

### Church of Christ Will Have Meeting

The annual summer revival will open at the local Church of Christ on Sunday, August 19th, and will continue as long as interest and attendance warrant. We are asked to announce that the general public is cordially invited and welcome to attend any or all of these services. The morning service will be held at 10 o'clock, the evening service at 8:45.

Elder C. C. Morgan of Durham, Alabama, is the evangelist, and those who have heard him are most enthusiastic in their praise of his message. He has had a number of years' experience in the evangelistic field, and is said to be very successful in his work. He conducted a meeting at Lamesa not so long ago, and several local people heard him then, so that he does not come to O'Donnell a complete stranger.

Elders and members of the local church extend a hearty invitation to all to come and hear his discussions.

### Relief Work Stopped In Lynn County

Acting on orders received the first of last week from headquarters at Austin, County Administrator B. P. Maden stopped all direct work relief for the county Wednesday.

The county office has been practically discontinued, the duties of the county administrator to be taken over by the district office at Big Spring. W. B. Bishop, certifying officer, has also discontinued his duties, leaving the budgetary clerks and stenographers. Three of the four case workers have been retained, Judge Maden reports, and Mrs. Daniel Maden continues as commodity clerk. It is believed that all relief work of any kind will soon be discontinued.

### Highway Work Delayed

Because of the curtailment of relief funds, work on highway 9 has been temporarily halted, but it has been announced that the delay will not be of long duration. This is also a federal highway, and federal funds are being provided for completion of the project. Engineers in charge of the highway will likely be completed in the immediate future.

### N. Nichols, Veteran Mail Carrier, Resigns

L. N. Nichols, veteran carrier on rural route three, turned in his formal resignation Monday of this week. This step completed an active service period of 27 years, 5 months and 5 days, the past twelve years having been spent in O'Donnell. Mr. Nichols has been in poor health for more than a year, and a stroke suffered several weeks ago finally sapped his physical resistance until it was deemed wise by himself and by members of the family that he withdraw from active duty. Mr. Walter Minton, who has acted as substitute carrier during Mr. Nichols' illness, will likely receive a temporary appointment, but we have not been authorized to make this an official statement.

Mr. Nichols has been a faithful and efficient public servant in his long career in the mail service, and is a friend of all his former neighbors. On his birthday last week, gifts, placing them in the boxes along the way, and on many other occasions he has been accorded marks of affection and esteem from those whom he served so loyally.

Miss Edwina Vermillion has as her guests this week Misses Jewel Furr and Beatrice Causseaux of Moscow.

### Heat Wave Damages Crops; Feed Buring Badly In Territory

The heat wave which has covered our territory for the past several days is reported to be causing considerable damage to some row crops, especially feed and small grains. Broom corn seems to be the chief sufferer.

A number of farmers in town Saturday afternoon stated that it now appears that some feed crops will be damaged as much as fifty per cent. One man estimated that had his feed been ready for harvest two weeks ago, he would have made 300 tons or better, but that he now expects to get something like 100 tons.

So far the cotton fields are showing very little, if any, damage. Plants have a healthy appearance, and are not shedding more than is customary but a general rain would mean hundreds of dollars to South Plains agriculturists and residents.

No Worms Reported Yet  
So far as we can learn, there have been no worms found in our immediate territory as yet. However, south and east of us, where there have been heavy rains, many cotton fields have been laid almost to waste. We understand that the pests have come as near as the Caprock on the southeast, and that there have been some indications of worms in the south part of Dawson county.

Warning bulletins have been sent out by the State Department of Agriculture asking that newspapers notify farmers to examine their fields daily and being poisoning at the first sign of worms.

Though it is believed that the heat wave and drought which have been in force for the past two weeks have been about as good a bar to development of the pests as any amount of poison, we hereby pass the warning along to our readers, and advise them to make sure of their fields. It will be remembered that we had a swarm of 'millers' here about a month ago, and entomologists tell us that these millers lay the eggs from which hatch the leaf worms. See to your fields today.

### English Teacher Is Elected Tuesday

Miss Gladys Gilbert of Spur was elected Tuesday evening to fill the position of head of the English department, according to announcement of W. B. Bishop, certifying officer, president of the Board of Education. Miss Gilbert holds her Bachelor of Arts degree from Texas Technological College, and has had several years' experience as a teacher. She has taught at Rule for the past three years.

This was the only vacancy on the faculty, Mr. Vandell stated, so that the teaching staff is now ready for the opening of the term.

