Baird Bears Defeat Gorman Friday Night For District Crown

The Baird Bears outlasted the stubborn Gorman Panthers Friday night in Baird to cap the 8-B District Crown. The score was 19-0 with all scoring done in the last quarter.

Baird will meet the Rochester Steers, 7-B champs, Friday night at Parramore Stadium on the Hardin-Simmons University campus for the bi-district honors. Time is 7:30 p.m.

The Panthers penetrated past the Baird 20 only once, that with three minutes left in the game. The ball went over to the home-owners on the 8 on fourth down.

The two teams battled to a scoreless tie in the first two periods. It was the same story in the third period but Baird stormed the goal line during the third stanza.

Early in the fourth period Bear fullback, Norman Smith, blasted over from the 1 to cap a 50-yard drive. The touchdown was set up by a 20-yard pass from quarterback Terry Joy to end Buddy

Youth Center Open For Younger Group

The Baird Youth Center will be open Saturday night, Nov. 22, from 7 p.m. until 10 p.m. for the 6th, 7th and 8th grade age group.

The Baird Youth Center opened November 8th for the 6th, 7th and 8th grade age group and was opened for the high school age group after the Baird-Gorman game. Both of the nights were a success and there were 36 who registered out of the grade school group the first night and there were approximately 14 adults present for the first night. On the opening night for the high school age group there were approximately 35 there and several adults.

In the near future it is hoped that the parents will participate along with the Junior Wednesday Club and the American Legion. It is the aim of the Board of Directors to have three sets of parents there each night. It is open so when you are called on to come please try to attend.

Through the courtesy of M. T. Cornelius of Abilene, we now have a juke box available with all the latest records on it. Mr. Cornelius donated the juke box when he learned that it was for a youth center.

Soft drinks and candy are on sale at the Youth Center.

Come on out and join us Saturday night and help the young people of our town have a good time at home. If anyone has any games they would like to contribute to the Youth Center we would be glad to receive them.

SWEET N' SOUR

By Linda Dill, Inc.
(Standing in for Atrelle)

Hi, there! My old lady, A. Dill isn't feeling too hot this week so I'm filling in the blank. I'm not as good a writer as my mother, but I hope you'll enjoy this.

It sure is getting near Christmas -- our town shows it. The Municipal Light Plant is all decked out in holiday dress and Christmas lights are strung across our streets and will go on next week. Sure is wonderful, isn't it? Bet Baird is the best lighted town you'll see anywhere and we're happy about it.

The band mothers thank the townspeople very much for the wonderful turn-out for the Thanksgiving turkey dinner they served last week. They made approximately \$165.00, which is gonna give us a better band -- with new equipment to help where its needed most. By the way, high point ticket salesmen for the dinner were Virginia Barnes, Jud Gilliland and Carol Lynn McGowan.

Guess who was an important visitor in town last Saturday? Barry Lawrence Bowls, Dub and Rae Jean's young son. He snuggled in his grandmother's (Elsie Bowls) arms, and made goo-goo eyes at everyone that he saw.

Don't forget that Monday, Nov. 25, is Home Talent night. Sponsored by Mrs. Clyde White, Jerry Cochran and the Junior Class, the talent show is one of the most looked-forward to events of the year. With Dale Glasson on board as MC, and the fullest program of talent ever, this year's show promises to be an extra treat. Make a circle around the 25 on your calendar and by all means -- be there!

Happy birthday to Dickie Eastham out in Fort Worth, and to Morris Eastham, also of Fort Worth. Best wishes to Cale Welton on his birthday and to Mrs. Dale McIntosh who celebrates this month. Best wishes to our very dear friend, Bessie Pass.

November is a big, big month for the Stanley family. They have a full house of November-born -- J. P. Stanley, Chris, Bobby, Paul and way up in New Mexico, Bertha Stanley. We also wish happiness to B. F. Everett in Big Spring -- it's his birthday too.

There's big news for the Everett-Stanley family. Birth of Teresa Ann Easterling. She is the daughter of Sue Ann Everett Easterling and Jerry Easterling, and her grandparents are Eunalee and Buel Everett of Big Spring.

