Highway Work Scheduled To Begin Immediately

Local Labor To Be Used; O'Donnell Loop Included

Commissioners Waldo McLaurin and L. M. Nodyke returned from Austin late last Tuesday after being present at the letting of the grading and drainage contract for Highway No. 9, and both gentlemen believe that work on this part of the state highway project will begin immediately, probably next week.

We were unable to get in touch with Mr. McLaurin before the Index was published last week, but he has kindly furnished up with quite a bit of information this week.

Contract for the grading and drainage structures on the highway from the south part of Tahoka to the Lynn-Dawson county line was let to Hamak & Hall Construction Company of Houston, and called for 15.7 miles of grade.

As has been previously stated, this contract calls for the loop through O'Donnell. It will be recalled that the commissioners were unable to get the highway department to agree to the new highway through O'Donnell on account of having to cross the railroad twice, and that they finally agreed to give the right-of-way just west of town provided the department would pave a loop through town. This loop will cover practically the same route as the present highway, but turning west from the business section to again join the new highway.

Local Young People Leave For College

The annual fall trek back to the campuses has begun and a number of O'Donnell young men and women are enrolling this week in various institutions over the state.

Misses Claire Ruth Nichols and Gladys accompanied by Wilford Gates have begun work at West Texas State Teachers College.

Miss Irma D. Palmer left Sunday for Albuquerque, N. M., where she is enrolled in the University.

Miss Wynona Huff also left Sunday going to Denton to take up her work at State College for Women.

Miss Sue Gates will enter Southern Methodist University at Dallas this term.

Probably other young people will leave this week for these or other schools.

Duck Stamps on Sale At Local Postoffice

Postmaster Hal Singleton announced that the local post office has been designated as a depository for duck stamp sales and that the supply of these stamps are now on hand.

As has been announced in these columns, funds derived from the sale of these stamps will be used in the campaign to protect migratory birds, many of which are fast dying or being killed out.

Please call at the post office and see your stamp.

Harvey Jordan has assumed his duties as assistant county agent in Coleman county. Mrs. Jordan and Mr. Bowlin will operate the gin at Tahoka this season.

Eagles' Opening Game With Seagraves Friday

Coach Fletcher Johnson is pushing the local football squad hard this week in preparation for the opening game of the season, to be played with Seagraves tomorrow afternoon at Seagraves.

Local fans are urged to accompany the team tomorrow and yell loud and long. Any person who expects to go and who has room for a player in the car please get in touch with Coach.

The 1934 edition of the Eagles made their first appearance last Friday afternoon when they defeated a group of former eagles 12 to 0.

Although they showed need for considerable drilling in all phases of the offensive game, the high school lads proved to everyone that they are going to be hustling and fighting every minute of the time.

The All-Stars held the Eagles scoreless for two periods Friday, but weakened in the third quarter. Morrison, veteran half-back, circled and carried to the one-foot line before being brought down from behind. The high schoolers received a 5-yard penalty for offside, afterwards scoring on four successive line plays. DeBusk's kick for the extra point was blocked.

In the same period, Hack Burnett, a newcomer who shows much promise, snagged a pass and galloped 15 yards to score the Eagles' final count. Kick for extra point was again wide. From then on the game settled into an old-time scrimmage in the center of the field.

Morrison and DeBusk stood out for the Eagles' running game, and Pig Hunt tossed passes all over the field, even though most of them fell to the ground. Hunt can sling a wicked spiral, but needs more experience to spot receivers. A little more time and he will give the Eagles a passing attack that will be hard to beat.

Captain Lizard Stokes, Bob Line, Moody Gibson, and Spider Webb, all veterans, stood out in the defense. Pirtle and Red McGee showed much promise of developing into a pair of fine guards. Pirtle is especially adapted to running interference.

Nazarene Revival Closed; Pastor's Year To End

The annual revival at the local Church of the Nazarene closed last Sunday night after a most successful season. There were fourteen additions to the church during the meeting, and two others Sunday night of this week.

When the year's work closes in November, the pastor, Mrs. Pearl Keeton, will not return to the local church, she has announced to her members here. While plans have not been definitely approved by the district superintendent, Mrs. Keeton will probably spend a year in evangelistic work.

