

Lions To Sponsor Magic Show April 1st

On April 1st the Lions Club will present "Its Fun To Be Fooled By Furst" at 8 p. m. at the school auditorium.

City Election April 1st

The annual city election will be held Tuesday April 1st in the office of City Collector.

Gilliam Seeks Post In Dawson Co.

The Index has been authorized to announce the candidacy of W. L. Gilliam for the position of Commissioner of Precinct 2 of Dawson County.

To the vast majority of citizens of Precinct 2 of Dawson County Mr Gilliam needs little introduction.

Mr. Gilliam plans an active campaign that will include contacting each voter so far as possible.

W. L. DeVore Rites Are Read

Funeral services for William Lofton DeVore, 83 of Welch were held at Welch at 2 p. m. Monday at Church of Christ.

Young Evangelist Is Featured In TIME

The story of James W. Nichols young radio evangelist of the "HERALD OF TRUTH" is featured in the latest issue of TIME MAGAZINE.

Church Thanks Workers

Burl Koeninger has requested the Index to try and reach as many of those who helped on the scuttling of the old Baptist Church as possible.

Revival Begins Friday At Berry Flat Church

A revival will begin Friday night March 28th and continue thru April 6th at the Berry Flat Baptist church with morning services at 10 a. m. and evening services at 8:15 with prayer meeting at 7:30.

Supt. Morris Tells Of Los Angeles, Trip

This is Mr. Morris's account of his trip to Los Angeles, Calif. There were about 50 Superintendents from West Texas attending the National Meeting and most of them went through on Santa Fe train which left Lubbock early Friday morning March 7th.

Mrs. J. M. Noble, sr., Is Claimed

Mrs. J. M. Noble, one of the real pioneers of Lynn County, died at her home in east Brownfield Tuesday after a long and lingering illness.

Funeral services were held in the First Baptist Church in Brownfield Wednesday at 2:00 P. M., and her body was laid to rest in Tahoka Cemetery beside the grave of her late husband.

As all who knew her will attest, Mrs. Noble was truly a great soul, a kind mother, and a citizen of the highest type.

The couple and their oldest children moved out to the West Point community in Lynn County in 1902, and made their home there until 1943, when they moved to 711 Tahoka Road in Brownfield.

Thursday Afternoon Is Pictures Of Holy Lands To Be Shown

Next Wednesday April 2nd at the First Baptist Church Dr. F. B. Malone will show his movie of the Holy Land.

Dr. and Mrs George W Howard of Dallas spent Saturday nite with his sister and family Mr and Mrs J T Middleton sr

Cities Win Health Awards

Twenty Texas cities have won awards from the Texas State Department of Health and twenty three others have been recognized for maintaining municipal water supplies which conform to State Department standards.

The awards loving cups and plaques are presented every year by State Health Officer Geo. W. Cox to cities making outstanding progress in water and sewage treatment plant operation.

Named to the 1952 Honer Roll were:

Jefferson County Water Control and Improvement District at Groves for having the highest percentage of its population connected to the public water system.

Marshall for having the best plant for control. The Marshall plant daily performs bacteriological and chemical analysis of its water.

Fredericksburg, for having the highest percentage of its population connected to the sanitary system. No outdoor toilets exist in Fredericksburg.

Del Rio for having the highest ratio of sewer connections completed last year. Del Rio made 450 connections in 1952.

Burnet was designated as making the most advantageous use of its sewage effluent for irrigation.

San Angelo was selected for making the best use of its sewage sludge.

San Antonio was designated as maintaining the best sewage plant laboratory. Modern facilities are available at this plant. Dr. Cox said, and competent personnel are in charge.

Crockett County Water Control District at Ozona won a loving cup for keeping the most attractive water plant, and Baird won a cup for making the most improvement its water system.

Loving cups were also presented to Bandera for having the most attractive sewage plant; Mason for making the best quality sewage effluent; and to Longview for making the greatest improvement to its sewage plant.

Cities which won Departmental approval for their water systems are: Alice, Arlington, Arp, Bellair, Conroe, Corrigan, Corsicana, Donna, Graham, Hico, LaGrange, Lamesa, Lampasas, Liberty, Lindale, Mont Belvieu, Rosenberg, Schertz, Sehu lenberg, Smithville, Taylor, and Troup.

Chairs, Table Are Simple Home Projects

CHAIR—PATTERN 348
FOLDING TABLE—PATTERN 349
CEMENT FLAGSTONES—PATTERN 329

WORKSHOP PATTERN SERVICE
Drawer 10
Bedford Hills, New York

JUST NO

Convenient
Why did you cut the sleeve out of your overcoat?
So I could put it on without taking my books out of my hand.

Too Weak
Hole-proof hose don't wear well. I think they do.
I mean, they don't seem to stand up.
Maybe you don't wear them long enough.

Drinker's Lament
You put in whisky to make it strong; water to make it weak; lemon to make it sour and sugar to make it sweet. It makes me cockeyed to think of it.

One More—Poof!
Have a cocktail—have a Customer's Last Stand?
What is that?
One more and you'll fall.

Go Away!
There's an old clothes man at the door.
Tell him I've got all I need.

All Depends
How many shirts do you get out of a yard?
Well, that depends on what yard I get into.

Put Him in the Tank
My father's selling gasoline.
Your father wouldn't work even if somebody gave him a job. What makes you think he's selling gasoline?
Well, the police station telephoned today and said: Better come down and bail your papa out, because he has a tank full.

A SOOTHING DRESSING MOROLINE

To Help Avoid COLDS and COUGHS due to colds...

Many Doctors recommend **SCOTT'S EMULSION**
If you catch colds often—because you don't get enough A&D Vitamin food—you'll be grateful for the way good-tasting Scott's Emulsion helps build you up and helps ward off colds, build stamina and resistance. Scott's is a HIGH ENERGY FOOD TONIC—rich in natural A&D Vitamins and energy-building natural oil. Good tasting. Easy to digest. Economical too. Buy today at your drug store.

MORE than just a tonic—it's powerful nourishment!

SCOTT'S EMULSION HIGH ENERGY TONIC

"Miracle Drug" say SURIN Users
Pains of Arthritis, Rheumatism, Neuritis, Lumbago, Bursitis*
Relief Can Start in Minutes

There's no internal dosing with SURIN. Nothing to swallow and wait anxiously for relief. You simply apply SURIN right at the point of pain and blessed relief starts as penetration beneath the skin gets under way. Of course there's a reason for this wonder-working new external fast pain relief medicine. It acts speedily to aid penetration of SURIN's pain-quelling ingredients. Methacholine also causes deeper, longer-lasting pain relief and increased speed-up of local blood supply.

Tested on chronic rheumatism in large university hospital it brought fast relief to 53% patients and in home-for-the-aged 77%. Totally different from old-fashioned rubs and liniments, modern SURIN brings faster relief, longer without burning or blistering; without unpleasant odor or grease. Simply smooth on SURIN at the point of pain and feel pain ease in minutes. Money-back at your drug store if SURIN doesn't relieve muscle pain faster and better than anything you've ever used. A generous jar costs \$1.25. SURIN is not a cure for any of these conditions.

THE ANSWER TO OXFORD'S Pilgrim Bible QUIZ

8. Joshua and his men were commanded by the Lord to circle the city once a day for six days and seven times on the seventh day (see Joshua 6:3-20 in the Pilgrim Edition of the Holy Bible).

Free Yourself from laxative slavery
Try this delightful family breakfast treat! Eat a generous bowlful (about 1/2 cup) of crisp, toasty Kellogg's ALL-BRAN with sugar and cream. Drink plenty of liquids. ALL-BRAN is the natural laxative cereal that may help you back to youthful regularity, lost because of lack of bulk in your diet. It's the only type ready-to-eat cereal that supplies all the bulk you may need. High in cereal protein, rich in iron, provides essential B and D vitamins. Not habit-forming. Why don't you try it? Kellogg's is so sure you'll like ALL-BRAN that if you're not completely satisfied after 10 days, send empty carton to Kellogg's, Battle Creek, Mich., and get DOUBLE YOUR MONEY BACK!

