

Tommy Cox of Okay Community Meets Death Accidentally

Tommy Cox, 34-year old farmer of the Okay community, about nine miles southwest of O'Donnell, was accidentally killed Monday morning in a dynamite cap accident. He was in a shallow well when he was in drilling. The accident occurred about 10 o'clock when Mr. Cox was preparing to touch off a charge of dynamite placed in the well for the purpose. The charge exploded without warning while Mr. Cox was looking into the well to ascertain the charge had not exploded. According to reports reaching the local office. The man's head was blown from his body. The victim was rushed to a hospital in Lamesa and death came at 5 P.M.

Mr. Cox was one of the best and most respected citizens of the Okay community and was also well known in the county. The sad news of the accident and sudden death cast a deep shadow over the entire community. Mr. Cox professed religion when a boy and has always lived a life of piety and always faithful to his religion and fellowman.

Funeral services were conducted Monday afternoon at the Methodist church in this city at 4 o'clock. Rev. C. A. Duncan, pastor of the Methodist church here and the Baptist minister at Okay, and internment was in the O'Donnell cemetery. He is survived by his wife and three children, Neoma, Ray and Watus, mother Mrs. W. J. Cox, three sisters, Mrs. S. E. Bessie of Lamesa, Mrs. Ray Sims, of Waco, all of whom were present at the funeral. The funeral was a large one and many friends in sympathy to the bereaved family.

WILL HOLD INVITATION ATHLETIC MEET MARCH 1

EDER, Tex., Feb. 19.—Thirty A and B Schools of West Texas have been invited to participate in the National Track and Field Meet which will be held here Saturday, March 8th at 10 o'clock.

O'Donnell high school have been invited in the invitation which includes the following named schools: Post, Tahoka, Ralls, Spurlock, Stanton, Roby, Rotan, Big Spring, Merkel, Stamford, Anson in the Class A division.

B schools invited include: Mansfield, Dumas, Ira, Champion, Blackwell, Pyron, Brook, Lamesa, Coahoma, South Gall, Claremont and Trent.

Tiger Stadium, said to be the model high school athletic field state is already being prepared for an event which is hoped to be the largest gathering of athletic talent gathered in West Texas, out of the larger colleges.

Rev. L. F. Bell Will Speak Sun. Afternoon

Rev. L. F. Bell, colored, will speak on the streets of O'Donnell Sunday afternoon at 2:00 o'clock, according to announcement.

The speaker has spent many years in the wilds of Africa and speaks the African language fluently and no doubt will be able to reveal some interesting facts. He extends a cordial invitation to everyone to be present.

OVER 2,000 AUTOMOBILE LICENSES PAID TO DATE

San Sanford, sheriff and tax collector, reports that 2,030 automobile licenses were issued in this county prior to February 1, and 173 truck licenses, making a total of 2,203 motor vehicle licenses.

A hurried check of poll taxes paid showed a total of 3,036, though a final check may show a slight variation from this number.—Lynn County News.

30 Mail Pouches of Catalogs Delivered

Does the above heading mean anything to the merchants of O'Donnell? It may be the cause of local business. To say the least, it is something to think over while you are trying to figure out why business is what it is today.

When the local postoffice received thirty mail pouches of Montgomery Ward catalogs on last Thursday, the editor himself was rather surprised, because on or about the same date a year ago twenty-three sacks of catalogs were received by the local postoffice. This year there was an increase of seven sacks which means that more money will go to the mail order houses this year than last, unless there is something done to offset the desire that is created among the owners of said catalogs to buy at home.

To appeal to the sympathy and loyalty of the buyer is useless these days according to our way of thinking. The local merchant might do well to use some of the same tactics as the mail order houses—flood the homes of this territory with advertising, stressing quality, price and service. It is more convenient for people of this trade territory to trade at home and they will trade at home provided they are offered every inducement by home people as do the mail order houses. Legitimate advertising is the backbone of every business institution and no business concern can hope to be very successful without the aid of printers ink. The mail order houses realize this and consequently spend millions of dollars each year with the printing houses.

Some local business concerns still contend that when the dull season of the year rolls around advertising is too expensive and that they have been in business a long time and everybody knows just what they have to sell and when people want anything they know where to come for it. They turn the local printer down just at a time when mail order houses begin to flood the country with literature. What can anyone expect in this day of modern business methods?

Program For Zone Meeting M. E. Society

The following program of the zone meeting of the Methodist Missionary Society, to be held in O'Donnell, Wednesday, February 26.

- 10:00 A.M. Devotional—Mrs. N. F. Peterson, McCarty.
- Welcome—Mrs. L. E. Robinson, O'Donnell.
- Response—Mrs. T. M. Garner, O'Donnell.
- Discussions
- 1. Duties of president and vice president—Mrs. J. C. Loveless, Lamesa.
- 2. Duties of corresponding secretary—Mrs. W. L. Marr, Lamesa.
- 3. Duties of Mission study—Mrs. G. M. Stewart, Tahoka.

- Song.
- Prayer.
- Noon.
- Devotional—Mrs. B. M. Haynes, O'Donnell.
- Round Table Discussion
- 1. Connectional treasurer—Leader Mrs. Ben Moore, O'Donnell.
- 2. Social service—Leader, Mrs. Guy Simpson, O'Donnell.
- Reading—Mrs. Sid Wells, Lamesa.
- How is the Missionary Voice a Help?—Mrs. D. M. Estes, O'Donnell.
- Christian stewardship—Mrs. R. W. Fenton, Tahoka.
- Song—O'Donnell, juniors.
- Discussion of problems and question box.
- Reports from each society of last year's work.
- Business session.
- Consecration service.
- Mrs. M. B. Hood, O'Donnell, zone leader.

Grassland Cops Co. Rural Basketball Title

The boys basketball teams representing New Lynn, New Home, T-Bar and Grassland gathered at Tahoka Saturday morning for the purpose of determining the rural champion of Lynn county. In the first round of play New Lynn was defeated by T-Bar by the score of 15 to 12 and New Home fell before the onslaught of Grassland 19 to 7.

In the final game Grassland took the lead early in the first quarter by scoring first and never relinquished it, though the T-Bar loopers pulled within four points of them more than once. Their lead was ten points at one time during the game. Jones led the scoring for the winners making 13 points while Moore with 12 led the losers. The Grassland boys played a fast type of basketball thru out the games and displayed sportsmanship that would do credit to any high school team within the state, score 27-23.

The T-Bar girls also defeated the New Home girls for the rural championship of Lynn county. When Wilson and Grassland met again Wilson won 54 to 7. Reported by Coach B. F. Scott of Wells school, who was in charge of the tournament at Tahoka last week.

AND HOW?

Misses Amelda Simpson, Alice Joy Bowlin and Odessa Holman were Lamesa shoppers last Saturday.

Mr. Newman Caddell and little Jimmie Milwee, Jr., were Tahoka visitors last Sunday.

Sunday Morning Mail Will Come From Big Springs By Bus

Report On Vocational Agriculture at School

During the past week the vocational agricultural teacher run terrace lines on 800 acres of land and culled 1050 chickens. All of this work was done outside of school hours with the exception of about 250 chickens which were culled as practice work for the agriculture classes.

In addition to the above, four orchards were pruned as practice work for first year students.

VIOLIN CLASS AND ORCHESTRA TO BE ORGANIZED

Mrs. Una Merrick Casey, who is well known throughout this part of the country as a brilliant violinist and a splendid teacher, will be at the school building Monday for the purpose of organizing a class of violin pupils. Mrs. Casey is also planning the organization of an orchestra composed of her students and other local people who play instruments. This is one talent which has been sadly neglected in O'Donnell, and it is expected that Mrs. Casey will be welcomed with much enthusiasm. She has just returned from Amarillo where she has been playing over the radio, and has very graciously consented to play at the Washington tea sponsored by the Methodist ladies at the home of Mrs. Wells this Friday afternoon. This will afford many of our music lovers an opportunity to become acquainted with her.

Mr. and Mrs. H. E. Gillespie of Levelland were O'Donnell visitors Monday of this week.