### Jack County Reunion Slated For Aug. 30

Pink L. Parrish of Lubbock asks that we announce a reunion of former residents of Jack county, to be held at the Park in Lubbock on August 30. The meeting is a formal affair of the Association of Former Citizens of Jack County in West Texas and New Mexico.

Senator Parrish is president of the association.

### New Cream and Produce Station

Mr. and Mrs. Ervin Fancher of Lamesa have recently moved to our town, and Mr. Fancher has taken over the management of the new cream and produce home with Mrs. J. B. Curtis. Mr. Fancher's station will be known as the O'Donnell Produce, and is located in the Curtis building across the street from the Lynn County Motor Company, in the space formerly occupied by the local station of the Lubbock Poultry and Egg Company. Mr. Fancher asks that we specially state that his station is in no wise connected with the Lubbock cream firm but is strictly his own individual concern. In an ad which appears on another page of the Index Mr. Fancher announces the opening of his station, and as a part of the business of the territory. The Index joins with the community in welcoming Mr. and Mrs. Fancher to O'Donnell.

Mr. W. A. Tredway has returned from a recent visit with Mrs. Cecil Tredway and the new grandson, who are in Colorado City.

### Dog Days

### Called to Brother's Bedside at Edinburg

Mr. and Mrs. J. W. Baker of the New Moore community left Tuesday morning for Edinburg, in response to a message that her brother, Mr. A. U. McKinney, is not expected to live. He was injured several days ago in a train wreck, and these injuries will likely prove fatal, according to the message. Mrs. Baker did not have details of the wreck or of the injuries.

### A. J. Barnes' Brother Is Seriously Ill

A. J. Barnes of the Wells community left Tuesday morning for Sulphur Springs to be at the bedside of his brother, who is not expected to live. We understand that he has been in poor health for a number of years suffering from Bright's disease and complications, and that he is not expected to rally from this illness.

The Index joins with other friends in the hope that he may be much improved when Mr. Barnes reaches Sulphur Springs.

### Mrs. McLaurin Falls; Breaks Two Bones

Mrs. Clay McLaurin, well known local lady, slipped in the mud early Tuesday morning, and in the fall both lower bones of her right leg were broken. She was brought to the office of a local physician for emergency treatment, and on his advice was taken to a Lamesa sanitarium for x-ray and where she will probably remain for treatment. It will be necessary for weights to be attached to the injured member, the doctor said, so that it will not be shorter and will not be stiff.

The Index joins with other friends in extending best wishes for her speedy and complete recovery.

### County Canning Kitchen Is Closed

Mrs. R. W. Fenton, supervisor of the county canning kitchen, announces that this work was temporarily halted at the close of work last Tuesday. This was done in accordance with instructions received from state headquarters at Austin. No more canning for the public can be done at this time, Mrs. Fenton announces, and people who have requested scheduled are hereby requested not to bring the materials in.

### Light Showers Bring Relief From Heat

Light and scattered showers which covered much of our territory at an early hour Tuesday morning brought short-lived but welcome relief from the extreme heat which has caused considerable discomfort and property loss during the past ten days.

While the total rainfall probably did not exceed one-sixteenth of an inch in any part of our section, dust was settled and the bit of moisture in the atmosphere will hold the crops for a few days longer.

The shower was preceded, as usual, by an intimidating display of wind, thunder and lightning. So far as we have heard, there was no damage from the wind or from the lightning.

### Local Teachers Witness Indian Dance

Members of Texas Technological Archaeological Field Expedition were taken back centuries on August 4 at the Santo Domingo Corn dance, when the Santo Domingo Indians made their annual prayer for rain, which has not failed to be answered for the last twenty-five years.

Like a brilliant pageant from the past, first came the black and white painted Koshare with corn shuck hair dresses out of one of the kivas, the ceremonial chamber of the pueblo Indians. These Koshare are the directors of the dancing chorus and the drums of the dance. They made all sorts of jokes, most of them being about the American tourists, who come to see them dance. Next come the somber faced dancing chorus with their long silver black hair trailing down to their knees and painted brown bodies covered only in a short brilliantly embroidered skirts. Even small three year old children make up this dancing chorus. They are led by the singing chorus, a body of the older women of the village in bright blue, green, orange, and brown velvet suits, strapped with silver belts. Leading the procession goes the Standard Bearer who carries the standard of his society, which is a tall first staves seen the Kiva when they are not dancing, topped with brilliant orange feathers, the skin of the animal clan, and cloth embroidered penitential that extends about four feet down the pole.

