O'DONNELL, LYNN COUNTY, TEXAS.

FRIDAY, OCTOBER 25, 1929

NUMBER 5

Bales Cotton Ginned By Seven Local Gins To Date

Wednesday afternoon seven ginned by the seven 1,146 bales of this season. This is an increase of 100 bales over our last year's crop. The fair weather of the season has caused the daily ginning to be in coming in 150 bales daily. Farmers are still in need of pickers as it is believed this situation will be relieved within the next few days as pickers are beginning to arrive from other sections of the county. The majority of the crop is ginned.

County Fair Paid All Expenses

The expenses of the Lynn County Fair recently held here have been paid according to C. C. Williams, secretary of the Tahoka Chamber of Commerce, and the business of the fair was not to be paid up an extra dime to pay the bills. The Chamber of Commerce and the revenue from the shows and concerts were sufficient to pay all the expenses of the fair. It was probably the best year in all this section, and the attendance was the most gratifying. County News.

Chamber of Commerce Monthly Banquet

The monthly luncheon of the Chamber of Commerce was held in the evening. The M. S. served an exceptional luncheon, and a good program was presented by the forty-three tables and the women who prepared and served.

By V. Shook and Miss Hines with readings, and a number of town speakers make addresses that were above par, for such occasions.

Manager Dowell, Pres. and Tom Vandell all the general policies of the Chamber, and a spirit of enthusiasm pervaded the evening. Owing to lack of the finance to carry on with a salaried secretary, and at the same time have a budget to work under, the directors decided that it would be better to have a larger budget.

It is hoped that every one will understand the financial and the importance of their duties in order that the Chamber can carry on at full with the co-operation of every one keeping his dues paid. It is believed that the expense incurred by the Fair, the telephone project, and the new auditor can be carried on with a budget without any special drive being needed. The right attitude for the town to take as it is to pay the necessary expenses to the organization to have every few weeks for a regular thing. Let's all cooperate and keep the budget up.

BARBOOL PURCHASED BY STYLE SHOP IN LAMESA

Barbool of the C. C. Dry Goods, of this city has purchased the Style Shop in Lamesa. The trustee sale and is selling at sale prices preparatory to the building within the next few days.

Brown, former gin man of Tahoka, writes the Index from Idaho, stating that he wants the Index so that he can keep the rapid developments of the Index. He states in his letter that he is a pretty short in that section.

Hancock Named Director of County Interscholastic League

W. E. Hancock, superintendent of the Chillicothe schools, was named director general of the Hardeman County Interscholastic League at the county institute of teachers held in Quannah Thursday and Friday of last week.

Other officials named were, director of declamation, Miss Alice Myers of Quannah; debate, Earnest Witt, principal of the Acme schools; spelling, E. G. Gregory, principal at Lazing; essay, Miss Elizabeth Lawrence, Center Point School; rural schools, Noah Phillips, principal Fairview school Goodlett; athletics, C. E. Brown, principal of the Williams consolidated schools, Kirkland.

All basketball events will be held before the county meet, was the decision reached by the teachers, and the executive committee are to determine where the county meet is to be held following the presenting of inducements of the various towns in the county.

The interscholastic League calendar follows: County Institute, Organize and elect county officers.

First day of School. Set fee has been paid and copy of Constitution and Rules is received.

September 21, 1929. Last day for meeting of the district football committee, to be called by temporary chairman.

October 1, 1929. Last day for filing acceptance of football plan.

December 8, 1929. Last day for paying basket ball fee without a penalty.

Jan. 8, 1930. Last day for paying basket ball fee.

Jan. 15, 1930. Last day for filing acceptance of One-Act Play plan.

Feb. 22, 1930. Last day for deciding district championship in basket ball.

Feb. 28, and March 1, 1930. First week-end for holding county meets.

March 7 and 8, 1930. State basketball tournament.

March 28 and 29, 1930. Last day for holding county meets.

April 4 and 5, 1930. First week-end for holding district meets.

April 18 and 19, 1930. Last week-end for holding district meets.

May 1, 2 and 3, 1930. State meet. Chillicothe Valley News.

THORNHILL VARIETY STORE OPENS STOCK REDUCING SALE

The Thornhill Variety Store is expecting their holiday merchandise to arrive about November 1st and in order to make room for the new merchandise has announced a stock reducing sale which will open Friday morning of this week. See their ad elsewhere in this paper.

WE WANT THE NEWS FROM EVERY COMMUNITY

The editor of the Index would like to publish the news from every section of the O'Donnell trade territory and the only way possible to do this is to have you send it to each week.

It is the wish of the management of this paper to have a correspondent in every community in this section, one who will send in the news of his or her community each week.

When you are giving the news of your community every week and letting other folks know just what you are doing in the way of local progress you are doing your community a good deed by advertising it to the rest of the world.

The Index will furnish stamps and stationery and make it worth while to anyone who will serve as correspondent in their respective community. Last drop into the Index Office the next time you are in town, and lets talk it over, or write us for particulars.

Mr. Gordon King of Lubbock was an O'Donnell visitor Saturday.

Wrecks Man's Car Then Marries Him

Five weeks ago Marvin Walker of the South Ward Community went down to Commerce to pick cotton. He was a stranger in a strange land but soon succeeded in landing a job. The man for whom he began work had two fair young daughters. When Walker had been on the job for about two weeks, the damsel borrowed his car to drive a short distance. Having had little experience in driving cars and not being familiar with his particular "make," the young ladies found difficulty in driving it. Some-thing went wrong down the road and the car turned over. The girls were only slightly injured but the car was almost completely wrecked. After extensive and expensive repairs had been made, Marvin came back home in it.

But he soon discovered that there was something bad the matter with him. His heart seemed to be seriously affected. Dan Cupid had got in his work. So, in a few days he heart turned back to Dixie—something went wrong down the road and the car turned over. The girls were only slightly injured but the car was almost completely wrecked. After extensive and expensive repairs had been made, Marvin came back home in it.

The happy young couple then turned their faces westward, driving the same car that had brought them so much grief, and on Wednesday of last week, they arrived at the groom's parents home in the South Ward community, where they will reside. Truly Dan Cupid can turn some funny tricks.—Lynn County News.

O'Donnell Not To Be Represented at El Paso

The West Texas Chamber of Commerce is holding their annual convention in El Paso Thursday, Friday and Saturday of this week, and so far as the Index has been able to learn O'Donnell will not be represented at the meet. It is the first time since O'Donnell has grown large enough to take part in Chamber of Commerce work that it has not been well represented at the annual West Texas Chamber of Commerce meet. There are twenty-six memberships in the West Texas Chamber of Commerce in O'Donnell, but everybody seemed to be too busy to attend the meeting. O'Donnell is a busy town and besides the convention was staged at the wrong time of year. We hope it will be different next year.

P. T. A. NEWS

The P. T. A. met in a regular meeting Wednesday afternoon of October 16. A very appropriate program was rendered by girls of Miss Gary's room. In the play three small girls learned of the many important dates in October.