Last Sunday morning the first sack of mail to ever reach this city on the Sabbath was delivered to the local postoffice here by the bus coming from Big Spring at 9:30.

O'Donnell citizens were delighted to see this entirely new mail service coming to O'Donnell each Sunday morning and congratulated Postmaster Singleton for his untiring efforts in bringing this accomplishment about. Heretofore the citizens here were disappointed in waiting from Saturday noon until the following Monday afternoon before they received their mail.

This new mail service did not come about just because, but for the unrelenting service Postmaster Singleton wants to give O'Donnell his plea to the postmaster general that this service was needed and was deserved by O'Donnell met with success.

H. L. Hohn Announces For Commissioner Precinct 2, Dawson Co.

The Index is authorized to place the name of H. L. Hohn in our announcement column as a candidate to the office of Commissioner of Precinct 2, Dawson county, subject to the action of the Democratic primary in July.

Mr. Hohn is now serving his first term as commissioner of his precinct in Dawson county, and needs no introduction to the voters of his precinct. He is well and favorably known throughout this section and has made for himself a record during his tenure of office that entitles him to a second term according to the old Democratic custom. All roads in his precinct has been worked and kept in good condition since he went into office a little more than a year ago. Mr. Hohn states that in case the voters see fit to elect him for a second term his promise will be: "To work all roads in his precinct, showing partiality to none and protect the interest of his people at all times when matters of importance are before the commissioners court."

We ask that you give his candidacy due consideration when you go to the polls in the July primary.

THELMA GREENWADE SAYS SOMETHING UNUSUAL IS GOING TO HAPPEN

Thelma Greenwade, County Home Demonstration Agent, in a letter she asked to be published in the Index promises that long looked for unusual happening is in store for the ladies. Her letter follows:

"Most of you have been desiring something unusual to happen. On February 27 this thing is going to happen. On that day at 2:30 P.M. you will have the privilege of hearing the most outstanding club woman in the United States. Be sure to make every effort possible to hear Mrs. Phebe K. Warner at the Court-house at 2:30 February 27.

"It is the desire of the agent that every club woman in Lynn county hear Mrs. Warner. So please make a special effort to hear her on this date. Don't forget."

Yours truly,
THELMA GREENWADE,
County Home Dem. Agt.

JAMES R. NIXON, PROMINENT CITIZEN, DIED THURSDAY

James R. Nixon, residing five miles northwest of town died Thursday night and was entered in O'Donnell cemetery Saturday.

Services were held at the home by Rev. C. A. Duncan, pastor of the local Methodist church. Deceased was 56 years of age and leaves a host of relatives and friends to mourn his passing.

REDUCTION IN INSURANCE KEY RATE EXPECTED SOON ACCOUNT ORDINANCE

Fire Marshall H. G. Gantt is in receipt of a letter from State Fire Insurance Commissioner J. W. Deweese, stating that O'Donnell is entitled to another reduction in the city's key rate and that adjustment will be made soon. The reduction will probably amount to two cents and will be allowed because of the proper maintenance of an arson reward.

Yours truly,
J. W. DEWEESE,
Fire Commissioner Com.

A. A. House spent last week end in Otan.

of your favor of the 13th together with its enclosure and we will proceed at once with an adjustment in your key rate, allowing credit for proper maintenance of an arson reward."

From The Farewell Address

... As evinces to foreign influence in innumerable ways, such attachments are particularly alarming to the truly enlightened and independent patriot. How many opportunities do they afford to tamper with domestic factions, to practice the arts of seduction, to mislead public opinion, to influence or awe the public councils! Such an attachment of a small or weak towards a great and powerful nation dooms the former to be the satellite of the latter.

Against the insidious wiles of foreign influence, I conjure you to believe me, fellow-citizens, the jealousy of a free people ought to be constantly awake; since history and experience prove that foreign influence is one of the most baneful foes of republican government. But that jealousy, to be useful, must be impartial, else it becomes the instrument of the very influence to be avoided, instead of a defense against it. Excessive partiality for one foreign nation, and excessive dislike of another cause those whom they actuate to see danger only on one side, and serve to veil and even second the arts of influence on the other. Real patriots who may resist the intrigues of the favorite are liable to become suspected and odious, while its tools and dupes usurp the applause and confidence of the people to surrender their interests.

The great rule of conduct for us, in regard to foreign nations, is, in extending our commercial relations, to have with them as little political connection as possible. So far as we have already formed engagements, let them be fulfilled with perfect good faith. Here let us stop...

—George Washington.

BANKERS REPORT DROP IN SAVINGS

Lure of Stock Market Partly to Blame, but Slackened Speculation Expected to Bring Return to Thrift.

The first recession in the nation's savings account in banks in the twenty years during which records in this field have been kept by the American Bankers Association was disclosed for last year in the recent annual convention prepared by its Savings Bank Division. The shrinkage amounted to over \$195,000,000, on the basis of figures for the year ending June 25, 1929, whereas a year earlier the reported increase was over \$2,304,000,000, the largest ever recorded. The number of savings depositors also decreased during the year covered by more than 500,000 accounts. The drop in the stock market and affiliated activities are cited as part of the explanation for these changes.

The association's statement says that savings deposits in banks and trust companies of continental United States on June 29, 1929, stood at \$28,217,454,000. The recession in savings, it declares, indicates a fundamental change in the savings situation, irrespective of whether it is temporary or not.

How Savings Used to Grow

"In 1926 savings deposits increased \$1,522,000,000, to \$12,127,454,000, almost \$1,000,000,000 more than in 1925 over \$2,300,000,000," it says. "It appears now that some influences in one year have taken the gain that might reasonably have been expected in savings deposits for 1929 and lowered them from the high mark of the preceding year. This recession is not one coming as a result of drought, famine, unemployment or conditions outside of the United States."

"A year ago it was stated: 'The year closing June 30, 1928, registered the largest gain in savings deposits in banks and trust companies of continental United States ever recorded in the history of this country.' What a difference one year makes! From a gain of more than a billion of dollars in savings deposits to a loss of almost 200 millions!"

"The loss in savings deposits is reflected also in the loss of savings depositors. The year 1929 showed a total of 52,644,127 depositors, against 53,188,348 for 1928, a loss of 544,221."

"Industrial production was much higher last year than the preceding year. Factory payrolls were considerably greater. In production, employment and trade, advances were made over the preceding year. In the farm areas the picture was different. In 1928 did not recede in 1929 and the livestock industry in all its branches was prosperous."

The Causes of the Drop

"The causes of the recession are possibly multiple. There is scarcely any reason to doubt that one of the important factors draining away savings and decreasing depositors has been the lure of profits to be made in stocks. For a number of years the people have been regaled with stories of profits made in stocks in all types of companies. During the last few years there has been a specious philosophy preached that panics such as formerly occurred were no longer possible."

"It was the lure of profits in stocks which caused the recession in savings, then a factor in future savings will be the success attendant upon this venture of savings depositors in stocks. If the experiment did not prove generally successful, then another year will doubtless witness an increase in savings deposits as well as in savings depositors."

HELPING YOUNG FOLK TO BECOME BANKERS

Through the American Institute of Banking, which is the American Bankers Association's educational section, the banking profession is educating 35,000 bank men and women in the technical and scientific departments of their work. These students are enabled by this institute, which is entirely non-commercial in its operations, to obtain a group of the finer points of banking without interrupting their employment or interfering with their earnings, in their bank jobs.

The courses given, including banking economics and law and bank administration in all the departments, have been worked out under the direction of senior college educators and the lectures are always given by practical men, such as lawyers in the legal courses, experts in banking operations and rollers professors in the economics courses. There are classrooms with meeting rooms in over 200 cities and also a number of smaller study groups are fostered with correspondence aid.

It has been said that the A. I. B., as it is familiarly known throughout the banking field, is the greatest adult educational organization in the world and is supplying the banking business with the largest supply of trained workers each year that any comparable line of business is receiving. The organization holds an annual convention attended by hundreds of young bank workers as well as senior bank officers actively interested in furthering the institute's educational work, at which numerous technical subjects of practical banking applications are presented and discussed. This year's convention will be held at Denver, Colorado, June 18 to 20.