### Grade School Books To Be Fumigated

At a meeting of the school board Tuesday evening, it was unanimously voted that all books which will be used by grade school students and all erasers and other similar permanent equipment of the various rooms will be thoroughly fumigated sometime before the opening of school on September 2.

This move has been decided upon as a precautionary measure, in the hope that the epidemics of skin diseases may be prevented. For several years students and teachers have been compelled to be constantly on their guard against contracting such disagreeable ailments as itch, etc., and it is believed that this disease, and perhaps others, have been spread from year to year by use of books which have been previously contaminated.

We feel sure that parents of grade school pupils will appreciate this move on the part of the school board. Speaking as one of the aforesaid parents and as a citizen of the school district, we hereby extend our personal thanks and our editorial approval of the plan.

### Mrs. Allen Improved; Brought Home Sat'd'y

The many friends of Mrs. W. G. Allen will be glad to know that she is beginning to show signs of decided improvement from the illness which has made her an invalid most of the summer, and that she has sufficiently recovered that she was able to be brought home from Lamesa Saturday.

She has been here since early in the summer, in the home of her brother, and has been under the constant treatment of a physician.

The Index joins with other friends in the hope that her recovery will be rapid and permanent.

### County Canning Kitchen Is Closed

Mrs. R. W. Fenton, supervisor of the county canning kitchen, announces that this work was temporarily halted at the close of work last Tuesday. This was done in accordance with instructions received from state headquarters at Austin. No more canning for the public can be done at this time, Mrs. Fenton announces, and people who have requested scheduled are hereby requested not to bring the materials in.

### Light Showers Bring Relief From Heat

Light and scattered showers which covered much of our territory at an early hour Tuesday morning brought short-lived but welcome relief from the extreme heat which has caused considerable discomfort and property loss during the past ten days.

While the total rainfall probably did not exceed one-sixteenth of an inch in any part of our section, dust was settled and the bit of moisture in the atmosphere will hold the crops for a few days longer.

The shower was preceded, as usual, by an intimidating display of wind, thunder and lightning. So far as we have heard, there was no damage from the wind or from the lightning.

### Pressure Cooker Explodes; Mrs. Eula Shepperd Injured

Explosion of a pressure cooker in which black-eyed peas were being canned caused considerable excitement and quite a bit of damage on Tuesday afternoon at the home of Mr. and Mrs. T. A. Wimberly.

The only bodily injury was suffered by Mrs. Eula Shepperd, Mrs. Wimberly's sister. A fragment of one of the glass jars cut a small jagged gash on the back of her right hand, severing a small blood vessel. She lost a quantity of blood, and was naturally suffering also from nerve strain, but the attending physician did not find it necessary to take any stitches.

No explanation of the accident could be found. The ladies had just lowered the flame after the gauges showed a fifteen pound pressure and had seated themselves to rest while the peas cooked to the required length of time. The explosion was so violent that the top of the cooker was torn completely away and hurled through the ceiling, falling over on the other side of the attic from the kitchen.

The explosion was so violent that the top of the cooker was torn completely away and hurled through the ceiling, falling over on the other side of the attic from the kitchen. The explosion was so violent that the top of the cooker was torn completely away and hurled through the ceiling, falling over on the other side of the attic from the kitchen.

### Tractor School At J. I. Case Agency

Special attention of our readers is directed to an ad which appears on another page of this issue of the Index, announcing a free tractor school to be conducted at the J. I. Case agency here Tuesday of next week, which will be August 20.

M. J. Whitsett, manager of the local agency, states that every farmer, whether or not he has a tractor, is urged to attend this school. The demonstration will begin promptly at nine o'clock. A representative from the factory will be there to answer questions and to discuss problems of the individual farms, but the chief feature of the day's program will be the complete tearing down and rebuilding of one of the tractors, the mechanic explaining each step of the process in detail.

So, whether or not you are a tractor farmer, or if you own a different make tractor you are cordially invited to attend this demonstration and school at the local J. I. Case agency next Tuesday at nine o'clock.

### Relative of Local People Dies at Snyder

Mr. and Mrs. Bill Brunson have notified friends here that their sister-in-law, Mrs. Arthur Gay, passed away at her home in Snyder Monday morning after an illness of several weeks. Mr. and Mrs. Brunson remain cordial friends of the family.

Mrs. Gay visited here not long ago and has many friends here who will be grieved to know of her death. She had been in poor health for a considerable time, we understand, suffering from Bright's disease, and the birth of a daughter a month or six weeks ago left her in such a weakened condition that she failed to rally.

