### FIRST COUSIN TO AN APPLE PIE

Can you guess what they are? That's right—Apple Turnovers, of course! You know the kind—plump little turnovers with a juicy filling bursting with thin slices of luscious juicy apples that are fragrant with cinnamon. We spent a long time perfecting a recipe that would make exactly that kind of apple Turnovers—and here it is—extra flaky pastry and all—

- Simplified Puff Pastry (Twelve 5-inch squares) 8 large tart apples
- Peel apples, and cut into thin slices. Place apples and sugar in saucepan and cook over low heat, stirring occasionally to prevent apples from sticking. Cook until apples are tender and slightly glazed. Remove from heat. Drain, and cool. (Save the Juice.) Mix with cinnamon and lemon juice. Chill. Place about 3 tbs. of chilled apple filling on half of each 5-inch square of Simplified Puff Pastry. Brush edges with water, and fold over making a triangle, pressing edges together with the times of a fork. Cut holes in top of the turnover to let steam escape during baking. (These holes will cut in fancy design.) Chill turnovers for 1/2 hour. Brush tops with an egg wash made of 1 egg and 2 tbs. cold water (or milk), then sprinkle with sugar. Place on greased baking sheet pan. Bake 10 minutes in a very hot oven, 400° F. then reduce heat to 400° F., moderately hot oven to finish baking, about 25 minutes. Amount 12 turnovers.
- Apple Turnovers 1 cup sugar 1 tsp. lemon juice 1 tsp. cinnamon 1 tsp. salt
- Simplified Puff Pastry 2 1/2 cups shortening 2 1/2 cups water (about 1 1/2 cup) 6 tbs. butter

Sift flour once before measuring. Sift flour and salt together. Cut shortening with 2 knives or a pastry blender—leaving some of the shortening in lumps the size of giant peas. Add ice water. (Sprinkle the water lightly—a little at a time—over the flour and shortening.) At first, blend it in lightly with a fork; then gather dough together lightly with the fingertips. As soon as you can make dough stay together, you have plenty of water in it.) Round up dough on cloth-covered board (using flour rubbed into cloth to keep dough from sticking). Roll out to about 1/4 inch thickness. Roll surface with 6 tbs. butter, and roll up like a jelly roll. Roll out again—in rectangular shape. Fold so meet in the center, and seal. (This makes a square package.) Chill thoroughly. Roll out in inch thick, and cut into 5-inch squares. Amount Twelve 5-inch squares.

### Question: Can you tell me any way to keep peaches from turning brown right after I've sliced them?

Answer: After peeling peaches, slice them directly into a fruit jar. Then cover with Mrs. Alvin Thompson's sugar to sweeten that one peach. Continue with each peach needed, then close the jar tightly. The fruit will keep its nice fresh color, you see, and will not be soggy or watery.

### Question: How can I keep lemons from drying out? I like to buy a dozen at a time in warm weather so as to have them on hand for cold drinks and iced tea.

Answer: To keep lemons fresh, place them in a covered jar of cold water in the refrigerator. Then change the water every two or three days.

If you have any specific cooking problems, send a letter requesting information to Betty Crocker in care of this newspaper. You will receive a prompt, personal reply. Please enclose 3-cent stamp to cover postage.

### TO THE VOTERS OF LYNN COUNTY:

As in the first primary, I have found it impossible to make a house to house canvass to solicit each of you for your vote and influence. I wish to take this method of soliciting your vote on August 27 in my race for County Treasurer, and hope you will take it as "my visit to you"—a visit I may have failed to make, but sincerely wanted to.

I am asking for your vote because I really need the work; I believe I am fully qualified to give you the best of service.

I want you to know that this is the first time I have ever sought public office. I want to be sincere with you, and therefore cannot make a lot of promises. I will try to see as many of you as possible until August 27, but if I should fail to see you, please give my candidacy your earnest consideration, and if elected, I will be grateful to you always. Sincerely, Mrs. JEWEL WELLS For County Treasurer

Mr. and Mrs. Raymond Edwards of Binger. Mr. and Mrs. Colvin Edwards of Tahoka. Mr. and Mrs. Pat Gary of Lovell. Mrs. Hollis Hunt of O'Donnell. Miss Mona Rae Edwards of O'Donnell. Mrs. Ethyl Lou Edwards of Lubbock.

Callers in the afternoon were Mr. and Mrs. Barton Edwards of Three Lakes and Mrs. Weldon Mastin and children of Draw.

### Various Uses Of White Cake Outlined By Lynn HD Agent

A cake all in white may be used more than one occasion, Miss Boyd, Lynn County Home Demonstration agent said. To the Midway Club ladies at Mrs. G. A. Edwards, Aug. 11 when she demonstrated cakes for special occasions. If the white cake is on a large plate, small leaves, flowers of buds, such as nasturtium or verbena, may be placed on the plate to help to hold the cake together. It may be added for birthday cakes, or ornaments to suit occasion. If an ornamental icing is used, be careful not to use enough color, or to make the cake look artificial.

