

Sells Cafe Here

Last week O. L. McClendon sold his managing interest in the goldfish cafe, owned by W. R. Gibson, to Mrs. Smith, formerly manager of the Palm Garden Cafe. Mr. McClendon ran the cafe for approximately 8 years; he said he had no plans at present other than to rest. He was a popular business man here during the period in which he was in business.

Mrs. R. T. Rains was in a Lamesa hospital a few days last week. Mrs. Tom Brewer is going thru a Lubbock hospital's clinic.

Silver Tea Is Enjoyed

Mrs. Douglas Ballew reviewed "First The Blade" when the Martha Class of the O'Donnell First Baptist Church entertained a Silver Tea Thursday. Proceeds from the tea amounted to \$61 and will be used for the church's library.

The speaker was introduced by Mrs. Bill Davis, class president. Music was given by Miss Ruth Jones, Mrs. C. A. Doss and Mrs. Carr Spraberry.

Mrs. Greenlee served at the punch bowl and members of the class seated the guests. Little Miss Jones played several piano numbers.

The class treasury now has \$104 and the fund is aimed at \$200. The library will be for the general use of the public and will consist of religious literature and general literature.

Mrs. Barnes of Lamesa presented the library with a book titled "History of the Baptist Church".

An arrangement of blue larkspur centered the tea table which was laid with a yellow cloth. Larkspur also decorated the party room.

Among the out of town guests were two ladies from Lamesa, Mrs. D. J. Bolch and Mrs. A. J. Barnes.

EDD PAYNE INJURED

W. E. Payne of Soaravay suffered a broken hip Thursday when he fell from a scaffold while painting a house.

Mother Daughter Banquet Held

Members of the Woman's Society of Christian Service met in Fellowship Hall at the First Methodist Church Tuesday night with the daughters or "adopted" daughters as guests for the evening in a Mother-Daughter banquet.

The hall was decorated in spring flowers. A three course meal was served to 75.

Mrs. Naymon Everett presided in her usual gracious manner in introducing two out of town speakers, Mrs. J. M. Harper and Mrs. Hal Spencer, both of Lubbock.

Mrs. Harper, who is promotional secretary for the Lubbock District, was the main speaker and since a number of the young women had expressed a desire to organize a "Young Matrons' Circle", she explained how this should be brought about. Mrs. Spencer spoke briefly of her experience at Pearl Harbor, having been there at the time of the Japanese attack.

Two songs, by a group of the church's girls, were enjoyed. Miss Virginia Sanders accompanied the group at the piano.

"The End of a Perfect Day" was sung by Mrs. Wayne Clayton accompanied by Mrs. Gibbs at the piano. Talks were made by several of the mothers and daughters.

A skit put on by four of the church's ladies showed local talent. The group was dismissed with a prayer by Mrs. Longino.

Mrs. Ella McLaurin gave the invocation.

Mr. and Mrs. H. H. Outhouse of Bortles, N. M. spent the week end here.

Bob Clark left Saturday morning for Amarillo enroute to a station for probable shipment overseas in Pacific area.

For rent 3 room and bath, modern thruout, large lot, shade trees, 115 E. 6th; L. D. Spradling, 412 S. 2nd, Brownfield; Ph. 186-J.

Chas. Baker spent several days in a Lamesa hospital; Mr. and Mrs. Baker left for their home in San Antonio Friday.

John Burk and daughter of Roby, Mrs. Emma Phelan of Smyer are visiting the Burk relatives here over the week end. Mrs. Burk and Mrs. Bart Burk, Mr. and Mrs. Naymon Everett, and Nancy and Mr. and Mrs. S. F. Johnson and boys attended the family reunion at Roby over the week end.

Mr. and Mrs. Geo. L. Stephens, Jr. and family of Presidio visited his parents Mr. and Mrs. Geo. R. Stephens last week.

Mrs. Lee Christopher and baby visited Mr. and Mrs. Jim Christopher here over week end.

Mr. and Mrs. J. R. Edwards and daughter returned after a fishing trip to Possum Kingdom.

Mrs. Ballew Heads '46 Club

Officers were installed when the 1946 Study Club met Wednesday in the home of Mrs. Carr Spraberry.

The officers are: Mrs. Douglas Ballew, president; Mrs. R. E. Hargis, vice-president; Mrs. E. Burl Koeninger, recording secretary; Mrs. James Crumley, corresponding secretary; Mrs. Roy F. Smith, treasurer; Mrs. Spraberry librarian and Mrs. L. G. Schuessler, parliamentarian.

Mrs. Schuessler, retiring president, led the meeting which included a discussion of next year's program.

Refreshments of sandwiches, cookies and cake were served to Mesdames James Clayton, Jessie Clayton, James Crumley, R. E. Hargis, Pearl Clayton, Douglas Ballew, Bernice Hodnett, L. G. Schuessler, Roy F. Smith, Carr Spraberry and Annette Sumrow.

Folks You Know

Mrs. Ora Mize visited at Sweetwater over the week end and her granddaughter returned home with her for a visit.

Mr. and Mrs. Chance Mansell attended the dedication services Sunday of the new Bethel Baptist Church.

Mr. and Mrs. W. D. Reese and family spent week end guests of Mr. and Mrs. Hershell Davis at Carlsbad.

Billy Carlisle of Ft. Sill, Okla. spent week end with his parents.

Mr. and Mrs. Joe Carlisle spent Sunday with Mr. and Mrs. L. D. Evans.

Mrs. J. R. Pierce spent week end at Amarillo visiting relatives.

Mr. and Mrs. O. C. Mensch and Mr. and Mrs. Irlin Mensch of Lamesa spent Sunday with Mr. and Mrs. Reed Yandell.

Mr. and Mrs. W. E. Vermillion and daughter spent Thursday and Friday of last week with relatives in Amarillo.

Mr. and Mrs. J. A. Havens of Quanah spent the week end with her parents Mr. and Mrs. Tom Vandell.

Rev. and Mrs. John Johns and son visited her parents at Tulsa Sunday afternoon.

Mrs. Tommy Thasard of Midland visited her parents, Mr. and Mrs. Ed Goddard here last week.

Mr. and Mrs. Bill Hays and children of Ballinger spent the week end with her parents Mr. and Mrs. Roy D. Smith.

Mr. and Mrs. Garland Mansell and children of Artesia are spending his vacation here with his parents Mr. and Mrs. P. A. Mansell and other relatives.

Mr. and Mrs. Harvey Jordan and sons, Mr. and Mrs. C. N. Hoffman and daughter, Mr. and Mrs. L. E. Robinson and others are fishing at Possum Kingdom this week.

Mr. and Mrs. C. L. Tomlinson visited Mr. and Mrs. R. P. Tolinson at Post Sunday.

Mrs. R. E. Hardberger and children of Oklahoma are visiting her mother, Mrs. Willie Smylie.

Mrs. Otis Putman and daughter of Stamford spent the week end with Mrs. Lou Putman and Mrs. Effie Bazar.

Bob and Nelson Mahurin are fishing this week.

Bob Cannon of Andrews is visiting Mr. and Mrs. Lester Parker and other relatives.

Joann and Charles Snell visited in Patricia last week.

Richard Maxwell is spending his summer vacation at home. He is a student at W. T. S. T. C.

Mrs. Johnny Jewett and children of El Paso and Mrs. Dutch Tofoya of Truth or Consequences, N. M. are visiting Mr. and Mrs. J. T. Middleton, Sr.

Mr. and Mrs. W. O. DeBusk visited his mother and family at Mineral Wells for week end.

Shag Garrett and J. T. Middleton, Jr. are at Mr. Middleton's ranch in New Mexico to drill a water well.

Glenn Allen and his mother of Big Spring visited in Terrell and Kaufman last week.

Paving Routes Are Listed

50 Blocks Are Set For Paving

On page 7 of this edition is a detailed list of streets which are being scheduled for paving beginning in July. There are scheduled approximately 50 blocks of paving at about \$1500 per block or \$2.15 per abutting front foot. As in the past the city will pay for inter sections and alleys. Kerr and Midleton have been awarded the contract.

