

SCIENCE AND ENGINEERING JOIN TO DEFEAT RURAL LIFE ENEMIES—ROAD MUD AND DUST

Left—Science has proved that mixtures of natural soil materials, held together by moisture, can convert the typical mud "road" into one that is as dustless in August as it is mudless in April.

Right—When it isn't mud, it's choking dust. Another road that will yield quite cheaply to the new formula for making good rural highways.

Science and engineering effectively combined forces to fight these evils of rural life—road mud and dust. Making use of just such soil materials as may be found in almost any county, plus a moisture attracting chemical, the United States Bureau of Public Roads has developed a formula for building low cost, all-weather roads that from now on likely get a bigger share of federal construction funds if the clamor for secondary highways is any indication of future trend. The Bureau has found that tiny particles of moisture form the key for holding soil particles together. In road building, definite proportions of soil materials and very little plus some moisture tend to form a condition which results in a road that is quite hard and, with maintenance, is as dustless in August as it is mudless in April. The kind usually found on "black-market" roads actually operate to make a better road instead of making it up. This is because the

"stabilized" road materials are compacted even more by the rolling weights above. How to provide and maintain the necessary moisture during dry months was the problem. Then chemistry stepped in with a substance—calcium chloride—that, when spread on the road, absorbs moisture directly from the atmosphere and keeps the road surface damp. Experimenting independently in an attempt to find a type of road that would cost little, yet provide a good surface for the greatest number of people all year round, the highway departments of several states followed the lead of Michigan and also developed dustless, mudless roads of the stabilized kind. Now thousands of miles of chemically stabilized roads serve rural and resort areas of Michigan, Indiana, Ohio, New York and other states. In these areas travel was not enough to justify spending \$7,000 to \$20,000 a mile for heavy traffic pavements, but quite enough to warrant spending from

\$650 to \$2,500 a mile for full stabilization. Where funds are extremely limited, spreading calcium chloride to eliminate the dust is the best thing to do. This costs from \$150 to \$300 a mile. A little more money may make possible a "partial stabilization," accomplished by adding to the road an inch or so of properly proportioned topsoil or pebble-soil, clay and chemical. Sand-clay mixtures and crushed shell also make highly suitable ingredients in this method of road improvement. The "consolidated" surface resulting from this improvement measure not only takes care of the dust nuisance but eliminates spring mud, too. The following year this step can be repeated to give a thicker wearing surface. Highway engineers call this "stage" construction of a stabilized road. It is a pay-as-you-go way of building a fully stabilized road over a period of years, but providing a nuisance-free highway in the meantime. Of course, full stabilization is desirable if funds are at hand.

Grasshopper Control Fight Underway

COLLEGE STATION. — The fight to combat the worst grasshopper infestation in history is underway with the arrival of 27 carloads of bran and 14,500 gallons of sodium arsenite from federal sources, according to R. B. Reppert, entomologist of the Extension Service of Texas A. and M. College and state grasshopper control leader.

Texas has been assigned 6,000 tons of bran and 140,000 gallons of sodium arsenite by the Bureau of Entomology and Plant Quarantine, which administers the government's grasshopper control program. This material will be matched by farmers who will receive allotments of poison mash through county agricultural agents and county grasshopper control committees.

Entomologists have known for over six months that more than 100 Texas counties would suffer a severe grasshopper infestation, and federal entomologists have helped the Texas Grasshopper Control Committee make advance plans to hold down crop damage.

While the hatch is still incomplete, hoppers have emerged in record numbers in most counties where damage is reported. Only in the Panhandle are the hoppers still in the egg stage. The recent cold wave did little to reduce the grasshopper numbers.

County agricultural agents and county grasshopper control committees, and farmers, are ready to combat the insects. Experience has shown that control is simplest when poison mash is scattered around the places where hoppers hatch out before they multiply and spread to fields. A similar program last year saved Texas farmers 6 million dollars and returned more than a hundred dollars for each dollar spent.

Control measures will begin around May 1 in the counties where the hatch is most advanced, Reppert said.

There are about a hundred and twenty-five varieties of goldenrod, most of which are found in the United States. They are cross-fertilized by butterflies and bees, and are typical insect-pollinated plants. The pollen gives a positive hay fever reaction, but not being wind-borne, can cause hay fever upon direct inhalation.

Four Dead As Result Of Torado's 25-Mile Swath

By Journal Staff Writers
O'DONNELL, April 27—A stunned and bewildered countryside still attempted unsuccessfully this morning to count the cost of a devastating tornado which twisted and bounced over rural areas in the vicinity of O'Donnell late Tuesday, spreading death and destruction.

Although the confusion and crippled communication facilities made impossible a definite check of losses, these were some of the facts and developments:
Three persons were killed, all in the vicinity of Draw community, 17 miles southeast of Tahoka, which seems to have been hit hardest.

They are Mrs. Vernon O. Caswell, 22; John Walters, 15, and George Walters, 40, all of Draw community. John Walters is the son and George Walters the nephew of Mr. and Mrs. Mack Walters.

Reports Not Confirmed
Rumors were that at least two others had been killed in the vicinity of OK, near Lamesa, but these reports were lacking confirmation and were believed untrue.

Robert T. Bridge of St. Louis, Red Cross field representative for West Texas, reached the scene to observe the needs for relief, which obviously are most extreme.

At least a dozen farm homes were wholly or almost wholly destroyed in most places leaving their occupants with only the clothing they wore.

Attempts to estimate how many may have been injured were no more than guess-work. However, 18 persons are reported as victims of the storm.

