AN INSURED HOME IS A SECURED HOME

What more uneven contest can you imagine than your widow and little children struggling with your mortgage?

1 per cent or 2 per cent additional interest will guarantee to your family that, if you leave them, the mortgage on your home and property will be paid.

If the interest on your mortgage is 6 per cent, an additional 1 or 2 per cent will not greatly increase the load, but it will provide enough life insurance protection to guarantee that the Widow will not lose the home.

Security - Satisfaction - Peace - Happiness - depend upon the additional 1 or 2 per cent.
