## Proposed School Bond Issue Is Explained To Public

### Pictures Are Shown

On page 3 of this edition the reader will find two large pictures and a description of what is planned if the proposed school bond issue of \$195,000 is carried on Sept. 9th. One picture shows the proposed combined elementary and Jr. Hi building and the other picture shows the old (present) Jr. Hi building remodeled into offices and classrooms. Turn now to page 3 and be informed as to what your School Board proposes. Next week we will run a series of questions and answers just prior to election Sept. 9.

### Some Stores To Close Monday -- Labor Day

Labor Day next Monday will be an optional holiday. Mansell Bros. Blocker's and Line Gro. will close Monday as will the bank and post office. A number of other businesses may close. Because of the holiday the Index will NOT go into the mail until Thursday.

Mr and Mrs. Joe Garner of Anton were week end guests of Mr and Mrs. Joe Schooler.

Judy Brown of Grand Prairie spent week end with Carolyn Reed. Greg Reed visited at Grand Prairie seeing "Six Flags Over Texas".

Deadline for trailer registration is Sept. 15th and tags may be purchased at Moore Insurance Agency.

Mr and Mrs. B L Davis and Mr. and Mrs. Elzie Davis visited at Ogdan, Utah.

Mr and Mrs. Freddy James have moved back home from Monahans and reside in Mrs. Gibbs house. He is employed by Wayland Taylor, Inc.

ROTARY HEARS ABOUT FLAME CULTIVATION

The O'Donnell Rotary Club met Tuesday in its regular meeting. Visiting Rotarians were J B Leavelle and LeRoy Olask of Lamesa. Guests were Clarence Gillespie, Bud Bessire Warren, Elaine Clayton and Mary Jean Clayton. Mary Jean substituted for Jan Hardberger as pianist. The Warren Gas Co. Flame Cultivation presented the program. R. D. Tipton of Ft. Worth and Bill Tipton of Midland were speakers for the program. Harvey Line is program chairman.

A compact, long keeping emergency ration made from whole wheat has been developed and tested by U. S. Department of Agriculture scientists. It was developed for stockpiling in fallout shelters. The product, in the form of wafers have an estimated shelf life of five years and pack a lot of food value in a small space.

## R. M. Middleton Gets 1st Bale

### School Gets Off To Good Start

654 children attended school here the first day according to John Criner, Superintendent. Following is a breakdown by divisions — Elementary — 265 Jr. Hi — 184 Senior High — 159 Colored — 46 Within the next six weeks the total is expected to climb to 700 or over as the harvest begins.

### Taylor Heads 'O' Club

The initial fall meeting of the O'Donnell "O" Club was held Monday night with a good turnout of sport fans. Wayland Taylor was named president, Shorty Vestal, Vice President, and Acrol Moore, secretary and treasurer.

The quarterback club meets each Monday night at 7:30 at school auditorium. Films are usually shown with comments of previous games.

The "O" Club in past years has purchased much equipment, the electric score board, washing machines, etc. for the general athletic program as well as filming all home games. The Club is very vital to good public relations between the School and the public. The Big O team looks very good this year. You can back them by joining the "O" Club today.

IMPORTANT GIRL SCOUT AND BROWNE MEET FRIDAY

At 9:30 a. m. Friday, Sept 1st there will be an O'Donnell Neighborhood meeting of all mothers interested in Girl Scout and Browne program. The meeting will be in Youth Fellowship Hall of the First Methodist Church. This meeting is very vital if the community is to have a Scouting program this year.

Tom E Tyler of Kerney, Ariz. and Charles Tyler of Austin, Ariz. and Clois Walls and Sandra of Odessa were here over week end with their mother and sister, Mrs. Tom Tyler and Mrs. Laverne Gardenhire.

Mr and Mrs. Rob Lane visited in Hereford over week end.

EAGLES LOOK GOOD IN EARLY SEASON WORKOUTS

Friday nite at 8 p. m. the 1961 edition of the O'Donnell Eagles will show their wares as they meet the visiting Crosbyton Chiefs in a non-conference tilt. Coaches are Blair Beaton and Thompson.

After seeing a part of the practice session Friday with Post and Lamesa B team, fans are tuning in using a song of victory. The Eagle, in our opinion, have got looked better since Coach Palmer was here. They are playing as a team and seem to "want" to play. Friday nite game will reveal more on that vital matter.

