O'DONNELL, LYNN COUNTY, TEXAS, FRIDAY, JUNE 22, 1928

The best advertising medium in Lynn County. Read in 1,500 homes each week.

NUMBER 38

Work On New Gas System Progressing Rapidly

New City Mains Are Laid With Haste

GAS WILL ARRIVE SOON

Work on the new pipeline is well under way in O'Donnell. The city is being crisscrossed with ditches, and pipe is being laid as rapidly as a big crew of men are capable of doing it. A large ditching machine is working unceasingly preparing the trenches. In a few short days the town will be honeycombed with ditches and pipe. Not knowing how long it will require to complete the laying of the mains, it is impossible to accurately set a date for the arrival of the first gas, but we predict that within a few short weeks O'Donnell will be enjoying the luxury of this great convenience.

By the time the first cold blasts of fall and winter send people scurrying indoors, this convenient fuel will be at our disposal. No more kindling chopping—no more ashes to carry out. Just turn her on and presto! warmth and comfort radiate throughout the house.

NEW DEPARTMENT IS ADDED IN INDEX OF THIS WEEK

We invite your attention to a new department added to the paper this week. We refer to the Church Notes Column. We are always glad even anxious to have any news of church work, progress, special numbers at regular services, etc. We put forth every effort to secure interesting and accurate information, and we would appreciate any news you may have. If you have guests out of town, have a party or go on a picnic, if a member of your family is ill, any church, social or personal news in which a neighbor would be interested, call Mrs. J. W. Campbell at 86, and she will be delighted to have the item. Don't think people will say you just like to see your name in print, hey won't, this is a community newspaper and its popularity and success depend upon the news of our own people. Help make it a good one.

FORMER CITIZEN PASSES AWAY AT LEVELLAND

It is with deep regret that we note the passing of a former citizen, Uncle Jack King, who until a few years ago, lived in O'Donnell. Death occurred after a brief illness. Mr. King was a faithful member of the Christian Church for many years, a man loved and respected by all who knew him. He is survived by his wife and five children. Burial was at Levelland last Saturday, with the Masonic Order in charge of funeral services.

The Index extends to the bereaved family the heartfelt sympathy of their friends here. May God give you strength and fortitude sufficient for this sad task home.

LIONS CLUB IS ORGANIZED AT MUNDAY

Munday is one of the most progressive small cities of West Texas. Another proof of this was the organization recently of a Lion's Club. The following officers, many of whom are known to local people, were elected: President, E. Duval; First Vice President, E. W. McGlothlin; Second Vice President, Ben I. Guinn; Third Vice President, H. F. Barnes; Secretary, D. F. Mauldin; Tail Twister, P. D. O'Brien; Lion Tamer, Tom Haney.

ANNUAL S. S. DAY IS OBSERVED BY M. E. CHURCH

According to the custom of the Methodist Episcopal Church, last Sunday was set aside as Annual Sunday School Day. The services at eleven o'clock hour consisted of song readings from the children and young people as well as thoughtful and interesting talks on Sunday school work from leaders of the church.

A large crowd was in attendance and much interest manifested. The Sunday school as a whole is growing in interest, spirituality and attendance.

W. M. S. TO SERVE BIG DINNER ELECTION DAY

This is an official invitation to the voters who will be in O'Donnell on election day to eat dinner with the Women's Missionary Society. A regular dinner will be served and you know what a Methodist dinner is. Watch this paper for further announcement as to location.

Girl Is Crowned "Miss Texas" At Monster Celebration At WTCC Gathering

WELL AND PARTY T. C. C. MEETING

Green, in here called "Miss O'Donnell," accompanied by Mrs. C. H. Roberson, Mrs. C. H. Roberson, left for Fort Worth representing our city at the Chamber of Commerce. From the Chamber of Commerce, Miss O'Donnell will take up the greater part of the wisdom of the city selected here. The several side visits before

BY W. T. C. C. HAS REACHED INTENTION, REPORTED

statement from the Fort Worth Telegram, the West Texas Chamber of Commerce has announced that the 1927 convention at Ft. Worth, with the organization of new bureaus—oil and city and county—has been a success.

to the West Texas Chamber of Commerce Convention at Fort Worth was presented a weekly for social and intellectual enjoyment. When former Mayor M. Neff delivered an address with "Manhood" as his subject, there were leading orators of the city and a man who for years has been prominent in Texas political and religious circles.

summing the pulpits of all the churches, and with the chamber of commerce speaking on the common business and religion.

Monday morning, M. E. Tracy, the "Tracy says" daily editor, who appears in the newspaper as a speaker breakfast at the Fort Worth convention session opened at 9:30 in the First Baptist Church, R. E. Harding, of Fort Worth Association, after which delegates from the president's address which R. W. Haynie of Dallas, opened the session, and at all times, there was ample opportunity for social enjoyment. Beginning with the Glory Breakfast for the Texas and her princesses of the Woman's Club, the Tuesday night at the Lake Union, social events of interest were scheduled until Wednesday.

The most spectacular feature of the West Texas night when more than 2000 people took part in a beautiful banquet at the huge stadium of Texas Christian University.

Telephone Club entertained 300 from 3 to 5 at the Club, with tea danzants. A formal daytime affair was given at the Lake Union Tuesday, and the members of the executive board of the Texas Chamber of Commerce.

25 hands played on an arena for a Mardi Gras and

"Gateway to the West" comes as naturally as breathing, completely outside all traditions and standards of old and new. The city is a spirit of cordiality and a feeling of every word and a sense from promoting cordial relations, and the members of the committee have delegates and much more than the usual achievements.

Important activity of the city this year was the fight to secure the water rights of West Texas and the permits to the Republic Power Company on the Colorado River. An settlement was made.

Interesting feature of the year was the keen competition of "conventions" of Music Teachers Association. Music Teachers Association have been held in this city, and have had very extensive scope of the present meet-

Miss Houston Entertains

HUGE HAILSTONES CRUSHED ANIMALS

Reports of damage done by the hail storm in Crosby county Friday night were related yesterday by G. Sherrod, 204 15th street, who had just returned from the hail-stricken area.

Mr. Sherrod stated that about 30,000 acre of soft cotton were completely wiped away by the enormous hail stones. He indicated that the feed crops were not damaged so much and winter probably compose the only crop of that section. The hail covered the area from near Falls to below the caprock.

If told of one farmer who lost forty head of hogs as a result of the hail and reports gathered indicated that hundreds of chickens were killed. The hail below the caprock, Mr. Sherrod said, a farmer whose name was not known, attempted to drive a team, wagon and driver were washed over the bridge. The team and wagon were not seen again but the farmer managed to swim safely to the bank of the swelled stream—Lubbock Avalanche.

History Of Home Demonstration Club Is Reviewed; Was Organized Near Twenty Years Ago

The Home Demonstration Club met Wednesday afternoon with Mrs. W. W. Hancock. A good representation of members and several guests were much interested in the instructive program of work. A brief review of what Extension work in general has done and has meant to farmers was the subject of the day.

The State H. D. Club is composed of 837 H. D. Clubs. Triannual meetings are held each year during the Farmers Short Course. This year Mrs. N. F. Singleton will represent the O'Donnell Club in this meeting.

One of the objects of this State Association is to send some worthy club girl to college each year. She last year was won by Eloise Wilke of Lubbock County, Texas. Texas has 15,955 H. D. Club women engaged in community activities, and each club is doing some constructive or beautifying work for its community.

15,955 women actively engaged in improving homes and communities! Is not that an inspiring thought?

Extension work is a cooperative plan by which the farm or home agent suggests some things which he or

she and the people concerned think are best to do. Then the people themselves do those things and report the results. These reports become the source of invaluable information in this way.

1. These reports may be used in that same community or county to help others with similar problems.

2. They are filed in the county, at the State College of Agriculture, and in the United States Department of Agriculture a Washington, D. C., and go to make up a great body of agricultural information that may be used in many ways.

3. Some women and all men are inclined to look at things from a dollars and cents view point. To carry on Extension work in any county it is necessary for congress of the United States, the state legislature and the commissioners court of that particular county to vote money for that purpose. Each of these bodies are made up of groups of men, and before they vote any money out they must have absolute proof that the money is going for a good cause.

