O'DONNELL, LYNN COUNTY, TEXAS, Wednesday, June 16, 1954

\$1.50 PER YEAR

Right Of Way May Be Needed For Two Counties

Work Set For 1955

The Texas Highway Department is expected soon to ask Lynn and Dawson Counties of right of way deeds for the proposed 4-lane highway thru Lynn County extending to Lamesa. S. C. McCarty, district engineer of the Highway Department, said preliminary surveys are already underway from Tahoka to O'Donnell. \$450,000.00 of State and Federal funds have been earmarked for two additional lanes of paved road in Lynn Co. from Tahoka to O'Donnell and a similar project is set for Dawson Co. from O'Donnell to Lamesa. The long time dream is to make all of 87 an expressway.

Lynn and Dawson Counties will be expected to furnish the right of way and to do this the two counties may have to vote a small bond issue.

From Tahoka to Lamesa the old paving would be used where possible for two lanes and then there would be 40 feet between the new two lane road. In all 60 more feet would be needed. Then the State will ask the counties involved for reservation agreements on another 40 feet on each side for a possible freeway in the future. This land could be farmed until such future date as needed, if ever. Possible cost to each county would run from \$12,000 to \$14,000 for immediate right of way. It is expected that in next few years the project would tie in at Lubbock Co. line.

One life saved by this new road would more than pay its cost.

SPEAKS AT LUBBOCK

Good Rains Cover Area Sunday Nite

A fast moving squall line Sunday nite netted 77-100ths inches of moisture here. The fall was up to 1-1/2 inches over much of the area west of town and averaged 1-2 inch over much of east trade area into Borden County. The fall was generally light as distance progressed to the south and north.

Section Rain Monday

A shot-gun thunder storm Monday afternoon at 4:30 was preceded by a dramatic red dust from the south. Driven before a brisk west wind, the rain was almost a cloudburst for 5 minutes netting 55-100ths inches bringing the two day total to 1.32 inches.

Crops Look Fine

Crops look too good to be true. Typical high June winds have caused some blow-outs but generally the goose hangs high. Hall, a dry August and insects are hurdles yet ahead in the race for a harvest.

Card Of Thanks

We wish to express our sincere thanks to our many friends who came with consolatory words and deeds during the passing of our loved one. We shall ever be humbly grateful.

GOP TO HOLD PRIMARY

The Texas Republicans will hold their primary election July 24th, the same day as the Democratic primary. The place of the election locally will be announced later. There will be no county or district offices listed and the ballot will carry only major state offices, according to Sam Singleton, an area Republican leader.

Makes Good Government

A strong two party system in Texas would tend to give the citizens better government from the grassroot level to national offices but it is doubtful that the GOP can balance the Democratic party year after year in Texas.

All members are urged to be present and new members and visitors are invited. --Reporter.

Miss Middleton Weds Mr. Clark

Miss Carolyn Middleton, daughter of Mrs. Dewey Middleton and Bob Ray Clark, son of Mrs. L. H. Clark, both of O'Donnell, were united in marriage Saturday May 29th at Roswell, N. M. at the Church of Christ there with Ernest West, minister of that city, reading the vows.

Mrs. Clark is a graduate of the local high school and attended ACCO for two years. Mr. Clark is also a graduate of the local high school. He enlisted in the Marines in World War II, later serving in the Korean War. He was on active duty 21 months and saw 11 months of action in Korea.

The bride wore a baby-blue dress of nylon taffeta accented with an orchid corsage. Her hat was also accented with a tinge of blue. She carried a white purse made of pearls with matching white gloves. Her attire was completed with white linen pumps.

The couple's 8 day wedding trip included visits to Esponola, Taos, Red River, Ratos and Daihart.

The couple are at home here where Mr. Clark farms.