THE BOOTLEG PROBLEM

There have been so many killings and other troubles over prohibition that Congress is seriously concerned about it and the members are milling grease in a soap factory, they'd do to about it. Except Sterling City and the Mojave Desert, all the members of Congress are agreed that prohibition is not now enforced and never was enforced in the United States.

They all have their pet schemes to make the thing work. Senator Shepard says that if we make the buyer as guilty as the bootlegger, that he will stop buying booze and therefore will lose his taste for the stuff.

Senator Burah says the best way to do it, is to fire the whole enforcement push and hire them over. He says if this bunch had a job of chewing grease in a soap factory, they'd swallow the grease as fast as they chewed it, or words to that effect.

Commissioner Doran says his corn that is doing the dirty work. He thinks that if we could prohibit the raising of grapes, Rye and corn, they could do something about it, but as long as the farmer is allowed to raise these things, the moonshiner will convert them into booze, the bootlegger will sell it and the people will drink it.

Andrew Mellon says the trouble lies in the fact that too much alcohol gets into the hands of the bootlegger. If someone could invent a scheme by which the bootlegger could be cut off from his supply of alcohol the bootlegger couldn't bootleg.

Sister someone is of the opinion that if the people were taught to make kickless cocktails out of stale eggs and orange juice it would turn the trick.

Whispering Speakeasy, president of the Bootleggers Union, is of the opinion that prohibition is all O. K. as it is, and needs no change. He says the Union is prosperous and that Congress ought to let well enough alone.

Senator Cornsall believes that Congress should appropriate \$15,000,000 to carry on the work of enforcement.

Herbert says that prohibition is a noble experiment and maybe by trying all the remedies offered that someday it will work.

Senator Cornsall says repeal the damn thing and go back to first principals, but a majority in Congress say they would all lose their jobs if they did that.

Col. Blunderbus, Commander of all out of the bootleggers where the Coast Guard, says to shoot the ever they are found. He says that every bootlegger that he and his men have killed, has stopped selling booze. He says its the only way to stop it.

Rev. Dryly thinks that instead of shooting the bootleggers, they should be forced to listen to his lectures on the virtues of prohibition for at least two hours. He thinks he can convince them of the error of their ways and they will quit the business. Whispering Speakeasy thinks Brother Dryly's method is too rough. He says that any honest bootlegger would rather be shot than to have to listen to Brother Dryly for two hours.

A majority of Congress as well as the Ancient and Honorable Order of Bootleggers are all agreed that prohibition is a mighty fine thing if it only could be made to work.—Sterling City News-Review.

EASY! QUICK! GLYCERIN MIX FOR CONSTIPATION

Simple glycerin, buckthorn bark, saline, etc., as mixed in Adlerika, relieves constipation in TWO hours! Most medicines act on only lower bowel, but Adlerika acts on BOTH upper and lower bowel, removing poisons you never thought were in your system. Just ONE spoonful relieves GAS, sour stomach and sick headache. Let Adlerika give stomach and bowels a REAL cleaning and see how good you feel!—CORNER DRUG STORE. (Adv.)

Yearling hens are better than pullets for breeders, as the former usually lay large eggs which hatch into larger and stronger chicks than those of pullets.

The percentage of protein contained in a commercial concentrate is one good measure of its value, since most farm-grown feeds have an excess of fat and carbohydrates and a shortage of protein.

Take the farm horse to the dentist for examination at least once a year. Usually the long, sharp corners of horses' teeth need occasional filing by a veterinarian. Roughness causes sore tongues or cheeks, and poor mastication which is followed by digestive troubles. Older horses especially need attention.

CRUEL NEURITIS FINDS IT'S FOE IN NEW KONJOLA

Happy Lady Enthusiastic in Praise Of Famed New Medicine

MRS. HARRY A. UNRATH

"No words can describe what this great medicine, Konjola, has done for me," said Mrs. Harry A. Unrath, 914 Lark Avenue, St. Louis. Five bottles of this marvelous remedy put an end to a case of neuritis that I had despaired of ever shaking off. The pain settled in my forearm and fingers and for days at a time I was helpless from the frightful agony and could not move my hands. My kidneys were weak and added to my intolerable misery.

"The first bottle of Konjola indicated what could be expected. I continued the treatment for five weeks and my health troubles were at an end. Every vestige of pain had left my arms and fingers, there is no swelling and no stiffness in either. My kidneys responded weeks before. It is difficult, even now, to realize that one medicine could do all that Konjola did for me."

Konjola is sold in O'Donnell at Whitsett Drug Co., and by all the best druggists in all towns throughout this entire section. (Adv.)

Ringworm of cattle is common during winter and spring and should be treated if found. Scrape off the crusts of the patches on the skin and wash with soap and water. Then apply tincture of iodine once a day. Carefully whitewash and disinfect the barn, as this disease is contagious and easily transmitted from one animal to another.

Good sanitation in the poultry flock increases the number of fertile eggs produced during the breeding season. The fowls should be fed liberally on wholesome feed and should be kept in houses that are dry and well ventilated. It is especially important not to overcrowd the houses and to keep the litter clean and dry in the breeding season.

"Shall I go into the dairy farming?" is a question many persons are asking themselves nowadays. "Dairy farming for beginners," a recent publication of the U. S. Department of Agriculture, discusses the pros and cons of this question. This can be obtained by writing to the department of agriculture, Washington, D. C. for Farmers' Bulletin 1610-F.

FEDERAL FARM BOARD

The Federal farm board announced today that the wheat advisory commodity committee had recommended to the board that it recognize the grain stabilization corporation under the terms of the agricultural marketing act and that a loan be granted to this corporation sufficient to carry on its initial operations.

The grain stabilization corporation is composed solely of qualified Cooperatives, grain cooperatives and its membership is open to all such cooperatives. The various members have waived all rights or claims to any profits which may accrue from its operations, to the end that all profits or losses will fall upon the revolving fund provided in the agricultural marketing act.

This is simply another step in the program of the grain cooperatives and the farm board for a unified national system for marketing grain and has been under consideration by the board for several months. The board, after careful study, is prepared to recognize this organization, set up by the grain cooperatives, as a wheat stabilization corporation under the terms of the agricultural marketing act.

DISTRICT COURT TERM WILL OPEN MONDAY

(From Lynn County News)
The February term of the district court will open next Monday morning. There are two murder cases on the docket to be disposed of. The Mrs. Mollie Turner case is set for trial March 10. She is charged with the murder of her husband near Wilson about nine years ago. She was indicted a little more than a year ago and was tried and convicted, the punishment assessed being 20 years in the penitentiary. The case was reversed on appeal, however, and was remanded for a new trial.
The other murder case is also an old one. The State of Texas vs Adlee Roberts, Roberts is charged with the killing of Calvin Petty on September 23, 1925, near O'Donnell. He was tried and convicted of manslaughter, the punishment being assessed at five years in the penitentiary. This case was also appealed and reversed. Under the law he cannot again be tried for a higher offense than manslaughter, the maximum penalty for which is five years in the penitentiary. Judge T. L. Price the present district attorney, was attorney for the defendant on the former trial and he is disqualified to try the case now. The date for the trial of this case, therefore, has not been set.
There are many other criminal cases of importance on the docket, neither are there many important cases on the civil docket.
The grand jury will be empaneled Monday morning. The grand jury venire consists of the following gentlemen: D. G. Cook, J. D. Martin, J. E. Sherrill, A. R. Hensley, Grady, Leonard, J. S. Fritz, W. E. Guye, Robert Ragan, E. W. Holloway, C. A. Coleman, J. R. Hamilton, Frank Crews, J. K. Calloway, C. B. Townes, J. W. Elliott, E. H. Hancock.
Petit jurors have been summoned for the second, third and fourth weeks of the term, as follows:
Second Week.
Waldo McLaurin, H. A. Dial, C. C. Coleman, J. Wright Edwards, Don Edwards, W. H. Lovelace, R. P. Weathers, S. L. Williams, E. A. Thomas, R. E. Poer, W. S. Perry, A. M. Pair, J. T. Owens, D. D. Odum, L. H. Moore, J. J. Cranfill, B. W. Baker, W. M. Crump, R. R. Ballew, W. T. Luttrell, W. B. Ledbetter, J. W. Estsi, M. C. Ball, S. E. Reid, John T. Johnson, B. M. Haynes, N. D. Lovatt, Guy Bradley, Tom Smith,

G. F. McCullough, Jim Greenwood, J. W. Donhan, A. P. White, A. Z. Sewell, J. H. Smith.

Third Week.