Youthful Halter Dress
Is Popular for Summer

8713
10-20

HERE'S that youthful halter dress that's so popular for summer wear. And teamed with it, a brief bolero that makes it a handsome street costume.

Pattern No. 8713 is a new-style perforated pattern in sizes 10, 12, 14, 16, 18, 20. Size 12 dress, 3 3/4 yards of 39-inch; bolero, 1 yard.

Basic FASHION for '52 contains many practical suggestions for making your clothes budget go farther; gift patterns printed inside the book 75 cents.

THE ANSWER TO OXFORD'S Pilgrim Bible QUIZ

7. Belshazzar's feast and the hand that wrote on the wall. Daniel was the only one who could read the writing, which foretold Belshazzar's downfall (see the Pilgrim Edition of the Holy Bible, Daniel 5).

FINE FOR SCRATCHES MOROLINE PETROLEUM JELLY

Stops Laxatives

regains youthful regularity

"For thirty years I took so many kinds of pills and laxatives to relieve constipation. Since I started eating ALL-BRAN every day, those troubles are over," says busy Bethany, Mo., woman. If you, too, suffer from irregularity due to lack of dietary bulk, try toasty ALL-BRAN. It's helped thousands to regain youthful regularity. Rich in iron, high in cereal protein. Provides essential B and D vitamins. Not habit-forming. It's the only type ready-to-eat cereal that supplies all the bulk you may need. Eat 1/2 cup every day; drink plenty of liquids. If you're not completely satisfied after 10 days, send empty carton to Kellon's, Battle Creek, Mich., and get DOUBLE YOUR MONEY BACK!

HOUSEHOLD MEMOS... by Lynn Chambers

Try Bowls of Creamy Soup for a Hearty Meal (See Recipes Below)

Let the Soup Simmer

COME, LET'S PUT on the soup kettle, and let it simmer merrily while other household duties are put on their way to completion. By the time these are finished, the soup will be ready for supper!

Soup is a tasty introduction to a meal, but it can also be made rich and hearty enough to be the meal itself, with only a little help from a light salad or dessert.

Bowls of steaming soup add food value to a meal, and can well be used to good effect when your meal is made of leftovers. If the family is having its seasonal colds or other ills, they may not want to eat heavily; serve them soup. It supplies easily assimilated foods and provides essential fluids to those who are sick or convalescent.

Vegetables and meat make this soup rich, colorful and delicious:

Tomato-Vegetable Soup (Serves 6)

- 1 Small shank bone
- 1 teaspoon salt
- 1/2 cup potatoes, cubed
- 1/4 cup carrots, chopped fine
- 1/2 cup green beans, sliced
- 2 tablespoons bean sprouts
- 1 cup tomato juice
- 1/2 teaspoon sugar
- Chopped parsley
- 1/4 cup celery, cut fine

Soak bone in cold water. Simmer for about 1 1/2 hours, until broth is made. Strain and season. Add vegetables and cook for 15 minutes or until vegetables are tender. Add bean sprouts, sugar and tomato juice. Heat. Garnish with chopped parsley. Serve with toast triangles.

A rich soup which might well serve as a meal is this one with lobster, very simply prepared:

Rock Lobster Bisque (Serves 6)

- 2 flat cans of lobster
- 2 cans mushroom soup
- 1 can water
- 1/4 teaspoon paprika
- 1/4 teaspoon curry powder
- 6 teaspoons real mayonnaise

Cut lobster chunks. Combine with all remaining ingredients except mayonnaise. Heat thoroughly. Stir a small amount of soup into the mayonnaise, then blend with remaining soup. Heat 5 minutes without boiling. Serve hot garnished with parsley.

Red Bean Soup (Serves 6)

- 2 slices lemon
- 1/2 teaspoon salt
- 1/4 teaspoon black pepper
- 1 teaspoon worcestershire sauce
- 2 slices stale bread, diced and fried
- 3 slices bacon, diced
- 1 onion, sliced
- 1 stalk celery, diced
- 2 bay leaves
- 1 tablespoon flour
- 1 teaspoon paprika
- 2 cups hot water
- 1 No. 2 can red kidney beans

LYNN SAYS: Let Variety Highlight Serving of Soups

Certain garnishes can be used for all kinds of soups. These include minced chives, minced parsley or popcorn.

Garnishes for soups are planned to point up flavor as well as appearance. Chopped bacon bits or thinly sliced frankfurters go well, for example with split pea and bean soups. You might try chopped mint with chicken soups or cream of green pea soup.

LYNN CHAMBERS' MENU

- *Corn Chowder
- Jellied Tomato Aspic
- Chive Cottage Cheese
- Crackers Olives Celery Sticks
- Baked Apples
- Caramel-Frosted Spice Cake
- Beverage
- *Recipe Given

***Corn Chowder (Serves 6)**

- 2 strips bacon, diced
- 1/2 cup diced onions
- 1 cup diced celery
- 1 cup finely diced potatoes
- 2 tablespoons butter
- 1 quart milk, scalded
- 1 No. 2 can cream style corn
- 1 1/2 teaspoons salt
- 1 teaspoon worcestershire sauce
- Dash of tabasco sauce
- 2 tablespoons minced parsley

Cook bacon until crisp, then add onion, celery and potato with a very small amount of water, about 1/2 cup. Cover and cook until tender. Add butter, milk, corn and seasonings. Serve with chopped parsley.

Oxtail Soup (Serves 6)

- 1 1/2 pounds oxtail, cut in 2" pieces
- 1 1/2 quarts water
- 1 tablespoon salt
- 1/2 cup diced onion
- 1/4 cup diced raw carrot
- 1/2 cup diced celery
- 2 tablespoons white rice
- 1 cup cooked or canned tomatoes

Brown oxtail pieces with a small amount of fat in a deep kettle. Add water and salt and simmer covered about 3 1/4 hours. Remove meat from bones and return to kettle with broth. Add all vegetables, except tomatoes, along with rice and cover; simmer for 30 minutes. Add tomatoes, heat thoroughly and serve.

Clam Bisque (Serves 8)

- 2 7 1/2-ounce cans minced clams
- 1 cup water
- 1 to 2 teaspoons salt
- 1/4 teaspoon pepper
- 1/4 teaspoon celery salt
- 1 teaspoon grated onion
- 2 teaspoons minced parsley
- 2 cups milk
- 2 tablespoons butter, melted
- 1 tablespoon flour

Mix together the liquor drained from the clams with salt, pepper, celery salt, onion and parsley; simmer for 3 minutes. Add milk. Gently stir into milk mixture a paste made of the butter and flour. Boil one minute stirring constantly, then place over boiling water until ready to serve. Stir in the minced clams just long enough to heat through. Serve, garnished with minced parsley.

Thinly sliced lemon does wonders for chicken-rice soup, chicken-noodle soup, clam chowder or consommé.

Vary the serving of cream soup by adding some croutons at one time, and then at another time some slivered almonds.

Are you having some extra guests for luncheon or dinner, and no two cans of soup alike? This can prove interesting because tomato soup, for instance, can be combined with the following: bean soup, clam chowder, chicken and rice, chicken noodle, or green pea.

Bold, Gay Patterns for Skirts

410

HANDSOME full skirt with wide waistband has big, big pockets (they measure 9 by 11 inches) boldly and colorfully embroidered in a bird, hearts and flowers design. Tissue pattern for skirt; transfer pattern for embroidery design; all sewing and embroidery instructions are included in pattern. World Population Up In Postwar Period

Reurgence of births and declining mortality in large areas of the globe have resulted in a spurt in world population during the postwar period.

In the United States the annual excess of births over deaths has averaged better than 15 per 1,000 population, which is above the level immediately following World War I, and about twice the rate during the depression decade of the 1930's.

The trend has been similar in Canada and New Zealand.

In France, where virtually no population gains had been made for a century, and where as recently as 1940-1944 deaths exceeded births, the rate of natural increase has averaged better than 7 per 1,000 each year since 1946. In Ireland, which had been losing population for a century, the excess of births over deaths has been somewhat more than 8 per 1,000 during the past six years.

Better Cough Relief

When new drugs or old fail to stop your cough or chest cold don't delay. Creomulsion contains only safe, helpful, proven ingredients and no narcotics to disturb nature's process. WHAT ARE TODAY'S FACTS ABOUT NEW CAR ENGINES AND POWER STEERING?

