## To Attend Ag Meet At Dallas

Advanced ticket sales to the 9th annual O'Donnell Rodeo will begin July 7th and continue up until the day before the rodeo. Live of the community's most attractive young ladies will sell the tickets. The queen candidates are sponsored by local civic clubs. Tickets are \$1.25 for adults and 60c for the children. The rodeo queen will be the young lady selling the most advanced sales tickets.

Mrs. F. M. Jones of the Public Committee urged those planning float entries to secure the paper and supplies early to avoid the bottleneck of short supplies that occurred last year. There are twelve civic floats entered and ten commercial floats. The total is expected to be even higher within the next few days. The parade is expected to be the best in the history of the community.

Mrs. Jones also reported 100 percent co-operation on part of the local firms in purchasing rodeo streamers for their business houses. The prices ranged from \$12.50 to \$25 and a large part of this money will go to the fund for float prizes.

## Clean, And Then Clean Some More On Polio, Says John Ellis Of Council

John Ellis of the City Council this week urged residents of the town to keep cleaning and then to clean some more. The continuing program is to decrease the breeding of various insects especially flies suspected of transporting the polio virus.

Dr. Lehman reported the public response to reporting out door toilets and leaking cess pools had been fine. The problem is now to remedy the situation. John Ellis had blood in his eyes about polio this week and promised a get tough crack down.

No cases of polio have been reported in this area but Lamesa trade area has had 13 light cases with one death. Children should be kept at home away from crowds and only play with their neighborhood friends. The City is running the spray machine daily. To the Index it seems the flies this year are well under control.

## O'DONNELL BEAT SPUR HERE MONDAY

A three hit effort by Bennie Clark brought O'Donnell in ahead of Spur 15 to 5 as both teams played errorless ball in an East half contest of American Legion series.

If you must drive on public highway ways, drive slowly enough to expect and possibly avoid highway accidents. Speed is the chief highway killer. ## Small Twister Hits Here

Last Thursday at about 2 p. m. tornadic winds twisted the front porch off of the B. K. Cooley farm home on the John Earles farm near Harmony gin. At about the same time tornadic winds destroyed the dairy barn of Fred McGinty on his farm midway between here and Tahoka. Mr. and Mrs. Coley and their married daughter and her husband, Mr. and Mrs. Leroy Mensch were in the house at the time but failed to see the funnel for the dust and rain. Some damage was done to the roof and out buildings. A heavy down pour of rain covered the area during the storm ranging upward of an inch.

**'Induced Insanity'  
Reported at Duke**

PINEHURST, N.C.—A case of  
'induced insanity,' a rare behavior  
phenomenon, was reported here by  
a Duke University psychiatrist.

Dr. Leonard J. Ravitz told the  
Southern Psychiatric association  
about a strange case of fraternal  
twins, one of whom became the  
'echo' of the other's deluded ideas.

This case of 'contagious insanity'  
has been recorded by Dr. Ravitz's  
newly announced electronic theory  
of psychiatry, linked with the solar  
system. By means of a microvolt-  
meter Dr. Ravitz measures the  
chances in a person's emotional dis-  
turbance from second to second,  
from one day to another, and from  
season to season.

Once, after twin 'A' mentioned  
that he had produced many earth-  
quakes, tornadoes, hurricanes, and  
floods, 'B' thought a while, agreed,  
then asked, 'Did you have anything  
to do with the snowfall 23 inches  
deep?'

This belief in A's power was  
clearly induced in B by A's sug-  
gestion, Dr. Ravitz said. However,  
B was much more suggestible to  
A's delusions when B's measure-  
ments—'electrical potentials'—  
were high. As his potentials de-  
creased, B's suggestibility to these  
delusions decreased despite the fact  
that A's potentials were high. And  
A himself behaved much more  
normally as his potentials de-  
creased.