Mrs. Brunson had been with her several days before the end, while Mr. Brunson had gone down Saturday. The Index joins with other friends in extending sympathy to the bereaved family.

### Corner Drug Store Being Renovated

Charlie Clemens, local painter, put in most of last week and several hours this week putting fresh paint on the walls, ceiling, and part of the fixtures at the Corner Drug Store here. B. J. Boyd has been manager of the store for the past twelve years. We are hoping that the new paint, combined with a soft cream color, and the bit of attention has made a wonderful improvement in the appearance of the interior of the store.

Mrs. David Tate and son David Jr. are spending this week with Miss Ola Bell Singleton of Tahoka.

When ever you have an ache or pain,  
Of any kind or description,  
You will soon be yourself again,  
If you bring US your prescription.

There are several tanks in Dawson county which supply abundant fish for family use. Why don't the farmers add pisciculture to their other activities? A tank can be built of earth, underground water is abundant, and it can be pumped by windmill power, the state of Texas will stock the tank with bass, trout, crappie and perch, and these fish grow fast, respond to care very rapidly and in a year or two will be large enough for table use. Suppose a few hundred Dawson county farmers write Hon. Will Tucker, state game fish and oyster commissioner, Austin Texas, and learn just what the state will do. And it may be that through some bureau of AAA funds can be secured from the government to finance such an undertaking in a small way at first and which doubtless would become very profitable in a short while. This paper suggests this as a simple and very cheap way to add to the comforts as well as the luxuries of country life. Try it.

It is always by virtue of deductions depending upon reason that we are able to adopt a resolution, or to maintain an attitude that we believe to be correct.

Soundness of judgment is the faculty of being able to appreciate the merits of our neighbors, without cherishing any illusions as to our own.

The greatest triumphs are never achieved without a struggle. The man who obtains them does so only by virtue of the experience gained by repeated effort.

The habit of daily self-examination develops faculties of judgment so keen that it is an easy matter for a man to become his own educator in the path of betterments.

**FRIENDSHIP**

FRIENDSHIP is one of the finest things in life.

A good friend comes to us when we are in distress and unhappy, and without a good friend our life would be empty. But to make a friend we must first be a friend. A friendly, thoughtful deed is appreciated at all times. The bonds of friendship are far more comforting than coupons cut from bonds.

Don't let old friends pass out of your life just because they do not live next door.

Spare a few minutes now! Reach for your telephone! Extend your personality to the next block, the next town or another state without leaving your easy chair. Make your old friends a telephone visit while you are in the mood.

O'Donnell  
Telephone Co.

"When the Pilgrim Fathers landed at Plymouth Rock," said a sage of the long ago, "Anglo-Saxon civilization began its westward march around the world, and there was emblazoned in the western sky a silhouette of the Goddess of Liberty directing its progress." The "Westward Ho!" that brilliant sentiment that has been the watchword of the splendid progress which has characterized the wonderful achievements of the American people, and while American sentiment has not dominated, nor sought to, its influence for betterment has been world wide. The American spirit has not been aggressive for conquest, but rather for education, and this spirit has created a respect and admiration which will be as enduring as time.

According to J. Sam Lewis, staff writer for the Lubbock Avalanche there are 26,895 farms in the 20 counties of the South Plains. Fourteen counties report a net gain of 1397 farms since the census enumeration of 1930, while eight counties show a decrease of 1423 farms. The county showing an increase are: Bailey, Breco, Borden, Castro, Hale Cochran, Floyd, Gaines, Hockley, Lubbock, Parmer, Scurry, Swisher, and Terry. Crosby, Dawson, Dickens, Garza, Lamb, Lynn, Motley and Yoakum show a decrease. From the tabulations made by Mr. Lewis, Dawson county had 2,218 farms in 1930, and 1947 in 1935, a loss of 271 farms, or about 12 per cent. As a whole the reduction in the number of farms in the South Plains area is but 2%. The consolidation of one or more farms to be under one management is given to be, for the most part, the cause for the decrease. There may have been a few farms abandoned in the area but none on account of the deterioration of the soil.

