Wheat falling here during the ending last Friday amounted to a good inch and one half. One but the grouchy of ground can now complain about our prospects for a crop this year. Not that amount of wheat has been in our vicinity since we think our crops are more profitable after year, but there is a good average than usual. It's a good view to have from a milk producer's view; a lot of good grazing may now be had from this crop. Much land has not yet been listed with the moisture now the farmers can plow to their heart's content -- and do it properly. Great news this.

Thompson Is Honored With Party

Carole Thompson was honored on her 8th birthday with a party at her home Friday afternoon. Guests played group games and were entertained with recordings of Snow White and the Seven Dwarfs. Punch and birthday cake were served to fifty five guests.

Calloway Huffaker Asks Re-election

Calloway Huffaker of Tahoka, present District Attorney of the 16th Judicial District, this week authorized us to announce his candidacy for his second term.

Calloway was re-elected in Lynn County and has spent practically all of his life there except the years that he attended Texas Tech College and Texas U. law school, and the four years that he taught school in Dawson county. He was licensed to practice law in April 1939 and

commenced the active practice of law in Tahoka in September 1939. He was elected County Attorney of Lynn county without opposition in 1940 and elected again in 1942.

During the years he has practiced law in courts of this district he has come to be regarded as one of the most outstanding young attorneys of the district and is known for his hard fighting qualities in the court room.

In the twelve months he has served as district attorney he has made a commendable and enviable record enjoying full cooperation from the court, law enforcement officers and jurors, and is said to be one of the hardest working and hardest fighting district attorneys that the 16th Judicial District has ever had.

Calloway states that he has enjoyed the work as district attorney a great deal and appreciates the cooperation he has received from the jurors and citizens. He has worked with in enforcing the laws of Texas. He states that he has gained valuable experience in his first term as district attorney, and qualified to fight the people's battle in the court room, and promises, if re-elected for his second term to continue to fight for "FAIR, JUST, AND LEGAL PROTECTION OF ALL BUT PERSECUTION OF NONE."

David D. Shull and Seth H. Lewis formerly in the Army, have opened a radio and electrical repair store in the first building south of Dr. Campbell's office. You will enjoy talking with these fine young business men of O'Donnell, go by and give them the glad hand of fellowship.

Among improvements in the residence section is the addition being made to the Ben Moore, Jr. residence at the corner of 6th and Baldwin. J. W. Gates and Moore seem to have the weather regulated at mid-week when work is being resumed.

Borden County Man Seeks Office

C. S. Harris Announces For County Judge

To The Citizens Of Borden County: I am taking this method of announcing to the citizens of Borden County, who are served by the O'Donnell Index-Press that I am a candidate for County Judge and Ex-officio County School Superintendent of Borden County in the July Democratic Primary Election.

Most of you people know me personally, and you know of my character and qualifications. However, I will state that I have had 23 years experience in teaching school, have spent several summer vacations working on the construction of highways, and have had some experience in banking and finance, therefore I feel that these experiences would qualify me to perform the duties of this office.

I will also state that I believe in good schools and good roads, and it is necessary to have good roads in this county in order to have good schools.

I plan to contact and talk with each of you personally before the election. However, I will state in this announcement that I shall greatly appreciate your vote and influence.

Mathis Seeks Re-election

In announcing my candidacy for re-election to the office of County Clerk of Lynn County I first want to thank the people of Lynn County for their confidence and wonderful support given me in past elections. I have tried to handle the office in an efficient manner and have tried to give you the prompt and courteous service which you deserve.

I believe in order to render the best service in any public office, one must devote their entire time to the duties of that office. I believe I have done this and if you see fit to re-elect me as your County Clerk, I will continue to try to make you a hand. It might not be possible for me to see each of you personally before election time, but in case I do not see you personally, I want to take this means of soliciting your vote and influence. -- W. J. First Methodist Church

The whole Bible is God's Revelation of Himself as the Maker and Creator of all things that are in His vast Universe, including man; and His Eternal Purpose thru His Son, Jesus Christ, to redeem the world that man has ruined. "God was in Christ reconciling the world unto Himself" says St. Paul. This reconciliation that God, the Father made thru Jesus Christ, the Son is offered unto ALL, but each one, individually and voluntarily must accept it, otherwise it availeth him nothing. So in that fact we find the Divine Purpose for Christianity and Christian institutions. How important! How essential to each one that they give heed to these things and give themselves to attend and worship in the Sanctuary of God's House every Sunday!

You are cordially invited to attend the services at the Methodist Church where the diligent effort is to do our part in helping "Christ win the World unto Himself."

Road Meeting At Tahoka Friday

John A. Anderson, O'Donnell's popular and efficient County Commissioner, urges that all residents of his precinct be present at Tahoka at the Court House at 2 p. m. Friday, Jan. 25th to discuss the building of farm to market roads in this county. This is an important meeting and the farmers are respectfully invited to join in the discussion. It is of vital importance to the folks of Draw, Joe Bailey, Well and New Moore.

Mr. Anderson, in company with Judge Garrard, Editor Frank Hill of Tahoka and thirty nine from Lynn County, including some 20 from O'Donnell made the trip to Austin last Friday to fill a date with the State Highway Commission. The board advises the group that planning on a new state and national highways would be side-tracked for 1946 in favor of repairing present roads and pushing farms to market roads. Some 23 1-2 miles of farm to market hot top roads have been o. k'd for Lynn County. Mr. Anderson will start in the near future on asking for deeds and easements for the right-of-way for the approved road running from Draw west to Wells and making a junction with O'Donnell three miles north of town. These roads are standard 29 or 22 feet constructed of a flexible base of caliche with 2 coats of hot top. Every county on the cap rock is getting busy including Dawson and Borden. The next few years will see the farmer on all weather roads.

From a road contracting engineer the Index learns that tip top and guaranteed hard surface suitable for city traffic in the residential area runs in the neighborhood of \$1,800 to \$6,000 a MILE. In dividing this into city blocks and figuring 6 city blocks to a mile, and with many property owners paying a third, we see that good, tip top dustless roads free of mud and upkeep expense are well within range of O'Donnell's pocketbook.

BUYS GROCERY --

Our good friend, C. O. Brock announced this week his purchase of the Wallace Grocery Store just north of the bank building on the highway. Mr. Brock, as you know formerly had a tire shop here. He plans to enlarge the grocery store and offer tip top service. His son-in-law, Pete Seessums, is associated with him in the business. C. O. is a good business man and we are pleased that he remains with us.

Bobbie N. Mahurin, son of Mr. and Mrs. R. M. Mahurin, arrived home last week after over two years over sea in Europe. He left Wednesday for San Antonio to receive his discharge. A brother, Meredith, wired that he had arrived in the States and would be home soon.