Congratulations to Caldwell's Furniture Store for presenting a real cool calendar, featuring a big picture of the 1957 Baird team, Coach Jefferies and Coach McHaney. And while we're on the subject of Baird Bears, say, they won the district crown. They won the honors last week in the Gorman game. Bi-district game is going to be played Friday night in Abilene. Back the Bears more than 100 percent -- perhaps 100 percent would fill the bill.

We had a nice visit from two good friends, Stella Hill and Sallie Eastham. They came all the way from Fort Worth to see friends in Baird, to visit Mrs. Ebert and to attend the turkey dinner which the Gleaner Class held in the Ebert home last week.

All our get well hopes to the Donald Smiths, and we wish for him a speedy recovery from an injury received on his job. He is in an Abilene hospital and our friend, Mrs. Nadine "Smitty" Smith is with her husband.

Best wishes for the fastest recovery ever to Tommy Sue Pruitt, who is getting over 8 mumps, hoping she'll lick them quick.

Paper To Be Mailed Early Next Week

In order that the employees of The Baird Star and Clyde Enterprise may observe the Thanksgiving Holiday with their families and friends, the papers will be published a day early next week. Both papers will be mailed Wednesday afternoon instead of the usual Thursday afternoon mailing.

To be able to do this, we will have to have the cooperation of our advertisers and correspondents. So we beg of you, please help us have a holiday along with you that all of us can be thankful for the many blessings we enjoy.

Many Thanks and we hope you enjoy your day of Thanksgiving.

\$100 Million Cotton Loss Estimated

The long awaited rains came to Texas this year — and came again, and again and again. Now that blessing has become a kind of curse in many cotton areas of Texas. Ill-timed fall rains on the unharvested cotton have caused a crop quality loss conservatively estimated as over \$100 million.

In Paris . . . the most style-conscious fashion critics in the world had a deep, low bow for Ford's latest style creation. In the mighty Himalayas, Ford's new Interceptor V-8 engine with Precision Fuel Induction won the day!

From London to Bangkok::: the whole world loved it!

The 58 Ford stopped traffic in Trafalgar Square when it passed through on its round-the-world trip. And that was typical of the excitement this Ford caused in Paris . . . Rome . . . Athens . . . Istanbul . . . Calcutta . . . and Bangkok. For this Ford was proved around the world in the toughest "shakedown" cruise in history.

"THERE'S NOTHING NEWER IN THE WORLD OF STYLE!"

BEING JUST A CHRISTIAN

HOW CAN I KNOW THAT GOD HAS REVEALED HIMSELF TO ME?

By J. Harold Thomas

"A man can know by experience that God has revealed himself to man!"

Jesus of Nazareth is a fact, and Jesus said that he revealed God. He revealed the commands and promises of God. And he revealed the spirit and nature of God.

I've tried Jesus' way. And it works! To whatever extent I have put into practice the teachings of Jesus and made any serious effort to be like him it has brought the blessings he promised. Even the paradoxes he taught have proved out.

He said that he that humbled himself shall be exalted. He said that if a man lost his life for his sake he would find it. He said that if people would put God's kingdom and his righteousness first that all the things they needed would be supplied.

Now I've done much, much less than I should have done, but I have had the opportunity to learn that humble, unselfish acts of people, performed without any expectation of reward have been followed by wonderful blessings. I have committed

myself to tasks in which I felt I would be forgotten only to find that I was inexplicably in the public eye and credited with more than I have ever deserved. I have learned that it is very difficult to make a sacrifice for God — that when I've felt I was ready to make a sacrifice for him and perhaps 'was' making it there was very soon a 'compensation' far exceeding what I had proposed to offer so that I or mine have never lacked any needful thing!

Once a man whom I knew to be indifferent to formal religion said to me, "You'll be surprised to know it, but I pray, and I know God answers prayers."

I'm sure God gave me the answer that came because I had never been given it before. I said, "Fine. You've learned that a little Christianity works, why don't you try the whole thing?"

Well, I've learned that Christianity works. I have tried the teachings and promises of Jesus, and God has proved them true! God has revealed himself to me and has left me very grateful—but very humble too—because like my friend I've only partially tried Christianity. By God's grace and with his help I want to try the whole thing!

