

TO EAT WELL, MAKE A CANNING BUDGET

Canning budgets as guides to the busy farm housewife in planning her garden and canning work are coming into wider use every year, and are urged by home demonstration officials of the Extension Service.

A canning budget for a family of five for four months, as worked out by the home demonstration agent of Knox County, provides for the following: 48 quarts tomatoes, 8 quarts carrots, 16 quarts beets, 32 quarts string beans, 8 quarts okra, 16 quarts kraut, 16 quarts soup mixture, 16 quarts corn, 16 quarts English peas, 32 quarts apples, 48 quarts peaches, 16 quarts pears, 16 quarts plums, 56 quarts blackberries and 4 quarts of fruit juices.

"This Budget" states Miss Lola Blair, food specialist in the Extension Service, "will vary for different sections of the state according to the number of months fresh vegetables can be gathered from the garden. In this case it provides sufficient canned fruits and vegetables to take care of an average family for four winter months when fresh stuff is obtainable only in stores.

Then again, some families will particularly relish certain of these canned foods more than others and may therefore wish to increase the allowance for these products. But it should be born in mind that every family should provide a variety of canned foods at least this large.

Under no circumstances should canning be confined to a small group of vegetables and fruits, for healthful eating and living demands that the diet be varied."

Steam pressure cookers were bought in Texas last year by 2035 home demonstration club women. Canning in tin is fast displacing the older, more laborious and less efficient home canning methods.

LAMESA—Lamesa is building an air port and a landing field if the plans of the Lamesa Larcheon Club, the Lamesa Chamber of Commerce and the American Legion materialize. A school of flying will be conducted when the field is complete according to present plans.

The committee are now busy seeking a landing field of 160 acres and the arrangement of such necessary equipment as will make the air port modern and according to requirements.

It may be that a bond election will be called that the City may own the port.

LAMESA—A nursery has been located at Lamesa through the efforts of the Civic Department of the Lamesa Chamber of Commerce. Ben Moore, former Postmaster of O'Donnell has purchased a track of land one half mile north of the city limits on the Number Nine Highway from Judge J. E. Garland of this city. Nursery stock will be planted out immediately according to Mr. Moore. Moore will also establish on this property his home and other improvements. His plan is also to make a

park of the acreage so he states. This business has been long needed according to officials of the Local Chamber who have endeavored to conduct tree and evergreen campaigns here for several years.

LAMESA—In a recent meeting of the Board of Directors of the Lamesa Chamber of Commerce Department were assigned the fifteen Directors. In this meeting there was 100 per cent attendance of members of the Board. The assignments are as follows: Executive, W. D. Arnett, President; W. B. Collins, First Vice-President; F. T. McCollum Jr., Second Vice-President; Civic, J. E. Barron, Entertainment, W. G. Weeks; Financial, Clyde Branson; Employment, Capt. Rountree; Membership, T. F. Vaughn; Educational and Health, Dr. John B. Bennett; Air transportation and Public safety, Phillip Yonge; Highway, Judge Dixie Kilgore; Industrial & Commercial, J. W. Bryant; Public Relations, S. L. Forrest, Agricultural, O. B. Norman; Publicity, C. E. Cameron. A manager of the organization will be elected on May the First. All applications should be directed to Lamesa Chamber of Commerce.

CROP ROTATION ADVISED

College Station—Crop rotations of one sort or another are proving profitable to many Texas farmers, reports to the Extension Service show, even if the rotation scheme consists only of alternating equal acreages of cotton and feed crops successive years. In the Blackland sections of the state a rotation of cotton, corn and oats has been found to reduce root rot damage and increase profit per acre.

In West Texas, alternating cotton and feed crops is advised by E. A. Miller, Extension Agronomist, who cites demonstrations in Knox county as illustrating the value of this practice. One farmer in that county made 32 bales of cotton from 52 acres after using this rotation a few years while an adjoining farm produced only 25 bales on 82 acres. The county agent there is featuring a half cotton, half feed program.

In parts of East Texas rotations of cotton, corn and cowpeas or velvet beans, and oats are giving excellent results in demonstrations. Mr. Miller points to Perry Smith, a farmer at Edgewood, Van Zandt county, who has used this system for five years

and who is now making as much cotton on 40 acres as he formerly made on 80 acres.

KNOW, TEXAS

In 1928 Texas produced and marketed 2,830,000 quarts of strawberries valued at \$566,000, 91,000 tons of cabbage valued at \$1,760,000, 5,000,000 bushels of spinach valued at \$2,250,000.

It is estimated that 5,000,000 persons residing in other American states and in foreign countries are dependent largely upon the products from Texas cotton fields for their livelihood.

The total poll tax in Texas for 1928 was \$1,737,616.