W. W. JAMES PASSES

O'Donnell was sad upon learning of the passing of a good friend and long time resident here, W. W. James, father of Ed James. Mr. James has been a well loved resident of O'Donnell for some eight years. He would have been 77 years of age Feb. 15th. The funeral will be Thursday at an hour to be announced. More will appear next week.

NEW BUSINESS

Mrs. Marjorie Wells Kemp announces this week the opening of a beauty shop here. The business is located the first door south of the City Tax office. Mrs. Kemp is a niece of Therman Wells, and although Tahoka is her girlhood home, she counts O'Donnell as home, too.

As mentioned before the political announcement rates for Borden and Dawson counties are one half that of Lynn county, i. e. \$6.25 for county and district offices, and \$3.75 for precinct offices. The Index will not accept an announcement that conveys endorsement without a tag of "paid adv.". We will take no part in out of county politics-- Lynn county needs cleaning first. Please assist us in being fair to all.

Next time the husband calls to advise that he will be detained at the office until late -- ask him if you can depend on that. That'll stump him! We know!!!!

Germans Hope to Rebuild Country Out of Wreckage

Expect Quality of Products to Restore Reputation of Lost Beauty of Cities; Seek Raw Materials for Industry.

NUERNBERG, GERMANY.—One German who otherwise gets along very well with the American occupation officials and is thoroughly in sympathy with what is going on in the Nuernberg court house will nevertheless be one of the happiest men in Germany when the trials are over. He is a little black-haired, bespectacled man named Hans Ziegler, Oberbuergermeister of the city. The best translation for his title is plain "mayor" but because all German cities have at least one deputy mayor, some of the American writers who have seen service in London translate "Oberbuergermeister" as "Lord Mayor."

Herr Ziegler says frankly that his work will be easier when the huge organization required to support the international military tribunal has folded its tents and departed. When he told me this I was rather surprised since at first blush it might seem that the city would benefit from all this American activity. However, when one considers that what the Americans here buy with the Germans own money (we print it and they have to redeem it) the profits can hardly seem desirable. The central German government, when there is one, will eventually redeem the paper marks but all Germans will have to contribute in the form of taxes. In Nuernberg although as I said, the city budget had been cut 50 per cent, the taxes have already been increased 33 1/2 per cent.

Military Tribunal Imposes Burden

The chief burden which the military tribunal imposes on the town and the one which presses down hard on the mayor, derives from the fact that it takes a lot of tons, volts and manpower to keep the wheels of justice moving.

Coal is Nuernberg's (as it is Germany's) chief problem. What the Russians didn't get out in their zone, the chief coal areas in Germany, the French have taken in theirs. Transportation has broken down. Without fuel to heat their homes or to cook with, Nuernbergers have bought up every sort of electrical heater and cooker and this plus the large amount of power used by the Americans has put a terrific drain not only on the power plants but on the cables. It takes coal to make electricity here where there are no tumbling cataraacts. As I write the snow is falling in great Christmas card flakes and even the ruined houses are assuming a touch of beauty. But that beauty is of little comfort to people living in cellars or rooms without roofs.

Half of Nuernberg's houses were destroyed, the mayor told me, a third partly demolished. The rest can be made livable. But alas, the military tribunal took over one-third of the labor available for building and repair and a large stock of materials.

A two hour walk through the city revealed no shops open except a few food and meat stores. In spite of this almost total eclipse of visible industrial existence I was surprised that the mayor placed first on his list of objectives, a restoration of Nuernberg's long established reputation for expert craftsmanship—for goods of high quality. Toys, of course, but also precision instruments, light machinery and pottery.

"We cannot restore Nuernberg's beauty, its historical buildings which brought so many tourists here," said Mayor Ziegler, "but we can win back our reputation as hard workers and fine workers. The city has a long established record for industriousness and expert handicraft as producers of high quality goods. That reputation goes back to the middle ages. Of course we will have to be very patient. We must first rehabilitate our city, then we must wait for good raw materials which we must have to produce high quality products. And of course all this must wait until Germany is once more permitted to trade in world markets."

But, I interjected at this point, what about the food situation? That wasn't in the mayor's province. He took the view which later proved sound enough, that America would not let the Germans starve. If that

UNDER THE DOME
WASHINGTON.—Busy Tom Corcoran, the ex-brain-truster, has been promoting his law partner, ex-Senator D. Worth Clark of Idaho, to replace Harold Ickes when and if the latter resigns as secretary of the interior. Clark, a former die-hard isolationist, is not likely to get the job. . . . An off-the-record quote from President Truman: "A lot of people used to accuse President Roosevelt of being a liar—especially on Capitol Hill. But having been in this job for a few months myself, it's hard to know how anyone could be President of the United States without occasionally being a liar." . . . Boss of the Bronx Ed Flynn, close friend of FDR and former Democratic chairman, is in for tough political sledding. Hard-hitting Congressman James Egan, leader of Queens county, who spearheaded Mayor LaGuardia's victory, is out to replace Flynn as Democratic national committee man from New York. . . . Ed Flynn, always more interested in the coveted field of diplomacy, plans to leave for Moscow this winter to try patching up relations between the Kremlin and the Vatican. . . . Some senators who backed Cordell Hull in ousting Sumner Welles, have now become strong Wellesian rosters since his masterful testimony before the Pearl Harbor committee. . . . The demagogue business must be picking up. . . . Gerald Winrod, race-baiting editor of "The Defender" and under indictment for sedition, has moved from a modest dwelling on North Green street to a pretentious home on Broadway street, the exclusive section of Wichita, Kans.

SOL BLOOM SLIPS
Congressman Sol Bloom of New York, who imported the "Salome dance" from Egypt to the Chicago World's fair many years ago, nearly got away with a fast one during a secret session of the house rules committee called to consider the UNRRA appropriation bill. Bloom, who is chairman of the house foreign affairs committee, attended the rules committee meeting as its guest. He was not supposed to vote. Congressman Charles Eaton of New Jersey, ranking minority member of the foreign affairs committee, also was a guest and supported UNRRA generally. However, he began to tell the rules committee of his strong conviction that a "freedom of the press" amendment should be included in the bill.

Bloom, who is chairman of the house foreign affairs committee, attended the rules committee meeting as its guest. He was not supposed to vote. Congressman Charles Eaton of New Jersey, ranking minority member of the foreign affairs committee, also was a guest and supported UNRRA generally. However, he began to tell the rules committee of his strong conviction that a "freedom of the press" amendment should be included in the bill.

