introduction at our hands. If you are looking for time-tired implements, if you are looking for service, if you are looking for a place where your presence will be appreciated by the rendition of courtesy service and value for money expended, the Palmer & Tull Implement Co have all these plus Internationally known and Universally used farm Implements. THE JUNIOR EPWORTH LEAGUE SOCIETY

The Junior Epworth Society of the Methodist church met Monday afternoon at 4 o'clock with their superintendent. The following program was rendered:

Song—If Jesus Goes With Me, by all.

Sentence Prayers—led by Ina D. Everett. Closed by Mary V. Shook.

Song—He Leadeth Me, by all.

Story—The Ancestral Dolls, by Thira Painter.

Story—The Blue Bird Bring Beauty, by Mozelle Edwards.

Story—Life in Japan, by Mrs. Harvey Everett.

There were fifteen members present, and \$1.10 pledged made for the month of January.

Next meeting will be Tuesday, January 31, at Mrs. Everett's. Every member is asked to bring needle, thimble and scissors, so that we may proceed with our sewing.

Dismissed by the Junior Benediction. —REPORTER.

TOOK SODA 20 YEARS FOR GAS—STOPS NOW

"For 20 years I took soda for indigestion and stomach gas. One bottle of Adlerika brought me complete relief."—J. B. Hardy.

Adlerika relieves stomach gas and sourness in TEN minutes. Acting on BOTH upper and lower bowel, it removes old waste matter you never thought was in your system. Let Adlerika give your stomach and bowels a REAL cleansing and see how much better you feel. It will surprise you! Corner Drug Store.

BEAUTIFUL FLORENCE VIDOR STARRED IN COMEDY "ONE WOMAN TO ANOTHER"

Florence Vidor has been called the "best dressed star on the silver sheet." But living up to that title is a task. Miss Vidor will vouch for that statement herself.

In "One Woman to Another" which comes to the Lynn Theatre on Monday and Tuesday, Miss Vidor wears thirty-two different gowns and frocks, which means that she has spent hours and hours with her designers in an attempt to create something that will interest every feminine theatre-goer.

"I have always worked under the belief that clothes make the woman." Miss Vidor said one day during the filming of a scene, "and that opinion is responsible in a measure for my success in the screen.

Tremendous Cost of Our Rat Population

THE cost of maintaining the rat population of the United States aggregates \$200,000,000 a year, which is equal to almost two dollars for every man woman and child in the country. An excellent example of the enormity of this wanton destruction is found in comparing it with the total valuation of some of our principal crops. The barley, rice and rye crop last year was worth \$191,000,000. If the rat population restricted its diet to these three crops it would consume the entire production and still fall \$9,000,000 short of satisfying its appetite, according to the Sears Roebuck Agricultural Foundation. In addition to this enormous destruction of food, the rat is a carrier of such serious diseases as bubonic plague, rabies, infections, jaundice and sleeping sickness.

Farmers probably bear more than their proportionate share of this expense by harboring them in barns and cribs. The increase in the course of one year from one pair of rats allowed to survive under favorable conditions may easily reach 100, since they will produce from six to ten litters a year, averaging ten young per litter, and the young will breed when four months of age.

Farms can be freed of these pests if proper steps are taken. These include burning the trash which harbors them, raking refuse from under such buildings as corn cribs, piling lumber and other material a foot or more above ground and using effective poisons. Crib and rat burrows under concrete can be fumigated with calcium cyanide, which can be easily used by any mature person. Red Squill is a newly developed poison which rats will take readily when mixed with foods. It is relatively harmless to other animals as it is distasteful to them and it acts as an emetic when taken by them in harmful quantities.

Mr. H. C. Frost was shopping in Lamesa Saturday.

L. E. Cotton of Amarillo was transacting business in O'Donnell Tuesday.

THURSDAY CLUB ENJOYS ELABORATE SOCIAL EVENT

A club party given at the home of Mr. and Mrs. Waldo McLaurin was enjoyed by members of The Thursday club last week.

The affair was exceedingly enjoyable from start to finish.

Several spirited games of "42" were played after which Mrs. McLaurin made a very pretty and appropriate little speech where upon she presented Mrs. Stork, a member who was leaving, and Mrs. Gillespie, the president, each with a lovely Silk Rayon bed spread. Mrs. McLaurin expressed the sentiments of each member of the club when she spoke of the grief experienced at giving up Mrs. Stork, then again when she told how very much they each appreciated Mrs. Gillespie who had served them so faithfully as a president for two years.

At a late hour delicious refreshments of good pie with whipped cream, coffee and after dinner mints were served to Messrs and Mmes. R. O. Stork, H. E. Gillespie, E. L. Sorrells, Jno. Earls, A. A. House, Ben S. Coin, S. G. French, Albert Koeninger, Guy Bradley, Waldo McLaurin and Mr. Charlie Coin.

The above named club members with the following ones, who were

unable to attend the party were happy to have part in the giving of the gifts to Mmes. Stork and Gillespie: Messrs and Mmes. J. F. Campbell, L. L. Busby, C. C. Jones, W. H. Veazy, W. S. Cathey, H. C. Frost, J. P. Bowlin, M. C. Garner and J. W. Roberts.

O'Donnell Basketeers Win One and Lose One

Completion for county championship in basket ball opened for O'Donnell high school Friday, January 24. On this date Tahoka Bulldogs invaded our city. After a hard fought forty-minutes, Tahoka was forced to accept defeat by the score of 11 to 18. In spite of the fact that it was freezing, both teams played an excellent brand of basket ball. From the standpoint of score made, McLaurin for O'Donnell and Short for Tahoka showed to best advantage. McLaurin scored 13 points and Short

7. The second game for the county crown was played at Wilson, Monday, January 23, between Wilson and O'Donnell. This was another hard game. It seemed at times that O'Donnell would do the unexpected and defeat Wilson, but alas, fortune was not so kind. Wilson won the game 22 to 15. O'Donnell hopes to reverse this score when Wilson returns the game.

AVIATION

Future historians may speak of the time as the dawn of the era of wings—or they may just call it the flighty age.

WHEN YOU OWN AN ELECTRIC STOVE

There is no longer uneasiness about fire. It is a safe stove. Ask the lady who owns one if she would be without it.

It does not smoke up your wall paper and so saves papering bills. It is clean and does not work the wife to death with consistent cleaning. There is no odor or fumes from a Hotpoint Electric stove.

The most convenient stove on the market, all things considered.

Come Let Us Show You.

Texas Electric Service Co.
