Insect Control Short Course Will Be Held At O'Donnell Starting Monday

An insect control short course will be held August 2-5, under the sponsorship of the O'Donnell Young Farmers. The course will be held in the Vocational Agriculture department, according to Charlie White, Superintendent of Schools and James W. Reed, teacher of Vocational Agriculture.

Pat Henry, entomology specialist with the vocational agriculture division of the Texas Education Agency and the department of entomology at Texas A&M University, will be the instructor in the course. He is headquartered at Texas A&M University.

Henry has completed his Master's Degree in Entomology. He worked three years with the Department of Entomology at Texas A&M University as a graduate research assistant in the cotton program. He also worked with the Entomology Department at several field stations throughout the state.

"Many insect control short courses in various parts of the state have been taught by Mr. Henry and all have met with outstanding success," according to Mr. Hulan Harris, Area II supervisor of Vocational Agriculture, Big Spring. Arrangements for adult education short courses in insect control and in other fields are made through Harris' office.

The short course at O'Donnell is scheduled to begin August 2 at 8:00 p. m. in the vocational agriculture building. Other meetings in this series will be held in the future. During the dates the short course is in progress, Mr. Henry will be available to assist farmers with individual problems and provide on-the-farm instruction, according to Mr. Reed, Vocational Agriculture.

Farmers interested in attending the shortcourse should write or call the superintendent of schools, Mr. White, or the teacher of vocational agriculture, Mr. Reed. An entry fee of \$2.50 will be charged. Insect control short-course certificates are to be presented to each farmer who attends all the training sessions.

Mr. Henry states that these sessions will be adjusted to the problems that the farmers are faced with in their community. He will discuss these problems and the insect or insects that might be causing the damage and the insecticides needed to do the job. He will also discuss the timing and method of applying insecticides to get the best results. The course will be as practical and simple as possible. Time will be allowed each meeting for any questions that may arise.

FEN KNIGHT JOINS O'DONNELL FIRM

Ben Knight has joined the sales force of O'Donnell Electric & Supply. Ben has 18 years of building and repair experience and welcomes you to call or come by and see him on all your building and repair needs.

With Ben and Ralph, O'Donnell Electric & Supply has a total of 34 years of building and repair experience, there two are well qualified to handle any of your building and repair needs.

O'Donnell Electric & Supply is home owned and operated and carries a complete line of Electric Supplies, Electric Appliances, Building Materials, Furniture for the entire home, and Paint.

Before you buy drop by and try O'Donnell Electric & Supply. Come by and get acquainted with Ben, he plans to move to O'Donnell and make this his home.

NOTICE

The O'Donnell Consolidated Independent Public School will hold a public hearing of the proposed 1965-66 school budget at 8 p. m. August 12th at the Board Room in the administration building. We will be spending your tax money and you should know for what.—Charlie White, Supt.

MAKE SWINE YOUR CHOICE

(By Kent and Billy Jack Wood)

The 4-H Swine program is well suited to the boy or girl looking for a project in which he can demonstrate his skills and knowledge. We find many persons ready to help. Our parents, 4-H leader, county extension agent, fellow club members and local business men give us encouragement. To be successful you must show a keen interest in your animals and seek ways of improving your work.

Among the first things you may do in the swine program is to choose a breed. Then you will select animals which will give you the best results, the highest prices, and with good management, the highest quality pork. You will learn to identify the types, breeds and grades of hogs, swine breeding, feeding and management. The records you keep will give a clear picture of your management successes. Judging, exhibiting and demonstrations will add interesting, new experiences. Working with swine breeders and feeders, extension agents and specialists will be enjoyable and educational.

We have found our swine projects to be very profitable. We have a small herd of registered Hampshire sows and a young Hampshire boar. Also, at present, we have 35 or 40 shoats on feed. Some of these we raised, others we have either bought or traded for. Already we are beginning to cut out the better ones to take to the state fair at Dallas in October. These we hand feed and the others we are leaving on self feeders and will top for market.

