The O'Donnell Eagles rolled in-Taboka Friday night as the ded underdog, with the Bullses 3-3 1 record compared to the ragles v-7. Spirits were start the highest of the season. However the Buildogs breathed fire, blanking the Eagles 35-0.

There are several uses for goose eggs. They tell us they make unusually good omelets, missiles in slapstick comedies, and filling for gooseberry pie.
But all of these uses are nothing compared with the goose egg that was put on the Tahoka scoreboard Friday night. This egg came from the Golden Hen and will make the leading topic in the county seat for several days.

But the Eagles won our admiration. It's easy to be a winner, but hard to be a good loser. With the score overwhelmingly against them, the Eagles never gave up fighting until the game was over. At the end of the game the Eagles had plenty of handshakes for those Bulldogs.

This is the real thing. The spirit of sportsmanship, that should dominate every game. Game Statistics

FHA GIRL OF THE MONTH TO BE CHOSEN BY CLUB

As a new project the FHA Club has chosen to select a girl representing each month. Her election is based on the work done for FHA and the school activities she has participated in during the

Girl of the month for September is Clara Autry who is 17 years old and daughter of Mr .and Mrs. G. T. Autry. Clara's favorite school subjects are literature and bookkeeping and her pasttime is pencil sketching or reading.

Clara says that there are so many good things involved in FHA that it is hard to say what she likes best. FHA impresses her most of any organization she belongs to because of its ideals. The fact that the girls themselves have set up these ideals for a life goal makes it more appealing to her. The Future Homemakers of America is a group whose ideas are common and the girls are not afraid to express what they feel. Clara sums what she likes most about FHA by saying, "I like FHA as a whole, but the opportunity it offers is the reason I like it so well."

SCOUTS MEET ON MONDAY

"A Scout Is To Be Trusted" is a lesson the O'Donnell Scouts are learning. The Boy Scouts meet every Monday night at 7:30 at the American Legion Hall. Assisting Scout Master Charley Boles at these meetings are Assistant Scout Master Oscar Veach and Institutional Representative Truett Hodnett. Plans are being made for a full Scout program to be carried out in O'Donnell. Ages of the Boy Scouts are 11 years through 17 years. These Scouts wish to be of service to their fellow man and their community. If anyone knows of an opportunity for the Scouts to be of assistance, please contact Charlie Boles, Oscar Veach, Truett Hodnett or any member of the O'Donnell Rotary Club.

ROTARY NEWS

The O'Donnell Rotary Club met Tuesday with President Truett Hodnet presiding. Visiting Rotarians were Noble Price, Jack Broyls and Hulon Bolch of Lamesa and Emil Prohl and Fred McGinty of Tahoka.

"Learning To Do, Doing to Learn, Earning to Live, Living to Serve"-The motto of the Future Farmers of America is a challenge for this very active organization. Reporting to the local Rotary Club was Bobby Caswell, son of Mr. and Mrs. Noel Caswell. Bobby was a delegate to the National FFA convention held in Kansas City. The thrill of meeting with 8,000 Future Farmers from all over these United States and seeing 300 Future Farmers receive their American Farmer degree were experiences that Bobby will never forget. This very active Department of the O'Donnell School system is getting ready to put their pigs in the pens that the boys use on the Saleh land. On Nov. 10 Kenneth Graeber, State FFA president from Brenham, Texas will arrive in O'Donnell and be the guest of the O'Donnell Chapter until the next day. Kenneth will meet with the school in the Assembly. It is truly an honor to have this young man in O'Donnell. The Rotary Club again salutes the O'Donnell School System with its many interests and divisions that is so necessary for the well balanced program that it has.

From the Rotary family, the Lucio Velayos of the Philippines, the letter received in O'Donnell states that October is a very busy month in General Santos, Cotabato. One of the highlights of the season is the "The Sound of Music" that will be staged for the benefit of the pavement project for the Freedom Park there in General Santos.

, From London, the letter re ceived tells that the warm and sunny days are gone. The weather is beginning to get cold.

Thought for the week: "Luck occurs when preparation meets opportunity" - Kenneth Graeber, State FFA President.

FHA has helped Clara Autry to realize her responsibilities as a Future Homemaker and those she will hold as a homemaker. Home Economics which is in reality ar extension or a coordinate to FHA, has helped Clara form a background for almost any phase of work she will encounter as a homemaker.

At the present Clara is totally undecided as to what she wants to do after graduation. Her first idea is to extend her education to the college level. Her second idea would be to go to a business school and get a job. Either way Clara intends to take a three year art course with the possibility of entering commercial art as a hobby or pasttime, and not as a

DEADLINE DATE FOR NROTC QUALIFYING EXAM NEARS

High School seniors and graduates have only until Nov. 19 to apply for the Navy's Reserve Officer Training Corps. Applicants will take the nationwide competitive examination as the first step toward appointment as Midshipmen.