City Secretary Tom Brewer said that there would be provisions for paying the paving costs over a period of two years with a third paid in cash when the City accepts the paving. The paving firm will carry the paper.

Hearings Set For June 14th

At 8 p. m. June 14th at the City Tax office, the Council will hear protests, suggestions and other details of the paving program from the property owners.

Mr. Brewer said there was still time to add more blocks to the paving schedule provided individuals living in an area are more or less agreed on paving. He said that the City is merely acting as your representative in paving plans and the final decision to pave or not to pave an area lies with the property owners.

New Coat For Old Paving

At the time of the new paving, all of the old paving will be shot with an additional coat of asphalt and crushed rock giving added protection to the existing paving. The City will meet all of this cost.

Mr. and Mrs. Blanton McLaurin of Pavilion, W. Va. have a new daughter. Grandparents are Mr. and Mrs. Joe McLaurin of Huddock and Mr. and Mrs. R. G. Grogan of Wells.

Mr. and Mrs. Robert Isaacs visited in Anson last week.

Sunday visitors of Mr. and Mrs. J. J. Hodnett were Mr. and Mrs. Fred Robinson and Mr. and Mrs. William Robinson and children of Post and Mr. and Mrs. Truett Hodnett.

Mrs. W. H. Harris visited Mr. and Mrs. J. J. Hodnett Saturday.

Mrs. John Nichols of Crowell is visiting her mother Mr. and Mrs. W. D. Stubblefield.

Mr. and Mrs. H. Y. Conrad and Ervin visited at Odessa Sunday.

Elmer and Francis of Tahoka spent Monday with the Conrad family.

The 1939 Study Club will meet Friday night June 8th for a chicken barbecue on the lawn at the home of Mrs. Bill Davis with Mrs. H. C. Warren as co-hostess. This will be the last meeting of the club until September. The members will bring their husbands or escorts.

Mr. and Mrs. Ardell Ellis are in Temple visiting his brother in law Jim Wagner who is in Scott and White hospital ill.

Mr. and Mrs. Oscar Jones and family of Ft. Worth visited his brother and family Mr. and Mrs. F. M. Jones over week end.

Mr. and Mrs. Ellis Hale and son of Lamesa visited Mr. and Mrs. Norman Shaw Sunday.

The Lynn Co. Sheriff Posse won 2nd place at Post Rodeo last week.

Mr. and Mrs. M. L. McLaurin and Miss Joyce Hilton of Peecos visited relatives here over the week end.

Mr. and Mrs. J. G. Schooler of Goldthwaite visited Mr. and Mrs. Joe Schooler over week end.

Mr. and Mrs. Joe Schooler have returned from Jackson, Miss after visiting relatives and fishing.

Mr. and Mrs. Roy "Hoot" Gibson have moved to their ranch home near Denver City.

Mr. and Mrs. R. C. Vaughn and Mr. and Mrs. H. C. Vaughn and children spent Sunday in Snyder visiting relatives.

Mr. and Mrs. W. O. DeBusk visited his mother and family at Mineral Wells for week end.

Mr. and Mrs. Guy Bradley visited her mother at Plainview Sunday.

Mrs. James Wiese and children and Mr. and Mrs. Mack C. Bradley visited here Saturday.

Dee Reese Will Be New Deputy Sheriff June 1st

Bairrington Is Co-op Mgr. At Wells

Effective June 1st Deputy Sheriff Clevie Bairrington will resign as O'Donnell's deputy to accept a position as manager of the Wells Farmer Co-op gin. Sheriff Slick Clem announced this week that he had appointed W. D. Reese of here as the new deputy to fill the vacancy.

Mr. Bairrington has been a deputy in Lynn County for five years serving under former Sheriff Sam Floyd and the present sheriff, Mr. Clem. He has been deputy here for about three years during which tenure he has made a splendid record reflecting credit on O'Donnell, his county and his immediate superiors.

Mr. Reese is local manager of the Star State G.ain Co. of San Angelo. He has been a resident here for more than a year and prior to that spent the fall here for several years as agent for that firm. Dee spent two years as a radio announcer at San Angelo, having an early morning program similar to Uncle Jay's program at Amarillo.

Mr. Reese is an officer of some 6 or 7 years experience having served as a San Angelo peace officer and as a rail road investigator.

Sheriff Clem of Tahoka was in town Monday and advised the Index that he wished to express his personal appreciation for the capable administration of his deputy, Mr. Bairrington.

New Grade School Bldg. May Start By July 1st

Supt. S. F. Johnson said this week that he expected the \$250,000 school bond issue to be sold this week. June is expected to be a busy month for the School Board as the group must buy a building site, probably the block west of the bus barn, and advertise for construction bidders. Fletcher said that he looked for construction to begin by July 1st and the completion date will be late winter.

CHURCHES ARE HOLDING BIBLE SCHOOLS

The annual daily vacation Bible School is in progress this week at the Methodist church each morning from 8:30 to 11:30.

Friday afternoon a parade will open the Baptist Vacation Bible school which will continue all of next week.

Mr. and Mrs. B. L. Davis and father and Mr. and Mrs. Bob Davis of Olney spent the week end with Mr. and Mrs. Homer Davis at Mesquite.

Mr. and Mrs. F. T. Carson of Washington D. C. Mrs. Pearl Young of New York City and Mr. and Mrs. Bryan Nance of Sanger visited Mr. and Mrs. J. E. Nance last week.

Mrs. Nora Gross of Andrews is visiting Mrs. J. W. Riggs and Lilly Reynolds.

Mr. and Mrs. Hal Singleton 3rd visited in Lubbock Sunday.

Mr. and Mrs. Glenn Gibson and children and Mrs. Vaughn Gibson visited in Roaring Springs over week end.

Ray Adams of Gatesville is visiting his aunt and uncle Mr. and Mrs. W. E. Holcomb.

Mrs. Doyle Holley and son and Mrs. Rathel of Lamesa are visiting Mr. and Mrs. Roy F. Smith.

Dickie Marie Harris is visiting in Ballinger and San Angelo.

Mr. and Mrs. Guy Thompson of Crosbyton visited his mother Mrs. C. F. Thompson, Sr. over the week end.

Mr. and Mrs. DuWood Seely visited at Buffalo Lake Sunday.

Mr. and Mrs. Cliff Lambert spent Sunday at Big Spring.

Mr. and Mrs. Melvin Pearce and boys of Hobbs visited his parents Mr. and Mrs. Marcus Pearce Sunday.

Mr. and Mrs. Tom Landers visited their children at Anton, Hale Center and Lubbock Sunday.

Sam Singleton Jr. will leave next Monday for summer school at the University of Texas.

Masons Elect Officers

At a stated meeting Thursday night the following officers were elected for the new year: a square W. M.: Lloyd Shoemaker S. W.: Ross Smith J. W.: W. E. Hufflines Treasurer: Chas. Wells Secretary: C. A. Doss The new officers will be installed June 28th.

The Country Editor

WET, ISN'T IT? An inch of rain may not sound like much but actually it means that 113 tons of water have fallen on an acre of ground or 12,000 tons to a square mile. A 10 in. snow will do the same thing. It is estimated that rain and snow in the amount of 16 million tons per SECOND falls on the entire earth's surface - but not at O'Donnell.

IN TUNE. Thru a quirk of nature there are some people whose bodies act as perfect radio AERIALS. There is one case we know of at Dime Box of a man whose entire BODY shakes so violently whenever a radio is played near him that a special CANE had to be built with various condensers for tuning out the pet programs. Antone finally divorced his wife for playing soap operas while he was trying to shave and that ain't much of a lie, either!

Here we know of a business man who can hardly drive a car because of static electricity.

In a "quickie" survey recently, we counted 47 vacant dwellings here. When we landed here in the fall of '44 there was not even a vacant room in town.

We do not suggest that O'Donnell is overbuilt but we rather believe that a combination of circumstances are causing a recession that has been unknown here since the beginning of the 1940's.

One factor is that just gobs of families have moved to centers of national defense where wages are above the normal hereabout. We can think of several families ourselves who have moved.