Announcement by J. M. Walter, OK county health officer, in a recent attempt to provide medical attention to persons not receiving attention at regular hospitals.

Announcement that committees at Lamesa and O'Donnell are being organized to investigate needs in the disaster area.

The number receiving painful injuries attended by relatives and friends probably would exceed 50. The exact number never will be known.

Five in Serious Condition
Of the 12 who actually remained in hospitals this morning condition of at least five was pronounced serious, although probabilities were said by attendants to favor their recovery.

Five in addition to those of whom status, several others were given emergency treatment for pain, though not serious injuries. Medically every doctor and nurse at the city assisted in attending the injured.

Injuries Are Treated
The same was true at O'Donnell where Dr. O. H. Sheppard and Dr. J. M. Buhany said they dressed the injuries of at least 10 persons. Some of them may have been taken later to hospitals, but most of them returned to the wrecked scene of their homes.

Bodies Were Mutilated
Bodies of all three were mutilated terribly. Mrs. Caswell, witnesses said, was swept a distance of several hundred feet in the splintered wreckage of the home she and Mr. Caswell occupied.

The two Walters were in an automobile returning to their home when the tornado caught them, scattering it many times. Perhaps the most remarkable escape from death of the storm victims was that of Mary Bell Walters, 7, sister of John, who was carried to safety in a nearby house.

Girl Carried In Air
She was jerked from the car, carried at a height variously said to have been 20 or more feet for a distance of perhaps 200 feet, and finally was deposited on the ground suffering only from fright, shock and minor lacerations and bruises.

No one seemed to know definitely where the tornado made its first appearance, nor what its progress was from that point on.

Most accounts, however, seem to agree that it probably swooped out of the southwestern sky in the vicinity of OK county about 10 miles south and west of O'Donnell. From wherever it started, all accounts agree it topped, curved and dipped along a zig-zag path which may have been as long as 30 miles until it finally struck its most devastating blows at the outskirts of the village of Draw.

Apparently one of the first houses to be destroyed was the home of Mrs. Walters, which was completely blown away by the storm.

Added to worry of four members of the family who occupied one room, was anxiety over condition of a 13-month-old infant member of the family, Irene McKay, who lay in a nearby room with a fractured skull.

W. F. Cook, father of Mrs. McKay, asked a newspaperman, "I want to see how things are as soon as I can go," he said.

Mr. and Mrs. McKay and son, Louise Daniel, and niece, LaVerne Stander, were in the sanitarium, beside Irene.

Kone Irene was considered in serious condition this morning. The niece was dismissed from the sanitarium late this morning.

Even in their tragedy, they were thankful for certain miraculous escapes.

Louis McKay Family In Sanitarium; Has No Home, But Thankful For Escapes

A forlorn family group lay on beds this morning at Lubbock sanitarium, with no home to which to return.

The Louis McKay home was one of the residences near Draw community blown away by the storm.

Added to worry of four members of the family who occupied one room, was anxiety over condition of a 13-month-old infant member of the family, Irene McKay, who lay in a nearby room with a fractured skull.

W. F. Cook, father of Mrs. McKay, asked a newspaperman, "I want to see how things are as soon as I can go," he said.

Mr. and Mrs. McKay and son, Louise Daniel, and niece, LaVerne Stander, were in the sanitarium, beside Irene.

Kone Irene was considered in serious condition this morning. The niece was dismissed from the sanitarium late this morning.

Even in their tragedy, they were thankful for certain miraculous escapes.

The Cook home, located about two miles from the McKay home, was untouched by the storm. Mr. and Mrs. Cook were at the sanitarium this morning to be near their daughter and other injured.

The McKay family, Mrs. Berry said, apparently had no warning of danger until the tornado actually was upon them.

Mrs. Berry did not learn how far the babies were carried when torn from Mrs. McKay's arms, though apparently only a short distance.

Mrs. Berry's face was described as being a mask of blood when assistant-

Prexy Goddard sure is romantic. When she goes she had a feller.

Meady is not very interested in the whys and wherefores of the cavern. All she wants is the guide was, "Are you married?"

Lometa and Merle had decided to move to Amberst or thereabout. Lometa's motto is "A bird in Amberst is worth two in O'Donnell."

Merle is also quite crippled this week. She no more than picked one little, tiny rock up and fell over the giant dome and fell

Isn't this the real problem of Beer - and almost its only problem?

THERE ARE people, of course, who steadfastly and sincerely believe beer to be intoxicating, or its use is injurious, harmful, or a first step toward use of "hard liquor."
Just as sincerely we hold that the weight of the evidence is overwhelmingly against them... that beer is a mild, wholesome food beverage... that "there is nothing more promising to combat the evil of too much alcohol than the opportunity of drinking good beer."
No, it is not in beer itself, we believe, that its gravest problem lies, but in those conditions undesirable to us all, which sometimes surround its sale.

Miss Jessie Middleton and Mr. Sam Newsom Wed In Roswell Saturday

(Roswell Daily News)

Miss Jessie Middleton, daughter of Mr. and Mrs. J. T. Middleton, Sr., of O'Donnell, Texas, and Sam Newsom, Jr., were married in a quiet but impressive ceremony Saturday evening at 9:30 o'clock at the home of Mr. and Mrs. Jack Dale, 913 North Richardson avenue, with only a small group of close friends in attendance. The beautiful ring service was read by Rev. A. E. Elmore, before an improvised altar of palms, ferns and baskets of snapdragons and stock.

Exquisite nuptial music was played by Miss Dorothy Deason on the violin.