Brewster is the largest county in Texas, its area being 3,798,400 acres which is equivalent to 5,935 square miles. Rockwall is the smallest county in Texas having 95,360 acres or 147 square miles.

In 1927 the domestic exports from Texas amounted to \$647,000,000.

In 1914 Life Insurance in force amounted to \$341,000,000. In 1926 it amounted to \$2,000,000,000.

The 1920 census showed that during the preceding decade Dallas had increased 72.6 per cent in population, Houston 76.2, and San Antonio 67 per cent, with Fort Worth a 45.2 per cent.

LAMESA—The last of wooden business structures was razed here this week to give place to two nice new bricks that will be in keeping with Lamesa's modern building structures now adorning the business section. With these buildings complete Lamesa will contest with any town

in Texas with her population as new and modern brick structures. Her wide spacious sidewalks, streets and modern brick structures place her in a class with the larger cities of the state in this connection.

SUMMARY OF HOME DEMONSTRATION WORK

The following is a summary of the work for the past year's work.

- Total number of homes visited in conducting extension work—255.
Number of different homes visited—86.
Number of office calls—12271.
Number of telephone calls—556.
Number of days agent spent in office—121.
Number of days agent spent in the field—159 1-2.
Number of news articles prepared for the press—40.
Number of individual letters written—962.
Number of bulletins distributed—1128.
Number of Fairs at which exhibits were made—5.
Community Fairs—2.
County Fairs—1.
District Fairs—1.
State Fairs—1.

COMPARE the delivered price as well as the price in considering automobile values. Chevrolet's delivered price includes only reasonable charges for delivery and financing.

Since January first, over 300,000 people have chosen the Chevrolet Six. And every day sees an increase in this tremendous public acceptance—

—for the new Chevrolet not only brings the enjoyment of six-cylinder performance within the reach of everybody everywhere, but gives the Chevrolet Six greater dollar value than any other low-priced car.

Just consider what you get in the Chevrolet Six—smoothness, flexibility and power of a six-cylinder engine which delivers better than twenty miles a gallon. The beauty and luxury of bodies by Franklin adjustable driver's seat. The effortless control, quiet, non-locking 4-wheel brakes and responsive steering. Then consider Chevrolet prices! And discover that this fine quality Six can be bought in the price range of the four! Come and prove that anyone who can afford any car can afford a Chevrolet Six!

preliminary production schedules and was made necessary to more fully accommodate an increasing demand for the new car Chevrolet six.

This March record compares with 133,657 units for March of last year and with 121,249 for February of this year. It exceeded by nearly 7,000 units the best previous month in the history of the company, which was 140,775 units.

The March performance enabled the company to exceed all records for the first quarter of the year, with a total of 354,701 units as compared with 342,184 for the first three months of 1928.

In preparation for what promises to be the biggest Spring business on record, the manufacturing division is operating on the heaviest schedule ever undertaken by the company. The company's sixteen giant factories are operating at maximum capacity with all the haste consistent with precision manufacturing, it was announced. Officials predict that the record activity planned for April will result in another monthly record and for the second consecutive month establish a new mark.

The sixteen plants engaged in this tremendous manufacturing program which contemplates the production of 1,350,000 cars this year are located in the following cities: Flint, Michigan; Bay City, Michigan; Saginaw, Michigan; Detroit, Michigan; Toledo, Ohio; Broomfield, N. J.; St. Louis, Mo.; Tarryton, N. Y.; Buffalo, N. Y.; Cincinnati, O.; Janesville, Wis.; Atlanta, Ga; Kansas City, Mo. and Oakland, California.

TAHOKA PLANS FOR CITY "WHITE WAY"

TAHOKA, April 11.—The City Council of this place met yesterday afternoon in company with Judge Kelso, president of the West Texas Utilities Company, and Hubert Allen, the Lubbock manager of the company and went into details of erecting a white way in the business section of Tahoka.

Mayor Dr. J. R. Singleton reported after the meeting that the city council voted to have the white way erected at an early date. The council set Monday evening to meet and designate the location of the lights

over the business section. The civic committee of the Tahoka Chamber of Commerce of which J. E. Nance is chairman took up the matter of a white way a little over a week ago. With the houses in Tahoka numbered and the names recently placed on all street corners and a new theatre soon to be built Tahoka is fast taking on the appearance of a city.

Dr. Singleton also stated that the city was granted a decrease of about 25 per cent in the current used for pumping water.

"ESSAY ON MAN"

Did Ja ever hear this one? Men is what women marry. They have two feet, two hands, and sometimes two wives but never more than one collar or one idea at a time. Like Turkish cigarettes men are all the same material, the only difference is that some are better disguised than others. Generally speaking, they may be divided into three classes: Husbands, bachelors and widowers. An eligible bachelor is a mass of obstinacy entirely surrounded by suspicion.

