## HANDS ACROSS THE OCEAN

August 18th  
Dear Friend, You will be very surprised to get a letter from an unknown friend in Holland. But I want to thank you very much for your very nice knitted bedspread (red and dark blue) which I received from the W. V. S. while I was over in England (Lancaster) last June and July. I am back in Holland now since last Sunday but two months ago I went to England as a teacher with 150 Dutch children. They all suffered a lot during the German occupation.

About fifty of these children are orphans as one of their fathers killed a German officer and therefore the Germans killed all the men older than 10 years of age in their small village near Arnhem. Those children now had a good time in England. Our Government hired some camps over there and they all got some new underwear, clothes and shoes. It was a real satisfaction to see them so happy with their new things. The teachers got a nice bedspread and I can't tell you how happy I am with your nice gift.

I don't know yet where I am going to use it for either for bedspread or for table.  
I am engaged now since 1940 and I think we never can get married, as my boy was in the army in 1940. After that he was a P. of W. in Germany. As soon as he was free, he was working in the underground or "White Army" during the occupation, and now he had nearly finished his study at the university at Leiden, Holland and they called him up again for officer's training in England.

First I was glad he had to go there for a short while as I thought he might get some sheets, tablecloths and stockings over there, but they all are on dockets and coupons and so do not go to a cadet. It is terrible! My mother can't miss her things as I am the eldest from 12 children so my mother has to look after 11 more when I am away. The food situation is still bad but the clothes situation is still worse especially for people with a big family and young couples who should like to marry.

Dear friend, do you know any association somewhere in America which I could write for those things I need so very badly for my house-keeping and do you also know how I could pay for it. Or is it possible to leave a deposit at any store??  
I want to thank you once more for your very nice and very welcome gift. I remain your very thankful friend.

Miss Corry Hoppenbrouwer  
12 Heikant, Tilburg, Holland

(Ed. note: This letter was written to Miss Ruby Lois Shook as a note of appreciation for a gift Miss Shook sent the writer some while back. It is printed herewith for its news interest and to show Miss Hoppenbrouwer we think she is a pretty nice young lady. It strikes the Index that it would be only a small gesture of brotherly love for O'Donnell to adopt the fifty orphan children mentioned as victims of the Germans. The Christmas season is not far away and here's our plan:

Fifty families here will each pick out a child by number and fix up a bundle of clothing, toys, etc. and we will send this package to Miss Hoppenbrouwer for distribution. Think it over. The Index will take Orphan No. 1.

Mr and Mrs. T Caldwell visited in Hamlin over the week end.

## WINTER WHEAT AIDED BY SLOW RAIN

Coach Everett, Miss Jean Compton and Margaret Gibbs were week end visitors with Mrs. A. W. Gibbs. Mr and Mrs. J. G. Schooler of Goldthwaite left Thursday after a week's visit with Mother Schooler and other relatives here. Mother Schooler returned with them for a few weeks visit.

A week end of slow rain netted this area two and 70-100ths inches of rain, according to Ben Moore, supervisor of the Government rain gauge. The rainfall was of a general nature and covered the trade area in about the same manner.

Farmers generally agree that the greatest benefit of the rain will be to supply reservoir moisture to winter wheat and a start toward a good ground seasoning for next year's crop and range. Rainfall now will not materially benefit this year's cotton and grain crop and in many instances will damage it.

A record acreage of winter wheat has been planted in this neighborhood and will prove to be a valuable supplement to feeding stock thru winter. To date approximately 2,000 bales of cotton from this area has been cleared thru the local compress company. Ginners estimate this year's cotton crop to be from 5,000 to 7,000 bales above last year but far below 1944 yield of 22,000 in this area.

## The Eagle SCREAMS

### EAGLE EYE VIEWS

Who was Johnnie Tidwell sitting in the show with Wednesday nite? Could it have been Jerry New??

Who was Lois and Jean with Friday nite?? Perhaps it was Bob and Shorty!

Joy has been looking very sad since Jimmy left.

Shirley was with Arvis again Friday nite. We thought that Henry was back??

Speaking of Henry, it seemed to me Ye Olde Eagle saw Doris and Polly riding around with be and Hubert Saturday evening and Saturday nite.

Who did we see Wanda Lois walking down the street with Sunday evening in Tahoka? It looked like W. J. Kahle.

Reba Bates and Clois Leverette seem to be getting up a case!

Who has Joy Ellis got a date with to attend the fair Tuesday night - It's a certain "Bill" from Lubbock.

Who is James May going to ask to go to the banquet with him this year? We hear it is going to be Ruthy.

Who wrote the note to James May and signed Ruthy's name to it. Ruthy would really like to know.

### SHOULD HAVE BEEN SINGING

Peggy Beach should have been singing "To Each His Own". Instead she was singing "Doing What Comes Naturally".

Betty Edgerton should have been singing "Give Me Five Minutes More" but instead she was singing "Cement Mixer - Putty - Putty".

Ruthy Davis should have been singing "I'm In Love With You, Honey" rather than "Give Me Five Minutes More".

She Scholer should have been singing "Cuddle Up a Little Closer" instead of "When the Football

### FOOTBALL GAMES

The B team played the Junior team Tuesday afternoon. The score was 12-0, with the B team winning.

Grade school and the Junior team played Wednesday afternoon. The score was 6-0.