Therefore, Extension work has two (Continued on Last Page)

County Clubs Launch Campaign For Parks

Movement Under Way To Provide More Recreational Diversions

From this time on, people of Lynn County will read, hear and see much propaganda for parks in each town of the county. The Federation of Clubs of Lynn County have as their slogan for the coming year, "A Park in every town in the County," and according to word received from the president, Mrs. Harvey Everett, active organization with beginning. Committees in each town have been quiet busy investigating, probing the public attitude, estimating cost of sites and equipment, and now they are ready to begin.

The benefits of a park can hardly be overestimated, in that it respects than one. Children in town have very few opportunities for active outdoor exercise and recreation, since the average city lot is well filled with buildings, trees, shrubs, flowers and lawns. It is lacking in these it is arid and barren of attractions, to be beautiful and fun loving youth. It is human nature to be gregarious, we must have contact with our fellows. Boys and girls deprived of means of relaxation at home will seek it elsewhere, going down on the streets. A municipal park suitably equipped and

superintended is the ideal place for boys and girls from childhood through the teen age. If the people who spend so much time talking and worrying about young people of today going to the dogs would spend just half that time and energy in providing means to keep them from such a destination, the gap between old and young would be bridged. If the better class of people refuse to spend a little time and energy and money for the welfare of their children, they have no right to rave and rant when these children turn out other sources of pleasure.

Even older people will find these parks a source of pride and pleasure. A community with a common meeting place, where demonstration, age or sex makes no difference, is a community which is enterprising, progressive, and a pride to the surrounding country.

Aside from the aesthetic side of the question as well as people moral park is of financial help to a town. A clean, prosperous appearing town attracts inhabitants and business establishments of a like character. A grimy, dusty, arid town attracts the

fly-by-night element in business, in morals and spiritual ideals. As a farm increases in value by being improved so does the rating of a town go higher with each step toward self-improvement. A well cared for carefully arranged municipal park, would add twenty per cent to the value of property in O'Donnell within a space of five years. This estimate was made by a level headed business man, and is not the idle pratter of a group of club-wad women.

But we do not need to wait five years for material gain. A municipal park will attract trade to our city. O'Donnell is the shopping center of a vast agricultural region whose people make a family holiday of the weekly or semi-monthly trip to town. All of you have seen mothers with tired children wandering around with no place to rest, have seen friends standing on the streets for a chat and each reader has thought to himself that there should be some resting place provided. What could be more convenient and more pleasant than a shady park with play ground equipment for children? Do

you think it would attract people to our town? And where people gather there do they spend money?

Furthermore, personal improvement is a duty each individual owes society. How much more is it the duty of a town to make itself attractive. "As a man thinketh in his heart, so is he," his appearance and manners are but the reflection of his inner life: A town with pride in itself, a town with dignity and gracefulness, a town with ideals of beauty and peace is a town whose public appearance is a mirror of the appearance and ideals of her people.

If you want—

1. Rosy cheeked children.
2. A town without boys and girls on the street.
3. A town whose people are mentioned with respect.
4. A town whose boys and girls are happy and contented.
5. A prosperous town where it is a pleasure to live and to visit.
6. A town whose rating is high.
7. A beautiful town.

THEN BLESS THE PARK!

Religious Faith No

Secret in Jerusalem

In Jerusalem, the little city of great things, religious observances play a part in daily life unknown in other capitals. Since it is the center of three great faiths, all their subdivisions, can it be wondered at if each faith and branch thereof jealously guards rights and rites acquired throughout centuries, often through famine, siege and untold hardship?

In a modern city, one meets people daily for years without knowing their religious beliefs. This is impossible in Jerusalem. Be he occidental or oriental, every Jew's religion is known to all and also the fidelity with which he carries out the obligations imposed by his faith.

The religious festivals bring their own pageantry to the city. There are Moslems with their adherents from northern Africa, India, Afghanistan, Bokhara, Arabia, and the Sudan; Christians of all denominations; Latins, including many of the religious orders and the Uniate churches which acknowledge the supremacy of the pope; the eastern churches, which comprise the Orthodox, the Armenian, and Syriac, Copts, and Abyssinians; the Anglican church; the Jews, divided into Ashkenazim, Sephardim, Karaites, Yemenites, Georgians, and Bokharans. — National Geographic Magazine.

Cartoon in Japan Not Inspired by Politics

In Japan, apparently, the cartoon did not have the democratic beginnings of its occidental counterpart. Here in America the cartoon was originally used in magazines and newspapers as a political weapon, but the Japanese cartoon was more than eight hundred years old before the first issue of the Yohohama Mainichi Shinbun, first of the Japanese dailies, appeared in 1871.

The first Nipponese cartoonist was a lordly person, a Buddhist monk, Kakuyu, abbot of Tohoku, who was born in 1053 A. D. He employed most of his eighty-seven years laughing at the follies and vanities of the decadent Kyoto court and at pretentious low-brows everywhere. His influence over that branch of Japanese art was as great as that of Shakespeare on the English drama. In fact, for centuries the only Japanese name for the cartoon was "Tobaku"—"Toba Pictures." No cartoons appeared in Japanese newspapers until a few years ago, but now they have become so popular that in all the large cities they are printed as daily features.

Apple Tree's Monument

Because it is the parent tree of a variety and, although thirty-five years old, is still producing fruit, an apple tree at Peru, Iowa, has been honored by a monument. Last year the tree yielded more than five barrels of round apples, says Popular Mechanics Magazine. Tree surgeons are credited with keeping it alive. Periodically the decayed wood of its trunk is removed and concrete filling applied, while most of the lower part has been rebuilt with steel members. The branches are kept pruned so that the roots will not become exhausted in supplying nourishment to useless twigs and leaves. A pioneer orchardist is said to have set out a tree of Belleflower variety in his garden in 1864.

Breed Songsters

A recent visitor to the canary breeding region of Germany reports show-makers and sellers as the largest breeders of the feathered songsters. Despite the rising demand for canaries and the increased breeding activity in Germany as a result of the war, the bird cages in America for decorative effects, those traders have maintained their leadership over farmers, peasants, housewives and other imitators, all of whose love for canaries is a salient, German characteristic and carries over on their work in their homes and are able to be with their birds all hours of the day.

Rye Long Used as Food

The activity of rye appears to have been in the region between the Rhine and the Danube, the culture has been chiefly in the north, and, though ancient, is not of the highest antiquity. It took some time to get into other parts of Europe, and it was not until the middle of the sixteenth century that it was introduced into the British Isles. It is now extensively grown in central and southern Europe, where it forms the staple article of subsistence for the population. It is also cultivated there, though in less extent than in the north.

Turkey as Turkeys

The geographic name for Turkey is the name of the peninsula, which is the name of the country, and the name of the people. The name of the country is the name of the peninsula, and the name of the people is the name of the country. The name of the country is the name of the peninsula, and the name of the people is the name of the country.

NEW GUIDE FOR MOTORISTS IS ISSUED BY MOTOR ASS'N

Motorists who plan to take a vacation tour, this summer, will be interested to know that The Automobile Club of America has just published the fourteenth edition of its annual road book, the 1928 Associated Tours Guide, which is now ready for distribution. The Guide in its one hundred and twenty-eight pages, contains a wealth of useful information for exactly planning where to go on your vacation trip and how to get there. The Motor maps, mileages and itineraries shown in the Guide, covering the vast area of the United States east of the Mississippi and eastern Canada, as well as the more popular trans continental and trans-Canadian routes, afford the motor vacationist a wide range of touring facilities from which to select.

In all, the Guide gives over one hundred and twenty-five thousand miles of the best, hard surfaced highways in the country, especially chosen for their charm of scenic outlook, leading to seaside, mountain and inland resorts of rest and recreation. For motorists who plan to drive to any of the big conventions which will be held this summer, the complete motor map for the United States and corresponding itineraries given in the Guide, will furnish adequate information for the entire trip. A large folding map of the entire eastern section of the country, bound in the Guide, is handy for planning a large scale tour.

A feature of the Guide that motorists are apt to appreciate is that the itineraries are so arranged as to allow for a logical stopping place at the end of each day's run, where accommodations for the night in a good hotel or inn may be found. Both the National and State Highway numbering systems are shown on the maps and in the routes. There is also given a digest of all the state motor laws, speed restrictions, license regulations, ferry schedules, as well as numerous maps showing how to enter, leave or avoid them. Among the tours with large maps in the Guide are: A diorondack, Canadian-Pacific, Cape Cod, Capital, Dixie, Granite State, Maine, Midwest, Great Lakes to Gulf, Green Mountain, Lake Land, Ideal Long Island, Montreal-Quebec, New Jersey, Post Road to Boston, Real Tour to the Berkshires, Scenic, Shenandoah, and Transcontinental.

