The next time Johnny comes home crying, "Mom, I got something in my eye!" — here's what you should do: Lift the upper lid, and pull it down over the lower lid. This will give the tears a chance to wash out the offending speck. Tears are nature's own eye wash. But if the speck doesn't come out, wash the eye with drops of lukewarm tap water using an eye dropper. While doing this, be sure to hold Johnny's head so the water will run away from his nose, toward the side.

If this doesn't dislodge the speck put a light bandage over the hurt eye to prevent Johnny from rubbing it. Then take him to a physician or an eye clinic.

Keep this in mind — never try to rub a speck from the eye. It can cause an infection that may scar the cornea resulting in partial loss of sight.

A LITTLE SLIP

A little slip by Internal Revenue is still giving the tax folks a headache. The IRS included the slip (a little yellow slip), Document 5293, with the Employer's Quarterly Tax Form 941 mailed to some 160,000 Dallas District employers in December. The little yellow slip told employers (of four or more) that there has been an increase in their federal unemployment tax from 3 to 3.1 percent for the year 1961. It also told the employers of some changes in the Social Security tax but did not change the social security tax rate.

During January, Internal Revenue Service's telephone rang and the postman called. Hundreds of employers wanted a new tax table to take care of the social security increase. There is no new table. There is no increase in social security taxes but the increase is in federal unemployment tax. Internal Revenue does not have a new circular E. The tax folks carefully explained what had happened to the hundreds of employers who called but a lot of taxpayers did not call.

You guessed it. The returns for the first quarter of 1961 are starting to come in. Many of these returns have been carefully prepared using the 3.1 percent rate. Internal Revenue will have to work with employers on correcting these returns since the correct rate should have been paid — not 6.2 percent.

EYES NEVER WEAR OUT

The next time Johnny comes home crying, "Mom, I got something in my eye!" — here's what you should do: Lift the upper lid, and pull it down over the lower lid. This will give the tears a chance to wash out the offending speck. Tears are nature's own eye wash.

But if the speck doesn't come out, wash the eye with drops of lukewarm tap water using an eye dropper. While doing this, be sure to hold Johnny's head so the water will run away from his nose, toward the side.

If this doesn't dislodge the speck put a light bandage over the hurt eye to prevent Johnny from rubbing it. Then take him to a physician or an eye clinic.

Keep this in mind — never try to rub a speck from the eye. It can cause an infection that may scar the cornea resulting in partial loss of sight.

If you hear someone say "My eyes are simply worn out." That is nothing but a figure of speech. You can not "wear out" healthy eyes by overuse.

If your eyes feel strained the trouble may be eye or other disease, a need of glasses or improperly fitted glasses or failure to heed the rules of good lighting.

Under the right conditions you should be able to use your eyes as much as you want to without "wearing them out."

PRIZES OFFERED IN CHILD PHOTOGRAPH CONTEST

The time is almost here for the opening of this newspaper's 116 Child Photograph Contest and we are urging all of our readers to have their children ready for the big day. Winston B. Lucas of Irving, Texas, will be in O'Donnell at the Index office Thursday, April 6th from 10:30 a. m. to 6 p. m. for the purpose of taking pictures in this vicinity. In addition to having the pictures printed in this newspaper, the children will be competing for \$29 in prizes which are being offered for the three best photographs made during the day.

The photographs will be made absolutely free of charge and there is no charge for their publication in The O'Donnell Index. Proofs will be shown and from these you may select the picture of your child which you would like to appear in this newspaper. If you wish extra photographs, they may be purchased, but no purchase is necessary in order to compete for the prizes. It is entirely up to you whether you buy pictures or not.

There is no age limit on the contest, and every child's photograph in this section is wanted so that they may all appear in the O'Donnell Index. However it is necessary that all pictures must be of uniform size, so they must be made by Winston B. Lucas on Thursday, April 6th.

Do not wait until little Mary gets married or baby brother is elected to some political office to see their pictures in the paper — make plans now to have these photographs made on THURSDAY, APRIL 6TH 10:30 a. m. to 6 p. m. Tell your friends and neighbors — the more the merrier.

Darus Sumrow was a medical patient at Lamesa hospital last week.

THIS WEEK IN AUSTIN

By Preston Smith, Senator, 28th Senatorial District

Every time a "rotten apple" is spotlighted in the Legislature, it is temptation for people to say: "I know those politicians were nothing but a bunch of crooks."

But, when people say that, they are not facing the facts.

In the past few years there have been very few cases in which representatives were convicted of dishonesty. Their cases were very rare.