**KING FOR A DAY . . .** At Worthington, Minn., where 2½ million dollars worth of turkeys are marketed yearly, King Turkey Day is an annual event of October.

**IN THESE UNITED STATES**

**Gobbler Reigns Supreme At King Turkey Day Fete**

*WNU Features*

WORTHINGTON, MINN.—The turkey may gobble his last come the traditional holidays of November and December—but in October he reigns as king in Worthington, "turkey capital of the world."

An annual event of October is King Turkey Day, when this small midwestern community of 8,000 is host to approximately 50,000 visitors at its major entertainment attraction of the year.

Highlight of this year's King Turkey Day, revived after a wartime lapse, was an address by Clinton P. Anderson, secretary of agriculture. With the celebration of the diamond jubilee of the city's founding also incorporated with the observance, special attention was placed on historical aspects of the city's growth.

**Provide Entertainment.**

To satisfy hearty appetites induced by the sharp tang of the autumn air, free pancakes and coffee were served throughout the day under the "big top." The tent also served as site for a vaudeville performance, an evening stage show and a free dance.

Other attractions included a street parade and a concert by the 80-piece Washington high school band of Sioux Falls, S. D. Worthington Civic and Commerce association is general sponsor of the observance, assisted by other civic groups.

Worthington is the center of a turkey-raising community where flocks range in number from 250 to more than a thousand. Largest flock in the area contains 40,000 birds.

To provide poulters for the turkey raisers of Worthington and other Midwestern areas, three large turkey hatcheries are located here. They have a total egg setting capacity of 3,580,000 eggs. In addition to the turkey hatcheries, several chicken hatcheries and two large

poultry processing plants are located here.

**Returns are High.**

From the Worthington turkey hatcheries, approximately three and one-half million turkey poulters valued at about two and one-half million dollars were hatched last year. The hatcheries' output was distributed to 40 states as well as to Central and South America.

Taking advantage of modern modes of transportation, hatchery operators utilize air transportation to rush the poulters to their destination. Largest single air shipment involved the transportation of 15,525 poulters from Worthington to New Orleans and thence to Mexico and South America.

**Pack 20,000 Daily.**

King Turkey Day is held annually during the marketing operations preceding the holiday season. From Worthington's processing plants approximately 15 million pounds of turkeys valued at 6½ million dollars are marketed each year. During the peak of the season, 20,000 birds are packed and boxed ready for shipment daily.

During the war Worthington did its bit to provide a home-like touch to holiday dinners for fighting men on all fronts. The turkey which featured many holiday dinners came from this Minnesota area, the two Worthington processing concerns packing almost exclusively for the army throughout war years.

**'IT'S GOOD BUSINESS'**

**Observance Sparks Program To Get Jobs for Handicapped**

WASHINGTON.—Importance to the nation of maintaining employment for handicapped workers is being stressed in the first observance of National Employ the Physically Handicapped Week, being held the week of October 6-12.

The observance, authorized by congress and proclaimed by President Truman, is intended to spark a nationwide drive to provide work for millions of handicapped persons, including thousands of veterans of two World wars, millions of victims of industrial and other types of accidents and those who are handicapped as a result of sickness, disease or birth.

**Join in Promotion.**

Under leadership of United States Employment service, Veterans' administration and Disabled American Veterans, governmental and private agencies are promoting the week. Through numerous citizens' committees information concerning the physically handicapped and their abilities as workers will be disseminated and public education will be fostered.

Introduced during the week was the new official "trademark" of the selective placement program for physically handicapped and its slogan, "Hire the handicapped—it's good business."

More than 300,000 disabled workers, including 228,000 disabled veterans, now are ready for work and are seeking employment through the USES, according to Robert C. Goodwin, director. Pointing out that

**HIRE THE HANDICAPPED**

**IT'S GOOD BUSINESS**

many of them are highly skilled workers, Goodwin says that they are immediately employable in jobs which emphasize their abilities rather than their disabilities.

**Perform Skilled Jobs.**

Disabled workers, for the most part, are veterans who came home from the war with amputations or other permanent injuries and civilian war workers involved in industrial and other accidents, according to the director. The handicaps sustained by these workers have not impaired their capacities to perform skilled jobs, he emphasizes.

In referring to the wartime employment record of the physically handicapped, Goodwin reports that 83 per cent of the nation's industries employed more than a million handicapped workers. These men, he adds, "frequently excelled the output of non-disabled employees."

**Earn Own Way.**

"Veterans and other workers who were victims of circumstances beyond their control want to keep their self-respect and earn their own way. They are capable of doing it and certainly they deserve the opportunity," Goodwin insists. Discussing the problem of the handicapped veteran, Maj. Gen. Graves B. Erskine of the retraining and re-employment administration says: "The disabled veteran is a vitally important man in our post-war economy."

of the state police detective division, declared. Created by the state legislature in 1921, the Michigan state identification bureau is considered one of the largest of its kind. It also has maintained a nickname file alphabetically arranged.

Records of the bureau are used to help identify criminals and to enable penal institutions to get a complete history of an inmate's life.

**ADOPTS AMERICAN WAY . . .** American habits apparently are contagious. At any rate, Norway's Trygve Lie, secretary general of United Nations, is shown in his Forest Hills, N. Y., home in a typical pose of an American on a Sunday. The shirt-sleeved official is enjoying the Sunday comics.