Anxious to avoid more argument over this, Bloom, though not a member of the rules committee, shouted, "I move the previous question!"

Rules Committee Chairman Adolph Sabath of Illinois banged his gavel and remarked, "The question is called."

Members of the rules committee then prepared to vote.

Not so Representative Clarence Brown, Ohio Republican. Turning to Bloom, Brown asked: "Sol, how long have you been a member of the rules committee?"

Bloom flushed, while other members of the rules committee grinned sheepishly, realizing they had been taken in.

"I just thought if I could get away with it, I would," Bloom replied. He did get a rule to put the UNRRA appropriation before the house, but not without a good deal more discussion.

G.I.s in India report the U. S. army, fearing the British may be faced with revolt, has issued rifles, bayonets, and ammunition to American G.I.s. Many American soldiers in India never had weapons in their hands during the war, but now get weapons after the war. . . . Secretary of State Byrnes has offered Ken Galbraith, former OPA executive and editor of Fortune magazine, an important job to help run peacetime Germany. . . . American members of the Anglo-American Palestine commission will begin hearings in Washington on January 10. . . . Assistant Secretary of State Jimmy Dunn is leaving for London to help complete the peace treaties for Hungary, Bulgaria, Romania and Italy. . . . Floyd B. Olson was a famous governor of Minnesota. But Congressman Havenner of California is probing charges that the U. S. ship named for him has been forced to carry a cargo of sick Japanese from Pacific islands to the Japanese mainland. Nearly all the patients had communicable diseases, and two of the 60 tuberculosis patients died during the voyage. Most controversial subject that has hit the Truman cabinet in weeks is the Moscow agreement.

MERRY-GO-ROUND
Maury Maverick, who had the smaller War Plants corporation knocked out from under him while he was in the Far East, reports that General MacArthur is doing an A-1 job in Japan. . . . If the Russians want to make a hit with G.I. Joes, they could loosen up their absurd policy of not permitting Korean coal from the Russian zone to be shipped to the American zone a few miles south. As a result, ships which might be used for hauling G.I.s, now carry coal to Korea.

Kathleen Norris Says:

Men Haven't Much Sense

By **KATHLEEN NORRIS**

"On our wedding night he began to tell me of his conquests. It secretly made me sick, so that we started off badly."

By **KATHLEEN NORRIS**

CAROL is a very pretty girl who married her school hero; she adored Johnnie in secret all through her girlhood when she watched him win football games in college years, she cried when she kissed him goodbye and saw him off to war, and they were married six months ago, when Johnnie came marching home.

"He would be a perfect husband," she writes me, "if he were not so stuck on himself. I suppose the right word for that is 'vain,' but stuck on himself seems to express it better. Johnnie has been a good deal admired, he was a football idol in our small town, and he has a good war record—but my gracious!

"On our wedding night he began to tell me of his conquests. It secretly made me sick, so that we started off badly. I listened all through the honeymoon to casual references to girls who had made fools of themselves over him and married women who had abandoned virtue when irresistible Johnnie came along.

"Naturally, this disgusted me a good deal, for the nature of these revelations was rather shocking, but what disheartened me more was Johnnie's vanity and his simplicity. He revelled in long quoted conversations, in which this or that shy damsel gradually surrendered to his charms, going on to review the love letters that pestered him while in the service, and the praises of his superior officers, many of whom envied him, his record, and his success with the ladies.

Keeps on Boasting.

"My saying, 'oh, please, I'm not interested,' has no effect. Johnnie goes right on boasting. Once or twice I tried a back-fire, and began on my own romantic adventures, but that didn't interest him at all. He hardly listened and was off again on the fascinating history of a little Filipino girl, or a little Australian nurse—it's so tiresome that sometimes I want to scream.

"I'm aware," the letter continues, "that I'm describing a stupid, self-engrossed man, but that's not the case. Johnnie is kind, generous, amusing, extremely popular, and came back from service still cheerful and well-balanced, and has already made his way as a member of our best firm of architects. Of course he doesn't talk this way all the time, we both love the little farm where we live, and Johnnie is really clever in planning for the chickens and fruit by which we mean to make it pay. He is pathetically pleased that a baby is coming, and rather touched me by saying, when I was hoping for a boy, 'I want a girl, like her mother.'

"But with all this he can't see that he's hurting himself and boring me by this Adonis-complex, this eternal complacent posing, this continual reference to himself as stronger, taller, handsomer than all the men with whom he comes in contact. 'She took one look at me,'

Boasts of his conquests. . .

MALE VANITY

A girl who marries a handsome, talented man can hardly be surprised if he is vain and boastful. Men are that way. Carol complains that her husband, Johnnie, talks endlessly about his conquests of the heart, about how envious other men are of him, how married women fall for him, etc. This is getting tiresome, Carol thinks. She is herself a beauty, and apparently completely satisfied with Johnnie, outside of his obnoxious egotism. They live on a nice little farm outside the city where he works as an architect. He is successful, well balanced despite his war experiences, affectionate and generous. They are eagerly awaiting the arrival of their first child.

Miss Norris replies that no marriage can be completely happy. There is always some flaw. Sometimes it is a little thing, sometimes it is tremendous. In Carol's case, it seems to be merely an annoying trifle. The advancing years, says Miss Norris, will bring Johnnie many sobering experiences. This phase of Johnnie's will pass, says Miss Norris, leaving nothing but memories, if Carol will have the patience and wisdom to wait it out.

he will say 'and her darling Freddy faded from the picture.'"

Well, Carol, I say in answer, every marriage has its percentage of difficulty and disappointment; some as high as 50 per cent, some—as your case, that I would rate about 10 per cent. Johnnie's vanity is innocent enough after all, for the probability is that his conquests exist principally in his own fond dreams; any man who is popular, farm-loving, wife-loving, baby-loving, and who belongs to so eclectic a profession as his, is bound to heart.

Defeats will Come.

You may have to put up with his absurdities for a while longer, and then may have the harder trial of seeing Johnnie disappointed, his pride tumbled in the dust, his beauty impaired — and for sheer pity of him, in his childish hurt and amazement, you may feel a love and sorrow that will wipe out all the memories of younger, bumpkins years.

The mills of the gods often bring this to pass. And the higher they rode in their glory, the deeper these men have to fall. You married what every young girl dreams of marrying — tall and handsome and popular — a football hero and a war hero — isn't that about the prescription? — and if he is good-natured and affectionate and smart in his profession you got more than you ordered.

You can do something, in this particular moment in world affairs, by calling his attention to the wounded, the handicapped men who are coming home, and getting him to help them — that may sober him. Anyway, sooner or later, life itself will, and Johnnie the magnificent will grow to man's estate.