Husbands are of three varieties: Prizes, surprises and consolation prizes. Making a husband of a man is one of the biggest, plastic arts known to civilization. It requires science, sculpture, common sense, faith and charity—mostly charity. It is a physiological marvel that a soft, fluffy, tender, violet-scented thing like a woman should enjoy a big awkward and stubby chinned, tobacco smelling and bay rum scented thing like a man.

If you flatter a man it frightens him to death; if you don't you bore him to death. If you permit him to make love to you, he tires of you in the end, and if you don't you soon cease to interest him, and if you argue with him in everything you soon cease to charm him. If you believe all he tells you he thinks you are a fool and if you don't, he thinks you are a cynic.

If you wear gay colors, rouge and startling hats, he hesitates to take

C. N. WOODS Watchmaker and Jeweler Tahoka, Texas

you out. If you wear a little brown togue and a tailor made, he takes you out and stares all evening at a woman in gay colors and startling hat and rouge. If you join him in his gayeries and approve of his smoking, he swears you are driving him to the devil, and if you don't approve of his smoking and argue him to give up his gayeries he vows you are driving him to the devil. If you are the clinging vine type, he doubts if you have only brains; if you are a modern, broad, advanced and independent type, he doubts if you have a heart. If you are silly, he longs for a bright mate, and if you are brilliant he longs for a playmate. If you are popular with other men he is jealous; if you are not, he hesitates to marry a wall flower. Gosh darn men, anyway—the pop eyed piped!—Still a woman will marry one. I'd stay single and be an old maid.

Clean-up campaigns against the European corn borer should be completed before the borer develops into the moth stage in late spring or early summer. All cornstalks, cobs, and refuse should be destroyed during the year, by plowing under completely, by burning cleanly, or by feeding to livestock directly from the field in the form of finely cut or shredded material or as silage. The disk-ing in of small grains on corn-stalk land or on high-cut stubble is a

dangerous practice where the corn borer is present, says the U. S. Department of Agriculture.

In testing individual ears of seed corn for germination it is advisable to take not less than six kernels; 2 from near the butt, 2 from near the tip, and 2 from the middle. Each pair of kernels should be taken from opposite rows, the rows being about one-third of the circumference of the ear apart. This method gives a good test of any individual ear. If any of the kernels fail to germinate, or if the germination is weak, produces inferior sprouts, or is very slow, the ear should be discarded.

Some people think that cattle will not eat sweet-clover pasturage. They will eat and relish it, however, if they are turned on the pasture when the clover is no more than six or eight inches high and still tender.

There is no short cut in making good butter. To make first-class butter on the farm, the churning should take from 30 to 40 minutes, at a temperature, in the winter, of from 58 to 66 f, says the Bureau of Dairy Industry of the U. S. Department of Agriculture. Patent churns that churn butter in seven minutes produce butter of poor body and texture.

Spring Time is Rain Time

CRASH! A mighty flash of lightning. The lights flicker.

What wouldn't flicker under such conditions? Lightning often strikes the electric light wires, but automatic lightning arrestors and switches take care of the sudden surge on the lines and you barely notice the flicker.

But sometimes this crash of lightning strikes a pole and makes splinters of it, or splits it down the middle. Sometimes it hits a cross arm and damages it.

In such latter events your electric service is interrupted until workmen wade through the rain and storm and make repairs.

If spring time and rain time cause slight interruptions to service, please know that somewhere there is a crew working at great odds to restore the flow of electrical energy to your home, office, store or shop.

**SCHOOL NEWS**

The boys and girls of Mrs. Gooch's room have organized base ball teams. Gooch presenting each team with balls and bats. The captains of the boys are Vernon Cook and Lester Vaughn. The captains of the girls are Era Culp, the other one to be selected. We are having exams this week and everybody is very busy.

The Low Sixth grade has finished some excellent health posters. Visitors to the school should make it a point to inspect these posters.

On Tuesday of this week there were no absences in any of the Home Economics classes. Since every girl in High School who could possibly enroll in these classes did so this indicates a good attendance for the entire feminine population.

These classes are making beautiful note books on the planning, serving, and preparing for luncheon. One especially attractive book displayed the furniture, silver, dishes, linen and decorations.

On Thursday, April 4th the Seventh grade class went on a picnic to T. J. F. We climbed hills and played. After having an enjoyable time the eats and "pop" were brought down to the foot of the hill and were enjoyed by all.

The pupils in the seventh grade have fixed a Birthday box to send to Albert Graham's with fifty cents worth of suckers and "Oh boy" gum in it, and also a pillow "made of silk handkerchiefs."

We are having almost perfect attendance this week, having only one pupil who is not here every day.