The play committee reported that they had already selected a play "Sophronias Wedding," that will be staged soon by the P. T. A.

Mrs. Gilbreth was elected publicity chairman, and Mrs. Lins Corresponding secretary.

It was decided to have a parent day the first of November. On this day all parents are invited to come, as they will be entertained by each class in school. Mrs. Burkhalter will have charge of the High School's program and Miss Harville of the Grammar School. We believe that our entertainment will be worth your effort to visit us.

Mr. Clyde Ash made us a very interesting talk also.

Remember that the P. T. A. meets every two weeks on Wednesday after school is out. Don't make your children think you are not interested in them.

Car Sales and Bank Deposits Show Gain

The prosperity of the O'Donnell country is shown in the number of car sales and the rapid increasing bank deposits of the O'Donnell territory.

On last Saturday the Rayburn Chevrolet Co., reported the sale of six automobiles for the day, four of the cars were new ones and two used cars. In speaking of the sales for the month of October, Mr. Rayburn stated they went well over their quota for the month the first two weeks which shows that conditions are rapidly improving in this section.

The bank deposits of the First National Bank of this city also show a big increase on their October 4th call. And to date the deposits show a much greater increase since the October 4th call than at any time this year as cotton has been moving more rapidly.

Singing Convention Sunday at T-Bar

The County Singing Convention will be held next Saturday and Sunday at T-Bar. There will be dinner on the ground both days with free barbecue on Sunday.

Singers are expected from all over the state according to announcement by those in charge of the convention.

License on Light Cars Cut In Half

AUSTIN, Oct. 16.—Goods news for over 1,000,000 car owners is being written by county tax collectors. It records cuts in automobile license fees averaging 50 per cent of this year's fees. And registrations for 1930 will start within 60 days.

On the lightest cars, the decrease will be more than one-half, on medium-weight cars just 50 per cent, and on the heavier machines less than one-half the present registration fees.

But the good news for passenger car owners does not extend to those who must register trucks and commercial cars. License fees for these were not lowered, but in most cases have been increased.

The reduction in fees was made as an offset to the increase from two to four cents in the gasoline tax rate. It will cut down the statewide registration total on passenger cars under about \$20,000,000 a year to under \$10,000,000. This is based on the larger proportion of the light than heavy cars being in use.

The new fees are computed wholly on weight. Old fees were based on both weight and horsepower.

For the information of those who will buy license plates in December and early January, the following table will show the comparison between the old and new. The 1930 fees may vary a few cents from these figures, based on the proportions within 100-pound brackets adopted as official, but this shows substantially what next year's fees will be for typical cars.

TENNIS CLUB ORGANIZED

On Friday the Tennis club of the O'Donnell High School was organized. There were fourteen charter members. The following officers were elected:

President—Ralph Beach.
Eula Bell Miles—Secretary-Treas.
Wilbur Lines—Vice-President.

A committee was appointed to formulate the constitution and by-laws of the club.

Tahoka Gin Men Indicted By Grand Jury Past Week

Old Man Winter Makes His Appearance Here Tuesday

Old man winter swooped down on O'Donnell territory early Tuesday morning sending the thermometer to the lowest point of the season. Gas stoves were put into action in most places of business and all homes. Overcoats were in evidence Tuesday night and early Wednesday morning.

Some frost was reported in some sections but no damage resulted as it was on the light of the moon. Early Tuesday morning the thermometer was hovering around 40 degrees. Predictions late Wednesday evening just before going to press were that the thermometer would fall below the freezing point before morning.

Phillips Petroleum Co. Agency Change Hands

J. P. Aylor who established the Phillips Petroleum Company agency here several weeks ago reports having sold his interests the past week to Mr. Guy Simpson of Lamesa who will have charge of the wholesale oil agency in the future.

MRS. W. E. GUYE IS HOS- TESS TO B. Y. P. U. PARTY

Mrs. W. E. Guye was hostess to a B. Y. P. U. party last Thursday evening in her lovely new home. Various contests and games were enjoyed such as making the witches cat, walking the wall, transporting the witches message hidden spoons, Miss sandwich and Capt. Crossbones coached their respective sides in the contest to a tie score. Attractive prizes were awarded to the sides contesting the witches of the nite and the Jack O' Lanterns. Fortunes were told by plucking the owl's feathers and were read aloud. Partners for refreshments were found in a clever manner after which they all marched through the spooky darkened hall to the dining room, where delicious refreshments in the Halloween mode, consisting of doughnuts and coffee were served to the following guests: Alta Lee Payne, Hattie Wasson, Grace Harville, Tricie Harville, Irene Martin, Christine Milwhee, Sue Gates, Lulu Rice, Roxie Hancock; V. B. Hohm, Desmond Yandell, Lyle Pugh, Vance Guye, Homer Cole, Benton Payne, Mr. and Mrs. W. E. Guye, Mr. and Mrs. Dallas Vaughn.

The only Quaker colony in Texas is at Friendwood, near Houston. Its founder, F. C. Brown, 79, died recently.

Watch for the dates of the ONE CENT SALE at Corner Drug Store.

HAVE YOU PAID YOUR SUB- SCRIPTION TO THE INDEX

Now is a good time of the year to make the editor happy by calling at the office and paying your subscription up in advance to the Index. We only ask our readers but once a year for the small sum which doesn't amount to very much to any individual, but when multiplied by hundreds, means bread and butter to the editor, wife and kid.

A majority of our subscribers time will expire within the next sixty days right at the time when money is more plentiful than at any time of the year—when it will be missed less—after you have paid up. We know you do not want to miss an issue of the home town paper. Everybody wants to keep up with the local happenings and besides it won't be long now until the candidates will be talking with local politics.

When our subscribers are prompt in paying up it helps to run a better paper. THANKS! Who will be first?

Ginners Are Released Under Bonds of \$1,000 After Probe by State Attorney General's Dept.

TAHOKA, Oct. 19.—Following the return of a number of indictments by the Lynn County Grand Jury, for Tahoka ginners are out under \$1,000 bonds each, charged with violating the Texas anti-trust laws.

Arrests of the four ginners, A. J. Edwards, M. L. Thomas, M. L. Handley and A. N. Willingham, were made yesterday, the grand jury returning its indictments on Thursday. All of them immediately made bonds and were released.

Probe State-Wide
According to information gained here, a statewide investigation seems to be under way relative to the violation of anti-trust laws of the state. The Texas attorney general's department, in conjunction with the Lynn county grand jury made a very thorough investigation with reference to alleged violations of this law in Lynn and adjoining counties during the past week and a half. These alleged violations pertain to the handling of cotton and cotton seed by the ginners.

The state's part in the investigation was in charge of Galloway Calhoun, first assistant attorney general, and Justice Lawrence, also of the attorney general's department.