The bride was lovely in a smart cape suit of white crepe, with white accessories. Her flowers were rosebuds, lilacs-of-the-valley. She was attended by Miss Virginia Tarpley, lovely in lilac-colored linen, with shoulder corsage of pastel flowers, which she carried as bridesmaid. Miss Middleton was given in marriage by Mr. Lee Tarpley, father of Mrs. Jack Dale and Miss Tarpley.

Dr. Zimmerman, a life-long friend of the groom served as best man.

After the ceremony an informal reception was held with the lovely wedding cake, topped with a tiny bride and groom, cut and served with coffee.

Miss Middleton is a graduate of O'Donnell high school and of Draughon's Business College in Lubbock. For the past two years she has been an employee of Montgomery-Ward & Company, serving as mail order clerk in the local store.

Sam Newsom, a graduate of Roswell high school is an employee of the state highway department.

After a short wedding trip Mr. and Mrs. Newsom will be at home in the Tanner apartments.

Those present for the wedding were: Mr. and Mrs. Lee Tarpley, Mr. and Mrs. Billy Jacobson, Mr. and Mrs. Frank Young, Miss Viola Matthews, L. D. Stockton, Miss Virginia Tarpley, A. E. Elmore, and Mr. and Mrs. Jack Dale.

Mrs. Allen Crowley Entertains Junior And Intermediate G. A. Groups

Mrs. Allen Crowley entertained at her home Monday afternoon for members of the Intermediate and Junior G. A. groups.

Outdoor games were played and scrapbooks were made. A refreshment plate of sandwiches and punch was served to the guests.

During the short business session the following Intermediate officers were elected: Lena Mae Robinson, Sam Singleton, Joe

Wigman, and Newell Hughes of Tahoka.

Sew and Chatter Club Meets With Former Member

Mrs. Jack Miles, former member of the Sew and Chatter Club, entertained at her home Tuesday afternoon, for members of the club.

Following the usual hour of sewing, the hostess served an appetizing sandwich plate with iced tea.

Present were: Mesdames Stansell Jones, Allen Crowley, S. F. Johnson, Claude Cheairs, C. N. Fritz, Jr., D. M. Conger, Harvey Line, Ralph Blanton, Frank Shumake and Lloyd Frazier.

The club will meet this afternoon with Mrs. Claude Cheairs.

Methodist Missionary Society Has World Outlook Program

Three T-Bar guests were present Monday afternoon when the Methodist Missionary Society gave a World Outlook program.

Present were Mesdames Mesdames G. W. Gates, S. G. Wheeler and R. O. Stark.

Plans were made for serving the Junior-Senior banquet Saturday evening.

Those present were Mesdames M. E. Pierce, J. P. Bowlin, J. W. Gates, Joe Spikes, S. G. Wheeler, M. A. Garner, M. R. Pike, Joe Schooler, R. O. Stark, Ben Moore, and those from T-Bar were Mrs. Coffey, Mrs. J. B. Moore and Mrs. Lindley.

Loyal Service Program For Baptist Missionary Society

"Loyal Service" was the topic for the program, when the women of the Baptist Missionary Society met at the church Monday afternoon at 3 o'clock.

Those taking part on the program were Mesdames Allen Crowley, F. M. Vaughn and Harvey Line.

The Rev. J. A. Lunsford, Baptist pastor, will direct a Bible study next Monday afternoon.

Entertains In Home Wednesday Afternoon

Mrs. William G. Forgy was hostess to a group of friends and two out-of-town guests Wednesday, when she entertained with bridge.

Appointments were of a flower motif in pastel shades.

In the contrast games, Mrs. Floyd Thompson was awarded a high score trophy. Miss Wynona Huff low and Miss Thelma Palmer cut prize.

An appetizing salad plate with coffee was passed at the conclusion of the games.

Present were Mesdames Floyd Thompson, M. D. Conger, Ralph Blanton, William Pettit, of San Angelo, Harold O'Hearn of Brownwood, and Misses Thelma Palmer and Wynona Huff.

Mrs. J. Mack Noble, Jr. Is Tuesday Club Hostess

Colorful spring flowers adorned the home of Mrs. J. Mack Noble, Jr., Tuesday afternoon, when she entertained members of her club.

Concluding the usual games of bridge, high and bingo prizes went to Mrs. Pauline Campbell, and low was received by Mrs. Joe Wigham.

An appetizing refreshment plate was served to Mesdames Guy Robinson, E. T. Wells, Pauline Campbell, M. J. Whitsett, L. E. Robinson, Sam Singleton, Joe

IN HARMONY WITH SPRING

PERHAPS it's because of its pretty pink color—but somehow ham seems to belong to spring. Oh, of course, it's delicious all the way through the calendar! But in spring it has a special appeal. We always think of ham as an especially appropriate dinner for Easter and other spring entertaining. And naturally the first thing that comes to our mind for such occasions is a handsome big baked ham, covckilled peaches or whatever you like. Here are the directions for preparing such a regal-looking ham.

- Spiced Baked Ham**
- 1 ten to twelve pound ham
 - 1 cup mild vinegar or cider
 - 1 cup ham liquor
 - 1 tsp. mustard
 - 1 cup brown sugar
 - 4 dozen whole cloves
- Soak the ham in cold water overnight. In the morning, remove ham for ten minutes and let it simmer for 2 hours. Take the ham from the water, remove the skin from 3/4 of the ham, leaving about 1/2 on the shank end. Bake slowly for one hour, with the fat side up, basting with a mixture of vinegar, ham liquor and mustard. Sprinkle with a knife, cutting the fat surface into squares, insert cloves in the corners of each square. Cover the whole fat surface with brown sugar using the back of a spoon for rubbing it into the fat. Continue baking slowly for 1 1/2 hours, basting frequently. You'll need a moderately hot oven with 400° F. for the first 15 minutes. Then reduce the heat to 300° F., and cook over for the remaining time. You can get 25 servings from such a ham. And you can use the juice from pickled peaches or from any canned fruit for basting in place of the cider or vinegar.