We feel that whether your future is in farming, education, business or another field, your 4-H swine project background will be valuable. You develop integrity, sportsmanship, cooperation and ability to speak in public through participation in related activities, such as demonstrations, talks, judging events, tours and exhibits. Developing these character traits will make our leaders for the future.

Miss Carolyn Reed to enroll in Texas Tech this fall

LOCAL CEMETERY NEEDS WORKING BY LOT OWNERS

Due to illness of the president of O'Donnell Cemetery Association the cemetery has not had a clean-up day and the memorial park is in need of much work. The group would appreciate all who will work. The association sincerely appreciates the individuals who keep their lots clean.

"BUILDING BLOCKS FOR THE FUTURE" IS THEME OF FHA NATIONAL MEETING

July was a big month for the Future Homemakers of America as twelve hundred FHA'ers assembled in Philadelphia for the national meeting. The theme for the five day meeting was "Building Blocks for the Future." The main purpose of the meeting was to introduce the 1965-69 National Program of Work, as well as to suggest methods of adapting it for use by local chapters and state associations. The national officers plus many, many other people met through the year to seek out the problems facing the youth of today and to try to find solutions to these problems. After much inquiring and studying, the officers decided on an overall goal: To help individuals improve personal, family, and community living.

Keeping in mind this goal, the officers built the Program of Work around two basic objectives concerned with home and family areas of life. The first objective is to help each family member recognize his abilities and strive for their full development. The second objective is to participate actively in projects for family, community, and world improvement. To help carry out these objectives several projects were established. Under the first objective the projects are: Individuality Counts; Good Health—A Valuable Asset; Jobs, Careers, and You; Morals and Manners Matter; Good Family Relations Through Communications. The second objective includes Your Neighbors Near and Far; Make Your Money Behave; and Leisure Time—Constructive Time. The national officers put out much hard work to find the answers to many problems. Now it is the responsibility of the members on state, area, and local level to carry out solutions found by the officers.

During the first general session, Mrs. Orville L. Freeman, wife of the Secretary of Agriculture, addressed our group. As she talked about "Building for the Future", she stated that each person's effort can make a real difference in this world. After attending the national meeting, we fully realize the truth contained in Mrs. Freeman's statement, and through the next four years we are going to faithfully try to make that statement come true through the use of our goals and our projects. We, the Future Homemakers of America, care about the kind of lives other people live in our own country and in foreign countries. We make it our business to care and to do something about our homes, our families, our communities, our world, and our spiritual lives.

Many statements could be made about the 1965 National meeting but it seems that each one would be inadequate. There is one thought, however, which touched the lives of each of us as we left Philadelphia to carry home the vast plateaus of knowledge we have received. This thought is the realization that we must build our blocks day by day for the future, never denouncing experimentation. This thought is not only the key to building a better FHA, but, perhaps, the key to building a better world.

Katie Garrett, Area II Public Relations Officer.

Miss Judy McKinney to attend LCC

MISS SIMMONS HONORED AT GIFT COFFEE

Miss Sharon Kaye Simmons, bride-elect of Lanny Brewer, was honored at a gift coffee Monday morning in the home of Mrs. Carr Spraberry.

The bride-elect's chosen colors of yellow and white were used in decorations. A floral arrangement of large white daisies and yellow gladiolas centered the table.

Mrs. Joe Brewer, mother of the bridegroom, and Miss Patty Simmons of Denton, sister of the bride, were special guests.

Hostess gift was electrical appliances.

Co-hostesses were Meses Hank Thompson, J. T. Middleton Jr., Holland Simpson, Clarence Williams, Wayne Clayton, J. L. Hash, Gene Cantwell, Norman Shaw, Jack Brewer, Roy Everett, Roy F. Smith, Jerry Gass, Hugh Lott, and Willie White.

YOUNG HOMEMAKERS ENJOY FAMILY NIGHT

The annual Young Homemakers Family Night was enjoyed by the Homemakers recently at the O'Donnell City Park. A chicken picnic and ice cream was enjoyed by all, with several games of volleyball topping off the night with five teams participating.

There were 53 attending, including 10 guests: The Wayne Nolans, the Kenneth Eakers and Miss Connie McCastland. The club's complete membership with the exception of two members was present.