**"Off We Go" AVIATION NOTES**

**AIRPORT CHATTER**  
William Naff is new manager of Montrose, Colo., municipal airport and representative of Monarch airlines. A 6,000-foot runway recently was completed at the airport and Monarch is expected to schedule regular flights, commencing this month. . . . Oshkosh, Wis., will dedicate its new airport October 13, with R. W. Havemann, president of the South Side Businessmen's club, in charge of arrangements. . . . Ogle county, Ill., has its first airport following dedication of the new privately-owned Hamilton airport at Polo. The field, which already has drawn state and national attention as a farm project, is owned and operated by Arch M. Hamilton, Polo farmer and lawyer. It was built primarily to serve farmers and business men owning aircraft in the surrounding agricultural community. . . . At Eldorado, Tex., E. H. Topliffe, Joe Wagley, Carol Sproul and Bill Edmiston have purchased five A T training planes, which they are dismantling for parts. . . . Development of a long-range planning program for airports has been given the "green light" signal in Jefferson, Arapahoe and Adams counties, Colo.

**CONCLUDE BREAKFASTS**  
Idaho pilots will hold their last breakfast of the year at Challis October 13. The menu will feature venison steaks, according to Chet Moulton, state director of aeronautics. Recently the Idaho pilots held a breakfast at Gooding, with 125 pilots and friends attending. Oldest pilot registered was Christopher P. Scott, 63, of Boise, who recently learned to fly and has purchased a plane.

**CLOUDHOPPERS REVIVED**  
Grounded since beginning of the war, the cloudhoppers of University of Akron at Akron, Ohio, have become airborne again. Revived by many former army and navy pilots, the Cloudhopper club has purchased an army BT-15, the "hot-test" ship with which the group ever worked. The club also plans to buy a Cub plane for students who do not want to learn to fly in so fast a ship. For ground training, the organization has been using the Link trainer at Guggenheim Aeronautical institute, which is connected with the university.

**Basque Frock**

**BASQUE** frocks are a pet style with the campus crowd—this charming frock accents a lovely figure with its slim graceful lines, flattering ruffles and full dirndl skirt. If you like, make the sleeves in three-quarter length.

Pattern No. 8950 comes in sizes 11, 12, 13, 14, 16 and 18. Size 12, short sleeves, 3 yards of 36 or 39-inch, 2 yards purchased ruffling.

**Household Hints**

**Enameled bathtubs** and wash bowls that have become yellow may be restored by washing them with salt and turpentine.

**When ironing sheets** and tablecloths, place a card table in front of your ironing board. This will catch the sheet or tablecloth before it falls to the floor and gets soiled.

**An iron heats more rapidly** than it cools. With that fact in mind, start out with fabrics that require low temperatures and progress to those that require higher ones. Arrange dampened clothes in the laundry basket accordingly with those that come first placed on top.

**When disconnecting the cord** on your electric iron, pull on the plug that fits into the outlet, never the cord.

**If a door sags**, just a wee bit, throwing the bolt out of line with the striker plate, you can correct the difficulty quickly by filing the striker plate.

**Save the material from the children's worn out cloth-covered rain coats.** These can be made into serviceable aprons or handy capes to wear when applying make-up.

**Gift Pajamas.**  
**HERE'S** a wonderful gift idea for that friend who likes pajamas. Youthful and gay with brief puffed sleeves and round yoke and neck edged in narrow lace. A narrow belt in back ties in a soft bow. Use the prettiest fabric you can find—dainty all-over flower print or luscious pastels.

Pattern No. 1441 is designed for sizes 12, 14, 16, 18, 20, 40 and 42. Size 14 requires 4½ yards of 35 or 39-inch, 1 yard machine made ruffling. ## Watch Your Kidneys!

Help Them Cleanse the Blood of Harmful Body Waste

Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as Nature intended—fail to remove impurities that, if retained, may poison the system and upset the whole body machinery.

Symptoms may be nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—a feeling of nervous anxiety and loss of pep and strength. Other signs of kidney or bladder disease are sometimes burning, scanty or too frequent urination.

There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. Doan's have been winning new friends for more than forty years. They have a nation-wide reputation. Are recommended by grateful people the country over. Ask your neighbor!

## Serve Sandwiches the Family Likes

### Sandwich Magic

Sandwiches, those mighty American favorites, are a wonderful food for lunches, snacks or entertaining. To think that two slices of bread with a delectable filling can contain so many foodstuffs good for health is indeed a great achievement.

Almost any type of filling may be used, depending upon the use of the sandwich. There is no limit on the type of bread to be used, either, and buns are often used to great advantage in ham or cheese sandwiches, or soft-filling sandwiches.

Probably the most popular use for the sandwich is as a snack or a lunch box item, but there are daintier types to use with salad for entertaining.

Here are several interesting types of fillings that go well with school lunches. All the recipes make enough for several sandwiches, and fillings may be kept in a jar or covered dish in the refrigerator so they will last.

**Potato Salad Filling.**  
1 1/4 cups diced cooked potatoes  
2 hard cooked eggs, minced  
1 sweet cucumber pickle, minced  
1/2 teaspoon chopped onion  
Salt and pepper to taste  
Mayonnaise

Combine potatoes, eggs, pickle and seasonings. Moisten with mayonnaise to a spreading consistency. Use for white or whole wheat bread.