For the convenience of motorists, the Guide will be distributed through local newsdealers in all parts of the country or may be obtained by remitting fifty cents, to cover cost and postage, to The Automobile Club of America, 12 East 53rd Street, New York City.

The same thing happened to the old chuck wagon in this country that has happened nearly everywhere else when something else comes along to take its place. It used to be a common thing to see the big chuck wagon with four or six wheels hitched to it, rolling across the ranges, but it is an unusual sight now, and it has become one of the relics and rare things of the west, now especially where some newspaper man of the western

part of the state has enjoyed a meal at the ranch chuck wagon, while at one time we since have known West Texas it was nothing but common to hear a man say that he enjoyed a meal at home a few days ago. This just goes to show that this country has undergone a wonderful change, whether it be evolution or what not. This country is no longer strictly a

cattle range. Neither is it strictly a cotton country, though it is running considerably in that direction. We now have the rich dairy products increasing every year and the poultry industry that is rapidly coming into its own. This is a wonderful diversified farming section and this means that it is to be a wealthy section of Texas, and it is not going to be any 50 years about it.—Lubbock Avalanche.

Don't be Penny-wise and Oil-foolish

Don't get the idea that you are saving money when you pay a few cents less for a quart of unbranded oil than you must pay for Conoco Amalie. This 100% Pennsylvania Oil has set a quality standard. It has the unqualified approval of the experts who have designed and perfected motors for 207 automotive vehicles. The answer is that Conoco Amalie keeps money in your pocket by doing a thorough lubricating job under practically all operating conditions. It saves its slight extra cost many times over. You can get it at the Conoco sign.

Producers, Refiners and Marketers of high-grade petroleum products in Arkansas, Colorado, Idaho, Kansas, Missouri, Montana, Nebraska, New Mexico, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington, and Wyoming

Why You Should Vote For Congressman MARVIN JONES For Re-election

Congressman Jones is a native West Texan and knows the needs of the people of West Texas. He is a very active, hard working member of Congress and has had a part in the passage of a great deal of important legislation for West Texas during his term of office. He is a ranking member of the Agriculture Committee which handles legislation most vital affecting the section. He actively supported the establishment of the Texas State University at Amarillo, the construction of the Texas State Highway System, and the construction of the Texas State Penitentiary at Jester. He is a ranking member of the Interstate Commerce Committee and has had a part in the passage of many important laws affecting the commerce of the West.

Principles Of OPERATION
We believe that a bank should not only be a depository of funds, but indeed a place where the rich and poor alike can confide their financial troubles, fears and doubts to the attentive ear of their mutual friend, counsellor the BANKER. The bank, the foundation of all saving, should be solid as the granite, standing the acid test of the pursuing a conservative but friendly course. This bank like the great Oak from a life of acorn, of persistent effort and sound business principles has grown. It stands today like the Oak, its many services and ample resources like the limbs, cast their shadow of protection over those who seek its shelter. Mecca which invites the confidence and patronage of the public.

doesn't make any material difference to him whether the ticks are killed. He's lost a few cows, but they were not worth very much, so why worry? He has other things to bother him. Within a few days there is a heavy rainfall. Small streams leave their banks and sweep down the pasture of the tick-infested farm. The parasites are swept down with the current on the tick-free farm. This is DEATH riding on a wave of flood. Healthy stock, tick-free cattle, are menaced. The money you spent to stamp out the deadly blood sucker was wasted.

It is fair to the man who has paid the price? It is not, it is an outrage—and should not be counted against the good citizens of any county. It is an injustice imposed upon innocent victims. But what can they do? Yes, what can they do? Nothing! Their hands are tied. They can't do any more than the dumb creatures which are covered with ticks.

If ticks from an adjoining farm find their way to your farm will your neighbor pay you for the cattle that die? Maybe he will and maybe he won't. It is almost certain he won't. He's different about the whole thing.

It is a shame and a disgrace that cattle must die in order that ticks might live.

A prominent dairyman informs the writer that he lost \$400 worth of cattle last year, after he had spent considerable money to eradicate ticks. The blood suckers which caused the death of his stock was brought on to his farm by high waters. Thus, his work was undone and consequently he was a heavy loser. He estimated that the damage caused by ticks in Gregg County last year would easily aggregate \$10,000.

Unless tick eradication is reinstated in Gregg County, what cattle we have here, and what might be imported, will be impounded to die without a chance. They will have to remain in this state, for they can not be shipped elsewhere if they are tick infested.

The voices of everyone interested in the whole thing are being heard. "DOWN WITH THE TICK!"—Longview News.

LITTLEFIELD ROCK OF HIGH QUALITY

That Littlefield's greatest asset yet remains entirely undeveloped is still known by a comparatively few people of this great little city. The latent business project in the form of a great rock quarry inviting capital and labor for development which will mean far greater conveniences, efficiency and financial saving to the entire Panhandle country. This undeveloped rock quarry which is located approximately nine miles southwest of Littlefield, near Bull Lake has a face of solid hard rock averaging from 20 to 40 feet deep and nearly a mile in length, which is pronounced to be among the very best rock to be found throughout the entire state of Texas.

One favorable feature of the location is its admirably position for development, since the ledge lies high along the canyon rim, where the rock may be blasted and rolled down the cliff by gravity to the crushers, and thence carried on by the same process for loading purposes. A right-of-way for spur railroad track leading to the quarry out of the Littlefield has already been obtained for most of the distance.

This property, which belongs to the Yellow House Land Company, is located on three labors of land which have been set aside for quarry purposes.

This gives abundant room for locating of crushers, track, yardage, houses for officials, and laborers, etc. During the past two years numerous contractors and engineers have visited the quarry, and, with a single exception, pronounced it to be best rock they have ever seen in the state and the further fact that there is nothing like it in the entire Panhandle section, makes it of peculiar value to this part of the state. Rock from this quarry is to be used in the paving of main street, contract for use having been let last week. Tests of the rock have been made by chemists at the state university of Texas and by chemists in Kansas City, Mo., by the Yellow House Land company, and the Santa Fe system, respectively, both confirming the high quality of the rock obtainable.—Littlefield Leader.

FELL FROM HIS WINDMILL

W. E. Hughes of near the Longview community was seriously injured Thursday of last week when he fell 24 feet to the ground from a windmill tower on which he was working. Mr. Hughes became overbalanced when a piece of piping which he was pulling from the well unexpectedly came loose, striking him on the head. He landed on his feet, the force of the fall shattering the bones in his right foot. Both shoes were burst by the fall. Mr. Hughes was immediately rushed to the Lubbock sanitarium. His condition is reported as good as could be expected under the circumstances. It is said that it may be necessary to remove the crushed foot.—Muleshoe Journal.

COMBINE WHEAT HIGH IN QUALITY

The harvester-checker, like most other useful farm machines, has received its share of unjustified opposition. One of several unfounded arguments against the combine was that the quality of grain would not be so good when harvested from the standing straw as when shocked and threshed in the ordinary manner. On the face this argument did not appear

sound, for practically all grains or seeds of any kind are larger and of better quality when they have fully ripened on the parent plant than when removed prematurely and dried. Official tests carried on by the Canadian Department of Agriculture for several years past have proved conclusively that wheat harvested with the combine is fully equal, if not superior, in milling and baking qualities to wheat handled by former methods. Pamphlet No. 83, "The Series, issued by the Canadian Department of Agriculture, Ottawa, contains the following statement: "Baking and milling tests of combine-harvested wheat were made in comparison with binder-harvested wheat from the same field by the Dominion Grain Research Laboratory in Winnipeg. In only one year was the loaf baked from binder wheat superior in texture and volume to that of combine wheat. In 1924 the combine wheat produced a decidedly better loaf. In all other cases there was practically no difference either in milling or in baking qualities."—Western Farm Life.

