Fighting dandelions and sin is pever ending job - but we must take time out from gardening to-Wish our 1959 Graduating Class of OHS the best of success and more important - a life of service.

With the exception of a few students, we know the graduates personally and have followed their progress thru the halls of learning since days of grade school. We feel, as do their teachers, and all of this community, that these boys and girls, are almost as much ours as they are their parents.

(Your old ed. is not always impartial. At times we reserve this special favor.)

Sarah Prather, bless her heart. has been an inspiration to the writer and to his family. Down thru the years we have received a greater blessing from Sarah's prayers and inspirationals than any minister we have heard. God has blessed

this young lady richly. In printng the Junior Hi graduating programs, we noticed the wide gap between the numbers who graduate from Junior Hi and the number who finish high school. During these brief four years the "fall out" is roughly one half. This is such a great waste of our beloved children. Even a tiny fraction graduate from college and hardly any return home. college and hardly any return home to make O'Donell a better town.

Which brings up one of our dreams. How fine it would be to put aside what we could from what God has given us to build a community has given us to build a community REVOLVING college __educational fund for talented graduates. The fund could be repaid without interest as the graduates start making a living —_ children yet unborn could use this fund - to the enrichment of mankind.

Again, our best to the graduates. Life is like a relay race. Some catch the whiskey bottle, some catch money by the hand — but the blessed is the one catches an ideal by the hand and carries it into a hungry world. You kids are just entering the race and the torch has been handed you. RUN FAST!
