

Many Sections In Texas That Show Steady Progress

prices, something is wrong. Poultry flock demonstration reconducted by county and home demonstration agents to E. N. Holmgren, poultry specialist in the extension service, show that this standard of production is within reach of owners of ordinary farm flocks and that profits of \$2 per bird a year are not too much to expect if good management is used.

In Shackelford county, J. D. Fite of Moran completed a year's record November 1st to find that his flock of 259 White Leghorns laid an average of slightly more than 210 eggs per hen and returned a net profit of \$1.72 each. It cost 10 cents per egg to produce these eggs and they averaged 31 cents per egg. The flock received a complete mash all year and a composed of wheat and fresh water was be-

all times and an average of 11.5 cents per egg was regularly available. The flock received a complete mash all year and a composed of wheat and fresh water was be-

all times and an average of 11.5 cents per egg was regularly available. The flock received a complete mash all year and a composed of wheat and fresh water was be-

to one-half bale per acre on similar untraced land. Adolph Wuenschel of Lone Oak Community reports that he grew more cotton this year on terraced land than last year, in spite of heavy rains in the spring and drouth in the summer. The terraces kept the rains from washing and conserved the moisture for the dry weather.

Paris.—Edna Brown and Pauline Stapleton, two 4-H club girls of Tipton, in Lamb county recently completed four year of club work with profits of \$681.70 and \$546.33, respectively. These gains were made from managing poultry flocks, growing gardens, canning and making home improvement articles and clothing.

Austin.—With a ranking of twelfth in the United States in the number of volumes, the University of Texas library ranks nineteenth in the matter of appropriation for 1929-30, seventeen in the size of its staff and twenty-first in the salaries it pays its staff members, according to statistics released by E. W. Winkler, University librarian.

The University has 430,082 volumes, an appropriation of \$46,500 for new books during 1929-30, a staff of 20 members and a pay roll of \$52,900, the statistics show.

Austin.—After a few preliminary tilts with Texas and out of state teams the University of Texas basketball quintette will swing into its conference schedule on January 7 with a game with the Rice Owls in Houston and will end on March 1 with a game with the Texas Aggies at College Station. The conference schedule of the Longhorns will be a very hard one for this season.

Austin.—Students of the University of Texas will be represented at the annual meeting of the National Congress of college students by Robert Payne of Malakoff, president of the student association, and Josie E. Halley of Marshall, secretary-treasurer. The meeting will be held in Palo Alto, California, with the Students association of Leland Stanford as host. Speakers before the congress will present studies of fratern-

ities honor systems and other problems of student life.

Seguin.—Guadalupe county farmers are planning to have plenty of Sudan grass for pasture in 1930. They have pooled orders for 13,000 pounds of seed, through the local dairymen's association.

THE GREAT CHEVROLET IN CHEVROLET

Today, Chevrolet presents the Greatest Chevrolet in Chevrolet History—a smoother, faster, better Six—with beautiful new bodies by Fisher.

Basically, it is the same sturdy, substantial Six which won such tremendous popularity in 1929. But it is a greater car in every way—for there are scores of vital improvements

which contribute to comfort, performance, endurance and safety!

An improved six-cylinder valve-in-head motor, with its capacity increased to 50 horsepower; four Delco-Lovejoy hydraulic shock absorbers; fully-enclosed internal-expanding weather-proof brakes; a new dash gasoline gauge; heavier and stronger

A. I. Thomas Makes His Announcement

The name of A. I. Thomas appears in our announcement column this week as a candidate for tax assessor of Lynn county. This is the first time that Mr. Thomas has offered for office of any kind since he has been in Lynn county.

He came to Lynn county in 1907, twenty-two year ago, when this was strictly a cow country and with the exception of a short interval several years ago he has resided in the county ever since. Only a few of our citizens of today were here when Mr. Thomas came to the county. Among these were the Wells family, Elton George, W. A. Waller, J. B. Miles, J. V. Dyer, G. W. Small, W. B. Slaton, A. R. McGonagill, W. S. Swan, W. L. Tunnell, George Vaughn and a few others. There were two drug stores here then and Mr. Thomas purchased one of them and set up business for himself. His brothers, C. A. and W. O. Thomas, also had an interest in the business but they were not here at this time. This was the beginning of the big business now operated by Thomas Bros. Drug Co. but Mr. A. I. Thomas has not had any financial interest in this business for a number of years.

As a business man, Mr. Thomas has had much experience in bookkeeping and clerical work and is thoroughly competent to fill the position which is important consideration of an assessor.