Price Control Hinted
It is expected that the state's contentions, in trying these cases, will be along the line of claiming that the ginners have been guilty of combining themselves together in an effort to control the price of cotton in this vicinity. Investigations placed before the grand jury are said to have contended that Tahoka ginners agreed to purchase cotton at practically the same price, without regard to staple or grade, following an agreement between them. There are no independent cotton buyers operating in Tahoka, the field being practically controlled by the ginners.

Charges purported to show that farmers have been receiving prices for their cotton between 200 to 350 points under the New York market quotations at all times. This is said to mean a difference of from \$5 to \$15 per bale, under the price rightfully due the producers. Lynn county is expected to produce approximately 20,000 bales of cotton this year. Should the producers of this county suffer a loss of an average of \$10 per bale this season it would mean a county-wide loss to its income of \$200,000.

Only Cases
So far as is known, these are the first indictments returned in Texas for many years that involve violation of the anti-trust laws. It is thought these are the only cases of record of such indictments having been returned in West Texas.

It is understood that there were several other bills of indictment returned by the grand jury, in addition to the four named above, but no arrests had been made today.

Indications are that the state will institute several civil suits, to follow indictments here, the suits more than likely to be filed at Austin and all of them growing out of the investigation obtaining here.

1500 BALES OF COTTON GINNED TO DATE IN DAWSON

LAMESA—1500 bales of cotton have been ginned in Dawson county, today according to reports given out this week. Gins are running night and day in the blast of the cotton ginning season. Nine gins are operating in Lamesa while in the county there are twenty one. The crop, as estimated some few weeks ago, is turning out better than predicted. Dawson's yield is now placed at 35,000. Last year the production was 30,800. The county is producing plenty of feed for home consumption, but it is thought little feed will be shipped from the county.

Mr. Kenneth Campbell of Midland spent last week with his parents Dr. and Mrs. J. F. Campbell of this city.

Mr. and Mrs. S. T. Price and family were Midland visitors Sunday.

HELPING TO BUILD TEXAS

The Davison Chemical Co. of Baltimore will spend \$1,000,000 on a chemical plant at Houston. It recently acquired 15.82 acres on the Ship Channel for \$47,500. It recently bought a plant at Orange and is considering purchases of other properties in East Texas, according to the Houston Chronicle.

J. Manufacture of caskets has been started by the Orange Casket factory, which will be in full operation this fall.

When the Hudson rural school district was recently organized through consolidating five smaller districts in Angelina County, it needed a passenger truck to carry the children to and from school. It gave a Lufkin wagon company contract for building the body and the Lufkin News pronounce it the last work in convenience in the way of transportation. It carries 50 children comfortably and safely. Orders from other school districts have come to the Lufkin factory as a result of the excellence of its first effort along that line.

H. A. McAlpin, Ellis County farmer, keeping thirty-five cows, has been keeping books on their results. Deducting expenses of feeding and other items of cost, he finds that each cow is bringing him net between \$8 and \$9 a month.

San Antonio City Commission has enacted an ordinance elevating a license fee on gasoline pumps, oil stations, water hose and air hose in filling stations using city sidewalk space. About 2,500 such stations in San Antonio are under the new law.

The Secretary of State's office at Austin in July issued charters to 235 new enterprises with capitalization of \$10,898,000, a new high record for that month. In June 179 corporations capitalized at \$81,190,000 were chartered, helping to make the Texas Business Review, issued monthly by the Bureau of Business Research at the University of Texas, optimistic over the fall business outlook.

Work began in September on the \$150,000 creamery and poultry plant which Swift & Co. are building at Paris. The plant is to be inaugurated by Jan. 1 next. The creamery will have a capacity of 50,000 pounds of butter weekly.

NOTES AND COMMENTS

Few wives believe that their husbands have to work at night.

Most men wish to retain their eyesight until the styles change.

Now that the world series is over the baseball fans can get back to work.

Some newspapers are so large that it takes a bloodhound to scent the news.

President Hoover, being polite, might return Mr. MacDonald's visit next year.

O'Donnell belongs to its citizens, and will be what they try to make it. Some people think that the Bible is a book of fiction. That's fiction for you.

Mr. Shearer, it seems, managed to get along quite well before the Senate committee.

When armies are really reduced there ought to be bright future for some Mexican generals.

Correct this sentence: "It's my money; my wife just happens to have it in her pocketbook."

Everybody will agree on general principles: the row starts when some fool tries to apply them.

It is easy enough for Hoover and MacDonald to agree, but no two statesmen can quarrel peace.

The average sweet young thing in O'Donnell knows just exactly how foolish men can be.

Maybe if the Congressmen can't relieve the farmers the farmers will be able to relieve the Congressmen.

Our idea of an optimist is trying to figure out why his summer garden failed to produce catalog results.

You can lose your money playing poker, or speculating on the stock market. Some people do it both ways.

Our extra slice of pie for this week is awarded to the advertiser who says, "I don't believe in free publicity."

G. E. CAMERON

is the representative of the Texas Electric Service Company in O'Donnell.

For any information about your electric light service call Mr. G. E. Cameron at Texas Electric Service Company, Lamesa, Phone No. L. D. 11, or at Lamesa Texas, Phone 237

ROUNTREE CRITICIZES STATE AND FEDERAL DEPARTMENT OF AGRICULTURE

LAMESA—Carl Rountree, Representative of the 119th District of Texas and Co-Author of the Pink Boll Worm Law passed at the last session of the Legislature in a statement made here today criticizing the State and Federal Agricultural Department for laxness in the enforcement of regulation imposed in this area. Rountree quotes these departments as saying "The pink boll worm can never do any material damage in this section on account of climatic condition peculiar to this section" and as giving reason for continuing regulations "as being necessary for fear a worm might be carried in seed or otherwise to the cotton belt east of here where it will be very destructive." Rountree so points out that if it is so necessary for this area to be under regulations as prescribed by this law, because "Two dead Pink Boll Worms" were found here two years ago, and for the protection of the "Cotton growing belt of Texas and the South," it is necessary to use every precaution possible to bring about absolute sterility in this affected area. Rountree points out that not until recently did the Department place a quarantine station north of Lamesa on the Lubbock Highway, thus leaving this highway free to passing of all kinds and making an avenue of escape for all cotton and cotton seed that owners might wish to carry north and of course after reaching an east and West Highway north of here the products could go in all directions. In the meeting at Odessa the 23rd of September this laxness of enforcement was pointed out by Rountree and others. Within a few days the

on the Lubbock highway after having left it open for the past two years, Rountree says, Rountree further observes that as yet in the Brownfield Highway leading North from Lamesa and into Terry County and thence into the South Plains cotton belt there is exactly the same condition prevailing with no quarantine station on this highway as was the case on the Lubbock Highway where a station has been recently placed. Cotton seed and lint can easily be routed over this highway to a road north of the Quarantine line and thence East to the cotton growing belts, where according to Entomologist the Pink Boll Worm could do much material damage. Rountree charges laxness and lack of earnest intention to enforce regulations in this area as demonstrated for the past two years here. He further states "if it is so necessary to place this quarantine" which will cost the people approximately a \$10,000.00 each year "it is just as necessary to strictly enforce the regulations and place quarantine stations on all important highways leading in such directions as might furnish avenues for cotton seed and lint to escape to our Eastern neighbors who certainly do not want to become contaminated with this pest and such quarantines."