LAST YEAR Chrysler introduced its new FirePower V-8 engine, and America's first passenger-car full-time power steering. Both new ideas "took hold" in a big way.

Today, others are announcing "new engines" and "power steering" . . . but with some basic differences worth keeping in mind if you're buying a new car.

First: about "new engines." The fact is, a really new engine design happens only once in a great while. It did happen in the FirePower V-8. Its 180 h.p. was only incidental to its basic new design. Its key idea is a hemispherical combustion chamber, which makes even non-premium gasoline develop more usable power than other designs can get from premium fuel.

Only Chrysler engineering has so far mastered this design. Several cars do have some power increase, in terms of previous designs. The important fact is that FirePower is not a "warmed-over" engine, but brand new in performance, construction, and efficiency.

In power steering, too, there are basic differences.

Chrysler uses hydraulic power, always in effect, to do two things. First, it does 4/5 the steering work as you turn the wheel. Second, we've cut the amount of wheel turn needed by over 1/3.

Parking or cruising, you get more and easier control than ever before. In sand, snow, or ruts, the hydraulic power is always there to keep the front wheels from "steering back" at you. You get the same amount and feel of control all the time . . . full-time ease and full-time safety.

Actually, the differences, both in engine performance and in steering safety and ease are impossible to put in words . . . but just as impossible not to feel the moment you get into a Chrysler and drive it! Why not see your Chrysler dealer and do that, soon?

Lions To Sponsor Magic Show April 1st

On April 1st the Lions Club will present "It's Fun To Be Fooled By Furst" at 8 p. m. at the school auditorium. Admission is \$1 and 50 cents. This is a two hour show of clean fun and is one of the better magic shows touring the Southwest. The community will want to see Arnold Furst, one of the nation's foremost illusion artists. Judge Tom Brewer of the Lions Club is in charge of advertising the event.

PLAYS TO BE PRESENTED NEXT THURSDAY NITE

Thursday nite at 8 p. m. March 27th in the school auditorium Mrs. Chas. Cathey's dramatic class will present two one act plays. The proceeds will be used to improve the stage. Admission is 25c and 10c

City Election April 1st

The annual city election will be held Tuesday April 1st in the office of City Tax Collector. Holding the election will be Mrs. Guy Bradley and Mrs. Mac Noble. On the ticket is L. J. Hash, for mayor, re-election and unopposed, and for councilmen: Harvey Line, R. R. Peltis and C. N. Cathey, two of whom are to be elected. Plan now to vote in this and your school election and attend your precinct and county conventions in May. Make your government truly of and by the people.

"50,000 Miles No Wear" Service!

We Conoco Mileage Merchants are now trained and ready to give your car exactly the same service that helped keep test engines new in the spectacular "50,000 Miles—No Wear" road test!

In that famous test, six brand-new cars were each driven 50,000 killing miles, to prove the wear-fighting ability of Conoco Super Motor Oil.

Thanks to Conoco's 3-point "50,000 Miles—No Wear" Service, those engines showed no wear of any consequence, in fact, an average of less than one one-thousandth inch on cylinders and crankshafts. Gasoline mileage for the last 5,000 miles was actually 99.77% as good as for the first 5,000!

Now you can get Conoco's great "50,000 Miles—No Wear" Service to help your engine last longer, perform better, use less gasoline and oil!

Here's My Famous "50,000 Miles—No Wear" Service!

1 I'll Drain Out Grit and Sludge While The Engine Is Hot! "Hot-oil" drains every 1,000 miles flush out dirt, acid and contamination before they can do harm, leave the working parts of the engine sparkling clean!

2 I'll Recondition All Air and Oil Filters! I clean filter elements . . . replace worn-out cartridges . . . and record the mileage. I check mileage every time hood is lifted, to make sure these important filters are protecting your engine against dust and grit.

3 I'll Fill the Crankcase With Conoco Super Motor Oil! Conoco Super is fortified with additives that curb the dangerous accumulation of dirt and contamination—protect metal surfaces from corrosive combustion acids—fight rust—and OIL-PLATE a film of lubricant right to metal surfaces.

Why AC Electric Iron Not Used with DC

Q: I have an electric iron marked "For AC only." Why won't such an iron heat up just as well on direct current?

A: The iron would heat up on DC, but the thermostat which regulates its temperature would not work properly. The thermostat includes a pair of contacts which open when the desired temperature is reached and close, to turn the current on again, as more heat is needed. With alternating current, these contacts do not need to open more than about one five-hundredth of an inch. On direct current, however, the current would arc across the contacts. Unless they were opened at least 3/8ths of an inch, the arcing would continue and the current would not be shut off. With AC the direction of the current alternates 60 times a second, so it is actually at zero 120 times each second.

DOAN'S PILLS

THE READER'S DATE BOOK
National Boys' Club Week Will Be Observed March 31-April 6

National Boys' Club Week will be celebrated this year from March 31 to April 6 by some 335,000 Boys' Club members in cities and small towns across the nation.

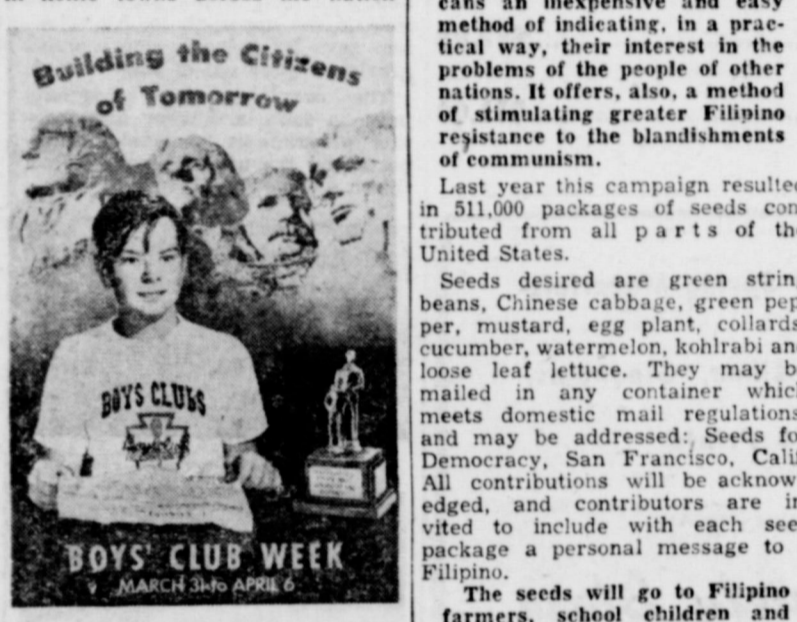

The week's observance will be built around the theme, "Building the citizens of tomorrow."

The Boys' Club movement was founded in New England 90 years ago. Since 1906 the Boys' Clubs have been federated into a national organization, Boys' Clubs of America.

Today, in club houses of their own, in a warm and friendly atmosphere, 335,000 Boys' Club members meet their friends away from the dangers of the street. With the encouragement of trained leaders, they develop strong bodies, acquire hand skills, desirable attitudes of behavior, fair play and an understanding of the rights of others. Boys' Clubs give 335,000 boys opportunity and guidance for self-development. They teach them that America is the land of opportunity for those who will work and learn and strive.

However, there is a need for more Boys' Clubs. At least three million boys still live in "shadowlands" in our cities and villages where the most fruitful soil is found for the growth of crime and subversive "isms". They live in crowded homes where there is little to do—where there are tensions, quarreling and bickering. They seek their companionship and play on the streets. These boys deserve the guidance and leadership of a Boys' Club.

This is a part of the story of Boys' Clubs that will be told during Boys' Club Week. It will be an effort to get civic-minded citizens in home towns across the nation

to become interested in the idea for their community. Any community desiring to establish such a club can contact Boys' Club of America, 381 Fourth Avenue, New York 18, N. Y., for help and advice.

One of the most important things to remember about the Boys' Club movement is that there is very little delinquency among the 335,000 boys from eight to 20 who have their own clubhouses through the United States in which they find recreation and companionship in after-school and evening hours.