People who go through life clinging to the false idea that what they do matters not a bit to others, that what others do matters not to them, are due for a very rude awakening sooner or later. Life is a complex, with all of its frills and furbelows, that practically every act of each individual reacts either for good or for evil in the life of some other person. The man who drinks intoxicating liquor, which he obtains contrary to law, may think that he is deceiving everyone, but he deceives few, and at the same time his disregard for law set an example that doubtless leads others to follow in his footsteps. So-called respectable citizens may be the pattern for the lives of less influential citizens, who commit petty offenses because they see those who are supposed to have good judgment, having a part in small infractions of the law.

THE INFLUENCE OF EXAMPLE

Regardless of your station in society, you may rest assured that anything that is not right, which you may do, will have a detrimental effect somewhere along the line. Boys and young men and girls and young women, who are harshly criticized on some action that is regarded as improper did not invent all the misdeeds in which they indulge. They first had examples set by those who were older and should have known better. The next time something not entirely within the law or the bounds of propriety occurs to you, would it not be just as well to consider the effect it might have on others? No one can afford to be selfish, especially when the lives of others are concerned. Live and let live. Yes, but live right and let other live right.

NO. STUDENTS INCREASE 86

Scholastic Census Shows 3,568 Children in Lynn County of School Age.

(Lynn County News) According to returns made to County Superintendent H. P. Caveness by census takers, there are 3,568 scholastics in Lynn county this year. This is an increase of 86 over last year, the census last year showing a total of 3,482. While there is an increase for the entire county, there are a number of districts that show slight decreases. Tahoka [year among the number. These decreases in some cases are inexplicable, for there has been no apparent decrease in the population. In Tahoka, for instance, a number of new residences have been built the past year and the population has increased decidedly, yet the scholastic census shows a decrease of twelve pupils. In some other districts, where there has been little or no building, the census shows a material increase.

Below we give the number of scholastics this year and last year for the districts of the county respectively:

Table with 2 columns: District Name and Student Count. Total: 3,569 (this year) 3,482 (last year)

It was at a lecture about modern women, by one of them. "Do you know," said the speaker, impressively, "that our present style of short, common sens dress has reduced accidents on street cars, trains and busses by at least 50 per cent?" She paused to let this sink in, when a male voice from the rear inquired, "But why not do away with accidents altogether?" Thornton—What is a skunk? Collins—A house cat with halitosis four out of five have it.

MRS. J. P. BOWLIN IS ELECTED ZONE LEADER

Mrs. J. P. Bowlin was unanimously elected zone leader of her zone of the Methodist Women's Missionary Society at a formal business meeting Monday afternoon. She takes the place formerly filled by Mrs. W. K. Crawley of Lamesa, who resigned to become district secretary of Lubbock district. Mrs. Bowlin will assume her responsibilities at once, and will first appear in her official capacity for the first time at the zone meeting which will be held here in July.

GONZALES—Something of unusual interest, a baby bathing beauty revue, will be staged here on June 28th. Nine entrants have been made up to date.

The sale of malt and bottle caps fell off alarmingly after the jubilation in a Texas daily that fifty persons had been poisoned on home brew at a wedding in Galicia.

The annual reunion of Confederate veterans of Knox and adjoining counties will be held in Munday. The Munday Chamber of Commerce is sponsoring the affair and plans are being made for an elaborate program each day.

Madrid has a hospital and dispensary for animal pets that is affording a rushing business. It is by the city and service is free.

Buffalo—Purchase of a sanitarium at Sankrat in the Egyptian sultan, was authorized at the annual convention of the Women's General Missionary Society of the United Presbyterian Church of North America on June 16.

LOCAL BOY PAINFULLY INJURED IN WRECK

Vernon Whitehead of this place suffered a broken nose and various minor bruises Sunday night when the Ford touring car in which he was riding collided with a Dodge truck parked by the roadside a few miles this side of Lamesa. Pete Vail, who was driving the Ford escaped with severe bruises though both were thrown from the car. The boys returned to the roadside with all speed to secure medical attention. The doctor said they'd live over it all right, but Vernon might not look like much.

Comanche—Local merchants are cooperating in support of the Comanche Jolly party by selling home products on a special day.

Classified Advertisements. You will find plenty of oil and shoe polish at Shoe Shop. Fresh Plains growing plants for sale at our store. NOTICE! BIG SALE! On Pianos, new and used. PERSONAL MENTION

"The modern girl," snarls a critic, "shows no sense of propriety." Well, let's give 'em credit for not showing something.

Don't know who said but a long time ago some fellows said the last four letters in American spell I-C-A-N.

Mr. and Mrs. Lawrence West of Lamesa were guests of Mr. and Mrs. Paul Goch Sunday.

An article in a newspaper tells of a coin 104 years old being lost. Some poor Scotchman got careless, no doubt.

There are two kinds of people in this world who like flattery. They are men and women.

Mr. and Mrs. B. E. Jordan of Santa Anna are visiting friends and relatives here this week.

J. J. Hodnett and family returned Saturday from a two weeks visit in Clifton, Fort Worth and Mineral Wells. Miss Florence Carpenter accompanied them, but remained in Mineral Wells for a longer visit.

Mr. and Mrs. Ferris Heathington visited Mrs. Heathington's sister, Mrs. Robert Stokes of Rogers New Mexico last week end.

Masters James, Billy and Charles Cathey, sons of Mr. and Mrs. Sid Cathey, are visiting their aunt, Mrs. V. O. Morgan at Memphis. They will probably be away two weeks.

Miss Beatrice Gardenhire, who has been visiting her sister, Mrs. Robert Stokes of Rogers, N. M., accompanied Mr. and Mrs. Ferris Heathington on their return from that place.

Mr. and Mrs. L. F. McGee went to Abilene Sunday where they took their daughter, Miss Gladys, who will enter high school during the summer months, but will return for the opening of the fall term here.

Mrs. F. T. Wells, and daughters, Jim Ellen and Beverly motored to Tatum, N. M. to visit Mrs. Wells' father, J. B. Barleson. They left early Tuesday morning.

Master Bob Cowden returned Monday from a two weeks visit on the Cowden ranch near Midland. When asked if he had a good time, Bob answered, "I'll say so," but time did not permit many details.

Mrs. Guy Bradley, Mrs. E. T. Wells, and Miss Beverly Wells, were in Tarkenton Saturday shopping. Mrs. Wells also attended to business for the Home Demonstration Club.

Miss Louise Magee, who has been secretary to the faculty at Texas Technological College, Lubbock, for the past two years, recently resigned her position to be married to Mr. M. M. Barnard.

Mr. and Mrs. Coll Hart and family of Odessa visited homefolks and friends over the week end. Miss Ina D. Everett came with them.

Mr. L. D. Tucker of Roswell, New Mexico, and daughter, Marie, were visitors to O'Donnell Sunday. Mr. Tucker returned Monday, and Marie remained until later in the week.

Mr. and Mrs. W. A. Hale and children, Valora, Wilda Ruth and Billy Ray, of Abilene, accompanied by W. K. Hale of Hamlin, and Jack Veazy of Rotan, visited in the home of Mr. and Mrs. W. H. Veazey over the week end.

Miss Sue Gates left Friday for Lubbock to be with her sister, Miss Hester, for a few days. We are glad to report that Miss Hester is on the road to recovery from her recent operation.

Mr. and Mrs. Guy McGill returned last Thursday from Clovis, N. M., where they have been visiting. Mr. McGill's parents.

Mr. and Mrs. Luck and little daughter of Levelland were in O'Donnell Tuesday in the home of Mr. and Mrs. M. Haymes. They were accompanied by Mrs. Luck's sister, Miss Cleo Burton of Lamesa. Mr. Luck is construction engineer in charge of the city tower and was here on that business.

Mrs. Harvey Everett, who with her daughters, D. D. and little Harvey Ann, is visiting Mr. Everett at Wink, sends back glowing reports of her vacation. Mrs. Everett is one of those rare creatures who finds good in everything, so it's small wonder she finds happiness in a vacation like this.

After receiving a telephone message that her daughter, Miss Hester, was slightly worse Wednesday, Mrs. J. W. Gates went immediately to Lubbock to be with her. It was hoped by friends that Hester was safely past the danger point until this complication arose. However, it is thought that it will not prove to be alarming. Miss Hester's recovery is a matter of great importance to scores of friends for probably no other person in O'Donnell has quite the place she occupies in the hearts of all who know her. Amiable, cultivated, intelligent, sincere, a loyal friend, loving daughter and sister, she is beloved by young and old alike. Surely an all-wise Providence has brought her through this illness for some great purpose.