- Ham Ring**
- 1/2 lb. each of ground veal, ground beef and ground raw ham
 - 1/4 of a medium-sized onion, chopped
 - 2 eggs, beaten
 - 1/2 cup milk
 - 1/2 cup soft bread crumbs
 - 1/2 cup uncooked macaroni (1/4 cup uncooked)
 - 1/2 cup tomatoes (canned or fresh)
 - 1 tsp. salt
 - 1 tsp. pepper
- Mix all ingredients together thoroughly and pack tightly in an ungreased 10 inch ring mold. Bake for one hour in a moderate oven 350° F. For an attractive one dish meal, fill the center of the Ham Ring with Creamed New Potatoes and Peas. Garnish with little squares of buttered green beans and tiny new beets.

MISS ETHEL IRBY

Miss Ethel Irby of Haskell, has accepted a position with the Press and will assist on news and advertising.

Miss Irby, an experienced newspaper woman, worked with the Haskell County Leader, which the Press publishers owned at Haskell, for over three years. She is the granddaughter of Mayor F. G. Alexander of that city, who settled in that country in about 1870, and operated the famous Fleur de Lis ranch. Mayor Alexander also owned the first store in Haskell.

Guests in Huff Home

Mr. and Mrs. W. T. Huff had as their guests Sunday, their daughter, Mrs. F. M. Clark, and family of Lubbock. They also had as their weekend guests, Mrs. Emmett Smith and Mrs. Ellen Smith of Brownwood.

Guests in Brownwood

Mr. and Mrs. M. D. Conger were the guests Sunday of Mrs. Conger's parents, Mr. and Mrs. Harry Alderson, of Brownwood. They were accompanied by Mr. and Mrs. Lynn Alford of Plains, who visited Mrs. Alford's father, Guy E. Davis.

Visitors From Big Spring

Mr. and Mrs. Elmer Burks of Big Spring were here Sunday, visiting Mrs. Burks' parents, Mr. and Mrs. R. E. Golithly.

Visit in Lubbock

Mrs. Waldo McLaurin, Mrs. M. D. Conger and Mrs. Harold O'Hearn were in Lubbock Tuesday, where they visited Mrs. J. T. Milton, Jr., who is in a hospital here.

Returns to Brownfield

Miss Vivian McElroy, who had formerly been with the Singleton Beauty Shop here, has returned to her home in Brownfield.

Return to O'Donnell

Mrs. Charles Hoffman and infant daughter, Helen Jean, returned home Sunday from a Lubbock hospital.

Spent Week-end in San Angelo

Mr. and Mrs. E. G. Stokes and John Crawford of Athens spent

O'Donnell HD Club Meets With Mrs. John Earls

"Anyone can make a good angel food cake by carefully measuring all ingredients," stated Miss Lilith Boyd at the regular meeting of the O'Donnell Home Demonstration Club which met with Mrs. John Earls Thursday, April 21.

"Beat egg whites with a ladle beater, fold in other ingredients, pour into an ungreased cake pan and bake in oven with properly regulated temperature are the four principal steps in making the cake which is fittingly named angel food."

Mrs. E. J. Treadway presided during the business session. Misses Geraldine and Louise Haney entertained at the piano and with singing. Each number was received with much applause.

Angel food cake, ice cream and grape juice were served by the hostess to the following: Mes-

O'DONNELL 4-H CLUB

WOMEN TO TAHOKA

Mrs. Waldo McLaurin and Mrs. H. T. Singleton were appointed to represent the O'Donnell 4-H Club, at Tahoka, Tuesday, April 26, at a Rug Making demonstration given by the county demonstrator, Miss Lilith Boyd.

Visit in Lubbock

Mrs. C. N. Fritz and Mrs. E. F. Johnson were visitors in Lubbock Tuesday.

At Showing Well

AUSTIN, April 27. — Retail sales in Texas continue to make far better showing than in the lion as a whole, according to Bureau of Business Research at the University of Texas. Aggregate sales, as measured in dollars, during March of a representative group of department stores, dry goods, and apparel stores, were only slightly below the corresponding figures of last year.

School Girl Recovering Following 'Run-Down' By Car Near School

Juanita Sweeney, O'Donnell school girl who was run down by a car last Friday when she was leaving the grade school at noon on her bicycle, is recovering from her injuries in a very satisfactory manner, so relatives report. The girl was rushed to a hospital immediately following the accident.

Mesdames W. L. Palmer, Fay Westmoreland, W. T. Huff, Misses Thelma Palmer and Wynona Westmoreland were visitors in Lubbock Tuesday.

THEN DOWN GO THE CREDITS!

A WORD TO SUBSCRIBERS

Every person who is reading this advertisement has a friend among the workers whose names are printed in this issue and in whose welfare you are interested. A subscription given to that friend will help them realize their ambition to win one of the prizes, BUT a subscription right NOW, while the big credits are in force, will count twice as much now as it will later. Give your favorite that subscription today.

LET'S GO!

A WORD TO PARTICIPANTS

The winning credits are not hard to get IF YOU TAKE ADVANTAGE OF THE BIG CREDIT SCHEDULE now in effect. Right now each yearly subscription counts 4,000. During the last week of the Big Weekly Payroll Drive this same subscription brings only 2,000 credits. Participants—Read the schedule of credits and you will see that what you do NOW counts the most.