This faith comes by hearing the Word of God (Romans 10:17). Then it works in our lives through love (Galatians 5:6). (This column is purchased by the Baird Church of Christ.)

Oplin Observations

By Daphne Floyd

Texas can rank with even England when it comes to smog, fog or whatever you want to call it. If you don't believe it, talk to Mr. Swofford and son up Clyde way. You see, Mr. Swofford and his fourteen year old son were down Sunday afternoon visiting and hunting with Clarence Breeding in the pastures south of Oplin. Having no luck they returned to the Breeding place to try their hand at fishing when a heavy fog settled down. Around 4 o'clock in the afternoon the Swoffords left the Breeding to return to Clyde.

Unknown to anyone else the Swoffords decided to go back down in the pastures to hunt awhile longer. Due to so much rain these pasture roads are not to be trusted so consequently the Swoffords stuck their pickup. By this time the visibility was so bad they decided to stay with the pickup. Mr. Swofford was afraid if he left the pickup he'd get lost, then the boy might attempt to search for him and get lost. The family at home in Clyde contacted Mr. Breeding and he reported they had left his place at 4 o'clock to go home. Of course he knew nothing of the Swofford's change of plans to return to the pasture.

Due to anxiety, the sheriff, Homer Price and his deputy, Lee Brown, and the Highway Patrol searched every road leading out of Clyde to the Breeding place. The fog must have lasted throughout the night for it was close to school bus time before Mr. Swofford made his appearance and was spotted by Howard Chatham who knew of the anxiety and brought the two in to Oplin, leaving the pickup stuck down in the pasture.

Mr. Clyde Floyd had an attack of the flu last week.

Bro. J. Eddie Weems visited with friends in Oplin one afternoon last week.

Mrs. Tommie Windham and Mrs. John Jordan attended funeral services Monday for Bro. McKissick of Abilene, an old beloved Christian minister of their family and of the community as well.

SS Act Explained For Farmers

Many self-employed farmers in this area have been asking, "How long must I work under Social Security to qualify for benefits?" according to R. E. Tuley, Jr., District Manager of the Abilene Social Security office.

In answer to this question, Tuley stated, "A self-employed farm and ranch operator who reaches age 65 before April 1, 1958, can establish entitlement to benefits if he has social security credit for as little as two years during the three years of 1955, 1956, 1957."

For those who reach retirement age or die on or after April 1, 1958, the required years of credit will vary from as little as two, to as much as ten years, depending on the individual's date of birth or date of death. The Social Security Administration has a booklet, OASI-35 which contains a table by which the requirements can be determined by any individual now, or at any given time in the future. The booklet is free for the asking.

Tuley cautioned that self-employed farmers and ranchers must report and pay the self-employment tax to receive credit towards social security. The report is a part of the Federal Income Tax return and is filed annually with the District Director of Internal Revenue. By paying his self-employment tax the farmer builds social security for his old age or for his family in case of his death.

Thanksgiving

A TRULY AMERICAN TRADITION

After the hardships of their first year in a new land, the pilgrims set aside a day of Thanksgiving for the meager harvest they had gathered in. The abundance and security that are ours in America today were fought for and won at great price. Let us not forget our blessings -- Freedom from Want -- Freedom from Fear -- Freedom of Speech -- Freedom to Govern, and Freedom of Worship. In America, we attend the church of our choice.

Austin, Tex. — Texas' lawmakers are striving hard to forge a new tool for dealing with police powers, insofar as school segregation-integration problems are concerned.

Proposed is a "last-resort" law to be used, presumably, in situations where threat of federally-enforced integration is met by strong local opposition. It would allow the school board to shut down the school until "the earliest possible time when peace and order can be maintained without the use or occupation by military forces."

Gov. Price Daniel's call also asked that the law provide (1) that state aid, accreditation, salaries, etc., not be affected by the closing, (2) that school boards may transfer local pupils and (3) that the attorney general be authorized to assist local school districts in contesting integration suits in federal court.

Though Legislative operating funds ran out over the weekend, both House and Senate decided against a "crash" program to enact the bill overnight. Strong opposition was not foreseen, however.

FISCAL HANGOVER — Lawmakers who return for the next regular session in January, 1959, face a "morning after" atmosphere with a \$12,000,000 headache.