We are working hard on the play, "The Pink Parrot" for part of our program for chapel next Thursday morning. We invite all who will to come.

We are having a series of examinations in Geography this week. Those making a hundred yesterday were G. C. McPherson and Marvin Payne.

The following Arithmetic plays, written by the High Fourth grade pupils were voted as the best plays.

**CLUB PARTY FEATHERS CHILDREN OF FICTION**

At the regular meeting of the Blue-Bonnet Club last Thursday evening, the guests were asked to come in the costume of a child of fiction. Jack and Jill, Tom Sawyer, Huck Finn and many others were present. Some of the costumes and make-up were very original and clever.

After a number of kid games, the hostess, Miss Irma D. Palmer, served a clever refreshment plate containing iced, bottled pop, tuna fish sandwiches shaped like a boy, animal crackers, and all-day suckers to Misses Claire Ruth Nichols, Christine Millwee, Maggie Wilson, Hazel Burke, Una Morrow, Jewel Sargent, Jessie Sargent, Muriel Smith, Lulu Rice, and Velma Winkler.

**SENIORS ENJOY NOVELTY OUTING LAST FRIDAY**

One of the cleverest picnics ever heard about was carried out last Friday by members of the Senior Class. The party gathered at the home of Trixie Harville, where a lunch was issued to each, tied up in a bandana handkerchief and carried over the shoulder on a stick in true hobo style. After parading in town, the gypsies went to the Harris pasture. A huge bonfire was built in readiness for preparing the meal, and while it was burning down to coals the guests played games, told fortunes and worked up good appetites.

As soon as the fire was at the right stage, lunch was prepared, and you should have seen the broiled bacon, sandwiches, onions, marshmallows, and oranges disappear. After singing several sappy songs, the party adjourned. Those present were Pauline Wheeler, Irma D. Palmer, Travis Everett, John Vermillion, Florence Gary, Trixie Harville, Era Harris, Beulah Estes, Hazel Burke, Truett Hodnett, Howard Tredway, Una Morrow, Nannie Belle Smith, Lola and Slim Edgerton, Charley Stuart, Gladys McGee, Vera Nichols, Misses Rice, Harville, and Winkler.

**FRESHMAN CLASS ENTERTAINED BY CLASS SPONSOR**

Mr. and Mrs. D. A. Edwards were hosts Friday evening to the Freshman class, of which Mr. Edwards is sponsor. Practically every member of the class was present, and that made the number of guests reach the sufficiency point. If the youngsters enter into their school work as enthusiastically as they did the games, what wonderful grades they must make!

After a number of groups, Mrs. Edwards, assisted by Mrs. Terry, served sandwiches, cookies and punch to the party.

School days are not half bad when boys and girls have such comradely teachers as these.

The Baptist W. M. S. will meet Monday in circle meeting for Bible study as follows: Northside Circle with Mrs. R. C. Carroll, Central Circle with Mrs. Joe Wilson and South side Circle at the home of Mrs. Howard. All circles will study Acts the 4th to 8th chapters inclusive.

**Index Ads Get Results—Try Them**

**Randall Gossip**

The light rainfall last week was a great help to the farmers. They have started planting maize and corn.

Mr. Carlton Alexander who was teaching the Randall School resigned last Friday and his brother is teaching in his place. All the pupils are pleased with his teaching. Only they say he is a little stricter on them.

There was only a small crowd out at Sunday School. The most of the young folks were attending the singing convention at T-Bar.

Mr. and Mrs. D. C. Davis and daughter, Arna and Esther, took dinner with Mr. and Mrs. Lavaine O'Connar, Sunday.

Little Billy Elmore is dangerously ill with pneumonia and the measles. We hope he will soon recover.

A number of cases of the whooping cough are in the Randall School. George Bryant spent Monday evening with Haskell and Arna Davis.

A crowd of school children ran off from school last Monday, it being "April Fool." Mr. Alexander gave them plenty to do when they returned. The crowd was: Bernice and Lois Meares, Ruby Young, Neva Melvin and Lee Proctor, Reba Northcut, Millie Lee Spencer, Earl Snow, Fred Smith, Bert Bryant and Homer Lankford. They reported they had a good time and to stay in a week and write a five page theme wasn't hard to do.

Rubin Meares spent Sunday morning with Carl Smith.

Mr. and Mrs. J. P. Snow spent Sun-

day Evening with Mr. and Mrs. J. B. Elmore.

Buster Harris spent Saturday night and Sunday morning with Haskell Davis.

Mrs. W. A. Snow received a message Monday stating her sister was dangerously ill in the Brownwood hospital.

Misses Estell Griffin, Wilma Durham and Anna Lou Stephens spent Sunday with Mr. and Mrs. Howard Stephens.

