POP ESTIMATE DECREASED; YIELD UPPED

... pounds Per Acre throughout South low '37 Yield

WASHINGTON.—The agricultural department forecast this week production this year of 12,000,000 bushels of 5000 weight. A month ago 12,000,000 bushels was indicated. Production last year was 18,946,000—a record crop—and production for the ten years was 13,901,000 bushels.

The bureau reported 105 running bales, counting as half bales, of this year's had been gained prior to a year ago, and 9,882,530 bushels, compared with 13,160,423 a year ago, and 9,882,530 a year ago.

Estimated production this year is 12,000,000 bushels, compared with 12,000,000 a year ago, and 9,882,530 a year ago.

Snow, Freezing Temperatures Hit South Plains Area

Shivering citizens, who were sent frantically in search of warmer clothing and who decided that a fire "felt good" when the first norther of the season struck late Sunday, welcomed the sunshine of the last three days even though chilling winds still prevailed.

The first snow fell in the South Plains area when a hard, clothes-piercing norther swooped down from the vicinity of Colorado and sent the mercury scuttling to the low 20's.

State Motorists Pay Huge Tax

Check Shows That Schools Receive Third of Total

AUSTIN.—Motorists paid 24 cents of each dollar the state collected last fiscal year and schools received 33 cents of every dollar spent for operation.

Reporting on the fiscal dollar for the year ended last Aug. 31, Comptroller George Sheppard said collections totaled \$175,311,068 and the expenditures, aggregated \$157,757,877.

Balance Shows Increase

Moreover, the year ended with \$135,384,474 cash and bonds in the treasury, an increase of \$17,440,013 over the balance at the end of the previous fiscal period.

Sheppard said receipts upon which the dollar unit was based excluded certain non-tax sources and similarly expenditures ignored tax refunds, purchase of bonds for investments and other expenses not chargeable to operating costs.

Fuel Tax Brings \$42,228,405

The motor fuel tax, exclusive of 1 cent applied to county and road district bonded indebtedness, yielded \$42,228,405. County, federal and state taxes accounted for an additional \$25,986,064. Gross receipts, taxes, including the oil production tax, brought \$22,649,735 and other sources, included: Ad valorem tax \$15,903,567, automobile license \$7,153,257, cigarette \$6,503,501, liquor \$3,693,792, beer \$1,914,764, fees and permits \$3,186,457, land sales, rentals and royalties \$3,229,318, insurance penalties \$5,172,295, employer contribution to the unemployment compensation fund \$19,771,204.

Educational Expenditures Lead

Educational expenditures exceeded those for road construction and maintenance which were \$48,014,442. Officials said this was unusual and attributed the decline in road building to smaller federal grants which the states are required to supplement.

Some typical expenditures: Education \$52,928,722, public welfare including old age pensions and unemployment compensation \$29,352,902, debt service \$3,629,606, regulation of business and industry \$2,991,355, executive and administrative \$2,239,220, judicial \$2,441,722, legislative \$172,123, conservation of health and sanitation \$1,097,210, development and utilization of natural resources \$2,489,765, protection to persons and property \$1,862,311, eleemosynary and correctional \$9,388,372.

Fire Alarm Alarms, Firemen Rush, But Can't Find Blaze!

Members of the O'Donnell fire department hope the next time a fire alarm is turned in, they'll receive definite instructions as to where the fire is taking place.

And that the fire be in O'Donnell!

A shrill alarm was sounded Wednesday morning, and the members of the fire department in the west part of town. Arriving in that section, all they could see was gin smoke and they were then informed that the fire was in East O'Donnell. The truck, with firemen holding on, rushed to the other side of town and still a fire was to be seen.

Back came the firemen to town, and they were then told that the fire was out in the country.

A man, to whom a fire was a fire regardless of where it might be, had rushed into L. E. Dodd's store and excitedly said "A house is on fire!" and pointed eastward.

Wave of Rural Burglaries Here

Sheriff Parker In Search of Solution Numerous Robberies

Burglaries of rural sections, a wave of which has been reported on the South Plains in recent weeks, extended their fringe Monday and Monday night to Lynn county.

Sheriff B. L. Parker and his deputies sought solution of two burglaries, one of them resulting in loss of approximately \$100.

The offenses served to remind the public, particularly that living in rural districts, of warnings recently issued by sheriff's departments and telling persons who leave their farms to have someone remain on guard, also to lock residences and barns housing equipment and feedstuffs.

Mild Interest In General Election

In common with the general apathy manifested throughout the state in the general election voting Tuesday, Lynn county and O'Donnell cast only a few votes.

Despite the urgent plea of Governor-elect W. Lee O'Daniel, who hoped for a million votes, only a total in the state moved slowly upward to the 170,000 mark, with the Democratic standard-bearer easily swamping his Republican opponent, Alexander Blyden.