Boys' Clubs lessen delinquency wherever they are established. This is the testimony of judges, police

HUMAN NEEDS
Red Cross Seeks Funds to Carry On Year Around Relief Projects

Renewed hope for a disaster-stricken family through the rebuilding of its flooded ruined home . . . blood for a wounded serviceman . . . a reassuring message for another serviceman, anxious over a problem back home . . . life-saving first aid for an accident victim.

These are typical of the hundreds of thousands of human services rendered by the American Red Cross last year and listed by E. Roland Harriman, national Red Cross president, as the organization's annual campaign for funds reaches full force. The national appeal will continue through March 31, with the slogan, "Answer the Call."

"Last year the American people did answer the call," Mr. Harriman declared, "and through their Red Cross helped millions of their fellow Americans with money and personal services. Our campaign theme this year is a summons to all Americans to give generous financial support again to the Red Cross so that it can continue to meet human needs."

High on the list were Red Cross

NAVY'S NEWEST . . . North American Savage attack bomber.

READY FOR GOP?

THE RECONSTRUCTED and overhauled White House is nearly finished and President Truman took a group of friends over for a look-see the other day. The whole structure has been enormously strengthened, but we still doubt that it could stand the shock if a Republican moved in after all these years.

And it is our belief that Harry Truman would never feel so disgusted as he would if, after all the improvements on the building, he found no Democrat was going to enjoy them.

The improvements have been extensive. Our Washington correspondent in charge of alterations sends us the following outline:

Bathrooms: Now de luxe. Floor which Harry reported was in danger of collapsing under his tub has been "Gibraltarized." Question "But if it should go through the floor would you be in it?" remains unanswered.

Elevators: All modernized. The steps are no longer jerky and if the President feels shaky in one, it is not the elevator's fault.

Stairways: New and stronger banisters permitting President to slide down them when every other source of relief from cares of office have failed. All creaks removed from stairs so President can get home late without a challenge and sneak into writing room or kitchen undetected.

Kitchens: Highly modernized in the current mode, with everything streamlined and the effect so dazzling you are at first not certain whether you are there to cook, swim or dedicate a new Pullman car. Iceboxes are the very latest in craftsmanship and gadgeteering. Each one is so modern that no commercial under 10 minutes could explain the features. Kitchen contains first icebox in history with compartments enough to hold not only foods and drinks, but also flannelees and fireside chairs. This icebox also can be used as a jukebox, pinball machine, and phonograph and video. President can now get a cold snack, 200.00 points on the scoreboard, the Hit Parade and a girl show in one operation. President admits it is the finest kitchen he has ever had. (But he won't say what's cooking?)

Writing Room: Very novel. Moment the President crosses threshold a red light is flashed on the desks of all his advisers and secretaries. Desk chair has an electric attachment so that when he sits down a concealed phonograph keeps shouting "Hold everything!"

Gymnasium: Unchanged except for a larger hat-hurling court.

Lincoln Room: Neatly redecorated, but suggestion that glass in mirrors be removed and pictures of White House occupant substituted has been rejected.

My love for you shines like the sun;
To all the world I shout it;
And ain't it grand that Wash-
ton
CAN'T DO A THING ABOUT
IT?

Deep love I send you, darling—
I pritheed do not scoff;
I get it for you wholesale,
And all controls are off!

His acceptance of the OPS job makes Ellis Arnall of Georgia the bravest Southerner since Robert E. Lee. . . Lee was supposed only to roll back Grant. . . Arnall is supposed to roll back human selfishness. . . Harry Truman says he was never fond of Spain. . . Can't think of the place without thinking of Dewey? . . . Washington has held hearings on a bill barring liquor ads from radio and video. . . Maybe the fear is of a jingle painting whisky as a cold cure, a detergent, dynamite to dirt, a vitamin-packed late snack and something 100 doctors went into without discovering a single case of irritation due to cocktails. . . Shudda Haddim missed "Bargainer" at \$26.30 and says the trouble was that he was looking for a better price. . . From the heavy loads shown on the back of G.I.'s in those parachute exercises it would seem fair to ask are they soldiers or pack mules? . . . Charlie Kullman, now singing his 29th role at the Met, is a Connecticut boy who used to go eel fishing around Sachem's Head. . . "I have been tagged for a thankless task"—Governor Arnall in taking Mike DiSalle's job. . . The price tag of the year, as it were.

Mike DiSalle advises his successor to "grin and bear it." What! No grin controls? No ceilings on "bear-its"?

Maybe one of the major parties will employ as a slogan in the coming election "Two video sets in every home and a ballet in every garage!"

Keith McHugh, president of the New York Telephone company, announces the 5,500,000th subscriber, and insists that it is not a lot of talk at all.

Storage Buffet Is Easy to Construct

THESE four units may be combined in different ways to be used in almost any room. They are as simple to make as so many boxes. Yet, modern glue and simple joints make them sturdy and strong. Pattern 226 shows every construction step and lists all materials. Price 25c.

WINS TOP HONORS IN COOKING COMPETITION

Mrs. W. Olin Coleman of Albuquerque, New Mexico, looks over some of the ribbons she has won in forty years of cooking competition. As you can see, she has used some of her prize ribbons to cover pillows—useful souvenirs of her cooking triumphs! Mrs. Coleman's latest awards came just last fall at the New Mexico State Fair . . . with 17 prizes altogether, she was a top winner!

Like top cooks all over the country, Mrs. Coleman has plenty of praise for Fleisch-

mann's Active Dry Yeast. "It's a real help," she says, "so easy to use . . . and this Active Dry Yeast stays fresh for months."

All during Lent serve plenty of yeast-raised goodies—such a delicious way to brighten up your Lenten meals! They're wholesome and nourishing, too. When you bake at home, use yeast. Use the best yeast you can buy—Fleischmann's Active Dry! It dissolves in a jiffy and really rises fast. Try Fleischmann's Active Dry Yeast—always dependable!

OXFORD'S Pilgrim Bible QUIZ

6. How old was this boy when he was sold? (See answer on a following page)

THE PILGRIM edition of the Authorized King James Version is the first ever prepared especially for young Christians—an epic study which took 38 scholars, under the direction of Dr. E. Schuyler English, ten years to complete. Provides more than 7,000 helps, index, chronology, maps in color, etc. A mine of information for students, teachers and pastors. Write to Oxford University Press, 114 Fifth Ave., New York 11, for the complete Pilgrim Bible Quiz. It's FREE!

Good Management Can Build Pastures Renovation Program Should Be Well Planned

These "before and after" photos taken on the John Fleischenreim farm near Watkins, Minn., show how good soil management methods can build productive, high yielding pasture on wornout, undernourished fields.

Buck brush and June grass were about all that would grow on the field in the upper photo. Fleischenreim says he got only one month's grazing a year out of this pasture.

The lower field shows what happens on such land when a renovation program is undertaken, supported by the use of plenty of fertilizer.

Fleischenreim plowed and disced this field in the fall. As soon as frost was out of the ground in the spring, he seeded a mixture containing mostly bromes and some alta-fescue with a fertilizer spreader. He didn't seed a nurse crop.

He added fertilizer at the rate of 250 pounds per acre of 0-20-20, then followed with 100 pounds of ammonium nitrate.

The first year, Fleischenreim got two crops of bromes. The second year he didn't need it, because he had 80 tons of hay in reserve, in case of trouble.

Fleischenreim pastures 33 head of dairy cows—mostly Holsteins for most of the summer on this pasture.

Corn Crib

RAILROAD STOCK CARS

To solve a building problem, one farmer came up with this idea of using two railroad stock cars in the construction of a double corn crib and overhead granary. The cars were set on a concrete base for use as corn cribs and the space under the roof served as a granary.

U.S. Farms Have Fewer Phones in '50 Than 1920

According to the 1950 census only 38.3 percent of America's farms have telephones as compared to 38.7 percent in 1920. Twenty-eight states reported fewer farm telephones. Those showing declines contain 80 per cent of the country's farms. Among the states suffering sharpest declines were Texas, Missouri, and Illinois. Connecticut leads in percentage of farms with telephones. Iowa is second.