Another factor is the uncertainty of the current crop year which is far from being satisfactory due to scant rainfall. Some of our population has moved to find farm work or moved to irrigated farms.

Another trend is the consolidation of farm units into large scale farming. Profits of the 40's by farmers have been plowed back into more land; and to a degree tenants are being replaced by day laborers. This is a national trend as the Census shows a sharp drop in rural population.

Another trend is the fact that neighboring towns are overgrowing in business firms for their decreasing rural population and are reaching into the O'Donnell area for business. Most business men here will tell you this is true.

O'Donnell is in the position of being flanked from the east to the south to the west by budding oil fields. But today there is not one drilling crew living here because of a combination of reasons:

1. Too small a town; not enough bright lights (they mean entertainment).

2. No tourist courts which oil workers prefer as they like to live in colonies. Oil folks are positively not interested in unfinished houses or apartments.

3. Drilling crews live together. While the tool pusher lives there where they live.

We are from blue in looking at our town for future growth, prosperity and happiness. There is nothing wrong but what a good rain would vanish but even with returning boom times some of the above factors will still be operating.

But it will do no harm for us to indulge in a wee bit of self analysis. How can we, as a newspaper, aid our town. How can you as a business man better our town. O'Donnell has many assets and a few liabilities. There are a few of the liabilities beyond our control; others which we can lick.

One factor we CAN better is UNITY, or call it loyalty, which is not up to par with some neighboring towns. We saw one revived Chamber of Commerce die here. But Unity! It costs nothing because it's a state of mind. Growing towns must first have a town spirit like a team spirit.

Mr. and Mrs. Roy D. Smith had as their guests Sunday for a fish fry their children: Mr. and Mrs. Dick Harris and daughter, Mr. and Mrs. Roy F. Smith and son, Ross Smith, and Mr. and Mrs. Bill Hays and children of Ballinger; Bill caught the fish on his ranch and brought them over.

Stores Close 30th

The majority of O'Donnell firms are taking Wednesday, May 30th Memorial Day as a holiday instead of Armistice Day which comes in the fall during the peak business rush.

Harmony News

Mrs. B. B. Foreman was hostess to the Harmony Good Neighbor Club recently with 11 members and 2 guests present. The gift box for Girls Town is growing rapidly.

Post Bumpers

To prevent bruise injuries to cows inside dairy loafing barn, a number of dairymen have suspended cut tires at hip level with three pieces of rope.

Homemakers Are Advised To Freeze, Can Surpluses

In order to insure enough food for any emergency the government is asking homemakers to preserve more food. Since large numbers of homemakers have no access to garden plots, a feature of this year's program will be to encourage the canning and freezing of seasonal surpluses. By following this program homemakers will supplement their larder and augment the over-all supply.

Benjamin Franklin was the first American ambassador to France.

Comanche, a horse, was the only survivor of Custer's massacre.

The Baltimore and Ohio was the first railroad in the United States.

James Buchanan was the only bachelor to become president of the United States.

The American Submarine was first used during the American Revolution.

Legume in Wheat Need Plenty of Fertilizer Alfalfa, Sweet Clover Replenish Organic Matter

Seeding legumes in wheat is like inviting company home to Sunday dinner. You have to provide plenty of food so everybody gets enough to eat.

H. R. Lathrop, Purdue University extension agronomist, says the way to feed legume-wheat seedings is to add a complete, balanced fertilizer at fall seeding time and then

Balanced fertilizer applied at fall seeding time and top-dressing with nitrogen in the spring will produce higher yields of both.

top-dress with nitrogen in the spring. Then you'll provide all the nutrients needed by both the wheat and the legumes.

When legumes and small grains are well fed, you not only get higher yields of both, but you build up your soil as well. Alfalfa and sweet clover replenish rundown stocks of organic matter. They put mineralized humus deep down in the subsoil, unlock heavily compacted clay soils and improve drainage and tilth.

HOUSEHOLD MEMOS by Lynn Chambers

Luncheons of Distinction May Be Prepared Easily Around Seasonal Foods

WHEN YOU'RE entertaining, the foods need not be elaborate to make a big hit. If they're well-prepared and attractively served, you may be certain to create the right impression.

Using seasonal foods and taking full advantage of their freshness and color will lend a distinction and elegance which is hard to achieve when you work with out-of-season produce.

Fresh summer greens, pink and red, with a gay touch of yellow are now at their height, and they can be brought to the table at their best. Plan your special luncheons around foods which feature these colors and you'll receive compliments galore on even the simplest fare.

FOR EXAMPLE, sandwiches of the double-decker type teamed with an attractive salad of pineapple and cherries and a Pineapple Torte gives you color and tasty foods at the same time.

Double-Decker Sandwiches (Serves 8)
 2 hard-cooked eggs
 1 tablespoon pickle relish
 1-2 tablespoons mayonnaise
 Salt and pepper
 24 slices bread, crusts removed
 8 slices ham
 8 lettuce leaves
 8 slices tomato
 16 stuffed olives
 8 radishes

Combine eggs, relish and mayonnaise; season with salt and pepper. Spread 8 slices buttered bread and top each with a second slice of bread, buttered on both sides. Place slice of ham and lettuce leaf on each. Top with a third slice of bread buttered on one side. Garnish with tomato slice, stuffed olive and radish rose.

***Pineapple Cherry Salad** (Serves 8)
 2 packages lime-flavored gelatin
 1 cup boiling water
 1 pint soured cream
 1/2 teaspoon salt
 1 No. 2 can crushed pineapple
 3/4 cup dark, pitted cherries
 1/2 cup slivered blanched almonds
 Salad Greens
 Mayonnaise

Dissolve gelatin in boiling water. Cool. When mixture is slightly thickened, fold in soured cream, salt, pineapple, cherries and almonds. Turn into individual molds and chill until firm. Unmold on crisp greens and garnish with mayonnaise.

***Peach Shortcake** (Serves 8)
 2 cups cake flour
 1/2 teaspoon salt
 3 teaspoons baking powder
 1/2 teaspoon soda
 1/4 cup sugar
 3/4 cup shortening
 1 cup buttermilk or sour milk
 3 cups sliced, fresh peaches
 1/4 to 1/2 cup sugar
 1 teaspoon cinnamon

Sift flour with salt, baking powder, soda and 1/4 cup sugar. Cut in shortening until mixture resembles

chunks of lobster combined with celery and cucumber are combined with chicken-flavored gelatin to make a cool but substantial salad for an elegant hot weather luncheon. To serve, the salad is laced with mayonnaise, greens and hard-cooked eggs.

LYNN SAYS:
How to Select Fruit For Table Use
 Fresh figs are best when they're soft to the touch and vary as to size. Avoid those which are molded or decayed on the surface. Plump, over-ripe figs have a sour odor which is caused by fermentation. Pineapple is abundant now and can be eaten if soft to touch, golden yellow in color and fragrant. To test for ripeness, you may also pull a leaf or spear from the top. If it pulls readily, the pineapple is ripe.

Pear Sundae with Chocolate-Mint sauce is a flavor innovation which is bound to please the most discriminating taste. This type of dessert satisfies several types of tastes for dessert since it includes fruit, ice cream and sauce.

LYNN CHAMBERS' MENU

 *Peach Shortcake Beverage
 *Recipe Given

coarse crumbs. Add buttermilk. Mix just until dough follows fork around the bowl. Pat out in greased 9-inch round pan. Bake in a hot (425°) oven for 20 minutes. Split hot shortcake. Fill and top with sliced peaches and sprinkle with remaining sugar and cinnamon. Serve with cream, plain or whipped. Note: To sour milk, add 1 tablespoon lemon juice or vinegar to 1/2 cup sweet milk.

ANOTHER DISTINCTIVE luncheon features hot soup with a chilly salad of lobster. It ends on a pleasant note with a Pear Sundae served with Chocolate-Mint Sauce.

***Clam Mongole** (Serves 8)
 1 can condensed pea soup
 1 can condensed tomato soup
 1 can condensed cream of mushroom soup
 1 can minced clams
 2 cups light cream
 Parsley

Combine soups, minced clams and cream. Heat thoroughly and simmer for 5 minutes. Serve immediately with 3 small sprigs of parsley.