Interest of a high order was shown, however, in balloting throughout the nation where the Republicans and Democrats really contested for places. Democrats emerged victors in New York state, California and other Western states, but Republicans made a strong comeback and gave notice of a 1940 will be harder fought than in 1936.

Attending Convention

The Rev. and Mrs. J. A. Lunsford and children, Mrs. John Ezell and John Anderson are in Dallas this week attending the Texas State Baptist convention.

full, and then got up quickly," one bystander said. Examination was made at the Whitefoot Drug and a small cut bandaged.

Idle Hours Prove Interesting Time To Girl; Knits, Draws as Hobby

Spare time may be idle time to most of persons, but one girl in O'Donnell is gifted by nature to be eternally doing "something"—and that something may involve intricate hand needle work or the drawing of pen and ink sketches which will do credit to that done by artists with professional training.

Miss Caro Lee Pratt, niece of A. (Mack) McCulloch, owner of Mack's Cafe, and daughter of F. H. Pratt of Spearman, who was a visitor here Monday and Tuesday, has indulged in her hobbies for several years.

No lessons in drawing have ever been taken by Miss Pratt. She simply "picked it up" and in spare time, using various methods, created sketches that reveal skill to an unusual degree. A specialty is made of profile drawings.

Each new phase of knitting, crocheting and kindred hand work is quickly mastered by Miss Pratt, and during the years that she has utilized spare time, she has created hundreds of beautiful pieces.

Rev. Pike Plans Farewell Sermon

Popular Methodist Pastor To Leave For Conference

The farewell sermons of the Rev. M. R. Pike, pastor of the First Methodist church, will be preached here Sunday morning and night. He leaves for conference next Wednesday morning.

Pastor here for three years, the Rev. Mr. Pike has accomplished much good in that time, so members believe.

In the three years of his pastorate, \$11,000 has been raised and used for the church's needs, 63 members have been added to the church. He has performed 16 wedding ceremonies and baptized 86 infants.

The conference will be held at Memphis, with Bishop Ivaq. Leo Holt in special charge.

ECONOMIC HIGHLIGHTS

Happenings That Affect the Dinner Pails, Dividend Checks and Tax Bills of Every Individual, National and International Problems from Local Welfare.

"Nineteen—thirty-nine will be the best year for business and industry in a decade." That sentence accurately sums up the views of numerous economic forecasters today. In their opinion, the recovery movement, which was sagging and uncertain when it began seven or eight months ago, will continue to gain both in strength and velocity.

The forecasters, of course, have been wrong before, and grievously so. But it is a fact that at present opinion is amazingly unanimous as to the pleasant prospects ahead for the immediate future. You can find many an authority who is dubious over the long-term outlook—who, for instance, believe that government's greatly-stimulated pump-priming activities are going to cause the country plenty of trouble in years shortly ahead. But you'll have a hard job finding an authority who doubts that next year will be the most prosperous since the depression began. As the conservative *Annals* puts it, "Recovery shows no signs of slackening."

Biggest recent optimistic news was the announcement of a tremendous spending drive by the nation's electric utilities. Representatives of 14 major systems met with the President in Washington.

"My Skin Was Full of Pimples and Blemishes from Constipation," says Verma Schlegel, "since using Adierka the pimples are gone. My skin is smooth and glows with health." Adierka washes BOTH bowels and relieves constipation, that so often aggravates a bad complexion.

and, as an AP dispatch phrases it, "Amid a display of friendliness which left the capital guessing... announced a far-reaching program to strengthen national defense and stimulate industry by expanding private power facilities." Details involve spending at least \$2,000,000,000 in the next two years (a sum double the recent rate of capital expenditure by the industry) and buying sufficient equipment to add 1,330,000 horsepower to existing capacity. And this, it is said, is only the first stage—plans go through as scheduled, still greater expansion will follow.

On the red side of the ledger, in the view of business generally, is the President's Emergency Board's report to the effect that railroad wages should not be reduced, and that railway management withdraw its request for a 15 per cent cut. The President's meeting with George Harrison, representing railway labor, and J. M. Polley, president of the Association of American Railroads, for a conference concerning what to do in the future. The railroads are unquestionably in the worst position of any major industry. But there is a possibility that even the Administration is considered friendly to the lines, and informed observers say that legislation to help the industry in one way or another will lead next Congress.

Excellent augury is the automobile industry's rapid emergence from the economic dog-house. The severe shutdown in production that took place last spring and

Joe Conrad

A FRIEND IN NEED!

summer was a strong depression factor. By the same token, the unlooked-for improvement in production and demand now—which has caused some makers to change their plans and embark on more elaborate ventures than they had thought wise even a few months ago—is a strong recovery factor. Important by-product in this field has been a substantial amount of high-wage re-employment.

NOBODY'S BUSINESS

BY JULIAN CAPERS JR.

