O'DONNELL, LYNN COUNTY, TEXAS, FRIDAY, AUGUST 16, 1929

NUMBER 47

## Scouts to Have Park and Playground

Scouts of O'Donnell are to have a park and playground situated just northwest of town.

Deeded to Mrs. N. T. ... made the establishment of a park and playground and a two-acre playground for this purpose. The deed is to be recorded in the local records as it is used for long as it is donated. Clyde Ash and the boys have already fenced a well is to be nearby date. The boys donated a windmill and Mr. Boyd agreed to drill well at regular cost per foot. The regular cost per foot being raised to purchase equipment such as water pipes. As soon as completed the boys camp house on the site of shade trees will be planted season this thing will be done to them and up-to-date in are highly excited over the plan of playground and will join in helping them in every detail.

## Court of Honor Held at Tahoka

Clyde Ash and the Troops together with the County Court of Honor held at Tahoka. Williams, president of the boys, presented the award of Merit to Arthur Singleton, Parks of Russell Foster. The award of the Star Badge, of awards were also given. Scouts which we failed names. Scouts challenged the O'Donnell Scouts immediately the challenge. James was the contestant from and easily succeeded in his opponent according to the three judges. Court of Honor will be held on October the 3rd time. Scouts from Tahoka by Lamesa will attend and various awards. Further news will be made during the month.

## C. of C. Cancelled Engagements During Revival Meeting

During the past two weeks while the Baptist revival was in progress the Chamber of Commerce has cancelled all engagements so as not to interfere with the revival. Secretary-Manager G. S. Dowell states that during the union meeting of the Methodists and Presbyterians which begins on Sunday morning, August 18th, there will not be any good will trips sponsored by the organization. Only one good will trip is now scheduled and that will be on Thursday night of this week when a large delegation is expected to go to Gail.

## Tahoka to Get \$70,000 Compress

TAHOKA, Aug. 13.—Tahoka is to have a new \$70,000 cotton compress, construction to start in a few days, and completion is expected in time for this fall's cotton crop. The plant will be located on Santa Fe track-ge in the gin district in the north east outskirts of town. The stock totalling \$70,000 has been subscribed by local citizens, the chief promoters being A. L. Lockwood, W. D. Nevels, and R. C. Wood. Other large subscribers to stock include G. W. Small, E. R. Allen, Ed. Thomas and Lockhart, M. L. Handley, Thomas Bros, Belton Howell, Grover Stewart, and others. Charter to be Filled A charter of incorporation will be filed immediately and construction work will begin at an early date. Machinery and equipment will be of the latest and best type. The need of a compress at this point has long been felt by Lynn county, and the announcement of the new enterprise is being welcomed with much interest. The compress will serve a major part of Lynn county and parts of Dawson and Garza counties. The fact that this county has produced an average of 42,000 bales of cotton on an average over a period of five years will practically assure the success of the business, the local stockholders believe.

## Miss Emma Gantt of Fort Worth is Visiting her Cousin Grady Gantt and Family this Week.

Miss Emma Gantt of Fort Worth is visiting her cousin Grady Gantt and family this week.

## Revival Meeting Begins at M. E. Church Sunday

Announcement has been made by the Methodist and Cumberland Presbyterian of this city that a union meeting will be held at the Methodist church beginning on Sunday morning, August 18th at the eleven o'clock hour. The meeting will probably continue two weeks. Rev. Walter O. Parr, pastor of the Cumberland Presbyterian church of Petersburg, will do the preaching, assisted by the local pastor. Rev. Parr writes that Brother Edwards, one of the best known singers of the country will assist him by conducting the song services. Rev. Parr is no stranger to the people of O'Donnell. He is perhaps better known by the Presbyterian congregation, as he has delivered some splendid sermons from the Presbyterian pulpit in the past. He is at present at Bertram, Texas, in the midst of a great revival where he has already had 140 professions. He preaches the old time gospel direct from the scriptures and has been very successful in all of his evangelistic work. The Methodist and Cumberland Presbyterians are looking forward to a great meeting. An invitation is extended to all to attend the services.

## Revival Begins Tonight at Church of Christ 8 P. M.

T. W. Phillips, Jr., of Wewoka, Oklahoma, will begin a ten day revival meeting at the Church of Christ, Thursday night, August 15th. Mr. Phillips is well known here having conducted a very successful meeting here last year. He will have with him Mr. Cecil Phillips who will have charge of the song service. The above gentlemen are considered one of the strongest revival teams in their denomination and members of the Church of Christ are fortunate in securing them for their approaching meeting. A very cordial invitation is extended the entire public to attend the services. PUBLIC SCALES INSTALLED IN NEW LOCATION Mell Pearce, Public Weigher, has recently installed a Howe ball bearing set of wagon scales which is located near the McDonald-Ely Gin on Dupot Street. During the past year the public scales was located near Harrison-Williams Gin on Highway No. 9. The new scales are of the latest model and is considered as good as can be bought.

