Members of sorrowing friends attended the funeral with floral offerings, and expressions of grief and sympathy from the old and young testified to the affection and respect in which the deceased was held.

E. F. Cole of Lamesa was assisted by Rev. G. W. Montgomery in conducting the simple but impressive rites, and each paid the eloquent tribute to the life of the deceased.

Jack James Undergoes Serious Operation

Mr. Ed James was called to Fort Worth last Wednesday to be with his brother Jack when he underwent a delicate operation on his eyes. So far as can be detected now, the operation was successful and there is every hope that he may be able to see when the bandages are removed.

It will be remembered that Mr. James received injuries to his eyes, as well as less serious hurts, when a dynamite charge exploded in his face several weeks ago.

The operation was performed at the Methodist hospital at Ft. Worth. The many friends of the James family will join us in the sincere hope that the operation will indeed be successful.

Stovr Explains Details Of Absentee Voting

Details of absentee voting for the First Democratic primary July 28 have been outlined this week by county clerk H. C. Stovr, and are as follows:

July 28 is the first day of absentee voting, which will close the night of July 25th. Persons who will be out of the county on the day of the election may vote by presenting their poll tax receipts or exemption certificates which will remain with the ballots marked. If certificates or receipts have been lost, voters may procure duplicates from A. M. Gade, county tax collector.

Voters who are already out of Lynn county and who do not plan to return to vote should write the clerk, requesting an absentee ballot. They should mail their poll tax receipts or exemption blanks. Persons leaving the county prior to the first day of the absentee voting may present their certificates or receipts at the county clerk's office with a request for ballots to be mailed to them at their new addresses.

"Mystery Joe" H. Thompson of Plainview, a candidate for Congress, was in O'Donnell Tuesday in the interests of his campaign. He first attracted attention several weeks ago by his announcement, accompanied by a picture of himself at the age of 100.

Mr. Thompson has laid down a platform of twelve planks dealing with most of the issues of the day, and he promises that, if elected, he will print this platform on one side of a bale of cotton, the constitution of the United States on the other, and will ride that bale of cotton into the city of Washington.

CCC Enlistments Open To Lynn County Men

Judge B. P. Maddox, relief administrator for Lynn county, states that this county will have the opportunity of sending more single young men to CCC camps within the near future.

Young men between the ages of 18 and 25 years, having dependents now on or approaching the relief roll will be eligible. Judge Maddox said that he could not estimate just how many would be taken from Lynn county, but that likely a considerable number.

"If you are eligible," said Judge Maddox, "write your name, your post office address, and on whose place you are now living, and hand this information to Mr. Cliff Lambert at Mansfield, Texas, in O'Donnell, at once. If you are selected you will be notified to appear at the relief office for enrollment.

Light Showers Sunday Bring Welcome Relief

Though not enough rain fell to start planters, light and scattered showers in the west and northwest part of the territory Sunday night brought a small measure of relief from the extreme heat which has wilted Lynn county for the past month.

Between a quarter and half inch of rain fell at New Moore, it was reported from the store there, with precipitation growing lighter as it came east. Only a heavy sprinkle fell in town.

Monday morning papers report fairly good showers north of us, near Lubbock, Levelland, and Littlefield.

WEDNESDAY MEETING TO OPEN JULY 8TH

We are asked to announce that the summer revival at the Mace-Baptist church, colored, will begin July 8 and will continue until July 15. W. D. Matthews, deacon and pastor, announces it as follows: "We are in a very cool and convenient place at present, with room for 114 chairs and 45 more on deck ready for visitors. You will note that Wright's barn by September, and we will have 150 chairs to pay for, so we ask you to watch your step. The city and county are invited, also the public. We want a church and a school like all the other Caprock towns. We are trying to raise funds to build our church building which cause and a clean deal. The farmers

we have in view. Our lot is bought and paid for, and we have the deed to show for it. We admit we are poor and needy. We must move from Mrs. Wright's barn by September, and we will have 150 chairs to pay for, so we ask you to watch your step. The city and county are invited, also the public. We want a church and a school like all the other Caprock towns. We are trying to raise funds to build our church building which cause and a clean deal. The farmers

have been loyal in helping us, and others as well, and we can prove it. I know it is not the cause of the white people throughout the county and city but it is charged to him that started to build and failed. So we will have to climb the mountain; it is very high and hard, but I am willing to prove myself by the help of the public. Let every man's works prove him. I am anxious for the housewives to give in this cause. They gave to Christ and didn't grumble—sweet spices and perfumes—and He gave them His law and they did obey, so they had the first privilege to deliver His message. Those sweet things were very costly in those days, so will kindly ask you to come over into Macedonia and help us. That is our cry—come over."

W. D. Matthews, deacon and treasurer.
Rev. S. A. Wilson, assistant.

Be Careful When Celebrating July 4th

Austin, June 27—Taking note of the approach of the great patriotic National holiday, July 4th, which this country has celebrated for one hundred and thirty-six years, Dr. John W. Brown, State Health Officer, calls attention of the people of Texas to some of the dangers of careless celebrating. Each year on the 5th of July one reads of the appalling number of accidents which occurred over the Fourth.

It is not alone the wounds received from explosives that increase our death toll. Injuries received from automobile accidents, splinters, nails, and other penetrating wounds in which dirt may be carried into the skin heighten the hazard of tetanus or lockjaw. Such wounds should be promptly treated by a physician.

If the days pleasure includes a swim, caution should be used and no attempt made to do more than your strength will permit. If a drowning takes place, artificial respiration should be started at once and continue until a doctor arrives.

Automobile accidents have usually one of three causes—exceeding the speed limit, driving on the wrong side or failing to grant the right of way. It can be seen that the chief factor in auto accidents is the judgment of the "machine" within the machine. Caution should guide the holiday activities so that the day may be remembered with joy instead of sorrow.

HOW BIG A LUBRICATING JOB CAN A QUART OF OIL DO?

HERE is a record of motor protection and low consumption that conclusively proves how big a lubricating job a quart of oil can do. Six strictly stock cars, with one fill-five quarts only—of six different, nationally advertised motor oils were run to "destruction" at the Indianapolis Speedway under AAA Supervision. Under exactly similar conditions the cars were operated until their motors failed. Here is the result: Oil No. 4 went 1713.2 miles; Oil No. 6 went 1764.4 miles; Oil No. 5 finished 1815.9 miles; Oil No. 1 completed 2266.8 miles. Oil No. 3 totaled 3318.8 miles. Oil No. 2, New and Improved Conoco Germ Processed Motor Oil, piled up the amazing total of 4729 miles! That was 3000 miles farther than the first oil to go out, and 1400 miles farther than the last oil to fail.

Such demonstrated superior qualities of greater film strength, ability to withstand increased heat, resistance to dilution—such proved performance should guide your future oil purchases. Be safe—look for the Red Triangle Sign.

CONTEST BOARD AAA CERTIFIED TEST

Here are the representatives of the contest board of the American Automobile Assoc. who supervised every detail of the test and checked the records made.

Five quarts of each brand of oil were carefully put in the cars by AAA officials. AAA Section No. 3091

Here is the winner!—the car that covered 4729 miles at fifty miles an hour, lubricated with New and Improved Conoco Germ Processed Motor Oil.
