

WEEKLY NEWS ANALYSIS

Communists Offer Vague Proposal For Negotiations in Korean War; Army Plans 24 Divisions by July

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysis and not necessarily of this newspaper.)

PEACE:

Price Is Too High

Communist China's ambiguous proposal for a truce in Korea fanned the hopes for peace among the American people and created a dangerous division among the free nations.

The Chinese proposal said, in part, if the withdrawal of foreign troops from Korea was being put into effect, Peiping would advise the Chinese volunteers to return to China. The statement did not guarantee that Chinese troops would be withdrawn, nor did it say anything about North Korean forces. The statement was too ambiguous in the opinion of most American observers.

Withdrawal of the U.S. fleet from Formosa and a seat in the United Nations for Communist China also appeared in vague terms in the proposal for a truce.

The kindest thing that could be said about the Chinese statement was that perhaps there was a desire for peace in China. But from the American view that price was too high.

From the more practical viewpoint, however, the note put the United States in a bad situation politically. If it agrees to consider Peiping's renewed overtures for a negotiated peace, it is bound to incur wide criticism at home. If it shuns these overtures, the accusations of the Soviet Union may fall on more fertile ground.

The Chinese move was seen by some observers as an attempt to block the American proposal in the U.N. of branding China the aggressor in Korea. If that was its purpose, it succeeded, at least temporarily.

Other observers questioned the status of the statement. It was not addressed to the United Nations. It was little more than a postal card to India in reply to questions of policy.

ARMY:

24 Divisions

Army strength by July will be equivalent to 24 combat divisions, Gen. J. Lawton Collins, army chief of staff, reported recently.

The build-up of combat strength by July will include 18 divisions and 18 regimental combat teams with supporting units, together with numerous independent tank battalions, field-artillery battalions and similar combat units.

Collins indicated, however, he did not believe the nation's current goal of 3,463,205 men in the armed forces will be enough and the total boosted.

And while army officer and government officials talked of manpower problems on the home-front, a new Korean casualty list was announced by the department of defense.

An additional 2,424 casualties reported by the department, bring the Korean war total to 45,137.

The department said 6,509 were killed outright, 772 had died of wounds, and 22 men originally listed as missing in action have been determined to be dead. Thus the death toll stood at 7,503.

Wounded totaled 29,951, including the 772 who later died. The missing total of 8,677 included 822 men who since have returned to American control and 108 known prisoners of war.

New Contract

John L. Lewis, (right), president of the UMW, puts on the nearest thing to a smile he can manage after he and Harry M. Moses (left), president of the northern coal operators group, signed a new wage contract under which the miners received a \$1.68-a-day pay boost. The increase became effective February 1.

A NEW TREND

Iowa Factories Outproduce Farms in '50

The trend toward expansion of manufacturing in the midwest gained national attention with a report that for the first time in 11 years Iowa factories outproduced farms.

The report is remarkable because the average acre in Iowa returns a greater farm income than in any other section of the nation. It gives also a general picture of the in-

Housing

Housing Administrator Raymond M. Foley told the senate banking committee that the federal government may soon have to help communities build waterlines, roads, schools and other facilities to meet the needs of defense workers.

PRICE FREEZE:

Needed for Long Time

By the time this appears in print, the administration should have acted on the price-wage controls so long needed to stabilize the nation's economy in its all-out mobilization effort.

During the early weeks of 1951 the need of price controls became a pressing matter as wholesale prices hit an all-time high. The cost of the average family's food was the highest in the nation's history.

Critics of the administration had demanded a price-wage freeze for some time. Government officials, however, protested any freeze would be meaningless unless adequate machinery to enforce price controls was available.

It was also apparent that there was considerable difference of opinion between Charles E. Wilson, defense mobilization chief, Allen Valentine, economic stabilization chief, and others in charge of the administration's efforts to set up a wage-price control organization.

President Truman entered the fray by firing Valentine and appointing Eric Johnston, head of the Motion Picture Association of America, to take his place. Johnston will settle any disputes between the OPS and WSB.

Administration critics demands for price-wage controls included a roll-back of price to January 1. As for wages, a temporary freeze was the most popular demand—but only temporary until some kind of wage control formula could be worked out.

LIVING COST:

Hits an All-Time High

The cost of living in the United States hit an all-time high early in 1951, with the dollar worth less than 60 cents of its 1939 buying power.

The latest estimates placed the cost of living at 68.1 per cent higher than in January, 1939, although food alone went up almost 118 per cent in the last 11 years. The jump was even greater in some individual foods. For example, the bread and butter the average factory worker could buy in 1939 for 39 cents now cost him approximately \$1.15.

An analysis of the figures revealed that a man who made \$3,000 ten years ago now needs \$5,440 to match his buying power. The equivalent of a \$5,000-a-year income then is now \$9,356.

The average factory worker earned approximately \$1,390 a year in 1939 and about \$3,000 last year, an increase of 115 per cent.

BONDS:

Treasury Plans Extension

The treasury plans to offer holders of Series E savings bonds an opportunity to keep their bonds another 10 years at 2.9 per cent interest and to retain the government interest rate on long-term treasury bonds at 2.5 per cent, it was reported recently.