## Good Rains Over O'Donnell Territory

### Tahoka Seeks Milk Station

Cooling Plant Here Would Be Branch of Lamesa Powdered Milk Plant (Lynn County News) Messrs. A. L. Lockwood, W. B. Slaton, C. C. Williams and Ray Shaver met with a committee of Lamesa business men in that city Monday afternoon to discuss with them the proposal for the establishment of a milk cooling plant in Tahoka to serve as a feeder for the powdered milk plant which is soon to be constructed in that city if present plans materialize. A powdered milk plant costing about \$200,000.00 has been projected at Lamesa and construction of the plant seems assured provided a sufficient quantity of milk from the adjacent territory can be assured. To do this it is contemplated that cooling stations be established at a number of neighboring towns, from which milk lines will radiate out through the surrounding country gathering up the milk for these stations. While no definite action was taken at the Lamesa meeting Monday afternoon, yet there was much informal discussion of the project and it is felt by Tahoka citizens in attendance that much progress was made toward the establishment of the plant at Lamesa and the cooling station here. It is possible, however, that more milk would be required from Tahoka than the number of dairy cows now in this vicinity could be able to produce. The establishment of such a plant would doubtless add much stimulus to the dairy interests of this county and ultimately be of great financial benefit to the people of the county. Mr. Robinson, representing the Douthit Engineering Company, which is proposing to build the Lamesa plant, was in the meeting Monday afternoon and gave much information regarding the project which was of much interest to the Tahoka gentlemen who were there.

### That Good Old Long Looked for "Sky Juice" varying from one-half to two inches covered the majority of the O'Donnell trade territory on last Monday and Tuesday night.

Some sections report no rain among them being a small territory just northeast of town in the neighborhood of J. M. Payne and Marion Ballew. Precipitation was also light south of town for about three miles out and the territory east of town reported light rains. The heaviest rains was reported southwest and northwest of town. Southwest in the O. K. Community a two inch rain was reported by Guy McGill. T. J. Yandell reports about one and one-half inches in his neighborhood four miles northwest of the city. About three quarters of an inch fell in town. Other sections reported around one-half an inch. On Tuesday evening a heavy downpour was reported just north of town. One of the best rains of the season fell on the Tredway and Harris farms just outside the city limits north of town. The territory that was covered by the rains this week will no doubt be greatly benefited. Some of the feed crop will be saved, however, it was too late to do some of the early feed much good. The moisture was sufficient to mature the cotton crop. As this is being written indications are good for more moisture and it is hoped that some will fall in the territory not covered by the Monday and Tuesday rains in time to save the late feed and cotton that is suffering badly for the need of moisture.

## Good Will Trippers Go to Gail Tonight

### LYNN COUNTY CLUB WOMAN ELECTED TO LEAD HOME DEMONSTRATION GROUP

TAHOKA, Aug. 13.—Mrs. R. W. Fenton, Tahoka, who was this week elected president of the State Home Demonstration association and who was selected as one of the five master farm home makers of Texas at the annual A. & M. college farmers' short course, has long been identified with demonstration and civic clubs and church affairs here. She has served as president of the Lynn county home demonstration council, and has been instrumental in extending the work of the organization to its present large proportions. She has been a club member for several years, serving under Miss Millie M. Halsey, who instituted the work in this county, and under Miss Thelma Grenewade, present home demonstration agent. In Church Leader Mrs. Fenton is a leader in the Methodist church at this place, in the Sunday School as a teacher, and has several times been president of both the local and the district W. M. U's. Mrs. Fenton is a director of the Lynn county Extension association and a member of commerce booster, and from time to time has been a member of numerous civic organizations. In addition to being active in all these organizations, she is a model farm woman, raising chickens, garden stuff, and practicing the live-at-home plan. She states that her chief ambition is "to be a wise mother, a wife who is a real help to her husband to be loved and a real homemaker." Mr. and Mrs. Fenton reside on a farm three miles east of Tahoka, where they practice modern methods of diversification in the year around. They are the parents of several sons and daughters, all of whom are either grown or in the "teens."

## O'Donnell Community Fair Catalogues Are Now Off the Press

The catalogues and premium list of the O'Donnell Free Community Fair to be held here on September 20-21, is now off the press and will be distributed within the next few days. The booklets consist of thirty-two pages and cover a wide range of information regarding the fair and live advertising of the merchants of O'Donnell. The list shows that more than six hundred dollars in premiums will be distributed to winners of the various departments during the two days fair on September 20-21. SOCIETY REPORTER OUT OF TOWN THIS WEEK The Index is shy of society news for this week due to the fact that the society reporter is away on a visit. However, we hope she will be back on the job next week and make up for lost time. This week's society news will be published next week. Mr. and Mrs. W. E. Guye and sons left Monday morning for a week's vacation to be spent at Buidoso New Mexico, where they will enjoy the cool mountain breeze. They expect to return the latter part of the week.

## Eight Certificate Men in O'Donnell Masonic Lodge

The local lodge of A. F. & A. M. now boast of having eight certificate men as members of that organization. On Monday night of this week at Lamesa, Mr. W. S. Tate of the Board of examiners of the Grand Lodge of Texas passed on the examination of eight local men which entitles them to Certificates. Those passing the examination were: D. M. Stes, J. H. B. Kyle, Guy Bradley, Ed Singleton, Robert Orson, Ollie Harris, Geo. S. Kyle, and Ben Moore. Those passing the examination from Tahoka were: Brown Bishop, Jim Elliott and Homer St. Clair. J. Y. EVERETT'S HOME SCENE OF FAMILY REUNION The spacious and comfortable home of Mr. and Mrs. J. Y. Everett, O'Donnell represented the scene for a joyous home coming and reunion of every child and grand child of the family which took place the past week-end when the following out-of-town guests were present, Mr. and Mrs. Harvey Everett and children, J. Y., Ina D., and Harvey Anne of Wink, and Mr. and Mrs. Dewey Everett and children W. D. and Jesse Edwards of Snyder, the remainder of the family whose homes are in O'Donnell and who enjoyed this happy gathering were Mr. and Mrs. Roy Everett and children Roy Elmo and Wanda Zelle, Mr. and Mrs. J. T. Johnson and children, Margaret Lucille and Billy Jane, Mr. and Mrs. Naymon Everett and Travis Everett and Glenn Everett.