**Cicero Smith
Lumber Company**

**Poultry Industry
May Set New Record**

**Output in 1952 May Hit
Fourfold of Decade Ago**

The poultry industry may break all production records during 1952. Production of broiling chickens, for instance, which makes up over half the chicken population, is expected to jump this year to more than 850 million birds. Last year's production was 784 million. Just a decade ago, fewer than 200 million broilers were raised in a year.

Turkey production is forecast at 11 per cent higher than the record 53 million of last year, about 80 per cent above the pre-war 1941 output.

Egg production is expected to stay about the same as last year when some 60 billion were produced. That was 40 per cent above the production of 1941.

Poultry production gains have far outdistanced the U.S. population increase. That means some huge jumps in per-capita consumption.

More and more flocks like the one above will be seen on the nation's farms this year.

Last year, the average American downed over 400 eggs, against less than 300 yearly in the 1935-39 period. Chicken eating per person was nearly 30 pounds in 1951, against a 1935-39 average of under 19 pounds. Turkey consumption more than doubled in the same period.

**Spreading Manure Aids
Wildlife, Specialists Say**

Farmers who spread manure on their fields in late winter and early spring are helping wildlife as well as crops, extension specialists re-

port. Value of manure spreading for soil food is recognized, but few people realize that good farming practice also is a wildlife conservation help. Most manure contains weed and crop seeds that make good winter feed for pheasants, quail and other birds.

February, March, and sometimes April, are lean months in many northern states for the wildlife population. Pheasants and quail are weakened by lack of cover during winter months.

Since much of their winter food supply has been exhausted, many birds will not survive lean pickings of rough weather during the last months of winter.

Agonomists always have emphasized that prompt spreading of manure saves plant food that might otherwise be lost through leaching. From now until full spring, manure could be spread when field conditions permit. Spreading now will put nutrients in fields instead of in barnyard drains, extension specialists say.

**Cpl. Lane Is In Long
Horn Army Exercise**

Cpl. Eldon D. Lane, whose wife, Betty, lives at 2214th - Eighth st., Lubbock, Texas, has arrived at Fort Hood to take part in Exercise Long Horn.

The maneuver is scheduled to run from March 25 to April 11 in an 1,800 sq. mi. area west of Fort Hood.

More than 115,000 soldiers and airmen, including four combat divisions, will form aggressor and defending forces to test new concepts of mobility and firepower.

A supply clerk in Company A of the 81st Engineer Construction Battalion, Corporal Lane, entered the Army in September 1950.

He attended the Texas Technical College, Lubbock, Texas.

Lane is the son of Mr. and Mrs. Jesse H. Lane, O'Donnell, Texas.

OPEN For Business

Drop By And Visit Us In Our New Business Home Just West of the Hotel On The Highway

As most of you know we recently purchased the local John Deere Agency from Mansell Bros. Our new building is nearly complete and we can now supply you with Guaranteed Tractor repairs and Genuine John Deere Tractor and Implement parts.

Our formal opening will be in the near future but to take care of your needs at present we are now OPEN.

Our Mechanics are Henry Bolles and R. G. Ledbetter.

We feel that we are no strangers to O'Donnell having known many of you when at Tahoka.

Drop by and visit us at any time . . . you are always WELCOME

**"KNOW-HOW" . . .
THE KEY TO OUR
BETTER OVERHAUL
SERVICE!**

"Know-how" often means the difference between an inexpensive and a high-priced reconditioning job. That's why we say—it pays to let us service your John Deere Equipment.

The "know-how" of our mechanics, combined with their use of only genuine John Deere Parts and precision tools, is offered you by no other dealer in this community. See us about our reconditioning work soon!

Mesquite News

The Mesquite Home Demonstration Club meet at the Mesquite Schoolhouse March 11 for the regular monthly meeting.

The meeting was called to order by the president Mrs. Bill Stephens. Mrs. Oscar Telchik handed in her resignation of secretary treasurer. Mrs. Bill Riddle was elected to fill the office.

At the February meeting Mrs. Riddle was elected to act as delegate from the Club to attend the Borden County H. D. Council meeting which was held at Gail. A very interesting report was given on the Council meeting. Your Books were planned and will be handed out at the April meeting.

The demonstration for the day was on clothing. Mrs. Hughes will continue the clothing demonstration next meeting which will be held April 8th.

Members present were Mrs. Ralph Martin, Dec Burrus, Bob Ludecke, Adolph Telchik, Garland Doyle, John Stephens, Bill Riddle Bill Stephens. New members were

Mrs. John R. Burkitt, Wildon Cooley, B. W. Cagle, Couch Hubert Walker, and Mrs. Huges.

Lack of Deep-Rooted Legumes Cuts Yields

Legumes Give Organic Matter to Worn Fields

"Corning" some soils year after year without restocking the organic matter via deep-rooted legumes in the rotation, will cut yields to the vanishing point even if you add fertilizer and install drain tiles.

Ohio soils specialists demonstrated that in tests at the Paulding experiment farm. The results of the tests are shown in the accompanying photographs taken on adjoining fields.

Both fields had been fertilized and tile-drained. The top field was continuously in corn. The lower field had a rotation of corn, small grains and two years of alfalfa.

Year after year of corn crops had robbed the top field of its organic matter. The soil became packed down and stuffy. It was so

tight that water could not get down below the surface. The middle rows of corn were drowned out by ponded rain. In other rows the roots couldn't get sufficient nutrients, oxygen and moisture to feed the stalks, leaves and ears.

The lower field shows a healthy, vigorous growth. Over the period of the tests yields averaged 30 bushels more than in the other field. The deep-probing taproots of the alfalfa kept the soil open to air and water. The mineralized organic matter left in the soil by the legumes improved soil tilth and furnished plant food for the corn and small grains. The organic matter improved the soil's drainage and water holding capacity. More moisture was stored for the use of the corn crop.

Administration's Foreign Aid Program Faces Fight in Congress

AID TO ALLIES—Although President Truman and Secretary of State Acheson took to the radio and television in an attempt to gain public support for the administration's \$7,900,000,000 program for military and economic aid to our allies, the program faces a bitter test before a money-conscious congress.

The administration feels that the \$7,900,000,000 represents a figure that has already been cut to the extreme and has decided to fight any further cuts. Congress, on the other hand, which is considering the largest "peacetime" budget in the nation's history, must find some way to cut the budget and thus reduce deficit spending. An increase in taxes in an election year, which would be necessary if the budget is not slashed, is an unheard of thing. As a result, one of the items that must be cut, from the congressional viewpoint, is foreign aid.

In view of the fact that the United States is attempting to build up a European army, it is unlikely that military aid will be reduced. That leaves the \$2,000,000,000 for economic aid. There is strong sentiment in congress for eliminating this item entirely. Aside from the money angle, congressional reaction to the program will be of importance in that military and economic assistance to nations standing up to Soviet communism is a cornerstone of the administration's foreign policy.

An important fact in the coming congressional battle over foreign aid is the fact it is not drawn along strict party lines. A number of Democrats, as well as Republicans, have announced themselves in favor of a great slash in foreign aid funds, some as much as 50 per cent.

POLITICAL NEWS—Sen. Richard B. Russell of Georgia has announced he will seek the Democratic presidential nomination. But the senator did not plunge deeply enough into the political pool to suit the bitter anti-Truman wing of Democrats.

He refused to let himself be regarded as the center of an anti-Truman Democratic rebellion should the President be nominated again. He insists that Truman will not be a candidate for re-election, but admitted he had no facts or information upon which to base his belief.

Russell was firm about one thing. "So far as I can see, I will support the Democratic nominee," he said, "but I would not commit myself to support a candidate or a platform injurious to the United States."

Sen. Russell (right) with Sen. Walter F. George, also of Georgia.

U.M.T. BILL—By sending the administration-backed universal military training bill back to committee, the house virtually wiped out any chance of the measure getting through congress this year.

The subject of bitter debate in the house, and just as warmly debated in the home towns of the country, the measure would have made able-bodied youths liable to six months' military training as soon as they reached 18. In addition, it would have kept them in the reserves, and subject to recall, for 7½ years after their training was finished.

The bill's defeat can be attributed to strong opposition by a number of church, farm, educational, and other organizations. President Truman and most military leaders, including Gen. Eisenhower, had endorsed the measure.