S. S. CLASS MEETS

Miss Etter Weds

Following a wedding trip to Colorado, Mr and Mrs. Robert Sarrickson will be at home at Lubbock after June 21st. Mrs. Sarrickson was Miss Peggy Helen Etter prior to the marriage read at 8 Saturday evening in the Broadway Church of Christ Chapel. The bride is the daughter of Mrs. Lester Etter of here. The groom is the son of Mrs. Sarah Dickson of Chicago and S. R. Dickson of LaSalle, Ill. Mont Whitson read a double ring ceremony before an altar banked with white gladioli and tropical foliage. Candelabra with white candles highlighted the scene. Horace Coffman was soloist with the Broadway Church of Christ chorus as it sang "Thru The Years" and "God Gave Me You"

Given in marriage by her late father's twin brother, Chester Etter the bride wore a gown of white net and Chantilly lace over taffeta. The fitted lace bodice was designed with a necklace effect at the throat and short sleeves with lace gauntlets. The full net skirt featured points of lace swept into a chapel-length train. Her veil of silk illusion was joined to a Juliet cap of lace and satin embroidered with seed pearls. Her bouquet of stephanotis and an orchid was attached to a white Bible.

Mrs. Hollis Swinney of here attended her sister as matron of honor. Bridesmaids were Mrs. Frank Hibler of Abilene and Miss Dana Dickson, sister of the groom.

Miss Polly Etter, sister of the bride, and Miss Betty Phipps, cousin of the bride, lighted the candles. Best man was Harry Smith of Chicago. After the ceremony a reception was held at the Church of Christ Bible Chair.

The bride is a graduate of the local high school and Texas Tech. She taught in the McCamey school last year. Mr. Dickson is a graduate of St. Rita's high school and attended the U. of Illinois. He is in Air Force at Reese AFB.

HOW TO FIGURE YOUR SOCIAL SECURITY

Many people are under the erroneous impression that 6 quarters of coverage will make them fully and permanently insured under the Social Security Act. While it is true that some employees and self-employed individuals need only 6 quarters of coverage for a fully insured status, others may need as much as 40 quarters of coverage.

A quarter of coverage is any calendar quarter after the end of 1936 in which an individual is paid wages of at least \$50 for employment covered by the social security law. Beginning January 1, 1951 a quarter of coverage is any calendar quarter in which a self-employed person is credited with net earnings from self-employment (to be credited to an individual's account, he must have self-employment net income of at least \$400 for the taxable year.

In determining the quarters of coverage required for a fully insured status, the starting point is January 1, 1951. To find how many quarters a given individual needs from that starting point, count the calendar quarters up to the quarter in which the individual reaches the age 65 or dies, whichever occurs first. Divide the total number of elapsed quarters by two and drop any odd number. The result will be the required quarters of coverage for the individual. A minimum of 6 quarters of coverage is required in all cases and a maximum of 40 quarters of coverage will be required in some cases. In no case would an individual ever need more than 40 quarters of coverage. Quarters acquired in covered employment at any time after 1936 may be added to quarters gained in covered employment or self employment after 1950 to make up the required amount.

Mowing helps to eliminate weeds, from the lawn and help their replacement with desirable grasses.

Malathion is described as about the nearest thing to an all purpose insecticide for the home garden. The directions should be followed, however.

There is a difference between insect repellents and insecticides. Repellents are applied to the skin or clothing to keep insects off while insecticides are used to kill insect pests.

**Spiderweb Business
 Proves Profitable
 In California Town**

YUCAIPA, Calif.—Such precision devices as sunsights, astronomical instruments and survey instruments require crossed hairs. Mrs. Nan Songer supplies spider webs with which the "hairs" are made.
 Her business goes back to her childhood when, because of her frail health, her parents encouraged her to be out-of-doors as much as possible. She became interested in insect life—first moths and butterflies, then crickets, and finally spiders.
 By 1939, when 37, she had been experimenting with extracting the silken web from spiders for several years. The government was inquiring whether the web would be produced commercially.
 Human hairs had been utilized for years in sunsights, bombsights and periscopes, but were susceptible to extreme temperatures. They contracted and broke in the sub-zero cold of the stratosphere—and sagged in high temperatures. An extremely fine, sturdy and elastic strand was needed—and the spider web was the answer.
 Using fine needles, Mrs. Songer draws the silk from one of the spider's spinnerets and reels it on a metal frame for shipment.

Now is a good time to do outside painting. The weather is relatively dry and temperatures moderate. Soft body paints are best suited for dry areas.