**Deviled Peanut Butter.**  
1/2 cup deviled ham  
1/2 cup peanut butter  
2 tablespoons chopped pickle  
Mayonnaise

Combine peanut butter, ham and pickle. Season to taste and moisten to spreading consistency with mayonnaise. This is good with a graham or dark bread.

**Egg and Celery Filling.**  
4 hard cooked eggs  
2 dill pickles, chopped  
1 tablespoon vinegar  
Salt and pepper  
1/4 cup diced celery  
1 tablespoon minced onion  
3 tablespoons mayonnaise

Separate yolks and whites. Chop whites and combine with celery, pickles and onion. Mash yolks and add vinegar. Combine with first mixture and add mayonnaise. Season to taste.

**Liver Filling.**  
1/2 pound liver sausage  
4 tablespoons chili sauce  
1/4 cup celery, chopped  
2 tablespoons melted butter or substitute

### LYNN SAYS:

Use these short-cuts: If a recipe calls for soured milk and you do not have any at home, use 2 teaspoons of vinegar to 1/2 cup of evaporated milk and let stand until it sours.

When broiling steaks and chops, place 2 slices of bread in the pan under the broiling rack to prevent fat from splattering in broiler.

In cleaning fish, prevent the odor from clinging to the hands by rinsing them in chilled water before touching fish. Wash afterwards in a solution of as hot as possible salt water.

To sugar dates, doughnuts, etc., place sugar in a paper bag, add dates and shake.

When preparing green or wax beans, it is quicker and easier to cut them crosswise with scissors, than trying to cut them with a paring knife.

To warm leftover rolls, sprinkle with hot water, place in a paper bag and set in oven for a few minutes.

### LYNN CHAMBERS' MENUS

- Scalloped Ham and Noodles
- Green Peas
- Cabbage-Carrot Slaw
- Graham-Nut Bread
- Beverage
- Pineapple-Chiffon Pie

Mash liver and add remaining ingredients. Season to taste. Use on white or rye bread.

**Salmon Filling.**  
2 cups shredded red salmon  
1/2 cup chopped green pepper  
1 cup mashed potatoes  
1/2 cup chopped cucumber pickles  
Salt and pepper  
Mayonnaise or salad dressing

Combine all ingredients, season to taste and add enough mayonnaise to make of a spreading consistency. Use with white or whole wheat bread.

**Tuna Fish Filling.**  
1 cup shredded tuna fish  
1 cup finely chopped tomato  
3/4 cup diced cucumber  
1 teaspoon minced onion  
Salt and pepper  
Mayonnaise

Combine all ingredients, season to taste. Add enough mayonnaise to thin to spreading consistency.

**Raisin-Honey Filling.**  
1 cup chopped or ground raisins  
1/2 teaspoon salt  
3 tablespoons honey  
1/4 cup chopped nuts  
1 1/2 teaspoons lemon juice  
1 tablespoon mayonnaise

Mix all ingredients together and use as a filling between thin slices of brown or white bread.

**Cheese-Marmalade Filling.**  
1/2 cup grated American cheese  
1/2 cup orange marmalade  
1/4 cup cream  
Prepared mustard

Combine cheese and cream, then add marmalade. Spread on bread with a thin film of prepared mustard.

When you serve sandwiches for entertaining or with salads, the open-faced variety are very popular. Use only very fresh bread, thinly sliced and buttered. Here are spread suggestions:

**Mushroom-Ham.**  
Cover very thin slices of boiled or baked ham with mushrooms which have been peeled and halved. Broil until the ham is browned delicately and the mushrooms are soft.

**Pimiento Topping.**  
1 teaspoon cornstarch  
2 tablespoons butter or substitute  
1 cup diced cheese  
6 tablespoons milk  
1/4 cup chopped pimiento  
Salt and pepper  
2 tablespoons pickle relish

Combine cornstarch and milk. Add cheese and butter. Cook in a double boiler until thick and smooth. Season to taste and cool. Add pimiento and pickle relish. Spread on thin, buttered slices of bread and serve at once.

**Tomato-Egg Topping.**  
1/4 cup minced onion  
1 cup canned tomatoes or juice  
1 cup minced bacon  
1/4 cup slightly beaten eggs  
Salt and pepper

Fry bacon until crisp. Add onion and brown. Add tomatoes and season to taste. Add eggs, cooking slowly, stirring constantly until whites are firm. Serve on toast.

**Cucumber Topping.**  
1 medium cucumber  
4 hard cooked eggs, chopped  
1 teaspoon minced onion  
Mayonnaise  
Salt and paprika

Peel cucumber and slice lengthwise. Remove seeds and chop fine. There should be about 1 cup pulp. Add onion and eggs, moisten with mayonnaise to spreading consistency. Season to taste and spread on buttered slices of bread. Garnish with paprika.

## IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL LESSON

### Lesson for October 13

### PAUL MAKES A NEW START

LESSON TEXT—Acts 26:9-18; I Corinthians 15:8-10.

MEMORY SELECTION—This is a faithful saying, and worthy of all acceptance, that Christ Jesus came into the world to save sinners.—I Timothy 1:15.

All that a man has by nature is not enough. We saw last week the preparation by heredity, education and environment which Paul had for a place of leadership. But it was not enough. The capable, well-born, well-trained young Jewish aristocrat had to be born again spiritually before he could do God's work.