Something that the public tends to forget is the serious and constant "self-policing" procedures that are carried on in the Legislature. A couple of years ago, a young representative was accused of taking a bribe to get a bill passed. This created a furor. Most of the furor was in the capital building here.

A foolish action on the part of one legislator had reflected dishonor on the whole house. Such a condition is certainly the last thing any honorable government official could want.

Among the many precautions the Texas Legislature takes to prevent such things is Section 22 of Art. 3 of the Constitution: "Personal interest in a measure or bill — a member who has a personal or private interest in any measure or bill, proposed or pending before the Legislature, shall disclose the fact to the house, of which he is a member, and shall vote thereon."

The Legislature is made up of all occupations — Lawyers, insurance, farmers, ranchers, auto dealers, school teachers, merchants, cafe operators and others. These people usually fall into their committee slots in the Legislature because of the knowledge of the subject that will be before committees where the bills are heard and written in to the version which goes to the floor for debate.

And drawing the line on "special interest" is difficult. If all farmers refused to voice opinions on education, and if working men declined to debate labor subjects, the law making process would lose the voice of experience. But always present in this process is the constantly watchful eye of all Legislators being sure to avoid "conflict of interest" or any other act of dishonor.

Franklin And Pirtle Are New O'Donnell Trustees

Incumbent L. L. Birdwell got 55 votes and Mrs. Zuel Singleton, 25 votes, G. W. Jones, 27 votes, and C. A. Moore, 50 votes.

Mrs. J. M. Noble, election judge, said the 175 vote total was about average for a contested school vote here.

Mrs. T. J. Coombs and Perry and Penny of Garland are visiting her parents Mr. and Mrs. R. C. Fannon.

John Prescott, student at College of Pharmacy at Austin, spent week end at home with his parents Mr. and Mrs. Ode Prescott. Also at home was their daughter, Miss Iris Prescott, a student at LCC. She has recently been on tour with the LCC chorus.

Mr. and Mrs. John Tidwell are visiting their children at Houston this week.

The spring revival of First Baptist Church will close this Sunday night. Bro. Troy Dale, pastor of the church, is the evangelist. Large attendance is reported.

High production per cow is one of the most important factors in profitable dairying. A recent study of 1959 Texas Dairy Herd Improvement records by Joel Hillin and Tom Prater, extension farm management specialists, shows that increasing the size of the dairy herd does not always mean an increase in profits but increased income does result when the per cow production is upped.

### THIS WEEK IN AUSTIN

By Preston Smith, Senator, 28th Senatorial District

This senatorial district has many reasons to be proud. And not the least of these is Texas Tech College in Lubbock. This excellent State supported institution can be credited with helping more than any other single item to build our West Texas area to its present stature. That is why I was proud to submit the following resolution which was adopted by the senate:

"Whereas, Success and champions in any field of endeavor are a source of pride and inspiration to all classes of people; and

"Whereas, with the winning of the 1961 Southwest Conference Basketball Championship, by defeating the well-coached and able team of the University of Texas, the basketball team of the Texas Technological College, familiarly known as "The Raiders," exemplified the indomitable courage characteristic of the "Winning of the West"; and

"Whereas, As this athletic achievement became reality there was reflected the spirit of loyalty of the student body of this great and growing educational institution of the South Plains of Texas — the newest member of the Southwest Conference; and

"Whereas, such victory by the Raiders assured their attendance and participation in the National College Athletic Association Tournament; now therefore, be it

"Resolved, By the Senate of Texas that it recognize this athletic championship and extend its congratulations to the members of the basketball team, to its coach, and to the student body of Texas Tech. college and wish them continued success in all of its wholesome activities, and be it further

"Resolved, That copies of this Resolution be forwarded by the Secretary of the Senate under the Seal of the Senate to the members of the winning basketball team, to its coach, and the President of the College."

NOTARIES TO RECEIVE APPOINTMENTS

Secretary of State Frank Lake announced that all qualified Notaries Public desiring re-appointments for the new term ending June 1, 1963 must re-qualify by the payment of the required fee and the filing of a new oath and bond with the County Clerk of his residence between June 1, 1961 and June 10, 1961. Lake emphasized that Notaries Public should NOT send requests for re-appointment or for commissions directly to the Secretary of State. The law specifically requires that the County Clerks approve notary bonds.

Any person not now a Notary Public who desires appointment should apply to his County Clerk between April 1, 1961 and May 20, 1961. Application during this period will assure prompt attention before the rush procedure of re-appointing notaries.

The Secretary of State further pointed out that each person applying for a commission as a Notary Public must be at least 21 years of age and a resident of the county for which he is appointed. The exact name and permanent address of the applicant must be furnished the County Clerk.