W. E. MICKY OF LAMESA DIED MONDAY MORNING

LAMESA—W. E. Mickey, age 61 died here Monday morning. Funeral services were held Tuesday at 11 o'clock in the Mickey home. Evangelist Alvin A. Mitchell of the Church of Christ officiating. Interment took place in the Lamesa Cemetery following the funeral services. The deceased leaves his wife and six children, three boys and three girls.

WE CAN'T CONTROL THE WEATHER... but
WE CAN CONTROL VOLATILITY
There's been a lot said about the weather but very little done about it—until Phillips 66 was perfected. Here, at last, is a motor fuel in which the volatility of each gallon is controlled to fit the season and the climatic conditions of the locality in which you buy it. The result? Instant starting—any weather. Quick warm-up. Easy acceleration. Mileage and power that gratify. All this at no extra cost! For best results try a full tank of Phillips 66... or 66 Ethyl.
Phill-up with **Phillips 66**
© 1929, Phillips Petroleum Company
CONTROLLED VOLATILITY
WHEN THE THERMOMETER GOES DOWN THE VOLATILITY GOES UP. Gasoline with vaporized before be fired in the cylinders of your motor. Volatility refers to the ability of gasoline to vaporize. With volatility controlled, 66 vaporizes as quickly in cold as in warm weather.

World Cruising Damsels Wear Great Variety of Costumes

ROUND-THE-WORLD PANAMA GIRLS

to whom a world cruise or some long winter voyage is an end yet to be enjoyed may be what those more fortunate to pass the time while they sail the Seven Seas. It may be the stay-at-homes to know the time spent on these pleasure rarely hangs heavy, for all sorts of amusements are planned for the enjoyment of the globe-trotters. The bridge find his bridge partner the amateur photographer. His expeditions and the danc-ing, but one of the most of all, to the fair sex, as in that of purchasing and try-coutumes typical of the various

far-off lands visited. Pictured above, for instance, is a bevy of beauties photographed aboard the world-cruising Canadian Pacific liner "Empress of Australia" en route from China to Japan during her 1928-29 annual cruise. The world cruise. They are pictured out in dazzling Panama suits which they purchased in the Orient. A collection of pseudo-Chinese mannequins must have caused every a masculine heart to miss a best or two! The other group of ladies are wearing mandarin as acquired during an earlier trip around the world. At practically every port of importance it is possible for passengers who are so inclined to purchase some little

mento, be it a shawl, a miniature Buddha, a ring, a native doll, a walking stick or other souvenir of their travels. During a world cruise of the "Empress of Scotland" several years ago a cruise member from Denver, Col., purchased a toy elephant for each member of the Denver Kiwanis Club of which he was a member and posed with his collection of pachyderms for the vessel's corps of amateur photographers. Spanish shawls, parasols and many other articles complete the list of possibilities for globe-trotters with a penchant for collecting. The "Empress of Australia" will sail again on a globe-girdling voyage, leaving New York December 2, 1929, for a cruise of 137 days.

SHOWS DAWSON COUNTY IN GOOD SHAPE

Lamesa is the trade-one of the largest agricul-ture for a city of its popula-tion in Texas. While this time, this large terri-tory, retail establishments of taking care of the de-velopment of this section. The money this section is almost wholly agricultural. county is 30 square miles of 576,000 acres of good all lands, 95 per cent of tillable and of the sandy clay type at this time, it is recent surveys that only of the tillable lands of are under the plow. The new land cultivation each been 10 per cent outside of county and Lamesa's terri-

tory the above figures are said to be too liberal for the further away from Lamesa one gets the less lands have been placed to cultivation. A colonization move, instigated by the Lamesa Chamber of Commerce and the agricultural division of this body, is aimed to induce well to do farmers, interested in dairying, growing of grain sorghums in this vicinity. In the last few years Dawson county farmers have turned to dairying proving that this section is an excellent dairy section. Survey shows at this time, more than 6,000 head of milk cows and 3,000 heifers, all of good grade quality. The survey also reveals that the county has 150,000 head of hogs, 30,000 turkeys, 16,000 horses, all on 2249 farms. The county is given 22,000 by this survey and the average farm is 160 acres. The annual income for the county from produce is placed at \$500,000.

Although Dawson County is noted for feed raising, good cows, hogs and poultry it is also known for cotton production. The average production of cotton is placed at 40,000 bales. This year a total of 200,000 acres were planted to cotton and although, like most of Texas and the South-west the extended drought took its toll from the average yield here, the county is now producing 35,000 to 40,000 bales. It is agreed by all who raise cotton and who familiar with this section that it can be raised cheaper here and on the South Plains than any place in the cotton growing world. After the farmers prepares his seed bed, which is merely "bedding" of the land, planting and then from two to three plowings is generally all that is needed until harvest which is the greatest problem. No "chopping" or thinning of the cotton is necessary, it being claimed bolls will better mature if the plant

is left thick.

Lamesa the county seat of Dawson County has a population of 6,000 people. The only affiliated eleven grade high school in the county is located here. Good churches, good hotels, retail stores, two newspapers, three wholesale groceries, nine gins, cotton seed oil mill, two feed mills, Steam Laundry, Ice Cream factory, bottling works, two banks, two theaters, two modern hospitals and sanitariums all housed in modern day bricks are the boast of Lamesa folks. The comment generally heard coming from the visitor here that "Lamesa is one of the cleanest and neatest towns in Texas," is the boast of the citizenship of this city.

In addition to the money crop of some three or four million dollars received here annually from cotton, million dollar feed crops, one half million dollar cream and produce checks, quarter of a million dollars from hogs and other sources, there are thousands of ranges and beef cattle shipped from the ranches maintained in Borden, Gaines, Martin, and joining counties adjacent to Dawson County, which bring added money to this section.

Mice are very small compared with trees, but these rodents annually destroy thousands of valuable fruit trees many of which might be saved. Orchards should be examined regularly in fall and spring for signs of mouse injury. Preventive measures include removing cover from around the bases of trees, treating trees with repellent washes, inclosing trees with mechanical protectors, and killing the mice by poison or traps. Clean cultivation as practiced in western orchards is usually effective in eliminating mice. Most mouse injury to orchards is done either by meadow mice or by pine mice. The pine mouse generally works underground, where its ravages are unsuspected, whereas the meadow mouse feeds mostly at the surface. Trees damaged slightly by field mice will usually recover if the injured parts are completely covered by mounding up soil around the base of the tree, or if paint or other material is applied to keep the wounds from drying out.

will prevent the earth from washing and improve the condition of the soil. If the ground is not sown to a crop, and there is no danger of washing, it is well to plow or spade it and let it lie rough through the winter. Feezing will kill many insects as well as lighten the soil by alternate freezing and thawing.