Mrs. J. W. Gates returned from Lubbock Friday where she has been for several days.

Mrs. W. K. Crawley of Lamesa was in O'Donnell Monday afternoon.

Mrs. A. A. House is in Austin doing some special work at Texas University.

Miss Alice Joy Bowlin accompanied Miss Norma Hart to Odessa, where she will visit for several days.

Mrs. J. W. Roberts and little daughter, Marilyn, are visiting Mrs. Roberts' parents, at Haskell.

What's Doing In West Texas By W. T. C. C.

Benjamin—Considerable terracing has been done in this territory for the season.

Pecos—Work on the new Graham Hotel is expected to be completed early in July.

Eden—Plans are underway for the 1928 Concho county Fair to be held October 4 & 5.

Loraine—Loraine has voted to install a modern sewerage system, approping bonds to the amount of \$42,000 for this purpose.

Mullin—A new section house, is here completed here for the Santa Fe.

Coleman—The City of Coleman has employed a supervisor of public utilities.

De Leon—The De Leon gas overhaul is scheduled for a complete system, according to Manager Melver.

Quitaque—A modern sewerage system is cost approximately \$40,000 will be in operation here before January, 1929.

TODAY'S THOUGHT

The hour of my departure has arrived, and we go our ways—I to die and you to live. Which is better, God only knows.—Socrates.

Wouldn't it be fine if the buttons on the things we buy were fastened on as firmly as the price tag?

CHURCH NOTES

The International Sunday School lesson for June 24 has the subject "Jesus, A World Savior." Lesson material will be found in Luke 24:44-49.

All visitors and strangers within our gates are invited to attend any of the churches. You will find a cordial welcome wherever you may choose to go.

TWELVE ATTRACTIONS AT MIDLAND ON FOURTH OF JULY

Twelve big free attractions will be offered by the Midland Chamber of Commerce July 4th, to all West Texans who visit the city. They are street parade, fireworks display, band concert, street dance, trapshoot, bathing beauty parade, stunt airplane flying, baseball between the Lions and Rotarians, battle royal, motion picture shows, flying of twelve kites, public speaking, polo games, and a negro base ball game.

Midland evidently believes that "who profits most serves best," for the city certainly gives service. An enterprising town seeks to attract visitors.

MRS. CATHEY HOSTESS TO BRIDGE CLUB

In her usual charming manner Mrs. Sid Cathey entertained the members of her bridge club and a few guests last Tuesday evening from four to six o'clock. Tables were placed for bridge, and with the electric motoring the heated air, several spirited hands were played. A beautiful refreshment plate of brick ice cream, angel food cake, and iced punch, the cake proudly carrying the holiday signal, was passed to the following: Mesdames H. E. Gillespie, Guy Bradley, M. J. Whitsett, W. H. Crunk, J. W. Campbell, Misses Willie Scholer, Alta Rogers, Thelma Palmer. At the average of scores Mrs. H. E. Gillespie held high score.

The Philadelphia judge mentioned in the Star-Telegram, who sentenced a husband to take his wife out to dinner really didn't know what a punishment he was ordering. We understand this was the excuse brought up by a few friends when the S. P. C. A. was on his trail. Concerning this same judge, w'd like to know who would have been responsible for brooding over the home of the suffering wife had thrown dishes at her husband during the course of the punishment luncheon?

At a business meeting of the W. M. U. Monday afternoon, committees were appointed and plans perfected for the banquet to be served to the Scout Training School Tuesday evening.

Services at the First Baptist Church promise to be even more interesting than usual next Sunday. Sunday school services will be as usual. The preaching will begin promptly at eleven o'clock, with Rev. W. K. Horn in the pulpit. His subject will be "The Discouraged Christian," his text being taken from nineteenth chapter of 1 Kings, latter part of the thirteenth verse.

A male quartet will add interest to the services. Everyone cordially invited to attend.

Epworth League members enjoyed a most interesting meeting Sunday evening at 7:30. The subject was one dealing with character building. Miss Aline Lines was leader, taking her scripture from Luke 10:30, a part of the Parable of the Good Samaritan. Misses Mayr Joe Gates and Juanita Millsap made short but earnest talks on "Formation of Character Through Friendship," and "Molding Character by Reading Material."

The young people of all the churches are cordially invited to be part of this organization. Every Sunday evening at 7:30 at the Methodist Church.

Miss Loretta Raney of Lamesa, spent the day Wednesday in O'Donnell with her cousin, Mr. John Silman, Jr.

CHURCH NOTES

PRESBYTERIAN AUXILIARY

Monday, June 12, the Auxiliary met in the home of Mrs. J. F. Campbell. Devotional by Mrs. Koening.

Prayer. The Basis of the Adventure—Mrs. J. F. Campbell. Missionary Outlook of the Old Testament—Mrs. J. F. Campbell.

Jonah as a Missionary Treatise—Miss Laynette Smith. Influences Opposed to Universalism—Miss Jessie Gary.

The next meeting will be with Mrs. Davis June 24.

In the absence of the pastor there will be a service conducted by the laymen of the Methodist Church next Sunday at eleven o'clock. Everyone is cordially invited to attend.

At the regular meeting last Monday afternoon, members of the Woman's Missionary Society voted to have a silver tea each social day. Mrs. Ben Moore and Mrs. J. P. Bowlin will initiate the organization to this custom next Monday afternoon when they entertain at Mrs. Bowlin's home from 4 to 6. Every lady in the Methodist Church is urged to put in her appearance, also put in her silver.

Members were very glad to have Mrs. W. K. Crawley of Lamesa at this meeting. Mrs. Crawley recently resigned as Zone Leader of the District Secretary. Mrs. Crawley came up for the purpose of finding a zone leader in the O'Donnell society.

Mrs. J. P. Bowlin was unanimously elected. Preceding this Mrs. Crawley was on the program. "His Eye Is on the Sparrow," accompanied by the piano by Mrs. H. E. Gillespie. The purely local business meeting followed, committees reporting on the dinners served the Scoutmasters Training School, buying dishes and flowers, etc.

Mrs. J. W. Gates, in a touching little talk, expressed her thanks for the flowers sent her daughter, Hester, while in the sanitarium. It was decided to serve dinner down town on election day. The place will be announced later.

At a business meeting of the W. M. U. Monday afternoon, committees were appointed and plans perfected for the banquet to be served to the Scout Training School Tuesday evening.

Services at the First Baptist Church promise to be even more interesting than usual next Sunday. Sunday school services will be as usual. The preaching will begin promptly at eleven o'clock, with Rev. W. K. Horn in the pulpit. His subject will be "The Discouraged Christian," his text being taken from nineteenth chapter of 1 Kings, latter part of the thirteenth verse.

Ghost Ship Said to Roam the North Sea

The North sea has a flying Dutch man of the sea—a sort of ghost ship whose appearance is superstitiously regarded by sailors as an omen of ill fortune, if not of death, to the beholder. It was first reported by a British war convoy that left a Norwegian port in November, 1917. Lieutenant Commander Fox of the Mary Rose counted two ships as they passed out of sight of land. Later an enemy raider attacked the convoy when Commander Fox counted the convoy again there were thirteen.

Other officers on the Mary Rose confirmed the number. No one had seen the thirteen ship John the convoy. One moment there was blue sea sparkling in the sunset the next the stranger was speeding along with the rest—a somewhat rusty craft whose name had been so obliterated by long service at sea that it could not be made out.

Ink Blot Spelt Ruin for Engineering Firm

A big British engineering firm got in a bid for building a great bridge for a foreign government. The head of the business spent six months in getting out plans. His bid was accepted, the material bought in great quantities, men engaged, and machinery ordered. A time limit was set for the commencement and finish of the bridge, and one day the chief was sitting at his desk perfecting his plans and reading the most important details when he accidentally upset an inkpot and drowned his most important papers in a black sea.

The Ninth Scout Law

A Cornish correspondent sends me the following amusing experience which he was running a troop of boy scouts in India: "I was testing a small Eurasian boy, twelve years old, for the 'Tenderfoot' badge and said: 'What is the ninth scout law?' 'Sir, a scout is thriftee.' 'What does thriftee mean?' 'I know what it means, sir.' 'Well, then, what does it mean?' 'Well, sir (hesitating), it means that it is worse selfish to spend more money on a girl.' This is one way of looking at it, but I should like to hear the views of the girl. Not a girl exists, however. They are too independent.—London Post.

