O'Donnell's big 15th annual three day rodeo and parade is only one day

away with the opening Thursday at 6 p. m. when the parade begins. Mrs. Pat Swinney and Mrs. Glen Brewer have turned in a good job of parade planning. There are 23 parade entries and the floats are espec ially beautiful this year using the Disney Land theme.,

The parade will form at the Junior Stock Show barn and will proceed north to the Earles corner and then turn west thru town using the same line of march as in past years. Riders are asked to park their horse trailers

at the show barn. There will be three out of town judges and parade entries must march in each of the three parades to be eligible for prize money.

Mrs. Pat Swinney said Tuesday that there were 22 parade entries in the 15th annual Rodeo Parade. The first day of the parade is next Thursday and will also be on Friday and Saturday. \$260 in parade prize money will be awarded as follows-Floats — 1st, \$75, 2nd, \$50 and 3rd \$35 and 4th \$25. Commercial floats — 1st, \$20, 2

000 Falling Is Danger of Age

-0-Falling is one of the commonest but most unnecessary hazards faced by older persons according to the Texas State Department of Health. Hundreds of thousands of old people are injured every year from falls, and more people die after 65 from falls and their complications than from auto accident injuries. One of the major factors in falls

is that as persons age their balance-recovery machinery fails. If a person starts to "teeter" certain muscles in his body instantly go into action to keep him on his feet. But in the older years, these muscles get lazy and don't function as rapidly.

for being one of the best in the richest blessings rest on you and west. Many folks are already coming in as the rodeo is also a time of family reunions here.

-000-Cathy Cain, daughter of Minister and Mrs. Carl Cain, is in the Cook Memorial Hospital of Ft. Worth for two operations. She had surgery on her hip Friday and is in a part body

and part leg cast. After two weeks she will undergo more extensive surgery. She is a victim of polio several years ago. Your letters and cards will cheer her.

-000-Power Mower May Be A **Real Danger**

The discarded nail was hidden in tall grass. The mower blade hit it and suddenly it was buried an inch deep alongside the shinbone of the 23-year-old Williamson County secretary.

Accidents of this type will be on the increase now this is lawn-mowing time, you know until fall weather brings a welcome respite from the weekly chore. The State Department of Health

does not keep statistics on non-fatal accidents, so the extent of injuries from carelessly handled power mowers is unknown. But a random check of private physicians and an emergency hospital confirms the fact that the number is considerable.

Like the man who stopped his can at the curb, intending to say hello to his perspiring neighbor busily mowing the grass. Neighbor wheels up with mower to return the greeting. Man in car elbow resting on window finds his forearm pinned to bicep with a five inch piece of wire flung at him by the whirling blade.

Power equipment is a tremendous boom to the man who likes to keep his yard neat with a minimum of effort. But it takes constant concentration to do the job safely. Even experience is no substitute for concentration.

A garden club member in a major Texas city used to pride himself on his safe and sane use of power tools that helped him maintain the sharpest yard in the block.

But no more. One afternoon re-cently, while trimming his driveway with a power trimmer, he reached down to lift a bloom-laden branch of a rose bush out of the

way. When he withdrew his hand two fingers were missing. "I wasn't alert." he wryly explained.