AUSTIN.—Financial affairs of the State of Texas engaged public attention in Austin this week, as various reports for the fiscal year ended August 31, 1938, became available. Outstanding developments included these facts revealed by the audits and reports: Income and expenses of the State government reached an all-time peak, with total receipts of the State amounting to \$197,715,961, of which only \$175,311,088 was classed as "revenue receipts." Expenditures for the fiscal year totaled \$157,747,877, an increase of about \$13,000,000 over the previous year.

pensions and Confederate pensions) 18.6 cents. A decline in costs for the year under the previous year were reflected by five governmental departments, including the legislative, executive and administrative, highways and parks and monuments. Government functions that cost more this year were judiciary, protection of life and property, regulation of business and industry, public health, conservation of natural resources (supervision of oil and gas production), eleemosynary and correctional institutions, educational service, and debt service. Gas Tax Nets 42 Millions The gasoline tax proved the largest single source of revenue for the year, yielding \$42,228,405, or 63.69 cents of each revenue

dollar received. Gross receipts taxes brought in 12.91 cents per dollar and ad valorem property taxes brought only 8.84 cents. Automobile license taxes brought in 4.08 cents per dollar, while the chain store tax, a new levy, yielded 1.13 cents.

Significantly, the State auditor made public a report of an audit of the affairs of the State Department of Education which contained some pointed criticism, and recommended that a centralized bookkeeping system be installed, with one individual responsible for the accounting of this, the most costly function of government.

Raps School Accounting Auditor Tom King reported the records of one manufacturer of appliances used by the vocational rehabilitation department indicated sales commissions had been paid an employee of this division but a letter from the manufacturer later declared the payment was a "loan" instead of a commission. Other items of loose accounting included payment of expenses accounts of the director of school census by local officials, without sufficient data available to verify the items. King also reported an expenditure of over \$8,000 for pay of clerks under the title of "coordinators" in vocational education work, was apparently made in violation of State law. He also criticized inadequate records in the college entrance examination division, and payment of salaries to employees while attend-

Deficit Looms Big

The deficit in the State's general fund reached a high point of \$18,426,353 as of Oct. 31. Treasurer Charley Lockhart predicted a decline, as the 1939 month on Texas "bread" has already been set aside from the fund, and revenue coming the general fund for the 1939 year will go to reduce the deficit. Texas is in excellent shape as far as bonded debt is concerned as the last of the \$20,000,000 bond issue during the depression will be retired in four years, ahead of schedule. Highway Official, Coming Texas will be host to the way building brains of the next month, when the American Association of State Highway Officials, including representatives of all 48 States, will meet in Austin. (Continued on Page 3)

JOHN EARLES

This government doesn't like the dictator nations. And the dictator nations don't like us. That is the logical deduction from the President's recent anti-fascist speech, coupled with the State Department's blunt warning to Japan to respect American rights in China under the traditional "open door" theory. Newspapers in Rome and Berlin and Tokyo promptly branded as war-makers, and denounced our great rearmament program.

This government is gravely concerned with recent developments. Japan, at the beginning of her Asiatic adventure, solemnly pledged maintenance of the open door policy. Parents she had her reported that this government plans to establish a large radio station in the Canal Zone, from which to broadcast pro-American

It is a relatively simple matter for an ambitious foreign power to establish air, army and naval bases in the Canal Zone.

Betty Crocker MEALTIME MAGIC

Your Newspaper—Betty Crocker Home Service Department

SWEETNESS AND FLAVOR

DO YOU pour your honey or do you "drizzle" it? There's a big difference. Your wheat cakes or biscuits will be twice as delicious if you drizzle the honey over them in tiny threads instead of deluging them in heavy amber pools. After all, a very little honey is needed to give sweetness and flavor and bring out the flavor of your other foods. But there's a real technique to this drizzling business. Chilled honey won't drizzle worth a cent! It must be warm to be thin enough to fall in those tiny golden threads. To drizzle honey successfully, first set the jar containing it in warm water (not hot water) for ten minutes. Then hold the jar some distance above your biscuits or wheat cakes and tip it so that the tiny threads will trickle or "drizzle" down on the bread.

The matter of temperature is and cream well. Add honey, well beaten eggs and grated lemon rind. Mix well. Sift flour once before measuring. Sift flour, salt, confectioners' sugar and baking powder together, and add to first mixture. Add flavoring and toast almonds. Pour into well greased heavy oblong pan 12 by 16 inches, or two pans, 8 by 12 inches, or line this pan with greased paper and bake 30 minutes in a moderate oven, 350° F. Batter should be only 1/2 inch thick in pan. When done, remove from oven, cool and cut into narrow strips, 1 inch by 3 inches. Roll each bar in additional confectioners' sugar. Amount: 64 bars.

