

The O'Donnell Index

O'DONNELL, LYNN COUNTY, TEXAS, FRIDAY, SEPT. 30, 1927

NUMBER ONE

Penn Test Looking Good At 3900 Feet

Considerable interest is being manifested during the past week over continued drilling of the Penn Company's wildcat test eight miles east of town on Section 16 last week the company had drilled the contracted depth of 3,900 feet but was not satisfied with results accomplished and decided to drill deeper, believing they were near the pay sand. Immediately after passing the 3,500 foot level a gray lime into which had been drilling for the past hundred feet. They are now drilling around 3,900 feet. The drillers believe when they have passed the present formation they will either hit the pay or sulphur. They are betting on making a producer.

The consensus of opinion is that the Penn Drilling Company strongly believe something lies underneath in quantities and will drill until they are entirely satisfied or strike liquid gold. The faith of the men who have holdings near the well have been greatly strengthened by the continued drilling and the formation which is the most promising since the test was first drilled in.

Snyder Fire Causes \$50,000 Loss

SNYDER, Texas, Sept. 25.—Snyder's new \$7,500 fire truck paid for itself Sunday. Fire of unknown origin partially destroyed the Joe Strayhorn Building, stock and equipment. Roy Strayhorn, the manager, said the loss was between \$40,000 and \$50,000, partly covered by insurance. He conducts an automobile agency.

The fire started in the roof of the machine shop and it was 6:30 o'clock Sunday morning before it was discovered. Fast work by the fire department saved part of the building and stock. All the cars and tractors were taken from the building by the firemen, working with gas masks, as the smoke and burning rubber made it impossible to fight the flames without them. Joe Strayhorn was at his farm, six miles from Snyder, when the fire occurred. This was Snyder's greatest fire loss.

They're Not All in the Ball Park

"Spirit of O'Donnell" Visits Abilene Monday

Miss Leta Rodgers, representing the "Spirit of O'Donnell" together with 73 other "Spirits" representing as many different West Texas cities, took part in the reception on Monday morning at Abilene when Col. Chas. A. Lindbergh landed at Kinsolving Field at 9:27, a few minutes ahead of scheduled time. Miss Rodgers was chaperoned by Mrs. E. L. Sorrels and Miss Aita Rodgers. The reception committee from O'Donnell was composed of Miss Leta Rodgers as the "Spirit of O'Donnell," Mayor E. M. Wilder and Editor J. W. Roberts. The ceremonies were simple and impressive a fitting welcome for the young hero known as the Columbus of the air, and began when the "Spirits" together with the other members of the reception committee gathered at the court house at 8 o'clock where 75 brand new cars were in waiting to take the members of the different committees to Kinsolving Field for the welcoming of "Lindy and his "Spirit of St. Louis."

Officers Find Man Seeing Things Sunday

(Brownfield Herald)

Awfully before dark Sunday afternoon, people of the Union community phoned in to the county officers stating that a demented man was laying in the bar pits near the Crouchman home. Sheriff Frosty Ellington and deputy Jim Lewis left at once to investigate, and found not a crazy man according to generally accepted meaning—but really crazy on some kind of alcoholic liquors.

They brought him to town and lodged him in the cooler and called a physician who pronounced him under the influence of wood alcohol, as his lips and mouth were badly burned. Physicians believed he would recover Monday morning, but were fearful that he would lose his sight.

Questioned Sunday evening concerning his name, the man asked them how "Jones suited them. He prefixed "Jones" with Charlie Brown, Monday morning, and that is about all that they have been able to get out of him, but it is believed here that he lives over in New Mexico, and seemed to be on his way to Lamesa when he got down. He spent the night before at a local hotel, but failed to register.

It is presumed that about all they can do is turn him loose as soon as he has recovered sufficiently to travel. He was almost a nervous wreck Monday morning. Why will they do it?

Boles-Goodloe

A wedding that came as a surprise to most O'Donnell folks occurred at Lamesa on last Saturday evening at 8 o'clock when Miss Aida Boles of Lamesa became the bride of Mr. J. J. Goodloe of this city, the ceremony being performed at the home of the bride.

The bride is one of Lamesa's most popular and charming young ladies who number her friends by her acquaintances.

The groom is one of O'Donnell's enterprising young men, having entered the implement and hardware business here something like a year ago. He has made many friends during his residence here who join in wishing he and his bride a long and happy wedded life.

Immediately after the ceremony Mr. and Mrs. Goodloe left for points East and South for a week's honeymoon. They will be at home after October first at the Carl Cox home in the east part of the city.

Turland & Wilder Open Coal Yard

Messrs. Turland and Wilder have opened a coal yard at Mayor H. Rodgers old stand. Mr. Wilder stated they would handle the best grade of coal at all times besides paying the highest market price for maize.