## Lubbock to Fete Celebrates Friday Night

Barry Miller, Marvin Jones and Clint Small will be among guests at Banquet Scheduled Here Honoring Lieutenant - Governor Barry Miller, Dallas; Congressman Marvin Jones, Amarillo; Senator Clint Small, Wellington, and other public officials expected to be in the city, the Board of City Development will sponsor a banquet at 7:30 o'clock. Hubert L. Allen, BCD president, will preside over a short program following the dinner, the announcement, made last night, said Messrs. Miller, Jones and Small are all to appear on the second day's program of the annual Crosby county Old Settlers gathering, to be held at Old Rock House, Blessey canyon, on Friday afternoon and will come to Lubbock Friday evening for the entertainment. Senator Pink L. Parrish, of Lubbock, who heads the program arrangements for the reunion, and Representative Carl Rountree, of Lamesa, are also expected to attend the function here and it is thought that other dignitaries will also be on hand. Lieutenant-Governor Miller, making his first visit to Lubbock, will arrive in the city early Friday from Dallas and will be met at the station by a delegation of local men. After being made comfortable here during the early part of the morning, he will be escorted to the reunion and will probably renew old acquaintances in Idalou, Lorenzo and Ralls, enroute. He will leave for Dallas immediately after the banquet here Friday night.

## Rev. Peyton Woodall Will Preach Here

We are requested to announce that Rev. Peyton Woodall of Lubbock will fill the pulpit at the Presbyterian church in this city on Next Sunday morning in night. The general public is invited to attend. Mrs. R. O. Stark visited relatives and friends at Florida and Plainview.

## LOCAL FIRM SELLS SIX AUTOMOBILES SATURDAY

Sales record on Saturday at the Rayburn Chevrolet Company is a good indication of prosperity. This firm alone sold six cars last Saturday which is considered a good day in any town three times the size of O'Donnell.

BANDS ENTERING STATE CONTEST

Dallas, Texas, Aug. 15.—Many bands are already entering the State-wide Band Contest to be held as one of the many features of the 1929 State Fair of Texas, Oct. 12 to 27, according to word from Earl Irons of Arlington, chairman of the Texas State Band Teachers Association contest committee, under whose auspices the statewide contest is being held.

This will be the first statewide band contest ever held in Texas. Prizes totaling more than \$10,000 are being offered the winners in the fifteen classes into which the bands have been divided for contest purposes.

Entry blanks with full information, the days upon which different classes will play, and various other details, have been mailed to every organized band in the state, and to every Chamber of Commerce, inviting them to send local bands to the contest.

Karl L. King, "America's most Versatile Writer" has been selected to judge the contest. Mr. King is from Fort Dodge, Iowa, and is widely known in band and musical circles. The contest will be held in the auditorium each morning and will be free to the public. A massed band concert will be played each afternoon under the direction of Mr. King.

FARM AND HOME RADIO HOUR WEEK OF AUGUST 26

Dr. J. W. T. Duvel, Chief of the Grain Futures Administration in the United States Department of Agriculture, will make his first radio appearance next week in the National Farm and Home Hour program of the department. Dr. Duvel, speaking on Tuesday, August 27, will be the fifth administrator of the Department to give a talk in the Tuesday series, "What's Happening in Agriculture." He will describe the modern contract grain marketing system, and tell what steps have been taken in recent years by the Federal government to prevent fluctuation of prices and to create market conditions which will reflect supply and demand.

On Thursday C. W. Crawford, in charge of interstate supervision for the Food, Drug and Insecticide Administration, will give the answer to the perennial question "Are Our Foods Truthfully Labeled?"

Market analyses of the grape markets, the poultry and egg markets, statements of the outlook for the beef cattle and early southern vegetables, descriptions of new apple storage methods, and the usual farm, garden, and home calendars complete the week's program which follows:

Monday, August 26—"The Farm Calendar," Dr. W. J. Spillman; "The Beef Cattle Outlook," C. V. Whalin, in charge of livestock division, Bureau of Agricultural Economics.

Tuesday, August 27—"The Garden Calendar," W. R. Beattie; "The Contract Grain Marketing System," Dr. J. W. T. Duvel.

Wednesday, August 28—"The Farm Calendar," Dr. W. J. Spillman; "The Poultry and Egg Markets," Roy C. Potts, in charge of the poultry and dairy products division, Bureau of Agricultural Economics; "The Grape Markets," Paul Froelich, fruit marketing specialist.

Thursday, Aug. 29—"The Household Calendar," Mrs. Rowena Schmidt Carpenter; "Are Our Foods Truthfully Labeled?" C. W. Crawford.

Friday, August 30—"The Farm Calendar," Dr. W. J. Spillman; "The Winter Vegetable Outlook," W. A. Sherman, in charge of fruits and vegetables division, Bureau of Agricultural Economics; "Common Storage of Apples," H. P. Gould, in charge of fruit production investigations, Bureau of Plant Industry.