Planting seed bought at a bargain price can be very expensive. R. J. Hodges, extension agronomist advises farmers to buy the best seed available. They are the cheapest in the long run, he adds, for better yields and top quality crops are most likely to come from fields planted with the best seed of recommended varieties or hybrids.

**PRIZES OFFERED IN CHILD PHOTOGRAPH CONTEST**

The time is almost here for the opening of this newspaper's Big Child Photograph Contest and we are urging all of our readers to have their children ready for the big day. Winston B. Lucas of Irving, Texas, will be in O'Donnell at the index office Thursday, April 6th from 10:30 a. m. to 6 p. m. for the purpose of taking pictures in this vicinity. In addition to having their pictures printed in this newspaper, the children will be competing for \$20 in prizes which are being offered for the three best photographs made during the day.

The photographs will be made absolutely free of charge and there is no charge for their publication in The O'Donnell Index. Proofs will be shown and from these you may select the picture of your child which you would like to appear in this

newspaper. If you wish extra photographs, they may be purchased, but no purchase is necessary in order to compete for the prizes. It is entirely up to you whether you buy pictures or not.

There is no age limit on the contest, and every child's photograph in this section is wanted so that they may all appear in the O'Donnell Index. However it is necessary that all pictures must be of uniform size, so they must be made by Winston B. Lucas on Thursday, April 6th.

Do not wait until little Mary gets married or baby brother is elected to some political office to see their pictures in the paper — make plans now to have these photographs made on THURSDAY, APRIL 6TH 10:30 a. m. to 6 p. m. Tell your friends and neighbors — the more the merrier.

A soil test will help take the guesswork out of buying and applying fertilizers. Do not guess, soil test.

The 1961 "Texas Guide For Controlling Cotton Insects" is now available from the offices of local county agents. Also available for cotton producers in the High Plains and Trans-Pecos areas is a guide for their particular areas. Its number is L-508. County agents in these areas have copies available.

# YOU

(in a friendly way, of course)

Either of these Corvairs would make you a wonderful traveling companion. (Any of Corvair's ten budget-priced models would, for that matter.) The Lakewood Station Wagon earns its keep with a solid 68 cubic feet of cargo space, 10 of it under that lockable hood. And the Monza Club Coupe, with its bucket-type front seats, lets you in on some ultra-comfortable driving.

And they both handle and brake and perform beautifully. (Proof of the pudding is the way the '61 Corvair manhandled the recent Canadian Winter Rally, winning outright and taking the first five places in its class in this rugged 1,265-mile test.) Look 'em over at your dealer's. And if you can't decide which one you want, feel free to take both.

Pictures Of Every Child Photographed Will Be Published In **O'DONNELL INDEX**

**EASY TO ENTER**—Simply have your child's photograph taken by WINSTON B. LUCAS PHOTOGRAPHER at NO COST to you. They will show proofs from which you may choose the pose you wish entered in the contest and your child is automatically entered; and at this time you may order photographs for gifts or keepsakes if you wish. (Postage and handling 25c) but this is entirely up to you. WINSTON B. LUCAS, of Irving, an expert child photographer, will be here to take pictures, with all the necessary equipment to take nice portraits for this exciting event. There is no age limit to this contest — even the tiniest tots enjoy being photographed by our photographer.

Should disease strike your crops or lawns, an accurate diagnosis is essential for the planning of a preventive program. Local county agents, nurserymen, or pest control operators can supply information. Texas A and M college operates two diagnostic labs at College Station and Weslaco.

#### NOTARIES TO RECEIVE APPOINTMENTS

Secretary of State Frank Lake announced that all qualified Notaries Public desiring re-appointments for the new term ending June 1, 1963 must re-qualify by the payment of the required fee and the filing of a new oath and bond with the County Clerk of his residence between June 1, 1961 and June 10, 1961. Lake emphasized that Notaries Public should NOT send requests for re-appointment or for commissions directly to the Secretary of State. The law specifically requires that the County Clerks approve notary bonds.

Any person not now a Notary Public who desires appointment should apply to his County Clerk between April 1, 1961 and May 20, 1961. Application during this period will assure prompt attention before the rush procedure of re-appointing present Notaries. The Secretary of State further pointed out that each person applying for a commission as a Notary Public must be at least 21 years of age and a resident of the county for which he is appointed. The exact name and permanent address of the applicant must be furnished the County Clerk.

Fertilizer and fertilizer materials sold in Texas during the year beginning July 1, 1959, amounted to 708,936 tons which was about 7 percent higher than the tonnage sold during the preceding year. State Chemist Dr. J. F. Fudge reports the sale of mixed goods was down about 1 percent but the sale of materials rose by 12 percent.