The house vote to return the measure to committee will probably sidetrack any action on such a measure in the senate. The measure, however, will come up again. How soon it will be enacted depends a great deal upon how soon the American public becomes educated to the idea.

KOREA—Russia appears so determined to be one of the "neutral" nations to police a Korean truce that it may wreck the peace talks. This, and the insistence of the Communists that all prisoners of war be returned regardless of their wishes in the matter, have brought the talks to a standstill and what appears a final deadlock.

As for the first demand, an Allied officer recently told the Reds: "I now tell you formally, unequivocally and with the fullest authorization that the U.N. command's decision to reject the Soviet Union as a member of the neutral nation supervisory commission is final and irrevocable. Further debate on this subject is completely futile."

On the prisoner issue, Allied negotiators have been equally firm. They told the Communists there was "no possibility" they would ever agree to deliver prisoners who had to be forced to return to Communist territory.

These exchanges have increased the atmosphere of distrust and bitterness which has surrounded the talks for months. As for the peace, it seems as far from becoming a fact as the day the talks began. There have been hints that a new offensive will be launched if the peace talks collapse.

UNEMPLOYMENT—Although unemployment in the United States as a whole is near a record low, the nation is faced with a serious unemployment problem. The problem is caused by the fact the unemployment is centered in a number of definite areas while the country is in the midst of general prosperity.

As an example, Detroit has had a high rate of unemployment for a considerable period of time, due chiefly to curbs on materials for consumer goods, in this case automobiles.

According to a government agency, total unemployment in the country is about 2,100,000. Spread evenly across the country the figure would cause no concern. However, they are in pools that dot the map, most of them in the east, a few in the Midwest.

How to remedy the situation is a problem now under study by the Department of Labor. The department will attempt to find long-term answers for these high unemployment areas, many of which are small towns whose economy is based on coal and textile industries.

The Marine Corps demonstrates its new nylon bullet-resistant body armor which is worn by Leathernecks on patrol in Korea. Primary purpose of the 8-pound jacket, which will stop a .45 caliber bullet, is to guard against fragmentation ammunition, the cause of 70 per cent of all combat casualties.

RURAL HEALTH

Rural Health Progress Is Too Slow

The closing session of the National Conference on Rural Health, sponsored by the American Medical Association in co-operation with farm organizations, was told by farm leaders that the medical profession isn't moving fast enough in promoting rural health.

In addition, farm leaders charged the medical profession as a whole doesn't yet understand the problem of serving rural people.

One speaker, Ferdie Deering, last president of the Agricultural Editors' association, warned the medical men that farmers might turn to the government for aid in better meeting their needs for health services if they didn't get help they needed from the medical associations and individual doctors in their localities.

TELEVISION DISCOVERS MAIN STREET

Technical Limitations Restrict TV Range

(This is the second of a series of three articles on the coming of a nationwide television service.)

The expansion of video into non-TV areas is based on the Federal Communications Commission's plan to open up a new section of the radio spectrum, known as the Ultra High Frequency Range, for commercial and educational television. This will permit 70 new channels for TV broadcasts, as compared to the 12 channels now in use in the limited Very High Frequency Range. By opening UHF and expanding VHF, the FCC will offer licenses for nearly 2,000 new stations, divided among every state in the union.

The FCC has indicated that it will put it up to private enterprise in the towns and cities concerned. If they want television they can apply for it, and, following final allocations expected soon, licenses will be granted to applicants found acceptable. On the basis of tentative allocations and provided each state fulfills its license quota under the expansion program, the nation will have this number of TV stations:

- Alabama, 45; Arizona, 30; Arkansas, 38; California, 80; Colorado, 36; Connecticut, 14; Delaware, 4; District of Columbia, 6; Florida, 56; Georgia, 53; Idaho, 28; Illinois, 59; Indiana, 45; Iowa, 58; Kansas, 49; Kentucky, 32; Louisiana, 42; Maine, 29; Maryland, 12; Massachusetts, 23; Michigan, 65; Missouri, 53; Montana, 39; Nebraska, 34; Nevada, 22; and New Hampshire, 12.
- Also, New Jersey, 9; New Mexico, 35; New York, 55; North Carolina, 51; North Dakota, 33; Ohio, 57; Oklahoma, 54; Oregon, 32; Pennsylvania, 52; Rhode Island, 4; South Carolina, 27; South Dakota, 30; Tennessee, 61; Texas, 178; Utah, 19; Vermont, 10; Virginia, 37; Washington, 41; West Virginia, 23; Wisconsin, 44; and Wyoming, 27.

This expanded service contrasts dramatically with the present regional allocations.

In many one-station cities like Albuquerque and Seattle, network programs have been unobtainable because relay facilities, either microwave or coaxial cable, do not reach them.

But the cables and the radio relay towers are today pushing steadily into new areas. In 1951, a chain of lefty microwave towers which relay video signals with split-second precision was completed from coast-to-coast. Coaxial cables are spreading through the south—from Kansas City to Wichita, to Dallas, San Antonio and Houston. Jackson, Miss., a southern terminal, is being tied to New Orleans, a northern branch is headed for Montreal; and cables are being laid from Los Angeles through Arizona, Texas and New Mexico to cover the southwest.

This vast expansion of video relay facilities means that scores of new television towns, with either UHF or VHF stations, will be able to tap into the terminals along the route and relay the major network programs through remote rural areas.

Main Street's Role

It is difficult to forecast accurately today how quickly Main Street, U.S.A., will erect the nearly 2,000 new stations for which licenses might be available and how quickly extensive home coverage will be obtained. There is the question of material shortages in a defense economy, of local financing of new stations and of the speed with

SKYLINE OF THE FUTURE—Here are the various types of antennas developed by RCA technicians to receive UHF television broadcasts. Some of them might soon become familiar landmarks on the rooftops of farms, ranches and city homes in every section of the United States. They bear such colorful names as "Bow Tie" and "Yagi" and "Double V" and "Corner Reflector." With the coming of a countrywide television service, the names of the new video antennas promise to become a part of the national lexicon.

which the FCC processes license applications.

Yet, there is a regional pattern established since 1946 when the National Broadcasting Company introduced regular commercial television in the United States. This was the first era of expansion; in many ways the second era might rival it.

For example, set sales in the present television regions have maintained a fairly uniform pace. In 1951, there were 27,412,700 families residing in TV areas—that is, areas where some type of video signal, however faint, could be picked up on home receivers. Of this total, 15,166,000 had purchased television receivers.

Since 62,914,200 people reside in these areas, the ratio of TV set sales to individuals is about one to six. In terms of families it is a little better than one set for each two families.

And the pattern is fairly consistent between different size cities. New York, for example, has 4,152-100 families and they own 2,720,000 home receivers. Omaha, Neb., has 210,500 families and they own 104,000 TV sets.

Using the same yardstick, the scores of towns which look forward to their own transmitting stations can expect an audience of one out of every two families in their municipal and suburban regions. They can anticipate this audience within perhaps three or four years after their first video signal is broadcast.

The number of listeners, of course, is dependent on the number of stations erected. Recent history indicates that they will go up fast. In 1948, when the freeze on station construction was imposed by the FCC for fear of over-extending the VHF channels and thus creating interference between stations, scores of small-town business men, industrialists, radio station owners and newspaper publishers had applications for station licenses on file.

A new technical phrase is being projected into the national vocabulary. It is "Ultra-High Frequency" and it is the operative phrase in a government plan to extend television beyond major population cen-

ters into the farms, ranches and small towns of America.

To the scientist, Ultra-High Frequency (UHF) means a section of the radio spectrum. Another name for the spectrum is radio air waves. The air waves, of course, belong to the people, and it is the job of a government agency to divide among various private and government services wireless channels in which to transmit information electronically.

The services to which the government entrusts the public's air waves include police radio, television (in the Very High Frequency), FM broadcasts, civil radio, amateur radio, government wireless, maritime wireless, ship stations, coastal stations, maritime navigation, general navigation, radar, air navigation, airport control, industrial, scientific and medical wireless devices.

Fixed Channels

Each of the services has fixed "channels" in the air waves and cannot intrude upon its sister services. With television, the number of channels used today is not sufficient to carry video signals to every part of the nation.

