Eagles Down Seagraves For Homecoming Victory

O'Donnell's David Bessire led his team to a 22 to 12 victory over Seagraves in a District 5-A football game Friday night.

The game did not affect the conference race.

There was no scoring in the first half.

Bessire scored all three O'Donnell touchdowns the first one on a 5 yard end sweep in the third. Tommy Gardenhire ran the points.

Seagraves' Joe Faulkenberry hit center for 2 yards and a score late in the third. Points try failed.

Then Bessire rounded right end for 15 yards and another score. Points try failed.

Late in the game Wilmer Giddens of Seagraves ran 2 yards to score. They did not make the points.

O'Donnell had 19 first downs to 16 for Seagraves. Bessire and Larry James were outstanding for O'Donnell while Faulkenberry turned in a good game for Seagraves.

The game ended O'Donnell's season with a 5-4-1 record and a 2-2 in conference.

Mrs. Floyd Thompson gave the history of the class and was the main speaker for the night. Exes were present from faraway including Arizona, New Mexico, Kansas, and a number from Kermit and Odessa.

Mrs. Moore supervised the decorations with much original thought. At the head table were paper phonograph records with names of class members. Even larger records had names of faculty members. Color scheme was red and white, the class colors. Centerpiece of the table was a toy truck bearing the title "Carlsbad caverns here we come" — whereby hangs a story that any 1934 graduate will be glad to tell you.

Lions Musical Comedy Stage Show Is Thursday & Friday

Good Cast

The cast and chorus of "Around The World In A Daze" sponsored by the Lions Club are busy rehearsing for the hilarious musical comedy to be presented at the O'Donnell High School auditorium Nov. 12th and 13th. Admission is \$1 and 50c. Proceeds will go to the Park Playground fund.

Mrs. Ellis Barnes is pianist.

John Saleh, as announcer at the big TV quiz show awards Casper and his landlady, Mable, played by Joe Burckett and Mary Jean Halloy, the prize of a trip around the world. Airline hostesses will call the flights.

The first stop is Denmark — the home of fairy tales where the story book lady (Edna Carroll) reads the tale of Cinderella enacted in pantomime by 1st, 2nd and 3rd grade students. This is a scene you will long remember. Next stop is a peasant section of Europe for a festival in the Forest with charm of native polkas danced by the Lichtenstein chorus. We can't stop long so on to Paris and the famed Folies Bergere where Maurice Chevalier (Wayne Clayton) introduces Paris nite life charm.

Then back to USA. It is Sadie Hawkins Day in Tennessee and the mountain women are starting their Saddle Hawkins Day Race. You'll meet Wilder Willobec, Granny Gibson, Sister Duncan and a whole mountain side of women getting ready for the big day. "Springtime in Smokies" is loads of fun.

In silent movie technique you'll witness the goofiest scene you've ever seen as the hill characters enact the "Martins and the Coys" for you. The six guys who take part have a "ball".

We've yet to visit the Orient to be entertained at a Japanese Garden party with Madam Butterfly. Then we are in Egypt and a harem and the Sultans' Sweeties.

Then a big colorful finale.

Read the complete program on page 3. Curtain is at 8:09. Be there. It's the most fun Big O has seen in many a year.

S. S. News

As of February, 1959, old-age, survivors, and disability insurance monthly benefits were being paid in the Lubbock district at the rate of 9 million dollars a year, according to John G. Hutton, manager of the Lubbock Social Security District office.

"This is an increase of about 38 per cent over last year," Hutton said.

Mr. Hutton stressed that while the benefits are intended primarily for the beneficiary's economic security, the payment of social security benefits at the rate of \$250,000 a year in Lynn County and \$550,000 a year in Dawson County helps business in the community generally because most of the money is spent immediately on food, clothing, and other necessities.

"In February, social security benefits were being paid nationally at a rate of nearly 10 billion dollars annually.

"Payments to a retired worker with no dependents receiving benefits averaged \$67.50 a month nationally in February, and to a retired couple — \$119.40 a month," Hutton said. The average for a widow with two children was \$165. The maximum payment for a family is \$254.