The entire community will regret the loss of this fine family, for both the pastor and her husband have spared no time or effort in making her ministry here a success.

22 Bales of Cotton Ginned at O'Donnell

Report from the J. P. Bowlin gin, which is the only gin operating this season, was that a total of 22 bales of cotton had been ginned at O'Donnell.

This falls far short of the 763 ginned at this date last year, but that many is better than none.

Lynn County Has Received \$122,877.98

Lynn County has received a total of 2602 benefit payment checks on cotton reduction that amounted to \$122,877.98, according to V. P. Jones, county agent. There are still 215 checks of the first payment out, and these amount to approximately \$10,500.00.

Mr. Jones states that payments on the second half of the rental payments have not been received, and it is expected that those checks will be received some time during the month of October.

It is expected that the forms for borrowing or selling of the option cotton will be received at the county agent's office within a short time, and Mr. Jones states that applications will be started immediately after the necessary forms are received.

There will be two plans available, one an outright sale, and the other a loan of 10.00 a bale less the accumulated expense which is approximately \$2.50 per bale. The producer may choose either of the two plans.

Messrs. Roy D. Smith and W. H. Harris made a business trip to Lamesa Wednesday.

Delegation At Relief Session At San Angelo

County Promised More Relief Work If Citizens Demand It

Desiring to get some inside information as to the manner in which a county may procure federal funds for relief work within its boundaries, Belton Howell, E. H. Boullian, H. B. McCord, and B. L. Parker attended a regional meeting held in San Angelo Tuesday, at which such matters were thoroughly discussed, says the Lynn County News.

Mr. Howell, in discussing the meeting was Lawrence Westbrook, of the Federal Emergency Relief Administration office, at Washington; also a representative of the Bureau of Public Roads, Washington.

Among the speakers at the meeting with a representative of the News, stated that both of these addresses were very informative. Both had much stress on the fact that the various county boards have a great power and responsibility in administering relief for the citizens of the county.

"The county board is responsible for administering relief for the county," Mr. Westbrook stated, according to Mr. Howell. "If you people of any county are not getting what you need it is the fault of the county set-up."

"If you want highways, it is up to the county to decide the matter and get after highway work."

Mr. Westbrook stated that it had been charged that in order to get relief work an applicant has to take a pauper's oath. "That absolutely is not true. You do not have to take a pauper's oath to get relief. You do have to answer a questionnaire."

The gentleman from the Bureau of Public Roads also threw full responsibility for relief road work upon the various county committees. "It is up to the local committee to make recommendations to the state highway commission, and as soon as a project is approved by the highway commission, the funds will be forthcoming. The government has plenty of money for highway relief work. Labor must be furnished from the relief rolls, and we have plenty of money for all able-bodied men who are out of employment and who want to work. The responsibility is upon the county committee."

Mr. Howell is of the opinion that much highway work in this county could have been started and completed long ago if local citizens and the local committee had fully understood their responsibility and had gone after the work.

Born to Mr. and Mrs. Cecil Greenlee on September 1, a baby daughter, named Betty Jane. Mother and baby are doing well.

Mrs. J. G. Swafford, who has been visiting her sister, Mrs. E. Vandiver for the past two weeks, has returned to her home in Abilene.

Additional Cotton Money Obtainable

Announcements received Monday from the Dallas office of the Texas Cotton Cooperative Association written Saturday, are to the effect that cotton growers holding participation trust certificates covering options in the Plow-Up campaign will be able to obtain an additional advance of \$10 per bale LESS the carrying charges to date. These charges amount to \$2.40.

Owners of these certificates have the privilege of fixing the price at their discretion if in their opinion such action is preferable to taking advantage of the additional advance.

Actual amount of money which will be received may be figured as follows:

Close of October today \$12.71
Basic 20 pts. off
Carrying charges 48 pts.
Previous advance \$10.
Total \$2.03 or \$10 per bale for 300 pound bales.

Some time ago in proportion to the amount of cotton to be sold, but their total weight is more than 20000 pounds, so he will be paid for the extra pounds.