Catchy Line

Jones is an angler who uses only the higher and more expensive paraphernalia of his art. One day he was standing on the shore of a lake casting his flies without success, when along came a native with a good string of trout. After watching Jones' vain efforts for a few minutes the newcomer ventured: "Why don't you try worms?" "Worms!" said Jones disgustedly. "My good fellow, you and I don't use the same language." "Maybe not, mister," said the other quietly, as he held up his catch, "but I reckon the fish understand me better when I drop 'em a line."—Van-couver Province.

Prehistoric Medicine

Tubes of soft soapstone used by a prehistoric Indian shaman, or medicine man, to heal the sick have been unearthed near San Diego, Calif., says Science. First blowing clouds of smoke through these tubes over the body of a patient, the medicine man pretended he could see into the body. The patient was told he had been bewitched by an enemy who had injected into his body a magical substance which could be removed by a small rock or other object. Having located the object, the shaman pretended to pluck it out, producing as evidence, by sleight of hand, the offending substance.

Excusable Error

The story described its heroine as a dumpling sort of woman. The teacher nodded and asked for a description of a woman of that kind. "She would be rather tall and thin," suggested a pupil. "No," the teacher explained, "the lady would be short and plump—like a dumpling." "Oh, yes," said the youngster, "I was thinking of a noodle."

We're Poets at Heart

Though we may believe ourselves intensely practical, we think in terms of poetry. The efficiency expert and the statistician in us will, at unguarded moments, make way for the poet.—American Magazine.

Lilac Always Blossoms of Love and Lovers

The lilac is an oriental blossom coming originally by way of Turkey and Spain. It is supposed to be the flower of love and lovers, marking the heyday of spring. The love-lover of the "daybook" to give it an old-world name is varied pink, purple or blue. It is a mid-land plant which ancient practice believed that by the time the lilac died they would have the heart of the man they desired. It is many legends as composed the name of a lover were strung on triple threads of white silk, and worn in a little basket next to the heart, before next time came the lover would be won to this secret garden. If you have lilac in your garden no ghost can enter your house; if white lilac grows beside your door you will never be with our love and luck. If you have a spray of lilac without your lover's knowledge when walking with him, put one of its petals in his drink; if he swallows it, he is yours forever and a day. A "black lilac," usually found in the petal instead of four. If you are in love, look for a lilac, swallow it, and your loved one will be faithful for all time! Thus love and lilac are irrevocably related.

Beds of Clay Reveal the Passage of Time

Geologists can follow the tracks of the sun and tell the time, year by year, in geological ages—so ancient that even by millions of years they are hard to count. Not far from Stockholm there are some remarkable beds of clay, regularly arranged in regular bands of sand and clay. These turn out to be the layers deposited by the melting glaciers of the Ice age, each one laid down in the spring and summer when the sun was hottest. And as there was a freeze-up each winter and melting each summer, the layers become almost as accurate an index to the antiquity of the Ice age as the annual rings of a tree are to the age of the tree. Moreover, the same system of measuring geological time has now been extended over all Scandinavia, and parts of India and South America. Everywhere the layers appear to correspond so closely in the variations of their thickness, year by year, that there seems no doubt they were laid down in corresponding years.—Baron Gerardi de Geer.

Gas From Oil Wells

Vapor that rises from oil wells and which has hitherto gone to waste is now being bottled and sold as fuel. This vapor is obtained from wells that are in production or from wells that have been pumped out and burns with an odorless gas flame after it has gone through various processes. It is first refined and compressed until it becomes a low-pressure liquid that resists its expansion from being released from the steel bottles in which it is stored. These bottles are attached to heating appliances by pipes and tubes. When the valve of the jet is turned on the pressure of the gas forces it through an air mixer similar to that of any gas range.

Confucius Great Sage

The man whose memory has for 2,000 years aroused signal respect and honor in China was a sage, not a saint nor a founder of a religious faith. Confucius took the best of the various Chinese philosophers of his day and formed a cut of his own, using as a basis five cardinal virtues—righteousness, knowledge, sincerity, politeness and discrimination of good. The wisdom of the Chinese Solomon so delighted the people that temples were built in his honor, his wise sayings were widely quoted and came to be taught in the Chinese schools.

The Hobo Instinct

One of the instincts of a man which refuses to be eradicated is the wandering urge. It originated, undoubtedly, from necessity. The need for changing hunting grounds and camp sites was always present in prehistoric and early historic times. Later when people settled down, founded towns, and agricultural districts became established, the necessity for this urge ceased to some extent. The instinct of wishing to see new lands, however, has continued and undoubtedly that is one of the reasons for the present popularity of motor camping.—Field and Stream Magazine.

His Preference

A Scotch member of a golf course near London took a business friend for a day's golfing. After the morning round they lunched very sprightly on biscuits and cheese. "Man," cried the enthusiastic Scot as he gazed through an open window, "this is my favorite course. Isn't it yours?" "Er—not exactly," replied the starving guest. "I should have preferred a good steak and onions."—London Answers.

Finale

The lecturer was emphasizing the demoralizing effect of divorce. "Love," he said, "is a quest; a proposal, a request; the giving of a daughter's hand in marriage, a request, and marriage itself the conquest. But what is divorce?" "Vote!" from the audience—"The lo quest."

POISONOUS GAS IS CAUSE OF MANY DEATHS

Carbon Monoxide, the gas fumes thrown off from the exhaust of an automobile, kills hundreds of people each year, when they start their machines in closed garages, and forget to open the doors.

The question now arises, do such fumes pollute the air of our cities? The government is making a survey of the air conditions but nothing has been found that would tend to cause any alarm. The danger exists in small car garages, where the exhaust into a roofed enclosure should be regarded as a hazardous act.

Fourteen of the largest cities in the country were visited, having a combined population of 19,000,000 and 250 samples of air were obtained for carbon monoxide analysis. These samples were analyzed by the iodine pentoxide method, using a liquid air cooling tube which was found to be necessary in order to eliminate gasoline vapor, a substance which tends to vitiate the results of the analysis. The street samples were taken in such a manner as to approach the most congested conditions that may exist at a busy traffic intersection. Hence it is felt that these results indicate the maximum hazard that may exist today in the metropolitan thoroughfares from automobile exhaust gas.

The average of 141 tests made in city streets at peak hours of traffic showed a contamination of 0.8 part of carbon monoxide per 10,000 parts of air. Only 24 per cent of all the street samples had more than one part of carbon monoxide in 10,000 of air and in only one location, a covered passage way, were there as much as 2 parts per 10,000.

Samples taken inside of auto buses yielded even lower concentrations of carbon monoxide gas. The figures for street air, when viewed in the light of present day standards of exposure of carbon monoxide, do not reveal the existence of a health hazard from this source in our city streets. The only individual who may possibly be exposed to a health hazard from inhaling street air containing auto exhaust gas is the traffic officer. This potential hazard may be minimized by diminishing the duration of exposure at the most congested traffic stations.

O. H. SHEPPARD, M. D. General Practice and Electro-Therapeutics. Piles cured without detention from work or business. Office half block Southeast Index Building, O'Donnell, Texas.

RURAL SCHOOLS WILL IMPROVE

Many Schools Planning To Increase and Better Facilities By Opening This Fall

(Lynn County News) Many of the schools of the county are preparing to make improvements of one kind or another before the opening of school again next fall, according to County Superintendent H. P. Caviness.

New Lynn has voted bonds in the sum of \$24,000 with which to construct a modern and commodious rural building in the county.

An election will be held at Redwine on Saturday, June 23, to vote bonds in the sum of \$15,000 for building purposes.

T-Bar and New Mirra districts are likewise figuring on bond elections for the near future.

Edith, which has a two-room brick building, is preparing to add another room and another teacher.

Pride has filed a petition with the county board to be converted into an independent district, which will be acted upon Saturday. It plans the construction of an additional room. Joe Bailey will use two teachers next year instead of two as heretofore, and Betty will employ two teachers instead of one.

Movements for other improvements may develop before the new school year opens. The school in Lynn county is gradually increasing in extent.

"QUIT BLOWING BUBBLES AND START BUILDING HOMES"

We hope there isn't anybody so hard-boiled that he can pass up a bloomin' red rose without a salute.

For our part we like em so much that we make trellises to hold 'em up, while they are climbing around and making themselves happy and the lawn more beautiful.