JAP WOMEN TO VOTE

The sudden opening of the ballot box to the women of Japan marks a tradition-breaking milestone in the movement looking to greater freedom for Japanese women. About 80 years ago, a Japanese "Susan Anthony," Miss Kegeyama, started a campaign for women's rights, and was jailed for her daring.

Throughout the Orient the idea of granting women a share in political life made practically no progress until 1935 when the Philippines granted equal voting rights.

GOLDEN TEXT—Thou shalt worship the Lord thy God, and Him only shalt thou serve.—Matthew 4:10.

A nation which knows God must have a place and a plan for worshiping Him. The history of Israel has moved forward in the account in Exodus where the people delivered from bondage are established as a theocratic nation; that is, one governed by God.

The covenant at Sinai (ch. 19) was followed by the giving of the law (chs. 20-23), and then in chapters 24-40 we find the worship of God established. Two elements are necessary—a way in which God may be approached and a place to meet Him. The former is provided in the ordaining of the Aaronic priesthood, and the latter by the building of the Tabernacle.

I. God Provides a Way to Worship (23:1).

The appointment of Aaron as high priest, and his sons to serve with him, provided for the proper conduct of the worship of God which was to take place in the Tabernacle.

The sinner coming into the presence of God must approach by way of the brazen altar where sacrifice could be made for sin. This called for a priest set apart for this holy duty, which would open the way for the repentant one to enter into the Holy place, and ultimately to know that his sin was covered in the Holy of Holies.

Consider the grace of God in thus providing for the deep spiritual needs of His people. All of this pointed forward to the day when Christ the true High Priest was to make the perfect and final atonement for sin by the sacrifice of Himself on Calvary's tree.

The symbolic dress of the priest and his consecration for his duties are all very instructive, but we do not have space to comment at length. Suffice it to say that the one who is to serve in the conduct of the worship of God is to be a called, cleansed and consecrated man, set apart for a holy calling and eager to be used of God to lead men into fellowship with Him.

From these first provisions for the worship of God we thus may learn many of the high principles which are to guide the church regarding the call and separation of men to the ministry. The gift and grace of God shown in the man's character are far more important than intellectual or social standing.

II. God Provides a Place of Worship (23:4-9, 20-23).

The plan for the Tabernacle was given by God to Moses in much detail. A close study of it will bring rich reward.

Although the plans were made by God (Exod 25:27), note that He gave to the people the privilege of providing the materials. They recognized it as a high privilege and not a burden, and they came enthusiastically with their gifts.

That thought bears application to the believer, for we know that God still loves a cheerful giver (II Cor. 9:7). Those who groan and grumble about the money and material needed for the worship of God have not caught the real spirit of Christian giving.

The children of Israel brought more than enough of their most treasured possessions and of the labor of their hands; in fact, they had to be told to stop (Exod. 35:1-7). Imagine having to tell people to stop giving! That would be a novelty!

The Tabernacle was duly built, and thus there was provided for Israel a place of meeting (Tabernacle literally means "tent of meeting"), beautiful and appropriate for their days of sojourning in the wilderness.

The significance of the Tabernacle is both interesting and important.

(1) It is a symbol of God's presence with His people. All who were defiled were excluded because God was there.

(2) It is a type of God's method of bringing sinners to Himself. There must be a sacrifice for sin before communion can be established.

The furniture of the Tabernacle is therefore significant. The altar of sacrifice and the laver of cleansing come first in the outer court. Then on his journey from the sacrifice to the communion of the Holy of Holies, the one who seeks God is fed by the showbread, lighted by the candlestick and sustained by prayer, of which the altar of incense speaks. Christ is the Bread of life, the Light of the world, our High Priest and Interceding Advocate.

Within the Holy of Holies the mercy seat typifies the covering of a believer's sins by the blood of Christ.

(3) It is a symbol of the incarnation of Christ of whom it is said that He "tabernacled" with men.

(4) It is a symbol of heavenly things. Christ now appears in heaven for us as our minister and high priest (Heb. 8:1-5).

(5) It is a symbol of God's dwelling with men in the ages of eternity (Rev. 21).

Sidelights From Washington

By George Mahon

A newspaper friend who carries this column told me in Texas the other day that I should try to give my little weekly reports a more personal touch. Here goes.

Prior to returning to Washington for the present session of Congress, I went by the old home place two miles north of Lorraine in Mitchell County to tell my father goodbye. He has lived on this same farm for 25 years. He is 85, but his health is good and he is still active in the management of the farm.

When he stood out in the front yard in the snow and waved "good luck to you" as I drove away, I noticed he was wearing what I call Texas Tech trousers.

Here is the story about that: After being first elected to Congress in 1934, I was first presented with a suit at a special ceremony at the fair grounds in Lubbock. I prized it very highly because it was given to me by the college and the city. I first wore it when I took the oath of office in Congress in 1935. The wool for the suit was sheared from the sheep at Texas Tech and made into cloth at the college. After wearing the suit for five years, I gave it to my father, and he is still wearing it. I know that a lot of people would be happy if such high quality and workmanship could be found in present day garments.

There was nothing encouraging for relatives of men overseas in the personal report given to a joint meeting of members of the House and Senate last week by General Eisenhower and Admiral Nimitz. They gave a full statement on the

over-all picture, but they did not give information in regard to individual cases of personal hardship and injustice — cases in which members of Congress and the people generally are most interested.

Officials of the Armed Forces freely admit that following the original plans made after V-J Day, the demobilization program was speeded up far in excess of Army and Navy plans. There is doubt but that this was done because of the numerous pleas and demands of Members of Congress, the people generally, and the servicemen themselves.

A person who has not talked with servicemen overseas can hardly realize how desperately anxious these men are — especially those who have been long overseas — to return home to their families. In an effort to be helpful to these men, I have conferred personally with the President and others and will continue to avail myself of every possible opportunity to be helpful to them.

Between May 12 and mid-January approximately 6,772,000 service men were discharged. Gen. Eisenhower said that not until June 30 will all enlisted men with two years of service be discharged or on board ship bound for home to be discharged. He said that enlisted men with 45 points or 30 months service will be discharged or on their way home by April 30th.

On each Wednesday noon, Texas members of Congress have lunch together for the purpose of discussing matters of general interest and meeting guests from Texas. We had our first meeting for 1946 last week. Congressman West of Brownsville, Chairman of the Delegation, was absent, and as the next man in line for the chairmanship, I acted in his stead. Among the matters discussed were the critical strike situation, the demobilization program, and the condition of Congress man Fisher of San Angelo, who was critically injured in an automobile wreck in Texas.