Lobster Salad (Serves 6-8)
 2 cans rock lobster
 1 1/2 cups chopped cucumber
 1 cup chopped celery
 1/4 cup French dressing
 2 packages unflavored gelatin
 1/2 cup cold water
 3 chicken bouillon cubes
 3 cups boiling water
 2 tablespoons chopped pimiento
 1 teaspoon grated onion
 1 teaspoon salt
 Mayonnaise

Cut lobster in chunks; combine with cucumber and celery. Pour French dressing over this mixture and allow to stand while preparing the remainder of the salad. Soak gelatin in cold water for 5 minutes. Dissolve bouillon cubes in boiling water and add to gelatin. Allow to set, add pimiento, onion and salt to lobster mixture. Pour into ring mold which has been rinsed with cold water. Set in refrigerator until firm. To serve, unmold on a bed of lettuce and fill center with mayonnaise. Garnish with hard-cooked eggs, sliced or quartered, and parsley.

IF YOU PREFER a plain salad, you'll like this type which is just a bit simpler:
Lobster-Caper Salad (Serves 6)
 2 6-ounce cans lobster
 1 cup thinly sliced celery
 2-3 tablespoons French dressing
 Salt and pepper
 1/4 cup mayonnaise
 Capers

Combine lobster meat and celery and French dressing. Season to taste with salt and pepper. Chill and drain. Serve topped with mayonnaise and capers. Garnish with lime or lemon wedges, ripe olives and deviled eggs.

Watermelon should have a symmetrical shape and a fresh attractive exterior. A ripe melon scratches easily on the skin with a nail and thumps with a dull hollow sound. Honeydew melons are best when the blossom end is slightly soft, the flesh green, juicy and sweet. You'll also be able to tell ripeness by the aroma.

Strawberries are the only berries which keep their caps when ripe. For the best selection, choose those which are medium-sized, tart and well-shaped.

FIRST AID to the AILING HOUSE by Roger C. Whitman

SEDIMENT IN WATER SUPPLY
 Question: Can you tell me what's wrong with a pump or well that pumps fine white sand and after water has stood in pails, the side of the pail turns red like rust? We bought a little home and have a swamp near the pump. What can we do to correct this? My clothes show color from the rust or iron. Our pump is 90 feet deep and has iron pipe.

Answer: The white sand undoubtedly is in the water supply, but the rust is more probably either in the iron pipe or the pump. If you do not wish to take the pump to pieces to find out, I believe the simplest thing to do would be to have a rust removal unit installed. This may or may not take out the sand that seems to be in suspension in the water. Strictly speaking, a filter would have to be put in also to filter out the sand. For the names of these units inquire of the Architects Samples exhibit, 101 Park Ave., New York 17

DECORATING BASEMENT
 Question: We are planning to decorate our basement. Would it be advisable to apply a coat of aluminum as a sealer before applying basement paint? What is the best paint to use for the basement?

Answer: For the masonry parts apply a cement base paint without any other base. It must go on a clean unfinished surface. Ordinary oil paint is not used on masonry walls which are apt to be damp. The cement paint is sold by dealers in masonry supplies and building materials; it comes as a powder to mix with water. For the wood parts use two coats enamel undercoater and a coat of enamel. Use only a rubber base floor paint for the cellar floors or asphalt tile.

MUSTY SMELL UNDER HOUSE
 Question: Part of my basement isn't dug out. There is about two feet of clearance in this part, with practically no air circulation. There is a bad musty smell

from this part of the basement, especially in damp weather, and I was wondering if there were anything I could use to eliminate this bad odor.

Answer: Try to provide more ventilation under the house, and in addition, if you can manage to crawl underneath, you could sprinkle the ground with chloride of lime. Cover your face with a gas mask while working to protect yourself from inhaling the stuff. If the space is too cramped for you to work in there, the only alternative would be to locate someone with an agricultural spraying machine.

EASY! No skill required. Handles like putty... and hardens into wood.

HADACOL HELPS MEN, WOMEN AND CHILDREN

Suffering Stomach Distress, Aches and Pains, Weak, Run-down Conditions and Nervousness When Due To Deficiencies of Vitamins B1, B2, Niacin and Iron

Mrs. Anna Lavergne, Church Point, Louisiana: "You don't know how wonderful it feels to be in such good condition—after feeling run-down. I had a very poor appetite—in fact, food didn't agree with me at all. I had a hard time sleeping nights... sometimes I would stay awake until one or two in the morning and then the next day I would feel tired and groggy all day long. You have no idea how terrible I felt. Now all this is gone... yes, now that I have been taking HADACOL, I feel wonderful. I get lots of good, sound sleep, have a fine appetite and just lots of energy. I can eat any kind of food now and it doesn't bother me a bit. I just can't begin to thank HADACOL."

F. W. Horton, 108 74th Ave., Houston, Texas: says about his little son: "Lee was very weak and run-down and just didn't want to eat at all. We heard about HADACOL and decided that was what Lee needed. After he started taking HADACOL his appetite picked up right away. He started gaining weight and eats real well now, and has been feeling real good. HADACOL has helped many children suffering weak, run-down conditions when due to deficiencies of Vitamins B, B, Niacin and Iron. If your child is puny and run-down due to such deficiencies, HADACOL can help. HADACOL is recommended by many doctors."

Richard Krabill, 3118 Marfield Road, Toledo 14, Ohio: "I am an apprentice pharmacist and I go to the University of Toledo. Going to school and working until 9:30 gets pretty tiresome. I was getting tired and run-down keeping pace with all I had to do. Being married and having a family, I am compelled to work after school. I work in a pharmacy here in Toledo. After selling HADACOL here in the store, I decided I'd try it. You have no idea how much it has helped me up. I'm telling you truthfully, HADACOL is the answer to all my tiredness. Already I have won customers on HADACOL. I am 31 and a veteran of World War II."

HADACOL CAN HELP YOU...

... if your system lacks these essential elements, you will be amazed at the wonderful results HADACOL can bring you, as it has to thousands of other fine folks who suffered a deficiency of Vitamins B, B, Niacin and Iron, which HADACOL supplies. HADACOL is that wonderful new preparation—promising blessed relief for your indigestion, stomach disturbances, (gas, heartburn, sour "risings" after meals), as well as that general run-down condition, and annoying aches and pains, if due to a lack of Vitamins B, B, Iron and Niacin in your system.

Don't go through life suffering with conditions caused by such deficiencies when relief may be as close at hand as the nearest drugstore for sufferers from these deficiencies. Buy HADACOL today. Trial size bottle only \$1.25. Large family economy size, \$3.50. Refuse substitutes. There's only one true and genuine HADACOL. Sold on a strict money-back guarantee—you'll feel great after the first few bottles you take or your money will be refunded. If your dealer does not sell HADACOL order direct from The LeBlanc Corporation, Lafayette, Louisiana.

This said that the proposed H Bomb is more potent than any yet conceived. The reason is that it is an A Bomb dipped in Hadaol.

Wilbur Shaw thinks so much of this new Chrysler, he has selected it as Pace Car for the 1951 Indianapolis 500-mile race.

WILBUR SHAW, AMERICA'S MOST FAMOUS DRIVER, DRIVES NEW 1951 CHRYSLER—REPORTS TO YOU ON REVOLUTIONARY FIREPOWER ENGINE AND HYDRAGUIDE POWER STEERING

Here are Wilbur Shaw's reactions—in his own words—as taken down by a recording machine in the car:

"The '51 Chrysler has it! With this new engine and power steering, the first on any U.S. car, it's a whale of an automobile.

"I'm completely bowled over by the ease of steering!

"This steering combined with the automatic trans-

mission . . . is the nearest thing to an automatic pilot for a car I can possibly imagine.

"This engine . . . I can't get over the amount of power and snap in this engine . . . it's incredible!

"I drove 111 miles with the feeling I had expended no more effort than in driving around the block.

"When Mrs. Shaw drove, her comments just about squared with mine. Here's what she thinks of the 1951 Chrysler . . ."