"There were several reasons for the increase in beneficiaries over last year," Mr. Hutton said. The long-term growth of the aged population and of the proportion of the aged population eligible for benefits are important factors in the continuing increase in the number of beneficiaries. Other reasons found in the provisions of the 1958 Amendments to the Social Security Act which now make it possible for the wife, dependent husband, and children of a disabled — worker beneficiary to receive monthly payments. These amendments also provide for benefits to aged dependent parents of a deceased worker even though other survivors are entitled to payments.

Moreover, Mr. Hutton pointed out, it is now easier for a disabled worker to qualify for benefit payments. He no longer needs social security credit for 1-2 years' work in the last 3 years he became disabled. If he worked under social security for at least 5 years out of the 10 before he became disabled, he may be eligible for disability benefits.

"Increases in average benefit payments reflect the 7 percent raise in benefit amounts which became effective with the checks for January, 1959," Mr. Hutton said. Average disability benefit payment also reflect the elimination of the so-called "offset" provision in the old law. Disability benefits under social security are now payable in full even though benefits are also payable under State workmen's compensation or under some other Federal Government program.

MISS SUE WINANS IS HOMECOMING QUEEN

Miss Sue Winans was crowned Homecoming Queen Friday night prior to the homecoming game. She is the daughter of Mr and Mrs. Clyde Winans of here. Her attendants were Miss Margaret Hoskins, a senior, Miss Daphne Hogg, a sophomore and Miss Ruthell Jackson, a senior.

The weather was bitter cold.

Weeds rob your livestock of good grazing and in addition use four to eleven times more water for growth than grasses. To have more grass for next year's grazing, G. O. Hoffman, extension range specialist advises spraying with one pound of 2, 4-D per acre. One application will usually give weed control throughout the growing season. This method of pasture weed control method is economical, costing about \$2 per acre.

At the recent carnival Richard Mansell was best dressed by and Connie Pirtle was best dressed girl. The PTA will skip the November meeting but will meet in December.

NO PTA MEETING THIS MONTH

What do you carry on a hunting trip? Things such as guns and ammunition, you say. Good safety measures should also be carried for a successful trip, according to Edwin H. Cooper, extension wildlife specialist, who says there is no substitute for "thinking safety."

Good safety points to remember include: be sure your ammunition is the correct type and size for your gun; never point your gun at anything you don't intend to shoot; use caution when shooting in the direction of nearby farmhouses and across water; be sure of your target before firing; unload your gun when crossing fences or climbing trees; and never bring a loaded gun into the house.

Experienced hunters know these safety precautions, but every year many young, inexperienced hunters are shot because of lack of good safety knowledge. For a good hunt and a safe one, Cooper says be careful and carry the safety rules with you on every hunting trip.

RIGHT FOOD IMPORTANT

Heathful nutrition is a year round job. But as cooler weather comes to Texas, it becomes increasingly important to guard against falling victim of "winter susceptibility."

There isn't any such term, but the fact of the matter is that bodily resistance may be lessened during fall and winter.

For this reason it is smart to observe, more than ever, the rules of good nutrition.

The well-fed family receives the basic foods in their daily diet. Food rich in protein should be served at every meal.

Meat, fish, poultry, eggs and milk (including milk products like cheese and ice cream) are the best sources of high quality protein. Other sources are cereals, peas, beans, and nuts.

A green or yellow vegetable should be served at least once a day. These contain essential vitamins and minerals.

Because it cannot be stored in the body, vitamin (from citrus fruits, tomatoes and other fresh or processed fruits and vegetables is needed every day.

With the addition of these to round out meals according to tastes and appetites, the well fed family is provided with all the nutrients needed for health and growth.

To Wed ---

Announcement is being made of the engagement and approaching marriage of Martha Weatherford, daughter of Mrs. X. Weatherford and the late Mr. Weatherford to James Thompson, son of Mrs. C. F. Thompson, sr. Miss Weatherford is employed at the County Tax office in Tahoka and Mr. Thompson is a teacher in the local school. The couple, both graduates of the local high school, will wed in December.