The deer were planted in that area two years ago and have learned to frighten sheep and cattle away from grazing grounds.

A. K. WILLIAMS

HAWAII, The 49th State-

By WALTER A. SHEAD
WNU Washington Correspondent.

WASHINGTON, D. C. — It has now become more than a matter of gossip that Uncle Sam is expecting a blessed event, probably within the next year or so. And they plan to call it Hawaii, the 49th star in the firmament of states.

Already enabling legislation has been introduced in congress to prepare for the event, by Delegate Joseph R. Farrington, representative from the territory of Hawaii. Both houses of the territorial legislature have gone on record as unanimously favoring statehood.

Moreover, Secretary Ickes of the department of interior, under whose authority affairs of the insular territory is operated, is favorably inclined and the legislature of the islands has adopted a resolution asking the house committee on territories to visit them and hear testimony of the citizenry there.

The procedure for this important event lies in an enabling act to be passed by congress which would authorize the citizens of Hawaii to elect delegates to a constitutional convention. This convention would draft a constitution to be voted upon by the people. When the constitution is adopted it will be sent to the President, and if approved, the new state will be admitted to the union.

The last state admitted, the 48th, was Arizona on February 14, 1912, 33 years ago. At the time, Arizona had a population of approximately 200,000. Hawaii has a population today of approximately 500,000.

Discovered in 1778.

The history of Hawaii dates back hundreds of years, but was only discovered by Captain Cook in 1778. The islands were brought under one rule by King Kamehameha in 1791 and became a constitutional monarchy in 1840. A revolution drove Queen Liliouokalani from the throne in 1893 and a republic was proclaimed July 4, 1894.

The islands voluntarily ceded their sovereignty to the United States in 1898 and were organized as a territory on June 14, 1900.

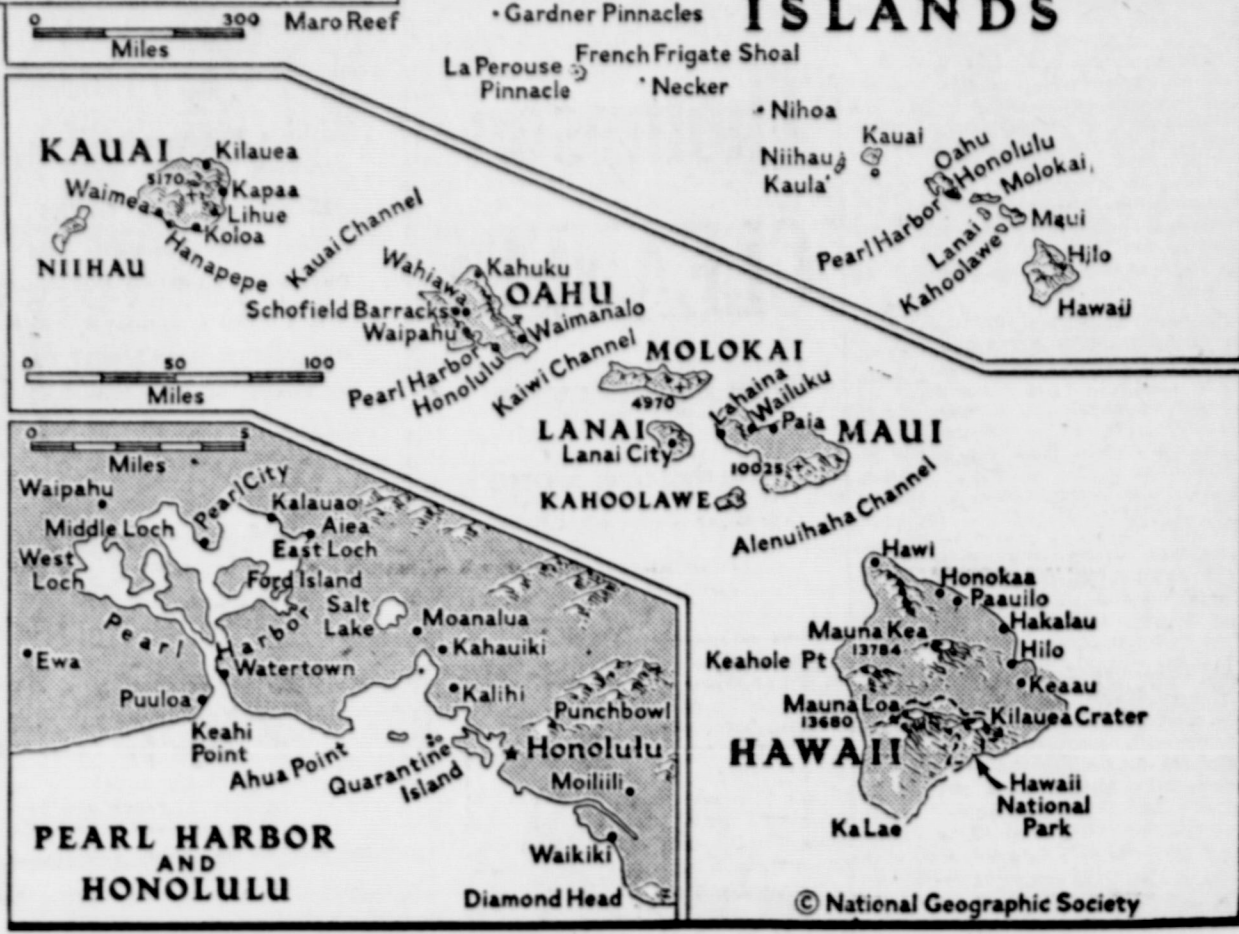

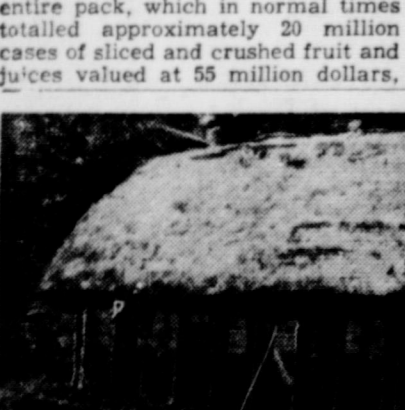

THIS STATUE of Kamehameha I stands before the judiciary building in Honolulu, recalling the native chieftain who completed the conquest of the islands in 1791.

For more than a century, therefore, the islands constituted a sovereign self-governing nation before voluntarily surrendering that sovereignty. Its people have been citizens of the United States for more than 45 years.

The people of this crossroads of the Pacific have long cherished the ambition of statehood. With the return of peace, Hawaiians feel that their war record has provided new and convincing evidence of their economic and political qualifications for full partnership in the sisterhood of states.