Looking too good to be true is H. B. Fernandez Lopez, a junior, and a will of the wisp in broken field running. One of the best field generals in area ball is Q. B. Buster Snellgrove, a senior. He studies his plays like a chess player. A new comer, but a hard running ground gainer is Joe Pat Gary. He has not played since Jr. Hi. Always good and sure to be a district back.

Center is a senior veteran, and a fine lineman, Mickey Pearce. Another veteran senior is Gerald Aldridge who reminds us of "Little Ham" Thompson. Ends Bubby Bessire and Wendell White were good last year and are better this season. Roy Mahrin as guard can fill his post as fans know. The three Furlows, Bobby M. Bobby J. and Danny complete the line. A number of fine sophomores give a good depth to the team.

COTTON ROOT ROT KILLS SHADE TREES, SHRUBS, ETC

Cotton root rot is one of the most common plant diseases in Texas. Except for the Panhandle and High Plains, the disease generally is found throughout the state. It is very common in heavy, alkaline soils. The disease first occurs in south Texas during late May and is observed in North Texas during June and July. About 80 percent of the wild and cultivated plants are susceptible in varying degrees. The fungus may live on some native trees and shrubs without killing them.

Small flowers, shrubs and trees die suddenly after the first wilting symptoms occur. Large shrubs and trees die more slowly. The bark of affected roots is decayed and is brownish. Woolly, buff or brownish fungal strands are present on the surface of the damaged roots. To check for the strands, place parts of suspected roots in water for a few minutes. Then carefully remove any remaining soil with running water. Allow the specimen to dry for several minutes before making an examination.

The whole root system decays. Bark is rotted off the harder wood of the root and roots slip out of the soil with comparative little pulling effort.

Under moist conditions, spore mats sometimes appear on the soil surface. These mats are 2 to 1, inches in diameter, at first snow white and cottony, later they appear tan and powdery.

This disease is controlled by the growth of resistant or immune trees and shrubs. Certain cultural practices may help prevent the disease from occurring more often.

## Paving Contract Is Let To Start Soon

Last Thursday nite the City of O'Donnell awarded the paving contract for the City's seal coat to Thomason Construction Co. of Denver City for \$13,241.25. Second low bid was for \$13,290 and 3rd bid was for \$14,295. Mayor L. J. Hash said Monday. Work is expected to begin immediately although the winning firm has until Sept. 30th as a deadline.

Some 86 blocks are to be re-topped plus a number of other blocks to be paved or curb and guttered and paved. The number of new blocks of new paving is not known exactly but may run as high as 15.

During the last extremely cold and wet winter the present strip paving cracked, froze and broke resulting in "chug holes" in about half a dozen places. The City hopes to get enough gutters "in a line" to drain the City to the northwest. Drainage has always been at the heart of keeping the paving in good condition. The business section and the "Flats" lie in an old dry lake.

Mrs. J P Hale and Robbie, Mrs. Troy Dale, Mary Lou and Suzan attended the Baptist Youth Convention at Gloretha, N M last week.

Robbie Hale had dental surgery last Tuesday at Lubbock.

R C Chastin of Dallas, E F Chastin and family of Austin, Mrs. W D Hays and children of Ballinger, C C McKee and family of San Angelo visited in the Roy D. Smith home last week.

MRS. CRINER RECEIVES TECH DEGREE SATURDAY

Lubbock — The School of Arts and Sciences at Texas Tech has announced 169 candidates for bachelor's degrees. Commencement exercises were held Saturday, Aug. 26, in Lubbock Municipal Auditorium at which time more than 475 men and women received degrees. Degree candidates included Mrs. Irene D. Criner from O'Donnell, an elementary education major.

SCHOOLERS TELL OF SONORA CAVERNS

Mr and Mrs. Claude Schooler recently visited the Caverns of Sonora near Sonora, Texas. Mrs. Schooler said the caverns, although not as large, were far more beautiful than the Carlsbad Caverns. The cave is alive molding exquisite formations right before your eyes as droplets of water deposit particles of limestone. The caverns are open daily including Sundays from 8 a. m. to 4 p. m. and guided tours every 30 minutes.