The National Farm and Home Hour broadcast is from 1:30 to 2:15 p. m., Eastern Standard Time (12:30 to 1:15) p. m., Central Standard Time; 11:20 a. m. to 12:15 p. m., Mountain Standard Time), through the following stations associated with the National Broadcasting Company. WRC, Washington; KSTP, St. Paul; Minneapolis; WHAS, Louisville; KVOO, Tulsa; WRVA, Richmond; WBZA, Boston; WBZ, Springfield; WJR, Detroit; WREN, Kansas City; WKY, Oklahoma City; WOW, Omaha; WBAL, Baltimore; WOC, Davenport; WTMJ, Milwaukee; WMS, Nashville; KPRC, Houston; WEBC, Superior; Husk, Tulsa; Mutualmore, Peoria; ETAOI, WIAH, Rochester; WLV, Cincinnati; KYW, Chicago; WMC, Memphis; WPTF, Raleigh; WHO, Des Moines; KOA, Denver; WBT, Charlotte; WJAX, Jacksonville; KDKA, Pittsburgh; KWX, St. Louis; WFAA, Dallas; WJZ, New York; and WIOD, Miami.

Resinous substances such as sticky fly paper are often hard to remove from clothing. Try strontian, benzol, carbon tetrachloride, chloroform, wood or denatured alcohol, ether, kerosene or gasoline.

RAISING STANDARDS OF SERVICE

Criticism of modern trend of consolidating and interconnecting electric systems shows small knowledge of actual conditions and facts.

A public utility is a natural monopoly. This is recognized by the government, which grants the monopoly, and at the same time subjects the utility to the supervision of a regulatory body whose duty it is to protect the public as well as the investors. At the present time, in all phases of industry, small units are being absorbed into large ones in the interests of economy and efficiency. Electric service, cheap, adequate and dependable, is an absolute necessity of modern life. And where the small plant, with its lack of facilities and hazardous operation cannot meet the increasing demand, great interconnected systems succeed.

Consolidation cuts operating costs and raises the standards of service. It permits financing at a smaller cost. It eliminates duplication of service equipment. And experience has proven that, engineering facilities and man-power that large companies are far better able to standardize their service on a higher plane than small plants. Citing isolated cases of poor management as an argument against private ownership of the utility industry as a whole, is as foolish as to urge that because some poor automobiles have been sold, the public should condemn all automobile manufacturers.

Our great utilities are conducted on the highest standards of public service and integrity. And the interconnected systems, serving thousands of homes and businesses, bring new and greater progress to our industrial and domestic life.

BREAKING RECORDS

Every previous high record of operating efficiency made by the railroads in the early part of any year has been broken in 1929.

The average daily run and service rendered by freight cars has been increased, locomotive runs and hourly speed have been accelerated, fuel consumption is less, and wages, with exception of a single year during post-war inflation, are highest in history.

Good railroad service is essential to prosperity in the United States and is the life-blood of industry and agriculture.

At the present time any shipper can get any amount of railroad service he needs, on short notice, and for extremely low cost. Car shortages, a great problem of the past, are almost unknown. Delays, which were waste in money and time, are infrequent.

Railroad earnings are still far from adequate, but the record made this year gives hope for the future. We may even reach a point where professional hypocrites no longer feel it popular to load obstructive taxes and legislation on our transportation arteries in hope of currying public favor. The railroads are showing a spirit of economy, efficiency and progressiveness that is equaled by few other industries.

Accustom your family to fresh fruit served as nature's dessert once in a while. It will be good for them, and save work for you.

DEPARTMENT STORES OF FINANCE

Banks in the larger cities of the United States are rapidly becoming "department stores in finance."

Through expansions into all financial fields, the larger banks are approaching the stage when they may boast that they are prepared to serve the public in any financial capacity.

Safe-keeping of money was the bank's first function. Now it encourages its patrons to save systematically, makes loans that help develop communities, acts as escrow agent in real estate transactions and fulfills many other important functions. The latest trend in this broadening service has cropped out in various large cities where banks have, through creation of investment arms, purchased seats on stock exchanges and buy and sell orders in stocks for patrons.

The most recent example has appeared in Southern California where five major banks have purchased seats on the Los Angeles Stock Exchange, while four have obtained seats on the Los Angeles curb exchange. A stock exchange seat in Los Angeles is valued at \$150,000 while a curb membership can be bought for \$60,000. The incident not only demonstrates the more comprehensive service provided by modern banks, but it also shows the faith of those banks in the future and stability of a modern stock exchange.

GAS PROGRESS

Within the span of a single lifetime, the gas industry has witnessed a change from a 90 per cent lighting load to a 92 per cent heating load.

A great field for gas progress has been opened up with the innovation of automatic central heating systems which combine economy, efficiency and dependability with money and labor saving in the modern home or factory.

SIX-CENT CHEESE

Cheese at 6 cents a pound probably makes economical fish bait, but is surely far from profitable for a cheese factory to produce cheese of such poor quality that only six cents a pound will be received. Such, how-

ever, was the situation found at a cheese factory recently visited by a specialist of the Federal Bureau of Dairy Industry. By adopting improved manufacturing methods recommended by the specialist this factory was able to make cheese of such improved quality that no trouble was experienced in marketing it at the current market price which at the time was 22 cents a pound.

A rough survey of the farm woods might be worth while at this time of year. Take stock, and determine what you have now, and what you should have. By far the greater number of farm woodlots are in need of improvement. Are poorer trees with no local market in the majority and crowding out the better ones? Are some of the trees overmature—going back from rots and decay faster than they are growing? Do some of the trees show evidence of attack by insects or disease? Are there open places that ought to be planted up? Is there idle land, now contributing nothing, that ought to be growing in so because the trees are overcrowded? If you get a general idea of the condition of your woods now, you can plan some wood work to good advantage after the field crops are in.