Secretary of the Treasury Snyder said holders may cast their bonds, continue to hold the present bonds with an automatic interest-bearing extension which would amount to 2.9 per cent compounded at the end of 10 years, or exchange the bonds for current-income savings bonds of series G, which bear interest every six months.

Congress must pass the 10-year extension, however, before it will become effective.

Of the \$58,000,000,000 of total outstanding savings bonds, nearly \$35,000,000,000 is in the series E.

MIRROR Of Your MIND

An Open Mind Is Necessary

By Lawrence Gould

Does travel "broaden the mind"?

Answer: That depends on two things: the extent to which your mind is "open," and whether you travel of your own choice or because you have to. If you're willing to admit that your ideas and ways of doing things are not the only "right" ones, visiting foreign countries may be a liberal education, but if the very word "foreign" means inferior or barbarous to you, you might as well stay at home. And of course, if you are torn away from home against your will, you'll tend to see only the worst side of the country you are sent to.

Is psychotherapy a science?

Answer: Not yet, anyhow, writes Dr. I. Atkin in the American Journal of Psychotherapy. While based upon scientific research, the practice of helping people overcome emotional disturbances through an exclusive mental approach (i.e., by listening and talking to them) is

still an art in which no system of fixed rules can be consistently followed, and in which the therapist's personality is as important as his training. It is this "intangible quality" that makes psychotherapy hard for "pure scientists" to accept.

Can high-pitched sounds harm your ears?

Answer: Apparently not, say a group of ear specialists in the Annals of Otolaryngology, St. Louis. The idea that sounds too high-pitched to be heard—for instance, those of the inaudible whistle sometimes used for calling dogs, whose ears are more acute than those of humans—may be dangerous to human hearing seems unfounded. As long as supersonic vibrations are airborne, with no physical contact, they have no specific effect on the sense-organs or the nervous system. It is sounds that are too loud, whatever their pitch, that do damage.

LOOKING AT RELIGION

THE WORD "CORN" WAS USED AS A GENERAL NAME FOR GRAIN OF ALL KINDS KNOWN TO THE JEWS OF THE OLD AND NEW TESTAMENT DAYS. IT INCLUDED PEAS AND BEANS, BUT NEVER INDIAN CORN—MAIZE—which was unknown to the Hebrews. PALESTINE PRODUCED LARGE QUANTITIES OF GRAIN.

KEEPING HEALTHY

How to Care for Chronic Illness

By Dr. James W. Burton

NURSING HOMES, those which are carefully inspected by community health departments, fill a need in the lives of our elderly men and women and certainly relieve our general hospitals from some of the overcrowding that exists.

The fact that a graduate nurse resides in or is in charge of these nursing homes, and a physician visits them regularly, likewise takes some of the strain off general hospitals and insures reasonable care for the elderly and those chronically ill.

That nursing homes are of great help to the chronically ill, those that are never well yet have none of the specific diseases that require skilled and constant attention, is now admitted and home care under the supervision of a nearby general hospital physician gives a service that is equal or nearly equal to actual care in hospital.

What is chronic illness? An editorial in the Journal of the American Medical Association defines it as any deviation or de-

parture from health that affects a person's total life pattern in a significant way, because of the length of the illness and its effects, which may last for a long time after the illness proper has passed.

We can readily see that prolonged illness not only requires the medical knowledge and skill of the practicing physician but also his help in the patient's reestablishment of himself in everyday life.

For a long time practitioners have met difficulties in finding proper hospital facilities for their chronically ill patients and have observed the lack of adequate visiting nurses, housekeeping and other services by which patients might be cared for, and the inadequacy of many nursing homes.

This need is being met to some extent by the Commission of Chronic Illness, founded in 1949 by the American Medical Association, American Hospital Association, American Public Health Association, and the American Public Welfare Association.

HEALTH NOTES

Minerals are needed in maintaining structure of the body cells.

Hypochondriasis is overanxiety about health.

While there is no question that antihistamine drugs help allergic patients, it is not definitely proved they ward off or shorten the period of the common cold.

Those of normal weight do not drink enough water daily for all the needs of the body.

We're as old as our feet feel.

Proteins are body builders, building up new and worn tissues.

Liquids are needed by every cell in the body.

THE BIBLE SPEAKS
International Uniform Sundry School Lessons
By DR. KENNETH J. FOREMAN

SCRIPTURE: Mark 6:7-7:23. DEVOTIONAL READING: Psalm 109:1-11.

Jesus Meets Need

Lesson for February 11, 1951

WHAT PEOPLE want would fill many books. What people need is a simpler story. Whatever success Christianity has had, is due to its success in meeting human needs. If Christianity were only an argument, or a system of ideas, it would never have gone as far as it has, nor won so many friends.

Dr. Foreman

Ignorance THE Church at its best has simply followed in the paths on which Jesus was a pioneer. The gospel stories of Jesus show him as one who "went about doing good" as Peter put it. Seeing a need, he bent himself to meet that need; this has been the ideal for Christians and the church ever since.

One of the first needs of man is to be saved from his ignorance. Jesus saw the human race not as a pack of wolves or a mass of snakes, but as sheep without a shepherd. So Jesus then, and the church now, set out to teach. A church that does not teach is a poor church. "The church must teach or die," it is true; it is also true that the church must teach or others will die.

Sickness

IT IS not on record that Jesus ever walked by a sick person without making him well. Jesus did not think that sickness and pain are good things in themselves.