On the economic side of their ledger they point to an impressive war record, despite the same handicaps felt by agriculture and manufacturing within continental United States. The sugar industry, mainstay of insular economy, managed to maintain its wartime production at a level only slightly below the prewar figure at approximately one million tons annually.

Pineapples Come Second. Pineapple raising and packing, second ranking economic asset, is also preparing for expanding markets. During the war, virtually the entire pack, which in normal times totalled approximately 20 million cases of sliced and crushed fruit and juices valued at 55 million dollars,

THIS MAP shows the islands from three different viewpoints. The top panel pictures the entire group. The central panel, on a larger scale, shows the seven important islands, which include most of the land area, and on which live practically the entire population. In the lower left hand corner is shown the district around Honolulu, including Pearl Harbor.

There are 20 islands in the Hawaiian group, of which 9 are inhabited. The chain extends 390 miles from northwest to southeast, comprising 6,454 square miles, of which 4,021 are in the island of Hawaii. Outlying islands of Baker, Canton, Enderbury, Howland, Jarvis, Johnson and Midway, with a total area of 13 square miles and a population of 560, are not under the supervision of the Territory, but are often included for census purposes.

went to the military. Postwar demand is expected to bring about a substantial increase in exports.

The business of providing for the wants of tourists, which ranks as Hawaii's third most important source of revenue, was completely disrupted during the war, but civic leaders have lost no time in preparing for what is expected to be one of the greatest tourist eras in the history of the islands.

Steamship and air lines already have announced plans for faster, cheaper and better transportation; hotels, restaurants and others catering to the tourist trade have earmarked many millions of dollars for large-scale program of new construction and improvement. More than 65,000 persons visited this "Paradise of the Pacific" in 1939, last normal travel year.

According to the island economists, there is every prospect for an increase in the territory's export-import trade in the years immediately ahead. Before "Pearl Harbor," Hawaii exchanged with continental United States goods valued at a quarter of a billion dollars annually. Sugar, pineapples and other island products were exported, and automobiles, textiles, lumber, chemicals, food products and countless other mainland products came in. In 1941 more than 1,600 ships called at island ports.

Farm Wages High. On the mainland, bank accounts in Hawaii are at a high level. Deposits in 1944 totaled nearly 500 million dollars or approximately three times the 1941 figure. Wages compare favorably with those paid here at home. In the sugar industry, Hawaii's largest employer, wages exceed those paid by continental U. S. sugar producers. It is Hawaii's boast that the Hawaiian plantation worker is the best paid agricultural laborer in the world.

Being nearest to the Jap war, the people of Hawaii were the nation's most zealous bond buyers. They felt the first impact of Jap treachery. Latest treasury department figures show that the people of the islands had invested an average of almost \$550 each in war bonds, or almost twice the national per capita figure.

As another argument for statehood and of their economic well-being, Hawaiians point to the fact that their tax payments to the federal treasury have for many years exceeded those of a dozen or more states. In the fiscal year 1944, for example, Hawaii paid 174 million dollars in federal internal revenue taxes . . . a larger amount than was paid by 14 of the states.

Population growth has kept pace with the territory's economic development. Last year, the population was well past the half million mark, the bureau of vital statistics estimating that in 1944 there were 502,122 persons living in the territory, exclusive of military and naval personnel. On the basis of 1940 census figures, this exceeds the population

of six states . . . Arizona, Delaware, Nevada, New Hampshire, Vermont and Wyoming, and it almost equals the population of several other states.

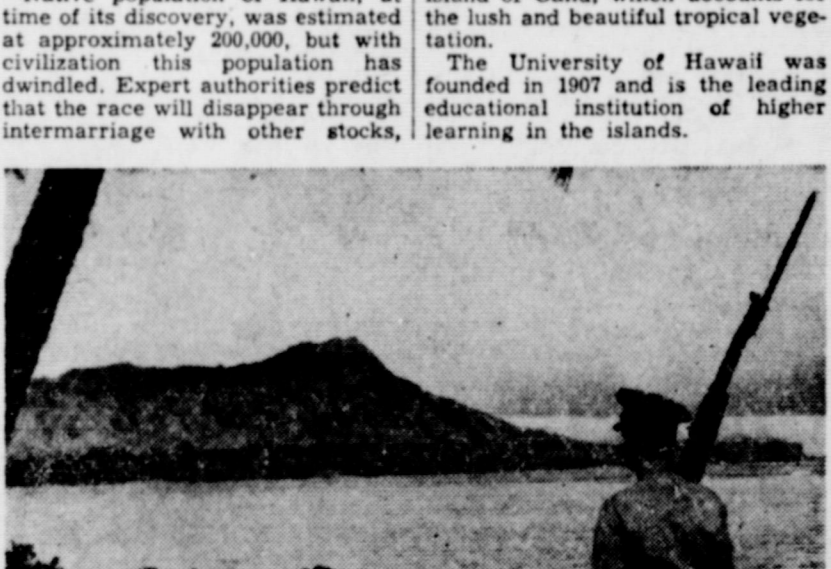

Politically Mature.

Having assumed the obligations of citizenship for 45 years, Hawaiians feel they are politically grown-up. Both major political parties have held a dominating place in the Hawaiian political scene since annexation; the members of the territorial legislature are either Democrats or Republicans. Hawaii sends voting delegates to the national nominating conventions although under territorial form of government. It also may be pointed out here that both the Democratic and Republican national conventions have gone on record favoring statehood for Hawaii.

Pearl Harbor has assumed unusually large proportions in the minds of the American people since the sneak attack on December 7, 1941, and since that time this great naval base, the American outpost in the Pacific, has been made one of the largest and best fortified naval bases in the world.

Honolulu, Hawaii's capital city, has a population of more than 250,000. It is a cosmopolitan city, a veritable melting pot of races, and has become the headquarters for several important international organizations, including the Pan-Pacific union and the Institute of Pacific Relations. Its transportation system is electric trolley and gas buses and there are more than 81,000 privately owned automobiles registered in the city.

Native population of Hawaii, at time of its discovery, was estimated at approximately 200,000, but with civilization this population has dwindled. Expert authorities predict that the race will disappear through intermarriage with other stocks,

Natives Easily Solve 'Housing Shortage'

The art of building native grass houses is preserved in Hawaii, many of them being placed in parks as tourist attractions.

The grass house shown in the photograph is an elaborate one, and houses of smaller dimensions are usually built. Although the cities are modern, many Hawaiian natives who live inland still prefer living quarters which can be built easily from materials close at hand. No priority is needed for grass and

Ickes Urges Statehood

WASHINGTON. — Secretary of the Interior Harold L. Ickes is advocating the admission of Hawaii to the union as the 49th state "in the immediate future."

