Tech Student Is Bitten By Rattler Near Here

Thanks to some prompt attengood condition after being bitten by a four-foot rattler 15 miles south-east of O'Donnell Sunday afternoon

Jack Tillinghast of Lubbock, was last reported in good condition in Medical Arts Hospital in Lamesa. Physicians there said the assistance of four hunting companions could have saved his life.

Tillinghast, a gymnast and member of the "Flying Matadors" at Texas Tech, was hunting in rugged "breaks" country when the rattle-snake bit hi mon the calf of

a leg.

The companions, Bob Furlough
Ken White, Charles Simpson, and
Wendell White, all of O'Donnell
applied tourniquets and used "snake
the" kits which the trio carried. kits which the trio carried Kenneth White also is a Texas Tech

student.
The hunter's companions carried The hunter's companions carried Tilinghast about a quarter mile to their automobile. An hour and a half later, the victim was resting comfortably in the hospital.

The tables were decorated with spring flowers of pastel colors, min-ature paper birds and butterflies. Candy-filled colored Easter eggs in nests of grass were used for place cards. The menu consisted of bak-The menu consisted of baked ham, green beans, baked potato, green salad, rolls, iced tea, coffee

e About 75 local folks last nite tion by his companions and the heard Delbert Downing of Midland give the kick off address to the use of "snake bite" kits, a 20- give the kick off address to the year-old Texas Tech student was in newly formed business club. Presid- Vestal, LaNita Wood, Paula Beach

> Mr. Downing laid the basis of his talk on "The O'Donnell Ideal" built his theme on the fact since 1930 Texas has lost over 700 post offices — in other words over 700 Texas villages have vanished largely due to fast cars and good roads. Will that be O'Donnell's fate? It will NOT, Mr. Downing said, if we love our town and build into the things that are our ideal. He talk with the idea of making Big O a good place to live the American way of life, a good place to rear a family, a good town to trade in, a good town to receive basic education. A good town for our children and their children to work in and live in for

all time to come.

Mr. Downing proved to be a delightful speaker with a dry humor and a masterly abality of giving a dougle meaning to illustrations. In years past he has spoken to the

Raising more pigs on less feed thru imporved sanitation and dis-ease control is the theme for the 10th Annual Swine Short Course to be held at Texas A and M. College, April 3 and 4th. An expected high-light of the meeting will be the carcass evaluation of the 150 pigs which have been on feed since Jan-uary. They were placed on feed at A and M. by producers from every section of Texas

The annual Cage Clinic for those connected with the commercial egg industry in Texas will be held on March 29th at Texas A and M College. Producers, salesmen, service-men, hatcherymen, feed and supply dealers and egg merchants have special invitation to attend.

-0-Fertilizer nutrients, if properly applied in the correct amounts, will lower cotton disease losses, says Harlan Smith, extension plant pathologist, Balanced fertility is important.

Planting seed bought at a bargain price can be very expensive. R. J. Hodges, extension agronomist dvises farmers to buy the best eed available. They are the cheapst in the long run, he adds, for better yields and top quality crops are most likely to come from fields planted with the best seed of recommended varieties or hybrids.

A soil test will help take the guesswork out of buying and applying fertilizers. Do not guess, soil test.

The 1961 "Texas Guide For Controlling Cotton Insects" is now available from the offices of local county agents. Also available for cotton producers in the High Plains and Trans-Pecos areas is a guide for their particular areas. Its number is L-50%. County agents in these areas have copies available.

chance for misuse

But the very fact that danger exists is a sort of safety factor. Persons engaged in peacetime uses of radiation equipment and materials, acutely aware of the chances of a miscue, handle them with extreme caution.

certain: radiation — using x-rays to judge Miss Good Posture contests and in radiant energy.

Just for the record, the physician would have thought long and seriously before ordering x-ray if is sheer folly.

THIS WEEK IN AUSTIN -

By Preston Smith, Senator, 28th Senatorial District

Texas' critical issue of deciding on new taxes has certainly generate ed more mail to legislators this session. My mail has certainly picked up this session. And frankly, it seems there is a lot of grass root support of a general sales tax, if my mail here is any guide.

may efficiently treat cancer in practically any body region or organ.

Within recent years industrial uses of radioactive isotopes — another type of radiant energy—have grown to enormous proportions.

And as all the other tax bils hit the news, all of us here are getting more calls, wires and mail. It is encouraging to me. It means that the interest of he people will be appulied to the state's problem. And the people.

> As I have always said: We in the Lesislature are here only to do what our people in our districts direct The only way we can do our jobs is to hear from the people back home

The traditional problem of state taxes has singled out many sources over the years to satisfy the state's needs. Some of the taxes levied have been unfair to some businesses as think just about anyone familiar with Texas legislatipe history will agree. The reason these tax levies were not as fair as they should be is because the legislators did not have all the facts when they considered the tax measures.

That is the reason that all leg islators here are not disturbed but are happy as they can be that home folks are writing in, calling in and wiring in to let us know how they feel about the taxes which been proposed in recent weeks. Keep up the good work. Let us hear from this district. It is the only way we can know we are serving your best

For Sale — My home, 5 rooms and bath, modern, pavement two sides, S. M. CLAYTON, SR. ph 147

Your dreams of better living come true...

in a home that displays this MEDALLION

The electrical comforts and conveniences you've always wanted are yours to enjoy in a Medallion Home. The "Live Better Electrically" Medallion identifies homes that are equipped for truly modern electrical living with Full Housepower home wiring, basic work-saving electric appliances and beautiful, efficient Light for Living.

Only new or remodeled homes that meet modern high standards for electrical living are eligible to display the Medallion. Look for it when you choose your new home. It's your assurance of a home in which you can live better electrically, now and in the years to come.