And now comes the news from Ft. Worth that a new and valuable addition to the human diet has been found in the flour made from the kernel of the cotton seed, which is found to be very palatable. Practical feeding tests have proved that the new basis food is rich in proteins, contains vitamins B and G, and also furnishes the body with needed phosphorus. This flour is the discovery of C. W. McMath, a young scientist out of Texas A & M College, and T. J. Harrell a former president of the Texas Cotton Seed Crushers Association, and this product is said to have won the approval of The American Medical Association. This idea of a food value in the meal of the cotton seed is not new, for as far back as the beginning of the seed crushing industry the secure oil, the use of the meal for other purposes than fertilizers and cow feed has been contemplated, but nothing definitely accomplished. Perhaps more on account of the opposition of wheat farmers whose contention produced so much cheaper than wheat flour, it would at least cripple that industry and perhaps so reduce wheat growing as to make it unprofitable. It is to be hoped that this new flour may prove a success and its manufacture profitable.

There is a great deal of truth in the tribute H. R. Pipkins, president of the Texas Bar Association, paid to the country lawyers at the recent convention of that organization. In part Mr. Pipkins said: "By training and experience the country lawyer wields more influence in his community and in the state and nation than any other class of citizen. The country lawyer is responsible for most of the legislation for the crea-

*A good cigarette, too needs Balance—*

And that's why the tobaccos in Chesterfield are carefully balanced one against the other . . . not too much of one—nor too little of another.

We take the right amounts of the right kinds of four types of tobacco—Bright, Burley, Maryland and Turkish.

*It is this balancing of tobaccos that makes Chesterfields milder and makes them taste better.*

tion of public issues. He is by nature and training a logician and leader. He knows how to give his logic voice on the public forum and in his consulting room. He is nearly always a civic leader and nearly always a man who rarely loses faith in his fellow man, although closest to the frailties of human nature. As one of the sincerest tributes paid the legal fraternity it is notable that although as a class they are much maligned, there is always one lawyer in whom each layman places full confidence and accepts mentally or vocally, from his list when voicing condemnation."

A few months ago Chas. G. Daves, at one time vice-president of the United States said that business would move upward with a bang this year. A business analyst says that Daves prophecy is being fulfilled, but failed to tell who is getting the benefit of the business bang.

If we could know the connected parties to tragedies we could be able to figure out pretty well the reasons for most of them. Each of the individuals has a personal history and a relative history. Each life history has three tenses—the past, the present, and the future, and no life story can be blotted out.

Have you noticed that both Governor Allred and Attorney General McCraw are making strenuous efforts to enforce the laws of the state without favoritism? They are both to be commended for the part they are taking in bringing law violators to the throne of justice. As a rule faithful officers bear criticism, but too often fail to receive plaudits for efficiency of service. How many readers of this paper have personally commended these state executives on their splendid conduct in law enforcement? Coming near home how many of you have commended your Judge, Sheriff, County and District Attorneys, your Justice of the Peace or the Constable of your precinct and assured them that you are backing them in the enforcement of the law? Throw these officers a bouquet once in a while and watch them get busy.

"I don't remember" is getting to be quite a common liability for me on the stand as witnesses in the courts and before investigating committees in both congress and state legislatures.

When we study the history of the past and its wonderful achievements such as the pyramids, the sphinxes, the coliseums and great amphitheatres, those builded to defy the march of time and which were classed as emblems of the eternal, we can but think of the labor involved on the part of those who had but rudimentary means at their disposal in bringing to successful completion those gigantic works which occupied the entire lives of generations of toilers. Contemplation of these great achievements of the past and the little benefits the world has received from them rises to this age far different from human life. These great accomplishments of the value of time and of men of the past were brought

been the motive power. To assure oneself the means of living and embellishing life should be the aim of all of man's acts. Life is a struggle, but a harmonious life is a type of a great triumph.

Mr. and Mrs. Otto Cano of Trona, California, left last Wednesday for the return trip to their home after a visit here with Mr. and Mrs. Jess Williams. The ladies are sisters.

Mr. and Mrs. John A. Minor and family returned Tuesday night from a ten day's vacation with relatives and friends in various points in Oklahoma.

**Free Tractor School**

**Tuesday, August 20**

O'Donnell, Texas

We extend to every farmer a cordial invitation to come in and attend a one day's tractor school, conducted by factory representatives, of J. I. Case Company.

MOVIES will be shown of THE CASE TRACTOR in the process of manufacture. A tractor will be dismantled and assembled at the same time instruction in the care and attention a tractor should receive will be given.

REMEMBER EVERY FARMER is invited whether you own a tractor no not. We believe that you will be well repaid for your time.

## MISS McMILLAN MARRIED TO ORAN HICKERSON

Of much interest to Lynn county residents and to the South Plains as well was the marriage on August 4th of Miss Minnie Faye McMILLAN and Mr. Oran Hickerson. The ceremony was performed at Lovington, N. M., by a pastor of one of the Lovington churches.