Careful Bible students regard the conversion of Paul and the resurrection of Christ as the two outstanding events of the New Testament. Without the resurrection of Jesus, the conversion of Saul of Tarsus (whom we know as Paul the apostle) would not have been possible, and at the same time his conversion is one of the strongest proofs of the resurrection.

We find him in three relationships.

### I. By Nature—Contrary to Christ (Acts 26:9-12).

It is not enough, as some of us suppose, that a man be sincere. Paul was entirely sincere in his conviction that he ought to persecute the Christians. He did it with a good conscience (Acts 23:1), for a man's conscience commends him for doing what he believes to be right, even though he may be wrong in his thinking.

He was sincere, but he was anti-Christian. By nature man is at enmity with God. No good thing dwells in the flesh apart from the redeeming grace of God (Rom. 8:7; James 4:4; Rom. 7:18).

Stirred, probably by the faithful testimony of Stephen, to even greater zeal against the followers of Christ, Paul had to find new worlds to conquer, so he set out "breathing out threatenings and slaughter to destroy the church in Damascus" as he had sought to do in Jerusalem.

He was a bold persecutor, doing all he could "contrary to the name of Jesus" (v. 9), until he met the Lord himself on the Damascus road. Ah, that meeting made him a different man and he became

### II. By Faith—Converted to Christ (Acts 26:13-18).

Stricken down by a brilliant heavenly light, he found himself talking to the Lord Jesus. He heard from his holy lips the solemn indictment of those who persecute God's people—"Why persecutest thou me?" He who lays unkind hands upon, or brings untrue accusation against, God's children had better beware, for so closely is our Lord identified with his people that when they suffer, it is he who bears the hurt.

In a single sentence the Lord disposed of the persecuting zeal and the sinful skepticism of this proud young Pharisee, and Saul entered into Damascus not as the haughty persecutor, but as a man trembling and astonished. He spent three days shut in with his own soul and God; not seeing, not caring to eat, but entering into communion with God. By God's grace the old life was pulled up by the roots as it was displaced by the new life in Christ Jesus.

God had a great commission awaiting Paul as soon as he was ready for it (vv. 16-18). He was to be the apostle to the Gentiles, and that includes so many of us. The gospel which had come first to the Jews, was now to go out into all the world and to all people.

The change in Paul was a drastic one. He was as one who was alive from the dead. It was not a case of adjusting or refurbishing the old persecutor Saul—here was a new creature in Christ, ordained to good works (Eph. 2:8-10).

### III. By Grace—Confessing Christ (I Cor. 15:8-10).

Twenty years had passed since Paul's conversion. He had been out serving Christ, in season and out of season. He had known persecution, suffering and opposition. Now he was writing, by inspiration of the Holy Spirit, about the resurrection, telling of those who had seen the risen Christ. He included himself as one born out of his time.

It is a personal vision of the living Saviour which vitalizes the spirit of a witness and makes his testimony ring true. Paul saw Christ. We too may see Him with the eye of faith, and by His grace become witnesses.

Effort and labor are involved. This matter of witnessing is not something which automatically does itself. "I labored more abundantly," said Paul, and yet he knew that it was the grace of God in him which accomplished the result (see v. 10 and Phil. 2:13).

That is it! The grace of God working on and in and through a man. And at the same time, that man laboring diligently that the grace bestowed upon him should not be found vain. It is in this manner God's work gets done on earth!

Even a good egg has to be careful if it's done for you.

People don't get round-shouldered from following a hunch.

We couldn't understand why son was constantly falling out with his girl friend until he said she was all ways willing to kiss and make up and he liked that.

Some people never forget a favor if it's done for you.  
A simple truth: whiskey has wrecked more homes than water has wrecked ships.

No matter how low a man may drop in the scale of society, there is always a woman and a dog that will love him.

To an engaged couple the three letter word "yes" may mean eternal bliss; but it only takes a two letter word "no" to mean freedom.

We were served a steak the other day which the chef said was "ze piece de resistance." And it sure did resist.

Sixty five per cent of the world's population live on farms.

Pilgrim's Progress was written by John Bunyan while he was in Bedford jail, in England, where he had been imprisoned because of his religious beliefs.

Every time we spin a yarn the wife knits her brows.

## Uncle Sam Says

All of us are familiar with quizzes about this and that. Let's take this question: What is the strongest, economic family asset in America? Millions of you could win the jackpot prize for the correct answer, U. S. Savings Bonds, of course. Ownership of U. S. Savings Bonds is now part and parcel of our American way of life because Americans know that Savings Bonds help to build a better, firmer future. Americans know that they yield a good profit at no risk at all to the principal.

## Partnership

Did you ever have a joint checking account with somebody? They can be handy things sometimes. So can a tin of gasoline in the basement, but both are extremely dangerous. All parties concerned must, of necessity, have a co-operative understanding about how a joint checking account is to be used, how fast and for what purposes. Otherwise, one party's error might cause the other one trouble, no end.

I knew a man once who had a joint checking account with his son, who was a minor. The father didn't deposit all his money in this account. He didn't use it at all, in fact. It was just his way of guiding his son's early efforts to balance accounts and use money wisely. The idea was to teach the boy to distinguish between investing and just plain spending of money.

**A Joint Account**  
I wish all taxpayers in the United States could realize that they have a joint checking account with Uncle Sam. Moreover, I wish they might suddenly wake up to the fact that everything they have is in this joint account. If Uncle Sam's stubs are not balanced, or if Uncle Sam's checks are not all numbered, Mr. Taxpayer is certain to have to make it good personally when something "bounces."