The next meeting of the club will be held on August 5 at the school homemaking department, with a program on Legal Documents and Wills. Mr. Johnny Saleh will bring the program.

The Club showered their advisor, Mrs. Warren Smith, with birthday cards on Tuesday of this week in appreciation for her thoughtfulness throughout the year.

STANSELL CLEMENTS SPEAKS AT ROTARY

The O'Donnell Rotary Club met Tuesday in its regular meeting with President Truett Hodnett presiding. Visiting Rotarians were LeRoy Olsak and Bowers Purcell of Lamesa and W. G. Thornton, Jr., Tom Gill, Walter Mathis, A. M. Bray, and Calloway Huffaker of Tahoka. Mr. Scott Line of Fort Worth was a guest.

Stansell Clements, president of the Lamesa Rotary Club, was the speaker for the luncheon. Stansell gave a report of the 56th Annual Convention of Rotary International held recently in Atlantic City, C. P. H. Teenstra of Hilversum, The Netherlands is the president of Rotary International for 1965-1966, and presided over the convention. The host city, with its 6 1/2-mile-long boardwalk flanked by surf and sand on one side and hotels and shops on the other provided a relaxing, holiday-like setting. Rotary Clubs from 64 countries were represented with 9,388 Rotarians registering. General Officers for the Rotary year of Rotary International are from The Netherlands, The United States, New Zealand, Germany, Wales, Italy, Canada, Uruguay, and Malaysia.

Sad news has arrived in O'Donnell from the Gerald Plaistone family. Rotarian Gerald died suddenly a few weeks ago in England, where he was with the Bank in London. The Plaistones had just completed their new home and were making plans to visit O'Donnell in a few months. The Ramesh Tandons of India write that although July is the usually rainy month for India, as yet, they have had no rain. Thought for the week: "He who serves must act." — President Teenstra.

SEAT BELTS MAY PREVENT INJURIES

"Fasten your seat belts, please." is a customary warning for airline passengers. But, it's an admonition for motorists, too.

Your chances of being killed in an accident increase five times if you are thrown from the vehicle. Using your seat belt can keep you safe. Accident studies show that use of seat belts can eliminate at least one-third of all automobile injuries.

Seat belts are the best low-cost safety feature available for a car, yet many people fail to install and use them.

One person may use "claustrophobia" as an excuse for not using seat belts. He may tell you, "If the car should catch fire or submerge, I wouldn't want to be trapped inside."

What this person doesn't realize is that less than one percent of all injury-producing accidents involve fire or submersion. By helping you remain conscious for quick escape, seat belts improve your chances of surviving. They can be unfastened instantly with one hand.

And anyone thinking seat belts are strictly for the speedsters, is sadly mistaken. More than half of the accidents causing injury or death involve speeds of less than 40 miles per hour. Seat belts offer the same protection at low speeds that they give on the race track.

"I never take the car on trips," a man said recently. "So why should I use seat belts?"

Here's why. Three out of four traffic deaths occur within 25 miles of home. Seat belts give protection in town as well as on the highway.

This year one of every four cars, according to statistics, will be involved in a traffic accident. True, seat belts won't stop accidents, but they will reduce deaths and injuries.

Before you turn the ignition key in your car, fasten your seat belt. And if you ride with someone else, it is as important as ever—if not more so—to buckle your seat belt.—(A weekly feature from the Texas State Dept. of Health.)

Mrs. Vera Williams of Boise, Idaho is visiting her daughter, Mr. and Mrs. Benny Moore Jr. and family.

Mrs. Jack Brewer who is a patient at Methodist Hospital was home over the week end.

TO ALL LAW ENFORCEMENT OFFICIALS

America today is engaged in a deadly struggle for the survival of the free world. While our Nation is fending off the strangling grip of international communism on our shores, attempts are being made at home to undermine and distort its aims.