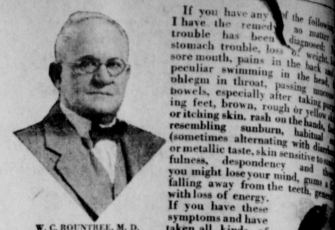

Serve children small portions of food. Thine they can clear their

GOING IN WEST TEXAS

ANDON is doing quite a bit of business. The Latson building on the corner of Kerney and Second streets will be started in the immediate future. The new building will cover the entire block and will extend back to the front and will extend back to the front and will extend back to the front.

WRECK will have lights and the future since a contract recently consummated with the Power and Light Co. for modern commodities. New buildings on the edge of town are in process of construction and in hotels and residences.

TEXAS TODAY for August will be the first of next week. The crop comes in for its share in this issue. Several new buildings are being erected and the stories illustrated with pictures of the largest buildings.

A will entertain the second American Legion rodeo on August 30 and 31, and September 1 and 2. The committee is headed by J. H. Rodeo and Bill Jackson of Cheyenne, Wyoming will manage the affair. Rodeo will be a purse amounting to \$1,000 and has been guaranteed for the first time.

Public schools will open on August 3. Prof. Caverns who is in charge of the building of the new High School building designed as superintendent of the school. The school has a large number of pupils.

KEY is bidding for a new office. Congested office caused by rapid increase in business during the past several years is the reason given for the new quarters.

FAIR CIRCUS HAS MANY ANIMALS

Texas, Aug. 15.—The largest "zoo" in the world will be at the 1929 State Fair of Texas. The Hagenbeck-Wallace circus has a 32 performance ensemble in the grand stand at the fair. Hagenbeck-Wallace circus has the largest number of trained animals in the circus world. Hagenbeck-Wallace Circus was founded 50 years ago by Carl Hagenbeck, the greatest animal man in the

entire world and B. E. Wallace. The circus was formed in order to educate the circus public the merits of wild animal acts in a show, and also to give the Hagenbeck wild animal farm in Germany an outlet for their trained animals. Most of the performing animals seen in circuses today come from the Carl Hagenbeck Tierpark near Hamburg, Germany.

In addition to their performing lions, tigers, hyenas, leopards, panthers and zebras, the Hagenbeck circus will bring to the State Fair the largest number of performing elephants ever banded together in the history of the circus.

Commercial exhibitors at the State Fair of Texas, anticipating a "Billion Dollar crop" in Texas, and better business conditions arising therefrom are seeking greater space at the 43rd annual state exposition, October 12 to 27.

Work will soon be started on the hangar of the Southwest Air Exposition which will be one of the features of the 1929 State Fair of Texas, Oct. 12 to 27. The hangar will be 500 feet long, and 110 feet wide. The exposition will show every known make of airplane, as well as have exhibits of airplane accessories.

The second annual Southwest Dairy Show will be held during the second week of the Fair of Texas, Oct. 20 to 27, according to Frank Birge, president of the Southwest Dairy Show Association.

NEWSPAPER MEN ARE INVITED TO BE GUEST OF ABILENE

ABILENE, August 15.—Every newspaper man and woman in West and Central Texas is invited to attend the West Texas Fair in this city on Press Day, September 27, as guests of the fair association and the Abilene Chamber of Commerce.

Executives of the exposition are preparing to entertain at least 500 newspaper people on that day.

Full details of the arrangements will be announced shortly after the fall meeting of the "Heart of Texas" Press Association in Ballinger on September 9. At that time representatives of the fair and of the local chamber will meet with the members of that body and ask them for their suggestions as to the kind of entertainment they would prefer.

At the annual meeting of the West Texas Press Association in Sweetwater on July 12-13, that organization endorsed the plan for a Press Day and a large part of the members pledged themselves to attend. Eddie Warren, Post, and Jimmy Smith of Snyder president and secretary respectively of that group, will confer with officials of the fair within the next fortnight, regarding the program; and both of them will go to the Ballinger meeting of the "Heart of Texas" association to help

the local representatives give the invitation to the members of that body to come to Press Day.

Sweet-cream butter made for winter use will keep best if stored in brine made of one part of salt to 3 parts of water, says the Bureau of Dairy Industry, U. S. Department of Agriculture. Butter stored by the bureau in dry salt and paraffin deteriorated on the surface. Be sure to use enough salt in the brine, wrap the butter in parchment butter paper, and see that the rolls are entirely submerged in the brine.

Many vegetable combinations are good when you do not have enough of any one vegetable to go around. Carrots and peas in equal quantities; string beans and carrots; celery and turnips; rutabaga and potato; tomato and onion; or tomato and okra; corn, string beans, onions; beets and peas; blends of different greens.

New Zealand spinach stands the heat better than ordinary spinach and so is obtainable during the hottest

months. Strip the leaves from the stems, wash well, and cook in an uncovered pan with only enough water to prevent burning. Add salt when the spinach has wilted sufficiently, chop, and mix with butter before serving. Serve vinegar or sliced lemon with spinach.

Garage advertisement with illustration of a car and text: "GARAGE Prompt—Polite YES, sir, ten gallons of ethel—any oil?—Air in your tires? We're eager to fill your tank with powerful, clean-firing liquid power, and to give that courteous, speedy service that makes motoring a pleasure to our patrons. HIGHWAY GARAGE, John Earls, Prop."

a Million

SIX CYLINDER CHEVROLETS

on the road in less than eight months!

Less than eight months have elapsed since the first Chevrolet Six was delivered into the hands of an owner—and already there are more than a million six-cylinder Chevrolets on the road! And the reasons for this overwhelming success are easy to understand.