J. W. Savell, W. R. Nettles, John Thomas, R. C. Carroll, L. M. Mears, G. A. Brasfield, G. W. Knoy, L. O. Michell, E. F. Schwartz, A. J. Mullins, R. L. Pirtle, E. R. Dryer, W. L. Knight, R. Bosworth, W. J. Brinson, E. S. Davis, R. A. Chambers, R. E. Bland, Clyde Ash, E. J. Bean, J. E. Ketter, R. C. Forrester, R. L. Craig, W. P. Robinson, R. C. Blair, J. H. King, W. L. Gardenhire, A. B. Hatchell, J. O. King, G. W. Hickerson, W. A. Hinkle, Walter Caswell, A. A. House, Don Bradley, W. H. Guthrie, J. J. Atkinson.

Fourth Week

B. F. Balch, C. C. Johnson, Sr., Gus Porterfield, M. F. Ballew, W. S. Jasper, W. B. Edwards, R. A. Kahlieh, A. L. Lockwood, D. H. Goodnoh, W. G. Allen, Ed Goddard, Ed Denton, Fred Henderson, J. A. Hill, A. R. Thomas, G. H. Haines, J. J. Alderson, J. F. Oliver, J. L. Calward, R. B. Braswell, W. O. Lambeth, W. W. Gurley, J. E. Aycox, D. G. Phipps, J. D. Hoard, John Earles, Willis Simpson, G. C. HATCH CHICKS EARLY

Early hatching pays. In addition to greater eggs profits in winter when eggs are scarce, early hatched cockles are more profitable as market poultry than those hatched late. In the north, March 15 is a good date to hatch the first chicks and May 15 is a good date to finish hatching. In the southern states, hatch about two weeks sooner. Allow time after placing the male in the breeding pen before saving eggs for hatching. A fertile egg may be obtained two days after mating, but about two weeks should be allowed. The fertility of eggs remains at a sufficiently high percentage for about five days after the males are removed from the breeding pen. One male mated to a very large number of females up to 15 should give a fairly consistent percentage of fertile eggs.

After March 1st I will be ready to accept sewing. Mrs. Dr. McIlroy in J. D. Crawford home.

MANURE DISPOSALS

Manure should never be dumped in the yard where dairy cows are likely to lie in it or to walk through it. If not stored in a shed or removed to the fields, it should be piled at a considerable distance from the barn and on the side opposite from the milk room. When weather and field conditions permit, it is probably best to spread the manure as soon as a load has accumulated. If a spread is not available, an ordinary wagon may be used. The yards should be scraped regularly and the scrapings spread with the other manure. Hauling manure to the fields regularly not only keeps

premises in a sanitary condition it usually is a profitable practice from the standpoint of a crop production.

A common mistake in tobacco culture is sowing the seedbed too thick. Thick seeding causes crowded plants with undeveloped root systems and lack of resistance. A covered seedbed is a good medium for development of diseases, especially wildfire, mosaic, root rot, and damping-off. The best method of seeding tobacco says the U. S. department of agriculture, is to reduce the average amount of seed sown by half, or by two-thirds if it has been; re-cleaned. If thoroughly re-cleaned, 1 ounce of seed contains about 300,000 viable seeds.

After March 1st I will be ready to accept sewing. Mrs. Dr. McIlroy in J. D. Crawford home.

Sea-Going Festival, a Novelty in West Indies Cruises

America's first sea-going Christmas Music Festival will take place aboard the Canadian Pacific liner Duchess of Bedford which sails from New York Dec. 23 on a 16-day cruise of the West Indies. A special choir has been selected for vocal singing, and the ship's orchestra will play Christmas music dating from the earliest Yuletide observances in England and on the Continent. Seasonal ceremonials linked with the Boar's Head, the Yule Log, the Baron of Beef and the Druidic mistletoe will be topped off with a Christmas dinner rivaling that described in Washington Irving's "Bracebridge Hall." All these will be carried out with the aid of Elizabethan pageantry and with old-time English and American dances directed by an instructor designated by the New York branch of the English Folk Dance Society.
Dances like the Virginia reel and the Kentucky running-set, together with their distinctive tunes, and Colonial music generally, were brought to this country by 17th century settlers from England at the time of the British occupation of the West Indies. The voyages of Drake, Hawkins, Captain Kidd and Sir Henry Morgan had introduced those sunny tales with a romantic glamor that captured the British imagination from the earliest time. British occupation of the West Indies and British settlement of Virginia therefore gave the New World its first taste of English social life, and it is significant that the running-set survived in the Pine Mountain region of Kentucky long after that dance had died out in its native England.
An experienced singer has been engaged to direct community carol singing aboard the Duchess of Bedford and to assist in the series of special concerts. J. Harry Smith, who assisted in staging last year's Yuletide Festival at Victoria, B. C., will superintend the ceremonies on shipboard and direct other topical shows.

GUILD GROCERY COMING

-TO O'DONNELL-

The Guild Grocery is an organization of proprietors of privately owned grocery stores so that they can pool their buying and in that way they buy in larger quantities and buy cheaper than each individual can buy who buys in small quantities.

Therefore the Guild Grocery can compete with any of the large chain stores both in buying and selling. The Guild Grocery is coming to O'Donnell in the near future, and will be—

SQUILL KILL Rats Cost Millions Annually

You can rid your premises of this costly pest without danger of your poultry or domestic animals by using Squill Kill, a Red Squill preparation. Red Squill is recommended by the U. S. Department of Agriculture in farm bulletin No. 1533, as being taken readily by rats and relatively harmless to human beings and domestic animals.

Rats cost the American people \$200,000,000 annually. They distribute the virus of plague of hydrophobia, of trichinosis of equine influenza. When you can be rid of these pests by using Squill Kill at a cost of 50 cents, can you afford to have them?

Squill Kill carries a positive guarantee. If used according to instructions, your money will be refunded if Squill Kill does not kill rats and mice.

WHITSETT DRUG CO. Squill Drug Co., Barnesville, O.

assisted in serving the guests chicken salad sandwiches heart sandwiches, hot tea and coffee and dainty red pepper hearts. This lovely occasion was enjoyed by those present and the ladies of the auxiliary wish to thank each and every one of you for your hearty cooperation.

Miss Eva Dell Harris Hostess To Valentine Party

On last Saturday evening a jolly group of young people gathered at the home of Miss Eva Dell Harris. The rooms were decorated throughout in the usual Valentine way thus making them very attractive. Every one had the experience with a bow and arrow shooting at cupid's heart, several missing the "City of Love."

Other amusing games were played throughout the evening after which delicious refreshments consisting of hot chocolate, sandwiches, heart-shaped cookies were served to the following: Eva Tune, Leona Stokes, Madeline Morrison, Inez Edwards, June and Jessye Middleton, Mrs. Merle Wheeler, Ozell and Beatrice Wheeler, Louise Edwards and Messrs. Calvin Fritz, V. B. Hohn Benton Payne, J. D. Echols, L. J. Hohn and Golden Simmons.