For the wedding the bride chose a silk strassucker ensemble in a shade of blue most becoming to her blonde coloring, and wore white accessories. She is the charming and accomplished daughter of Mr. and Mrs. Alvin McMILLAN of the Wells and T-Bar communities, and was a student in the high school here last year. Mr. Hickerson is the son of Mr. and Mrs. Wash Hickerson of the Three Lakes community and is widely and favorably known throughout the county.

This marriage united two of the pioneer families of the county. The McMILLANs have lived in their present home for more than thirteen years, while the Hickerson family have lived in their farm home 27 years. Both families have been prominent in the civic, political, and social life of Lynn county throughout their residence.

The Index joins with other friends in extending congratulations and best wishes for a long and happy wedded life.

Mr. and Mrs. Sam Singleton and small son, Sam, Jr., left today to spend a short vacation with her grandmother, Mrs. J. D. Fisher of Sierra Blanca.

## MRS. FLETCHER JOHNSON HONOREE AT SHOWER

One of the most delightful social occasions of the year was held last Wednesday afternoon at the home of Mrs. S. M. Minton when she and Mrs. George Shumake Jr., were co-hostesses at a miscellaneous shower honoring Mrs. Fletcher Johnson. Mrs. Johnson was Miss Hazel Burk before her marriage two weeks ago to Coach Fletcher Johnson of the high school faculty.

A pink and green color scheme was carried out in decorations and appointments. Group games and contests were enjoyed during the social hour which followed the presentation of the array of lovely gifts. Mrs. Johnson expressed her appreciation in her own charming manner.

As tea time, dainty refreshments of cookies topped with pink and green icing, punch served with green ice, and cherry jelly were passed to thirty-two guests.

## MRS. CLAY THOMPSON HONOREE AT SHOWER

Friends of Mrs. Clay Thompson surprised her Monday afternoon with an informal reception and a shower of gifts for herself and her small son. The guests met at the home of Mrs. Jones Pierce, and went in a group to the home of Mrs. Thompson Little Betty Joyce James and Marie Pierce, dressed in dainty pink and white costumes, presented the gifts in a beautifully decorated basket.

The occasion was enjoyed by some thirty-five guests.

## MISS ESTELLE STULTEMIER AND PAT JACKSON MARRY

(Intended for last week)  
Miss Estelle Stultemier, daughter of Mr. and Mrs. G. C. Aton, and Mr. Pat Jackson were quietly married on Friday evening, August 2, at Lovington, New Mexico. A pastor of one of the churches there performed the ceremony in the parlors of the parsonage. Only a few intimate friends witnessed the ceremony.

Immediately after the ceremony, Mr. and Mrs. Jackson drove to Hobbs where he is employed by an oil company, and where they will make their home.

Mrs. Jackson has lived in our territory for a number of years, and has been one of the most popular and attractive members in the younger social set. She was a student in the local high school, where she was loved by pupils and teachers alike.

Mr. Jackson, the brother of Mrs. John A. Minor, has made his home here for the past two years, and has made scores of friends in the town and territory. He went to Hobbs several weeks ago but previous to that had been employed at Minor Feed store here.

The Index joins with other friends in extending congratulations and best wishes for a long and happy married life.

## PARTY SATURDAY CELEBRATES TWO OCCASIONS

Mrs. D. M. Estes and Miss Effie Vaughn were joint hostesses last Saturday afternoon at a party which was doubly important—it celebrated the ninth birthday of Mrs. Estes' grand-daughter, Dorothy Clayton and was also for the pleasure of Miss Vaughn's Sunday school class.

Dorothy received many dainty and appropriate gifts, and group games and contests were enjoyed by the guests.

Cake and punch were served to Doris Ballew, John Ellen, Ina Merle and Peggy Bench, Emma Lee Pearce, Joyce King Edwards, Aubra Lee Shock, Doris Payne, Glenna Faye Mince, Billy Ray Frazier, Wade Yandell, Billie Hodges, Billy Ray Brunson, Gene Hodges, Ruth Marie Yandell, Margaret Goddard, Leta Lackey, Birdie Mae DeBuck, Meda and Dorothy Clayton, and the hostesses.

## Davis Drug Store Being Renovated

Davis Drug Store is in process of being repainted this week, walls, ceiling and fixtures receiving a face-washing and a new coat of make-up. Mr. Davis states that the interior of the building is being made ready for fall business, so that appointments will tally with service and quality.