Into a price field that had hitherto been occupied exclusively by four-cylinder cars—Chevrolet has introduced a six-cylinder car of amazing quality and value. Not only does it offer the smooth, quiet, velvety performance of a great six-cylinder valve-in-head motor—but, from every standpoint, it is a finer automobile than was ever before thought possible at such low prices! Its

beautiful new bodies—which are available in a variety of colors—represent one of Fisher's greatest style triumphs. And its safety and handling ease are so outstanding that it's a sheer delight to sit at the wheel and drive. In fact, the new Chevrolet Six has completely changed every previous idea as to what the buyer of a low-priced car now has a right to expect for his money.

You owe it to yourself, as a careful buyer, to see and drive this car. For it gives you every advantage of a fine six-cylinder automobile—in the price range of the four and with economy of better than 20 miles to the gallon! Come in today

Entered as second class matter September 28, 1923, at the post office at O'Donnell, Texas, under the Act of March 3, 1879.

It is commendable to the highest degree than some of the citizenry of our town by their action, have recently shown, an interest in civic beauty. As action speaks louder than words, it also does more when properly directed to benefit, inspire, and uplift mankind.

Cincinattus, or was it Calvin Coolidge said something about if you have done a job better than any other person has ever done it, the world will build mouse traps at your door. (This attempted quotation of a familiar bit of logic may be some what miss quoted, but it is something about, a deed well done, a trail to your door, and a mouse trap).

Some formerly neglected lots near the heart of town have recently been cleaned of weeds, and it looks so different. A citizen was heard to remark, "It rests my eyes to look at it." Other such improvements could be mentioned but it would make this article so long no one would read it.

This evidence of civic pride goes not unnoticed, but it appreciated by all who passes that way.

Civic Committee  
NOTICE

This is to notify the public that after next week the ordinance pertaining to dogs will be enforced. All dogs not licensed and without collars will be killed. This is being done on account of the great number of dogs in town which is a menace and nuisance to the public, and also to comply with the city ordinance.

Signed,  
E. M. WILDER,  
Mayor City of O'Donnell.

Mrs. A. C. Willis and children and Misses Audys and Novelle Ratliff returned home Tuesday from a visit with relatives and friends in Fort Worth, Sanger and other points. Mrs. Willis' sister, Miss Mildred Brewer of Sanger, returned with them for a few days' visit.

Mr. and Mrs. O. R. Davis and family have returned from a week's fishing trip spent on the clear running streams of South Texas. They report a splendid trip. O. R. must tell his own fish story. He is timid and doesn't like to talk for publication.

Mr. and Mrs. Gum Minton, Mr. and Mrs. Willie Petty and little daughter, Mr. and Mrs. R. C. Willis and children and Misses Audys and Novelle Ratliff and Mildred Brewer enjoyed a picnic at two Draw Lake, Sunday.

Mr. and Mrs. Axelrod and son Milton, who have been visiting their daughter and sister, Mrs. Ben S. Coin left Sunday for their home in Houston. They were accompanied as far as Abilene by Mr. and Mrs. Ben Coin and daughter, Shirley Mae.

Mr. and Mrs. Glenn P. Lee of Marlow, Oklahoma, are the guests this week of the latter's parents, Mr. and Mrs. Hal Singleton, Sr., and other relatives.

Mr. and Mrs. J. P. Aylor and children were visitors in Sweetwater Sunday. Mrs. Aylor and children remained for a week's visit with relatives and friends.

Messrs. J. B. Miles and son R. O. returned Thursday from a week's vacation spent in the mountains of New Mexico. They report a splendid trip.

Mr. Jim Weems left Monday morning for Baisano, N. M., where he expects to visit his brother, Mr. and Mrs. Chas. Weems. They are expected to return to O'Donnell with Mr. Weems the latter part of the week.

Mr. and Mrs. B. Yarbrough left Tuesday for a visit with relatives in East Texas.

### MUST SHORTEN SUMMER TERM

Effect of Appropriation Cut on State Teachers' College

ALPINE, Texas, Aug. 13. — A summer session shortened from twelve to six weeks faces all of the teachers' colleges in the State under the present appropriation, if no other source of funds can be found before next summer, the board of regents decided at their annual business session being held in Alpine with the president of each school in attendance. The short session will have to suffer at the expense of the long session for the board decided to use local funds to help keep the schools running during the longer term.

Trost & Trost of El Paso were selected as architects for the new \$150,000 building for Sul Ross and W. E. Ketchum of Austin, for the building for East Texas. The plans will be approved and the contracts let at the quarterly meet on Oct. 9 in Commerce.

Facilities for all of the colleges were elected at the meeting.

### Index Ads Get Results—Try Them

The East Texas tomato crop yielded producers from \$400 to \$600 an acre with total shipments falling little short of 3,000 cars against 2,836 in 1928.

Miss Ethyl Lou Edwards of Lubbock spent the week-end here with Miss Louise Anderson.

Miss Louise Anderson left Tuesday for Waco, Texas, where she will visit for awhile.

**LADIES WORK A SPECIALTY**

*Yesterday*

the small isolated power plant was fairly capable of serving the simple needs for electric service. The use of electricity was few. It had not then assumed the importance in daily life which it now holds.

*Today*

the isolated power plant is not capable of meeting the modern demand for electric service. Great generating stations produce electric power which is transmitted over high tension power lines for many miles, thus making possible metropolitan electric service in the smallest towns.

# The PURPOSE of the

## Texas Electric Service Company

### as a Texas Institution

While Texas produces almost 30% of the Pecans grown in the United States, you will find Pecans from many other sections on sale in Texas stores which do not feature Texas pecans. It is possible to produce much new wealth in Texas by proper marketing of Pecans.