Mrs. Shaw: "At first I could hardly believe the ease with which I could turn the wheel. That's important . . . especially in the summertime.

"Often after I have parked a car in the average parking space, I feel I should taxi home, shower and get dressed again. But with Hydraguide Power Steering I parked it with one hand. It practically drives itself."

Wilbur Shaw: "It's hard to describe this new Chrysler without going off the deep end . . . it has it in every department.

"In fact, I think so much of this car, I've selected it as Pace Car of the 1951 Indianapolis 500-mile race!" (Mr. Shaw's comments are reprinted through the courtesy of Popular Science Magazine.)

*Mr. Shaw refers of course to standard passenger cars—not racing cars or special models.

Ample Room Secret To Broiler Raising Each Bird Needs 0.6 Square Feet of Space

There's good money in broiler raising, providing efficient and scientific production methods are employed. Proper housing that gives sufficient room is a "must" for a successful broiler operation. The University of Delaware agricultural experiment station has found that

In this sectionally-built poultry house, which is 16 feet wide and 60 feet long, an Indiana broiler producer raises 1,200 three-pound broilers every 10 or 11 weeks.

"Broilers should be allowed at least 0.6 of a square foot per bird." For the farmer who wishes to start raising broilers in a modest way and develop the business gradually, there is available an "expandable," sectionally-built poultry house that is ideal. The four-foot sections may be added as required. Some poultry raisers have such buildings 300 feet long, but they may be made as long as required.

These arched-roof buildings are strongly built on a framework of laminated wood rafters and covered with Masonite tempered hardboard, which weathers well and is durable. Their curved shape provides ample headroom, and there are no interior pillars to take up room and impede movement.

Summing up the effects of crowding, the experiment station says: "Rate of growth, uniformity of growth, feed consumption, cost per pound of broiler, and pounds of broilers sold per chick started are production factors adversely affected by crowding broilers."

Identical As Only Precision Manufacturing Can Make Them

Buying genuine John Deere Parts as replacements on your John Deere Equipment really pays off. Genuine parts fit better, always function properly, and last longer. Here's why:

Genuine John Deere Parts are every bit as good as the original parts they replace. They're made from the same high-grade materials, in the same patterns, and with the same high-quality workmanship. What's more, they must meet the same exacting inspection standards as the originals.

Be sure of top-notch performance from your John Deere Equipment; make a thorough check now. If parts are needed, buy only the genuine. We carry a stock to meet your needs. Come in soon.

Remember ONLY GENUINE JOHN DEERE PARTS FIT AND WEAR LIKE THE ORIGINALS

SCANNING THE WEEK'S NEWS
of Main Street and the World

Mac Urges Action Against China; Farm Land Prices at Record Peak

MAN WITH A MISSION—At last, much to the relief of the average home-towner, the emotional thinking that manifested itself with the return of Gen. Douglas MacArthur to the United States, gave way to considerable sober reasoning as the general testified before congress concerning the cause and results of his removal as commander in the Pacific.

Stripped of the superficial, the general's testimony revealed him a man with a burning mission—to bring the Korean conflict to a swift and successful conclusion. His objective was no different from that of the administration, except by the method it could be reached.

Unfortunately, at one point the general allowed himself to be maneuvered by the politicians into an all-out attack on the administration. He did not question, however, President Truman's authority to remove him, and he admitted he had expressed the opinion that the Chinese would not intervene in the conflict.

But he called again for air attacks on China proper, a naval blockade and use of Chinese Nationalist troops. At this point he said he did not believe this would draw Russia into the fight. He added that Russia was in no shape for an all-out war in Asia.

MacArthur's expressed opinion that there is no end in sight for the Korean conflict and that some policy should be worked out to end the war, appealed to the man on Main Street. The question now facing the nation is whether to follow the general's policy and risk all-out war in Asia, or continue with the more cautious one advocated by the administration.

THE OTHER VIEW—And after MacArthur presented his views of how to conduct the war in Korea, the one military man who in the eyes of the home-towner equals MacArthur in ability and popularity, Secretary of Defense Marshall, told the congressional committees that MacArthur's peace appeal to the enemy last March destroyed for the time being any chances of a Korean war settlement.

Marshall made clear that in his opinion MacArthur's war plans would risk an all-out war with Russia, expose Europe to attack, and perhaps split the free world into two camps.

Step by step the 70-year-old Marshall disputed many of MacArthur's statements and warned against the general's proposal to step up the Korean war by bombing Red China and forcing a Communist surrender. It was MacArthur's outspoken call for this action—and the use of Chinese Nationalist troops—that led to his dismissal.

That is the other side of the picture. But the question remains—which plan for achieving peace will the nation follow. It is a question that must be settled in the mind of each individual American, not just in congress.

LAND PRICES HIT NEW HIGH—Main Street economy is built around the land and what it can produce. And any fluctuation in land prices and its products is a good indication of the economic future of the home town.

Good farm property is in demand because people think prices are going higher. Land is a good hedge against rising prices. With the government indicating there will be a good market for everything produced, good farming land is a good investment.

The agriculture department measures rural land values by a national index. This index uses the years 1912-14 as the base period. With 1912-14 prices as 100, the index in March stood at the record high of 193. This was 14 per cent above a year earlier, and 9 per cent higher than the previous peak registered in November of 1948.

MIDWEST FEEDERS HURT—As expected, the OPS regulations rolling back beef prices raised a howl of protest from cattlemen across the nation. But of all the industry, the midwest feeder was hardest hit by the new regulations.

According to authorities in the meat industry, 85 per cent, or seven million steers slaughtered under federal inspection last year, came to market over the feed lot route. But the feeder is now expected to cut down on operations for a time because he cannot buy cattle at a price that will pay him to fatten them.

Fred Tomlin of Pleasant Plains, Ill., said in his case: "There is no reason for me to go out and pay 34 or 35 cents a pound for cattle with the prospect of selling them at 31 or 32 when fattened."

COMMUNISTS REGROUP TO ATTACK
Beaten back in a slaughter that claimed as many as 75,000 casualties, Communists in Korea regrouped for another thrust to the south. UN commanders believed the fighting would stay in the area indicated in the above map.

THE BATTLE ISN'T OVER—The Communist spring offensive ended in the slaughter of approximately 75,000 Chinese and North Korean troops without any notable gains. But the battle isn't over. The Reds retreated into North Korea to regroup for the next phase which could mean another all-out attack at any point along the line.

It may well be that the second phase will begin at any moment. But UN commanders believe it, too, will end in slaughter unparalleled in history.

It was clear that UN troops remain in Korea because of superior air power, artillery and mobility. How long this superiority will remain on the UN side if the Chinese use their air forces in support of their troops, is questionable.

HOME TOWN BORROWING—The home town which thought his town might get that much needed road, school, water system, drainage or sewage-construction project in the near future may be in for a big disappointment.

Charles E. Wilson, mobilization director, has asked states, cities, and counties to get clearances before borrowing in excess of \$1,000,000. He made his requests on the need to halt inflationary spending and to save defense-needed materials and man power.

The mobilization chief also asked that soldiers' bonus payments, war memorials, recreational and other postwar projects be put off for the duration of the defense emergency—at least where funds must be borrowed to pay for them.

THE JUNE GRADUATE
Employers Disregard Military Status
Even if this year's college graduate rates 1-A in the draft, the big corporations are hiring them, even for a few months' work, if he is desirable employee material, and will have his job waiting for him when he returns from military service again. This is the prevailing trend reported by college placement officials in the annual employment survey made by Northwestern Na-

Communist Regroup to Attack
Beaten back in a slaughter that claimed as many as 75,000 casualties, Communists in Korea regrouped for another thrust to the south. UN commanders believed the fighting would stay in the area indicated in the above map.

CAMP FIRE GIRLS

Junior High School Girls Learn How to Live in Outdoor Camps

In spite of eight-cylinder automobiles, television sets, electric dishwashers and innerspring mattresses, America continues to be a nation of pioneers.

If you doubt it, visit a Camp Fire Girls camp this summer. Out in Whitman, Wash., you would find a group of junior high school girls living in a primitive clearing, 20 minutes by boat from the main camp where the younger girls live.