LET'S GO!

Time Waits For No One---Make The Next Two Days Count!

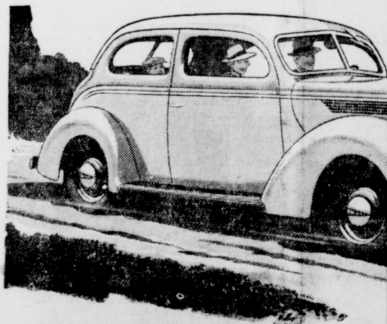

EVERYTHING COMES TO THE OTHER
FELLOW IF YOU SIT DOWN AND WAIT!

News of The World In Pictures

Corner Pennies for Tax Protest

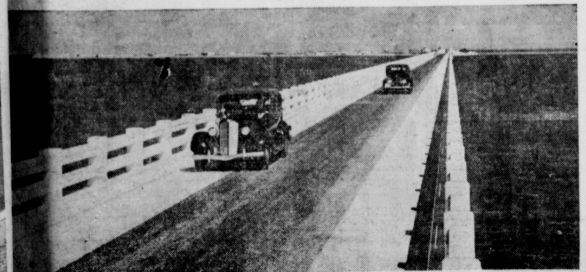

Larry Warwick of Wayne, Pa., left, and Robert Baumann of Floral Park, N. Y., both students at Rensselaer Polytechnic Institute, Troy, N. Y., with some of the \$2,500 of pennies collected by students of the institute from local banks and stores in an effort to corner the penny market in Troy as a protest against "hidden taxes."

School House Wrecked by Tornado

A tornado which swept destruction from Arkansas to Illinois wrecked this school at Columbus, Kan. Luckily none of the pupils were in their rooms when the twister hit. This picture shows a member of the American Legion with his little son as they recovered his things from a desk in the wrecked school room.

\$7,400,000 Ocean Bridge Open to Traffic

Florida's new overseas highway bridge which cost \$7,400,000 and has a capacity of 3,000 cars a day was opened to traffic recently at Miami. This gigantic engineering feat connects many coral islands south of the mainland that separate the Atlantic ocean on the east and the Gulf of Mexico on the west. The longest of its overwater spans is seven miles.

Submarine Nature Study

A boy and a girl student of the class of zoology at the University of Miami shown at the bottom of Silver Springs at Ocala, Fla., as they photographed a turtle while 22 feet below the surface. Clad in diving helmets the entire class took turns at exploring the springs' bottom as a departure in their nature studies.

Official House Wrecking

An army tank charging one of a row of condemned cottages near Bovington camp, Dorset, England, provided an exciting show for the local inhabitants. Hundreds of visitors and all the soldiers stationed at the camp had a chance to see the tanks in operation.

Sow Farrows Litter of 25

Mrs. Albert Marlat of Me-dway, Ohio, claims a world's record for her Duroc-Jersey sow with its litter of 25 pigs. Mrs. Marlat, shown here with the sow and some of the 25 pigs which survived, has found it necessary to resort to bottle feeding for most of the piglets, as the mother can care for only eight.

Retail Sales In State Showing Well

AUSTIN, April 27. — Retail sales in Texas continue to make a far better showing than in the Nation as a whole, according to the Bureau of Business Research of the University of Texas. Aggregate sales, as measured in dollars, during March of a representative group of department stores, dry goods, and apparel stores, men's and women's specialties stores, were only slightly below those of the corresponding month last year, and exceeded those of February by almost the normal seasonal amount, the report said.

Reports from 106 retail establishments, showed total dollar sales during March of only 2.4 per cent below those of the like month last year, while the increase over February was 21.6 per cent. The fact that Easter came in March last year whereas this year it came in April lends further optimism to the current showing.

According to the old Connecticut Blue Laws, no man was allowed to court a maid in person, or by letter, without first obtaining the consent of her parents.

Aftermath of Nazi "Anschluss"

Happy days are here again for the map-makers, as geographical artists in a Chicago plant redraw the map of Europe making Austria a part of Germany. The classing shows the artist's hands working on the new map, the pencil hovering ominously close to Czechoslovakia.

AN OLD FRIEND IN NEW CLOTHES

Haven't you had the experience of meeting an old friend—and for the first time or so not recognizing her? It's just the same with a new outfit! That's the way you're going to feel about this Peanut Brittle Cake. You'll be so delighted with the delicious, creamy, crunchy covering, that you won't recognize your old friend, Emergency Cake, under it. But it will be a thrill to realize that this quick, easy cake can be turned into such a delicious dessert—and so easily too!

First, I'll tell you how to make the Peanut Brittle Covering. Whip up 1 cup of whipping cream and fold in 1/2 cup of ground peanut brittle. Spread this over your cake and serve it. Incidentally you'll find that this whipped cream and ground peanut brittle combination makes a delightful dessert in itself. Fold the peanut brittle into the cream, place it in sherbet glasses and chill thoroughly before serving.