As soon as this information was received at the local co-op office, a number of farmers came in to reap the benefits of the advance. It is expected that others will do so this week.

Mrs. Gooch's Mother Is Seriously Ill

Mrs. Paul Gooch was called to Blanket Saturday by news of the serious illness of her mother, Mrs. R. W. Baker. As this is being written (Monday) no further news has been received here.

Mrs. Baker made her home here for some time and will be cordially remembered by a wide circle of warm friends. The Index joins with them in the sincere hope that favorable reports as to her condition may be received soon.

Lynn County Will Have Fair Exhibits

Lynn County will have some sort of agricultural exhibit at the Panhandle South Plains Fair at Lubbock next week is the job assumed by Judge W. E. Smith and county agent V. F. Jones.

Both these officials have issued requests to farmers throughout the county to assist in any way possible, and we again repeat this plea - if you have any kind of growing crops, suitable for the purpose, please get in touch with either of these gentlemen.

Monthly Trades Day Be Launched with Gains; Many Attractions Offered to Buy

Plans for the first Fourth Month Trades Day, which falls next Monday, have occupied the thoughts and antimes of every business man in O'Donnell for the past ten days, as the Index goes to press with a first Trades Day edition, every merchant announces that his store 100 per cent behind the move.

More than fifteen thousand Trades Day coupons have been distributed by O'Donnell merchants since last Saturday, and in addition to this means of advertising that bargain event, practically every business firm has arranged special bargains of some sort. Because of this fact, this edition of the Index is dedicated to the success of Trades Day.

Entertainment Offered

Mr. Tom Anderson has been asked by the board of directors to supervise the horse races, which will be held at the ball park as they were during the Tri-County Picnic. Mr. Anderson could not estimate how many entries he would have for this event, but believes that there will be fully 25.

Furthermore, Coach Fletcher Johnson and his O'Donnell High School Eagles are planning a football game in the afternoon, playing a town team.

Relief Checks Totaling \$2,000,000 Mailed

Austin, Sept. 17.—Relief checks, representing allotments to Texas counties for the first half of September, were mailed last Tuesday afternoon.

The amount sent the counties in this allotment will be a little less than \$2,000,000, an allocation for the care of an estimated case load of 205,000. This number represents an increase of more than ten per cent over the August allotment.

State Director Adam R. Johnson, had written a letter to accompany the checks in which he told county administrators that "this exhausts all available relief funds until additional state funds are obtained through action of the Legislature or until the federal government comes to our rescue."

"You are therefore very definitely instructed to conserve these funds but at the same time people should not be allowed to suffer. Every effort should be made by your clients to obtain seasonal employment so as to relieve our loads to that extent."

These funds cover a costs, work relief, direct relief, administrative costs and all special projects with the exception of rural rehabilitation. Please be governed accordingly in the administration of relief funds in your county.

Mrs. Burkett's Brother Killed In Car Accident

A message was received early in the week by Mrs. Jno. R. Burkett, stating that her brother, S. T. Allbright, had been struck by a car and instantly killed.

The accident occurred Friday of last week, in Peoria, Illinois, where he made his home. Full details of the tragedy were not received here, but Mrs. Burkett was under the impression that he never regained consciousness after being struck.

The Index joins with other friends in extending sympathy to Mrs. Burkett and other members of the family.

Singleton Families Return From Trip

Postmaster and Mrs. Hal Singleton, Mr. and Mrs. Hal Singleton Jr. and children, Hal III and Lena Mae, returned Friday night from an extended tour to resort points and a visit into Old Mexico.

Going out via Hagerman and Roswell they spent several days at Balmor and Almagordo before going on into the Honde valley. From there they went to Captain, Socorro, Ho Springs, Las Cruces, El Paso, across the river and into Old Mexico.

They report many thrilling experiences on the mountain roads especially after heavy rains began and sections of the highway were washed out.