Misses Jay and Erlene Stovall, Lourene Boyd and Loyline and Pete Edwards were visitors. Members present were Mesdames Edwards Draper, Sam H. Floyd, G. A. Edwards, Rufus Slover, and J. M. Draper.

### Why Do The Eyes of Some Portraits Follow the Observer?

If an artist represents the eyes of a portrait as gazing directly at the observer, the observer will look directly at an observer standing at any point in front of the picture where a view is possible. The same effect is obtained in photography when the subject looks straight into the camera. On the other hand, if the eyes of a picture are not painted or photographed to look directly at an observer, they will not do so even if he stands at the point toward which the eyes seem to be directed. This is because the picture is on a flat surface and has only two dimensions. Suppose, by way of illustration a portrait represents a person with his face turned somewhat to the observers right and his eyes fixed directly at the observer. If the observer moves to the left he does not get a different view of the picture that is, he does not obtain a profile view as he would in real life. He merely sees the same picture from a somewhat in perspective. The picture of the face, though elongated in proportion to the angle at which it is viewed possesses all the same lines that it did when seen in front, and the eyes still look

directly forward and consequently at the observer. In other words, if the eyes of a portrait on a flat surface are represented as looking directly forward, they will appear to follow the observer no matter what the angle may be at which the picture is viewed; and if the eyes are represented as looking in some other direction the observer cannot place himself in position so they will appear to look at him. The same thing occurs in two dimension motion pictures. An observer at the extreme left side of a theater sees the same scenes, though slightly distorted, that are seen by a person on the extreme right side.

### Number of Horses And Mules In Texas Decrease Past Years

College Station—Within the past 8 years the number of horses and mules on Texas farms has decreased by 378,000, while the decrease in the United States as a whole for the past 10 years is in excess of 10 million.

Jack Shelton, vice-director and state agent of the Texas A. & M. College Extension Service, says in these figures a partial answer to the puzzle of declining farm manure. A recent U. S. D. A. Bulletin, "Texas farmers are missing additional and profitable income in this connection at the same time are increasing chance, however indirect, to increase the volume of the corn crop per year has been said. "It is gratifying that production of horse and mules in Texas is on the upswing."

Mrs. J. L. Middleton and Mrs. Mary have returned from Brown where they spent the last days.

### TO THE VOTERS OF LYNN COUNTY:

The campaign is drawing to a close and there are many voters that I have not seen personally and probably will not get to see and to ask you for your support in the second primary.

I am not making a house to house canvass since the first primary due to the fact that expenses were beyond my means and I had such short time to make it in.

I want to take this method of asking you for your vote and influence on August 27, and if you see fit to elect me your next County Clerk I will ever be grateful to you.

## Various Phases of Cotton Root Rot Being Investigated

Austin, Texas.—Various phases of cotton root rot is the subject of an investigation now in progress at The University of Texas. It promises to result in important discoveries in regard to that pest which causes heavy losses every year to cotton growers, according to information obtained in regard to the research that is being made. This work is being carried on under the direction of Dr. G. W. Goldsmith of botany at the University.

He is being assisted by Dr. Letta M. Henderson of Bisbee, Ariz., and several student assistants, including R. B. Mitchell of the United States Department of Agriculture who is studying bacteria, fungi, and soil, and is working toward his doctor of philosophy degree. Other assistants include Miss Pauline Young of Austin who teaches science in the schools at Port Arthur and will assume teaching duties in the fall; Elizabeth Moore, Aline Nemir and John M. Carpenter of Austin; Ernest Peckack of Flatonia; Evelyn Koemel of West; Sam Evans of Dallas and Fred Spencer of Temple.

Mr. and Mrs. Fleetwood Lind, Seymour and Mr. and Mrs. Roy D. Kirk of Dallas visited with Mr. and Mrs. W. J. Smith of Dallas this week. The Lind family is spending the summer at their home in Dallas. Mr. and Mrs. Kirk are on their way to the coast for the summer.

Mr. and Mrs. W. J. Smith of Dallas visited with Mr. and Mrs. W. J. Smith of Dallas this week. The Smith family is spending the summer at their home in Dallas. Mr. and Mrs. Smith are on their way to the coast for the summer.

## EMPLOYEE SHOULD KEEP OWN RECORD OF SOCIAL SECURITY

The desirability of keeping an accurate and permanent record by workers of all wages received from covered employment has been suggested by members of the State.

It was pointed out by J. Gordon James that, while the keeping of a wage record is not mandatory on the part of workers, such a record is considered advisable. The wage record kept by the worker should include the name of each employer for whom he performs services as an employee; the dates of beginning and termination of such services; his own name and address as well as that of the employer for whom he worked, James said. It was further explained that such a record should also show the worker's occupation, total amount of wages received, including any sums deducted for taxes or other purposes, together with the date of each wage payment and the period of service covered by such payment.

Many employees, James said, keep a personal pocket ledger in which they record all wages received and all deductions for taxes and other purposes. The time required for keeping such a record, he said, is small compared to its possible value to the worker in the future in the event he should desire to check up on his own wage insurance records, which are posted to his account from returns made by his employer.