The Texas Electric Service Company was established several years ago for the purpose of rendering electric service to Texas cities and towns.

It was evident, even then, that isolated power plants would not be able to supply the rapidly multiplying needs of Texas people for electric service.

After long study and experiment the engineers of the Texas Electric Service Company, together with other leading electrical engineers throughout the world, found that electric energy could be transmitted over high tension power lines for great distances from large generating stations, thus making possible a metropolitan type of electric service for smaller communities.

From that day until this it has been the purpose of this Company to render an electric service adequate to the needs of Texas people, in order that any user in any community served could at any time of the day or night, press an electric button and receive instant, dependable electric service at a reasonable cost.

Revolutionary changes have been made in the methods of generating and distributing electric power. Changes are rapid, so rapid, even now, that equipment which is the last word today will be obsolete tomorrow. Electric service has become so inseparably part of our daily life that it would be impossible for us to move through a day without its aid. The tremendous burden of responsibility which is thus thrown upon the Texas Electric Service Company is borne with true American efficiency.

Through all the changes within its own industry, through poor years and good, through prosperity and depression, into this present era of stabilized and sound development, the Texas Electric Service Company has held unwaveringly to its great purpose. As a result those Texas cities and towns served by this Company have unrivalled electric service.

*The Silent Partner of Progress*

**CATALOGUES OUT FOR THE TRI-STATE FAIR**

AMARILLO, Aug. 15.—With 5,000 catalogs sent out all over the Panhandle and Tri-State territory, several prospective exhibitors at the Tri-State Fair, September 23 to 29, have already signified their intentions to enter one or more exhibits at the Fair. Wilbur C. Hawk, president, announced here today.

According to Mr. Hawk, present indications point to the greatest Fair in the history of the exposition. It is believed that there will be nearly one-fourth again as many exhibitors displaying at the Fair as showed products last year.

Considerable interest has been shown from all sections of the territory. Mr. Hawk said, and the free gate, mammoth Hagenbeck-Wallace circus and other attractions are expected to help in breaking all attendance records.

Farmers, stockmen and others who intend to show at the Fair this year and who have not already received catalogs are urged to write at once to Wilbur C. Hawk, President, Tri-State Fair Association, Amarillo. Any information about the exposition will be furnished free immediately upon request.

**WHAT'S DOING IN WEST TEXAS**  
DIMITT will enter enthusiastically into the preparations for the 28th Annual Anniversary Picnic of Castro County. Hundreds of sandwiches will be prepared and wrapped for the guests. Concession rights have been sold, and speakers are being procured.

OLTON will be reached by the new High Line of the Texas Utilities Company. It will come in by Hart, thence south to Olton, into the main plant, dropping back one mile north to Lee Highway and on into Plainview, tying up all their plants into one.

FRIONA's Home Beautiful Contest being staged by the Women's Club, is announced to close on August 15. The two classes of homes entered will be judged on points gained, front yard and curb, back yard and alley, trees and shrubbery, flowers, lawn, paintings, and general attractiveness being counted.

CALIFORNIA will welcome another caravan of West Texas poultrymen dairymen and farmers soon. B. M. Whitaker, of the West Texas Chamber of Commerce will conduct the tour of perhaps thirty people who want to learn the productive California methods of raising crops, chickens and cows.

CROSBYTON will entertain all the old settlers on August 15 and 16. Public speaking, rodeo performances, old time square dances old fiddlers' contest, rides for the children and a

free ball game each day are some of the attractions that will draw settlers to the Blanco Canyon where the reunion will be held.

McLEAN has gained affiliated credits during the time Supt. Tummins has been head of the schools. Three of the credits were gained recently in Spanish and chemistry. The school has a total of 27 1-2 credits. Better work is expected in the new buildings.

**STATE FAIR TO HAVE NEW PARKING SPACE**

Dallas, Texas, Aug. 15.—Plans are being completed for additional parking space on the State Fair grounds for more than 3,000 automobiles. It has been announced here by T. E. Jackson, president and Roy Rupard, secretary of the state exposition. The entire infield of the race track will be converted into a parking space.

The race track infield is now being laid off into the parking space. There will be no charge for any parking space on the grounds, and there will be no automobiles parked on the main thoroughfares.

The infield will give parking facilities for the new attractions on the ground—the rodeo in the Livestock Coliseum and the Hagenbeck-Wallace Circus in front of the grand stand. There will be a box office entrance from the infield to the circus. The parking space next to the auditorium will be used for "Red Robe" patrons, and that around the stadium will be used for football fans.

Four new entrances will be built into the infield making it accessible from any part of the ground.

More than 5,000 of the best specimens of birds in the entire poultry world will be shown in the enlarged poultry building at the 1929 State Fair of Texas, October 12 to 27, according to Superintendent Walter Burton.

"The Red Robe"—auditorium attraction for the 1929 State Fair of Texas, October 12 to 27, is said to be greater than any attraction ever sent out from Broadway. Persons

who have seen "the Red Robe" say it is even greater than the "Student Prince." Walter Woolf, outstanding star of Broadway is with "The Red Robe."

Work on the new Livestock Coliseum at the State Fair of Texas is rapidly nearing completion. The State Fair Rodeo will be held in the coliseum during the first ten days of the State Fair, October 12 to 20, and a combined horse show and style revue will be held in the building during the last five days of the fair.