In Gypsy Haven, the pioneer

Blue Birds (junior members of Camp Fire Girls) think breakfast cooked on hobo stoves tastes better than any other, in spite of such hazards as "sunburned" noses and pancakes.

camp, the only permanent installations are a store tent, tool-shed and toilet. The campers bring along chow pans, axes, rope, lashing cord and sleeping bags. With the Forest Ranger's permission, they cut down trees from which stools and tables are built. Needled, small-stem branches become mattresses under their bed rolls. The girls also make other camp craft necessities such as sunken food-coolers, reflector ovens, stone-lined baking holes, drainage systems and trash pits.

During their stay at Gypsy Haven the girls cook their own meals and make friends with the area's wild life. A doe and her fawn visit the camp daily and chipmunks come up to eat from the girls' hands.

JEAN HERSHOLT

scripts that are broadcast received \$250-\$300, with Jean Hersholt, of course, always in the role he has made famous. During the years the contests have been won by housewives, stenographers, chorus girls, professional and amateur writers—in short, by Mr. and Mrs. America.

Judy Garland's tremendous success in the English music halls has restored her health, her self-confidence, and her sunny disposition. Theaters all over the continent are offering her fabulous sums, but after a brief tour of Scotland she will return for a picture with Bing Crosby.

Dana Andrews' favorite part in RKO Radio's "Sealed Cargo" is one you won't see. He acted as technical adviser of this sea yarn. Owner of two boats, an 85-foot ketch and a 55-foot cutter, he is quite an authority on nautical problems.

Carleton Young's voice is going to sound familiar as your next door neighbor's when you see him in RKO Radio's "The Blue Veil". He is regularly on dramatic programs on all four major networks, played the Count of Monte Cristo for six years.

"I Was an American Spy" tells the true story of Claire Phillips, famous and fearless American espionage agent in the Philippines. Ann Dvorak impersonates her in this Allied Artists picture, but General Mark Clark plays himself in the prologue.

GRASSROOTS

General Charles Dawes Served Nation in Many Ways

By Wright A. Patterson

THE LATE GEN. CHARLES G. DAWES was an interesting character, a man of many varied experiences. The general, and his brother, Rufus, were almost wholly responsible for the holding in 1933 Chicago's Century of Progress exposition. A group of the city's wealthy men had proposed that such an exposition be held at that time—and then the depression broke.

The proposers objected to financing an exposition at such a time. The two Dawes brothers insisted that, having been announced, the show must go on. During the days it was held I watched Gen. Dawes on many occasions stand in front of a numbering machine in the administration building, as it checked off the visitors, one by one, as they passed through the paid admission turnstiles. In the end, there were enough such admissions to enable the exposition to pay out. Under its charter it could not make a profit, but there was enough left after all bond holders were paid, plus interest, to raze all the buildings, and to beautifully landscape the five mile long lake front park through which rolls every day many thousands of automobiles from within and without the city.

That is one of Chicago's beauty spots, and for it the people of the city can thank the Century of Progress.

IN DES MOINES, IA., seven lucky Horizon Club members of senior high school age, accompanied by three counselors, last summer paddled a 24-foot war canoe 35 miles down the Des Moines river. Sandbars and rapids added thrills to the trip which involved five steady hours of hard paddling.

When an experienced camper in Portland, Ore., reaches the ripe old age of 14, she gets to live in a unit of tree-houses.

An added zest goes without outdoor cooking in Dickinson, N. D., where Camp Fire Girls prepare frogs-leg dinners from frogs they catch themselves.

Even Blue Birds, who are seven-to-ten-year-olds and the youngest members of Camp Fire Girls, are inducted with pioneer spirit. They love to cook on tin can stoves or on sticks over an open fire. Their pride in their own efforts produces an enthusiasm that occasionally far exceeds results. As one little San Diego Blue Bird said last year while she munched happily on a badly "sunburned" bread twist, "I wish my mother could cook like this."

In a recent issue of The Camp Fire Girl, Ernest F. Schmidt, director of Schiff Outdoor Activities in Mendham, N. J., gave Camp Fire campers two rules to follow when hiking.

The first is to stop, look and listen if they become lost: stop to collect thoughts; look for landmarks, and listen for sounds of trains, automobiles or running water.

The second suggestion is always to carry with them a Litemap Lost Kit of emergency tools. The kit, which each girl can assemble herself, should include a small compass, snare wire and fishing tackle, matches, bouillon cubes, paper and pencil, and razor blade. All these articles fit into a cigarette-type plastic case or a typewriter ribbon box, either of which can be waterproofed with nail polish or shellac cut 50 per cent with alcohol.

Gen. Dawes served his country. As a soldier, he was purchasing agent of the American army in France during the first World War. As a civilian he served as vice president, as ambassador to England, as first director of the budget and comptroller of the treasury. The Dawes bank, Central Trust of Illinois, was the first big-\$13 million-borrower of the Reconstruction Finance Corporation, and every dollar, plus interest, was fully repaid. Through the years he spent in Chicago he was a leader in the city's promotion. For many years a man of wealth, he died comparatively poor.

It is broadly rumored in Washington that other heads than that of Douglas MacArthur are to fall under the blows of President Truman's execution axe. Rumor has it that J. Edgar Hoover, director of the F.B.I. is included in the next list of victims. Hoover and the F.B.I. have been largely responsible for the conviction of such Russian spies as Alger Hiss.

As political misadventure, the removal of the popular F.B.I. director would be second only to that of the now immortal MacArthur. It would be resented by the American people, and cause them to think, if not express, their opinions as to which side of the iron curtain the President and his advisers are standing. Politically, it would

complete the job so definitely started by the summary removal of MacArthur.

It is possible the disastrous results of the MacArthur decapitation may result in staying the hand of the President in the case of J. Edgar Hoover. His party cannot afford another such result, especially between now and the 1952 elections. Should the people receive another slap in the face within the next few months at the instigation of Dean Acheson, we might as well save the expense of the next election.

The administration at Washington continuously insists we will offer nothing that will be considered as appeasement to Communism, but at the behest of England, the granddaddy of all appeasers, and the insistence of the socially-climbed Dean Acheson, the President fired the one man more generally feared by Stalin and his Red hordes than any one else. That was appeasement, and the American people gave ample evidence that they did not like it.

It would seem that it might be a good thing for President Truman that the recall system does not apply to the presidency.

The day will come when Dean Acheson will need a safe hiding place if he is to escape the presidential hair brush.

THE FICTION CORNER

O.K. BY HER

By Richard H. Wilkinson

THE MAN who had rented Freda the outboard motor told her that any fool could run one of the things. However, right now, drifting in the wrong direction in the middle of Mirror lake, with the sun beating down unmercifully, she would have given a good deal to have the man's neck between her two hands. Just for luck she gave the crank one more spin. The motor went "chugurg, chugurg"—and died.

"Damn!" exclaimed Freda. She was so furious she could have cried. Instead she stood up and began to wave wildly at a boat that had suddenly appeared around an island point. The boat kept serenely on its course and Freda was about to give up yelling and abandon herself to fate when the other craft swerved and headed in her direction.

Two minutes later a black-haired youth was grinning up at her pleasantly. "Trouble?" he asked.

"There's not a thing wrong with this motor," said Freda, "except that it won't run."

The young man climbed aboard. He had a wrench in his hand. "I'll fix it," he said.

Freda thought he was pretty confident, but a moment later she changed her mind.

"Strainer got clogged," he said. "I'm an expert on outboards. My business is retrievin' 'em."

"Retrieving them?"

"Sure. Plenty of motors lost in this lake every year. I invented a special magnet to find 'em, then I grapple for 'em, haul 'em up, repair 'em

and sell 'em. My name's Len Curtain. What's yours?"

"Freda Brandon," said Freda, without even stopping to think.

"Freda Brandon, eh? You're the girl who's going to marry Ray Hubbard. Well, they say money will do anything; but deliver me. Well, so long."

Freda didn't catch her breath until she got back to camp. Her mother had news.

"Darling! Ray wired he's coming up! He's arriving tomorrow."