Honey Nut Spice Cake
1/2 cup shortening
1 1/2 cups honey
2 eggs
2 1/2 cups all-purpose flour
or
2 1/2 cups cake flour
2 tsp. baking powder
1/4 tsp. soda
1/2 tsp. salt
1/2 tsp. cinnamon
1/2 tsp. allspice
1/2 cup cold water
1 cup toasted nuts

Cream shortening, add honey and mix well. Add well beaten eggs. Sift flour once before measuring. Sift flour, baking powder, soda, salt and spices together. Add to creamed mixture alternately with the water. Add nuts and mix thoroughly. Bake in well greased and floured 7 1/2 x 11 inch cake pan for 45 minutes in a moderate oven, 350° F.

If you have any specific cooking problems, send a letter requesting information to Betty Crocker in care of this newspaper. You will receive a prompt, personal reply. Please enclose 3 cent stamp to cover postage.

agent in scoring the products. The winning entry was entered in the final county scoring. Miss Ora Anderson, home demonstration agent, Yoakum County, did the judging, which resulted as:

First: Mrs. W. E. Dubree, Draw Redwine; Second: Mrs. C. E. Short, Grassland; Third: Mrs. A. C. Weaver, Taboka. Other winners

in clubs were: Mrs. C. L. Cooper, Hackberry; Mrs. Rufus Slover, Midway; Mrs. R. W. Barton, New Lynn; Mrs. Paul Johnson, T-Bar; Mrs. Oran Hickerson, Throve Lakes; Mrs. W. C. Hograker, Wilson.

"Home Best Place To Learn Table Manners"—Lilith Boyd

"When girls are courteous at home they are more at ease with friends and strangers," Miss Lilith Boyd, C.H.D.A., told the members of the T-Bar 4-H Club which met at the school house at 9:00 o'clock November 3.

"Home is the best place to practice table manners," Miss Boyd added.

Every member is planning to bring a home made gift suitable for some member in the family at the next meeting.

Maxine Lindly was selected clothing demonstrator. Emma Jean Moore will be poultry demonstrator. Mrs. H. F. Lindly was elected sponsor.

Members present were: Betty Jean Davis, Verna Jo Johnson, Maxine Lindly, Callie Fay McMillan, Irene McMillan, Ollie Lee McMillan, Pauline McMillan and Emma Jean Moore.

SOCIETY

WITH MARIE HOWARD AND DOUGLAS BALLEW WED

The marriage of Miss Ruth Marie Howard, daughter of Mr. and Mrs. W. F. Howard, to Douglas Ballew, son of Mr. and Mrs. B. D. Ballew, was solemnized Sunday a. 4 p. m. at the home of the bride's parents, with Rev. J. A. Lunsford performing the single ring ceremony.

Gladious, asters and fern adorned an improvised altar.

As a prelude to the ceremony, Miss Florence Gary and Mr. A. C. Hamilton sang "Ah Sweet Mystery of Life" (Herbert) with organ and violin played by Mrs. Rochie Peits and Mr. Elmo Burkett. They also played "I Love You Truly" as vows were exchanged.

Miss Dorothy Wallis was bride's attendant, and Mr. Jack Howard, brother of the bride, was best man.

A reception was held immediately after the wedding. Upon a century old walnut dining table spread with a lace cloth a three-tiered wedding cake with bread and groom decoration was served to more than sixty guests.

The out-of-town guests were Mr. and Mrs. C. B. Hays and family and Miss Cora Hays of Ballinger; Miss Edna Muriel Lewis and Gertrude Schantz and Mr. Ira Burns of Lubbock; and Mr. and Mrs. Pat Gary, Ropes.

After a week-end trip Mr. and Mrs. Douglas Ballew will be at home in O'Donnell.

Mr. Joe Whigham Entertains Tuesday Club

Varicolored chrysanthemums adorned the room where three tables of contract were played Tuesday afternoon when Mrs. Joe Whigham was hostess to the Tuesday Bridge Club at her home in Dawson Heights.

High score prize was won by Mrs. J. Mack Noble, and slam prizes awarded Mrs. E. T. Wells and Mrs. Charles N. Hoffman.

Following the usual games a delicious refreshment plate of pecan pie with whipped cream and coffee was served.

Those playing were Mesdames Guy Bradley, L. E. Robinson, E. T. Wells, Charles N. Hoffman, Newell Hughes, J. Mack Noble, Marshall Whitsett, William G. Forgy, Pauline Campbell, G. B. Johnson, Edwin Sturges and Knox. Mrs. Marshall Whitsett will be hostess next Tuesday at 3 o'clock.

Mrs. T. R. Tume Hostess To C.H.D.C.

The County Home Demonstration Club met at the home of Mrs. T. R. Tume on November 3rd at 3 p. m.

Mrs. John Earles, council delegate, reported that the O'Donnell club was represented in both the County Cake Show which was held at Taboka and in the Domestic Science Department of the South Plains Fair at Lubbock.

