LEGION AUXILIARY RECEIVES AWARDS THURSDAY EVENING

Some time ago the Index had the pleasure of announcing that the local Legion Auxiliary had won a number of state awards which would be presented at a later date, and this was done at a meeting at the hall Thursday evening.

The trophies, which were made by disabled veterans, were presented at the state convention at El Paso, but as no representatives went from the local chapter, ladies from Lamesa brought them back and were present at the meeting Thursday evening. They consist of three fiber articles, a rose basket for having the largest membership compared to the size of the Legion Post, a lovely wicker serving tray lined with glass for having reached the greatest membership quota for the 'baby' auxiliaries of the state, and a large utility basket as a reward for the greatest increase in membership.

A highlight of the meeting Thursday was the short and very moving talk made by Mrs. F. O. Allen, mother of the dead hero for whom the Post is named. This was her first visit to the post and auxiliary, of which she is an honorary member, and her presence was felt to be a distinct honor.

The delegates from Lamesa reported in full on the convention at El Paso, bringing the details of the election of Mrs. Van W. Stewart to the office of state president. Mrs. Stewart visited the auxiliary here in the spring and is well-known and admired by all who met her. Mrs. F. H. Carpenter, past president, will devote her time and attention to child welfare work, which has long been one of the main features of the auxiliary program.

Twenty pounds of tinfol had been collected since the last report, and this will be sent to the Scottish Rite Hospital at Dallas. It will be remembered that the Legion and auxiliary are sponsoring this collection, and that the hospital has a market for it. There are boxes in almost every business house in town where tinfol of cigarettes, candy, tobacco toothpaste tubes, and other items is deposited by those who are interested in the work. These are emptied at certain intervals, and the contents sent on to Dallas. This subject is mentioned in detail because numbers of people are not aware of the fact that tinfol is a source of income for a most worthwhile institution. The Legion and auxiliary receive no returns from this interest, save the satisfaction of knowing that they are helping in a great work.

The importance and worth of the many and various things done by the Legion and auxiliary posts can hardly be overestimated, and each member came away from the meeting with renewed enthusiasm and zeal for this year's work.

MARJORIE MUSICK TAKEN TO SANITARIUM AT LUBBOCK

Little Miss Marjorie Musick, daughter of Mr. and Mrs. Jeff Musick, was taken to a Lubbock hospital Friday afternoon, and operated for appendicitis about two o'clock Saturday afternoon. As we go to press, no further complications have arisen, and the young lady is well on the road to recovery.

The little girl has suffered with chronic appendicitis for some time, and the family knew that an operation was inevitable eventually, so when she became ill last week, it was deemed best that it be done without further delay.

RECALL CAFE REOPENS FOR BUSINESS HERE

The Index is indeed glad to report that she is doing so nicely, and join with other friends in wishing her a speedy and complete recovery. The Index is indeed glad to report that she is doing so nicely, and join with other friends in wishing her a speedy and complete recovery.

LOCAL MASONS ASSIST IN CHAPTER WORK

Mesrs. B. M. Haynes, Tom Vandell, W. E. Singleton, and D. M. Estes visited the Tahoka chapter of the R. A. M. lodge Monday evening, and assisted in putting on the degrees. Members were also present from the Lamesa chapter.

FAMILY REUNION CELEBRATES MOTHER'S BIRTHDAY

Celebrating the fifty-ninth birthday of Mrs. Mary Hobdy, her seven sons and their families met at the home of Mr. and Mrs. Drew Hobdy this week-end for a family reunion. The entire affair was a complete surprise to the mother, and one which was enjoyed to the utmost.

A LOVELY DINNER AT ONE O'CLOCK SUNDAY WAS COMPOSED OF ALL THE TRADITIONAL VIANDS WHICH GO TO MAKE UP A FEAST OF THAT KIND, AND THE CAKE WITH ITS FIFTY-NINE CANDLES CAME AS THE CLIMAX.

Those present for this most delightful occasion were the honoree and her sons, Drew Hobdy and family of O'Donnell, Maurice Hobdy and family of Canadian, John Hobdy and family of Lockney, Monroe Hobdy of Canadian, Alton and Truett Hobdy of O'Donnell, and Vernon Hobdy of Abilene.

FUNDAMENTALIST MEETING NOW IN PROGRESS

The Baptist Fundamentalist revival meeting which opened in O'Donnell last Monday night continues to grow in interest and attendance.

