

MOTHER SHIPTON'S PROPHECY

(Ed. note: Mother Shipton was born in Norfolk, England and died in Clifton, Yorkshire in 1449 -- 43 years before Columbus landed in America. The number of her prophecies that have come true may be checked readily by a casual reader. How many are yet to come true remains for the future to disclose.)

1. A carriage without horses shall go, Disaster fill the world with woe, In London, Primrose Hill shall be, Its center hold a bishop's see.

2. Around the world men's thoughts shall fly - Quick as the twinkling of an eye, And waters shall great wonders do, How strange, and yet it shall come true.

3. Thus upside down the world shall be, And gold found at the foot of the tree; Thru towering hills proud man shall ride, Nor horse nor ass move by his side.

4. Beneath the waters men shall walk, Shall sleep and even talk, And in the air men shall be seen, In white, in black, as well as green.

5. A great man then shall come and so, For prophecy declares it so, In water iron then shall float, As easy as a wooden boat.

6. Gold shall be found in stream or stone, In land that is yet unknown, Water and fire shall wonders do, And England shall admit a Jew.

7. The Jew that once was held in scorn, Shall of a Christian then be born, A house of glass shall come to pass, In England - but alas!

8. A war will follow with the work, Where dwells the pagan and the Turk, The states will lock in fierce strife, End seek to take each other's life.

Cemetery Ass'n Plan Annual Dinner

The O'Donnell Cemetery Association women would like to remind you that it is not too early even now to begin inviting friends and relatives to make plans to enjoy the annual Thanksgiving dinner with the Association.

This has become a tradition in O'Donnell and this year the food will be even better than ever with "honest to goodness" home cooking. You will not want to miss the delicious pies served with plenty of coffee. Thru the sale of extract and black pepper, we have acquired two 80 cup automatic percolators which will afford a lot of good coffee to compliment the delicious food.

The Committees will be meeting to make plans for this occasion and we urge you to be present to help plan and lay the ground work for a successful dinner. Everyone who has loved ones or friends interested here are interested in making our cemetery the most beautiful possible but sometimes the lack of interest shown by the absence of so many at the business meetings, makes it seem doubtful. Maybe the fault is that the meetings have not been publicized enough. You cannot imagine how much your presence and ideas would boost the morale of the group.

If you have not visited the Cemetery lately, go out and see the plots that are being sold - perhaps a solution to the "howing-out" problem has been found. The idea was taken from the arid region of Arizona where the situation is similar. Watch the paper for further important announcements - and become an active worker in your Cemetery Association.

The Committee to plan the dinner will meet with Mrs. H L Wood at her home at 3 p. m. Thursday.

Archie Crow of Ft. Worth visited in the Glen Gibson home Sunday.

EARLES REUNION ENJOYED - Sunday Mr and Mrs. John Earles were hosts to a family reunion when all the brothers and sisters of Mrs. Earles and many other relatives gathered at their home for dinner. From South Gate, Calif. was a sister Mrs. Burns Shaw and husband, from Santa Cruz, Calif. a brother, George Ira Haney and wife, from Lubbock, a brother, Quincy Haney and wife, two daughters, and Baylor University, a brother, and Mrs. Leonard Mires, Douglas Mires, Kenneth and family and Norman Shaw and family. Thirty attended.

Boys who exhibited livestock at Dallas Fair last week were Bob Smith, Louie Birdwell, John Anderson, Dwight Gleghorn, Venson Caswell, Randy Allen and Jimmy Martin. Some of the animals placed and made the sale Saturday. The group were accompanied by Mr. Reed.

Parents making the trip included Mr and Mrs. O Caswell, Mr and Mrs. Harold Brummit, Mr and Mrs. Lynn Birdwell and Mr and Mrs. Bart Anderson.

One of the highlights of the State Fair was the Children's Barn Yard. In charge of this attraction was Jerry Clarke, state FFA president.

MOTHER OF LOCAL LADY DIES - Funeral services for Mrs. J A Iden, 68, were read Saturday at 3 p. m. at Nalley-Piekle Funeral Home Chapel in Big Springs. Survivors include her husband, and two daughters, Mrs. Porter Hanks of Vealmore and Mrs. Clyde Winans of here.

GAIL TAKES LOOP 38 to 0 - Gail's Coyotes scored in every period to smash Loop 38 to 0 in a District 2 B eight man game at Gail Friday night. QB Bill Nunnally sneaked 1 yd. for the opening Coyote score. Nunnally passed to James Telchik for the conversion. Mike Stevens scored on a 65 yard burst in the second period and Nunnally ran the extra points to give Gail a 16 to 0 half time lead. After a pass interception by Tommy Burrus Nunnally threw a 20 yard scoring strike to Telchik.