On account of the bad weather and grade teachers having to grade examination papers, the Parent-Teachers party will be held next Thursday night. In the future these socials will be held the first Thursday night in each month.

Index Begins Its Fifth Years Service

This issue marks the beginning of the Index's fifth year's service to O'Donnell and surrounding country. As to how well it has served the town and community during the past four years we leave for our readers to judge.

The first issue was printed four years ago by Editor P. A. Womble. It was hand set and printed on an old Vaughn hand press with a handful of pi. Since that time it has been steadily going forward keeping pace with the march of progress, until today it is one of the best equipped weekly papers on the South Plains, and housed in its own brick building.

Editor Womble remained at the helm for only a few weeks before the paper was taken over by Editor T. J. Kellis to whom the credit for the paper's rapid growth is due. Mr. Kellis remained the guiding spirit in the paper's growth until June 1, 1926, when it was purchased by the present management. During the past year many hundreds of dollars have been spent for new equipment in order that the Index will be better able to serve its readers. However, the present management is not proud of the growth the paper has made during the past year. In fact, adverse circumstances have caused the paper to be cut down less than its normal size during the dull summer months. The going has been tough with the Index the same as it has been with most every other business institution in this section of the country. However, today the future looks brighter than it has for the past two years, and the Index is looking forward to the time when it will again take its place as one of the leading weeklies in this section of the state. It is the intention of the present management to always give to the people of O'Donnell and community a paper of which they will be proud to call their home paper. It is your paper—and ours—and if the paper attains and holds its rightful position in the community, it will be by the cooperation and support of the good people of O'Donnell to whom the credit for its success belongs—not us. Let's all continue to work together and make O'Donnell the best town on the South Plains and the Index the best paper.

Phinney Resigns as Secretary to Moody

AUSTIN, Texas, Sept. 23.—After serving as assistant secretary to Gov. Dan Moody since February, Carl Phinney, of Brownwood Thursday announced his resignation, effective Oct. 1. He will re-enter the University of Texas law school and complete his work for an LL. B. degree.

Phinney's successor will be Mark Wignton, department examiner of the state Banking Department and former chief clerk of the Attorney General's Department when Moody was Attorney General. Wignton several years ago was State Comptroller.

Phinney resigned as chief clerk of the House, where he had served for eight years, to accept the secretaryship in the Governor's office. At the time of his election Phinney then 16, was the youngest chief clerk in any House of Representatives in the United States.

Brownfield To Have Gas In 14 Months

The city council in regular session on Friday the 16th, granted the West Texas Gas Co. a 20 year franchise to supply this city with natural gas from their fields on the north plains. We understand that they will go on south from here and connect with the gas fields in Ector and Winkler counties south of here.

They have until December 1st next year to complete their job in Brownfield and to the following month to turn on gas here for the consumer. Thus, the city is soon to add another of the modern conveniences, which is said to be the best, cleanest, and most economical fuel that has ever been tried.

The maximum charge will be 67-1-2c per 1000 cubic feet of gas used. But if you care to go over the entire matter, you will find it in full in the form of a city ordinance printed in this issue of the Herald.—Brownfield Herald.

The wisdom of Benjamin Franklin becomes more apparent every day. When he flew his kite, he had the idea that lightning should be controlled.

Dix "Man Power" Has Auto Tractor As Hero

Automobiles, aeroplanes, motorboats and even bicycles have furnished the background for motion picture drama, but until Richard Dix the lumbering caterpillar tractor had begun "Man Power" for Paramount never been "glorified" in films. Only an imaginative scenario writer who had been through the war could see possibilities in them. The result will be on view at the Lynn Theatre next Wednesday and Thursday.

"Man Power" is not a war picture, although there is a flash of the Dix had been an officer before reaching battlefront to indicate that Richard the lowly state of a box car wanderer hopefully looking for a "man" to save the world from a "terrible" disaster is the president of the Stoddard Manufacturing Company, starts him on a career as a mechanic.

What he does with a tractor after that is startling. To save the inhabitants of a valley from the menace of a broken dam, Dix pulls supplies through a rain storm over a slippery road, over ditches, up mountain sides, across a plateau and into a gulch. Ordinarily, cameramen are not excited, but Ed Cronjager and the others engaged on "Man Power" admit they would rather photograph jungle animals than a tractor on a rampage. A lion, for instance, can be shot when he gets out of control, but a tractor will shed bullets as well as rain, and anything that gets in its way is doomed.

Dix admits he was glad when it was finished.

It was directed by Clarence Badger.

FIRST BAPTIST CHURCH

And vacation is over and all have returned to their home again. Everyone seems to have regained all they lost during the windy spring months. Many changes have come about since last year. Many good things have been accomplished and perhaps some sad ones. But all in all, this life is worth while after all.