Mrs. T. R. Tume, Home Food Demonstrator, told how a variety of vegetables were grown in a frame garden and exhibited canned beets grown in this garden.

The storehouse contained about 200 pints of canned food consisting of a fine variety of fruits and vegetables. All the food was home grown except the plums and peaches.

On November 17, the club will meet at the home of Mrs. John Earles.

Delicious refreshments of coffee, peaches, whipped cream and cakes were served to Mesdames Waldo McLaurin, John Earles, Alma House, E. J. Treadway and W. E. Treadway.

Acc-Hi Bridge Club Has Covered Dish Luncheon

Members of the Acc-Hi Bridge Club were delightfully entertained with a luncheon in the home of Mrs. Edwin Sturges in Dawson Heights Wednesday.

The delectable luncheon which was served buffet style consisted of fruit cocktail, baked turkey,

The HEADLINES Say:

Freshmen

We want to give our hearty congratulations to the Juniors and Yvonne. If hard luck hadn't come our way we would have at least won over the Seniors. But Yvonne it takes a good fellow to win over Margoret Sue.

Sophomores

The Sophomores wish to congratulate the Juniors on winning the Football Queen race. We enjoyed the race very much and wish to say that we worked hard for every penny of our money, but it seems that the Juniors worked just a little harder. We can say though, that we did our part toward helping the banquet along about \$52.69 worth. Mr. Johnson said that we was the largest amount they have had on a queen's race in a long time. Just wait until next year—the Sophomores say that the amount will be almost twice as much.

Seniors

We want to remind the Juniors that they are supposed to give us a banquet, even though they don't have any class dues left since the queen's race. But we do want to congratulate them for winning.

ACTIVITY NEWS

The Pep Squad is planning a bonfire for Thursday night to encourage the football boys for the game with Taboka.

We are very sorry that we cannot play another game there so that our Queen may be crowned on the field.

CIVICS NEWS

The Civics Club was called to order by President Clarence Simpson. Melba Harris read the minutes. A program, including many interesting subjects from the class, was put on.

SNOOPER . . .

Mozelle, what is all this talk about you not going with anyone but Pete. Can you explain why you were with Sherl Monday night?

Odie simply can't understand why Joyce didn't get Football Queen, he knows he put in enough do-rums!

Christine Daffern is broken-hearted since her boy friend has left for California. Now's your chance, Clarence!

Shan and Shorty have been making quite a few trips to Lubbock, wonder what they're found now.

When Wilda Gene firmly stated that she was tired of sitting with J. V. and Tech and that she was going to start sitting with Hillman day afternoon for a very enjoyable party.

The devotional was given by Mrs. John Anderson.

Contests and games were enjoyed and delicious refreshments were served to the following: Mesdames Edwards, Anderson, James, Mires, Preston, Stubbsfield, Ballew, Greenwood, Vermillion, Middleton, Cummins, Goddard and Hancock.

"What was the war like, Daddy?"

"Daddy tries not to remember—nothing but the end—the Armistice—when peace was proclaimed. War itself is very powerful . . . very terrible, and we pray it will never again be necessary!"

THE Armistice — peace was proclaimed." What memories that recalls — of young boys, the daddies of today, rushing back to the arms of their own dads and mothers. Sweethearts coming back to tenderness and romance, after all that horror out there. The strange feeling of putting on a civilian's clothes again . . . walking through familiar streets . . . meeting old friends . . . back to a job! It all seemed so far away down in those black trenches. No man thought he'd come back to live normally again while shrapnel whizzed by his ear, and his buddies fell in action, one by one around him. "The Armistice—peace was proclaimed." We hoped then it would be an everlasting peace. We still hope so . . . for the families and the homes of today who see every husband and father as great a hero as they'll ever want!

MOBODY'S BUSINESS—

Continued from Page 2

from every American state, convenes at Dallas Dec. 5-8 for their annual parley. Following the convention, the highway builders will be conducted by Texas road officials on a three-day motor tour, visiting the East Texas rose and all fields, the Gulf Coast, the famous King Ranch, and colorful San Antonio. These annual meetings exchange ideas developed throughout the nation on advanced highway building practice and policies, and Texas with the largest highway mileage of any American State, will welcome the roadmen. C. H. Purcell, chief engineer of the California highway department, is president.

Montgomery Is Speller

Julian Montgomery, chief engineer of the Texas Highway Department, is declared by his friends to be the most erudite public official in Austin. He is not only a crack engineer, but such a good grammarian and speller that he is the despair of the stenog-

raphers in the Highway Department. At a recent conference of division engineers, Montgomery started an old-fashioned spelling bee, and spelled down all the engineers, tossing off the usual "trick" spelling bee words with the greatest of ease.