Since the inception of commercial TV, telecasts have been beamed over 12 channels in the relatively limited Very High Frequency section of the air waves, but with new stations mushrooming around the country, the Federal Communications Commission decided it had better call a halt before TV signals began bumping into each other. Its decision was prompted by the realization that two television signals transmitted over the same channel within range of one another will collide and thus "hash up" the home viewing screen.

The one untapped section of the spectrum which promised plenty of room was UHF. This was the area in which scientists and engineers of the Radio Corporation of America began looking for new television channels.

"Up until RCA engineers began looking into it," according to O.B. Hanson, Vice President and Chief engineer of the National Broadcasting Company, "the UHF was the Antarctic of the air waves. Everybody knew where it was on the map of the radio spectrum, but nobody had much practical knowledge about it."

This plunge into the upper frequencies was doubly necessary because television is a great space grabber. A television picture requires much more "information" to be transmitted electronically than a radio broadcast. As a matter of fact, a TV station requires 600 times as much room in ether as a radio broadcast station; it uses a band width of 6,000,000 cycles (6 megacycles) compared to 10,000 cycles for standard radio broadcast.

Equipment Developed

Out of years of expensive research and field tests, equipment was developed which made UHF practical.

It was found that UHF station, properly situated and properly operated could furnish home viewers a picture that equaled in clarity and definition the standard VHF picture.

It was found that present home television sets could receive UHF telecasts through the addition of a simple "tuner" and that receivers could be built to receive both UHF and VHF telecasts.

It was found that the enlistment of 70 new UHF channels for television would permit an orderly expansion of VHF service without fear of station conflict.

These findings provided the basis of the FCC's plans to license nearly 2,000 new stations throughout America.

Measuring Fat

Solid fat may be measured by submerging in water. If one-third cupful of fat is desired, fill a cup two-thirds full of water, then submerge the fat until the water reaches the one cup mark. The water may then be poured off and fat removed from the cup without sticking.

SHORT STORY

A Man's Duty

By Anna E. Wilson

UNCLE JONAS always held that it was a man's duty to look after his women folks, but that was before he got caught out in his dory in a storm and was brought home with a twisted leg.

He sat, now, on a discarded sawhorse in Timothy Donovan's backyard and whittled.

Yet not later than this morning, his sister Abbie had said, "It does seem to me, Jonas, as if you could get something to do; ever since you lost that dory, you've done nothing but sit around and whittle. It don't seem right for a man your age to be a burden—not that I'm complaining," said Abbie righteously, "though it's hard on a woman my age keeping boarders, without," she finished plaintively, "cleaning up a mess of chips."

Jonas had promptly moved his whittling out of Abbie's kitchen and over into Timothy's backyard which he shared with a moth-eaten old goat, Nicodemus.

His gnarled hands handled the knife skillfully, and his fingers caressed the tiny craft his skill had produced. He rescued a piece of calico, purloined from Abbie's kitchen basket and fashioned tiny sails to billow out from the miniature mast

He sat, now, on a discarded sawhorse in Timothy Donovan's backyard and whittled.

and spars, and set her sail in Donovan's pond, a full rigged fishing schooner.

He had just finished and looked up to see Abbie bearing down on him full sail.

"Now Jonas, there's no call for you to sit out here in the sun with that old goat. Folks'll be saying I drove you out of the house."

"Folks'll be right," said Jonas stoutly.

Abbie's face broke up, she was close to tears. "Now, Jonas, you don't need to take what a person says to heart."

"Thirty years," said Jonas stubbornly, "I kept the house fed and respectable. Don't seem any call for you to go fretting now."

"I know, Jonas," said Abbie, wiping her eyes with her apron. "But it does seem—"

Nicodemus had finished chewing the label from a tomato can, he bleated, his vindictive little eyes swinging around in Abbie's direction. Abbie left in a hurry and Jonas patted the goat.

WHITTILING could be hard work, he thought, when you did it eight hours a day. He counted his little fleet carefully, they were all there; stout, water tight, in full sail. He looked up to see Abbie coming down the street with a man.

Abbie's voice was uncertain. "Mr. Golstein came all the way down from the city to see you, Jonas. Mr. Golstein keeps a curio shop—" but Mr. Golstein was shaking hands with Jonas, showing all his teeth.

"Well, well, I see you've got them finished. Are they all there? He started counting them into his bag."

Jonas nodded, he was unaccountably tired, a man got that way working under strain; his shoulders ached, his fingers were blistered, and his bones cried out against the hardness of the sawhorse.

Mr. Golstein finished packing the ships, took out his wallet. "\$250," he said cheerfully counting it out. "And say, Jonas, that figure of the little goat is going over big. Can let you have an order for a hundred of them. Same price."

He turned to Abbie, "Lucky day for your brother and me, Miss Abbie, when he came into town to have his leg attended to and saw some carved figures in my window. Tell you what, Miss Abbie, not many people's got so much foresight these days." He went off chuckling.

"Now Abbie," said Jonas gently, "there's no call for you to be crying. It's a man's duty to look after his women folks. I didn't tell you before because Mr. Golstein wasn't sure. He wanted to see them first. Seems that now it's getting colder, we could sit in the boarders go and I could let in the kitchen. It's more companionable like—for you and me."

American Farmer Big User of Electricity

startling ten-year rise in farm electrification has made the American farmer one of the nation's greatest users of electric power.

The farmer is now receiving more than twice as much farm electric service as in 1940. Moreover, the amount of electricity used by farmers has increased nearly five times, and the average per farmer has more than doubled.

American farms are now using an excess of 15 billion kilowatt hours of electricity a year, while in 1940 they consumed only 3 1/2 billion. In addition, the number of farms serviced by electric power—about two million in 1940—leaped to approximately five million. The average kilowatt hours of power used per farm, exclusive of irrigation projects in the West, has increased from about 1000 ten years ago to 2300 today.

The farmer is just beginning on the road toward complete rural electrification. Many new electric services will be aiding the farmer in his struggle for higher output. Things like automatic poultry feeders, crop-drying equipment, automatic barn cleaners, silo unloaders, wagon unloaders, and feed handling equipment are all a part of the American farmer's future.

Funny Tale

I can't eat this ox-tail soup the tail is still wagging. Of course, our tails come from contented oxen.

How To Relieve Bronchitis

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial membranes. Guaranteed to please you or money refunded. Creomulsion has stood the test of millions of users.

CREOMULSION

relieves Coughs, Chest Colds, Acute Bronchitis

EAT ANYTHING WITH FALSE TEETH!

If you have trouble with plates that slip, rock, cause sore gums—try Brimms' Plasti-Liner. One application makes plates fit snugly without powder or paste, because Brimms' Plasti-Liner hardens permanently to your plate. Relines and refits loose plates in a way no powder or paste can do. Even on old rubber plates you get good results in a month or two. YOU CAN EAT ANYTHING! Simply lay soft strip of Plasti-Liner on troublesome upper or lower. Bite and it molds perfectly. Easy to use, tasteless, harmless to you and your plates. Removable as directed. Money back if not completely satisfied. Ask your druggist!

BRIMMS' PLASTI-LINER

THE PERMANENT DENTURE RELINER

KIDNEYS MUST REMOVE EXCESS WASTE

When kidney function slows down, many folks complain of nagging backaches, loss of pep and energy, headaches and dizziness. Don't suffer longer with these discomforts. If reduced kidney function is retarding you, do it now. Doan's Pills—easy to use, tasteless, harmless to you and your system. Minor bladder irritations due to cold, catarrhs or wrong diet may cause getting up twice or more during the night. Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. Used successfully by millions for over 50 years. While often otherwise caused, it's amazing how many times Doan's give happy relief from these discomforts—help the 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

DOAN'S PILLS

FOR Quick and Tasty MEATLESS MEALS

Van Camp's Spanish Rice appeals to all tastes with its true Spanish flavor. Delicious itself... a happy combination with fish, shrimp.

Van Camp's Tenderoni is different... lighter, whiter than any other macaroni product. Cooks in only 7 minutes. Needs no blanching. Extra good with cheese, seafood, sauces.