V. A. Quiz

Q—As a veteran of World War I getting VA pension, I understand I can continue receiving pension under the present system or go under a new system when it becomes effective July 1, 1960. When must I make my choice?

A—There is no set time for making your choice. It can be made at any time. However, once you have made your choice you must stick with it. You cannot change back. VA will send you ample information to help you make the right choice.

Q—I entered school under the GI Bill this fall, but so far I have not received an allowance check from V. A. How soon after starting school may I expect my first check? A—Veterans starting school under the Korean GI Bill can expect to wait about two months for their first GI allowance check. The reason is, the law does not permit VA to pay a student until after the first month of classroom work has been completed, and VA is allowed up to 20 days after that to get the check in the mails.

Q—I have a disability income rider on my G I insurance which will pay me up to \$50 a month, if I become totally disabled. I understand the amount has been raised and that my coverage could now be greater if I want it that way. Please give me details.

A—A recent law increased the total disability payments up to \$100 a month. You may obtain this additional coverage for a small additional premium over what you are now paying.

Q—Is a peacetime veteran with a disability rated 50 percent entitled to more compensation for dependents?

A—Yes. Peacetime veterans rated 50 percent or more disabled may be entitled to additional compensation for a wife, minor children, and dependent parents.

THAT'S A FACT

Safe Water Is Important

The heavy rains a while back caused millions of dollars in property damage. Worse still, there was some loss of life.

Often accompanying such flash flood activity is the danger of unsanitary conditions. These conditions range from improper sewage disposal to contamination of food-stuffs which must be destroyed.

One of the most important consequences is contamination of private water systems, especially rural wells. Heavy flooding invariably deposits surface contamination into such wells.

To remedy the situation, certain steps must be taken. The well should first of all be thoroughly pumped out to remove all sediment.

Next the well should be treated with a suitable chlorine-type disinfectant. Local health departments will recommend the one that is best for a particular situation.

After the chlorine compound is deposited the water should be circulated so that the chlorine solution reaches every part of the water system. Well, pump, all water lines, spigots — everywhere should be thoroughly disinfected by circulation and recirculation.

Following treatment the well and water system can then be flushed to remove the excess chlorine from the system.

In 72 hours, samples should be taken and sent to the local or State Health Department for testing to determine that all the contamination has been removed.

If any contamination is present, the entire process should be repeated.

There's nothing like a new car—and no new car like a Chevrolet. This is the 1960 Chevrolet Bel Air Sport Coupe!

PEOPLE SAY THESE ARE THE THINGS THEY WANT IN A CAR...and CHEVROLET for '60 comes closest to meeting every need!

Interviews with thousands of car owners across the country show clearly what they like or dislike about their present cars . . . and what they want most in their 1960 cars. Here's what the people tell us they want . . . and here's how Chevrolet meets their needs.

"Price, that's what's uppermost in my mind." All Impalas and Bel Airs with V8 engines are lower in price, as are automatic transmissions and many other popular options. Also Biscaynes now include as standard equipment conveniences formerly optional at extra cost.

"And how about operating economy? And resale value?" You keep right on saving after you buy your favorite Chevrolet, too. And Chevrolet's traditionally higher resale value means you'll get more back when you trade.

"Give me plenty of good old-fashioned comfort." There's comfort and then some in this one. Chevy's long on space, for one thing. Once you're under way you'll know just how comfortable Full Coil suspension makes your ride.

"Safety—don't forget safety!" You're surrounded by safety features in a new

Chevrolet. You've got big, sturdy brakes underfoot, for example, that last longer. As it has been for years, safety is standard equipment in Chevy.

"Let's keep upkeep down, too." More than ever, Chevrolet for 1960 is built to stay on the road and out of the repair shop. You can tell that from its hushed, unruffled way of going, from the solid thump of Chevy's big doors. Of course, if you should need service, you're always near efficient, economical attention to your needs.