Last you may have mislaid your recipe for Emergency Cake—here it is—

- | | |
|---------------------------------|-----------------------------|
| 1 1/2 cups all-purpose flour or | 1/2 cup shortening |
| 1 1/4 cups cake flour | 1/2 cup milk (not too cold) |
| 1 cup sugar | 1 tsp. salt |
| 1/4 tsp. salt | 1 tsp. flavoring |
| 2/3 tsp. baking powder | |
- Sift the flour once before measuring. Sift flour, sugar, salt and baking powder together. Measure the softened shortening into the cup and fill the cup with the milk. Add these with the unbeaten egg to the flour mixture. Add the flavoring and beat well for 2 or 3 minutes. Pour into a greased and floured 8 inch square cake pan and bake from 25 to 30 minutes in a moderate oven, 350° F. Or this may be made into 2 or 3 small layers.
- Then there are two other ways in which you can dress up this convenient cake so that it will not be recognizable. First, wear a new outfit! Did you ever try making it into a Chocolate Cake? All you need to do is to add 2 squares of chocolate to the batter and blend it in thoroughly. A Spice Cake is made by substituting 1/2 tsp. nutmeg and 1/4 tsp. cloves for the flavoring in this recipe.

Question: I have a new electric range with an oven regulator on it. Do you think it's necessary to test cakes to see if they are done now? And I suppose there's some way to test them? I've used a broom straw, but I suppose there's a more up-to-date way now.

Answer: I think it's always a wise precaution to test a cake before taking it from the oven. The time given on the recipe is a general guide, but there may be slight variations due to the difference in the way ovens bake. The old straw or toothpick method of testing is still used. Or you may test the cake for doneness by pressing your finger tip lightly on the top surface when the baking time indicated on the recipe is about up. If an impression of the finger remains, then a longer baking time is needed. If the surface springs back, leaving no trace of your finger print, then the cake is done and may be taken from the oven.

Question: That is meant by the "displacement method" for measuring shortening?

Answer: If your recipe calls for 1/2 cup shortening, fill the measuring cup one half full of water. Then keep spooning in the shortening until the water reaches the top of the cup—"brim full." Now you have in the bottom of the cup the heavier shortening which has displaced the water and forced it up into the top half of the cup. In the same way—if your recipe calls for 1/2 cup of shortening, fill the measuring cup full of water and begin spooning in the shortening.

Question: When I serve a cake with a gooey frosting what kind of forks should I pass with it? Some people use salad forks, I notice, while others use the regular forks. Which is correct?

Answer: The "small" fork—exactly like the large dinner fork, only smaller, is sometimes designated as a "dessert" fork and sometimes as a "luncheon" fork. It is perfectly correct to use this small fork for everything just about from informal dinners to desserts and salads. However, there are many hostesses who like to use their salad forks for desserts and even for pies.

YOU'VE NEVER MET A PIE LIKE THIS!

A stickler for calling a spade a spade, and for his correct name—might rebel at calling this delicious combination of foods a "pie." He'd probably insist on bestowing some sort of an "as gratin" name upon it. Nevertheless, he'll agree that it bore when first it was given to me. That name is "Egg Noodle Pie Supreme." It's the kind of a pie that requires no special technique in handling for its crisp crusty topping is simply the well-seasoned combination of buttered bread crumbs and grated cheese. Raise a corner of this delicious "crust" and you'll find a savory combination of buttery ribbons of egg noodles, and tomatoes, thin slices of meat—left-over roast of any sort—and flavorful bits of onion. When you taste it you'll vow you never encountered any such pie before. It favors in a dish of this kind. But you'll understand why when you glance over the list of ingredients in this recipe for

- | | |
|-----------------------------------|--------------------------------|
| 1 pkg. egg noodles (6 oz. or 8 | No. can) |
| 1 cup. boiling water | 1/4 tsp. nutmeg |
| 2 tsp. salt | 1/4 tsp. salt |
| 3 cups (or 1 lb.) thinly sliced | 1/4 tsp. pepper |
| cooked meat (left-over roast, | 1 cup liquid (left-over gravy |
| etc.) | diluted with water or tomato |
| 1 medium-sized onion, sliced thin | with 1 bouillon cube dissolved |
| (about 1/2 cup) | in and slightly thickened) |
| 4 tomatoes, sliced in thin rings | 1/2 cup buttered bread crumbs |
| (or drained tomatoes from one) | 2 tsp. grated cheese |
- Cook egg noodles until tender in the boiling water to which the 2 tsp. salt have been added (about 15 minutes). Drain. Arrange alternate 1/2 cups of noodles and meat in a lightly greased casserole. Cover with a layer of the sliced onion, and then a layer of the sliced tomatoes. Sprinkle the seasonings over all. Pour the liquid over all. Sprinkle with buttered bread crumbs and grated cheese. Bake 45 minutes to 1 hour in a moderate oven, 350° F. Size of Casserole: 9 inches in diameter and 3 inches deep.

Betty Crocker Advises

Question: I have read that tea contains Vitamin C. Is this correct? Can you tell me where I can get a list of foods rich in Vitamin C? I'd like to know more about these vitamins.

Answer: I suggest that you write to the Superintendent of Documents, Washington, D. C., and asking for the new pamphlet by Daniel and Maxine, known as Miscellaneous Publication 275, United States Department of Agriculture. This pamphlet will cost you very little, and should be quite a help.

Question: I'm on a committee to give a Gay Nineties tea. Have you any suggestion?

Answer: Of course the Gay Nineties were outstanding for over decoration. Have roses or carnations in a cut glass bowl in the center of the table. Pink would be a Gay Nineties color. Have pink candles crystal or silver holders—and a pink shade on each candle. The table cloth should be very long on all sides. White damask or an embroidered cloth. Nothing in cakes or sandwiches can be too elaborate. Have the shades in the dining room drawn down so as to shut out the sunlight. Smilax can be pinned profusely over the curtains. Of course there will be dishes of bon bons and salted nuts. Some of the little rolled sandwiches may even be tied with pink or blue baby ribbon bows.