In the last period Sam Bchannan plunged in from the 1 with Nunnally's pass to Burrus good for two points. The last TD came on an errant handoff in the Loop backfield. End Danny Hagins accepted the gift ball running 40 yards for a TD.

Eagles To Host Plains Friday

The Sundown Roughnecks fought back from a 6 point deficit last Friday night and went on to down the visiting O'Donnell Eagles 20 to 14 in a District 5-A contest.

Ken Taylor, who guided the Eagles attack, passed 13 yards in the first quarter to Charles Burleson to give O'Donnell a 6 to 0 lead. But later in the period Sundown broke loose for 40 yards and a TD. The kick for extra point was good and Sundown was out front to stay. Phillips of Sundown went five yds. in the second to cap a 59 yard drive and give the Roughnecks a 13-6 lead.

In the third period Sundown led down the win with another TD and the extra point was good.

In the 4th period O'Donnell scored on a pass from Taylor to Lopez for 14 yards and then hit Rex for 2 point conversion.

Friday night the eagles will host Plains in the second district game. The Cowboys will go into the game as one TD favorites.

The following weekend the Eagles host Tahoka in the seasonal thriller.

STATE, COUNTY ALLOW TAX DISCOUNT PAYMENT

Property owners can have three percent off by paying their state and county taxes during the month of October, states George McCracken, tax assessor and collector of Lynn county.

During November the discount rate is two percent and during December it is one percent. Last date for paying these taxes without a penalty is January 31st.

Folks are requested not to overlook payment of their poll taxes (\$1.75) unless exempt. Every year a number of people forget to include sufficient money for their poll taxes which are not included on the tax notices sent out to property owners

Demonstrating new '63 Chevrolet truck features the hard way!

When we came to a river we got wet. This river bed was paved with rocks the size of melons. What a test for new light- and heavy-duty suspension systems this was!

Conventional light-duty units have coil-spring independent front suspension - easier on truck, load and driver.

Users of new conventional medium- and heavy-duty units who have to operate in close quarters are going to like the narrower front ends (up to 7 inches).

New engines, suspensions, frames and narrower front ends show their stuff on Mexico's tough Baja Run!

With months of proving-ground tests under their belts, why did new Chevrolet trucks take on the rugged Baja (bah'bah) Peninsula? This is the toughest line of trucks Chevrolet has ever built. Sending them over the most punishing terrain in North America (a road totally unlike the fine highways on the Mexican mainland) was double proof of this fact. Frames, engines, suspension systems were subjected to stresses far greater than trucks normally encounter. You can be sure that trucks that can handle this kind of beating can handle any kind of work.

Quality trucks always cost less

It's The Law -

RIGHT OF WITNESSES
By far the most vital people in our system of justice are witnesses. Everyone else in a trial exists to hear what they have to say. Or courts need witnesses. A jury to find the facts. The judge to apply the law. The lawyer to tell his clients story.

Changes are you worry about step ping up, taking an oath and telling your story in court.

On some rare occasions you could be called upon to testify about something affecting your own standing in the community.

As a witness you too may have the right, for example, not to testify against yourself in somebody else's lawsuit or crime trial.

If you are ever in such a bind consult a lawyer of your own choice on what to do. The lawyer who called you to testify has a sworn duty to protect his client, not you. But your lawyer is sworn to keep what you tell him secret and to advise you in your own interests within the law.

7. If you err—and people often do—correct yourself at once. If you can't remember some detail, say so. Don't bluff.

8. Tell the truth. Don't figure which side you may help. Don't identify yourself with either side.

9. Stop when the judge breaks in and don't try to sneak an answer in before he can stop you. What you might say could end in a "mistrial."

10. Keep cool and don't sass back.

11. If they ask you: Certainly, you have talked to other people—the lawyer, for example; and yes you may be reimbursed for certain of your expenses incurred in attending the trial.

12. Remember, without witnesses our law would fail to do justice. If you are called, be a good witness.

SOMETHING TO DO IN TEXAS—

Austin — Critics who feel Texans have little appreciation of the finer things in life might study the new Texas Calendar of Events for fall and winter, released this week by the Travel and Information Division of the Texas Highway Department. More than half the 407 statewide events listed in the 16 page booklet are in the fine arts field—concert, ballets, operas and stage productions.