The meeting is being conducted by Rev. T. D. Sumrall and Mr. H. M. Baggary of Happy, Texas. Rev. Sumrall is pastor of the First Baptist Church of Happy where he has served for almost four years.

The meeting is being held with the South Side Baptist Church and it is expected that the growing crowds will demand an open air meeting place.

Rev. Sumrall is PreMillennial in his views of the Bible. He believes we are nearing the end of this age. He preaches the Gospel without fear or favor and does not fall to warn sinners of the judgment and of hell. His major line of thought is the second coming of Christ.

Here are a few subjects which will be discussed at the evening services during the next 10 nights: "When is Jesus Coming Back?", "How is Jesus Coming Back?", "The Meaning of the Great Depression", "The Great Tribulation", "The Millennium", "Hell", "The Certainty of Our Lord's Return - His Literal Reign on Earth."

Every person in O'Donnell is cordially invited to attend this meeting. It is yours. It is to help you to study your Bible and to know the signs of the times, so that you may be ready to meet the Lord when He returns to earth.

You will enjoy hearing Mr. Baggary play the piano for he plays a number of special pieces which you will recognize as being helpful to the services. Only the old songs are being sung—the songs your grandfather was the ones that really have a message in them for the heart.

Our day services are to begin at 8:15. We will begin the song services promptly at 10:30 and 8:15. Come praying at the meeting, that it may be of great good to the people of O'Donnell.

There is no great organization back of this meeting. It is in the hands of the Holy Spirit where the poor, the common and all others may have the good news of Christ. Come once and you will come twice.

MCMILROY FAMILY MOVES TO LUBBOCK

Dr. and Mrs. T. A. McMilroy have this week completed moving their home to Lubbock, where they expect to be located for the future. While the doctor has been here for several weeks, and the family went up the latter part of last week, the final move and arrangements were completed the first of this week.

O'Donnell deeply regrets the loss of this family. Though the doctor has been away much of the time, and is not so well known, Mrs. McMilroy and the children have won special places for themselves in O'Donnell, and their neighbors were grieved to see them leave.

DAVIS—MITCHELL

G. H. Davis and Miss Ellen Mitchell, both well-known young people of this territory, were united in marriage last Saturday evening at 7:30 in a quiet ceremony performed at the Baptist parsonage by the pastor, Rev. L. S. Jenkins.

Both members of the new family are young people of character and worth, and are fitted to make a real home.

TUCKER'S STORE PURCHASING NEW FALL GOODS

L. D. Tucker, owner and manager of Tucker's Dry Goods store, left for Dallas and other eastern markets Monday morning to purchase dry goods and gents' furnishings for the store here.

Miss Alma Hyde, saleslady for the store, is also at market to bring back the latest and smartest in ladies' ready-to-wear. Mrs. W. A. Tredway is keeping the home fires burning and the ashes swept off the hearth during the absence of the proprietor, and is very efficiently serving the needs of the public.

As practically every merchant in town has already purchased, or is planning to purchase, the newest in fall goods, O'Donnell shoppers should be able to fill all needs in O'Donnell.

AMERICAN LEGION TO ELECT OFFICERS THURSDAY

Guy Bradley, commander of the Fern Allen post of the American Legion, asks the Index to announce that election of officers will be held at the hall Thursday night, September 17, and that all members are urged to be present.

Mr. Bradley has put in a year of earnest work and endeavor, and the post has prospered under his direction and with the hearty co-operation of members. For this reason, everyone is especially anxious that all officers be filled with the very best and most efficient material.

Mrs. Bradley, president of the Auxiliary, also asks that all members be present at the hall Wednesday afternoon at 3:30 for election of officers for the coming year, and to settle various other business matters.

It is felt that the entire community has benefited from the work done and sponsored by these two organizations this year, and each citizen feels a peculiarly personal interest in the welfare and success of all that they undertake. The Index personally—or should one say newspaperly—wishes to join with the rest of the town and territory in expressing the appreciation felt for the many worthwhile things accomplished this year, and to wish the two organizations every success of all that they undertake.

Again, all members are reminded of the two meetings, the Legion on Thursday evening at the hall, and the Auxiliary Wednesday afternoon at the hall, and are urged to be present.

BRADLEY FAMILY SUFFERS DECREASE THIS WEEK

In case anyone should wonder why Guy and Mrs. Bradley have had faces several yards longer this week than they usually display, and also wonder why the central part of town is so quiet, the news that master Mack C. Bradley left Tuesday afternoon for Plainview will help solve the mystery.