When you think of all the loss of time, money and happiness that one miserable little cold can cause, and multiply that by the number of colds in North America alone; when you think of the pain and danger and after-effects of one attack of malaria, and then think of all the cases of malaria in all the warm regions of the world; and when you go on adding up all the diseases there are, you really wonder how the human race manages to stagger along.

Now the Christian church has always been doing something about this. Today, in many backward countries, Christian doctors and hospitals have pioneered in health, and indeed are the only effective disease-fighters in the whole region.

Hunger

WHATEVER else can be said of the feeding of the five thousand, and, one thing is plain: Jesus did not think it was a good thing for people to starve.

So the church, following his example, has fed the hungry wherever it can. The church protests, and will continue to protest, against any society or institution that leaves people hungry. It is on empty stomachs that things like Communism rise.

So when a missionary like Sam Higginbottom in India teaches better ways of farming, or when the Salvation Army adopts the slogan "Soap, soup and salvation," or when heifers are rounded up and sent abroad as a gesture of Christian friendship, when CROP interests the Christian farmers of America in rural reconstruction in war-torn areas of Europe, the church is just following the lead of Jesus.

Slavery

ONE of man's deepest needs is freedom. Jesus did not set free any slaves in his time, it is said; but is this true? There are other kinds of slavery besides that from which Abraham Lincoln freed the Negroes in 1863. Of these other kinds, one of the worst is slavery of the mind. We see Jesus setting his contemporaries free from the heavy chains of taboos and false traditions which the Pharisees had piled on them.

So when the first Christians broke away from the burdens of the old ceremonial laws, or when a Christian missionary in Africa or China or Greenland set men free from the darkness of pagan superstitions, or when the Protestant Reformation came, a great Declaration of Independence in the name of Christ from the traditions and superstitions which had long obscured the truth and burdened the minds even of Christians, the church is only following the example of Christ.

When we stand for a free church in a free land and a government of free men, we stand as Christians ought to stand, enemies of tyrannies in every form.

Eatin' spree for the whole fam-leet. Serve these tasty muffins with your favorite jams 'n' jellies!

KELLOGG-QUICK ALL-BRAN MUFFINS

- 1 cup Kellogg's All-Bran 1/2 teaspoon salt
 - 1/2 cup milk 1/4 cup sugar (or molasses)
 - 1 cup sifted flour 1 egg
 - 2 1/2 teaspoons baking powder 2 tablespoons soft shortening
 - 1/2 cup seedless raisins
- Combine All-Bran and milk in mixing bowl.
 - Sift together flour, baking powder and salt into same bowl. Add sugar (or molasses), egg, shortening and raisins. Stir only until combined.
 - Fill greased muffin pans 3/4 full. Or for pan bread, spread in greased 8" x 8" pan. Bake in preheated moderately hot oven (400° F.) about 25 minutes. Yield: 10 medium muffins, or 9 squares of pan bread.

Rest Is Important, Says Housewife

It has been said that there are lots and lots of ways for people to try to get some sleep at night. Some folks paint their windows black, others use ear plugs to shut out noises, while others count sheep. These are good and they do help some folks get their rest, but Mrs. Frank Jones, 1229 Bell, Montgomery, Alabama, has the best way to get a fine night's rest. Mrs. Jones didn't rest well at night before she took HADACOL. "I rest wonderfully now!" Mrs. Jones found that HADACOL supplied to which her system was deficient. Here is Mrs. Jones' own statement: "For a long time I had been bothered with indigestion and sour stomach. Food didn't seem to agree with me. I always had that uneasy fullness after I ate. I got to where I didn't want to eat. I had no energy. Felt like I couldn't make it during the day. I also was very nervous. I didn't rest well at night. A friend of mine told me about HADACOL. After the fourth bottle I felt wonderful. My food agreed with me—no more indigestion or sour stomach. My appetite is terrific. I now have lots of energy and my nervousness has gone. I rest wonderfully now. In fact, I feel good all the way 'round. I recommend HADACOL to everybody—it's wonderful."

If your druggist does not have HADACOL, order direct from The LeBlanc Corporation, Lafayette, Louisiana. Send no money. Just your name and address on a penny post card. Pay postman. State whether you want the \$3.50 hospital economy size or \$1.25 trial size. Remember, money cheerfully refunded unless you are 100% satisfied. —Adv.

WHEN SLEEP WON'T COME AND YOU FEEL GLUM
Use Delicious **Chewing-Gum Laxative REMOVES WASTE NOT GOOD FOOD**
When you can't sleep—feel just awful because you need a laxative—do as millions do—chew FEEN-A-MINT. Doctors say many other laxatives, taken in large doses, start their "flushing" action too soon... right in the stomach where they often flush away nourishing food you need for pep and energy! You feel weak, tired.
But gentle FEEN-A-MINT is different! Taken as recommended, it works chiefly in the lower bowel—removes only waste, not good food! You avoid that weak feeling—you feel fine, full of life! Get FEEN-A-MINT, 25¢, 50¢, or only 10¢.

Teenager Gets Appetite Back; Thanks Hadacol
HADACOL Supplies Vitamins B₁, B₂, Niacin and Iron Which Her System Lacked.