Our church is launching out with renewed interest and determination on our new Associational years work. We must have 200 or more in Sunday school, and should have, if all our forces were at their post 250. Say, father and mother, why not come to Sunday school and bring your children.

How easy it is to neglect church activities. So very easy to stay at home or go visiting on Sundays. May the Lord lead every father and mother who reads these lines to resolve now, that this day hence I shall be found at church on the Lord's day.

This church has wide open doors and a glad hand for all that come: You men come and be in our class for men. You women too, we need you each and all in the two women's classes.

On next Sunday afternoon, say 6:30, everybody is invited to be present, who will help out in the B. Y. P. U. and all kinds of Young peoples work.

The Workers Conference of the Brownfield Association will be with us next Tuesday, Oct. 3rd. programme is herewith.

O'Donnell, Oct. 4, 9:30—Devotional; Mrs. Mansell. 9:45—How to make a Sunday School Grow; B. N. Shepard. 10:10—How we hold interest in our W. M. S.; Mrs. Dunn of Brownfield. 10:30—Best way to hold attendance in Sunday School; Graves Darby. 10:50—What our W. M. S.'s can do in carrying on our church activities; Mrs. Shepard. 11:20—Sentence prayers; All. 11:30—Sermon; D. D. Johnson. Lunch. 1:45—Board Meeting. 2:30—Devotional. 2:45—Problems of the W. M. S.; Mrs. Saffles of Meadow. 3:10—Some problems of the pastor; M. I. Davis. 3:30—Song; Jesus Calls Us. 3:35—Our Ruby Anniversary; Mrs. May of Brownfield. 3:50—Our Objectives for 1928; Mrs. J. B. Walker of Brownfield.

Eddie Hope says: "It turns out, in an ordinary way, not just a religion."

ONNELL EAGLES WIN FROM LEVELLAND

O'Donnell High School Eagles from Levelland High School all team, September 23, score 7.

Although the Eagles were outed fifteen pounds to the man, they were faster and better organized. The Eagles scored early in the quarter, Roy Lee Debusk, halfback, making the touchdown. Summerton, quarterback, missed try extra point. The Eagles next came in the third quarter when Everett, fullback, made an run for a touchdown. Raymond Durin caught a pass for extra point.

Levelland's touchdown came late in the last quarter when a man at a short pass and ran 45 yards for a touchdown. They place-kicked for extra point. The work of Roy Lines, tackle, and Vieckes, halfback, was the outstanding feature of the game.

Go out and see the Eagles win Brownfield Friday, September 29.

Sky Juice Falls In Abundant Past Week

The O'Donnell country has been flooded with sky juice the past week. The moisture began falling Saturday and has continued at intervals until the country has had one of the greatest soakings it has had in months. Sky juice has fallen almost every day during the past week, which has brought cotton picking to a stand still. Very few bales of cotton have been ginned during the past week.

The moisture was not needed except on land which was being prepared for wheat sowing. Cotton farmers are in doubt as to just what effect the moisture will have on the late cotton. No doubt it will prolong the maturing of the late stuff, but if the weather man will delay the appearance of Jack Frost, the O'Donnell country will harvest a splendid crop.

TOURIST CAMP WILL BE COMPLETED SOON

Work is steadily going forward on Foster's Tourist Camp, which is located just back of Foster's Filling Station. The camp will be small, but strictly modern in every respect. Five cottages with garage in connection will be completely furnished and will be ready for the trade within a few days.

Workmen in charge stated Wednesday that all carpenter work would be completed by the last of the week. After the carpenter work has been completed furnishings will be installed.

Geo. Foster, owner, states he will leave nothing undone that will add to the comfort and pleasure of the traveling public.

School Apportionment Warrants are Mailed

AUSTIN, Texas, Sept. 23.—Warrants for the \$1 per capita apportionment of the State available school fund for the current year, authorized Sept. 10 were mailed Thursday to all counties and independent districts qualified to receive them, Superintendent of Public Instruction.

Forty-five independent districts receive them, according to S. M. N. have not filed the treasurer's annual statement for the scholastic year of 1925-26 and 800 independent districts have not filed a depository bond for the biennium 1927-29.

Twelve counties have not filed the treasurer's annual statement for scholastic year 1925-26, eight counties have not filed a depository bond for the biennium 1927-29 and fifteen have not had the census rolls for 1927-28 approved.

The Alvin Independent School District, Brazoria county, has not filed a depository report on three years, and as a result all of its funds for the last two years are withheld.

Mr. and Mrs. L. A. Busby and family returned to O'Donnell last Friday after spending several weeks at Corpus Christi and other points in South Texas where Mr. Busby has been buying cotton this season.