As they did not care to keep the youngest out of school until the local schools opened, Mr. and Mrs. Bradley sent him to Plainview where he will stay with his grandmother. Naturally, Mack C. would not be Mack C. without Shorty, the engaging spotted pony, and Nig, the friedly shaggy dog. Consequently, Mrs. Bradley's brother, Buddy McVicker, came down Tuesday afternoon with the trailer especially for Shorty's convenience, and the three pals were loaded in for their visit to Plainview. We regret to report that Shorty didn't seem to think the trailer idea was so hot, and felt like he ought to ride in the car with the driver, but it is hoped that plenty of petting and candy will somewhat relieve his wounded feelings.

The triumvirate has become a familiar sight on the streets of O'Donnell, and the Index force will miss each member. Shorty's cheerful greeting to all passers-by had become an expected thing to the reporter, and various mechanical discussions with Mack C. had added to our store of knowledge. We wish them a happy stay in Plainview.

WE APOLOGIZE, DEEPLY; 'SALL OUR FAULT

Last week the Index blithely reported that W. T. Brandon had announced his candidacy for the office of cotton weigher of precinct No. 6, and "there ain't no such animal". We should have said precinct No. 4. Hence our sincere and abject apologies to Mr. Brandon and the voters. Had it been a society editor undertaking to write political dope, something is bound to go wrong, and, like all women, she meekly takes the blame—for all the mistakes that happen around the office.

We hereby announce that Mr. Brandon is running for weigher in the O'Donnell (we do not take our life in our hands and say the number) and will be calling on all voters after the first of the year.

He states, however, that if he needs to go over into precinct No. 6 to find voters, he may try something of the kind. Mrs. Marshall Whitsett and Miss Irma D. Palmer returned Sunday afternoon from Mabank, where Mr. Whitsett visited her parents. Mrs. Whitsett visited her parents' home where Miss Palmer's grandfather. They were accompanied on their return by her mother, who is visiting here this week.

TEXAS' OPPORTUNITY

Texas controls gas and oil enough to provide fuel for half the nation's industries, and has in reserve countless thousands of tons of combustible lignite; it has a virtual monopoly of the most important chemical known to the modern industrial world, producing more than eighty-five per cent of the world's, and almost one hundred per cent of the country's sulphur; completion of the intracoastal canal will connect its industrial centers with all of the important cities and populous areas of the Great Lakes and Mississippi Valley regions, and its splendid deep-water ports already have given it access to all world markets. To these add a mild and salubrious climate favorably situated around industrial operations and an abundant supply of surface and artesian waters. It is a picture of incomparable industrial opportunity.

No commonwealth of ancient or modern history ever had so valid a claim upon industrial and commercial pre-eminence, yet it has a rather meager feeling that we are "muffing" the opportunity. Enough Texas gas is being wasted, experts inform us, to operate all of the industries of the great Chicago and Pittsburgh industrial districts; and instead of encouraging industry to come to Texas where this abundance of cheap fuel is available, our tactics are calculated to suggest that they locate elsewhere and pipe this precious fuel to the out-of-Texas location.

There was recently established in Corpus Christi a great chemical manufacturing industry whose initial investment will range between ten and twenty million dollars. It will afford employment for approximately fifty hundred men. This giant industry came to Texas for three good reasons: it demanded a location central as to sulphur, salt and fuel, and nowhere else was that requirement so well satisfied as in Texas.

If we would have more industries in Texas, like the one that established in Corpus Christi, we've got to build a reputation for industrial-mindedness. We've got to conduct ourselves, particularly in our legislative halls, so that a reputation for fair dealing is broadcast across the continent. We've got to sell ourselves on the idea of building, rather than destroying, payrolls. We've got to apply to our revenue needs the doctrine of volume—of great volume and small assessments, rather than small volume and high assessments. A little sense and constructive thinking and acting, and Texas can capitalize upon an opportunity that is without parallel. Capital and industry merely wait until we evidence an established policy that is deeply rooted in the principles of fairness and equity.

THE FIGHT ON THE MARRIAGE LAW

The Texas Weekly continues a bitter fight against the "anti-gin" marriage law, but goes to some pains to point out that it is not influenced by the "dollar motive".

If all financial considerations are set aside, what objections to the "anti-gin" statute can possibly remain? It would be interesting, were Editor Molyneux to elucidate.