According to Sara Loraine Beck, Box 253, Coker, Alabama, when a person is only 15 years old and feels terrible, can't eat or sleep the way they should, it's mighty bad. That is the way Loraine says she used to feel, but that was, of course, before she started taking HADACOL. Loraine found that taking HADACOL helped her system overcome deficiencies in Vitamins B₁, B₂, Niacin and Iron, which HADACOL contains.

Here is Loraine Beck's own statement: "I was run-down, sick and skinny, and weighed only 90 pounds before I used HADACOL. I would not eat because I had no appetite. Now I weigh 123 pounds and have an appetite. I feel a lot better. I have been taking HADACOL 10 months and am still taking it. I am 15 years old. HADACOL has done me lots of good."
© 1950, The LeBlanc Corporation

THE HOME TOWN REPORTER

WALTER WINCHELL

Hoover Statement
RANKING GOVERNMENT officials here do not believe, as Mr. Herbert Hoover seems to believe, that the people of this country have degenerated into a nation of rodents.

It is as foreign to the nature and character of the men and women who till the soil of America's vast expanses of farms and fields and to the staunch independent, freedom-loving folks at the grass roots in the home towns of this country to crawl into a hole, and, as the saying goes, pull it in after them, as it is for the American eagle to assume the qualities of the carrion buzzard or traits of the thieving, boisterous crow.

And yet, during the past few weeks two schools of thought on the nation's foreign policy have been put forth and the people seem confused. Mr. Hoover would crawl into our hole and pull our two oceans in over us and let the rest of the world go hang. John Foster Dulles, of Mr. Hoover's own political party, would face the world, would offer our military and moral strength to save western civilization from the onslaught of Communist barbarians. If we should do as Mr. Hoover suggests, scamper into our holes, like rats and mice, Mr. Dulles says we would not be the "kind of a United States which could defend itself."

We have got to make up our minds quickly on this question. Time is running out. Do you take to your hole with the rats and mice, or will you be on the side of the American eagle?
Unfortunately, there is a segment of the American press which bolsters the Hoover fallacy and gains disciples by the simple expediency of criticism and division—an old Hitler stand-by and improved upon considerably by one Mr. Joe Stalin. Stir up confusion, criticism, tell lies often enough and big enough and eventually they will be believed. These men in our national life, little men of little faith, are saying we must abandon Korea. We must pull out of Europe, we must abandon our solemn pledges, our moral commitments, our allies in Europe, we should forget the United Nations and hoe our own row, we must find a scapegoat for the loss of a battle in Korea.

Moral Stamina Shown
If we are to conquer communism, it will not be by military force of arms. No Gibraltar in this hemisphere will help ideas out of the United States. And in spite of the loss of the battle of North Korea, there is one fact which in the mind of this reporter will do more to impress all Asia than if we had won a signal military victory. That was, when despite the extremity of the military evacuation of Hanoi, we did not forget our friends, and we had the moral stamina to evacuate with our own men more than 100,000 friendly Koreans.

Airlift Was Victory
The Berlin airlift was a moral victory over overwhelming odds in the cold war with Russia. We kept our word to feed those people in Berlin. We will keep our word with France, with England, with Belgium, with Greece and Turkey and all the other countries of the free world if we are to remain a nation worth defending.

Would Lose Rhur
But on the material and military side, there is one thing which Mr. Hoover and his followers overlook. Russia now has a manpower pool of some 800,000,000 to draw from. This nation alone has 150,000,000. But we even it up to some extent by a five-to-one edge on production and armament and fire power. If we abandon Europe, then we are handing over to Russia the tremendous production resources of all Europe and the rich steel assets of the Rhur valley which would give them the advantage in armament, and we couldn't dig our holes deep enough here to keep them out.

Washington Silhouettes
The nostalgic wind-up of the lame-duck session of the 81st congress... farewells, swan-song speeches, even a few tears and the immediate swearing-in of a new congress with many brash freshmen on both sides of the capital men with trolleys underground cars... Washington's noiseless street cars... Two newsmen in a taxi bewailing the hi-cost of living; the driver pulls to the curb and cracks, "How much do you boys need?"

MIRROR Of Your MIND

Facts on Sex Most Vital
By Lawrence Gould

Should sex education come from parents?

Answer: It starts with them, whether they intend it or not. A child's basic feelings about the relations of the sexes grow out of his impression of his parents' attitude toward sex and toward each other, and if they try to ignore the subject all they do is make him feel it is too shameful to speak of. Factual information is highly desirable, and may well be given by others if the parents feel themselves unfitted to impart it. But wherever sexual knowledge comes from, the atmosphere that surrounds it is what really matters.

laneously. He grew up with an exaggerated fear of his own natural impulses and feels that to follow a fixed pattern of behavior is the only way to keep them under control. Too early and too strict toilet training may be where the trouble started.

Does music help industrial production?

Answer: That is the conclusion reached by a research conducted by the British Broadcasting Corporation and reported in Biology and Human Affairs, London. If the music "piped into" an industrial plant is well selected, it apparently helps workers to forget fatigue, relieves boredom, cuts down nervous strain, lessens the amount of distracting conversation, and reduces absenteeism. No one can do without pleasure very long, and if work offers little or none, any supplementary pleasure is of value.