Young People Enjoy Weenie Roast

On last Thursday evening a group of boys and girls went on an outing after building a bonfire on the open section they sat around it playing dks and singing. All kinds of out-of-doors games were played after which they roasted weenies, toasted marshmallows which they ate with olives, pickles, potato chips, fruit and cakes. Those enjoying this lovely outing were: Misses Kathryn Veszey, Ruth Roberts, Alice Joy Bowlin, Amelda Simpson, Dessa Holman,

Lois Nelson, Alma Green, Wynona Huff, Mary Dell, Vermillion, Viola Wyatt, James Cathey, Howard, Black welder, Glenn Everett, Sam Singleton, Ralph Beach, Morris Davis, Snookum Shumake, Lee Vaughn, J. Y. Everett.

B. Y. P. U. Attends Zone Meeting

A group of B. Y. P. U. members attended a zone meeting in Wilson last Sunday. Volunteers band from Wayland college helped to entertain them. Those enjoying this outing were Messdames W. E. Guy Earl Rochelle, Misses Mary Dell Vermillion, Effie and Winnie Vaughn, Roxie Hancock, Clara Ruth Nichols, Beatrice Wheeler, June and Jessye Middleton and Messrs. Roy Guy, John Vermillion, V. B. and L. J. Hohn and Desmond Yandell.

SOCIETY

Mrs. Wells Entertains For Miss Merle Smith

Valentine might be termed the theme song of the lovely party at last Friday evening when Mrs. E. T. Wells honored Miss Merle Smith, for hearts were everywhere in evidence.

As the guests entered, they were greeted with the pleasant sight of three tables charmingly decorated with hearts bearing the name of the honoree. Instead of the usual drawing of tally cards, the gentlemen were given small hearts on which were written the given names of the young ladies. A rather uproarious period of time ensued, since very few of the names were familiar, but at last each couple found the proper place, and spirited games of bridge were begun.

Miss Smith, the honoree, looked unusually attractive in a lovely evening ensemble of black lace.

Miss Roxie Hancock won high score for the ladies, and was awarded a complete bridge set. Pryor won high score for the men, and received a handsome hand-painted tie.

At the conclusion of the games, the hostess served dainty plates containing chicken salad decorated with pimiento hearts, heart shaped with bread and butter sandwiches olives, coffee and chocolate with whipped cream to Misses Roxie Hancock, Laynette Smith, Thelma Palmer, Alma Hyde, Irene Jordan and Merle Smith. Messrs. Pryor, Hickerson, Peirce, Monagin, Cathey and Allmon.

Mesdames Gibson and Hubbard Entertains

On last Friday evening Mesdames Gibson and Hubbard were joint hostesses to a lovely party in the home of the former honoring the fire boys and a number of friends. Forty-two was the game of the evening there being six tables in number. Dainty Valentines were used as tallies which helped to carry out the Valentine idea. After an enjoyable evening delicious refreshments consisting of pimiento cheese sandwiches and olives and hot chocolate and whipped cream were served to the following guests: Messrs and Mesdames Cliff Willis, Naymon Everett, Brian Hood, Grady Gantt, Roy Willis, J. W. Campbell, Guy McGill, Misses Alice Thomas, Mrs. Frank Shumake, Messrs J. D. Fairley, Allan Williams and hosts and hostess Messrs. and Mesdames Roy Gibson and Cecil Hubbard.

Valentine Party For Younger Set At Bradley Home

Miss Anna Maud McVicker was the charming hostess to a number of her friends last Saturday evening when she entertained with an informal party at the home of her sister, Mrs. Guy Bradley.

The spacious living room and dainty breakfast room were decorated with Valentine touches, hearts and bows of crepe paper being placed at just the right places. The guests themselves gave an air of informality with their overalls and aprons.

The living room was divided into the emergency, accident and operation wards and each couple went through the trials and tribulations of each before being permitted to go away for the health. In the emergency ward, each one was asked to try his hand at flipping small hearts into larger ones, in the accident ward each guest made as many words as possible from the letters contained in the word heart, and at the operating table broken hearts were mended with needle and thread. After the

excitement of going through the various departments of the hospital, the guests matched hearts for the trip to the health resort, which was the very appropriate name given the breakfast room where delicious refreshments were served buffet style. Heart shaped cookies decorated with red hearts, candle salad and grape lemonade composed the refreshments list, the punch bowl being a lovely decoration in itself. Those present were Misses Mary Dean Preston, Hazel Burk, Beverley Wells; Lois Nelson, Morene Huff, Irma D. Palmer, and Mary Amelda Simpson, Messrs. Ridgeway and Beacham, of Lamesa, Monagins, Burk, Singleton, Clayton, Melroy, Cathey and Treadway.

Valentine Motiff Stressed As McLaurin Entertains

Mr. and Mrs. Waldo McLaurin were hosts to a large number of friends at one of the loveliest parties of the winter season when they entertained with a Valentine party on last Thursday evening at their beautifully appointed home in the central part of town.

Genuine hospitality on the part of both host and hostess as well as the careful attention to charming details which are always characteristic of McLaurin parties lent and air of gaiety and just-rightness to the whole affair. The Valentine theme was everywhere in evidence, from the tally cards to the score pads on the eight tables arranged for forty-two.

At the end of the most enjoyable evening, the hostess served delectable fruit-jello with cake, hot chocolate and whipped cream, each plate being decorated with dainty heart shaped boxes filled with Valentine candies, to Messrs. and Mesdames John Earle, E. L. Sorrels, Guy McGill, Roy Gibson, E. O. Stark, T. M. Garner, J. W. Campbell, W. S. Cathey, Ben Coin, J. P. Bowlin, Harvey Jordan, George Shumake, Hal Singleton, Jr., L. E. Robinson, Brian Hood, and W. J. Shook.

Cumberland Presby. Aux. Gives a Silver Tea February 14th

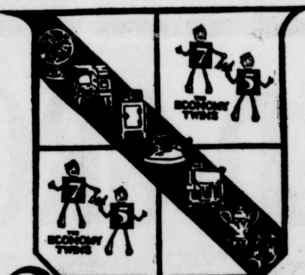

On last Friday afternoon a lovely Silver Tea was given in the home of Mrs. E. L. Sorrels under the auspices of the Cumberland Presbyterian Auxiliary, the proceeds of which will be used in securing seats for the new church. On entering the guests were met by the little "Queen of Hearts," namely Misses Lena Mae and Mary Louise Singleton, who were bearing dainty baskets from which they distributed heart favors.

The suite of rooms were beautifully decorated in Valentine effect. Vases of sweet peas and carnations were artistically arranged over the house. A very interesting program was rendered throughout the afternoon as is shown below.

Piano Solo—Laynette Smith, reading—Lena Mae Singleton, reading—Helen Belle Pimberton, vocal duet, June and Jessie Gary, reading—Maurine Huff, piano solo—Mrs. Luke Hardy, reading—Robert Gary, vocal duet—Eula Bell and Louise Miles reading—Mrs. J. W. Roberts, violin selection—Miss Smith of Lamesa, violin solo—Beatrice Randell of Lamesa.

Immediately after the program the guests were asked to be served in the dining room. The table covering was of cream lace over red. It was adorned by silver candle sticks and silver tea and coffee urns. Misses Mary V. Shook and Fay Tomlinson

a Policy and a Pledge

Regarding ELECTRICAL APPLIANCES

FOR many years this Company was concerned with only one problem—that of delivering dependable and economical electric energy to the home.

Then the electric appliance—of one type and another—began to play a very important part in electric service to the home. This condition brought a further and deeper responsibility to this Company—that of supplying the proper kind of electric appliances to its customers.

An electric appliance for the home should do certain definite things. First it should be efficient; that is, give the most service for the least cost price. Second, it should use the least amount of electric energy in operation, and should stand up for the longest period of service.

It became necessary, then, for this Company to adopt a very rigid policy in the matter of selecting and offering appliances for sale to its customers. So, throughout the years this Company has maintained a testing laboratory through which each appliance must pass with creditable performance before it is offered to our customers.

You can depend absolutely on the appliances which we offer to you through our stores. Each one is the best of its kind. They have been carefully tested for quality, workmanship, economy of operation and are backed by the reputation of this Company, as well as by the manufacturer of the various appliances. Enjoy the fullest use of electric service with the best of electric appliances.