Government can assess taxes to the amount of what government needs, or thinks it needs, and that's a matter of judgment. During the war our executives spent money faster than it came in, running the country's debt to 268 billion dollars. However wisely the debt was contracted, it will never be any smaller until government officials begin spending less than they collect from the people by taxation.

**Balance the Budget**  
There is considerable doubt whether those who spend and those who pay have a co-operative understanding about their joint account. They ought to see eye-to-eye. Victory was cheap, whatever it cost in money, but the unpaid portion still has to be met. Moreover the country's best economists think now is the time to start paying off the debt, while nearly all of us are earning good pay.

Recently I saw a summary of proposed federal spending for the next 12 months; a work-sheet from the 1947 budget, currently being considered. This budget can be balanced as certainly as figures can be depended upon to tell the truth. It calls for an outlay of 35.1 billion dollars to come from 31.5 billion of revenue—just 3.6 billion dollars in the red. Such a shortage need not exist.

**Stay in the Black**  
The deficit can be offset two or three times by economy. Most of the expense items can be deflated some. Such obligations as social security, veterans' benefits, refunds and the interest on public debt are fixed. They can't be cut. But there are seven other general classifications of expenses that ought to be deflated about 50 per cent, all told. If this over-draft can be avoided it's a duty.

Proposed expenses that ought to be lowered are these:

Items Might Be Cut	From	To
National defense	\$16.0	\$8.9
International finance	1.7	0.2
Aids to agriculture	0.5	0.3
General public works	1.1	0.7
General government	1.6	1.1
Suppl. appropriations	0.9	0.7
Proposed legislation	1.5	0.0
	\$23.3	\$11.9

We've repeatedly told the daughter that we would like for her boy friend to be the kind who keeps his object in life before him at all times. Now we can't complain when he calls on her seven days a week.

We feel awful out of date because we have had nothing yet to do with smashing, perfecting or testing the atom.

## Subversion

However successful America's system of free enterprise has been, faith in planned economy has spread rapidly over this nation's political thinking in the last 25 years. It is strange that the world's most prosperous and influential people should forget how its power was built, and think about imitating a plan that fails every time it is tried, but that's the picture.

How did planned economy get into the picture in the United States? This is the country with no peasant class! It is here that laborers drive their own motor cars. This is the land where farmers live like lords in older countries. It must have been a strange set of circumstances that turned the eyes of a favored people to look with envy at under-fed and over-worked races beyond the seas.

**The Only Head**  
The facts were not all known. If farmers and craftsmen of America could see how men of similar skills elsewhere must live, they would thank God for giving their forefathers wisdom to safeguard in our Constitution the right of ownership. Americans who lean toward socialism have seen very little of it and heard only one side. Planned economy invaded America thus:

After Liberty Bell had been silent 150 years, the Statue of Liberty grew green with tarnish and people began taking freedom for granted. Carefree descendants of men who endured Valley Forge ceased to appreciate their costly birthright; simply had no idea how it would seem to be without freedom. Sly digs at America and her people were swallowed down by an open-minded generation.

**Poisonous Teaching**  
Protected by the free speech clause in our Constitution, soap-box orators started braying against invested capital. Crafty minds coined such slurs as "entrenched greed" and "economic royalists" to stir up envy and make success in business seem dishonorable. Wordy wars against "coupon clippers" frightened investors, large and small, and choked the flow of capital into business.

It is not possible in any country to provide abundant lives for the masses by raiding the rich, but the idea was hatched and spread around in America. Armies of idle people were trained to rely on government instead of on themselves. Even in schools supported by the state, boys and girls learned to question the value of individual opportunity, a cardinal liberty.

**Government Control**  
War came, and it was two years old before victory was even reasonably certain. Government rightly seized the nation's resources and manufacturing plants, and (presto) a lion's share of America's bread winners were in war work drawing the highest pay they ever heard of; Uncle Sam going in debt 150 million dollars a day. Things to buy became scarce, and loose money rattled in every pocket.

Quite naturally people gave government the credit when, after four years of government management, they had more money than they could spend. Actually the facts are not related. When a public debt, that approximates the country's worth, keeps growing, people are not prosperous even if their wallets do bulge with "lettuce" because there are not enough things to buy.

**ILLS OF WINTER COMPLAINTS**

Young children may suffer as much from winter illness as they do from those commonly known as summer complaints. In the opinion of the State Health officer and his advice to parents as the winter season approaches is to guard babies and young children against these winter health hazards. Influenza, tonsillitis, pneumonia, bronchitis and asthma are included among those diseases which may be dangerous winter illnesses among young children since they affect the respiratory or breathing system. Such disease as pneumonia may develop from a neglected cold, they may follow as an after effect of measles or whooping cough or they may occur suddenly and without any little warning. These diseases of the respiratory system are more prevalent in winter than in summer and are much more difficult to combat than digestive ailments such as summer complaint.

These winter diseases are particularly dangerous to babies and young children. Nearly all of them spread through the secretions from the nose and mouth. Children in vigorous health are natural more susceptible to these complaints and the first line of defense is to strengthen the powers of resistance against disease. The second is to keep them under medical supervision and the third is to make sure they avoid contact with others who have coughs, colds or fevers.