New Park To Be Donated

Future generations of Texas will enjoy one of the most beautiful scenic sections of the Trans-Pecos region under plans now under way by the State Park Board and the Legislature to set aside a tract of 1600 acres in the Guadalupe Mountains as a State park and wildlife sanctuary. The land has been offered as a donation by J. C. Hunter, Wichita Falls oilman. It includes beautiful McKittrick Canyon, and El Capitan, famous peak. The country contains big-horn sheep, mule deer, and a colony of elk numbering 400, introduced from Yellowstone park's herd several years ago. The State Highway department will develop plans for a road into the area if it becomes a State park and game preserve.

A PUDDING IN MOTLEY

You've seen pictures of the medieval court jesters in their queer motley garb—one stocking red and the other yellow—half of the jacket yellow and the other half red! The contrast in colors is dramatic and arresting. Some of the cake-makers in the good old days achieved the same sort of startling color contrast by making cakes that were part white and the other part dark, with spices. These cakes—where you ate a white cake and spice cake at the same time—were known as "marbled" cakes. But did you ever meet a steamed pudding that was light and dark colored at the same time?

Here is a grand pudding that is made with dates and chocolate. The dates are scattered through the white part of the pudding, while the chocolate makes the other part dark and delicious-looking. It's really a spectacular pudding to serve—either with a fluffy creamy sauce—or the traditional buttery hard sauce.

Here is this pudding in motley—accompanied by both a creamy sauce and a hard sauce. Take your choice. Either is delicious with this or any other steamed pudding.

Date Marble Pudding

- 4 tbsp. shortening
- 2/3 cup sugar
- 1 egg
- 2 cups all-purpose flour
- 4 tsp. baking powder
- 3/4 tsp. salt
- 1/2 tsp. cinnamon
- 1/2 cup cold water
- 1 1/2 squares chocolate (1 1/2 oz.), melted
- 1 cup dates (cut into small pieces)
- 2 additional tbsp. flour for dredging dates

Cream shortening, add sugar gradually, then the well beaten egg, and cream thoroughly. Sift the flour once before measuring. Sift the flour, baking powder, salt and cinnamon together, and add to the creamed mixture alternately with the water. Divide the batter into two parts. Into one part of the batter, blend the melted chocolate. To the other part, add the floured dates. Drop by spoonfuls into a well greased tube center fluted pan or Angel Food Cake pan, alternating the chocolate and white batter until all is used. Cover the top of the pan loosely with waxed paper—tying it in place with a cord. Steam 45 minutes, using a tube center mold or pan 8 inches in diameter. Serve hot with Creamy Sauce, Hard Sauce, or any desired pudding sauce. This recipe will yield about ten servings.

Creamy Sauce

- 1 egg
- 1/2 cup melted butter
- 1 1/2 cups confectioners' sugar

Beat the egg until foamy. Add melted butter slowly, then the sugar—beating well to blend thoroughly. Fold in the cream which has been whipped until stiff. Blend in the flavoring.

Hard Sauce

- 1/2 cup butter
- 1 cup confectioners' sugar or 1 1/2 cups fine granulated sugar

Cream butter, add sugar gradually, and cream thoroughly. Blend in the flavoring. Beat until smooth and fluffy. To add extra delicacy, fold a stiffly beaten egg white into the thoroughly creamed butter and sugar.

If you have any specific cooking problems, send a letter requesting information to Betty Crocker in care of this newspaper. You will receive a prompt, personal reply. Please enclose 3 cent stamp to cover postage.

Betty Crocker KITCHEN CLINIC

FROM AWAY DOWN SOUTH IN DIXIE

The south is famous for many good things—including food. Southern Fried Chicken—beaten biscuits, savory gumbos and pilous, cakes light and fluffy as thistle down, and rice that literally melt in your mouth. To these traditions—you know it's going to be uncommonly delicious eating. It's made with eggs and golden corn syrup and butter with a nip of cinnamon and the crunchiness of toasted pecan chunks.

A word of warning, however. Do not serve this pie after a particularly rich and bountiful dinner. It won't be appreciated as it should be. Rather choose a day when you are serving a soup and salad in place of the usual meat and potatoes and vegetables. Serve it with a crisp apple and celery salad, with buttered toast or hard rolls. Then bring in your pecan pie—and it will be enjoyed to the utmost. Here is the recipe:

Pecan Pie

- 1 cup corn syrup
- 2 tbsp. sugar
- 3 tbsp. all-purpose flour
- 1/2 tsp. salt
- 1/2 tsp. cinnamon
- 3 tbsp. butter
- 1/2 tsp. vanilla
- 2 large eggs
- 1 cup broken pecans

Mix corn syrup with sugar, flour, salt, cinnamon, melted butter and vanilla. Add very well beaten egg yolks. Fold in the egg whites beaten until stiff. Add 1/2 cup of the pecans. Pour into unbaked pie shell and sprinkle the remaining pecans over the top. Bake 45 to 50 minutes using a hot oven, 450° F., hot oven, for the first 15 minutes, then reducing the heat to slow moderate oven, 325° F.