Question: Can you tell me how to measure pie pans? You say in your recipes "bake in an 8 inch pie pan." Now a pie pan is narrower at the bottom than on the top. Do I measure across the bottom or across the top?

Answer: Measure your pie pans across the top—from the inside rim on one side to the outside rim on the other side.

If you worry about what to serve, if you need to start the next mail, just drop a card to Betty Crocker in care of your newspaper, and ask for this week's menus. Complete menus for the week will be sent to you at no cost. Please enclose 3 cent stamp to cover return postage.

ELECTRIC ONE WIRE FENCE

PRIME CONTROLLER

CARO SMITH LUMBER CO.
Don Edwards, Manager

WE BUY HOGS AND CATTLE

FEED GRINDING
Bryant Coal & Grain

Widely Used Electric Fence is Versatile

Cattle, horses, hogs, sheep, swine, mules, bulls, stallions, calves, or any other type of animal found on the farm will all respect the new Electric Fence. It is a type of fence that effectively turns these various types of animals with a sharp sting from electric current, rather than physical strength of the fence itself.

Mr. Edwards has just recently taken on the nationally advertised Prime Electric Fence and is now offering it to the farmers of this territory. Complete line of equipment of the 1938 models is now on display at the lumber yard and he welcomes everybody. He is particularly interested in discussing possibilities of demonstration on this new single wire method of holding livestock.

Grade School

First Grade News We are glad that C. W. Hendrick has returned to school. He had been ill for four weeks.

We are sorry that Charlene Stinnett has moved to Brownsville.

Guest in Blanton Home Mrs. William Pettit of San Angelo is the guest of Mr. and Mrs. Ralph Blanton this week.

Undergoes Operation Mrs. F. T. Middleton, Jr., underwent a major operation at a Lubbock hospital last Thursday. Her condition is improved, and she is expected to return to her home here Sunday.

Visit Carlsbad Caverns Mr. and Mrs. Lee Shaffer and Miss Glendene Gault and Kenneth Goughly visited the Carlsbad Caverns Sunday.

Will Return Home Mrs. G. W. Sturges, who has been visiting here the past four months in the home of her son, E. L. Sturges, will leave Friday, to return to her home in Cedar Rapids, Iowa.

Returns From Vernon Miss Leona Stokes has returned home from Vernon where she had spent two weeks, the guest of Misses Helen Hisey and Cora Bell Butler.

The best citizens this week are: Aubrey Lee Shook, Juanita Cargill, Roy A. Gibson, Dwayne Mires.

Seventh Grade Those making 100 in spelling all week are: Margaret Sue Goddard, Alice Jo Schooler, Wanda Zell Everett, Ladelle Frazier, Frettie Jo Eubanks, Jearline Haney, Marcella McRae, Vivian Corbell, Ruth Hall, Violeta Griffin, Evelyn Foster, Eloise Shoemaker, Willadeen Ballew, Ailvin Ray Moore, Jr., Jack Walker Steward Schooler, Jr., Billy Ray Brunson, George Childress, Jr., and Martin Wilson.

Margaret Sue Goddard attended the Dairy Show at Plainview last Thursday. She also went to Canyon and visited friends and relatives there. We are very sorry that Margaret Sue was unable to attend school Tuesday, because of illness.

We are planning to have our play Friday morning, entitled "That Younger Generation."

LOUIS MCKAY— (Continued from Page 4) ance reached the scene.

"If there was any warning noise in advance of the cyclone, I did not hear it," Mrs. Berry related. "However, a terrific sandstorm had been blowing most of the afternoon and that would have kept us from hearing the storm's approach.

"For myself, I had been watching the southwestern sky, and when I saw it blacken, I lost no time in getting into my storm cellar. I've lived in that country 35 years, and I know the danger signs when I see them.

Remained in Cellar "I remained in the cellar until the noise on the outside quietened, and not until I felt it, did I realize that a cyclone had swept past. I, as did the other townspeople, hastened to the scene of the storm to do what we could for those in need of help.

"As best I could judge, the tornado swept out of the southwestern sky from somewhere in the direction of O'Donnell. It followed an irregular path eastward for about a mile, then swung toward the northwest for about another mile and then swung in a southeasterly direction. I don't know where it went from there.

"So far as we could learn, four homes were destroyed along that path. And when I say they were destroyed, I mean just that. A splinter remained of some of the houses. The ground on which they had stood was swept clean as if a broom had been used.

"Indicative of the fury of the storm was what remained of an automobile we passed as we approached the storm's path. It could have been twisted more had it been made of paper. The engine had been torn out of it and when I left for Lubbock it had not been found.

Were In Storm Cellar "Allen Moore's home was the first to be struck and it was demolished. Mr. and Mrs. Moore and their two children were in their storm cellar when the cyclone hit. But all they had left was the clothing they wore.

"Next in the path was the home of Mr. and Mrs. Vernon Caswell, a young couple. Mrs. Caswell died of her injuries. Mr. Caswell was hurt, but I did not learn how seriously.

"The third house to be destroyed was a vacant residence belonging to Mr. and Mrs. W. J. Williams and their family had made their home recently with his father, T. J. Williams. The two houses are located on the same section of land. The one destroyed is on the southeast corner and that of the father on the immediate corner.

Injured Taken To Draw "The McKay home was the last in the immediate path of the storm. By time I reached the scene, the injured had been loaded in automobiles to be taken to Draw. The difficulties of the rescuers and the suffering of the injured were increased by the fact that rain had been falling violently almost immediately after the storm.