Does he object to the law because it establishes a three-day interim in which parties to a proposed marriage contract may ponder the seriousness of a step that contemplates a lifetime association and the rearing of a family? Does he object because the law prevents the marriage of men whose physical condition is such that their wives are condemned to loathsome disease and suffering and death? Does he object because the law throws an obstacle in the path of men who would populate the world with blind and malformed and imbecile children? Or does he object because the income of a county clerk here and a Justice of the Peace there may have suffered some decline?

If healthy Texas boys and girls choose to marry in Oklahoma and return to swell our population figures, certainly no permanent injury is done the state. But if the anti-gin marriage law prevents one unfortunate marriage, or forestalls the birth of one poor, imbecile child, it justifies its place in the statute book.

There is no good reason (unless it be a "dollar" reason, and that may not be good) for the repeal of the anti-gin marriage statute. If the Texas Weekly desires uniformity of marriage laws, it would do better to

Mr. and Mrs. M. C. Willis arrived Tuesday to visit J. B. Miles and other relatives.

Mr. Mittie Scott and daughter, Miss Marie, have returned to their home in Dallas after spending a week with her sister, Mrs. D. M. Estes. The ladies were very much surprised to learn that we had vegetables and fruit to can, and while they put up a good supply of peas, corn, tomatoes, and apples. After this preliminary visit, they were so favorably impressed with the O'Donnell territory that they plan to come again next year. Welcome back, ladies.

Mr. and Mrs. A. W. Byrd, accompanied by Misses Arjerce and Cay King, have just returned from their vacation, and report splendid crops all along the sixteen hundred mile route. They all visited the penitentiary at McAllister, Okla., and Mrs. Byrd says that the longest walk she ever took was down the hall to the electric chair. Mr. and Mrs. Byrd live in the Pride and Loop neighborhoods, but are well-known in O'Donnell.

Miss Margaret Garland of Lamesa was the guest of friends a short time Wednesday afternoon.

Mr. and Mrs. J. E. Scott and children, Jewel and O. Q. of Dallas, are visiting her mother, Mrs. L. M. Wright.

The many friends of Mrs. A. W. Early have been indeed glad to greet her this week during her visit with her daughter, Mrs. S. Yandell, and other relatives. They are now located at Portales. Everyone is gratified to note the decided improvement in Mrs. Early's health.

Mr. and Mrs. Fred Henderson and Mr. and Mrs. Sanderson spent the week-end with Mr. Henderson's parents at Quannah.

THE GREATEST DIRIGIBLE

Soon the largest dirigible ever built, the U. S. Navy's Akron, will take to the air for a series of test flights, the result of which will be keenly interesting to the aeronautical world. This monster of the air has a gas capacity of six and a half million cubic feet, nearly twice that of the Graf Zeppelin.

The Akron is 785 feet long, with a greatest diameter of 133 feet. Eight engines will develop 4,480 horse power, and a maximum speed of 84 miles an hour. At ordinary cruising speed the ship will be able to travel 10,000 miles without refueling. It will exert a gross lift of about 200 tons, and carry 40 tons of equipment which include a number of small airplanes and several rapid-fire guns.

In view of the disasters which have attended the operation of dirigibles in the past, it is natural to speculate on the Akron's fate. One has only to recall the destruction of the American ZR-2, Roma and Shenandoah; the British R-101 and six other large dirigibles, the French Dixmude, the Italian Italia, and many others, to realize how few dirigibles, even those of the improved types of recent years, have survived for any great length of time.

The first dirigible, disaster in the United States, by the way, was the explosion of one named the Akron, in 1912. Let us hope that the new Akron may have better luck.

ONE OF THE CHEAPEST AND BEST FOODS

Campaigns to encourage the consumption of milk will, of course, benefit the dairy farmers of the nation—but a far greater benefit will come to the public as a whole, and particularly to growing children.

The value of milk food can hardly be over-estimated. It has no effective substitute. It contains elements vital to sustain and nourish the system and provides them in easily assimilated form. Dr. Percy Howe, lecturer of Harvard Medical and Dental School, says a quart of milk a day will help prevent decay of teeth by furnishing necessary lime.

It may be said that the nation has never had a better or safer milk supply than at the present. In most states rigid codes of standards are in force, and the principal dairymen themselves are working in the interests of safer and wholesome milk. It is one of the cheapest foods—and likewise one of the most necessary.