"I want a car that will stand up to the driving I do." For proof of Chevy's staying power, just spend a minute watching the nearest road. You'll see more Chevrolets traveling on it than any other car—evidence-on-wheels of Chevrolet durability. (And that higher resale value attests to it, too.)

"Me for a sweet-handling car." Handling's always been Chevy's forte, and

1960 is no exception. But really, this kind of lightness and precision you've simply got to enjoy for yourself.

"... a car you can look at and be smug about buying it." Chevrolet for 1960 leaves the low-price field far behind when it comes to styling. But you're the best judge of styling, so take a good close look at Chevrolet. We warn you: you're about to fall in love.

"And performance. Let's have a hot one!" Chevy's spirited V8's have set the standard for ultra-efficient power in American-built passenger car engines. You've got a long list of performance-minded transmissions to pick from, too.

So that, friends, is what you told us you want. We think it can be summed up rather well in just one word: *value*.

Get the full story of Chevy's brand of value soon at your Chevrolet dealer's.

Nearest to perfection a low-priced car ever came . . .

Free Speech Issue In Court Proceeding

LINCOLN, Ill.—Free speech was the issue here in a contempt of court case in which nearly 600 persons faced possible fines and jail sentences.

The defendants, many of them members of a reform group known as the "Good Government Council of Logan County," were cited for contempt for petitioning Circuit Judge Frank M. Bevan to replace a state's attorney in a case involving the prosecutor's friend.

Judge Bevan said the petition contained "odious, defamatory language concerning an official of this court." State's Attorney Edwin C. Mills.

Members of the Good Government Council contended Judge Bevan could not hold them in contempt and said if the prosecutor felt he was defamed by the petition he could sue them in a civil court.

The case arose when, as a result of action taken by the Good Government Council, Justice of the Peace Vincent Jones was charged with illegal diversion of funds collected in overweight trucking fines. Mr. Jones was charged with perjury, embezzlement and malfeasance.

The council followed up the case with a petition asking that Mr. Jones, be replaced by a special or assistant prosecutor.

V. A. Quiz

Q—As a veteran of World War I getting VA pension, I understand I can continue receiving pension under the present system or go under a new system when it becomes effective July 1, 1960. When must I make my choice?

A—There is no set time for making your choice. It can be made at any time. However, once you have made your choice you must stick with it. You cannot change back. VA will send you ample information to help you make the right choice.

Q—I entered school under the GI Bill this fall, but so far I have not received an allowance check from VA. How soon after starting school may I expect my first check?

A—Veterans starting school under the Korean GI Bill can expect to wait about two months for their first GI allowance check. The reason is, the law does not permit VA to pay a student until after the first month of classroom work has been completed, and VA is allowed up to 29 days after that to get the check in the mails.

Q—I have a disability income rider on my G I insurance which will pay me up to \$50 a month. If I become totally disabled, I understand the amount has been raised and that my coverage could now be greater if I want it that way. Please give me details.

A—A recent law increased the total disability payments up to \$100 a month. You may obtain this additional coverage for a small additional premium over what you are now paying.

Q—Is a peacetime veteran with a disability rated 50 percent entitled to more compensation for dependents?

A—Yes. Peacetime veterans rated 50 percent or more disabled may be entitled to additional compensation for a wife, minor children, and dependent parents.

Commuter Snags Train But Can't Hold It

EUREKA, Calif.—Loafers around the railroad station here tell this for the truth. Seems the station agent heard a loud crash on the platform. He ran out and saw the rear end of a train disappearing around a curve. A disheveled gent lay prone on the ground, surrounded by the contents of his banged-up suitcases.

An owlish youngster stared at the gent, but made no effort to assist him. "Was he trying to catch the train?" the station agent asked the youngster.
 "He did catch it," replied the youngster, "but it got away."

What you do about insurance protection within the next 24 hours might very well determine whether you remain a homeowner or wind up "out in the cold" like the gentleman above.

Building costs have doubled. Would you be able to replace your home if it is destroyed tomorrow? Not if it is insured by 1946 standards.

Be sure your insurance protection is up-to-date. Our free protection check costs you nothing, and may save you thousands of dollars.