★ HEALTH NOTES ★

The life span has been lengthened to an average of 68 years.

Foods rich in Vitamin A are fish liver oils, carrots, yellow squash, sweet potatoes, spinach and cabbage.

Circulation of the blood is timed by injecting a substance in the vein and timing its arrival at some point in the system.

NARROW ESCAPE . . . An hour before this picture was taken, a mortar shell burst a few feet from this soldier. One piece of shrapnel nicked his ear. With a hot canteen cup of coffee in his hand to steady his nerves, he sat down in the medical aid station to think it over.

MIRROR OF YOUR MIND

Should You Tell Child What's Good?

By Lawrence Gould

Should you tell a child, "This is good for you"?

Answer: Not unless you have been more successful than most parents in keeping your child from feeling that what is good for him and what he likes are the opposite of each other. If there is a new dish you want to add to his diet, do not "over-sell" it, because this will make him suspicious, but don't say it is "good for him," either. The best way will be to let him see that you eat and enjoy it, for seeing you enjoy something will dispose him favorably toward it more than anything you can say. This applies, of course, not only to food but to anything you want a child to cultivate a taste for. Don't just tell him—show him!

Does realism exclude faith?

Answer: By no means. There are aspects of reality which are unpleasant, especially from a childish standpoint, but it is no more "realistic" to expect the worst than to hope for the best. If there is something you want to accomplish, you will be wise to recognize the obstacles that stand in your way, but it is not as a rule unrealistic to believe that you can

find how to surmount them, and "faith" of this kind will both release your energies and inspire you to go on trying. The fellow who "doesn't know when he is licked" may be just stubborn, but quite often the reality is that, in spite of appearance, he is not licked at all.

Do your friends try to "standardize" you?

Answer: Yes, say Dr. Leon Festinger and John Thibault, University of Michigan psychologists. In any small, face-to-face group there is a "pressure toward uniformity," with the bulk of members tending to "gang up on" the individuals whose opinions are most different from the average. The stronger the feeling of group solidarity (as a fraternity) the more insistent will be the demand that everyone be pretty much like everyone else. One of the main reasons for belonging to a group is to protect yourself from the sense of dangerous isolation created by doing your own thinking, so that you tend to feel safest in a group whose members are "like-minded."

KEEPING HEALTHY

Heart Patients Form Defense Units

By Dr. James W. Barton

AS MOST OF US think of any form of heart disease as practically a death sentence, it will come as a surprise to learn that the United States is forming a task force made up of patients with heart disease, to be organized by the U.S. office of defense mobilization under the medical direction of the American heart association. It is estimated that the group will number one million and a half.

In a news release from the American heart association, Dr. Theodore G. Clump, chairman of the task force of the handicapped, states that, to meet the nation's production goals, it will become vitally necessary to bring into defense work many with various forms of heart disease. The above organization of effort is operated under the work classification unit. This new development is restoring handicapped workers to productive employment.

Heart associations and other groups in several cities throughout the country have developed these

units within the past year as part of a cardiovascular (heart and blood vessels) clinic or community rehabilitation center and plans are under way for the establishment of similar units in other areas.

A work classification unit is concerned with finding out the work capacity of its patients, based on medical diagnosis, and matching these abilities to types of job activities for which they are best suited by their physical condition. After all, the country needs these handicapped individuals and it is certainly true that the handicapped want to do useful work. Nothing is more important than the maximum use of our human resources. It is a well-known fact that persons with heart impairments can make an important contribution toward meeting these man power needs if their work abilities are carefully estimated.

The American heart association has prepared a guide for the cardiac-in-industry commission.

THE BIBLE SPEAKS

International Union Sunday School Lessons

BY DR. KENNETH J. FOREMAN

SCRIPTURE: Luke 1:1-4; Acts 1:1-2; 16: 6-10; 27:27; 28:1-10; Colossians 4:14; II Timothy 4:11.

DEVOTIONAL READING: Luke 4:33-41.

Doctor's Hobby

Lesson for March 30, 1952

DOCTOR Luke is a man to whom we are all indebted. Without him, we in the church would have lost some of our finest hymns, the "Magnificat" and the "Nunc Dimittis;" without him we might never have heard of the story of that first Christmas night when the shepherds watched and the angels sang. He was the only Gospel writer who remembered to tell us those matchless parables, the Lost Sheep and the Prodigal Son, and many another.

Dr. Foreman

It is only from him that we know of Jesus' prayer at Calvary.—"Father, forgive them; they know not what they do." Furthermore, it is only Luke who conceived and wrote the book of Acts.

Some Hobbies Are Famous

THE interesting thing is that Dr. Luke was not a professional writer. He was a professional physician. All the writing he did was what we today might even call a hobby; that is, he got no money for it so far as we know, he just wrote because he loved to write.

Very likely he was a good doctor; he is called the "beloved physician," and we hope that enough people who loved him also paid their bills promptly so that he could make his living. But it was not the doctoring that endeared him to the church of Christ.

It was what he did in his spare time, it was his missionary work and his writing, it is the Gospel of Luke and the book of Acts that are his main claim to fame.

Luke is not the first man nor the last to accomplish more by a "side-line" than by his main job. We remember David in the Old Testament, whose rise to power began not with his sheep-herding, which no doubt he did to perfection, but with his music, which his father may well have thought a waste of time. We remember Marcus Aurelius the emperor not for his military campaigns, which were masterly, but for the "meditations" he wrote in snatches of spare time on those campaigns. We remember the Apostle Paul not for the churches he founded (most of which folded) but for the dozen or so letters he managed to squeeze into his busy evenings.

Other Doctors

LUKE was not the last Christian doctor who has found in what, for some, might be a "side-line" his finest means of service and best source of happiness. Dr. Howard Kelly of Baltimore was a cancer specialist of no small fame; but he was even better known as a scientist who not only saw no conflict between science and religion, but who brought his skill and his science to the service of Christ.

There was another doctor, a surgeon in a midwestern city, not many years ago, who was ready to retire. He had enough to live on in comfort, and the life of a successful surgeon in a great city is a wearing one. But instead of retiring, he went out to China, and in a remote province he spent his "retiring" years at his own expense, hardly knowing a word of Chinese, but having the time of his life and rendering himself if possible more nearly indispensable out there than he had ever been back in the states.

Again there was the surgeon Alexis Carrel, who with another scientist first succeeded in keeping living tissue (a chicken's heart) alive for years beyond the time when it "should have" died.—a surgeon who also believed in the power of prayer and whose book "Man the Unknown" is valuable as combining the scientific and the Christian view of man.

Or there was Dr. I. J. Archer of Chicago and North Carolina, who operated two sanitariums more easily than some doctors can run one office, and yet who found his life's deepest satisfactions in the Sunday school class he taught for years.

Life Is More Than Making a Living

MANY others besides doctors have made the same discovery. What is a "hobby," after all? It can be only an elaborate twiddling of the thumbs, something to "kill time"—horrible thought! It can be something done merely to relieve nervous pressure, it can be something not really worth doing.

But what Dr. Luke found, countless others, including some readers of these lines, have also found: that even when we have to spend most of our time making a living, we can dedicate our "spare" time, under God, to making life.

Says Active Dry Yeast is easy to use

Ten-Year-Old Cook Wins \$100 at Texas State Fair

Young Judy Burrell (left) shows a friend the scrapbook she is making now that she has won her first cooking awards. Although only 10 years old, Judy won \$100 and a big blue ribbon for her entries at the Texas State Fair last fall. This made her one of the top winners in the culinary department.

Judy really enjoys cooking at her home in Dallas, Texas . . . and young as she is, she knows a secret of long-time cooking champions. She uses Fleischmann's Active Dry Yeast! She likes the way it dissolves so

quickly and gives her wonderful results every time. "It's so fast," says Judy, "and easy to use!"

It's wonderful—the rich, delectable flavor of yeast-raised goodies. A treat for your family—and nourishing, too! When you bake at home, use yeast. And use the best you can buy! That's Fleischmann's Active Dry Yeast, of course. This grand Dry Yeast is always dependable, wonderfully convenient. It's fast-rising, fast-dissolving—stays fresh for months. Buy a supply of Fleischmann's Active Dry Yeast.