AMERICAN LEGION TO FIGHT FIRES

The American Legion, Department of California, has made fire prevention one of its permanent activities. It is organizing committees on Fire Prevention and Public Safety throughout the state and has instructed its National Committeeman to present a resolution to the next national convention—at Detroit in September—to extend the fight against fire to every Legion Post in the country. In aggressive support of this resolution, the California Legion on August 22nd conducted a national radio broadcast, sponsored by the Board of Fire Underwriters of the Pacific.

One leading authority states that the entry of the Legion into this work is the greatest single impetus ever given the cause of fire prevention. It is earnestly to be hoped, on the part of the general public, that the resolution to place the movement on a national basis will succeed. This national fire prevention program is largely due to public apathy and indifference. Too many of us regard fire as being the other fellow's business, not realizing that we all pay for it, in higher insurance rates, taxes, unemployment, loss of business and so on, whether our own property is burned or not.

Each year some ten thousand lives and half a billion dollars in property values are destroyed by fire. Here is a genuine "red menace" that threatens the life and security of every citizen. The example of the Legion of California is a fine one that should be followed by every organization interested in the public welfare.

The Nye committee may finally get around to an investigation of the Hayes-Tilden campaign.

CLOSE BIRD REFUGES TO HUNTING CAUSED BY DROUGHT

The Secretary of Agriculture has revoked orders that heretofore permitted hunting on Federal bird reserves at Salt River, Ariz., Big Lake, Ark., Tule Lake, Calif., Deer Flat, Idaho; Nine Pipe and Pablo, Mont.; Rio Grande, N. M.; and Cold Springs, Ore. This action was taken, officials of the Biological Survey, U. S. Department of Agriculture, explained, because of the drought emergency confronting wild ducks and geese.

Of the 81 reservations established by Executive orders and placed under the administration of the Biological Survey, these eight are the only ones on parts of which hunting has been permitted. The new series of refuges being established under the migratory bird conservation act of 1929 will be inviolate sanctuaries, which hunting will not be permitted after they are under administration of the Biological Survey.

The Secretary's order, it was pointed out, is in line with the Presidential proclamation of August 25 shortening the season on ducks, geese, brant, and coot to 30 days and calling for cooperation in the conservation of waterfowl. These emergency measures, it was explained, have been necessary by severe drought in the North Plains States and westward to the Cascade Mountains and in the Prairie Provinces, in which hunting will not be permitted breeding grounds of this continent. The drying up of sloughs and marshes in this region has prevented the birds from rearing normal numbers of young, and as a result the annual flight of ducks and geese this fall is expected to be the smallest on record.

stitution of the United States by the constitutional convention in Philadelphia after nearly four months of deliberations.

In recent years Constitution Day has been widely observed through suitable exercises by schools, clubs and patriotic societies. It is only the "truth" to say that the average American is by no means as familiar with this great document as he ought to be. The wisdom and foresight of its authors have been amply vindicated throughout the life of the nation.

One of the highest tributes ever paid the Constitution was by the eminent British statesman, Viscount James Bryce, who in his American Commonwealth said: "The Constitution deserves the veneration with which Americans have been accustomed to regard it. It ranks above every other written constitution for the influence of its scheme, its adaptability to the circumstances of the people, its simplicity, brevity and precision of its language, its judiciousness of definiteness in principle and elasticity in details."

MRS. FRITZ HONORED AT SHOWER THURSDAY

Mrs. Calvin Fritz, who was before her recent marriage Miss Eva Tuno, was honored last Thursday afternoon with a miscellaneous shower at the home of Mrs. S. M. Minton.

Guests had all arrived when the honoree appeared, who was quite innocent of the purpose of the occasion until a small colored boy and girl came in inquiring for "Miss Eva Tuno Calvin Fritz," and reported that their mammy had sent them to deliver the laundry. However, one jacket would not hold the multitude of useful and lovely gifts, and a second trip was necessary before they could all be brought in for inspection.

The esteem and popularity of this young couple was amply proved, if such proof were necessary, by the vast array of gifts, ranging from one-pick from one juvenile admirer up to a lovely roaster. After a graceful speech of thanks from the honored guest of honor, a number of amusing and appropriate games were played, after which dainty refreshments of ice cream and cake were served to the following: Mmes. Jim Ables, W. L. Rodgers, Henry Harris, Roy D. Smith, L. A. Edger, Mack Pemberton, Price Sealey, E. E. Curtis, Jno. R. Burkett, Jack Elms, Frank Shumake, Van McKee, Ed McKee, W. C. JAPANESE MOTIF STRESSED IN PARTY THURSDAY

One of the most elaborate and interesting social affairs of the season took place last Thursday when Mrs. Waldo McLaurin entertained members of the Thursday Club and a number of guests at her lovely home.