Irene Smith spent the week-end with her sister, Mrs. Earl Lankford.

We are asking the people of O'Donnell to come out and help us make our Sunday School better.

## TEXANS LET'S TALK TEXAS

**As Surely as the DAY follows the NIGHT**

AS SURELY as the day follows the night, West Texas stands upon the threshold of an era of industrial development which will be as thrilling and as picturesque as has been the past history of this remarkable empire.

Sometimes the most worthwhile things are the least obvious. It seems to have been so in the case of West Texas. In the outset it seemed to many people that there was very little to recommend this section as one peculiarly fitted for the building of a great industrial area. Men were attracted to this section of Texas, however, whose vision was far reaching. They foresaw that West Texas was destined to become a great center of industrial activity.

Accordingly they instituted a program of foundational industrial work which required the greatest courage and fortitude to carry forward. These men pioneered West Texas. Today their efforts are gloriously in evidence. On every hand the force of their determined optimism is felt. National recognition of the correctness of their forecast, made a quarter of a century ago, is daily being given. They have laid the foundation of a mighty empire.

This heritage they are tendering to a new generation, whose capacity for going forward with it is reflected in today's sound developments.

The Texas Electric Service Company has had a part in West Texas development. And this Company feels that it partakes fully of the spirit of West Texas, that it has an understanding of the needs of this territory which enables it to plan its future along the most constructive lines of helpfulness to this great wealth producing area.

# Texas Electric Service Co.

*The Silent Partner of Progress*

**THERE MUST BE SMETHING TO IT**

When a book has a circulation of more than 3,000,000 copies and has been read by more than 5,000,000 persons, there must be something in it. That is the record made by the Handbook for Boys of the Boy Scouts of America, the most widely read book for boys in the world and reputed to have an annual circulation in excess of every American book excepting the world circulation of the Bible.

The esteem with which the Boy Scout Movement is held in this country and abroad is in a great measure due to what boys practice from the lesson learned in the Handbook for Boys. In it are recorded the ideals and a role of the Scout Movement. To a boy reader it is a book of romanticism, inspiration and information. The book was produced after long study to determine what would most help boys to help themselves. Leading educators, over a period of many years, considered the problem and co-operated in the compilation of a book which would at once interest and instruct boys, and at the same time direct their activities along lines in keeping with the Boy Scout program of character building and citizenship training.

From Japan, from Alaska, from the Philippines, orders have come for the Handbook for Boys. Down on the continent of Antarctica, where Commander Byrd's expedition is writing history, the knowledge contained in the Handbook for Boys is standing Paul Siple, the Boy Scout member of the Byrd crew, in good stead. It was the lessons he learned from scouting as revealed in the Handbook for Boys that gave this husky American lad the background which enabled Commander Byrd to select him as one of the members of his crew. He is an outstanding member. Commander Byrd has reported by radio.

If you want a book that will fill the leisure time of your boy with useful activity and put into his mind ideals that are truly American, get him a copy of the Handbook for Boys. He will likely consider it one of the finest gifts that he has ever received.

**THOUGHTS IN ACTION**

How often you have heard persons wish for things—some of them unreasonable. They wish that they had

this, that, or the other thing. They wish for fine homes, large sums of money, and many other things.

There are others who wish for talent. They would like to be artists, or perhaps they are interested in business, and are making extravagant wishes for high positions. They give little consideration to the preparation that is necessary to do the really worthwhile things, but they spend almost unlimited time in talking about things that they think they would like to have or to do.

The fact is, if they would practice doing first the things at hand they would, in a very natural way, soon be doing greater things. There seems to be a tendency among most persons always to wait until conditions are more favorable before beginning to do a thing. As a matter of fact, the only time that conditions are more favorable is when we have decided what to do and that we are ready to begin doing it.

The only time that conditions are not good is when our thoughts are vague about what we want to do. There have been few actual failures. True it seem there have been numberless attempts that never brought about the results that were hoped for, but in almost every case this so-called failure was due to the lack of persistent effort.

The only way to determine whether or not a failure has been made is to find out if the person in question has actually quit trying.

**GRAVEL SLIDE KILLS MAN NEAR SLATON**

SLATON, April 1.—David Gallies, a Mexican, was killed instantly and Carl Shears, Lubbock man was injured Monday morning when an immense quantity of gravel caved in on them at a pit five miles north of Slaton.

The Mexican's body is being sent from here to San Marcial, N. Mex. Shears was carried to a Lubbock sanitarium for treatment. He suffered injuries in the shoulder and perhaps was hurt otherwise.

THE STATE OF TEXAS )  
COUNTY OF LYNN )  
IN THE 106TH JUDICIAL DISTRICT COURT, LYNN COUNTY, TEXAS. C. L. Davis, Plaintiff, vs G. A. Haney, Defendant. No. 747.