TIRES VUNCANIZED at Foster's.

Ewes should be gaining in weight when they are bred. Stubble and stalk fields, fence strips in plowed fields, late pastures, green rye pasture in late fall, and, in the South-west, velvet beans, are all useful in carrying bred ewes through the fall and into the winter. Silage and root crops are good feeds, but should not be given when the pasturage is soft and watery.

After the truck crops are all out of the garden, it is a good plan to remove all vines, dead plants, and other trash and sow the ground to rye or some other green crop. This

Millions of Miles of Constant Testing to maintain the outstanding quality and dependability of The Chevrolet Six

In spite of the fact that a million Chevrolet Sixes have already been placed in the hands of owners, and have proved their performance and stamina by billions of miles of service over every type of highway the nation affords—the Chevrolet Motor Company continues to take new Chevrolet Sixes from the assembly line at the factory and subject them to pitiless testing on the roads of the General Motors Proving Ground! This passion for proof—this consistent refusal to accept any

tests as final—is one of the fundamental reasons for the overwhelming popularity of Chevrolet cars. For in no other way is it possible to make the Chevrolet Six so sound in design and materials—so dependable in performance—and so economical to operate! If you are considering the purchase of an automobile, come in and see the new Chevrolet. You will find that it is more than a Six in the price range of the four. In every way it is a finer car than you ever thought possible in the low-price field!

Table listing Chevrolet Six models and prices: The Coach 595, The Roadster \$525, The Phaeton \$525, The Coupe \$595, The Sport \$645, The Sedan \$675, The Imperial Sedan \$695, The Sedan Delivery \$595, The Light Delivery Chassis \$400, The 1 1/2 Ton Chassis \$545, The 1 1/2 Ton Chassis with Cab \$650.

THE TOWN WHICH GOES AHEAD

Some towns, because of a large territory from which to draw, because of exceptional resources nearby or as the result of unusual circumstances, forge ahead of others not so fortunate.

Progress, however, can not be attributed altogether to circumstances. The town whose citizens put their backs to the wheel of advancement will be a better town and its future more secure regardless of whether it has been favored or unnoticed by the god of chance. A town can be no better than the citizens who form it, regardless of outside influences.

What, then, makes a good citizen? vancing the good causes of his community. He is one who is willing to co-operate with others and who can see the viewpoint of his neighbor as well as his own. He is one who does not knock, even if his own opinions are overruled.

A good citizen, if he is able, should be willing to back new enterprises that make for the progress of his community, and, if he is not in position to help financially, he can speak a good word.

If the citizens as a whole show such a spirit of co-operation leaders will come as a matter of course. But the support of the masses is essential.

It takes the united efforts of many to build well—but remember, any fool alone can tear down.

Bring Happiness and Comfort to Dependent Texas Families

Value of Life Insurance
By W. A. Fraser
Life insurance has saved many families from going to the poorhouse.
Life insurance has made it possible for children to continue with their education.
Life insurance has eliminated misery; has kept the wolf from the door of widows and orphans; has brought comfort in old age.
It is a dawn of hope that will reveal itself when days of sorrow have come.

MARVELOUS story of the misery that has been eliminated and the happiness and comfort that has been brought to thousands of Texas families whose providers were members of the Woodmen of the World is strongly emphasized by figures compiled by W. A. Fraser, sovereign commander of the Woodmen of the World.
Sovereign Commander Fraser's figures showed that the Woodmen of the World life insurance association has paid \$4,215,759 in death claims to families of this state since the Woodmen of the World started to do business here in 1891.
"Just think what these millions of dollars paid in insurance benefits have meant to these families whose providers were snatched away from them and their regular incomes stopped," said Sovereign Commander Fraser. "One does not have to stretch his imagination to realize what this money has done for the widows and the orphans of the families of this state. If these bread-winners had not been insured, think of the great misery which would have come into the lives of the wives and children through no fault of their own. Just a little thoughtfulness on the part of the fathers and husbands of these families brought untold happiness, gave the children a chance for an education, kept many families out of orphan asylums and poorhouses and in this way saved the taxpayers of the state thousands of dollars. The Woodmen of the World has been glad to pay these claims and

bring this happiness to these many thousands of families of this state.

"The marvelous record of the Woodmen of the World can be traced greatly to the loyalty and enthusiastic support given us by the people of this state. We enjoy doing business here and we hope we will always be able to play an important part in bringing happiness and future security to the families of this state who suffer the loss of their bread winners."

"The maintenance of the War Memorial hospital at San Antonio, Texas is one of the great services performed by the Woodmen of the World. Patients are cared for free of charge in an institution that contains every possible means of renewing the health of our members. Of the 3,000 patients that have been cared for a majority have been returned to their homes, cured and in a position to become useful citizens of the nationwide communities in which they live."

Mr. Fraser announced that the Woodmen of the World is 100% solvent and now has \$9,000,000 in municipal bond holdings in its reserve. A large portion of these bonds have been invested in this state, thus aiding in the building of the state's roads, schools, and various public improvements.
"The Woodmen of the World is now the richest fraternal life insurance association in the world," said Mr. Fraser.

1929. State of Texas, County of Lynn, ss.

Before me, a Notary Public in and for the State and county aforesaid, personally appeared J. W. Roberts, who, having been duly sworn according to law, deposes and says that he is editor & mgr. of O'Donnell Index and that the following is to the best of his knowledge and belief, a true statement of the ownership, management, etc., of the aforesaid publication for the date shown in the above caption, required by the Act of August 24, 1912, embodied in section 411, Postal Laws and Regulations, printed on the reverse of this form, to wit:

1. That the names and addresses of the publisher, editor, managing editor, and business managers are: O'Donnell, Texas. Editor, managing editor, and business manager, J. W. Roberts, O'Donnell, Texas.
2. That the owners are Roberts Printing Co., O'Donnell, Texas, Sam A. Roberts, Haskell, Texas; J. W. Roberts, O'Donnell, Texas.
3. That the known bondholders,

mortgages, and other security holders owning or holding 1 per cent or more of total amount of bonds, mortgages or other securities are: Mergenthaler Linotype Company Brooklyn, N. Y.

1. That the two paragraphs next above, giving the names of the owners, if any, contain not only the list of stockholders and security holders as they appear upon the books of the company but also, in case where the stockholders or security holder appears upon the books of the company as trustees on any other fiduciary relation, the name of the person, or corporation for whom such trustee or corporation for whom such trustee is acting, is given; also that the said two paragraphs contain statements embracing affiant's full knowledge and belief as to the circumstances and conditions under which stockholders and security holders who do not appear upon the books of the company as trustees, hold stocks and securities in a capacity other than that of a bona fide owner; and this affiant has no reason to believe that any other person, association, or corporation has any interest direct or indirect in the said stock, bonds, or

other securities than as so stated by him.
J. W. Roberts.
Sworn to and subscribed before me this 24th day of October, 1929. (SEAL) B. M. Haynes. Notary Public for Lynn County.