Carrying out a color scheme of red and yellow, all decorations and appointments were in Japanese style, every detail carefully planned. Dinner, handpainted by Mrs. Florence, were dainty Japanese lanterns, and attracted much attention. An unusual and much appreciated feature of the afternoon was a clever Japanese song rendered by Mrs. T. M. Garner, accompanied at the piano by Mrs. W. H. Ritzenthaler. Party-two was the diversion of the

BRIDGE PLAYED AT PARTY FRIDAY EVENING

The gracious hospitality of Mr. and Mrs. Guy Bradley is as proverbial as that of the McLaurin family, and the very informal party held at their home Friday evening was only a sample of the friendly pleasant occasions at which they have been hosts.

With host and hostess setting the pace for fun, guests took full advantage of the opportunity for pleasure, and games of bridge were hotly contested throughout the evening, with perhaps more noise than finesse.

CATHEYS HOSTS AT BRIDGE TUESDAY EVENING

Mr. and Mrs. W. S. Cathey were gracious hosts Tuesday evening to a number of friends when they entertained with an informal bridge party at their home.

Bowls of roses and other cut flowers added to the attractiveness of the reception rooms where tables were soon prepared for games and players were plying pursuing the elusive "high score" with varying luck.

At the close of a very pleasant evening, delicious refreshments of ice cream and cake were served to the following guests: Messrs. and Mmes. E. T. Wells, Marshall Whitsett, T. M. Garner, J. L. Shoemaker, Jr., E. Robinson, Naynon Everett, and Guy Bradley; Mmes. C. H. Westmoreland, J. W. Campbell, and Jimmie Davis of Dallas; Misses Ethel Singleton, Laynetta Smith, and Thelma Palmer; Messrs. J. Mack Noble, Jr., and Earl Curtis.

This Woman Lost 64 Pounds of Fat

Mrs. H. Price of Woodside, L. I., writes: "A year ago I weighed 190 lbs. I started to take Krushen and now I weigh 126 and never felt better in my life and what's more, I look more like 20 years old than the mother of 2 children, one 19 and the other 18. Every one of my friends say it's marvelous the way I reduced."

To lose fat with speed take a half teaspoonful of Krushen in a glass of hot water before breakfast every morning—don't miss a morning—an 85 cent bottle lasts 4 weeks—get it at the Corner Drug Store or any drug store in America. If not fully satisfied after the first bottle—money back.

"THIS AND THAT" By JIMMINY

The Week's Most Famous Saying: (General Welters, speaking to the youngsters under his command at Kilgore) "Shoot at the waist line. If you miss, start over the hill and keep going."

Another famous saying was Governor Sterling's: "If I called another session of the legislature, they would hang me from the highest limb in the state."

Still another saying issues from Commissioner MacDonald's lips: "You may confidently expect the governor to call an early special session."

Last week a wave of homicidal madness swept over the state. In Houston gang killers gained access to the luxurious Montrose Boulevard apartments of ex-convict "Keggy" Jones at mid-day. As the radio played the Ayni Chorus, twelve shots from the two gangsters' guns played the "Swan Song" for pajama-clad Mr. and Mrs. Jones. Witnesses saw two well known police characters leave the apartment shortly after the shooting. A little later another member of the gang was found dead in the Brazos river near West Columbia. Harris County district judges have instructed the Harris County grand jury to spare no expense and no effort in the attempt to stamp out gangland activities centered in and about Houston.

Texas' dose of martial law may rebound to the benefit of Governor Sterling, who declared it, but it will never prove a credit to General Welters who administered it. The general's methods and manners might have been eminently proper in a country where the people are accustomed to tremble at the crunch of military boots on flagstone pavements, but in free America and freer Texas a little bit of military arrogance goes a long way.

Germany might win acclaim in militaristic Germany or Fascist Italy. But not in Texas.

PRISONER CARS

In efforts to bolster their dwindling passenger business the railroads of the country have adopted many improvements and innovations in the interest of better service.