Saturday Is Last Day Advertisers May Have To Be Represented in— New Telephone Directory

THE WORDS: "We saw your Ad in the Telephone Directory" are frequent. Wouldn't you like to hear them spoken in connection with your business?—"IT PAYS BECAUSE IT STAYS"

Did

you ever hear of any one throwing away their telephone directory until it was out of date?

Answer

is the reason it pays to advertise in the Telephone directory.

Special Notice

We are so rushed to get the directory out that we may not see you again before it is too late, therefore, for your surety that you will have an advertisement in the New Telephone Directory phone 49 and we will be around to see you immediately.

HISTORICAL NEWS

The New Telephone Directory this year is going to be bigger and better than it has heretofore, carrying historical news of O'Donnell, as well as achievements of some of the outstanding citizens.

NOTICE TO CANDIDATES

Several candidates already have given us their advertisement for the New Directory, however, we have not been able to see all of them, and it would be a great favor if you would come to the Index office sometime before Saturday night and give us your copy, if you desire to have your card placed in this directory.

The Public—

Needs to be "Reminded" as well as informed.

Telephone Directory Advertising Does Both

"IT PAYS BECAUSE IT STAYS"

SPECIAL NOTICE—Anyone having any data on the history of O'Donnell will do us a favor by calling 49, so we may have such news for the directory. Or better still, write out what you may have and bring it to the Index office.

Those business and professional men who desire to have their names in Black Face type please phone 49 as it will be almost impossible for us to get around and see everyone before Saturday night, the last opportunity for you to get in your advertisement. The price is 50c for running your business in Black Face type.

FINDS STATE BANKS WELL SUPERVISED

Bankers Body Sees Less Politics in Banking Departments With Better Facilities in the Hands of the Responsible Officials.

A survey of state banking departments by the State Bank Division, American Bankers Association, discloses a distinct tendency the past five years to take bank supervision out of politics, to increase the discretionary powers of bank commissioners, to lengthen their terms of office, to supply them with adequate forces of qualified examiners and to relieve banking departments of other duties.

The statement says: "Formerly, that his term of office be made more secure and lasting, with sufficient salary and power granted to attract and retain the services of men of outstanding executive ability, courage, resourcefulness and successful banking experience."

"Five years ago the first survey of state banking departments by the division demonstrated the need for improvement. On the basis of data now in hand it is evident that, through the revision of statutes in many states, rapid steps are being taken in the right direction. One by one the states are coming to recognize the primary importance of strong, competent banking departments. The demand for increasing the effectiveness of banking departments is beginning to be met."

New Bank Commissioners Are Chosen

The office of bank commissioner is now operated as an independent department of state government in thirty-four states, the bankers find. In two states the bank commissioner is elected at general elections; in one he is appointed from eligible lists of the civil service and in another he is selected by the banks. In one state the bankers association elects a list of five names from which the governor appoints one as superintendent of banks; in another he is appointed by the State Corporation Commission and in another by the State Banking Board.

"Terms of office of bank commissioners have been lengthened in several states during the last five years," the report says. "In 23 states the term is four years, in one, five years, and in three it is six years. In some the term is indefinite. A short term is condemned on the grounds that the commissioner has insufficient time to become thoroughly conversant with his field. A longer term permits his rendering useful services through capitalizing his experience. Five years are the average length of service as in the last three years, while now it has risen to five years."

Higher Standards Required

"Signs of an awakening to the necessity of making successful banking experience a qualification for bank commissioner are evident. Wherever the report no banking experience necessary, the majority require experience of this sort, ranging from two to five years. Twelve states now have banking boards, with powers ranging from acting in an advisory capacity to full power over all state banks to issue and reject charters."

"A healthy state in the number of reports which disclose that the commissioners have full power to appoint bank examiners or that these appointments are made from civil service lists. This power is now vested in the commissioner by twenty-seven states. Three require that selection be from civil service lists. Complaints are still made in a few states of political pressure in the appointment of examiners, but the contrary seems to be true in a growing number of states. The most capable commissioner cannot successfully perform his duties unless he is able to command the services of efficient, honest examiners. The safety of depositors is dependent on their work, and their appointment, fitness and conscientiousness is highly important. The number of examiners has increased 25 per cent in the last five years."

BANKERS TO HOLD GREAT CONVENTION

Cleveland, Ohio, has been designated for the 1930 annual convention of the American Bankers Association. This organization, which numbers about 20,000 banks with \$65,000,000,000 in assets, is annually the nation's most important financial event. The attendance ranges between five and ten thousand.

It is especially significant that the Association's education fund was in this organization last met presented looking for educational purposes. It resulted in the banking in the 1930 bank table. The study with needs.

Lamesa News

Announcement was made this week of the purchase of Davidson's Transfer line between Lamesa and Big Springs by W. M. Kuykendall, manager of the Kuykendall Transfer company of this city. L. W. Taylor has been appointed manager of the Big Spring office. This transfer company now serves Lubbock and Big Springs, with headquarters in Lamesa.

Lamesa boasts of the only woman city sanitarian and Milk Inspector in Texas. Mrs. Irvin T. Bailey, R. N., was recently appointed to the position by the city commissioners.

Tree surgeons were busy here this week pruning the trees on the court house lawn.

Dawson county's next road bond election will be held April 8, it was decided during a recent meeting of the county commissioners court here. The court acted on petitions signed by 275 taxpayers calling for a \$600,000 program to hard surface the two state highways in the county. An educational program has been started by the Dawson county good roads association to inform voters of the need for a paved road system in Dawson. Very little opposition has been evident towards this county's second effort to pave her roads.

Formation of a Dawson county poultry association will be discussed during a meeting here Saturday when reports from an organized committee will be heard. Plans were discussed for a poultry association during the recent poultry short course here, but the organization was postponed until a committee could investigate its feasibility. The organization committee is composed of D. H. Davis, Mrs. Claude Gowen, Mrs. B. F. Davis, Mrs. J. D. Adkins, Mrs. D. W. Hamilton, Mrs. C. Jobe, J. H. Barron, Hoy Meyers, Joe Peterson, W. W. Evans and Miss Genevieve Chipman.

Lamesa's water tank this week was given a new coat of black paint. The crown was covered with white, and the word, "Lamesa" was painted on top of a guide to aviators.

Dawson county poll tax receipts numbered 3,181 up until January 31, according to the sheriff's office here. This total is considerably lower than last year, it is said.

"Our Merry Making Minstrels" will be the name of a black face musical comedy to be represented here February 28, according to Mrs. W. D. Arnett and Mrs. Phillip Yonge, directors. The minstrel will end an educational "Lamesa Week" and will be sponsored by the Lamesa Chamber of Commerce. The play will star all local talent.

Lamesa will be entertained by the Baybee Glee club in March, according to V. Z. Rogers. The concert will be held in the auditorium of the Lamesa high school.

Members of the Lamesa luncheon club enjoyed the year's best program this week when three prominent citizens faked a radio broadcasting stunt. Wm. A. Wilson, secretary of the chamber of commerce, was supposed to have been in Fort Worth and was scheduled to be represented here during the noon hour. He hid himself in a room just above the club's meeting place and at the proper time came "on the air". He spoke for ten minutes over a short-wave amateur broadcasting set and was picked up by the club downstairs. Two minutes after he signed off he walked into the room and presented

R. E. Renfrow, radio expert, and George Canon, who aided in the broadcasting hoax.

Little Miss Bobbie D. Hull, nine-year-old daughter of Mr. and Mrs. D. Hull of this city, has not been absent or tardy from school in the last three years and her name is very often found on the school's honor roll. She is at present taking her first year in violin and shows unusual talent.

Work began here this week on the \$7,500 Baptist parsonage, part of the \$75,000 building program of the local Baptist church this year. The structure will be of yellow-face brick and will be constructed on the corner of Katherine and South First streets. The new church building will be located in the same block on the corner of Wason and South First streets.

Trench Mouth Healed

Your friends dare not say so but your sore gums and foul breath don't make folk like you any better. Leto's Pyorrhea Remedy heals worst cases if used as directed. It is not a mouth wash or paste, and is sold on a money back guarantee.