Tremendous pressure and criticism are being leveled against the President and the Congress to confuse and mislead the American public. Irresponsible charges of "invaders," "brutal aggression," and "sneak attacks" are used to discredit our Government in hopes it will be forced to abandon its role as defender of freedom. Some of this protest comes from legitimate peace groups and others who are opposed to the course of action being followed in Vietnam and the Dominican Republic. However, much of the agitation is part of a diabolical scheme contrived by the Communist Party, USA (CPUSA), an integral arm of the international communist

conspiracy, the materialistic, godless ideology dedicated to ruling the world.

The CPUSA and other communist groups are seizing this opportunity to advance their cause by false statements and half truths. Particularly, the Party is seeking to influence the youth of our country through the communist-controlled W. E. B. DuBois Clubs and similar organizations.

The CPUSA encouraged and endorsed the student march on the Nation's Capital on April 17, 1965, protesting United States intervention in Vietnam. Although not in actual control of this demonstration, the communists participated in the march and distributed copies of "The Worker," an east coast communist newspaper. Communist marchers from all over the country were present, and communist leaders claimed a major role in the demonstration. (Reprinted from the FBI Law Enforcement Bulletin, June, 1965)

DUCK DODGES SHOTGUN 16 YEARS, KILLED LAST YEAR

Some ducks are smarter than some duck hunters!

One of the smartest ducks that ever dodged a load of shotgun pellets finally met its fate in the vicinity of St. Catharines, Ontario, Canada.

The computers at the Migratory Bird Populations Center, Laurel, Maryland, have furnished Bureau of Sport Fisheries and Wildlife biologists with proof that this duck, a female redhead, had dodged the shotguns of Canadian and United States hunters for sixteen years before being downed last hunting season.

When young waterfowl biologist Cecil Williams leg-banded this duck at the Delta Research Station in Manitoba way back in 1948, World War II had only been over for three years, Harry Truman was in the White House, and manned space flights were only a gleam in the eyes of our scientists.

Jerry Cain Joins Mitchell Williams

Jerry Cain, Tahoka native and recent graduate of the School of Law at Southern Methodist University, has become associated with Mitchell Williams, local attorney.

Jerry and wife are now making their home in Tahoka.

Electric Workshop On August 6

Lynn County 4-H Club will have an electric workshop on August 6 in the Lyntegar meeting room, states County Agent Bill Griffin.

Purpose of the workshop is to study electric motors. County 4-Hers participating in the workshop will make a miniature electric motor for the day's handcraft. Birnie White of Lyntegar Electric, will be the instructor and is to be assisted by the 4-H Club's junior leaders.

Southwestern Public Service played host to over 150 4-Hers and adult leaders from over the South Plains at a recent Electric Camp, located high in the Sacramento Mountains, 29 miles southeast of Clouderoft, New Mexico. Lynn County was well represented and are shown listening to Lloyd Thompson, Southwestern Public Service instructor, talking about the mercury vapor lamp that is used in street lighting. Front row, left to right: Randy Besire, O'Donnell, Kent Wood, O'Donnell, Larry Emerson and Dean Hamilton, Tahoka. Back row, left to right: Billie Carr, Lynn County Home Demonstration Agent, Tahoka, LaNita Wood, O'Donnell, Dona McAllister, Barbara Carr, Myrna Bartley, Robbie Biggerstaff, and Bill Griffin, Lynn County Agent, all of Tahoka.

"walks" right over bumps and trouble

Independent front suspension takes the "truck" out of truck ride. It smooths rough roads, protects truck, driver and cargo from excessive jolting. And on Chevrolet pickups it's a proved system with millions of miles of user experience behind it. Try it out on one of Chevrolet's great Fleetside or Stepside pickups. It's one of the big reasons that Chevrolet is first choice with pickup users from coast to coast.

Telephone your Chevrolet dealer about any type of truck

Texas forests provide Texans with many products for everyday living such as lumber, paper, chemicals, and plastics. They also provide many opportunities for recreation: as a place to hunt, fish, bird watch, or just enjoy the out-of-doors at a picnic.

More than 41,000 Texans work in Texas' forests and mills to produce an annual payroll of \$138 million and products worth \$500 million per year.

The Texas Forest Service, now celebrating its Golden Anniversary, is dedicated to the perpetuation, protection and utilization of this natural resource.