Freda's spirits sank. "Goody, goody," she said sourly.

Freda set off in the outboard the next morning 10 minutes before Ray was due to arrive. Thirty minutes later she saw a familiar looking boat anchored in a cove and camp up alongside.

"Hi!" grinned Len Curtain. "How's things?"

"Fine. Say, look, what do you do in the winter?"

"Oh, this and that." Len hauled in his grappling iron. "False alarm. Nothing here. How about anchoring that scow and taking a ride around with me?"

Ray Hubbard was waiting on the dock when she got back. He didn't like the idea of her not being at camp to greet him, but she didn't care.

THE DAY after Ray departed Len Curtain came into the dock and Freda went down to see what he wanted.

"It's a funny thing, but I'm in love. Will you marry me?"

Freda almost fell into the water. "Goodness! Im going to marry Ray."

"Pshaw! You dont love him. Marry me and we'll have fun."

Freda caught herself wondering if that wouldn't be a good idea. She laughed, sounding like a frog with a sore throat.

"Marry you and fish for outboards all summer—and do what in the winter?"

Ray grinned. "There's no fishing in the winter. We'd get along. I've just sold my grappling magnet invention to the Sea Demon outboard people. That's only the beginning of the things I can invent."

Freda blinked. Good heavens, was he going to be as startling as that all his life. "I'll have to think it over."

"Give you five minutes. Hop in and we'll ride around in the meantime."

Freda heard of people being hypnotized, and she guessed that was what was wrong with her. She hopped in and they rode around. When five minutes was up Len Curtain kissed her and she kissed him back and that settled the whole business.

Freda told Len Curtain her name without even stopping to think.

RESOLUTION

RESOLUTION APPROVING AND ADOPTING ESTIMATE OF THE COST OF IMPROVEMENTS TO BE MADE TO THE CITY OF O'DONNELL, TEXAS, IN THE NATURE OF GRADING IN THE CALICHE BASE AND PLACING TREATMENT OF ASPHALT AVENUES OF THE CITY OF O'DONNELL, TEXAS, FIXING THE TIME AND PLACE FOR HEARING TO THE OWNERS OF ABUTTING PROPERTY AND OTHER PERSONS INTERESTED IN SAID PROPERTY AND DIRECTING THE CITY SECRETARY TO PUBLISH NOTICE ON BEHALF OF THE GOVERNING BODY OF THE CITY OF O'DONNELL, TEXAS:

WHEREAS, the governing body of the city of O'Donnell has heretofore ordered that portions of the streets, or avenues be improved by grading, placing caliche, and asphalt treatment, and arrangements therefore have been made and entered into by the city of O'Donnell and Kerr and Middleton Contractors.

WHEREAS, the estimates of the cost of such improvements and the estimates of the amounts per front foot proposed to be assessed against abutting property and the owners thereof, and such estimates have been prepared, examined and filed.

THEREFORE, BE IT RESOLVED BY THE CITY COMMISSION OF THE CITY OF O'DONNELL, TEXAS:

I. Such estimates be and they are hereby approved.

II.

NOTICE OF PROPERTY ABUTTING UPON THE HEREINBELOW MENTIONED PORTIONS OF STREETS AND OR AVENUES AND TO ALL OTHERS AFFECTED:

The Governing Body of the City of O'Donnell has heretofore ordered that the following portions of streets, and or, avenues in said City of O'Donnell, Texas, be improved by grading, placing caliche base, and asphalt surface on streets designated below:

It is hereby found and determined that the cost of improvements on such portions of said streets and avenues with the amount per front foot proposed to be assessed for such improvements against the abutting property and the owners thereof, on the portions of said streets and avenues are as follows to-wit:

First Street from its intersection with the West Property Line of Baldrige Street to its intersection with West Property Line of Standefer Street, designated as Unit No. 1; the estimated cost of the improvements is \$3826.13; the amount, per front foot to be assessed against abutting property and owners for improvements is \$2.15.

Second Street from its intersection with the East Property Line of Doak Street to its intersection with the East Property Line of Baldrige Street, designated as Unit No. 2; the estimated cost of the improvement is \$1775.03; the amount, per front foot to be assessed against abutting property and owners for improvements is \$2.15.

Second Street from its intersection with the West Property Line of Evans Street to its intersection with the East Property Line of Stokes Street; designated as Unit No. 3; the estimated cost of the improvements is \$1,338.40; the amount, per front foot to be assessed against abutting property and owners for improvements is \$2.15.

Third Street from its intersection with the East Property Line of Standefer Street to its intersection with the East Property Line of Stokes Street, designated as Unit No. 4; the estimated cost of the improvements is \$4,685.87; the amount, per front foot to be assessed against abutting property and owners, for improvements is \$2.15.

Third Street from its intersection with the East Property Line of Standefer Street to its intersection with the East Property Line of Small Street, designated as Unit No. 5; the estimated cost of the improvements is \$1986.13; the amount per front foot to be assessed against abutting property and owners, for improvements is \$2.15.

Third Street from its intersection with the West Property Line of Small Street to its intersection with the East Property Line of Doak Street, designated as Unit No. 6; the estimated cost of improvements is \$3,386.12; the amount per front foot to be assessed against abutting property and owners, is \$2.15.

Fourth Street from its intersection with the East Property Line of Doak Street to its intersection with the West Property Line of Small Street, designated as Unit No. 7; the estimated cost of the improvements is \$3,386.12; the amount per front foot to be assessed against abutting property and owners, for improvements is \$2.15.

Fourth Street from its intersection with the East Property Line of Standefer Street to its intersection with the West Property Line of Nassau Road; designated as Unit No. 8; the estimated cost of the improvements is \$5,318.40; the amount, per front foot to be assessed against abutting property and owners, for improvements is \$2.15.

Sixth Street from its intersection with the East Property Line of Standefer Street to its intersection with the West Property Line of Nassau Road, and Evans Street from its intersection with South Property Line of Fifth Street to its intersection with the North Property Line of Sixth Street designated as Unit No. 9; the estimated cost of the improvements is \$6,518.40; the amount, per front foot to be assessed against abutting property and owners, for improvements is \$2.15.

Sixth Street from its intersection with the West Property Line

of Standefer Street to its intersection with the East Property Line of Baldrige Street, designated as Unit No. 10; the estimated cost of the improvements is \$3,692.80; the amount per front foot to be assessed against abutting property and owners, for improvements is \$2.15.

Standefer Street from its intersection with the North Property Line of First Street, designated as Unit No. 11; the estimated cost of the improvements is \$3,098.93; the amount, per front foot to be assessed against abutting property and owners, or improvements is \$2.15.

Seventh Street from its intersection with the East Property Line of Baldrige Street to its intersection with the West Property Line of Standefer Street, and Seventh Street from its intersection with the East Property Line of Baldrige Street to its intersection with the West Property Line of Standefer Street, designated as Unit No. 12; the estimated cost of the improvements is \$1,988.612; the amount, per front foot to be assessed against abutting property and owners, for improvements is \$2.15.

Seventh Street from its intersection with the West Property Line of Lot 3, Block 88, of the Original Town Addition of the City of O'Donnell, Texas, to its intersection with the West Property Line of Nassau Road, designated as Unit No. 13; the estimated cost of the improvements is \$4,332.26; the amount, per front foot to be assessed against abutting property and owners, for improvements is \$2.15.

Eighth Street from its intersection with the West Property Line of Standefer Street to its intersection with the East Property Line of Baldrige Street, designated as Unit No. 14; the estimated cost of the improvements is \$3,586.13; the amount, per front foot to be assessed against abutting property and owners for improvements is \$2.15.

Eighth Street from its intersection with the East Property Line of Evans Street to its intersection with the West Property Line of Nassau Road, and Miller Street from its intersection with South Property Line of Eighth Street to its intersection with the North Property Line of Ninth Street, designated as Unit No. 15; the estimated cost of the improvements is \$4,932.26; the amount, per front foot to be assessed against abutting property and owners, for improvements is \$2.15.