"The members of the McKay family were taken to the home of Mr. Cobb, who operates a general store in Draw. He was in the house throughout the storm, he related, and did not know that the tornado had struck until after it had passed. From there, they were brought to Lubbock.

Wanted Her Dog Little Mary Belle Walters wanted her dog.

She did not know her brother, John, and her cousin, George Walters, were killed in a twist of the tornado that miraculously left her with only minor lacerations and bruises.

The seven-year-old girl had called for her dog when she was revived. A resident of the community told her that her dog was near, but that it had not been seen since that morning.

Carried In Center Of Funnel The grief-stricken mother, Mrs. Mack Walters, sat by the side of the Texas hospital bed where Mary Belle was being treated this morning. The child had been picked up bodily by the twister after it struck the automobile in which she was riding with her cousin and witness. Apparently, according to brother, she was hurled the center of the whirlwind funnel, and dropped to the group after having been carried 200 yards when it "bounced" momentarily.

It had been announced the girl would be dismissed from the hospital Friday.

Guests in Anderson Home Mr. and Mrs. John Anderson had as their guests Sunday, Dr. and Mrs. James V. Anderson and daughter, Nancy Jane; Mrs. Pearl Edwards and daughter, Mary, all of Fort Worth; Mr. and Mrs.

THREE DEAD— (Continued from Page 4)

as in the path of the fury was the Standefer home two or three miles west of Grandview 12 miles southwest of O'Donnell. Mrs. Standefer and her two daughters, Mildred, 30 months old, and Claudine, 13, years, were alone in the house at the time.

Destruction Almost Complete Destruction of the house was almost complete. The baby received a compound fracture of the thigh and a broken jaw. A jagged, three-inch plank was driven through the forehead of the older girl. There it lay, the bone, had it hit the bone, witnesses said, her arm probably would have been carried away.

Mrs. Standefer suffered minor injuries. The husband and father was enroute home from a business trip to Lamesa at the time.

Played Freakish Franks From its beginning, the tornado played the freakish franks usually left in the wake of twisters. It sprang from side to side, demolishing the house while leaving others only a few yards away undamaged. It seemingly would select one home for complete destruction, then bounce squarely over another directly in its path, only to descend and continue to havoc. Thus it progressed through the OK community, in at least one case striking a barn and splintering every structure comprising a home farming plant.

The tornado, however, seemed to have gained its most violent fury as it appeared in the distance approaching the OK community. There it descended about a mile north of the village and swept away the home of Allen Moore. Mrs. Moore fled to safety with their two children a few seconds before the twister struck. Mr. Moore was in a field, outside the path. From there, the storm moved upon the Standefer home, which also was demolished. Witnesses said that "not a splinter remained of the house."

Woman Swept Away Caswell was outside and Mrs. Caswell inside the house at the moment. Mrs. Caswell was swept away in the wreckage to die a horrifying death. Her husband, according to information today "was a mass of abrasions." Hundreds of shrapnel had been driven into her body.

Next in the path was a vacant residence belonging to the family of Bill Williams, who had moved not long before to the nearby home of his father, T. J. Williams. The son's house was demolished. The father's was not in the danger zone.

All Seven Are Injured The Louis McKay home was next, and all of the seven persons sheltered there were injured. Mrs. McKay, 13 months old daughter, and Mrs. McKay's sister, Mrs. M. J. McKay, a son, Louis David, and a niece, Laverne Standefer, were taken to Lubbock sanitarium.

Witnesses agreed that a violent sandstorm preceding the tornado directed the noise of the twister's approach and without doubt kept many from seeking shelter which was also available.

Scattered Incidents Reported Some of the scattered incidents reported in investigations into the catastrophe proceeded this morning included:

Reports from rural areas in the vicinity of O'Donnell that farm fields were cluttered with farm debris, included roofs splintered and twisted tin and even the feathers of chickens.

The story related by C. E. Mason, manager of a filling station at OK, that an instant before he sought the safety of a storm cellar, he saw two tents, houses, the porch of a house and outhouses belonging to L. H. Clark disappear with the wind. He said the storm struck between 5:30 and 5:45 p. m.

When Mason left the filling station he discovered that the storm cellar where his own place of business had been was swept clean.

School Escapes Damages The four-teacher school across the way from the filling station was filled with wind but apparently escaped extensive damage. Nearby outhouses, however, were demolished.

The roof of the brick veneer home of T. H. Edwards 15 miles southwest of the school was blown away, some of the walls caved in, and a garage and tractor shed destroyed. Edwards built the home about 15 months ago.

The Clyde Edwards home a mile and one-half west was reported wrecked.

Eight or 10 persons were reported to have been injured three miles west of OK, and two were said to have been hurt two miles north of Woody school, which is eight miles southwest of OK. While the reports lacked confirmation, some of the injured were said to be members of the Long family. Also reported injured were an elderly man and his son, named Bas, a Mrs. T. P. Burleson and a Mrs. Cox, her mother.

On the O'Donnell-Lamesa road three miles south of O'Donnell, seven men and three women, including Henry Gary were reported demolished and a woman and three children living on the place were reported injured.

A half mile east of the Gary place, a roof was said to have been torn from the E. Vandiver place. His car also was reported to have been wrecked.

J. Edwards of Tahoka; Mr. and Mrs. Pat Gary of Levelland, and Mr. and Mrs. Hollis Hunt.

Guest in Conger Home Mrs. Harold O'Hear of Brownwood is here, visiting in the home of Mr. and Mrs. M. D. Conger.

Visit in Lubbock Mrs. W. E. Singleton and Mrs. Charles Crawford and Mary Louise Singleton were visitors in Lubbock Monday.