Doesn't cost much to stick up a couple of trellises for your roses to ramble over. See us about it.

HIGGINBOTHAM-BARTLETT COMPANY "EVERYTHING TO BUILD ANYTHING" E. T. WELLS, Mgr. O'Donnell, Texas

A wonderful range! —yet it costs surprisingly little!

We have been selling ranges for a long time and we can honestly say that Estate Gas Ranges at the new low prices are the best values we have ever known!

The handsome new models have all the modern improvements you want in a range, and many fine features exclusive with Estate. The Fresh-Air Oven, built like a double boiler, and the ThermEstate Oven Heat Control assure perfect results—every time—without any shifting of pans. Enameled one-piece side linings, an oven bottom that lifts out for cleaning, completely concealed hinges, bolts and nuts, and a handy utensil drawer are just a few Estate features.

Come in and examine the Estate Gas Range—compare it with others in respect to construction, beauty—and price. Then select from a wide array of models the one that best suits your requirements.

WILY RATTLER PROVES EASY VICTIM OF TRICK; IS TERRORIZED BY DIRT

You have no doubt heard that one about the prairie dogs, rabbits, owls, and rattlesnakes all living in the same holes out on these wide prairies. The Kanton cow puncher says that the rattlesnakes steal their "homes from the prairie dogs, and that in retaliation it is the custom of the little dogs to fill up the hole while the snake is int. This has been done for so many years that the snake seems to have developed an instinct to protect himself from this treatment.

Many have been disappointed upon discovery of a big rattler and when a move was made to put him out of his misery to have him sneak down into a prairie dog hole and get away from you that way, just sprinkle a little dirt down the hole. Do this several times, but stand back for presently your snake will come out in a hurry. Then is your chance to get in the good work on him. The cow puncher claims that Mr. snake just can't stand to stay down there with particles of dirt trickling down on him. His instinct tell s him a prairie dog is filling the hole up on him, so he comes out every time, and comes out in a hurry. Now, you tell one.—Boise (Okla.) News.

South Plains District, Boy Scouts of America, Appoint Executive To Head Its Camping Committee

R. J. Murray, President of the South Plains Area Council of the Boy Scouts of America, announces the selection of W. G. McMillan, of Lubbock, to head the camping committee of the Boy Scouts of the South Plains.

"The camping program is the most important part of our Boy Scout work," Mr. Murray says. It is in the great out-of-doors that the boy comes in contact with nature and learns those great principles of life which are so essential to a happy nation. It is in the great out-of-doors that the boy builds himself—physically, mentally and morally. Because of the importance of this part of the program the Executive Committee has given considerable thought to the selection of a man to head the camping program. In Mr. McMillan we feel that we have secured the right man. Mr. McMillan is an outdoor man, having had great deal of experience in camping, hunting, and fishing. He took a very active part in the recent District Scout Leaders

Training School at Lubbock. The out door session of that training course was held on the Boy Scout camp at Post. Here Mr. McMillan became interested in the possibilities for development of this camp. Mr. McMillan is a graduate of A. & M. College and is in the contracting business, and camping should help us to develop His knowledge of construction work lops a real scout camp for the South Plains.

Mr. McMillan is now working on the development of plans for the Summer Training Camp for the scouts of the South Plains. He has announced the dates of July 30th to August 8th as those for the holding of the summer camp. It is expected that there will be such a large enrollment that an additional ten day period will be held following the first camp. Mr. McMillan plans to spend the near future looking over the couple of days at the Post Camp in equipment and completing plans for the summer camp.

Gustine—Power lines are being built into Gustine by the Texas Power Company which has purchased the local plant.

Poison bait is proving effective in killing coyotes on ranches in this section.

Clovis, N. M.—New telephone lines

are being between Clovis and Roswell.

Comanche—Local merchants are cooperating in support of the Comanche jelly plant by selling home products on a special day.

Big Spring—Daily publication has been started by the Big Spring Herald; T. E. Jordan, is editor.

All these closed cars have FISHER BODIES

THE mechanical performance of General Motors cars is tested and proved on General Motors' 1,245 acre Proving Ground. Before any new model is put in production, it must pass more than 135 different tests for power, speed, durability and general performance.

As to the appearance and comfort of General Motors cars, we invite you to be the judge. Every closed body is built by Fisher—the largest builder of automobile bodies in the world. The experience and the vast production of the Fisher Company mean more beauty, more comfort, and more luxury than you will find anywhere else at corresponding prices.

We invite you to check, on the coupon below, the cars that appeal to you most. Complete literature will be sent to you, without any obligation.

CHEVROLET—7 models, \$495 to \$715. Bigger and better than ever before. 4-wheel brakes. More powerful engine. Luxurious Fisher Bodies. New hood. New Duo color. Also truck chassis; 1/2-ton, \$395; 1-ton, \$495.

PONTIAC—7 models, \$745 to \$875. Lowest-priced quality "six." New models improved from radiator to tail-light. 4-wheel brakes. Bodies by Fisher. New GMR cylinder head. Increased power. Duo finish.

OLDSMOBILE—7 models, \$925 to \$1085. Fine quality car at moderate price. Redesigned and improved by General Motors. Longer, roomier, more powerful. Fisher Bodies. 4-wheel brakes.

OAKLAND—7 models, \$1045 to \$1375. The All-American "six." Smooth, powerful engine. Longer, lower and more beautiful bodies by Fisher. 4-wheel brakes. Every convenience. New Duo colors.

BUICK—16 models, \$1195 to \$1995. Largest value in Buick's history. Beautiful low bodies by Fisher. Getaway like an arrow. Vibrationless beyond belief. 6-cylinder "valve-in-head" engine. Duo finish.

LASALLE—16 models, \$2350 to \$2975. Beautiful car of Continental lines. Companion car to Cadillac. V-type, 90 degree 8-cylinder engine. Marvelous bodies by Fisher. Striking Duo combinations.

CADILLAC—26 models, \$3295 to \$5500. Standard of the world. Famous 90-degree V-type 8-cylinder engine. Sumptuous bodies by Fisher and Fleetwood. 500 color combinations to choose from.

FRIGIDAIRE Automatic Refrigerator DELCO-LIGHT Electric Plants

A Word From Mr. Edison

I WELL REMEMBER the afternoon of September 4, 1882 which marked the opening of the Pearl Street electric generating station, the first station in the world for the production and distribution of electric power.

The reporter from the EVENING SUN who came to interview me at the station was an alert and agreeable young man, with an average degree of skepticism. It was obvious that the little station with its "thirty balloon-shaped globes, ranged at intervals on either side of the room" and glowing "with incandescent horseshoes," seemed hardly more than an amusing toy to him. He could not conceive that it meant the end of the candle and oil lamp, the end of the horse and carriage, the end of one epoch in civilized life and the beginning of another.

Some of us saw farther than he did, but even our imaginations fell short of visualizing all the changes that began that night. Many minds, working together, produce progress that outruns the imagination of even the most courageous.

That was forty-five years ago.

I was a young man then. I am an old man now. I have lived to see the street car, the elevator, the electrified railroad, the automobile, the phonograph, the motion picture, the radio, the airplane, and the beginnings of television. It seems today to many, as it seemed to most men and women in 1882, no great forward steps remain to be taken which are comparable to those that have been taken.

It may be that the next forty years will not produce inventions of such revolutionary character. Progress has been so rapid that we may require a breathing spell in which to consolidate our gains and develop present inventions to their full capacity. But of one thing I am more positive than I was even forty years ago—the electrical development of America has only well begun.

So long as there remains a single task being done by men and women which electricity could do as well, so long will that development be incomplete. What this development will mean in comfort, in leisure, and in opportunity for the larger life of the spirit we have only begun to realize. Great days are ahead of this nation and the world. And electricity will have a great part to play, granted only that it can be unfettered, with full opportunity for the largest possible individual initiative and energy.

I look back with happiness to that eventful afternoon forty-five years ago. What will be happening in electricity forty-five years from this evening? I wish I might be here to see.

MR. AND MRS. CATHEY GUESTS AT PICNIC

Last Friday afternoon, Mr. and Mrs. Sid Cathey and sons, James, Billy and Charles were the guests of Rev. and Mrs. Irye L. Towson of Lamesa at a lovely picnic on the Weaver ranch. The party drove out late in the afternoon and spread a bountiful picnic lunch. Mrs. Cathey remarked that she always enjoyed picnics, still more when some one was kind enough to go to all the trouble. After full justice was done to the delicious food, the guests returned to their homes.