**Kentucky Minister  
Defies Racketeers**

PADUCAH, Ky.—Threats against  
his life will not deter the Rev. Wil-  
liam H. Estes, pastor of the Broad-  
way Baptist church here, from con-  
tinuing his exposure of gambling  
and vice conditions.

"I have no intention of keeping  
my mouth shut as long as these con-  
ditions exist here," Mr. Estes said.  
He recently received a phone call  
warning him to cease his crusade  
against the racketeers. It was the  
second such call.

The minister said that members  
of his congregation told him a  
group of "shady characters" at-  
tended a Sunday service in which he  
denounced vice conditions.

HERE'S WHERE TO COME FIRST!

You've heard about it and read about it. Now, if you haven't felt what Power Steering does for you, we invite you to try it first in a Chrysler New Yorker . . . where you will find full-time (not partial) Power Steering!

What happens is this . . . You handle the steering wheel in normal fashion. But 4/5 of all the work is done for you by hydraulic power, constantly at your command. Also, you turn the wheel 1/3 less distance now for every maneuver . . . the feeling you get of utter control is as wonderful as it is new.

Even at a standstill you can turn the wheel easily. Now, parking is shorn of its troubles (and fatigue!) . . . and you can negotiate traffic, awkward drives, and garage doors precisely and with ease.

You can double the longest day's drive you've

ever known . . . end up free from arm and shoulder strain. Rough roads, soft shoulders, snow, mud? . . . the power that helps you steer now prevents the car's wheels from "steering back" at you. The course you set is held, at any speed, till you want it changed. Yet, with this 5-times greater control, "wheel feel" is always the same.

Why not come try it? Learn for yourself why growing thousands of motorists say they'll never be without Full-time Power Steering from now on. Drive a Chrysler . . . and Learn the Difference!

### June's Bridegroom Is Luckier Fellow Than Ancient Hubby

CHICAGO—The June bridegroom in America today is a pretty lucky fellow, despite what his bachelor friends may tell him, in the opinion of history research experts.

They believe their findings, arrived at after digging through numerous rare documents and other references on romance, marriage, and wedded bliss, covering a period of thousands of years, will help to make business boom at the nation's marriage license windows during "the month of brides."

For example, Og, the Stone man, had to steal his bride from her family and drag her off in the dead of night to his cave retreat. No one worried about his wedding breakfast even if the bride had never learned how to skin a wild board and cook it over an open fire. But the modern bridegroom is treated like "visiting royalty" by the family of the bride-to-be which traditionally foots all of the wedding bills.

Prospective husbands of primitive German tribes were required to bring a dowry of worldly goods to their brides, including horses and cattle. Among these Germans, who lived during the latter days of the Roman Empire, "hope chests" and trousseaus were unheard of, and the bride's friends never felt obligated to give her a "shower" of household goods for her new home.

When a Mayan boy married, he had to live with the wife's parents and work for her father for at least five years in order to "pay" for his wife. Only then was the young couple permitted by law to set up housekeeping apart. In contrast, the modern bridegroom is expected to attend only an occasional Sunday dinner at the in-laws' home, and he can find an excuse now and then to evade even that obligation.

Probably the most miserable creature of all about to make that trek to the altar was the cliff dweller of ancient America. When he married he had to live in a house that his wife had built and that belonged to her. The children of the marriage were also regarded as belonging to her and took her name, rather than that of her husband as is the custom today.

### Bugle Virtuoso Is Lure to Communists

IN KOREA—A Marine bugle virtuoso is luring the Communists to destruction.

At strategic moments, he blows the Chinese call for attack, which brings the enemy running straight into the muzzles of leathernecks guns.

He learned the call, note for oriental note, when his patrol surprised four enemy soldiers, and a Red bugler called for aid. The help came, but was promptly wiped out.

Next day, the Marine "field music" did a solo, with equal success. Among the captured: One perplexed Communist bugler, who complained bitterly that someone else was muscling in on his racket.