"The department of the interior advocates statehood for Hawaii," Ickes said in a statement.

"Self-government is the right of all peoples, and statehood is the framework of self-government most appropriate to Hawaii's economic and social situation.

"Politically it is the next logical step, and the islanders have demonstrated that it is a step that they are willing and able to take."

Noting that Hawaii's present status is that of provisional statehood, Ickes said that the islands have imported 165 million dollars worth of U. S. goods in the last five years. The corresponding period they exported to the United States sugar, pineapple and other products valued at 510 million dollars.

rather than by death. According to the U. S. weather bureau records, it has never been hotter than 88 degrees, nor colder than 56 degrees in Honolulu on the island of Oahu, which accounts for the lush and beautiful tropical vegetation.

The University of Hawaii was founded in 1907 and is the leading educational institution of higher learning in the islands.

How much light is enough for beauty?

Lighting science has really been moving lately, perfecting ideas that will add to the charm and comfort of your bedroom, and will help you fix up to appear at your best. Better dressing table lamps are on the way. They'll furnish plenty of the proper light for make-up.

New and better lighting for your bedroom, attractive new bedlamps to give eye-conserving illumination for reading, new floor lamps that add to the appearance of the room and bring diffused, shadowless lighting, are beginning to appear in stores.

Begin now to think of the lighting in your bedroom as an aid to beauty, and give yourself the many advantages of Better Light.

Kidneys Must Work Well

For You To Feel Well
24 hours every day, 7 days every week, never stopping, the kidneys filter waste matter from the blood.
If more people were aware of how the kidneys must constantly remove surplus fluid, excess acids and other waste matter that cannot stay in the blood without injury to health, there would be better understanding of why the whole system is upset when kidneys fail to function properly.
Burning, stinging or too frequent urination sometimes warns that something is wrong. You may suffer aching back-ache, headache, dizziness, rheumatic pains, getting up at night, swelling.
Why not try Doan's Pills? You will be using a medicine recommended the country over. Doan's Pills stimulate the function of the kidneys and help them to flush out poisonous waste from the blood. They contain nothing harmful. Get Doan's Pills today. Use with one Doan's Pills at all drug stores.

HOUSEHOLD MEMOS

Seasoning Saves This Shrimp Dish

(See Recipes Below)

Meals With Zest

Families, long accustomed to the rigors of wartime cooking, now want something different since rationing has ended. This does not necessarily mean more meat, but it does mean that you cooks will have to wise up to the new ways of seasoning and make things taste extra special.

If you and your family are taste-conscious—and who isn't these days—then each food as though it were a priceless possession and try to make the most of it. In vegetables this means cooking them until they are tender, but still crisp and crunchy. In meats, it means bringing out the best in those hearty flavors; and in salad dressings, it means a careful blend of seasonings that will accent the best in fruit and vegetable flavors.

Take pork chops, for instance. We all know they're good, but they can be very special when their rich, savory flavor is highlighted with a bit of sage dressing, like this:

***Pork Chops on Sage Dressing.**
(Serves 4)
4 pork chops, floured
2 tablespoons sliced onion
1 teaspoon salt
1/2 teaspoon pepper
1/2 teaspoon sage
1 1/2 cups diced bread
1 tablespoon butter or substitute
1 teaspoon minced celery
1 tablespoon minced parsley
4 tablespoons milk
2 tablespoons broth

Blend all ingredients except pork chops and place in a shallow dish. Top with pork chops, cover and bake 45 minutes in a moderate (350-degree) oven. Remove the cover and bake 30 minutes longer at 375 degrees.

String beans, one of our more common vegetables, take on added appeal when they are prepared with a sauce that accents their delicate flavor. Here's how it's done:

String Beans.
(Serves 6 to 8)
2 pounds string beans
Salt and pepper

Cook slowly in a covered pan with a small amount of water. Drain with salt and pepper.

For Sauce:
3 tablespoons oil
1 tablespoon butter
1 medium-sized onion
1 clove of garlic
2 tomatoes, fresh or canned
1 tablespoon minced celery
1 tablespoon minced parsley
1 teaspoon mixed herb vinegar
1/2 teaspoon rosemary
1/2 teaspoon sugar
Salt and pepper to taste

Heat oil and butter, simmer the minced garlic, onion, celery for 5 minutes. Add cut up, peeled tomato, rosemary, seasonings and vine-

gar. Simmer 10 minutes. Pour over beans and serve.

Shrimp and rice were made famous by a song, but they are popular by their own right—flavor. To bring out the flavor in shrimp and make it a real taste thrill, bacon or ham is often added to it, as in the following two recipes:

Shrimp Creole.
(Serves 6)
3 strips bacon
2 medium-sized onions, sliced
1 green pepper, cut in rings
1/2 cup diced celery
3 cups canned tomatoes
1 teaspoon salt
1 cup cooked green peas
2 small cans shrimp
1 teaspoon chili powder
3 cups hot boiled rice

Cut bacon in 1/4 inch pieces. Put in a frying pan with sliced onions and cook until bacon is crisp and the onion is slightly yellow. Add pepper rings, diced celery, tomatoes and salt. Cook until celery and pepper are tender and sauce is thickened. Add peas, shrimp and chili powder and cook 5 minutes more. Mold rice in ring and surround with sauce.

Shrimp Jambalaya.
(Serves 6)
2 tablespoons bacon fat
1/2 pound smoked ham, cubed
1 medium-sized onion, chopped
1/2 teaspoon finely minced garlic
2 cups cooked tomatoes
1 1/2 cups water
1 teaspoon Worcestershire sauce
1/2 teaspoon paprika
Dash of cayenne pepper
1/2 teaspoon salt
1/2 cup uncooked rice
1 small can shrimp

Melt bacon fat in heavy skillet, add cubed ham, onion, green pepper and garlic. Sauté for 10 minutes. Add cooked tomatoes, water and seasonings; bring to a boil. Add rice slowly, cover tightly and cook until the liquid is absorbed and the rice almost done, about 20 minutes. Add the shrimp and cook covered 5 to 10 minutes longer.

Salads are popular during the cool weather because they satisfy our need for "green things." Make them colorful and well-seasoned and the family will reward you by asking for helpings of vitamins.