MRS. J. W. ROBERTS ENJOYS THURSDAY CLUB

Mrs. J. W. Roberts was the gracious hostess to members of the Thursday Club at the regular meeting day. The room looked fresh and cool with bouquets of cut flowers everywhere in evidence. Each member brought her needle work and several hours were passed in profitable and enjoyable work. The hostess served delicious cherry pie ala mode to mesdames R. O. Stark, J. P. Bowlin, Mack Gardner, H. E. Gillespie, C. H. Westmoreland, Koenigsmeyer, Waldo McClaurin, an E. L. Sorrells.

REUNION OF DOAK FAMILY HELD IN O'DONNELL

Last Sunday the home Mr. and Mrs. C. H. Doak was the scene of that happy occasion a family reunion with members coming from far and near. After all the grandchildren and nephews and nieces had been duly admired and exclaimed over, and the other ones had renewed memories, a lovely dinner, consisting of baked ham, dressing, fresh salad, stuffed peppers, potato salad, lettuce salad, cherry pie topped with whipped cream, ice cream and angel food cake and iced tea was served by the hostess.

No one needed to be told how the day passed. Exclamations of "Do you remember when—" "What ever became of—" "Where is—" accompanied by all the excitement and happiness that prevails at such a time kept the lovely home ringing with laughter till a late hour. Guests on this memorable occasion were: J. D. Doak and son, Bob; Mr. and Mrs. Jim Doak and children Ruth and Melba; W. E. Doak and son, Herman; Miss Valley Berry all of Snyder, Mr. and Mrs. T. F. Doak, and children Homer, Gerald, Mary, and Georgia; of Seagraves; Mr. and Mrs. Z. Sample and little grandson, Clovis; Garrett of McAllen; Mr. and Mrs. H. Berry of Booneville; Mrs. Joe E. table salad, hot rolls, iced tea, angel Nunn and nephews, Dickie and Royce food cake and ice cream. What did Teague of Lakin, Kansas, Mrs. L. A. they are a "what about it? Well, what Collier, of Friona, Mr. and Mrs. Ma- for Rogers, and little daughter, Doris of Levelland, Mr. and Mrs. Morris-guests, some of whom, however, were Neal of Loop, and Miss Autrey Pet- of Ralls.

Some people are kept so busy according to W. P. Davis, City Secretary, that they haven't time to attend to their own business.

HERMAN-GROSS

Cupid is still getting in his work.

The latest recruits to the matrimonial army are Mr. and Mrs. Scott Justice, who were quietly married by Justice of the Peace Metcalf at Tahoka last Sunday evening.

Mrs. Gross was before her marriage the lovely and accomplished daughter of Mr. and Mrs. W. H. Herman, who live just south of town. Those who have recently met Mrs. Gross say Scott was lucky, those who have known her longer say he was luckier.

Scott is well known to many friends here, being the son of Mrs. W. H. Guthrie. Both young people are liked and admired by a wide circle of friends, with whom the Index joins in wishing their long life and much happiness. They will make their home here, and Mrs. Guthrie says she is going to eat supper with them every Saturday night.

LOIS BURDETTE ENTERTAINS WITH SLUMBER PARTY

By way of celebrating her thirteenth birthday, Miss Lois Burdette was the gracious hostess to a small group of intimate friends at her lovely country home Wednesday night. There is no need to say what happened. What do they do at slumber parties? Sufficient to say that whispers, giggles, laughs, romps and huffed shrieks kept the law abiding farm in a state rather amused excitement until the wee 'n' hours of the morning. How the guests kept awake is another mystery. May be they ate too heavily of the lovely supper prepared for them. As how they had a wonderful Miller and Eula Belle Miles were full time. Miss Frances Scott, Martha the recipients of the hospitality. Kathryn Vessey was delayed at the last moment by sickness and could not attend, much to her disappointment.

W. M. U. SERVES BANQUET TO SCOUTS

All members of the Scoutmasters' Training School should be increasing in weight, for the church organizations are piling up on calories. Church ladies served a dinner worth of French chefs. The long table was placed in the upper hall of the high school building and was artistically decorated with vases of garden flowers. Of more interest to the men: of Seagraves; Mr. and Mrs. Z. Sample and little grandson, Clovis; Garrett of McAllen; Mr. and Mrs. H. Berry of Booneville; Mrs. Joe E. table salad, hot rolls, iced tea, angel Nunn and nephews, Dickie and Royce food cake and ice cream. What did Teague of Lakin, Kansas, Mrs. L. A. they are a "what about it? Well, what Collier, of Friona, Mr. and Mrs. Ma- for Rogers, and little daughter, Doris of Levelland, Mr. and Mrs. Morris-guests, some of whom, however, were Neal of Loop, and Miss Autrey Pet- of Ralls.

Building permits at Lamesa for the week ending June 13, is \$159,000. A record of which any town might well be proud.

HISTORY OF H. D. CLUB

(Continued from Page One)

sides, i. e. the solving of problems, and the reporting of the solution. The reporting is fully as important as the solving.

H. D. Clubs in Texas

In the years immediately following 1900 the South, and especially Texas, had a problem. The Mexican boll weevil was a serious problem in all the cotton growing states.

Did he go out and poison all the boll weevils? Did he ask Congress to give these farmers money? He means by which the Southern farmer did nothing. He set out to find some could help himself and could make a living at home in spite of the boll weevil.

So what we now call Extension work has begun near Terrell, Kaufman county, Texas, in 1903-4. It was then directed from Washington by Dr. Knapp.

About 1906-7, farm boys began to get interested and Boys' Corn Clubs were begun in several cities. About 1910 the girls had become interested so they were organized.

Women's work in an organized form was being done 1913-14, but the State organization as we know it was begun in Texas about 1917.

Next February in Houston, Texas, the United States will celebrate the 25 anniversary of Extension work. In this quarter century the work has spread to all 48 states and to a number of foreign countries.

Smith county, Texas, had the first farm agent. Now, out of the 3,300 agricultural counties in the United States, about 2,500 have county agents.

H. D. Work in Lynn County

Home Demonstration work was begun in Lynn County in 1924. Some

work has been done in every community of the county. Eleven women clubs with 218 members are now having regular programs.

Texas now has approximately 900 Women's H. D. Clubs. All of them are following regular programs in year books. All of them are studying the needs of their own community. Some have lighted school-houses and churches, cleaned and beautified school and church grounds, cemeteries, court house lawns, etc. Some have bought musical instruments or libraries for schools, some have built club houses.

Nearly every H. D. Club in Texas A. & M. College to the Short Course sends one or more of its members to year work. While there these club members attend the sessions of the State Home Demonstration Club each day. The State H. D. Club asks each club to pay fifty cents to send a girl to college.

Farm Aid Home Agents

In Texas there are 165 white men agents, and 21 negro men agents, 186 agents working directly with the men and boys. There are 01 white women agents and 18 negro women agents who work directly with the women and girls.

Next Meeting Postponed

As the next regular meeting day falls on July 4th, it was voted to postpone it until July 12, when it will meet with Mrs. W. L. Rogers.

At the close of the meeting, little Misses Iva Dimple Hancock and Mary Hamilton passed a refreshing plate containing punch and cakes to members and guests.

Everyone was glad indeed to see Miss Halsey back again, much rested and ready to resume her duties. Miss Halsey has done faithful work among her clubs, and is much loved and admired by members.

Planview—Directors of the Panhandle-Plains Dairy Show are already at work on plans for next year's event.

FIRE IS EXTINGUISHED BY DEPARTMENT'S WORK

Our splendid fire department again displayed its efficiency Monday afternoon, when a small building in the west part of town caught fire. The boys dashed to the scene and the fire was soon over, a thing of the past. The building which belongs to Mr. A. A. House, was not seriously damaged.

Mr. and Mrs. B. J. Boyd and Mr. and Mrs. M. C. Tull returned Tuesday

frmo a trip to the mountain and Juarez. Except for a few inconveniences such as a sore and fever blisters, they had a most delightful time. We promise down on the dish washing, we have been unable to get about that part of the

Mr. and Mrs. George B. are now occupying the house of Mr. and Mrs. Guy McGill their home.