**I GIVE YOU TEXAS**  
Boyce House

Your columnist has been interested all his life in public affairs. Away back yonder in the seventh grade, I lived in Mississippi, famed for its political oratory and heard some of the spellbinders of the era. I practiced Senators James K. Polk and John Sharp Williams. Then, in high school days in Memphis, Tennessee, I heard William Jennings Bryan, Senator Bob LaFollette (the original) and former Governor Malcomb R. Patterson, the greatest political orator I've ever heard.

The subject of keenest interest to me in high school was debating. Our coach was a young, red headed dramatic teacher from Texas, James Leonard Highsaw, who used to live in Delta and Collin counties. I took every subject he taught: economics, government, history, and sociology. Then after school three of his favorite boys would meet in his room and we would prepare for our next debate until it grew too dark to see.

We debated such subjects as the state house legislature, initiative and referendum, capital punishment, government ownership of utilities and the tariff.

We had two literary societies and debated within our society, also in inter-society contests and with other high schools. My two colleagues on the high school team were Sterling Tracy and Clifford Davis. Sterling Tracy won the state high school oratorical championship and in the University of Wisconsin, he won the oratorical championship of the Big Ten. Clifford Davis is about to begin his fourth term in Congress.

Your columnist lacked the speaking ability of those two and so tried to make up for this deficiency by studying extra hard, on the subject of the rebuttal, where the speaking has to be extemporaneous. I used to attain a speed of 200 words a minute. The other boys were generous and elected me captain of the team.

Memos to All Editors:

The anti-Roosevelts are using this: A Republican (Chicago) paper's reporter asked Bob Hannegan: "Who'll be your candidate in '48—Truman?"

"Nope," Hannegan replied (don't forget this is an alleged joke). "not strong enough. The public apparently no like."

"Could it be Wallace?" pumped the reporter. "Hell, no! Can't take chances with him. They think he's a Red."

"Well," said the scribe, "if it ain't Truman or Wallace, who do you think it might be?" "Oh," said Hannegan, "I dunno! There's plenty of time. We'll dig up someone."

"Oh, NO!" roared the Republican, "not HIM!"

Prof. Manne Siegbahn's trip here is for several confs with Einstein. He's Sweden's top atomian (collaborer of Lise Meitner).

Add significant Russ-U.S. notes: The Russian purchasing commission in Washington (which numbers about 300 expert Soviet engineers and technicians) is discharging its U.S. employees, preparatory to shutting down Jan. 1. That means, I'm told, the Russians do not expect to buy from us any more the way things stand now, etc.

Reminder: Great Britain and Russia signed a non-aggression treaty in 1941. Which side would British be on in event of conflict, considering treaties are pieces of papyrus?

Reason Russians so cocky lately is they allegedly have cosmic ray bomb. Plan inviting Americans and other nations to a demonstration of the new weapon in their "war of nerves."

Washington Digest Friendly Russian Element Holds Out Hope for Peace

By BAUKHAGE News Analyst and Commentator.

WNU Service, 1616 Eye Street, N.W., Washington, D. C.

WASHINGTON, D. C.—"America has no foreign policy!" That is one of the bromides which has always been popular among critics of government.

Baukhage

If we haven't any foreign policy today, then many hundreds of thousands of words have been expended in comment on nothing.

While the recent Byrnes-Wallace controversy was raging I spent many hours trying to find out what our foreign policy toward Russia was supposed to be, and if so, why.

They are complicated because it appears the approach must be made along two separate paths, each leading to a separate Russian group.

They are difficult because there are unusual obstacles put in the way of the diplomat, especially our representatives in Moscow; obstacles which, I am assured, must be encountered at close quarters to be appreciated.

The two groups, since neither is homogeneous nor closely identifiable, might better be referred to as two elements. One comprises that great indefinable and inarticulate body, roughly classified as "the Russian people."

Many in this group, especially those who have met Americans, like us. All want to know more about us. For example, they devour the big, propaganda, picture magazine "Amerika" printed in their language and distributed by our embassy.

This group admires and respects mechanical know-how, our industries, our technical skills. Officially there has been no propaganda to cry down American achievement in the production fields, but rather exhortations to emulate and surpass us.

Other Russian element which we have to consider and with which we deal directly is composed of the leaders, the party bureaucrats, the secret police. They hate America with an almost incredible hatred.

Their attitude is so extreme that it does not seem real; it appears to be prompted by a policy, rather than a normal, human, emotional reaction.

If either of these two elements existed alone it would be simpler to establish a line of procedure. But, my informant points out, each element requires a separate and different approach, since the two contradict each other.

Because the only visible hope for an understanding with Russia depends on the semi-friendly group, nothing must be said or done in our relations with the other (now in power), which would make it seem that we are building a wall against Russia.

This dual approach was exemplified by the Byrnes speech calling for the unification of Germany, under a single government, with all four occupying countries acting together as co-directors of the whole. Byrnes made the proposal inclusive.

Russia would participate equally with the rest. The intention of the United States was firmly stated. There would be union of British and Americans, presumably the French, and the Russians, too, if they consented.

More than half the children in the United States lack essentials in their diets. More than 1,018,364 dwellings in the United States have no toilet facilities, it set him to thinking.

Are our low-income people living under these circumstances because they are lazy or has their education failed to suggest ways of improving their lots?

Dr. Clark believed the answer lay in the latter. Determined to prove his theory, he went to the Alfred P. Sloan Foundation and interested the industrialist and his brother Harold in making a study of eight schools in the lowest income areas in the United States. That was in 1939.