Mr. Marshall Whitsett left Saturday for Wichita Falls, where he will be joined by Mrs. Whitsett who will leave immediately for the place where they will attend the Fair.
J. A. Duncan of Lubbock last Saturday in O'Donnell.

partment for laxness in the enforce- ment of regulation imposed in this area. Rountree quotes these de- partments as saying "The pink boll worm can never do any material damage in this section on account of climatic condition peculiar to this section" and as giving reason for continuing regulations "as being necessary for fear a worm might be carried in seed or otherwise to the cotton belt east of here where it will be very destructive." Rountree so points out that if it is so necessary for this area to be under regulations as prescribed by this law, because "Two dead Pink Boll Worms" were found here two years ago, and for the protection of the "Cotton growing belt of Texas and the South," it is necessary to use every precau- tion possible to bring about absolute regulation in this affected area. Rountree points out that not until recently did the Department place a quarantine station north of Lamesa on the Lubbock Highway, thus leaving all kinds and making an avenue of escape for all cotton and cotton seed that owners might wish to carry north and of course after reaching an east and West Highway north of here the products could go in all directions. In the meeting at Odessa the 23rd of September this laxness of enforcement was pointed out by Rountree and others. Within a few days the

on the Lubbock highway after hav- ing left it open for the past two years, Rountree says. Rountree further ob- serves that as yet in the Brownfield Highway leading North from Lamesa and into Terry County and thence in- to the South Plains cotton belt there is exactly the same condition prevail- ing with no quarantine station on this highway as was the case on the Lub- bock Highway where a station has been recently placed. Cotton seed and lint can easily be routed over this highway to a road north of the Quarantine line and thence East to the cotton growing belts, where ac- cording to Entomologist the Pink Boll Worm could do much material dam- age. Rountree charges laxness and lack of earnest intention to enforce regulations in this area as demon- strated for the past two years here. He further states "if it is so necessary to place this quarantine" which will cost the people approximately a \$10,000.00 each year "it is just as necessary to strictly enforce the reg- ulations and place quarantine sta- tions on all important highways lead- ing in such directions as might fur- nish avenues for cotton seed and lint to escape to our Eastern neighbors who certainly do not want to become contaminated with this pest and such quarantines."

SURPRISE FAREWELL PARTY FOR MR. AND MRS. C. F. SHOOK

Mrs. E. J. Bean gave a lovely party for Mr. and Mrs. C. F. Shook before they left for New Mexico where they intend to make their future home. Much time was spent in fun and laughter as friends can have at such happy gatherings. Then came the refreshments the best part of all, consisting of ice cream and cake which was served to the following guests: Mr. and Mrs. C. F. Wells, Mr. and Mrs. Carey Shook and daughter, Audrey Lee, Mr. and Mrs. E. J. Bean and children, Mrs. Douie Kir- kland and children, Mr. Edward White Miss Bertha Campbell, Miss Ruby Bradford, and the honoree Mr. and Mrs. C. F. Shook.

LYNN COUNTY FARMERS TO PLANT ONE COTTON BRAND

Staple Improvement Object of Pure Seed Project

TAHOCA, Oct. 19.—Thirty five Lynn county farmers, in a meeting held at the courthouse here this afternoon, unanimously agreed to planting a single and pedigreed variety of cotton for their next year's crop, following considerable agitation against the half-and-half grade of staple predominating throughout this section.

Another meeting will be held here next Saturday, following an effort in the meantime, of County Agent R. E. Shaver to locate pure seed breeders with quantity of pedigreed seed sufficient to fill the needs of these and other farmers who have signified a determination to raise the quality of cotton produced in this county.

Follows Investigation

Action today is the result of an investigation made by a committee of 11 appointed a week ago today. This committee included County Agent Shaver, C. C. Williams, secretary of the Tahoka Chamber of Commerce; Wylie Curry, L. H. Perkins; H. W. Calloway, Harley Henderson, D. Rogers, Frank Stewart, R. W. Fenton, R. A. Chambers and James Weatherford, all cotton farmers.

The committee made a visit to the State Experiment Station and the textile engineering department of Texas Technological College, at Lubbock, last Wednesday. At the Experiment Station it was learned from Superintendent Don L. Jones that the impression prevalent here that half-and-half cotton was the best adapted to a short growing season, as obtains on the South Plains, is not true.

Experiment Made

Mr. Jones showed, from experiments made with 126 different varieties of cotton, that on the average the half-and-half variety stands fourth from the top in maturity dates for this section. The best record made, as to maturity, was that of the Burnett variety, the next being Mebane 804, followed by Mebane 406.

In 1925, which recorded the shortest growing season for this section of many years, yields resulting from many varieties experimented with at the state farm, show Mebane 804 leading with 154 pounds of lint per acre. Burnett next with 144 pounds, New Mebane third with 136 pounds, Acala fourth with 128 pounds and half-and-half fifth with 105 pounds of lint to the acre.

Grider Presides

County Judge G. C. Grider, ever active in movements for the betterment of farming conditions in Lynn county, presided at the meeting here today.

Effort will be made by the farmers who agree to growing the single, pedigreed variety of cotton next year to have this cotton ginned at some one gin, arrangements to be made for the ginning of this variety upon a certain day or days, in order that there will be no mixing of seed to be extracted and to insure the growers the saving of their seed for the following season.

It will also be the aim of these farmers to pool this new class of cotton, when ginned, the statement having been made here today that "the practice of selling cotton before it hits the ground after leaving the gin is bad, and we favor pooling if it is only for one day."

In times of drought on the range, many cattle raisers utilize the native plants such as prickly pear, soap weed, and bear grass. These plants, ground up, will keep cattle alive if fed at the rate of 20 to 25 pounds a day for each animal. If 1 to 2 lbs. of cottonseed cake is given in addition, a fairly good ration is provided.

WELLS NEWS

(Too late for last week.)

The local sowhwers have interfered with the cotton picking from Saturday to Wednesday.

The Wells School has almost all of the text books required now, due to the arrival of several shipments of books last week.

The school trustees of Wells School met Wednesday night of last week, October 9, and gave the superintendent permission to order the basket balls and two sets of playground ball equipment.

Each member of the Spanish class of Wells High School has written a letter in Spanish to some pupil in the same grade in the larger cities in Old Mexico.

In spite of the bad weather there was a good attendance at Sunday School and B. P. U. Sunday, October 13.

The intermediate group of the B. Y. P. U. are going to put on a short play in the near future. The play is going to show the importance and propose of a good B. Y. P. U.

Miss Willie Ruth Little and Miss Eunice Little spent the week-end at their home in Abilene. Miss Mabel Draper visited with them.