Mr. and Mrs. W. O. Stark of Geary, Oklahoma, returned to their home Monday after a visit here in the home of their son, R. O. Stark and Mrs. Stark.

Mr. and Mrs. D. C. Morrison, Miss Lucy Morrison and Wayne Christopher are on a vacation in Fort Worth, Dallas, Greenville and Corsicana.

Mr. and Mrs. Ralph Blanton have returned from a ten day vacation spent in Seymour and Monday.

Miss Billie McConnell of Loop is a guest this week in the home of Mr. and Mrs. S. F. Johnson.

Mr. and Mrs. Geo. H. Parks and two daughters of Dallas are visiting in the home of Mr. and Mrs. W. J. Smith, Mrs. Hafford Smith and the Koelinger home.

According to a Detroit doctor, noise is one of the greatest occupational hazards to health. It makes you wonder why Congressmen live to such ripe old ages.

About all you can gather from the Texas primary is that voters prefer even hillbilly music to the noise of political speeches.

A popular song of 1894 was entitled "And Her Golden Hair Was Hanging Down Her Back."

"Agitator" is a broad term, including as it does everyone who suggests changing the rules that let you win.

When sour risings indicate an upset stomach, babies naturally will be cross and sleepless. To restore their sunny disposition, give them McGee's Baby Elixir. It is made of mild ingredients that will soothe the stomach, aid digestion, and help to check simple diarrhea.

It makes good and a big step toward restful sleep and better food assimilation. Price 35c and 50c a bottle.

Re-elect Judge **RICHARD CRITZ** for a **FIRST FULL TERM** as **Associate Justice SUPREME COURT OF TEXAS**

**THE HIGH QUALITY** and great amount of Judge Critz's work on the Supreme Court while serving an unexpired term is attested by the fact that he is the choice of nearly all the Judges and Lawyers of Texas. Judge Critz came from the ranks of the people. As a boy he worked on a farm for wages, and all that he has been attained to in spite of poverty and hardship and as a result of his own effort. Judge Critz was a country lawyer in Taylor, Texas, and never represented any large corporations or vested interests.

Its free advertising, but a skating rink could prove interesting to a philosopher. This is written at night. We hear varied styles of music and the constant clicking of the rollers. Round and round the skaters go, just as in life many of us go round and round to get no place in particular. And the music—let it be typical of the modern age, and the constant clashing of desires, whim and fancies to which people have fallen heir! One moment a dreamy waltz is being played, and in the same mood one thinks of home and loved ones; almost desire to be good, kind and helpful. Suddenly a faster tempo is set, with a muzzy-mouthed blues singer mumbling pleas to aiane gods, reminiscent of darkest Africa. Away go our thoughts of home and loved ones, and to the fore crashes dark desires of lust, of devil-may-care thoughts and the craving for glittering bright lights, knowing all the time that the moth's wings seldom fail to get burned. It's life as it is lived today, and like the skaters who thrill to the wind in their faces they circle round and round, going no place, but on their way, so it is with far too many humans. They toil not, neither do they spin. "What's the use, buddy, the government's got to take care of me—the world owes me a living."

Philoprogenitiveness means an instinctive love of offspring, in case you haven't time to look it up in the dictionary, we did. We are happy to report that our five readers missed our not writing this column last week. The linotype operator breathed a sigh of relief, ditto the proof-reader, our better-half (Jiggs refers to HIS as his "warden," but he's in a com-strip) had time to see about other things, our sneering enemy sneered at other things and we just know our mother-in-law (who reads it and makes an honest effort to figure out why we write such things, constitute our large following (?)).

Writers of editorials for daily newspapers reiterate over and over that this country does not want a dictator—possibly meaning Stalin, a Mussolini or a Hitler. Those gentlemen are more than dictators. A dictator is one who dictates, and if the wishes of a president are carried out 100 percent, wouldn't he be a dictator? This country isn't like Russia by a long-shot, but our governmental policies are more similar to those of Russia today than they were just five years ago. Perhaps you see no harm in that, but how much farther are we going in regimentation.

You know, the old-time editors weren't so foolish when they accepted fruit, garden truck and watermelons in lieu of their subscriptions. Anybody near O'Donnell with a surplus of chickens, eggs, fruit—and watermelons?

We hesitate not to approach strange persons when we're sincerely in search of news, but we draw the line (sad experience tells us so) in just "learning who they are" for curious young

men—as that young man of more than average avoirdupois in the B & O grocery discovered Tuesday when he asked us to find out the names of four fair-to-middling looking of the female sex. We're a "pa," but no catspaw.

Don Edwards, manager Cleero, Smith lumber company, is a discreet soul when needed. Near Slaton he saw a sign in the middle of the road. Reading it he laughed and commented about it to one road workman.

"You'd better not say anything about it to those men ahead—they're mad enough now," he was told. Edwards grinned, but drove on in silence. With no break, in perfect order the sign read: "Slow Workmen Ahead."

Miss Madeline Morrison, who taught in Hobbs, New Mexico schools last year, arrived Monday afternoon in O'Donnell from Canyon for a short visit prior to assuming her duties as a teacher in the Newmore school.