Designed to supplement the officer output of the Naval Academy, the NROTC program makes it possible for a young man to earn a regular commission while studying at one of the 52 civilian colleges which has an NROTC unit. All tuition, fees and books are furnished by the Navy, and the student receives a subsistence allowance of \$50.00 per month for not more than four years. During the summers the student goes on training cruises, and after completing a four year college course, he is commissioned in the Regular Navy or Marine Corps and goes on active duty as a career officer. He receives the same promotional opportunities, duty assignments, and benefits as Naval Academy graduates. High school seniors 17 up to 21

years of age may apply by securing blanks at the local high school or Naval Recruiting Station of from Chief of Naval Personnel Department of the Navy. Washington, D. C., 20370.

Delayed Ginning O'Donnell Negro For Better Fiber

College Station-Delayed, or deferred, ginning of cotton means higher quality fiber to mills, according to research data compiled by James M. Ward and James W. Graves, assistant professors, Department of Agricultural Economics and Sociology at Texas A&M University.

Moisture levels in machine picked cotton vary within eacn load due to moisture differences in seed, fiber, trash content and the maturity of the cotton. This variation causes some fibers to be overheated and overdried during ginning. The result is lower fiber values to mills due to greater fiber breakage and higher fiber length variation.

Texas A&M University scientists initiated a study of the effect of Back At Home different harvest periods and ginning treatments on moisture content and selected fiber properties of machine-picked cotton. Morning and afternoon harvested cotton, followed by either immediate ginning, was studied over a three-year period.

No significant differences were noted between the fiber quality of cotton picked in the morning and that picked in the afternoon.

However, deferred ginning, or storing seed cotton for one day prior to ginning definitely had a favorable effect on fiber quality The moisture level of the deferredginned cotton was more uniform due to a moisture transfer from the seed and trash to the fiber during the storage period. This increased uniformity allowed the cotton to be ginned with less drying and, as a result, less fiber damage. Fewer fibers shorter than length, and less waste and delay color or nonlint content.

The true worth of cotton to mills is the value of their finished products less manufacturing cost. If significantly higher quality lint cotton with improved spinability ginning, mills could well afford to pay premiums for such cotton. Deferred ginning may possibly strengthen the market for cotton in the future.

Jimmy White, 24, O'Donnell Negro, must spend two years in the penitentiary for killing another Negro, Leo Hunter, also of O'Donnell, in an argument over 25 cents.

A jury in 106th District Court Wednesday found White guilty of murder without malice.

The two men were engaged in a card game at O'Donnell last November 16, became involved in an argument over 25 cents, and White is alleged to have stabbed Hunter with a knife. The victim is said to have bled to death shortly after arriving at a Lamesa hospital.

Congressman George Mahon returned to the District early this week following "a rugged and historic session of Congress which set a modern record of 383 roll call votes in the House and the passage of 85 pieces of major legislation." Mahon, who was present for all of the roll call votes, said "The impact of the legislation enacted in this Congress will be felt for generations. I opposed some of it; I supported some."

Mahon, who played a key role during the session of Congress as Chairman of the House Appropriations Committee, which provides legislation for funds for all government programs, says he feels that the country needs to pause and undertake to digest the huge amount of legislation which has been passed." We need to avoid legislative indigestion, as one who 1/2 inch, less variation in fiber eats too much too fast, and I am inticipating a shorter session next in spinning operations all resulted year, with a less amount of legisfrom deferred ginning. The 59th Legislature authorized vote on 27 proposed amendments to be voted on during 1965 and 1966, the greatest number by any legislature since the present Constitution was adopted in 1876.

The first, voted on Sept. 7, was rejected by Texas voters. This would have increased the size of the Texas Senate from 31 to 39 members.

Sixteen are to be voted on next year, but the 10 up for consideration now in the Nov. 2 voting, are briefly: 1. Increasing state ad valorem

tax by five cents on the \$100 valuation for building construction for state institutions of higher

2. Authorizing an increase of \$200 million in bonds for loans to veterans to buy land and extending program for eight years.

3. Granting authority to Legislature to enact legislation to continue co-operation with Federal Government in providing assistance and medical care to certain aged, needy and handicapped persons; expanding age categories of those eligible for blind assistance of State, and other state officials elected in state-wide elections.

5. Clarifying investment authority for the Board of Trustees of the Teacher Retirement System.

6. Authorizing Legislature to provide for issuance of bonds to be used in creating Texas Opportunity Plan Fund as loan fund for Texas students attending pub-

lic and private colleges in state. 7. Exempting certain hospitals expending at least \$1.5 million for free care for indigent from the payment of ad valorem taxes levied by any taxing entity except the state itself.

8. Providing for automatic retirement of District and Appellate Judges for old age, creating State Judicial Qualifications Commission, and providing for removand of needy children; and ex tending eligibility of program for aged to citizens and non-citizens who have resided in the U. S. 25

secure their foothold on the land," Cappleman said. "With this expanded authority,

we can be far more effective in helping rural communities and amily farmers obtain needed resources, build their economic strength. We must cease looking to the cities for solutions to rural problems. We must work to make rural America strong."