## JOIN EXCAVATION PARTY NEAR SANTA FE, N. M.

Charles Cathey, W. J. Shock and Mrs. E. E. Gilbreath, left Wednesday for Santa Fe, where they will join Mr. Gilbreath and Mrs. Cathey. The latter have been engaged in excavating and finding ruins in the homes of prehistoric Indians near Santa Fe and Taos. Miss Louise Anderson, also a member of the faculty here, is a member of the expedition as well. Mrs. Gilbreath will remain until the party returns the last of this month, but the men expect to return some time Sunday.

## CHURCH OF THE NAZARENE

Mrs. Pearl Keeton, Pastor Sunday school will meet at the usual hour next Sunday. All members are urged to be in their places in plenty of time for the lesson.

Services will be held at eleven o'clock, with a guest speaker in the pulpit. The pastor is engaged in a meeting at New Lynn, and will not be here. The evening service will be dismissed in favor of the revivals which are now in progress in the town. Our members are urged to attend one or the other of these services.

Our revival meeting will begin Friday evening, August 23, and we ask the prayers and cooperation of every one, in order that it may be a success.

You will always find a hearty welcome at the Church of the Nazarene.

## LOCAL MEN ENJOY SHORT FISHING TRIP

Three of our most enthusiastic disciples of Isak Walton—Dr. O. H. Shepard and Messrs. B. J. Boyd and T. A. Wimberly—spent the week end at their favorite sport, selecting a spot near Sweetwater for the fun.

They report a good trip, a number of fish, and that Dr. Shepard was the victim of a totally unexpected swim, but the Index refuses to be quoted or held responsible for this last part of the trip. Ask Dr. Shepard.

## ON EXTENDED VACATION

Mr. and Mrs. Alvin McMILLAN and Mr. and Mrs. Hugh McLaurin left Tuesday morning on a vacation trip, expecting to be away a month or more. They will go to Miami Beach, Fla., going via Louisiana where they will visit friends and relatives, and will return by the upper route, thru Tennessee and Missouri. They have promised to send us a card every once in a while, so we'll have an approximate idea where they are.

## NOTICE TO BIDDERS

Bids are asked on a bus line, to be 28 miles in length, for Wells Independent School District. All bids must be in before September 1. Lamar McLaurin, W. G. Allen.

B. L. Davis and F. A. Anderson made a flying trip to Carlisbad Sunday, and went through the Cavern while there.

B. M. Haymes was a business visitor in Lubbock Saturday.

**REVIVAL MEETING OPENS AT NEW MOORE FRIDAY**

We are asked to again remind our readers that the annual summer revival will open at New Moore tomorrow evening (Friday) and that everyone is cordially invited to come and take part. Bro. J. D. Rowland of Gainesville will do the preaching, assisted by the pastor, O. D. Cox. Bro. Rowland has had years of experience as an evangelist, and his messages are expected to be of much benefit to everyone who hears them.

**MESQUITE NEWS**

Miss Mamie Bearden, Corres.

There was a large attendance at singing Sunday night. We were glad to have visitors from neighboring communities, and extend to them a hearty welcome.

Mrs. Geo. L. Stephens and son, John S. visited relatives at Petersburg and Plainview last week. Mr. and Mrs. Frank Lamb entertained the young people with a party Saturday night. Everyone reported a most enjoyable time.

We want to announce again that the Bearden family held at Abernathy on Saturday night, August 10th. Rev. R. F. Pepper of Ralls will have charge of the services. Everyone is invited to come and take part.

Miss Kimmie Lee Pearce of O'Donnell visited in our community last week.

Mr. and Mrs. C. A. Bearden and family and Mr. and Mrs. L. M. Stephens attended a reunion of the Bearden family held at Abernathy on August 10th and 11th. Most of the family were present, there being 65 members present.

Mr. and Mrs. Romines report the arrival of a new daughter on Sunday, August 11.

Mr. Mickem is suffering from results of a serious and unusual accident which occurred last Thursday afternoon. He was doctoring a cow, and the animal fell on his leg, breaking it in three places. He was rushed to a Lubbock sanitarium where the bones were set. On Friday, it was necessary to reset the breaks, but he is doing nicely since that time.

Misses Thelma Bianche Parker and Elsie Williams have returned from a visit with relatives at Merkel. They spent last week there.

Mr. and Mrs. T. M. Wilson returned Sunday from a week's vacation with friends and relatives in Winters, Glencoe and Paint Rock.