According to information given out by Postmaster Hal Singleton, Sr., the new bus line mail service will be inaugurated some time this week. Some delay has been caused due to the holiday rush, but Mr. Singleton states that everything is getting back to normal and that the new service will be put into effect one day this week.

The new service will enable O'Donnell going southbound mail pouch late in the afternoon which will be carried by the bus lines, making connection at Lamesa for Big Spring, Fort Worth and Dallas and other points.

The new service will lenable O'Donnell people to answer all mail received on the morning train and have it dispatched on the 6 o'clock bus the same day.

Bill To Refund Cotton Losses Is Introduced

Special to the Index: WASHINGTON, Jan. 8.—Representative Jones today introduced a bill authorizing the Federal government to appropriate \$300,000 for reimbursement of losses sustained by cotton farmers in Dawson, Ecor, Midland, Howard, Martin and Glasscock counties, comprising the regulated zone occasioned by discovery of pink boll worms three years ago. It is contemplated that the state of Texas will appropriate a like sum, which, it is estimated, would cover losses for the two years.

The Federal government last year made an appropriation to cover losses due to establishment of a non-cotton zone. This, however, never was established, since, under the Jones amendment, the government provided regulation instead. It has been estimated that the extra cost borne by the cotton farmers in those counties in having their seed and cotton fumigated was approximately \$2 a bale. Cotton losses are still in effect and Jones is hoped before next cot-

-at extremely low prices!

During 1929, more than a million three hundred thousand persons bought six-cylinder Chevrolets. This enormous volume has made possible many savings in the Chevrolet factories—and, in keeping with its long-established policy, Chevrolet is sharing these savings

with the public. No written description can do justice to the extra value and quality provided in this new car. Visit your Chevrolet dealer—see this car—check its new features—ride in it—and judge for yourself the sensational value it represents.

Mon. Jan. 6th

Representatives of taxpayers who have a large clientele to commence operations immediately after January first and not wait until March fifteenth to file returns.

We advise taxpayers who depend on others to prepare their returns to furnish all data to their agent immediately after January first. The return can then be prepared but not filed and tax paid until March fifteenth.

INTERESTING NOTES FROM LUBBOCK—NEW MONEY

Two million dollars of new money has been brought into the South Plains section by new farmers since August 1, a check up with real estate dealers, lumber yards and other sources, reveals.

This figure represents initial expenditures of some 800 new farmers who have purchased new homes on the South Plains this fall.

The fact that land sales are far above what they have been since the busy days of 1925 is conclusive proof that the advertising being carried in farm journals by the Lubbock Chamber of Commerce under the name of South Plains, Inc., is bringing the desired results to an even greater extent than was anticipated.

A check with leading land agents of Lubbock and a number of South Plains towns shows a total of approximately 800 new farms sold to new comers since August 1. These farmers pay at least \$300 cash on a quarter section of land and many have cash for the entire tract. The minimum on that number of farms is \$640,000. They are spending an average of \$1,000 for their initial improvements which totals \$800,000. Necessary tools, furniture and other supplies will easily bring the figure to the two million dollar mark. The grocery bill for these new families this year will be approximately \$160,000.

Eight hundred farms may not sound like a big number but taking the average family of five, this means a population of 4,000 on the

Pinkbollworm Rule Has Been Amended

WASHINGTON, Dec. 30.—The Secretary of Agriculture Monday announced a revision of the pink bollworm control regulations, incorporating five amendments to the July, 1927, resolutions, to become effective January 1.

The most important change was the authorization of interstate movement of cotton samples and of compressed and baled lint or linters from regulated areas of Western Texas, New Mexico and Arizona, without fumigation, when such samples, lint or linters, have been produced in a county within which, and within five miles of which, no pink bollworm infestation has been found for the two preceding seasons.

News From The Pride Community

Well, Mr. Editor, Christmas is over and things are getting down to normal once more.

Several of the neighbors are moving around and changing places getting ready for another year.

King Preston and wife and Gordon Henry and Miss Irma Lightfoot visited in Lamesa Sunday evening.

Pride had a real nice Christmas tree.

Dewey Thomas and wife were visiting in Oklahoma Christmas week.

Bill Cathy was in our neighborhood Saturday buying some cattle.

J. D. Cathy and old timer of the Pride country came in a few days ago from Arizona on a visit to home folks.

The young folks had a real enjoyable party at Mr. King Preston's Friday night.

Quite a crowd of the O'Donnell young folks were out to the party Friday night.

We hear Raymond Preston is going to Lubbock for a change.

M. L. Youngblood was in O'Donnell Saturday on business.

Mrs. C. H. Marshall of Lamesa Thursday shopping.