One of the latest and most novel additions to passenger equipment is a special prisoner's coach fitted up by a southern railroad, described in the following statement:

"This carrier has just converted a prisoners' coach into a patrol car for the transportation of prisoners. Steel bars protect the windows, and the coach has been equipped for the comfort and convenience of guards and prisoners, and is held in readiness to be sent to certain points on the system for the handling of large bodies of prisoners. Passenger Department has asked employee-solicitors to advise U. S. marshalls, sheriffs, deputies, etc., of this special equipment and service offered by the Southern."

Without any special interest in the railroad's revenues, we hope a sufficient number of gangsters may be rounded up to keep the newly equipped coach busy transporting them to the destination where they belong.

The hitch-hiker, too, is a staunch advocate of "free wheeling."

It seems possible that a peeved aviator should get hopping mad and go up in the air.

Lesson for September 13

SOME MISSIONARY EXPERIENCES

LESSON TEXT—Acts 14:28.
GOLDEN TEXT—Blessed are they which are persecuted for righteousness' sake: for there is the kingdom of heaven.
PRIMARY TOPIC—Some Missionary Adventures.
JUNIOR TOPIC—Some Missionary Adventures.
INTERMEDIATE AND SENIOR TOPIC—Hardships of Missionaries.
YOUNG PEOPLE AND ADULT TOPIC—Christianity Facing Other Religions.

I. Paul and Barnabas Preaching at Iconium (vs. 1-7).

Their experience here was much the same as at Antioch. They entered the Jewish synagogue and preached, convincing a multitude of Jews and Gentiles to believe. The unbelieving Jews stirred up the Gentiles to the most bitter opposition. Concerning their work in Iconium observe:

1. Their manner of preaching (v. 1). They "so spake" that a great multitude believed. They were true preachers. Only that which brings conviction of sin and induces decisions for Christ can be truly said to be preaching in the biblical sense. It is not enough merely to bring the truth to the people. It must be brought in such a way that men and women will be induced to decide for Christ.
2. Their attitude toward opposition (v. 2). This is suggested by the word "therefore." "Long time, therefore they tarried." The opposition did not prevent their preaching but incited them to continue preaching. Christian workers should give up work because of opposition.
3. Their preaching accompanied with miracles (v. 3). Since the opposition was so fierce, the Lord granted special help in his vindication of their testimony.
4. The effect of their preaching (v. 4). The multitude of the city was divided. Where men faithfully preach the gospel there will be division.
5. Paul and Barnabas assaulted (v. 5, 7). The Jews and the Gentiles united in this assault. Being apprised of this effort, Paul and Barnabas fled to Lystra and Derbe, where they preached the gospel.

II. An Attempt to Worship Paul and Barnabas as Gods (vs. 8-18).

The occasion (vs. 8, 10). It was the healing of a lame man. God's gracious power shown in healing this lame man occasioned new difficulty. That which ought to have been a help was turned into a hindrance. This was a notable miracle. The man had never walked. On hearing Paul preach, faith was born in his heart (Rom. 10:17). When Paul perceived that he trusted Christ, he called with a loud voice that all could hear for the man to stand upright. The cure was instantaneous. For he leaped up and walked (v. 10).

2. The method (vs. 11-15). They called Barnabas Jupiter, and Paul Mercurius because he was the chief speaker. The priest of Jupiter brought oxen and garlands ready to offer sacrifices unto these men (v. 13). In the person of Jesus Christ God has actually appeared to man (John 1:14; Phil. 2:7, 8).

3. Their efforts frustrated (vs. 14-18). This foolish act was happily averted by the fact of the apostles as exhibited in the address of the occasion:

- a. They denied that they were deities.
- b. They directed them to turn away from these vain things unto the living God who made heaven and earth.
- c. The Stoning of Paul (vs. 19-22). Wicked Jews from Antioch and Iconium pursued Paul with relentless hate to this place where they stirred up the very people who had been willing to worship them a short time before. This shows that satanic worship can soon be turned into satanic hate. This hatred took form in the stoning of Paul and the dragging of him out of the city for dead. Having been raised up by God, he with undaunted courage pressed on with his duties as a missionary hearing the good tidings to the lost. Soon after this, Paul returned back and revisited the places where he had preached, telling them that through great tribulation they must enter into the Kingdom of God.

IV. The Organization of Churches in the Field (vs. 23-28).

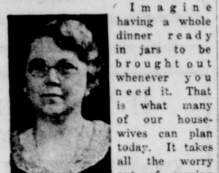

Evangelization with Paul did not mean a hasty and superficial preaching of the gospel, but the establishment of a permanent work. Elders were appointed in every church. The work of the missionary is not done until there is established on the field self-governing and self-propagating churches.