Whitsett Drug Co.

GRAZING IN PINE FOREST

Just what effect fire grazing may have on the survival of young longleaf pine trees is being determined in a study carried on by the southern forest experiment station of the U. S. forest service on a 320-acre tract of cut-over land near McNeal, Mississippi. It was found that when a woodland was left under natural conditions, that is, protected from fire and grazins, 85 per cent of the little longleaf pine seedlings will survive. The 15 per cent which die out do so because of factors that operate in nature, such as root competition, competition for light, fungous diseases, etc.

Grazing ordinarily does not do a great deal of damage to the tiny trees. 75 per cent having pulled down by the test experiment. But if the prevailing grass in the woodland is carpet grass, grazing damage is very great, frequently killing off all but about 2 per cent of the young seedlings, since the carpet is grazed very closely by cattle, resulting in injury to the little trees.

Fire causes the greatest damage to young longleaf pine and is therefore most detrimental to reforestation. After two burnings on one of the plots studied, less than 18 per cent of the seedlings were still living.

Except where there is carpet grass grazing at the rate of one steer to 10 acres was found to reduce the fire hazard by removing a great deal of the inflammable dry grass; and on areas of sedge an dwire grass then heavier grazing may be helpful in reducing damage to pine seedlings, if fire can not be entirely kept out.

WELLS NEWS

Mr. and Mrs. W. J. Jordan gave a party to the boys and girls basketball teams Wednesday February 12. After many enjoyable games were played delicious refreshments were served. The party was enjoyed by all.

The T-Bar girls basket ball team met the girls team of this community on the O'Donnell court Thursday, February 13. The scores were 9 to 19 in favor of T-Bar. The junior boys also played the junior boys of O'Donnell. The scores were 4 to 5 in favor of O'Donnell.

Coach B. F. Scott was in charge of the basketball tournament Saturday, February 15.

Mrs. W. G. Allen spent the past week in Big Springs with Mr. Allen's father who has been ill.

The students of the O'Donnell high school presented a play, "The Daughter of the Desert" here Friday night February 14.

Mrs. Showalter is still in the sanitarium in Lubbock. She is improving somewhat.

Mr. Dolloff, father of Mrs. J. J. Waldrep is in the sanitarium at Lamesa.

We have received some new library books.

Mr. Nixon who lived near T-Bar died last Friday night, at his home.

We have borrowed a road grader and are fixing a race track.

Rev. Shoemaker will preach here Sunday February 23.

Lee Waldrep, son of Mr. and Mrs. W. J. Waldrep has been examined by several doctors who agreed that he would have to undergo an operation. The ball pulling of this community is about to end. Several have their land listed.

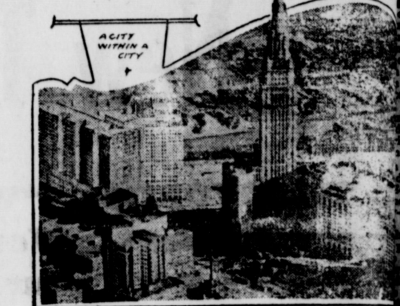

Bill Tucker, a Spanish pupil of this school received a Spanish letter from a pupil of San Antonio.

After March 1st I will be ready to accept sewing. Mrs. Dr. McCloy in J. D. Crawford home.

Eggs are good at any meal. For dinner many people prefer ham and

fried eggs to the more elaborated. Or one might take a suggestion of the prevailing social custom of scrambling eggs and sausage, a midnight collation, and use good combination for either breakfast or dinner. An omelet, or a made with many eggs in combination with cheese or ground vegetable, meat, or fish, is another use for eggs as a main dish. A platter of cooked eggs in curry sauce is a variation from the usual. The U. S. department of agriculture has published a leaflet containing recipes for a number of food dishes and desserts in which eggs dominate.

Brothers Tear Down Whole Town To Rebuild Heart of Cleveland

Two brothers who peddled farm land not so long ago, are remaking the heart of Cleveland in the greatest unified building project ever undertaken in the United States.

A whole town—1,700 buildings—was torn down. Thirty-five acres cleared, stumps wiped out by O. P. and M. J. Van Swearingen to make possible the Terminal Tower building.

Higher than all but Eiffel, almost as high as the Tower of London, the Terminal Tower building of fifty-two stories forms an arched gateway to the Union Depot Concourse and the great central feature of the group.

By day, the Tower is impressive in its stately dome of Indiana limestone, carved from the thirtieth to the thirty-second story with graceful emblem, embellished with towers and crowned by a pyramidal hoodstone, 70 feet above the sidewalk. By night its hundreds of floodlights, trained on

the upper portion, transform the time zone of 3,000 workmen luminous Lake Erie bosom.

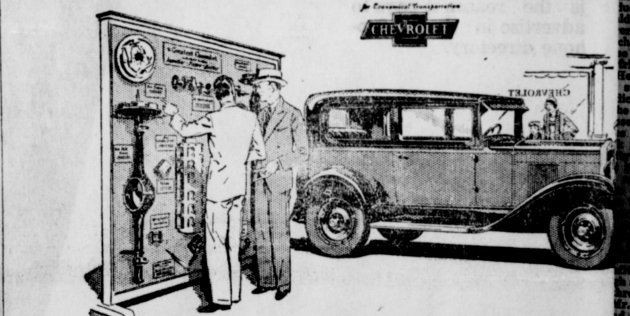

The Van Swearingens, makers, threw a high-level bridge the Cuyahoga Valley, built into automobile highways, electric railway tracks for miles in section and plan five rapid lines as additional uses of the messes project, near completion.

The group, ten years in the making, includes a department store hotel, an office building, the Exchange, the Midland Hotel, the 18-story Medical Arts building, and a factory, 1,500,000 square feet of floor space, built from any point to any other.

"This tremendous vision typical of the new vision as courage in American advancement," commented A. J. DeLoe, president of the Indiana Limestone Company. "We are proud to see from our quarries was chosen one to lend character, strength and beauty to this immense project."

Pumping Power from the Windmill Breeze

The **DEMPTER** NO. 12 WATERMILL

Here's the windmill that assures your having plenty of water in every season. Pumps 25% more water in the lighter winds. Runs smooth and easy. Self-adjusting in all winds. The **HIGGINBOTHAM-BARTLETT CO., O'Donnell, Tex.** Also carrying a complete line of Dempster Water Supplies.

Dempster No. 12 needs oiling but once a year. Has Timken Tapered Bearings, Machine Cut Gears, Positive Backing. Let our experience smooth and easy. Self-adjusting in all winds. The **HIGGINBOTHAM-BARTLETT CO., O'Donnell, Tex.** Also carrying a complete line of Dempster Water Supplies.

ELECTRIC WIRES CONQUERING ENTIRE COUNTRY

In the last few years Texas has been foremost in electrical power. In every town and village in the state they either have electric power or are making every effort to get some power line inter in bringing the precious light and power which changes the hardships, and drudgery into easy work and happiness.

Within a short time it will be laughable to find a place where they have had the pleasure of using power and light, and rightly so, for it is much more than power, and the added convenience cannot be measured in dollars and cents, or described by words.

part that electric power has in the development of the Texas, as graphically described recently by W. B. Sloan, native of Alabama, now president of the National Light Association, at the dedication of a new hydro-electric power plant on the Coosa River in Alabama.

showed that the growth of southern states has been inordinately rapid with the development of electric power transmission lines which have made available an abundance of electric power for industrial as well as for domestic and commercial purposes.

several southern states, Alabama, Georgia, Mississippi, North Carolina and Tennessee, the rate of wage earners increased 10 per cent during the year 1914 to 1927, while the increase in the entire country was only nine per cent. Sloan related that in this country payrolls increased one and a half per cent in 1927, while the increase in the entire country was only nine per cent.

While pay rolls were growing, so electric service, for electricity supplied by public utilities increased 100 per cent and six per cent as compared with four hundred fifty per cent increase for the entire country. Thus we have electric power growing right along with the families and business it serves.