Mr and Mrs. Frank McKee of San Angelo are visiting her folks Mr and Mrs. Houston Brewer.

Local Man Weds

Miss Janis Kay Alewine, daughter of Mr and Mrs. James K. Alewine of 3575 Ft. Worth, was married to Wendell E. McClendon, son of Mr and Mrs. O. L. McClendon of O'Donnell at 8 p. m. Saturday.

The ceremony was read in the chapel of Ridgela Presbyterian Church of Ft Worth by the pastor, Rev. Clifford W. Williams. Maid of honor was Mrs. Sue Thompson of Iowa Park and best man was the bride's brother, Michael Alewine. Homer D. Vaughn of O'Donnell and Travis Brock of Sherman ushered.

The bride was given in marriage by her father. A reception was given in Wyatt's Ridgela Williamsburg Room. The couple will live in Lubbock after a trip. The groom is a student at Texas Tech. The bride, a member of Phi Mu, attended Tech.

Attending from here were his mother, Mrs. O L McClendon, his sister, Mrs. Laverne Carter and Alvin and Jim of Carlsbad, Neal Shaw and his uncle, Mr and Mrs. Earl Smith of Houston.

Farm accidents usually are in proportion to farm and ranch activities. The harvest season is on and the tempo of farm activities is on the increase. The Texas Farm and Ranch Safety Council urges rural residents to be loubly careful as they work with harvesting machinery and drive on the highways delivering their produce.

### COLLEGE BOUND IN TWO WEEKS

Fall weather has seen the opening of most public schools and mid September will see many of our young people off to college. An incomplete list of college bound youth shows —

Dellah Randle and Barbara White to Nurses College at Tech. Ken White, Keith Criner, Jo Ann Lacy, Marcheta Wood, Billy Russ Jim Hale Homer Vaughn, Laphene Greenlee, Wendell McClendon Charles Simpson to Tech.

Jim Garrett to A. and M. Oasian Smith and Robert Marcom to Mc Murry, Kenneth Moore and Bernie Calaway to So. Plains Jr. College Hamp Thompson to ACC and David Spraberry to Tech.

Kay Franklin, North Texas U. at Denton, Sammy Anderson, Texas Tech, Derryl Lavender, South Plains Jr. College, Benna Askew, Texas U. Ruddy Smith, Pharmacy College, Okla., Sue Latt, Tech., James Moore, Texas A. and M., Lanny Brewer, Tex. Tech.

The Henderson Co. Reunion will be in MacKenzie Park Sept. 3rd in same location as previous years.

Mr and Mrs. O C L Witte of Taft, Calif. and Mr O J Menke of Akron, Ohio are visiting in the homes of Mr and Mrs. Ralph Gary, Mrs. Vesta Gary, Mr and Mrs. E Forte and Mr and Mrs. E L Witte. Last Monday the group visited relatives in San Angelo.

### MORE FARMER PROFIT

We are paying top prices for commercial quantities of dry Black-eyes, Mung Beans, Pinto Beans, Hegari, Cane, others. Our new processing plant is designed specifically for fast unloading — LESS BREAKAGE. More farmer profit.

DORMAN & CO. 1920 Ave. E. Phone P0orter 2-0896, Lubbock

### Fair Dates Are Set

The O'Donnell Community Fair has been set for Sept. 15th and 16. General Superintendent of the 3rd annual Fair will be Kenneth Pearson and assistant superintendent will be Jack Minter. Mrs. Bill Davis is superintendent of the Ladies Department. Facilities in this department will be improved this year. All interested persons may contact the above officials.

Next week there will appear a list of all departments. All businesses wishing to have a commercial booth should be making plans now, according to Harold Hohn.

Persons interested in cattle feeding may find a visit with the local county agent very profitable, suggests U. D. Thompson, extension animal husbandman. He says they have available or can get plans for feed lots, feeders and other equipment and have available information on feeds and feeding.

For sale — Small house, 4 rooms and bath, frame, stucco, Bud Pugh

For rent — nice 4 room apt. ab conditioned, carpet thruout, all new furniture. Call Mrs. Smith 8-3885

**Homeowning Can Be Hazardous Too!**

No matter how long the bronc-buster has been riding, he can never be sure the next horse won't throw him.

