Rayburn Chevrolet Co.

A Six in the Price Range of the Four

Less than eight months have elapsed since the first Chevrolet Six was delivered into the hands of an owner—and already there are more than a million six-cylinder Chevrolets on the road! And the reasons for this overwhelming success are easy to understand.

Into a price field that had hitherto been occupied exclusively by four-cylinder cars—Chevrolet has introduced a six-cylinder car of amazing quality and value. Not only does it offer the smooth, quiet, velvety performance of a great six-cylinder valve-in-head motor—but, from every standpoint, it is a finer automobile than was ever before thought possible at such low prices! Its beautiful new bodies—which are available in a variety of colors—represent one of Fisher's greatest style triumphs. And the safety and handling ease are so outstanding that it's a sheer delight to sit at the wheel and drive. In fact, the new Chevrolet Six has completely changed every previous idea as to what the buyer of a low-priced car now has a right to expect for his money.

You owe it to yourself, as a careful buyer, to see and drive this car. For it gives you every advantage of a fine six-cylinder automobile—in the price range of the four and with economy of better than 20 miles to the gallon! Come in today!
CIVIC PRIDE

It is commendable to the highest degree when the citizens of any town by their actions, have some sort of interest, to vote to clean up the town. As action speaks louder than words, it is done more when properly directed to benefit, inspire, and uplift mankind.

Clorinda, or was it Calico Clot- cup and something about if you have done a job better than any other per- son in the country, if the work has been done at the expense of a fellow, if the work will be cleaned of weeds, and it looks so different. A citizen was heard to say, "It makes my eyes look at it." Other such improvements could be mentioned but it would make the article too long, as you would read the whole thing.

Some formerly neglected lots near the heart of town have recently been cleaned of weeds, and it looks so different. A citizen was heard to say, "It makes my eyes look at it." Other such improvements could be mentioned but it would make the article too long, as you would read the whole thing.

This evidence of civic pride goes not unnoticed, but it appreciated by all who pass that way.

The Purposes of the Texas Electric Service Company as a Texas Institution

White Texas produce almost fills the markets of the United States, you will find Texas goods in many other sections on sale in some stores which do not feature Texas products. It is possible to produce enough Texas goods to meet the demand for them. It is only a question of whether Texas farmers and manufacturers are going to make the necessary move to form the proper marketing of Texas goods.

The Texas Electric Service Company is interested in the use of electricity, and wants the people of Texas to be satisfied with electricity. The electric service company has a policy of never cutting a user off to provide for another user unless that user is willing to pay for the time lost. In case of an emergency, they are willing to turn off the service to a user who is not willing to pay.

CABLES OUT FOR THE TRISTATE FAIR

AMARILLO, Tex., Aug. 15 — Arrangements for the tristate fair to be held here Sept. 13-17 are again progressing as rapidly as possible, and prospective exhibitors in the Tri-State area are urged to contact the fair office to arrange for space as soon as possible.

It is believed that there will be more than 3,000 automobiles in attendance at the fair this year, and that there will be an attendance of more than 3,000,000 people. The fair, which has been held in the history of the exposition, is expected to be greater than any attraction ever before presented in the Tri-State area.

STATE FAIR TO HAVE NEW PARKING SPACE

Dallas, Texas, Aug. 15 — Plans are under way for the construction of a new parking space for the fair. This space will be located near the main entrance to the fairgrounds, and will be one of the largest in the state. The fair is expected to draw more than 3,000,000 people this year, and the new parking space will be a great convenience to the fairgoers.

ELECTRIC REFRIGERATORS

Everywhere, people of discriminating taste are selecting the ideal method of refrigeration. The new KELVINATOR is the latest word in modern electric refrigeration. The difference between Kelvinator and all other refrigeration is that Kelvinator embodies every worth-while new feature of performance, plus a proven reliability found nowhere else.

We have a number of customers in O'Donnell who are highly pleased with the new KELVINATOR. Ask any of them what they think of the KELVINATOR. Their opinion will be more convincing than anything we could say for the machine itself.

Enjoy one of these modern machines, NOW. Buy it now on convenient budget payment plan. Let us tell you about it.