Foundation Takes It Up. The foundation selected schools in three low-income areas: The Appalachian mountains, Florida and Vermont.

The basic plan was to find out if knowledge of local problems in housing, clothing and food could be taught to children in reading lessons and then in practical projects and so win them over that they would take this knowledge home and share it with their parents.

They learned how southern houses should be built to get as much air as possible. The children learned about canning. One family that had put up 17 quarts of fruit the first year of the experiment canned 938 quarts last year.

Many Lack Clothing. In Vermont, where many children seemed to be out of school because of a lack of clothing, the pupils learned to sew on buttons, to mend tears, to wash socks for longer wear, to unravel the wool from old garments.

They bought some, cared for them on daily trips to the pasture, wrote about these visits in class. While there are no immediate plans for expanding the project, Dr. Clark believes it will grow as its effectiveness is demonstrated to teachers the country over.

Find Education Can Help Poor Families Move Upward Under Specialized Training, Investigators Say.

NEW YORK.—When Dr. Harold Clark, professor of education economics at Columbia university, read these statistics it set him to thinking:

Thousands of American mothers must clothe their entire families on \$100 a year or less. More than half the children in the United States lack essentials in their diets.

More than 1,018,364 dwellings in the United States have no toilet facilities, it set him to thinking. He asked himself: Are our low-income people living under these circumstances because they are lazy or has their education failed to suggest ways of improving their lots?

GAO Is Official Name Of Uncle's Watchdog

Biggest Accounting Outfit on the Earth Guards Cash.

WASHINGTON.—Anybody who gets money from the government when he isn't entitled to it has to buck the general accounting office (GAO).

It's the biggest accounting outfit on earth. It has thousands of ways of nosing out leakages of government funds, whether through fraud or error. Fifteen women, for instance, have learned how GAO catches up on marital wrong-doers.

But they didn't know that GAO has a file of paid allotment checks arranged by first names. GAO figures that when a woman commits bigamy or adopts a false surname she is likely to retain her true first name.

Every voucher paid by a disbursing officer of the government is reviewed by GAO's audit division. In the fiscal year which ended this July, 39,000,000 vouchers were checked.

GAO filed exceptions to 417,000 of the vouchers—resulting in the government's receiving refunds of \$43,400,000. The discrepancies are usually the result of error and not fraud, says E. W. Bell, chief of the division.

One GAO unit, the corporation audit division, headed by T. Coleman Andrews, makes commercial audits of all wholly owned government corporations, now numbering about 95.

Andrews, who was a marine corps reserve major on duty in Kwajalein when called to his present post in the spring of 1945, has scored colleges and accounting firms to assemble 205 highly qualified accountants for his division. He intends to have 300 when fully staffed.

Expect 1946 Incomes Will Set New Record

WASHINGTON.—Figures compiled by government experts indicate that individual incomes will set a record of around 163 billion dollars this fiscal year—exceeding the booming war year of 1945 by 5 billion.

Moreover, information gathered by the taxation staff employed by congress suggests that even this estimate might be revised upward before the fiscal year ends next June 30.

This raised a possibility that the federal budget, thrown out of kilter by depression and war, might be brought into balance. All these things are based on the assumption that the nation will remain relatively free of any large-scale strikes for the remainder of the fiscal year.

Build Electric Gadget To Toss Plane Into Air

PITTSBURGH, PA.—Westinghouse Electric corporation has disclosed development of the "electropult" for launching jet propelled and robot planes and heavy bombers from shipboard or small landing fields without the slamming shock of catapults.

M. F. Jones, Westinghouse engineer, said the device originally was built for the navy and that designs have been completed for the largest existing airliners at 120 miles an hour with a take-off run of only 500 feet.

The electropult consists of an electric motor more than a quarter of a mile long and as powerful as three passenger locomotives. In operation a plane is hitched to a small car which speeds down a "roadbed" and tosses the plane into the air.

U. S. Ship Breaks in Two Near the Coast of France

BORDEAUX, FRANCE.—The United States Liberty ship David Caldwell, out of Hampton Roads, Va., with 9,000 tons of coal, broke in two during a heavy storm in Gironde estuary. First reports said two persons were dead.

Heavy seas prevented rescue craft from approaching the stricken vessel, which ran aground before breaking up. Seven members of the 50-man crew reached shore and were rushed to hospitals in Royan and Rochefort. Crowds on shore saw several seamen struggling in the water.

A Dressing Table For That Corner

IF YOU are having trouble seeing the back of your smart new hair-do, here is a dressing table that solves the problem. It fits into a corner and is so designed that you can sit up close to the triple mirror.

It is easy to make from a thirty-inch square of plywood which also provides the material for the useful overhead shelf.

This practical idea is described more fully in SEWING Book 8 which also contains illustrated directions for more than thirty other things to make for your home. A copy of Book 8 may be obtained by sending 15c with name and address to:

BARBS . . . by Baukhage

Animal lovers were glad to learn that the blooded horses held aboard strike-bound ships finally agreed to disregard the picket lines—something a well-trained army horse would hesitate to do.

In the midst of the maritime and trucking strikes, Manhattan's barber's helpers and manicurists walked out. It made little difference—New Yorkers had already bitten their nails short over previous troubles.

Some dogs and husbands won't stay home, no matter how well you feed them.