WHEREAS, by virtue of an execution issued out of the Honorable District Court, in and for the 106th Ju-

dicial District, Lynn County, Texas, on a judgment rendered in said court on the 22nd day of February, A. D. 1929, in favor of the said C. L. Davis, and against the said G. A. Haney, No. 757, on the docket of said Court, I did, on the 1st day of April, A. D. 1929, levy upon the following described lots, tracts, or parcels of land, situated, lying and being in the County of Lynn, State of Texas, and belonging to the said Defendant, G. A. Haney, to-wit:—

- (1) LOTS Nos. 10, 11, 12 in Block 59, town of O'Donnell, Lynn County, Texas; known as the old Haney home place;
  - (2) LOTS Nos. 17, and 18, in Block 104, town of O'Donnell, Lynn County, Texas; business lots on 9th street;
  - (3) LOTS Nos. 1, and 2, in block 118, town of O'Donnell, Lynn County, Texas; known as Highway Garage property;
- And on the 7th day of May, A. D. 1929, being the first Tuesday of said month, between the hours of 10 o'clock A. M., and 4 o'clock P. M., on said day, at the Courthouse of said County, I will offer for sale and sell at public auction, for cash, all the right, title, and interest of said G. A. Haney, in and to said property.

Dated at Tahoka, Texas, this 2nd day of April, A. D. 1929.

S. W. SANFORD,  
Sheriff, Lynn County, Texas.  
By D. H. McDaniel, Deputy, 28-3c

The presence of a considerable percentage of spindle shaped tubers in a lot of seed potatoes is a sign that the whole lot is undesirable for seed purposes. Late-season infection with spindle-tuber of healthy plants in the field often gives the disease to well-shaped tubers, which if used for seed produce diseased plants. Spindle-tuber may reduce the marketable crop from 25 to 50 per cent.

**WHAT SCHOOLS NEED**

A noted educator says that an active Parent-Teacher's association is the sign of a healthy condition and an indication that parents are vitally interested in the schools.

It is even more than that. It discloses that parents are not alone interested in their schools, but also in their children, and in order to better the condition of their offspring, are turning to the schools as the agency that can get results.

Not infrequently it has been charged that the changing social order has resulted in parents neglecting their children that the increasing demand of people for more leisure time has resulted in more hours per day devoted to pleasure, with consequent neglect of the home life and hence neglect of the children.

If this charge be true, and in many instances it doubtless is, it is the organization of parents and teachers devoted to improving the schools indicates a change of heart.

Many people are realizing that children have been neglected; that mother has spent too much time with her card clubs and church societies; that father has been devoting too many hours to playing golf, or to other pleasures. This has brought added responsibilities to the schools.

The natural thing for parents to do, after having overloaded the schools with responsibilities they should have borne, is to turn to school and help work out a way to meet the problems that confront the child of the present generation.

Grain sorghums like a warm soil, and seeding of this crop should not be done too early in the spring. Ten days or two weeks after corn-planting time is its best date. If sowing is done too late, however, early fall frosts may catch the crop before it matures. Thick stands yield better in favorable seasons, but in dry seasons thin stands are best. Cultiva-

tion should be begun early, planted often enough to weeds. Plant sweet potatoes in or at least in soil that has been planted to this crop for 3 or 4 years. Healthy plants may be prepared the hotbed, but plants are set in infested soil. Repeated use of the same hotbed year after the same causes of spreading many potato diseases, says the U. S. Department of Agriculture.

## Two Different Reasons for using CONOCO-ETHYL BOTH OF THEM GOOD

**1 To Save Wear and Tear**  
If you keep an accurate record of what it costs to operate your car, you'll soon realize that Conoco Ethyl Gasoline actually saves you money—despite the fact that it costs a few cents more per week than ordinary gasoline. It saves by keeping out the knock that wears and tears the engine... and by producing 100% power from every drop. There's no waste when you use Conoco Ethyl. It burns cleanly and at the right time—regardless of the compression of the motor. Conoco Ethyl will reduce your cost per mile. Try it and convince yourself.

**2 To enjoy High Compressor Performance**  
Lots of people don't know how to trouble to figure out the fact that Conoco Ethyl is better because this super-fuel has more than merely more cars... it provides a motorizing thrill by bringing every ounce of power the engine was designed to develop. Instant pick-up, snappy performance on the hills. There's a great condition in driving under conditions!

With the introduction of Conoco Ethyl Gasoline into this market, your dreams of an ideal motor fuel become accomplished facts. Conoco Ethyl has blazed the trail to superlative motor operation under all conditions of temperature—uphill or on the level—in traffic or along the open road. There is no motor fuel like it— for it combines all the superior qualities of Conoco, the Triple Test Gasoline, with Ethyl Fluid, the Anti-knock ingredient developed by General Motors after years of exhaustive research. Why not get the most from your motor? Fill your tank at the Conoco Ethyl pump—at service stations and garages.