The following sponsors salute the Texas Forest Service on its 50 years of service to forestry in Texas.

Santa Fe Closes Wilson Station

The Santa Fe has closed its Wilson depot after having served the area for 55 years, records and office equipment have been moved, and the building, oldest business structure in the town, has been abandoned.

Freight shipments to and from Wilson will not be discontinued however, Wilson Lumber Co. will be agent for such shipments. This applies principally to truck shipments and carload shipments will possibly be handled through Slaton and Tahoka offices. The News is informed.

John F. Covey, Wilson station agent for more than 30 years, is temporarily retired. Mr. Covey has been in the Wilson position longer than any other Santa Fe employee in a similar position in the area. The News is informed.

Wilson's Santa Fe depot was built in 1910 when the branch line was laid from Slaton to Wilson, Tahoka, O'Donnell, and La Mesa, and this marked the beginning of Wilson as a town. The town has grown until it is now larger than ever in the past, and local people are greatly disappointed that Santa Fe reached a decision to close the station.

Last February 11, Wilson and area citizens protested the proposed closing of the station at a Railroad Commission hearing held in the Lynn county court room. But, the Commission recently ap-

Farm Bureau Is Sponsor for Queen, Talent Contests

The Board of Directors of Lynn County Farm Bureau has authorized the young people's committee to have a queen contest, a discussion meet and a Talent Find.

The contests will be held Saturday, July 31, in the Tahoka High School auditorium with the Talent Find and Discussion Meet in the afternoon and the queen contest that evening.

Any single girl who is 16 or over before Sept. 1, 1965, and not over 22 years of age on or before Sept. 1, 1965, and who is a daughter or sister of a Farm Bureau member is eligible to compete.

The Discussion Meet is a panel discussion of current agricultural problems and Farm Bureau policies. This contest will make the upcoming generation better acquainted with current conditions and with the problems they might face as future agricultural leaders.

The Talent Find is open to any type of talent, groups or individuals. Both the Talent Find and Discussion Meet are open to participants who reach age 17 on or before Dec. 1, 1965, and who will not be over 30 years of age on or before that date. First place winner of the Talent Find will be eligible to compete in the district

proved the petition of Santa Fe to close the station.

contest, and there will be a first place and an alternate for the Queen's Contest who will compete in the district event. Winners of all three district contests will be eligible for competition in the state contests.

Anyone needing further information is asked to contact R. L. Dulin, telephone 924-3046, New Home, or call the Farm Bureau office in Tahoka, telephone 998-4320.

Deadline for entering the Queen Contest is July 13, and July 24 is the last day for entering the Talent Find and the Discussion Meet.

OFFICIAL ADVISES TO CHECK SOCIAL SECURITY RECORDS

Do you check your bank statement each month to be sure it's correct? Your credit card purchases against your monthly statements? Sure you do. But, have you checked everything? How about your social security account?

Ask at your social security district office for a postcard form if you would like to check your record. Fill it out, sign it, and send it in—you will receive a statement of total earnings report.

local people are greatly disappointed that Santa Fe reached a decision to close the station.

Last February 11, Wilson and area citizens protested the proposed closing of the station at a Railroad Commission hearing held in the Lynn county court room. But, the Commission recently approved the petition of Santa Fe to close the station.

Santa Fe Closes Wilson Station

The Santa Fe has closed its Wilson depot after having served the area for 55 years. records and office equipment have been moved, and the building, oldest business structure in the town, has been abandoned.

Freight shipments to and from Wilson will not be discontinued, however. Wilson Lumber Co. will be sent for such shipments. This applies principally to truck shipments and carload shipments will possibly be handled through Slaton and Tahoka offices. The News is informed.

John F. Covey, Wilson station agent for more than 30 years, is temporarily retired. Mr. Covey has been in the Wilson position longer than any other Santa Fe employee in a similar position in the area. The News is informed.

Wilson's Santa Fe depot was built in 1910 when the branch line was laid from Slaton to Wilson, Tahoka, O'Donnell, and La mesa, and this marked the beginning of Wilson as a town. The town has grown until it is now larger than ever in the past, and