A birthday dinner was given at the home of Mr. R. P. Ledbetter in honor of their son, Ray Ledbetter. Those present were Mr. and Mrs. Garland Ledbetter and children, Mr. and Mrs.

Andie Ledbetter and baby, Mr. Ray Askey, Mr. and Mrs. Balch, Mr. and Mrs. Smith, and Misses Vera and Helen Askey.

Miss Lois Entekin and Mr. Ernest Parker were to be married Monday evening, October 14. Miss Entekin and her mother went to Lamesa to select some of her trousseau.

Miss Floy Phipps has returned from Calmer County, where she was a delegate of the Church at New Moore.

Important points for the beekeeper to keep in mind in preparation for winter are plenty of young bees,

a good queen, plenty of good-quality stores, sound hives, and protection from cold and dampness.

Farmers' dairy co-operators received \$640,000,000 in 1923 from the sale of dairy products. Of this amount, nearly 42 per cent was from the sale of fluid milk, about 41 per cent from butter, 7 per cent from cream, and 6 per cent from cheese.

The cowpea succeeds under so many different conditions that it is valuable in almost any system of rotation as a catch crop or for hay or seed production. Although in the

Cotton Belt cowpeas are often stored until winter before thrashing or hulling them, it is probably better to thrash or hull them when thoroughly dry, and reclean and store them in sacks.

Mr. and Mrs. Ferris Heathington spent last week end here visiting Heathington's parents Mr. and W. L. Gardenhire and family.

We deliver: and set all our work on concrete foundation and you do not pay us till after the work is completed and you see that it is right every way.

SOUTH PLAINS MONUMENT CO. Write us for designs and prices—Lubbock

Yesterday

The small isolated power plant is fairly capable of serving the simple needs for electric service. The use of electricity were few - it had not then assumed the importance in daily life which it now holds.

Today

The isolated power plant is not capable of meeting the modern demand for electric service. Great generating stations produce electric power which is transmitted over high tension power lines for many miles, thus making possible metropolitan electric service in the smallest towns.

The PURPOSE of the

Texas Electric Service Company as a Texas Institution

While Texas produces almost 50% of the Pecans grown in the United States, you will find Pecans from many other sections on sale in Texas stores which do not feature Texas Pecans. It is possible to produce much new wealth in Texas by proper marketing of Pecans.

The Texas Electric Service Company was established several years ago for the purpose of rendering electric service to Texas cities and towns.

It was evident, even then, that isolated power plants would not be able to supply the rapidly multiplying needs of Texas people for electric service.

After long study and experiment the engineers of the Texas Electric Service Company, together with other leading electrical engineers throughout the world, found that electric energy could be transmitted over high tension power lines for great distances from large generating stations, thus making possible a metropolitan type of electric service for smaller communities.

From that day until this it has been the purpose of this Company to render an electric service adequate to the needs of Texas people, in order that any user in any community served

could at any time of the day or night, press an electric button and receive instant, dependable electric service at a reasonable cost.

Revolutionary changes have been made in the methods of generating and distributing electric power. Changes are rapid, so rapid, even now, that equipment which is the last word today will be obsolete tomorrow. Electric service has become so inseparably a part of our daily life that it would be impossible for us to move through a day without its aid. The tremendous burden of responsibility which is thus thrown upon the Texas Electric Service Company is borne with true American efficiency.

Through all the changes within its own industry, through poor years and good, through prosperity and depression, into this present era of stabilized and sound development, the Texas Electric Service Company has held unwaveringly to its great purpose. As a result those Texas cities and towns served by this Company have unrivaled electric service.

hands of the executive board, Wilson points out.

Letters sent out from the Lamesa organization to leaders of the West Texas Chamber of Commerce reorganiza- tion move, which will take place at the El Paso Convention, reveal a suggestion, of the "County Unit" plan for representation in the organization. In the main it offers the plan of permitting the membership in the West Texas Chamber of Commerce, for each County, to select one of its number as County Directors. The organization is to be divided into not more than twelve districts. The County Directors of each county in each district, which is organized by the President elect, meet and select one of their number as Executive Directors. The County Directors serve in the capacity of "Key Men" for the organization in subjects as referendums, membership drives and all other matters in which the organization desires to get in touch with the membership. The Executive Board will have active charge of the business of the organization-making budget, programs of ing the policies of the organization, work, election of a manager, dictat- rating members of the staff and such other duties as devolve upon like bodies, Wilson points out. In this plan no County Director can serve more than two years in succession but must serve two years.

In suggesting and offering the above plan, Wilson points out that it is done with the idea of being of some service to the future West Texas Chamber of Commerce and that this great regional organization might continue to exist as an organization of direct service to its membership as well as to the section known as West Texas. In making the above suggestions Wilson desires it to be understood that he is not a candidate or the managership of this

organization stating that he is hap- pily located in the capacity of the Lamesa Chamber of Commerce.

MRS. GOOCH HOSTESS TO A HALLOWEEN PARTY

Mrs. Paul Gooch entertained her room with a Halloween party on last Friday night. This party was given in the hostess lovely new home which was decorated throughout in the usual Halloween style. Especially significant were the softened lights and spook faces. Each guest came attired in Halloween garb and you can imagine the thrill in watching them arrive. Games of various kinds were played throughout the evening. There were three very interesting characters who took a part in the evenings program, namely, Witch Friga (Mrs. Martin) who assisted in serving, Miss Ghost (Grace Har- ville) and Princess Zella (Mrs. Wil- son) who told fortunes consisting of very fortunate and unfortunate love affairs. There was a Topsy Turvy contest which was won by Veda Shumake and Lawrence Tredway.

After much fun and merry making lovely bright red apples and yellow stick candy was served to the follow- ing guests:

Veda Shumake, Marie Eaton, Lor- rent Beach, Johnnie Edwards, Kitty Mae Garner, Cleo Lollar, Marie St. Clair, Kimmie Lee Pearce.

Messrs Woodrow Barber, Wayne Clayton, Earl Howard, Thornton Musik, Melvin Moore, A. C. McKey, Roy Smith, Parks Singleton, Russell Foster, Lawrence Tredway, Joe Earl Wilson, Herman Whitehead, Cubie Bray, Oliver Hancock, Wilfred Gates, Bennie Moore, Arthur Singleton and Howard Scott.

Immediately after the refreshments everyone went parading and serenad- ing. But all good times have to come

to a close, so each guest departed as- suring the hostess of a wonderful time.

TENNIS CLUB ORGANIZED

On Friday the Tennis club of the O'Donnell High School was organized. There were fourteen charter mem- bers. The following officers were elected:

President—Ralph Beach. Eula Bell Miles—Secretary-Treas. Wilbur Lines—Vice-President. A committee was appointed to formulate the constitution and by- laws of the club.

This is to be one of the pepiest clubs in the school. There is one principal aim for the club, to win all the tennis in the interscholastic meet.