Mr. Singleton whispered that his wife and Mr. and Mrs. Hal Singleton Jr. got in jail over in Juarez, but that he personally, refused to visit that city, fearing for his reputation. Mrs. Singleton affirmed the statement that they had been in jail, but explained that they were merely on an inspection tour. There is no visitors' lobby Mrs. Singleton said; when the iron-barred doors are opened, visitors step immediately into the midst of the prisoners. The greater part of the prison has concrete floors with no roof. The prisoners sleep on the floor without pillows or covering.

Another interesting visit was paid to the old Spanish mission in which was built 387 years ago. The ceiling is of bamboo, with all the beams hand-carved rosewood. The statues and painting in this old building are real works of art, the visitors say. The huge bell, made in Spain, is of brass, copper, gold and silver. Two smaller bells of silver are rung at the time of a wedding.

One especially interesting bit of carving is that to the left of the altar representing Christ in the tomb. The three walls are decorated with scenes from the life of the Savior.

The O'Donnell folks report that much of the country in that section is green and flourishing with a great plenty of fruit and vegetables.

150 FUNMAKERS WITH HUGH CIRCUS

Ringling Bros. and Barnum & Bailey Combined Circus truly the Greatest Show on Earth making its grand and glorious 1934 tour of the continent and definitely scheduled to exhibit in Big Spring Friday September 21, night only, has assembled from the four corners of the earth—and points in between the greatest aggregation of clowns in all amusement history.

One hundred and fifty international famous funmakers cavort and cower about the seven rings and stages and the huge hippodrome track this year in the most stupendous circus presentation ever offered. Clowns have always played an

important part of the circus and the amusement world was amazed and delighted when an even hundred of them were brought together for the first time by Ringling Bros. and Barnum & Bailey. But when 150 of the funniest clowns imaginable were placed on the same program in a simultaneous display this spring, the enthusiasm of circus-goers knew no bounds.

Beside the clowns there are 800 men and women acrobats, international eminence, many of them touring the American continent for the first time. The combined circus will arrive on four long trains of 100 double length, special railroad cars bringing over 700 horses, 1000 menagerie animals, 50 elephants and over 1,600 people.

LAMESA HIGH TO PLAY NIGHT FOOTBALL GAMES

One of the latest lighting installations that can be bought has recently been installed at the new Lamesa High School football field. A 3,000 watt job will furnish the Golden Tornadoes and their opponents with plenty of light in which they may settle their gridiron disputes.

This will provide good entertainment for fans throughout this section as many will be able to attend games that heretofore have not been able to attend because of business duties.

The opening game on the new field and under the lights will be played with the Snyder Tigers. The Tigers are always strong and will make a real night's entertainment for the Tornadoes. This game will be played Friday night, September 21, at 7:45 p. m. The Lamesa schedule is as follows for the night games: Snyder Tigers, September 21. McCamey Badgers, October 5. Lubbock Cowboys, October 12. Post Antelope, October 26.

FORMER CITIZEN DIED THURSDAY

Long-time residents of O'Donnell were grieved Thursday of last week when Will Hancock, for many years a resident of this territory, died shortly before daybreak in the small house just south of the Curtis home.

Mr. Hancock, who formerly lived on the George Shumake farm, had returned to his old home in the eastern part of the state several years ago. He had been a sufferer from Bright's Disease, and in an effort to improve his condition, he had prevailed on his sons to start with him to Arizona. By the time they reached O'Donnell, however, he was so seriously ill that they decided to stop over for a few days, and it was during that pause in the journey that death came to him. Funeral services were held, and interment made in the city cemetery Friday afternoon.

Cotton Funds Will Be Paid In Lump Sum

Washington, Sept. 15—The farm administration announced today that the third cotton "parity" payment due in December would be combined with the second rental payment and that both would be distributed in October. The total thus to be paid out will approximate \$72,000,000.

In making this announcement, C. A. Cobb, chief of the cotton production section, said: "Payment of the second and third installments due under the cotton contracts were combined in order that the distribution of the payments to the interested parties might be more easily and more promptly effectuated."

He said tenants and share croppers had an interest in the "parity" payment and that to put off payment until December, the usual season for many tenants and renters to move to other farms would cause unnecessary complications.

The "parity" payments due cotton producers total 28,000,000. The second installment of the rental payment is approximately 44,500,000.