Pie Crust

- 1 cup all-purpose flour
- 1/2 tsp. salt
- 1/2 cup shortening
- 1/2 cup ice water (2 to 3 tbsp.)

Sift flour once before measuring. Sift flour and salt together. Cut in the shortening with 2 knives or a pastry blender—leaving some of the shortening in lumps the size of giant peas. Add ice water. Sprinkle the water lightly—a little at a time—over the flour and shortening. At first, blend it in lightly with a fork; then gather dough together lightly with the fingertips. As soon as you can make the dough stay together, you have plenty of water in it. Round up dough on cloth-covered board (using flour rubbed into cloth to keep dough from sticking). Roll out to fit pan and place in pan loosely to avoid stretching. Let pan rest on table with cutting off excess pastry, leaving 1/2 inch extending beyond the edge of the pan. Build up a fluted edge.

Question: If you serve cream puffs as a dessert at a dinner, what do you serve with them?

Answer: When cream puffs are served as a dessert, a sauce is usually offered with them—such as a chocolate sauce or a buttery scotch sauce. If the puffs have a rich custard filling, the sauce may not be necessary. Other times the puffs are filled with ice cream and served with a sauce—such as peppermint ice cream with a chocolate sauce, or burnt almonds ice cream with a hot-peppercorn sauce, etc.

If you have any specific cooking problems, send a letter requesting information to Betty Crocker in care of this newspaper. You will receive a prompt, personal reply. Please enclose 3 cent stamp to cover postage.

Sentinels of Health

Don't Neglect Them!

Nature designed the kidneys in a marvelous job. Their task is to keep the blood clean from free of all poisons and toxic impurities. This act of blood-cleaning is a delicate process. The matter the kidneys must remove from the blood is given to them in the form of waste that may cause body-wide diseases. When the kidneys fail to function as Nature intended, there is a serious possibility of kidney trouble. The kidneys are the seat of disease. They are the seat of disease. They are the seat of disease. They are the seat of disease.

Present, steady or burning passage may be further evidence of kidney or bladder disturbance.

The recommended and proper treatment is a diuretic medicine to help the kidneys get rid of excess poisonous body waste. The **Doan's Pills**. They have had more than forty years of public approval. Are endorsed the country over. In fact, so many have sold at all drug stores.

COTTON MARKET

... TO ADVANCE!

Say H. KEMPNER

Q We adopting another method for the handling of cotton for the benefit of the producer.

Q Effective once, to all those who so desire, and sign the loan papers and send their cotton to H. Kempner just as if it were going to the loan.— WE WILL AGREE NOT TO PUT THE NOTES WITH THE COMMODITY CREDIT CORPORATION UNTIL THE FINAL DATE, APRIL 30.

Q And if in the meanwhile, the market advances, which now looks as if it might do as there is a quite a scarcity of free cotton, producer could then instruct us to sell the cotton and get the advance in the market without his cotton going into the loan.

THE MOST DANGEROUS PLACE

Believe it or not — the most dangerous place you can be in is at home!

According to the National Safety Council, the principal cause of death from home accidents last year were divided as follows: falls, 17,500; burns and explosions, 5,600; poisonings, 1,700; firearms, 800; mechanical suffocation, 1,000; poison gases, 1,100. The grand total was 32,500 deaths — ninety out of a hundred of which were unnecessary, and could have been easily prevented.

The Red Cross, in company with other safety organizations, has been carrying on a drive to awaken the public to the danger of home accidents, and to show how hazards may be easily removed and avoided.

Take a look around your own home. Is there a loose rug at the top of a staircase. It may easily cause a fall that will result in long agony in the hospital, or death. Cap unlocked medicine cabinets be reached by children? If so, they are in imminent danger of fatal poisoning by such a common first-aid accessory as Iodine. Are guns kept unsecured and out of reach of amateur hands?

You can think of many more such vital safety questions. When you do, answer them at once—and not by guesswork, but after a rigorous investigation of every room in your home. And once you've eliminated hazards, keep them eliminated. Remember that a home that is safe today may be filled with dangers tomorrow.

Keep safety in mind at all times — if you want to keep your name and the name of your loved ones off the future lists of home accident victims.

CHASES A PEEPER

SPUR—While returning home from an American Legion night meeting Rev. C. R. Brown found a prowler as he drove up to his house. The man hid behind some shrubbery but was forced out. The minister chased him several blocks, but the family dogs followed the minister, thinking it was a game, and he lost track of the intruder.

NEW MORTON EMPLOYEE

MORTON—Miss Allene Cox of Lubbock has been named as scenographer of the Farm Security Administration here. She takes the place vacated by Miss Virginia Nickles who resigned recently to be married.