Leavening is provided by gala festivals such as El Paso's Southwestern Sun Carnival, Tyler's Texas Rose Festival, Edinburg's Pan American Bronco Days, Mission's Texas Citrus Fiesta and Brownsville's Charro Days. The unexpected is here too — New Braunfels's Sausage Festival, the Hill Country Saenger Festival, at Fredericksburg and Corpus Christi's New Years Day Swim.

Complimentary calendars are available at Travel and Information Division of State Highway Department, Box 5064, Austin.

NAVY OFFERS POSSIBLE FREE COLLEGE EDUCATION

Designed to supplement the officer output of the Naval Academy, the Naval ROTC program makes it possible for a young man to earn a regular commission while studying at the civilian college of his choice which has an ROTC unit. All tuition fees and books are furnished by the Navy and the student receives an annual retainer of \$600 for not more than four years. During the summers the student goes on interesting training cruises as a midshipman. After successfully completing the usual four year college course, he is commissioned in the Regular Navy or Marine Corps and goes on active duty as a prospective career officer with the Navy's modern fleets. Immediate challenging assignments to flight training or submarine training will offer varied career potential to those who apply and qualify.

High school seniors and graduates who have reached the 17th anniversary of birth and have not reached the 21st anniversary of birth on June 30, 1963 may apply for the NROTC aptitude test. Those who make a qualifying score will be given a rigid medical exam early in 1963. From the number of qualified young men remaining in competition, more than 2,000 will be selected to begin their naval careers in college next September. Application forms are available at high schools.

Research Pays Off --

How much does research cost? The better question would be: What is research worth?

Research is indeed the proverbial "stitch in time."

Medical research has brought about many outstanding drugs and spectacular operations which save individual lives and relieve suffering, but more outstanding and spectacular are the advances in preventive medicine that have been made which stop suffering before it starts.

Economically speaking, preventive medicine has saved the people of the United States countless dollars. A case in point is retrolental fibroplasia, an eye condition marked by the formation of fibrous tissue behind the crystalline lens. Prematurely born babies are often stricken causing partial or total blindness.

At first premature births were blamed. However, research financed by federal and private means discovered the cause to be the excessive administration of oxygen—employed regularly in incubators for premature infants.

This study cost approximately \$50,000. In the U. S. 5,000 children are blind because of retrolental fibroplasia. Each child will cost an estimated \$100,000 for education, training and support from birth to death — or a grand total of \$500 million.

Caring for these 5,000 children in our generation will cost \$770 million—additional federal income taxes was received in 1955 alone, plus the accompanying rise in earning power and productivity from an increase span of life.

Other items developed solely through research include the Salk vaccine and steroid (cortisone) compounds — which prevent blindness, relieve arthritis, and aid skin diseases and allergic conditions.

Who can put a price on the suffering and crippling averted because of them. The life expectancy of Americans now born is now past 70 years of age. In just 17 years — 1937 to 1954 — it increased 9.6 years.

RETIREMENT PLANS SHOULD BE MADE IN ADVANCE

Whether you have decided to retire or not, you should visit the social security office three months before you reach retirement age. The social security representative can help you in many ways. For one thing, he can find out how much your retirement payments will be when you are ready for them. Though he won't give you advice as to when you should retire, he can give you valuable information to help you decide for yourself.

If you have decided to retire, he will help you in claiming retirement benefits for yourself and members of your family who might get benefits on your record. He will help you get whatever proofs are needed to go with your claim. For example you will probably need proof of your age. He can tell you whether any of the documents you now have will do for proof of age.

You should check with your social security office even if you plan to keep working. You do not have to quit work entirely to get social security. Many people think they do, and are losing social security payments. Some of them depend on neighbors and friends for advice. Often this kind of advice is wrong, and when it is wrong it is usually expensive. Before going to the social security office, it is a good idea to call or write ahead. There may be something you'll need to bring with you. The social security representative can tell you what to bring and the best time to come in.

Wise lawyers tell their witnesses to obey twelve rules:

1. Go to the place (say, the scene of an accident). Check your memory before you go to court. People forget and get caught up on details. But if you check what you saw and heard you are on solid ground.
2. Visit a court. Hear how other witnesses testify. It will help you see your role on the witness stand.
3. Wear clean, conservative clothes.
4. Don't memorize your story word for word. That is the surest way to sound bad. But think of what you saw and heard.
5. Listen to the questions you are asked with care and answer thoughtfully.
6. Give a simple, direct answer in your own words. Don't be rushed.