Power Basis of Growth
That is the case all over the country. It is generally conceded by economists that the power industry is one of the basic elements in the rise of our country to industrial supremacy. That is the reason that it has grown up out of manure and the large scale manufacturing accompanying it. Mass production has raised standards of living and lowered production costs, and had not have been possible without the use of better types of machinery.

Henry Ford recently made a striking statement about electricity. He stated a vast increase in its use in the next decade, continuing until it is generally used for all purposes to which it is suited in homes, places on farms. He said electric power should be made so low in price that it would be cheaper to use than coal.

He said he was not afraid of the great organization would supply the electric needs of the entire country. The one great organization had such advanced machinery and economy and supplies of power that the entire country would far outstrip the profits which might be taken.

Mr. Sloan is perhaps a few steps ahead of the general industrialists with him that the future of the great electrical use of electricity is what it is coming to be, and we know what it is.

It is in drudgery saved when we substitute electric power for manual power.

Thinking just as much as an automobile to sell electricity at a price that it will be cheap to use is not to use it. Whether in time the electricity supply of the country will come from one great plant or from many more you don't know any more than I do.

We do know that the development of electric utilities has been the development of larger and larger units so that some them serve a whole state, and there are groups of companies combined in systems which cover a large part of several states.

Merger Bring Economies
Integration of small companies into larger ones and of large companies into one of the most important way by which the cost of administration and operation has been lowered to that prices are lowered. It has been a natural process and undoubtedly will go on so far as it proves good economic usefulness of the electric power to the country must be in the hands of better organized power developments as decrease and lower prices when possible. These items are the duty of the power industry to be performed by its obligation to the public service.

The industry has created a splendid record in its comparatively brief history. In seventy per cent of the country have electric power plants, fifty per cent of the population has electric power. This country are electrified. The people who have electrified the lines of their own power grid-ironed the rural areas what that means in

NOTES FROM AUSTIN

Dr. W. W. Cox of the state department of education of New York will teach on the summer faculty of the university of Texas as a member of the staff of the department of educational psychology, according to Dr. H. T. Manuel, chairman of the department. Dr. Cox will conduct a course in educational measurements and one in statistics.

January loadings of fruits and vegetables in Texas totaled 5,066 cars, according to Bertold Nichols, editor of the Texas business review, issued monthly by the bureau of business research at the University of Texas. This compares with 3,908 cars in December and 5,417 cars in January, 1929.

"There were 1,167 cars of mixed vegetables loaded, against 1,903 cars in January last year, and shipments of spinach were reduced nearly 50 per cent to 924 cars," Mr. Nichols said. "A total of 1,113 cars of cabbage went out, a slight gain over the 1,068 cars in January, 1929, and sweet potatoes numbered 178 cars, or a gain of 100 cars in the twelve months. Loadings of cauliflower, lettuce and potatoes were smaller. On the other hand, shipments of carrots increased.

Business Grows—Rates Fall
Year by year, as the business of the power companies increased, rates have been lowered until the average price paid for household electricity in the country over is now considerably less than it was before the World War. These reductions in price in recent years have taken place, please remember, while other items in the cost of living have been much higher than before the war.

Some of the power industry have a good record has been constructed because the power companies have put into their job vision, courage, zeal and a devotion to public service. I know they will continue to do so because they have ideas and recognize their duty to the public service. Because this is so, they will use in fullest measure their scientific research, their creative ability to make service better, more useful in all applications, used by more people. They will share with their consumers the benefits they obtain from increased efficiency and economy, selling more electricity for less money. They will carry on their business on the high ethical plane, having an eye to the public welfare which the business serves. They will operate as sound business men, seeking growth of sales and profit but only because they earn them. They will seek public approval of policies and performance but expect it only as the result of their power industry can earn profits and secure public approval only by serving the public interest.

Oklahoma at Norman on March 10 and the university of Missouri at Columbus on March 12.

Contests at home have been arranged with the university of Kansas on March 6, then Louisiana State university on March 18, the University of Arkansas, the date of which is undecided, and the university of Southern California on April 9. A second debate with the university of Kansas will probably be arranged on March 7 to be held at San Antonio, Rousseau said.

Manuscripts from the Genero Garcia collection in the university of Texas library are being published serially in La Prensa, Spanish newspaper, according to Carlos E. Castaneda, Latin-American librarian at the university of Texas.

In the Garcia library, collected by Garcia over a long period of years, are 400,000 pages of unpublished manuscripts covering every phase of Texas history. Garcia began publication of these documents in 1905, calling the series "Documentos para la Historia de Mexico." This series contained 36 volumes, the last of which appeared in 1911. Then he began a new series, "Nuevos Documentos," but published only one volume before he died in 1920.

His collection was purchased by the university in 1921. For years Mr. Castaneda has endeavored to secure funds to continue publication of the manuscripts. His efforts have met with success only recently. The second volume of the second series has been published by the department of education of the Mexican government.

This volume was a history of all the colleges in Mexico. The third volume contains the correspondence of General Manuel Doblado, covering the years 1857 to 1861. After the material has been issued in daily installments in La Prensa, it will also be published in a 1,000-copy book edition.

Dr. Lovisa Waggoner of Vassar College, Poughkeepsie, N. Y., will serve on the summer faculty of the university of Texas department of

educational psychology during the 1930 summer session, according to Dr. H. T. Manuel, chairman. Dr. Waggoner will teach two classes during the first term of the summer session, one in the study of the preschool child, the other in mental hygiene.

Bernard J. Levy of Houston and Arthur B. Carl of Mensa, Arkansas, were named on the honor roll of the university of Texas college of pharmacy for the first semester, according to Dean W. F. Gidley.

INSIDE INFORMATION

Good lighting is necessary for good laundry work. Washing and ironing equipment should be placed so that light strikes it from the side. This is a point to consider in locating stationary tubs or a built-in ironing board.

W. G. Allen made a trip to Big Springs Friday of last week to see his father who was ill, and also to bring back his wife who had been there several days. Mr. Allen reports that his father is improving.

The City Grocery is still paying the highest market price for your produce.

Inexpensive Tours by Rail and Motor Through Europe Will Enable Students to Visit Old World in 1930

Americans, particularly the younger generation are beginning more and more to appreciate the importance of foreign travel as a means of broadening the mind and increasing the cultural background. Consequently, many men and women are planning to visit Europe before the coming summer. Comfortable and luxurious motor coaches and motor cars are being used for these tours. The trip down the beautiful and historic St. Lawrence River is a journey never to be forgotten, and this voyage involves only four days open railway trains will take the tourists from place to place, visiting Stratford-

on-Avon, Shakespeare's birthplace; London and other attractions in England; Paris, with its Cathedral of Notre Dame, Eiffel Tower, Moulin Rouge and other landmarks; Holland with its picturesque windmills and canals; Belgium, Switzerland and the Alps; Northern and Southern Italy; Germany in time for the celebrated Passion Play at Oberammergau, and other countries and attractions too numerous to mention. This is the person making one of these trips will return home much the wiser for having seen something of those ancient civilizations whence came the founders of the United States of America.

PRIDE LOCALS

Plowing is getting to be the order of the day. We have a good season in the ground and the farmers are taking advantage of it.

The Dawson county grader is busy in our part of the county and is putting up some good roads.

The most of the sick folks are better at this date.

Grandpa Lightfoot is still sick. Grandpa Hanes is better.

Mr. Schooler is busy hauling feed from his farm at Pride to his farms east of O'Donnell.

The Pride phone line is up in good shape again.

H. T. Tiptons daughter and children of Amarillo are visiting home folks.

J. D. Cathey has returned to Arizona after a visit with home folks.

Mr. Avery of Snyder was in our midst Monday with a bunch of prospectors from Sweetwater. Geo. Lightfoot was showing them around.

Pride school got their state aid and if the people will pay up their taxes we will have an 8 months school but it seems some of them will have to be shown it.

Mr. Cohen is sporting a new Chevrolet Six.

The Pride school will have a program on Friday and everyone is invited to bring their dinner and enjoy themselves.