**CONTINENTAL OIL COMPANY**  
Producers, Refiners and Marketers of high-grade petroleum products in Arkansas, Colorado, Idaho, Kansas, Missouri, Montana, Nebraska, New Mexico, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington, Wyoming

NATIONAL PROSPERITY LARGE- DUE TO HARMONY BETWEEN CAPITAL AND LABOR

By James J. Davis, Sec. of Labor.

In connection with the country's sound industrial conditions, one of the most pleasing features, which I am confident has firmly impressed itself on American industry, is the spirit of good will and understanding

LAMESA—Plans are being made by the committees from the local Chamber of Commerce to carry a large delegation to Tahoka for the West Texas District Chamber of Commerce meeting the 24th of April.

AN ELECTRICAL AGE

The people of the United States use as much electricity as all the rest of the world combined. We have almost five times the generating capacity of any other nation.

ration. Since 1912 the population of the country has increased 25 per cent; yet generation of electricity has increased 615 per cent.

In other words, electrical consumption has increased 20 times faster than the population. In the past seven years electricity has been extended for the first time to 9,000,000 new homes.

Now the greatest remaining field is rural electrification. As swiftly as it is possible the advantages of electricity that are enjoyed by city dwellers are being brought to the farms and the smallest villages.

TECH TO HAVE MUSEUM

LUBBOCK—A meeting to sponsor a movement for a museum at Texas Technological College has just been held.

LAMESA—Building permits in Lamesa passed the \$35,000 mark for the first quarter of the year.

The plan is to promote collection of materials by Schools and departments. Each department will have cases for its own collections placed in the science building with the objects already on exhibit by the geology department.

UTILIZATION OF STRAW FOR INSULATION BOARD

The utilization of wheat straw for insulation board is now a practical process and this year one factory at St. Joseph, Missouri, has purchased 30,000 tons of straw which is being manufactured into insulation board.

It has been found that wheat straw after steel fingers in a shredder have separated it, produces long tough fibres which can be fabricated into a board that has great structural strength and will provide insulation in building that saves 25 to 40 per cent in fuel for used heating.

LAMESA—Building permits in Lamesa passed the \$35,000 mark for the first quarter of the year. Indications are that much building will take place here in the next six months.

FAVORS 120-DAY SESSION

PARIS, April 1.—S. M. N. Marrs, state superintendent of public instruction, declared in an address to Lamar county scholo trustees today that he would urge adoption of an amendment to be voted on in 1930 which would lengthen the legislative session to 120 days and provide for

"business like" handling of legislative business.

White eggs in the incubator can be successfully tested for fertility on the fourth or fifth day, but the embryo in brown-shelled eggs can not be seen with an ordinary egg tester until the seventh day.

Get at the Real Facts When You Buy a Used Car WE SELL USED CARS WITH O. K. TAGS If you would get \$100.00 worth of value for every dollar you pay when you buy a used car, it is important that you buy from a dealer who gives you a true statement of the car's condition, as we do. Scores of used car owners who have bought from us will verify our claims in this respect. Phone and tell us how much you would like to pay—we will get a car to fit your pocketbook. DO NOT BUY USED CARS WITHOUT AN O. K. TAG. RAYBURN CHEVROLET CO.

9 reasons why it will pay you to choose a General Motors car 1. Engineering Excellence - All General Motors products embody the tested ideas of open-minded scientists of the Engineering Departments, Research Laboratories, and Proving Ground. 2. Fair Price Policy - General Motors products offer maximum value in each price class, whether you pay cash or buy on time, or use your present car as part payment. 3. General Motors Acceptance Corporation - The largest time financing company, offering low rates, making it easy to buy out of income. (GMAC Plan). 4. High Resale Value - A large number of miles of transportation are built into each General Motors car and truck. That mileage gives the product a definite cash value, which is maintained in the used car or truck market. 5. Finest Body Work - Fisher Body is a part of General Motors. That assures you the most sturdy, safe and beautiful bodies. All General Motors cars have "Body by Fisher." 6. Volume Production - By producing around 2,000,000 cars and trucks a year, together with many other products, General Motors can effect large economies in manufacture which are passed on to you in the quality and price of your General Motors car. 7. Combined Purchasing Power of Many Companies - Assuring the use of the best materials at the lowest prices. 8. World-wide Service - There are 33,000 salesrooms and service stations in more than 100 countries to serve General Motors' customers. 9. Permanence - General Motors is in business to stay. Its resources, strength, and stability assure you that the quality, service, and value of its products will be maintained. PRODUCTS OF GENERAL MOTORS CHEVROLET, 7 models, \$515-\$745. ### JUNIOR CLASS TO PRESENT HIGH FLYERS TO-NIGHT

One of the best plays ever presented by high school students will be presented this evening by members of our Junior Class at the high school auditorium. "High Flyers" is the title of the play, which was written by Mrs. Mamie Harris Mobley, author of the Zander-Gump Wedding.