More than 500 outlaw horses, wild steers, roping calves and steers, and parade horses will be brought to the State Fair of Texas by W. T. Johnson, to use in the rodeo which he will produce in the new Livestock Coliseum. Mr. Johnson has recently been to Cheyenne Frontier Day celebration and the Ski-Hi Stampede at Montevista, California, looking over wild horses with a view of buying more. He will take all of his rodeo stock from the State Fair to Madison Square Garden on Broadway, where they will be used in the 4th annual World Series Rodeo.

Sun baths should be given to all well children to keep them well and to many sick children to help make them well. They should, however, be given carefully at first, exposing only a small area of the child's skin to the sunlight until he is used to it and has acquired a protective coat of tan.

In the Rocky Mountain and Western States, the forests are dry as timber this time of year. Watch out for fire. Be extra careful with the matches and "smokes," and with the campfires.

MON REFRIGERATOR

Method of open-air cold storage for storing persimmons in eastern China, says Dr. H. H. Department of Agriculture, is the entire winter's persimmons grown in the north of Peking, many millions of fruits, are stored in long terraces, in orchards along village compounds, and some of sand and gravel, without protection of any kind, except the bed of kaoliang (and of sorghum) and a matting of reed-grass matting. The fruit is frozen, is covered with dry grass or other litter to a depth of two feet. The fruit is eaten by the consumer as it is done in the north of Peking, when the fruit is slowly, when it is eaten as when freshly

TOBACCO FIELDS

of tobacco diseases, as of blight, should be based on rather than on care. To early now to reduce the infection in next year's crop, beds are infected with disease, plow under the manure as you are through the U. S. Department of Agriculture. Sometimes it is the seed bed else- where the following crop. Do not in wildfire or blackfire in- fected unless you plan to dis- infect thoroughly. If the is affected with wildfire, mosaic, plow the land seed-bed frames, sash or over winter in curing infected tobacco, as this face the disease in the gain next spring.

Texas' population per square mile is 20.6 on the basis of the 1928 estimated total, the lowest of any of the Southern States, and lower than all but twelve of the States of the Union. The highest density is in Rhode Island with 573.5 to the square mile, and the lowest is in Nevada with 0.7 persons to each mile of area.

Densest population in Texas is in Dallas County with 260.9 persons to the mile and the most scattered is in Loving County with 0.1 of a person, the population (1928 estimate) be- ing 82 in an area of 735 square miles.

August is a good time to dip sheep for ticks. Two dippings are necessary, about 24 days apart; the first dipping may not destroy all the eggs and these may later hatch a new brood. Various kinds of dips are satisfactory. Coal-tar-cresote, cresol, and nicotin dips are most effective when used with soft water. If necessary to use hard water, the water may be "broken" by adding salt soda at the rate of from 1 to 1-2 pounds for each 100 gallon of water. The sheep tick—which is not a true tick but a bloodsucking parasite—is very prevalent and spreads rapidly, especially among close-herded range flocks. It is best for a whole community to dip all sheep about the same time to prevent spread of ticks

from flock to flock.

A common mistake in the manage- ment of sweet clover is to pasture a first-year stand too heavily. New seedlings should seldom carry more than one mature animal to two acres. The rate of grazing may be heavier than this in August, but by September 15 the rate should be decreased, to allow the plants to store food in the roots. Each plant should go into the winter with at least 6 inches of top growth. Sweet clover pastured too heavily the first year will start slowly and grow unevenly the second year, and will yield considerably less forage than if pastured lightly the first year.

Bacteria are single-celled plants, so small they can not be seen with the naked eye. They are found in large numbers in the soil and in many other places. They multiply rapidly when given proper food and a warm temperature. Warm milk is an ideal food for bacteria. Bacteria cause milk to sour and produce other undesirable changes. For this reason milk should be produced in a sanitary manner and kept cold.

The growing of one intertilled crop following a good clover or alfalfa sod is excellent in a rotation, but the common practice of growing two or more intertilled crops in suc- cession after the clover or alfalfa is a mistake. Intertillage inevitably will cause rapid destruction of the soil organic matter.

The careful livestock feeder watches each animal and feeds according to the animal's needs. Many farm animals are underfed and can not produce a profit on the feed they get.

Let the extra miles in CONOCO gasoline buy it for you . . .

If you keep an accurate record of gasoline costs, you know that every extra mile you get from a gallon is so much velvet. In the aggregate these extra miles represent a handsome saving—enough to pay for those greatly desired accessories you've had in mind; perhaps a pair of new inner tubes or an extra set of spark plugs. That's why it will pay you well to look for the new Conoco Red Triangle. Fill 'er up. Then speed away for extra miles.

**Baseball Tournam-  
ent Attracts Many  
Of O'Donnell Fans**

A county baseball tournament is being held in Lamesa this week by the different teams of the county and is attracting many O'Donnell baseball fans daily. Some good baseball is being witnessed according to those who have been attending daily.

Mr. and Mrs. J. T. Warren of Dallas, and Mr. and Mrs. W. O. Edwards of Rockwall, Texas, have been visiting Mr. Jno. Anderson and family the past week.

The party was seen that took the dirt off my go-devil. If they are returned immediately, it will save trouble. W. E. Walker, O'Donnell, Texas. 1tp

**EVERYBODY INVITED**

**Yes, and It Is  
Mistletoe**

It's no mystery to us why the kiddies adore Mistletoe Ice Cream. We who know the actual process of manufacture—the rich, cream, luscious fruits and cane sugar combined in that oh-so-tempting manner—we know why Mistletoe is a prime favorite. It's as wholesome as it is delicious.