Such is the case with the homeowner. No matter how careful he tries to be, an unnoticed frayed electric cord, overloaded circuit, or smoldering cigarette can leave his home in cinders.

It's too late then to realize his insurance is "too little—and the wrong kind."

Be sure when you insure. Call on your local independent agent for a thorough appraisal of your needs.

Next week there will appear a list of all departments. All business wishing to have a commercial booth should be making plans now, according to Harold Hohn.

**Farm Trailers To Need Tags --New Law**

There is some misunderstanding of the new laws pertaining to registration of farm implements and trailers for use on highways, states Geo. McCracken, County Tax Assessor and Collector of Lynn Co.

The only vehicles that may operate on streets and highways without license plates are: 1. Farm tractors, 2. Implements of husbandry, 3. Farm trailers with a gross weight not more than 4,000 pounds.

Any farm trailer with a minimum gross wt. of 4,000 lbs. and not more than 10,000 lbs., whether owned by an individual farmer or Gin, can be registered with a farm trailer license as long as it is being used for seasonally harvested agricultural products or livestock. Trailers registered for the \$5 fee can not be used for hire.

Water well drilling machinery used solely for the purpose of drilling water wells may register for the \$5 fee after being approved by the Texas Highway Department.

Any farm trailer that exceeds the 10,000 lbs gross weight will have to be registered with regular trailer license if used on public roads. This fee is subject to the loaded wt. of each trailer

## Proposed School Bond Issue Is Explained To Public

Some year and a half ago the school trustees and superintendent started a study of the building need of the O'Donnell Public Schools. After several months of study the Board formed a plan of building expansion and remodeling.

The present plan that is being presented is the result of the planning. The top picture you see is of the Elementary Building after the addition of four elementary rooms and a Junior High Unit. The picture is being view from the northwest and shows the Junior High unit in the lower left corner. In the upper left corner are the four elementary rooms: two of the rooms and a rest room unit are in the structure running north and

south, the other two elementary rooms are added to the north wing of the present building. This north wing is at present four rooms long and will be extended to six rooms. This will make both wings contain six rooms each. There will be open corridors connecting the new additions with the present structure. A bus loading drive is also planned on the east side of the elementary building where students will enter and leave the buses. This will relieve some of the congestion at the front of the building.

The lower or second picture is the way the old Junior High building will look after the top floor has been removed and the building has been remodeled. This structure

will house the Vocational Agriculture Department, Band Hall, Receiving and storage facilities, Administration office, Tax office and provision for the Homemaking Department. The Homemaking Department will not be moved at present but room will be provided to house this department when it is necessary to move it.

The plan also includes some work in the High School building namely the remodeling of the rest-rooms. In addition to the projects named we hope to have enough money to do some of the following: paving some streets, adding some dressing room space to our gym, repairing and replacing some windows, doors and hardware and securing some needed furniture and equipment for the new buildings.

To carry out this project it is necessary to have a bond issue of one hundred ninety five thousand (\$195,000) dollars. This bond issue will be voted on Saturday, September 9th, 1961 at the High School Auditorium. To service these bonds will necessitate an increase of taxes of 25c on the \$100 value of property. The maturity schedule of the bonds runs for fifteen years. It has long been known the need to replace the old Junior High Building and to replace the temporary buildings now on our school campus. This program will put everything on our main campus in a permanent building. Some of the temporary buildings we are using are 15 or more years old and they were built to last only 5 to 10 years. The school needs these improvements for proper housing of our students and asks the support of the people on the bond issue school trustees said.

Farmers are urged by C. S. Bates extension farm management specialist, to take advantage of every opportunity to learn of the provisions of the Agricultural Act of 1961 just recently signed by President Kennedy.

The Texas Agricultural Extension Service, along with other State Cooperative Extension Services of the nation, has been assigned the responsibility for providing the educational and organizational leadership for carrying out the U. S. Department of Agriculture's Rural Areas Development Program.

A compact, long keeping emergency ration made from whole wheat has been developed and tested by U. S. Department of Agriculture scientists. It was developed for stockpiling in fallout shelters. The product, in the form of wafers, have an estimated shelf life of five years and pack a lot of food value in a small space.

Wanted — a good wood overhead tank, tower, Herbert Green 1604 N. Ave. G, Lamesa, phone 3567