SEWING MACHINES, new and used cash or terms, at the Singer Shop, Lamesa, Texas. tfc.

Mrs. A. R. Hill of Lancaster is visiting her sister, Mrs. C. E. Ray, and Mr. Ray, and her father, E. M. Hebison. Mrs. Hill will be remembered as Miss Idell Hebison.

Mr. and Mrs. H. R. Womack and Jimmie Banks spent Sunday in Brownfield with Mr. and Mrs. L. M. Wallace. They were accompanied home by L. M. jr.

Mr. and Miss Dowell of Tulsa were here on business Monday. They are another and sister of G. S. Dowell, former secretary of the chamber of commerce here.

Mr. and Mrs. J. H. Newsom and

YOU DON'T HAVE TO "BREAK IN" THE FORD V-8

You can drive it 50 miles an hour the day you buy

THE FORD V-8 is ready for normal driving when you buy it. There is no tedious period of breaking-in for 500 or 1000 miles. You can drive it up to 50 miles an hour the first day. And after the first hundred miles you can drive it as fast as you desire.

That means greater motoring enjoyment for every motorist. It is especially important to motorists who are thinking about a new car for a vacation trip—to physicians, salesmen and all those who use a car for business. Instead of dragging along at slow speeds for days, you can make good time from the start.

The reason for this is as important as result. The Ford V-8 needs no breaking-in because of unusual accuracy in the manufacture of moving parts and the smooth bearing surfaces. Clearances are correct to you buy the car. It is not necessary to drop on a long wearing-in period to eliminate noise and insure smooth running. Longer greater economy and better performance bound to result from such precision method. The Ford V-8 gives you fine-car construction along with fine-car performance, comfort, safety and beauty.

**FORD V-8**

family have had as guests several days his sister, Mrs. A. R. Carter and her daughter, Roberta, of Boonesville.

A large, new garage has been built at the residence now occupied by Mr. and Mrs. Fletcher Johnson. The house is the property of Higginbotham-Bartlett Company.

Mr. and Mrs. T. J. Yandell and family have as guests this week her sisters, Mrs. J. Arch Hart and family of Mineral Wells, and Mrs. Elizabeth Morris and daughter, Alma of Sudan.

Mrs. E. E. Gilbreath returned Tuesday from a week's visit with relatives at Wilson. During the visit she attended the baseball tournament at Anton, in which her cousin, Bean Pair, pitched for the Anton team.

Mr. and Mrs. I. W. Cutler have as their guest their daughter, Mrs. Lola Hickey and little daughter, Earnestine, who have been visiting them for the past two weeks. Mrs. Hickey plans to return to her home in Lingville Friday.

Mr. and Mrs. Fred Henderson and Robert Henderson left Wednesday for Carlsbad, N. M. and various other parts of Mexico points for a week's vacation. They will visit Mrs. Henderson's sister, Mrs. T. Johnson while in Carlsbad.

Mrs. Tom Goode and children Modesta and Jeff and Mr. Mose Sanderson spent Sunday with her father or Mr. W. R. Sanderson. They were accompanied to O'Donnell by Mrs. Fred Henderson who has been visiting at the Goode ranch for the past week.

Mr. and Mrs. C. E. Ray, E. M. Hebison and Master Bobby Hebison spent Sunday in Albany with relatives. They were met there by Mr. and Mrs. Bill Hebison of Emory. Bobbie returned home with his parents after a visit here of several weeks duration.

The residence of Mr. and Mrs. E. T. Wells is receiving extensive renovations and repairs this week, new flooring being laid in the living room and several other rooms being repaired. Mr. Charlie Clemens is doing the papering and painting, while Barton Burk and Ralph Beach are doing the carpentering.

Cousin and Mrs. Fletcher Johnson are starting off their married life just as all young couples should do, by subscribing for the hometown paper. Now they can keep up with the news and Mrs. Johnson can watch for bargains and save Coach's money and the Index will be helping make another home happier and more successful. Thank you, folks.

Mrs. W. L. Palmer and daughters, Thelma, Irma D. and Mrs. Faye Westmoreland and granddaughter, Yvonne Westmoreland, left Sunday on a vacation that will take them through various points in New Mexico and Colorado. They plan to spend a few days in Gledwood Springs, Colorado before returning here.

Mrs. Marshall Lane, who was the guest of her sister, Mrs. T. J. Yandell, and family over the week end, returned to her home in Sudan late Sunday afternoon.