Winged Hosts Retored

More ducks than sportsmen have seen since 1929 in southbound. Top, a pair of blacks, or black mallard, the wariest of all. This is one of the most popular species east of the Mississippi. Middle, a baldpate, or American widgeon, coming back in large numbers along the Pacific Flyway. Bottom, broad-bill or big bluebill, a favorite of open water. Pictorial age the duck depression ends.

Skies and Water Again Alive With Hurrylocks, Product of Rescued Breeding Grounds

By Jay N. Darling (Mr. Darling was chief of the Bureau of Biological Survey when the present program of wildfowl restoration was started. He is now president of the National Wildlife Federation, an organization of conservationists.—Editor's)

THE DUCKS ARE COMING! Winged proof that wildlife restoration pays is right ready to move southward and eastward over the great air high of North America. The prospects are for a bigger flight this year since 1929 along all of the four main routes of migration, Central, Mississippi and Atlantic.

A million sportsmen, and more millions to whom pattern of hurrying flocks against the autumn sky is of greatest any day than roost canvasback and burgundy, are bearing in on the "rightness" of the Biological Survey's wildfowl program.

In 1933, extinction of the ducks, geese and brant with America was a dire likelihood. Wildlife goes swiftly through last stages of its doom. Within ten years, the passenger pigeon, from millions to zero. In 1871, buffalo spread over the plains in dense herds for thousands of miles, their numbers the ken of man. In 1883, the last band was wiped out.

For 1933, legal protection for the buffalo was demanded, and denied. Hunter, the wise old-timer, said: "There's still plenty of buffalo; they've just taken another route." To those of us who had the facts, gathered by hard-working technicians of the Bureau of Biological Survey, it seemed to be folly to adopt the advice of either party. To those who had the facts, gathered by hard-working technicians of the Bureau of Biological Survey, it seemed to be folly to adopt the advice of either party.

NEW HOME OF DR. MILES LABORATORIES IN ELKHART

The picture shown above was sent to us a few days ago and interested us so much that we are passing it on to our readers, who have been seeing advertisements of Dr. Miles Products for many years.

This new building is the last word in modern construction. It is three stories high, of reinforced concrete, pressed brick and glass brick construction. Each floor contains nearly 100,000 square feet of space. Natural light is admitted by glass brick of which there are more than 15,000, each 8"x10", in the outside walls. Artificial light is indirect and as nearly as possible like natural daylight.

The new building is air conditioned throughout, air conditioning having proved of much value in improving the quality of Dr. Miles products. Indeed, without air conditioning, controlled to the finest degree, it would be impossible to manufacture some of Dr. Miles medicines.

The laboratories are the last word in scientific equipment and are in charge of specialists who devote their entire time to analyzing the ingredients used in Dr. Miles remedies and the finished remedies. Much space in this building is devoted to thoroughly modern experimental laboratories in which renowned chemists constantly strive to perfect methods of improving Dr. Miles' remedies.

"Weekly Newspapers Have Been an Important Factor in Our Growth"

A letter received from the Advertising Manager of Miles Laboratories, Inc., says, in part: "Your paper and a thousand more weekly newspapers have been an important factor in the growth of our Company. Weekly newspapers were one of the first mediums we used to tell the public about Miles Remedies. We have been using them consistently for more than fifty years."

When our readers see Alka-Seltzer, Nervine, or Anti-Pain Pills ad-

Advertisement for Dr. Miles Nervine featuring a cartoon illustration of a mother and children. Text includes: "STOP! YOU'RE DRIVING ME CRAZY", "I LOVE TO SEE THE CHILDREN HAVE A GOOD TIME", "Which KIND OF MOTHER ARE YOU".

Do you "fly all to pieces" when the children are noisy, or when the vegetables burn, or when the jelly won't "jell"? Some mothers are just naturally cranky. Some mothers are cross and impatient because they are nervous. If you are a natural crank, DR. MILES NERVINE won't do much for you. If you are irritable because your nerves are overtaxed, DR. MILES NERVINE will do a lot for you.

Liquid Nervine, Large Bottle \$1.00—Small Bottle 50¢ Effervescent Tablets, Large Package 75¢—Small Package 35¢

Advertisement for a V-8 Ford car. Text includes: "A LETTER OF APPRECIATION V-8 OF THE PUBLIC:", "During the time the Ford cars were on display, a gratifying number of people have visited our showrooms. We wish to take this means to thank you for your fine co-operation in making our formal showing of these cars a success. Never in the history of this motor company have we had such values to offer the public.", "For the benefit of those who haven't had a chance to view these cars on display, we wish to announce that we will have others on display, and we invite you to come and see them. We urge that you do take time and examine these fine motor cars. Salesmen on the floor each day.", "Sincerely, Lynn County Motor Co. OLL D. HASSIS, Manager"