Last summer State Comptroller Robert S. Calvert predicted the state would end this two-year period with a \$16,000,000 deficit. His latest estimate doubles that figure.

Calvert revised his figures after voters this month approved a constitutional amendment upping state pension payments.

Legislators already are skating on the edge of financial embarrassment in their day-to-day operation. Fund for their salaries, expenses, etc., was down to about \$45,000 when the first session ended. With costs running about \$11,000 a day, they were due to start drawing this week on the governor's deficiency fund, earmarked for "calamities."

But the real calamity, as many legislators see it, comes year after next when they will have to find a way to glue the "busted" budget together again. Most agree, gloomily, that it means new taxes.

NO "THRILL," BUT — Legislators' comments on the laws passed during the first special session ranged from "monstrosity" to a shoulder-shrugging "better than nothing."

But they did pass — all five that the governor asked.

Spokesman for the governor admitted he wasn't exactly "thrilled" with the watered-down water bill, but that he would accept it. In a public statement Governor Daniel commended the lawmakers for their accomplishments.

Briefly, the new laws do this:
1. Set up a water planning division to do research on Texas water resources and report to

each regular session. No authority to draw up a statewide plan was conferred, and the appropriation was cut from a recommended \$1,200,000 to \$900,000. Water Board was given authority to negotiate for state water storage in federal reservoirs — with legislative approval.

2. Require registration of those who seek to influence legislation "by direct communication" and reporting of expenditures over \$50.

3. Require registration of those who, for pay, represent others before state agencies.

4. Set up a commission to study Texas law enforcement and report to the next regular session.

5. Appropriate money for a building for the State Insurance Department.

WHAT NOW? — Senate rejection of the appointment of William A. Harrison as insurance commissioner put that department in a quandary.

Without an administrative head, the department cannot conduct even routine business; nor can it pay its employees. Members of the Insurance Board asked Atty. Gen. Will Wilson for guidance.

Under the Constitution the Senate has the authority to pass on all appointments made by the governor to constitutional offices. It does not, however, pass on the appointments of various state boards within their departments.

When the Insurance Department was re-organized last spring, the new law authorized the governor to appoint Insurance Board members and the board to appoint a commissioner. But it was specifically written into the law that the Senate would have confirmation power on the board's appointment of a commissioner.

Senate approved the governor's appointments to the board, but turned thumbs down on Harrison. A former assistant state auditor, Harrison had been serving in the \$20,000-a-year post since last summer.

Board members asked Wilson's opinion on (1) Does the Senate have the constitutional authority to pass on a board appointment and (2) if so, what'll we do until we can find a new commissioner?

"NO URGENCY" — Insurance Department is being beset by the Senate from another quarter as the investigation into a delayed report continues.

Senate committee questioned two department officials on why three months elapsed between receipt of an unfavorable report on Preferred Life of Dallas and department action on the matter.

Paul D. Connor, assistant commissioner, said he saw "no urgency" in the report since it did not involve insolvency. E. B. Kelley, chief examiner, said he did not think there was "anything significant" about it.

Earlier, the man who made the examination said he had found evidence of illegal stock manipulation involving some \$994,000.

COTTON RAINED OUT — Unusually rains probably have cost Texas cotton farmers some \$100,000,000, says Agriculture Commissioner John White.

Rain kept harvesters out of the fields, said White, and greatly cut the quality of the cotton still on the stalks. "It's a real economic blow to many farmers who had prospects of the first good cotton crop in several years," White observed.

SHORT SNORTS — Sen. William T. Moore of Bryan is president pro tempore of the Senate for the second called session. He succeeds Sen. Searcy Bracewell

of Houston One of the things for which Texans can be thankful this year is that there will be only one Thanksgiving. Governor Daniel proclaimed the Texas holiday for Nov. 28, same as the federal holiday . . . Gov. Daniel has asked President Eisenhower for emergency federal aid for Jefferson, Bell, Orange and Fayette counties, recently hit by floods and tornadoes . . . A senate-passed bill clears the way for getting land for a Texas Employment Commission building just north of the Capitol. Bill would increase the site-buying appropriation from \$350,000 to \$1,100,000. Probable location now is occupied by a Lutheran Church.