According to the story Dovey Doyle, an unsophisticated, but intelligent country maid leaves the farm and goes to the city to Berkshire College.

Jack Whitney, handsome and athletic as well as being unusually brilliant, leaves his little mountain home

to attend college. Dovey and Jack become very much interested in each other.

Maize Murray, a vamp from a town near Dovey's home, is also in love with Jack. She plots to win him at any cost. She tells Dovey that Jack is very wealthy, and is only "kidding her along," as he wouldn't consider anyone who didn't have aristocratic ancestors. Maize tells Jack the same thing about Dovey. This arouses Dovey's and Jack's fighting blood, and they both decide to win their heart's desire.

Dovey's roommate, Babs, and Jack's friend, Bob, are converted into aristocratic parents. Many screeching humorous scenes are enacted. Dovey and Jack both make a desperate

effort to be "High Flyers." Dovey's country aunt and their real parents appear on the scene. (Mr. Whitney, a widower, becomes interested in Mrs. Doyle when he finds out that she is a widow.) Then things become complicated. Rose, the Irish maid, says she's heard of two most everything, but two mammas and two papas, at both and the same time gets her brain going round and round.

Jack and Dovey are selected to represent Berkshire College in music and oratorical contest, but have been too busy "Flyin' High" to take it seriously, until the day before the contest. Jack sits dreaming when suddenly he hears his fellow students practicing their yells, yelling for him. He then realizes that he has been "Going up in the wrong direction." He determines to fight for his Alma Mater.

At the contest, Jack admits his poverty and makes a wonderful oration. Berkshire wins the contest. Maize's plans are upset a bit after Jack's speech. Her brother, John Murray, comes in intoxicated and "spills the beans" concerning the whole affair. After the real truth is known, Jack, Dovey, Mrs. Doyle and Mr. Whitney make it a "double."

#### CARD OF THANKS

We wish to express our heartfelt thanks for the many acts of kindness and words of sympathy during the illness and death of our dear wife and mother. Also wish to thank each for the beautiful floral offerings. Your many acts of kindness and words of sympathy shall always be remembered.

R. R. Jordan and family.

Miss Thelma Palmer returned Sunday from a two weeks' visit with her aunt, Mrs. W. A. Emerson, of Winfield, Texas.

R. P. Ledbetter and daughters, Misses Ina and Myrtle spent Sunday with Mr. and Mrs. Brady Nix of Wilson.

### "STATE STREET SADIE" CLYCLONE OF THRILLS

Lynn Theatre Thursday and Friday.

"State Street Sadie" is the thrilling successor of "The Girl from Chicago," which won such clamorous approval for the three featured players, Conrad Nagel, Myrna Loy and William Russell. The capable trio are seen in "State Street Sadie" in the exciting aftermath of a bank robbery in which a member of the police riot squad has been shot.

Myrna Loy, daughter of the murdered cop, sets forth to capture the assassin, and her suspicions gravitate between Nagel and Russell, in a series of hair-raising adventures, which culminate in the discovery of the perpetrator of the puffy party in the midst of a wild fusillade in which gangsters and officers of the law clash.

Other members of the cast are those two masterly interpreters of the tough guy—George Stone and Pat Hartigan. There are of course a large number of supernumeraries which add to the picture of Chicago's "Loop" district, which is locale for the sensational crime picture. Melville Crossman wrote the story

of "State Street Sadie" and the screen adaptation was made by the clever E. T. Lowe, Jr. Direction was given over to Archie Mayo, who has acquitted himself splendidly.

Manager Hardy of the Lynn Theatre announces the coming of "State Street Sadie" next Thursday and Friday.

# Join the Celebration

It is now our first anniversary and our business has grown immensely.

We do not know how to express our appreciation in language to our friends for their patronage, their untiring efforts in helping us to put this store over, so we have decided we would have a big gathering rally and we will pay the bill. So on Saturday, April 13, we are going to sell groceries at bargain prices as O'Donnell has never known before.

We will not charge anything at these prices, and knowing, as we do, that we cannot compare our Cash Stores in prices and run charge accounts, we will sell for

## Cash Only Beginning the 13th

We hope our customers will continue to trade with us, and we continue to stand by our old policy of courteous treatment, quick service and high quality merchandise.

We will be able to give you better prices than we have been giving, and our delivery service will continue in the city.