LOOKING AT RELIGION

THE BATTLE AT BETH-HORON, WHERE JOSHUA MADE THE SUN AND MOON STAND STILL, MIGHT BE CLASSED AS THE MOST IMPORTANT BATTLE IN HUMAN HISTORY BECAUSE THE RELIGIOUS DESTINY OF MANKIND AND THE WORLD WAS AT STAKE. IN THIS ONE BATTLE THE ISRAELITES' CONQUEST OF CANAAN WAS MADE CERTAIN. EVEN THOUGH NOT FULLY ACCOMPLISHED UNTIL MUCH LATER.

KEEPING HEALTHY Long Trip of Food Through Body

By Dr. James W. Barton

INDIGESTION is one of man's commonest foes, yet when we think of the tube that carries our food from the body, and trace its winding course uphill, downhill, around single curves, and then around double S curves, the wonder is that we do not suffer even more digestive troubles.

The tube is not unlike an elastic tube in that it can be stretched at certain points. The fact that there is so much elasticity in the walls of this tube means that it can remain "on the stretch" for long periods.

The stomach can be distended by too much food, too much water, or because it hangs too low at times. This makes a hard climb for the food up, instead of down to the opening into small intestine. The small intestine which is 20 feet long and piled up in folds in the abdomen, empties into the large intestine by means of a valve which prevents the digested food from flowing back. All the nourishment of this digested food is absorbed into the blood and lymphatic vessels.

leaving only the wastes to travel the six more feet of the large intestine and thence out of the body. There is often a delay just beyond the valve in the large intestine and the waste matter pouches or dilates the large intestine in region of appendix at lower right side of abdomen. After climbing about 10 to 12 inches up right side, the large intestine with its wastes makes a sudden turn across abdomen from right side to left, about two or three inches below stomach. Sometimes it doesn't go straight across as it may form a loop downward for inches and sometimes a foot or more, which, of course, means a delay in progress of wastes to the left side. This condition may be mistaken for appendicitis.

When the large intestine reaches the left side, it again has to make a sudden curve downwards (another delay at this curve); it then goes all the way down the left side till near its lower end when there is another double S curve, causing a slowing up or delay of wastes.

TAFT: Constructive Criticism

In a speech which he called "constructive criticism" of the administration, Sen. Robert A. Taft of Ohio served notice that the Republican party pledged itself to securing a greater voice in policy making.

The senator based his criticisms on what he called the President's legal right to send American troops to Europe. He added that we "had better commit no American troops to the European continent at this time."

Mr. Taft expressed a tide of thought that has been growing throughout the United States since reverses in Korea, namely, that the defense of Europe was primarily western Europe's responsibility, not ours.

Undoubtedly the most powerful Republican in the senate, Taft seemed to be serving notice on the administration that congress intended to cut in on the President's power to formulate foreign policy. If the Republicans are willing to push the question it could lead to a state of confusion in congress never before seen in a time of crisis.

One of the most startling statements of the senator's speech was the one when he said the U.S. ought to go along, for the time being, in the U.N. for its value as a world forum, but that the instrumentality was mortally weak in having been founded, not upon "justice" but upon the power of its leading members. To the people in the home towns of the country who had placed their faith in the United Nations it was like a blow below the belt.

Was it possible that some of the nation's leading legislators believed that the United Nations was as dead as the League of Nations? Was it possible that some of our prominent leaders favored U.S. withdrawal from the United Nations? Taft's speech put those questions into the minds of many.

Two days after his "policy" speech, Senator Taft announced he was in favor of pulling U.S. troops out of Korea and setting up a new Pacific defense line based on Formosa and Japan. For these he would fight, he said. He then warned that if Russia attacks western Europe "it means war."

CONTROLS: A Matter of Time

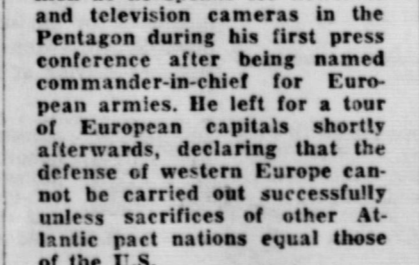

Wage and price controls appeared certain for the nation as it moved toward full mobilization. To the average housewife the need for price controls on food was becoming desperate.

A disagreement within the government's economic-control organization blocked action on a planned 30-day wage-price freeze. The action was a temporary measure to hold the line until enforcement machinery could be set up about March 1.

Price controller Michael V. D'Salle reportedly will need 30,000 workers for a nationwide staff, of whom more than half would be charged with tracking down black marketeers, hoarders, price gougers and other control chiselers.

Some temporary plan to stop the price spiral was considered necessary by most people. At the present rate of increase, food prices would be at an all-time high by March 1 and would bring hardship for fixed income groups. Millions of workers have contracts which grant pay increases as the price index climbs and this group would not suffer.

Eisenhower

Gen. Dwight D. Eisenhower (above), is surrounded by lensmen as he speaks for newsreel and television cameras in the Pentagon during his first press conference after being named commander-in-chief for European armies. He left for a tour of European capitals shortly afterwards, declaring that the defense of western Europe cannot be carried out successfully unless sacrifices of other Atlantic pact nations equal those of the U.S.

DRAFT: For All 18-Year-Olds

Any day now the defense department will ask congress for a blanket draft of all physically fit 18-year-olds to serve 27 to 36 months in uniform.