Tenth Street from its intersection with the West Property Line of Doak Street to its intersection with the West Property Line of Gooch Street, and Tenth Street from its intersection with the East Property Line of Doak Street to its intersection with the West Property Line of Baldrige Street, designated as Unit No. 16; the estimated cost of the improvements is \$4,498.92; the amount, per front foot to be assessed against abutting property and owners for improvements is \$2.15.

Tenth Street from its intersection with the East Property Line of Standefer Street to its intersection with the East Property Line of Evans Street, designated as Unit No. 17; the estimated cost of the improvements is \$3,586.13; the amount per front foot to be assessed against abutting property and owners, for improvements is \$2.15.

Tenth Street from its intersection with East Property Line of Standefer Street to its intersection with the East Property Line of Evans Street, designated as Unit No. 18; the estimated cost of the improvement is \$1,512.79; the amount, per front foot to be assessed against abutting property and owners, for improvements is \$2.15.

Eleventh Street from its intersection with the West Property Line of Standefer Street, to its intersection with the East Property Line with Baldrige Street designated as Unit No. 19; the estimated cost of the improvements is \$3,586.13; the amount, per front foot to be assessed against abutting property and owners, for improvements is \$2.15.

Baldrige Street from its intersection with the North Property Line of Eighth Street to its intersection with the South Property Line of Fifth Street, designated as Unit No. 20; the estimated cost of the improvements is \$4,372.26; the amount, per front foot to be assessed against abutting property and owners, for improvements is \$2.15.

Fifth Street from its intersection with the West Property Line of Doak Street to its intersection with the West Property Line of Hohn Street, designated as Unit No. 21; the estimated cost of the improvements is \$1,512.79; the amount per front foot to be assessed against abutting property and owners, for improvements is \$2.15.

Sixth Street from its intersection with the West Property Line of Doak Street to its intersection with the West Property Line of Hohn Street; designated as Unit No. 22; the estimated cost of the improvements is \$1,512.79; the amount per front foot to be assessed against abutting property and owners for improvements is \$2.15.

Sixth Street from its intersection with the West Property Line of Standefer Street to its intersection with the West Property Line of Nassau Road, and Evans Street from its intersection with South Property Line of Fifth Street to its intersection with the North Property Line of Sixth Street designated as Unit No. 23; the estimated cost of the improvements is \$2,786.14; the amount, per front foot to be assessed against abutting property and owners for improvements is \$2.15.

And arrangements for the making and construction of such improvements with pavement of two courses asphalt surface treatment on a Six (6) inch compact caliche base has been made and entered into by the City of O'Donnell, Texas, and rolls or statements showing the proposed amounts to be assessed against abutting property and the owners thereof have been filed with the City, such rolls or statements

showing other matters and things, and have been approved, and the City Commission of said City has fixed a time and place for hearing to the owners of property abutting upon said portions of streets, and avenues, and to all others affected, at which hearing the amounts to be assessed against the respective parcels of abutting land and the owners thereof for improvements in the units upon which the particular parcels of property abut, the amounts of benefits to the respective parcels of property by means of the improvements in the unit upon which the particular parcels abut, the regularity of the proceedings with reference to such improvements, and other matters and things will be determined and after such hearing assessment will by ordinance be made and levied and such hearing will be had and held by and before the City Commission of the City of O'Donnell, Texas at 8 p. m. on 14th day of June 1951. The rolls or statements showing the proposed amounts of such assessments are on file in the office of the City Secretary and open to inspection of any interested parties at any time and all said matters and things as well as any and others in any wise affected or interested, will take due notice.

By order of the City Commission of the City of O'Donnell, Texas, this 25th day of May, 1951.

No notice other than that hereinafore provided for shall be necessary, but publication of such notice shall be due and sufficient notice to any and all persons, firms, corporations and other parties.

This resolution shall take effect and be enforced from and after passage. Passed and approved this 25th day of May, A. D. 1951.

L. J. HASH, MAYOR

III.

THAT a hearing be held by and before the Governing Body of the City of O'Donnell, Texas, to all persons owning or claiming any property abutting any part of Street or Avenues described in Section II of this resolution, as well as all owning or claiming any interest in such property. Such hearing shall be given and held by and before the City Commission of the City of O'Donnell, Texas at 8 p. m. on the 14th day of June, 1951, and the City Secretary is hereby directed to give notice of the time and place of such hearing, and of other matters and facts in accordance with the terms and provisions of an act passed at the first called session of the 40th Legislature of the State of Texas and known as Chapter 106 of the acts of said Legislature which has been adopted as an amendment to and made a part of the Charter of the City of O'Donnell, Texas. Such notice shall be made by advertisement inserted at least three (3) times in a newspaper published in the City of O'Donnell, Texas; the first publication shall be made at least ten (10) days before the hearing. Said notice shall comply with and be in accordance with the terms and provisions of this resolution and said Act.

AND IT IS SO ORDERED, PASSED AND APPROVED this 25th day of May, 1951.

Farmers Urged to Check Livestock Mineral Intake

Minerals are so important in the diet of animals that livestock will live longer without any feed than they will on feed that contained no minerals.

This fact was pointed out recently by the American Veterinary Medical Association in urging farmers to watch the mineral intake of livestock as they come into the new spring production season.

"Although animals require more than a dozen different minerals, two of them, calcium and phosphorus, make up 70 per cent of the mineral matter in the body," the AVMA said. "Dairy cows and laying hens especially require them. Half the minerals in milk are calcium and phosphorus."

The AVMA cited the delicate relationship between calcium and phosphorus in the body as an instance for the need for a careful check on farm animals' requirements. Too much of one without the other can lead to a deficiency disease.

It's amazing the number of things one can remember having forgotten.

Nebraska Radio-Active Phosphorus Test Planned

Oat fertilizer tests with radio-active phosphorus are slated for several places in Nebraska this spring. Robert A. Olson, who will be in charge of the tests, said the investigation will be made to find how much phosphorus delivery power there is in several Nebraska soils. Tests will also show what proportions of the phosphorus which is used by oats comes from the soil.

Northern States Alerted To Cattle Health Threat

Cattle owners in states along the Canadian border are warned to be on guard for outbreaks of bovine anaplasmosis.

This is a malaria-like blood disease of cattle that was once considered mainly a problem of the south and west, where it causes multimillion dollar losses. Now veterinarians also are finding the disease in northern states formerly considered free of it.

Reporting on the problem, the American Veterinary Medical Association said that some cases recently diagnosed in Minnesota were so mild they escaped the owner's attention. Other cases were passed off as some sort of poisoning, simply because nobody figured anaplasmosis would be striking that far north.

Cattle that recover from it remain as carriers, and many of them have been shipped from the badly infected areas to northern states. They look healthy but have anaplasmosis germs in their blood and are a ready source for infection for other cattle.

I OWN OUR HOME

"I can look ahead with confidence because my husband wisely made his family's future secure. His Southwestern Life policy gave me and the children a debt-free home."

With Southwestern Life's Home Protector plan, it costs so little to make sure that the mortgage on your home will not live on after you. For example, if you are now 35 and make monthly payments on a 20-year loan for \$10,000, you can guarantee—at a cost of about 20 cents a day—the cash required to pay off the remaining balance of the mortgage if it should out-live you.

Your friendly Southwestern Life representative will welcome the opportunity to explain how your family can inherit a deed instead of a debt.

Creep Feeding Calves Gains in Popularity

Breeders Find it Pays In Time Saved, Money
Cattle breeders throughout the nation are paying more and more attention these days to their young calves to secure maximum return from their herds.

Gaining in popularity is creep feeding of calves which has been used by cattlemen from the Dakotas to Florida. Some producers con-

tend that creep feeding will add 100 pounds to the weight of a calf by the time it is weaned. Although all cattlemen are not agreed as to the kind and percentages of feed used in creeps, most of them use a mixture of oats and corn with added protein calf supplement. Creep feeding is usually started with oats and the corn is added gradually.

Some stockmen contend that creep feeding on pasture will save up to a month in getting beef calves on full feed after weaning.

Creep feeding, however, is only a part of the nation-wide trend of cattlemen of better feeding, better housing, and careful handling of calves.