Beet and Lettuce Salad.
(Serves 6)
4 green onions, sliced fine
2 cups cooked beets, chopped
6 tablespoons salad oil
1 head lettuce
4 tablespoons vinegar
1 uncooked egg yolk
1/2 teaspoon salt
1/2 teaspoon dry mustard
1/4 teaspoon sugar

Beat egg yolk with a fork, add onions, salt, mustard and oil. Just before serving add vinegar. Chop lettuce to medium sized chunks and place in a large bowl. Add chopped beets. Pour dressing over this.

***Carrot-Lemon Salad.**
(Serves 5)
3 large carrots, grated
1 lemon, ground with skin
1/4 teaspoon salt
2 tablespoons sugar
1 tablespoon salad oil

Blend all ingredients together with a fork. Serve on crisp lettuce leaf.

Try Making Cough Syrup at Home. Quick Relief

Saves Big Dollars. No Cooking.

No matter what you usually use for coughs due to colds, you'll be more than surprised when you make up this simple home mixture and give it a trial. You'll wonder why you never used it before. It certainly does the work in a hurry.

Make a syrup by stirring 2 cups of granulated sugar and one cup of water a few moments, until dissolved. No cooking is needed—it's no trouble at all. Or you can use corn syrup or liquid honey, if desired.

Get from your druggist 2 1/2 ounces of Pinex. Pour this into a pint bottle and fill up with your syrup. This makes a full pint—a family supply—and gives you about four times as much for your money. It tastes fine, and never spoils. Children love it.

And for quick action, you've never seen its superior. It loosens the phlegm, soothes the irritated membranes, eases the soreness, makes breathing easier, and lets you sleep.

Pinex is a special compound of proven ingredients, in concentrated form, a famous reliable soothing agent for throat and bronchial irritations. Money refunded if it doesn't please you in every way.—Adv.

and disrespect the white patronage of the day by day trade will truly as time kill the town. Again, we say the incident was shocking and as an individual we are humiliated at this lack of appreciation. Don't ask us for details as this incident is closed if the farmer in question will not hold it against the town.

From our window all last week we have noticed the ladies ploughing thru the streets of mud to the curb and gutter here in the business section. Many ladies from neighboring communities who enjoy dressing up and coming to town must muddy their shoes. It is a miracle beyond belief that they wade O'Donnell's mud instead of driving the 18 miles to Lamesa or the 13 miles to Tahoka.

That so many from Mesquite, Wells, New Moore, Draw, Berry, Platt, O. K., etc. still count O'Donnell as home for shopping is largely due to a lifetime association and friendship with us here. But the worm will turn -- is turning now, and O'Donnell is on the SPOT. Verily, and we have earnestly considered this, next year will be too late. O'Donnell still has many friends, but they are watching us, 1946, and not 1947, is the fateful year. Were this not so, why would

We need a closely knitted organization of business men who will band together and court, woo, and beg for trade from our communities. Your Index man has never in his life let pride interfere with asking a man for his business -- be it a farmer for a subscription or a business man for an ad. Recently we asked a big man here for a regular schedule of advertising. He very frankly told us that he didn't give a d*** whether he had any more business or kept that which he had.

Our community friends want to know that the dime, the four bits and dollars they spend here are appreciated? That's just human. In main that what's the advertisers in this week's Index are trying to say. And we know you community folks appreciate it. So first, we business men need to put on our courting duds and humble ourselves. Believe me the friendship of the country people is important. Call this group any name but have it. Have no noble or fancy purpose other than rooting and tootin' for our town and fighting like the devil the encroachments of rival towns.

Second
And the most complicated, as by its nature it will offend some of our close friends and good advertisers. If you agree with us and put your agreement into practice, it will doubtless offend your friends too.

O. K. here goes. Our City government is operating on an extremely old fashion basis of government. We have the City Council form of government as you know. Usually it just can't get the job done when any debatable matter comes up. Many caprock have change in the past year.

Here's why. Mr and Mrs. O'Donnell. You and I elect two council men each year and regardless of what policy two opponent council men are pledged to carry out they could possibly be outvoted by present council members. It would take at least two years to gain a balance of power, and wouldn't be very workable even then.

The remedy? Easy! Change by voting to a PARTY system of government with an election every 2 years instead of each year as at present. Have the two parties (remember in democratic government there MUST BE opposition -- or at least a vocal opposing force) state publicly their policy and aim. If they are elected. Elect the party as a whole so there will be a unity of purpose and no buck passing if they fail.

You will say the city government job is without pay, a thankless job, etc. Of course it is, and our present council men are serving today, not because they wanted the honor but because there was a job to be done. Personally we think O'Donnell is a darn swell little town and well worth each man and woman taking an interest in it.

Third
And probably the most important item is how can we better our city streets. WE CAN'T -- that's all -- unless YOU are determined to do it. That's the rub! Are you determined, you, the little home owner, to get in there and pay your part of the freight?

Assuming you are thus far interested the following steps should be taken:
Petition the City to give an up to date financial study of the city to date. Give our bonded indebtedness, the rate of interest you and I pay, the total taxable valuation of our city at present, and an estimate as to the greatest bond issue the city could safely float and sell, and what the increase in taxes would be.

Assuming, for discussion, and the figures are no where correct, that our bonded debt is \$100,000 and the interest rate is 6 per cent or 5 per cent, and the valuation of real property within the township is enough to SAFELY warrant a bond issue of \$100,000. The old debt would be paid off to the bonding company, and refinanced at 2 1-2 per cent which is high interest for city bonds, and the difference in interest money saved would take care of the \$70,000 additional we borrow -- or nearly so. In many respects new businesses coming to O'Donnell would help us pay back our debt.

Without a doubt \$70,000 would not be enough to carry out a city wide paving project. To pave a few blocks over a choice route and disregard the remainder of the town is also out the window unless the individual property owner will pay his third.

O. K. say we have \$70,000. Then consult several city engineers. We know Lubbock's mayor and feel sure he would loan us a man at nominal cost. Let a survey be made and plans drawn and then submit this to the property owner. Every foot of road surface in the city should be considered as the bonded debt will be repaid by us all.

It might be well to have on the city ballot this election time a provision to take a straw vote of public sentiment. After all, O'Donnell was doing pretty well, we admit, before we came here last October of '44. This is your town. If you want muddy streets after knowing the facts, it is o. k. and the majority rules; we won't love you the less.

We have offered this week's column in no disrespect or questioning their record which can truthfully be said is above questioning. We as an individual could not have done as well. Our Council has done a difficult job well, and like Caesar's wife, are beyond reproach. They deserve our cooperation and beyond all our friendship and telling them we are ready to GO.

We feel O'Donnell needs streets so make your wishes known. Goodness knows, the County Ed. stuck his neck out!
Letters are invited and will be published free. You need not sign your name. Goodbye, and good streets, for O'Donnell, we hope.