There is a question, however, whether or not congress will approve immediately. A number of legislators were reported splitting hairs over the request. Many felt that 18½ was young enough and 24 months long enough.

Mrs. M. Louise Koepke, 1108 Pacific Ave., Long Beach 3, Cal. One of many unsolicited letters from ALL-BRAN users. You, too, can expect relief from constipation due to lack of dietary bulk. Eat an ounce (about ½ cup) of tasty Kellogg's ALL-BRAN daily, drink plenty of water! If not satisfied after 10 days, return empty carton to Kellogg's, Battle Creek, Mich. Get DOUBLE YOUR MONEY BACK!

Even if other medicines have failed to relieve your **COLD MISERIES** YOU OWE IT TO YOURSELF TO TRY 666—IT'S DIFFERENT
666
LIQUID—TABLETS

DO YOU HATE CHANGE OF LIFE? and HOT FLUSHES?

Do you suffer from hot flushes, nervous tension, upset emotions due to functional "change of life" (38-52 years)—that period when fertility ebbs away, when embarrassing symptoms of this nature may betray your age? Then start taking Lydia E. Pinkham's Vegetable Compound to relieve such symptoms. No other medicine of this type for women has such a long record of success. Taken regularly, Pinkham's Compound helps build up resistance against this annoying middle-age distress. Truly the women's friend!

Note: Or you may prefer Lydia E. Pinkham's TABLETS with added iron. Any drugstore.

REVISED DRAFT CLASSIFICATIONS GIVEN
 M. S. C. J. Beach, G. V. Cobb, Jimmy Schooler, were among the area folks hospitalized at Lamesa last week.

Listed below are a number of selective service classifications and an explanation of each to help you in understanding the requirement of possible military service.

4-A: Available for immediate military service under the draft act. Applies to youths from 19 to 25 years old.

1-AO Conscientious objectors not averse to non combat service

1-C Members of the armed forces or those just recently separated from military service.

1-D: Members of Reserve components or students active in ROTC training programs.

2-A Deferred for employment other than agriculture.

2-C: Deferred for employment in agriculture

3-A Deferred, because of dependents

4-A Veterans classification for those who served in the armed forces during World War II and currently exempt but likely to be called upon amendment of the Selective Service Act. This classification also extends to the sole survivor or of a family in which one or more members were killed or died of injuries in World War II

4-B: Officials deferred by law includes public officials essential to the operation of government.

4-C: Certain aliens

4-D Members of the clergy and divinity students.

4-E Conscientious objectors to all forms of military service.

4-F: physically, mentally or morally unfit for military service.

5-A Those above 26 years of age not included in the foregoing. This age limit is expected to be raised to at least 30 years by amendment of the Act.

A military force of 3 million means that twice as many will be taken in 1951 as entered service in 1950

NEW 1951 Chevrolet

AMERICA'S LARGEST AND FINEST LOW-PRICED CAR!

Yes-refreshingly new... WITH FINEST QUALITY ALL THE WAY THROUGH!

—with time-proved **POWER Glide**
AUTOMATIC TRANSMISSION
 —proved by more than a billion miles of performance in the hands of hundreds of thousands of owners.
*Combination of Powerglide Automatic Transmission and 105-h.p. engine optional on De Luxe Model at extra cost.

NEW! **AMERICAN BEAUTY DESIGN**—Brilliant new styling... featuring entirely new grille, fender moldings and rear-end design... imparting that longer, lower, wider big-car look that sets Chevrolet apart.

NEW! **AMERICA-PREFERRED BODIES BY FISHER**—With new and even more strikingly beautiful lines, contours and colors... with extra sturdy Fisher Unisteel construction... Curved Windshield and Panoramic Visibility... combining safety and comfort.

Buy the car that's refreshingly new, and thoroughly proved, too... the new 1951 Chevrolet!

It's more dependable, more desirable, from its time-proved Powerglide Automatic Transmission* for finest no-shift driving and Silent Synchro-Mesh Transmission for finest standard driving at lowest cost to its time-

NEW! **MODERN-MODE INTERIORS**—With upholstery and appointments of outstanding quality, in beautiful two-tone color harmonies... and with extra generous seating room for driver and all passengers.

NEW! **MORE POWERFUL JUMBO-DRUM BRAKES** (with Dual-Life rivetless brake linings)—Largest brakes in low-price field... with both brake shoes on each wheel self-giving maximum stopping-power with up to 25% less driver effort.

proved Valve-in-Head engine performance. So powerful and efficient that Valve-in-Head design is the trend-leader of the industry!

Take one look at the following features—and then visit our showroom and see Chevrolet for 1951 in all its sterling quality—and you'll know it's America's largest and finest low-priced car. Better see it—today!

NEW! **SAFETY-SIGHT INSTRUMENT PANEL**—Safer, more efficient... with overhanging upper crows to eliminate reflections from instrument lights... and plain, easy-to-read instruments in front of driver.

NEW! **IMPROVED CENTER-POINT STEERING** (and Center-Point Design)—Making steering even easier at low speeds and while parking... just as Chevrolet's famous Knee-Action Ride is comfortable beyond comparison in its price range.

MORE PEOPLE BUY CHEVROLETS THAN ANY OTHER CAR!