Good storage facilities throughout the fall and winter are necessary to

insure sound, firm seed potatoes at planting time. The main thing is to keep the storage temperature low enough to retard germination. Seed tubers that are firm, with the sprouts just showing, will start quickly when planted and make a vigorous growth under favorable conditions following planting.

If yearling birds in the poultry flock are to be used as breeders next spring, it is a good plan to omit the mash or the meat scraps and fish meal from their ration for from 3 to 4 weeks in the fall, beginning about November 1. This gives the birds a rest, and if they are then fed a breed- ing ration they should produce hatch- ing eggs of the highest quality.

The earliest snow recorded in Tex- as fell in the Upper Panhandle on October 14, 1909. North Texas has

never had snow earlier than Nov. 20.

The most traveled highway in Texas is that between Fort Worth and Dallas. A recent count showed 6,570 vehicles pass over it daily.

Elzie Davis, son of Owen Davis broke his arm Sunday while crank- ing a car.

Important to BUYERS OF NEW CARS

FROM time to time General Motors has devoted its messages in this paper to giving facts which help the car-buyer get full value for his automobile dollar. In keeping with that policy of frankness, this message gives facts about the prices of new cars which every one should know.

Consider the delivered price as well as the list (f.o.b.) price when comparing automobile values. General Motors dealers' delivered prices include only authorized charges for freight and delivery, and the charge for any additional accessories that may be desired.

(NAME OF CAR)	(LIST PRICE)
(Retail Price)	(Base Price)
LIST PRICE (F.O.B.)	\$ 222.00
FREIGHT and DELIVERY	22.00
DELIVERED PRICE	\$ 244.00
ACCESSORIES (Not included in the List Price)	00.00
TOTAL DELIVERED PRICE	\$ 244.00

These prices are for each. Packages may be licensed on convenient monthly payments if desired.

Cold Weather

Will soon be here and you will need stoves and supplies to keep the home warm.

We handle the Peerless gas heaters, Allen's Circulating Heaters, also all kinds of other supplies.

See us for your winter supplies.

WHEN you buy a new automobile, it is the delivered price that you actually pay. The delivered price consists of the list price of the car—the f. o. b. price advertised by the manufacturers—plus certain other charges which the dealer makes. You should know exactly what those charges are and what each one is for. There is no mystery about the charges added by General Motors dealers. They have adopted this standard price tag, which tells you everything. Nothing is hidden. There is no extra charge to permit a seemingly better trade-in offer. No extra charge to cover advertising or any other item. You know exactly what makes up the difference between

the list price and the delivered price. Each charge made by the dealer is fair and reasonable. Use this tag for reference. Make it your guide in comparing automobile values. For the delivered price is the price you really pay. Below is given the range of list prices for each General Motors car. They are just as low as General Motors' vast production, centralized purchasing and reasonable profit per car can make them. General Motors dealers maintain this value in their delivered prices of these cars and show you every item on the standard price tag. Look over the General Motors line. Then clip the coupon.

- "A car for every purse and purpose"
- CHEVROLET \$515—\$695. A six in the price range of the four 7 models.
 - PONTIAC \$745—\$895. "Big six" luxury at low cost. 7 models.
 - OLDSMOBILE \$875—\$1035. The Fine Car at Low Price. 6 cylinders. 8 models.
 - MARQUETTE \$965—\$1035. Buick's fine new companion car. 6 models.
 - OAKLAND \$1145—\$1375. The All American six. 9 models.

- VIKING \$1195. General Motors' new "eight" at medium price. 3 models.
 - BUICK \$1135—\$1395. The greatest Buick of them all. 14 models.
 - LASALLE \$1295—\$1875. Companion car to Cadillac. 14 models.
 - CADILLAC \$2195—\$7000. The Standard of the World. 16 models.
- (Base prices—f. o. b. factories)

ALSO

- FRIGIDAIRE Automatic Refrigerator. New silent models with cycle-control device. TV-cases. Price and model range to suit every family.
- DELCO-LIGHT Electric Plants and Water Systems. Provide all electrical conveniences and labor-saving devices for the farm.

W. O. W. Has Great Faith In Future of Texas

Here are \$80,000,000 in bonds being handled by employees of the Woodmen of the World, A. Fraser, Sovereign Commander, is standing with sheet of bonds in his hands. \$24,219,226 of these bonds represent Texas investments. The employees are clipping the semi-annual dividend coupons.

WHAT the Woodmen of the World Life Insurance Association has faith in Lynn County is evidenced by the fact that W. O. W. has \$232,000.00 invested in municipal bonds of this county, according to a statement today by W. A. Fraser, Sovereign Commander of the Woodmen of the World and President of the Globe Life Insurance Company.

"The Woodmen of the World has great faith in the future of this state," said Mr. Fraser.

Sovereign Commander Fraser also announced that the Woodmen of the World Life Insurance Association now has \$24,242,192.26 invested in municipal bonds in the state of Texas.

"Our funds are used to help the development of the various parts of the United States where Woodmen of the World members are located," said Mr. Fraser. "We are glad in having the opportunity to aid the various counties and states in building roads, school houses, court houses, street improvements and other municipal enterprises."

"Not enough people in America realize the importance of modern up-to-date school houses and modern methods of education. Sanitary and modern school houses tend toward making both teachers

and school pupils more contented and, therefore, more efficient, good school houses with their sanitary conveniences, proper lighting and ventilation enable school teachers to do better work, and nothing is more important than the education of our children—the future citizens of tomorrow."

Mr. Fraser said the factors entering into security of their investments are based foremost on the community's financial responsibility, both present and potential. But in addition, however, he said the Investment Committee was also guided by good faith and confidence in the municipality issuing such bonds.

"Great assurance of good faith is given to the Committee in the simple statement that American Municipalities of any importance do not default in the principal or interest of any of their obligations," said Mr. Fraser.

During the twenty-seven years existence of W. O. W., the association has been very careful in the disposition of its funds for investments. The company now has \$85,000,000 invested in municipal bonds. During its twenty-seven years, W. O. W. has handled more than \$120,000,000 of investments without losing a cent of principal or interest.

FIFTH GRADE NEWS

Our room looks much better since we have a new book case and a new screen. This week we have covered our screen with Good English Posters.

Our Room mother visited us last Wednesday. After we had rendered a program we presented her with a large Jack O' Lantern filled with fruit and candy. After this she read us a chapter in a "Girl's Scout Book."

We hope she will come again soon and read some more to us. Our teacher Miss Roxie and Miss Gates entertained their rooms with a Hallo-

ween party last Friday. Roxie Hancock's home, a wonderful time and she will invite us to her home.

Watch for the dates of the ONE CENT SALE at Corner Drug Store.

Mr. Travis Fournell spent last Sunday in O'Donnell visiting relatives and friends.

Mrs. Bertie Wright, law, Edward Wright, Mrs. Charlie Shook of last week-end here with relatives and friends.