Christ's Coming
 My friends, all the singing about it in the world will not bring the coming of Christ a day nearer—and there are no songs of the Christian church which so fill my heart with gladness and my eyes with tears as the songs of Christ's coming. But service will.—J. Stuart Holden.

The Joys of Home Canning

INTERNATIONAL CANNING CONTEST

A BALANCED MEAL IN GLASS

Imagine having a whole dinner ready to be brought out whenever you need it. That is what many of our housewives can plan today. It takes all the worry out of serving unexpected guests. Then too, it lets the housewife prepare her meal on the day when she has more time so that when she is rushed she has only to take her meal from glass jars. Our meal may not include nuts but it does include soup. And there are so many delicious soups which may be prepared and stored safely in glass jars to be used when needed. Imagine the flavor of well prepared "Green Pea Soup." Then there are tomato or vegetable soups of all kinds. The meat soups may include any number of kinds. Any favorite soup may be canned. Chicken broth or kumho or the more hearty fish chowder as well as beef bouillon may all find their way into glass jars. Soups are processed for 3 1/2 hours in boiling water, or for 50 minutes to an hour at 15 pounds pressure in a steam pressure cooker.

After soup comes the main part of the meal which may include any meat you may wish. If you have never tasted home canned meats you've no idea how good they are! Just every kind of meat may be canned: Beef steak, hamburger, roast or boiled steak. There may be chops, spare ribs or roast. Veal and lamb are great favorites. When the flock of chickens are culled they may all be canned at once. They may be prepared as stew, roast or fried. Accompanying the meat may be one of a dozen or more vegetables: tomatoes, okra, corn, peas, lima, or string beans, asparagus, beets, spinach, kraut, squash or sweet potatoes. One of these vegetables may be made into a crisp, delicious salad, serving with a favorite dressing. With this meal we may add some lovely pickles, there are so many to choose from, for the housewife likes to keep a variety on her cellar shelf.

The meal will include a jam or jelly. What a splendid variety there is to choose from: strawberry jam, plum butter, raspberry or blackberry jam, orange marmalade or what have you.

For dessert there are the home canned fruits. They will choose the kind which is most suitable to follow the main part of her meal. These may be served either plain, with sim-

The International Canning Contest is offering splendid prizes for the best entry in the Balanced Meal Class. There are to be other prizes, too, for entries in the fruit vegetable, meat pickle, unusual packs and jams and jellie classes. Over 1,400 prizes with almost \$5,000.00 in cash will be awarded. The contest is open to any woman or girl. Full particulars for entering the contest may be had by writing to Mrs. Grace Viall Gray, Log Cabin, Aurora, Illinois.

One little widowed mother, who teaches during the year, tells how she meets the demands on her time and money by raising a garden in the summer and then canning these vegetables and fruits for winter use. "I could never manage with three children, who are in school, if these foods were not all ready for us to use when we get home for our meals. I know, too, that they are good for the children." A balanced meal in glass is a great convenience.

HEALTH RACKETEERS

Medical quackery, which for several years gradually lost ground because of the growing tendency of newspapers to reject quack advertising, seems to have found a new and potent ally in the radio. Much advertising which no self-respecting newspaper would print is freely broadcast over the air, evidently with some success in attracting suckers, because it is being continued in undiminished volume. Those who prey upon the public by fraudulently cashing in on the universal desire for health are characterized by Dr. E. P. Lyon, dean of the medical school of the University of Minnesota, as "health racketeers." He says of this type of faker:

"His health patter is pseudo-scientific. His eye is on your check book. In these days especially he prostitutes the radio to his uses.

Quacks and quackery, fakers and fakery of all kinds appeal to a bewildered public, between jazz and tismonts that no reputable journal will print. Oh, Health, what crimes are committed in thy name!

Even some of what appears to be legitimate advertising is very deceptive. The doctor says further: "Brushing the teeth is a nice habit; but no one has proved that it saves teeth, and all the flamboyant advertising about tooth pastes is rotten tommyrot."

We often wonder if Bill Hay doesn't reel off his chronic radio spiel about "film" with tongue in cheek.

Dr. Craster of New Jersey renews the old propaganda about the dangers of kissing. There are dangers, of course—one of getting caught at it.