"Rocky Mountain blizzards couldn't stop me!"

says JACK W. SEEFELD
3030 Vrain St. Denver 12, Colorado

"The two winters I tested new Conoco Super Motor Oil—as one of a group picked to prove its winter wear-fighting ability—we had the worst weather in years. Blizzards came in on top of blizzards. The temperature went to the bottom and stayed there.
"BUT MY CAR ACTED LIKE IT THOUGHT IT WAS JULY! With new Conoco Super that car performed better than it ever had. At the end of the test, with proper drains and regular care, gasoline mileage was practically as good as at the beginning."
After a total of 386,422 miles, logged by Mr. Seefeld and other winter test drivers, Conoco engineers found no wear of any consequence! Analysis of drains showed this great oil actually stopped the dangerous accumulation of free water and acids, chief causes of winter wear. This test proved that new Conoco Super Motor Oil, with OIL-PLATING, fights off rust, corrosion and sludge. So, change to Conoco Super, now.

Praises New Dry Yeast's fast action

Weatherford Woman Prize-Winning Cook at State Fair

When the judges at the Texas State Fair awarded Mrs. John H. Scarlett first prize for her entry in the cooking division, they officially confirmed her long-standing belief that prize-winning results depend on the use of the finest ingredients! Like other top cooks, Mrs. Scarlett is especially happy with Fleischmann's New Improved Active Dry Yeast. She says: "It's so much faster and easier to use. I can depend on it."

Do you know—the world's most delicious treats are made with yeast! The delectable flavor and nourishing goodness of yeast-raised goodies make them everybody's favorite.

When you bake at home—do it with yeast... the best yeast. Fleischmann's New Improved Active Dry Yeast is easier, faster, gives better results. Just add it to warm water and stir it well... it's ready to use! Get several packages today.

"COLD DEMONS" got your child?

Don't let "Cold Demons" make her chest feel sore, congested—rub on Mentholatum. Fast, safe Mentholatum helps lessen congestion. Its vapors soothe inflamed passages, ease coughing spasms. For head colds, too... makes breathing easier. In jars, tubes.

Quick Relief with MENTHOLATUM

Tasty Chicken Dishes Enhanced by Proper Use of Seasonings

A FREQUENT meat appearing on menus is chicken because it's versatile and delicate flavor are a favorite with most. Even though you serve chicken frequently, you can have unlimited ways in which it's brought to the table.

High in protein, rich in iron and phosphorus and valuable for its vitamins, chicken can be served to both adults and children. You may have it in simple fricassee form with dumplings, an old-fashioned favorite, or baked or barbecued, as something special when you entertain.

HERE'S A NEW portrait of a tried and true favorite that you can easily duplicate with this simple recipe:

Chicken Pot Pie (Serves 6)

- 1 four pound fricassee chicken
- 1/2 pound salt pork
- Water or stock
- Salt and pepper
- Dumplings

Cut chicken into convenient pieces for serving and dice the pork. Place together in a good-sized saucepan, cover with water or stock and bring to boiling point; cover closely and simmer from one to two hours depending on the age of the chicken, seasoning when about half done. Thirty minutes before serving time put in dumplings and be sure to keep pan closely covered while they are cooking. Arrange meat in center of dish with dumplings around it, pouring gravy over meat.

Dumplings
1 1/2 cups flour
1/2 teaspoon salt
1 1/2 teaspoons all-phosphate baking powder
About 3/4 cup milk
Sift flour, salt and baking powder. Mix thoroughly but quickly with milk and drop by small tablespoonfuls into hot stew gravy. Cover closely and cook 12 to 15 minutes without removing lid from saucepan.

***Barbecued Chicken (Serves 2-4)**
1 1/2 to 2 1/2 pound young chicken (broiler)
Barbecue Sauce:
1 teaspoon salt
1/2 teaspoon pepper
1 tablespoon paprika
1 tablespoon sugar
1 medium onion, chopped fine
1 cup tomato puree or catsup
1/2 cup fat
1/2 cup hot water
1/2 cup lemon juice
1 tablespoon Worcestershire sauce

Cut chicken in half or in quarters. Arrange in a baking pan. Brush with hot Barbecue Sauce. Cover, then bake in moderate oven (350°) until about half done. Uncover, continue cooking, basting frequently with the hot Barbecue Sauce until tender and nicely browned. Total cooking time: 1 to 1 1/2 hours depending on size and weight of chicken.
Barbecue Sauce: Blend salt, pepper, paprika, and sugar in saucepan. Add onion, tomato puree or catsup, fat and water. Heat to boiling. Remove from heat. Add lemon juice and Worcestershire sauce. Use for basting during cooking, and to serve with the cooked chicken.

Rich Cheese Biscuits
2 cups sifted enriched flour
4 teaspoons baking powder
1/2 teaspoon salt
1/2 cup butter
3/4 cup milk
1 cup grated American cheese
Sift flour, measure and sift again with salt and baking powder. Cut in butter; add grated cheese and milk, mixing gently. Roll to 1/4-inch thickness and cut into triangles or other shapes desired, using floured biscuit cutter. Place on top of chicken in ramekins and bake as directed.

Chicken Creole (Serves 6)
3 1/2 pound chicken
Salt, pepper, paprika
1/4 cup chicken fat or shortening
1 onion, sliced
1 cup uncooked rice
1 can (No. 2 1/2) tomatoes
1 green pepper, seeds removed
Dress, clean and cut chicken into serving pieces. Season with salt, pepper and paprika. Brown onion in chicken fat, add chicken and brown lightly. Cover and let simmer for 1 hour. Add remaining ingredients and place in casserole. Cover and bake in a moderate (350°) oven until tender, about 1 hour.

Quick and easy is this jellied salad: to one package of lemon-flavored gelatin add one cup of hot grape juice, then 1 cup ginger ale. Heat canned corn, then break eggs, slightly beaten, over the vegetable. Cook gently until eggs are set. Serve for a quick lunch.

Fry ham slices first in a skillet, then top each slice with one egg. Add just a bit of water, cover and cook gently. Using a slotted spoon, slide the ham and egg slices onto toast.

Grapefruit makes a good meat garnish or dessert if you spoon apple mint or currant jelly over it before broiling.
Blanc mange made with a bit of coconut, then poured into small molds to chill makes a pretty dessert when unmolded and served with raspberry sauce and thin but-

Fluffy dumplings and chicken fricassee provide a heart-warming, appetite filling meal for moderate cost. Diced pork adds an interesting flavor touch to the chicken.

- #### Baked Chicken Goulash (Serves 8-10)
- 2 3/4 pound young chickens
 - Flour
 - 1 1/2 teaspoons paprika
 - 2 teaspoons salt
 - 1/2 cup fat or salad oil
 - 4 cups sliced onion
 - 1/2 cup hot water.

Wash chicken; dry; disjoint. Mix 1/2 cup flour, paprika and salt. Dredge chicken with flour mixture. Brown chicken in fat or salad oil. Remove chicken; brown onion in same pan. Alternate layers of chicken and onion in casserole. Add water. Cover; bake in moderate oven, (350°), 1 1/2-2 hours, or until chicken is tender. Thicken stock with flour mixed to smooth paste with cold water.

- #### Chicken with Mushrooms (Serves 6)
- 1/2 cup canned green peas
 - 1/2 cup mushrooms
 - 2 cups cooked chicken, diced
 - 2 tablespoons butter
 - 2 tablespoons flour
 - 2 tablespoons blanched almonds
 - 1/2 cup milk or cream
 - 1/2 cup chicken broth or water
 - Salt, pepper
 - Dash of ginger

1 teaspoon chopped parsley
Sliver or chop the almonds. Sauté mushrooms. Melt butter, blend in flour and stir in slowly the milk and broth. Cook until thickened, stirring constantly. Add all remaining ingredients. Place in ramekins or a large pudding dish and set in a pan of water. Cover with rich cheese biscuit triangles. Bake in a hot (450°) oven for 5 minutes, then at 400° for 15 minutes or until the biscuits are golden brown.

Chicken Creole (Serves 6)
3 1/2 pound chicken
Salt, pepper, paprika
1/4 cup chicken fat or shortening
1 onion, sliced
1 cup uncooked rice
1 can (No. 2 1/2) tomatoes
1 green pepper, seeds removed
Dress, clean and cut chicken into serving pieces. Season with salt, pepper and paprika. Brown onion in chicken fat, add chicken and brown lightly. Cover and let simmer for 1 hour. Add remaining ingredients and place in casserole. Cover and bake in a moderate (350°) oven until tender, about 1 hour.

Quick and easy is this jellied salad: to one package of lemon-flavored gelatin add one cup of hot grape juice, then 1 cup ginger ale. Heat canned corn, then break eggs, slightly beaten, over the vegetable. Cook gently until eggs are set. Serve for a quick lunch.

Fry ham slices first in a skillet, then top each slice with one egg. Add just a bit of water, cover and cook gently. Using a slotted spoon, slide the ham and egg slices onto toast.

Grapefruit makes a good meat garnish or dessert if you spoon apple mint or currant jelly over it before broiling.
Blanc mange made with a bit of coconut, then poured into small molds to chill makes a pretty dessert when unmolded and served with raspberry sauce and thin but-

WHEN SLEEP WON'T COME AND YOU FEEL GLUM

Use Delicious **Chewing-Gum Laxative REMOVES WASTE NOT GOOD FOOD**

When you can't sleep—feel just awful because you need a laxative—do as millions do—chew FEEN-A-MINT. Doctors say many other laxatives, taken in large doses, start their "flushing" action too soon... right in the stomach where they often flush away nourishing food you need for pep and energy! You feel weak, tired. But gentle FEEN-A-MINT is different! Taken as recommended, it works chiefly in the lower bowel—removes only waste, not good food! You avoid that weak feeling—you feel fine, full of life! Get FEEN-A-MINT, 25c, 50c or only 10c!

FEEN-A-MINT
FAMOUS CHEWING-GUM LAXATIVE

DO YOU HATE CHANGE OF LIFE?

and **HOT FLUSHES?**

Do you suffer from hot flushes, nervous tension, upset emotions due to functional 'change of life' (35-52 years)—that period when fertility ebbs away, when embarrassing symptoms of this nature may betray your age? Then start taking Lydia E. Pinkham's Vegetable Compound to relieve such symptoms. No other medicine of this type for women has such a long record of success. Taken regularly, Pinkham's Compound helps build up resistance against this annoying middle-age distress. Truly the women's friend!
Note: Or you may prefer Lydia E. Pinkham's TABLETS with added iron. Any drugstore.