Jack West To Preach Tuesday

Jack West of Crosbyton, will preach at the South Side Baptist Church on Tuesday night of this week. The announcement according to announcement he would probably preach on Tuesday night also. The general invitation is cordially invited to attend.

Receipts Of \$2,800,000 Set New Mark

Proves Popular Favorite With Immense Body

ALVIER FIELD, CHICAGO, Sept. 23 (AP).—In a setting of clouds scarcely been more picturesque had it been painted by a brush, a crowd of 140,000 spectators jammed, in darkness of night, into Soldier Field Thursday night for the Jack West-Gene Tunney world weight championship fight.

More than a million human beings, the staggering sum of \$2,800,000, the richest gate in prize fighting, to see and form the backbone of this great spectacle. The crowd was a record, surpassing the previous high of 130,000 with gate receipts nearly \$2,000,000 at the battle of Philadelphia a year ago, when Gene Tunney, in a pouring rain, lost his title to Jack Dempsey.

The tremendous crowd, attracted to the biggest arena in America, to witness the most talked-of battle in all the history of prize fighting and for the greatest prize ever offered—\$1,000,000 to the champion and \$450,000 to the challenger. It was strictly a Dempsey crowd—four out of five pulling for the popular Manassas mauler to regain his lost honors.

**NEWS FROM THE
O'DONNELL SCHOOLS**

SENIOR NEWS

The Seniors were glad when the football team were victorious in the game with Levelland, Friday. A number of seniors were there and we helped greatly in the pep squad.

The order has been sent for our rings, and we are very eager to get them. They will be here in about 3 weeks.

The seniors are hoping to have some form of entertainment this week if the weather is clear and permits.

Let us be well represented at the game Friday, played between O'Donnell and Brownfield.

Fannie Bell Busby has returned to O'Donnell and is one of our number. We, as a class, are delighted that she is with us. We hope that she will find work and pleasure here equal to that at Corpus Christi.

JUNIORS

On Friday evening, September 23,

the Junior class was entertained with a hay ride and various interesting games. After feasting on ice cold watermelon each person returned home realizing that a joyful evening had been spent.

The class pins have been ordered. We have several new pupils in our class, and it is very interesting to note that the Junior class contains a number of football boys, including the captain of the team. Also, two of our class are the yell leaders of the pep squad.

FRESHMAN NEWS

Lucile Townsend and Jamie McCarley are new pupils in the class. Alice Busby has come back. Since the Freshman History and English classes were so large they have been divided and it seems that all the pupils are doing better work.

The Lindbergh reception committee from O'Donnell composed of Miss Leta Rodgers, representing the "Spirit of O'Donnell," Mayor E. M. Wilder, Editor J. W. Roberts, Mrs. E. L. Sorrels chaperone of the "Spirit," and Miss Leta Rodgers, left O'Donnell at 2 o'clock Sunday afternoon in order to be present when the distinguished young flier arrived at Abilene at 9:30 Monday morning. One difficulty after another caused delays enroute, the party finally reaching their destination after ten and one half hours hard driving through mud, water and many detours.

The first delay was caused when the "Spirit of O'Donnell," realized she had forgotten the costume she intended wearing at the presentation ceremonies after they had covered a distance of fifteen miles. Naturally there was nothing to do but telephone back to town and have the costume brought to the "Spirit."

After an hour's wait at the Street home in the Treadway community the party resumed their journey. They covered a distance of ten miles and found themselves water-bound just below the Cap Rock. After an hour's delay the journey was resumed to Snyder where they stopped off for supper. During the supper hour the banner carried on the back of the car was stolen by someone. A search for the thieves was made without results. Again headed for Abilene all went well for several miles. After passing Roby the journey was suddenly halted. A branch of the Clear Fork was out of banks covering the highway for several miles north out of the way. The party finally checked in at the New Hilton at 12:30 Monday morning.

The return trip was started at 10:00 P. M. and before they had covered a distance of fifteen miles it was raining in torrents making driving difficult. At 2 A. M. the party had reached Roscoe and after some debate decided to spend the remainder of the night. Arriving to resume their journey at 7 A. M. they found that sky juice was still falling. Undaunted they started for home traveling in mud, water and slush until one of the young ladies became seasick necessitating slow and careful driving. The party finally reached home at 2 P. M. Tuesday, glad they had had a glimpse of Lindbergh, but prouder still that the long drawn out journey had ended.

Mrs. T. B. Baily entertained Sept. 19 honoring her little daughter, Evelyn's 13th birthday.

Many lovely gifts were showered upon the honoree and a joyful time was had by the following guests: J. C. Christopher, J. Y. Everett, R. Bowles, Wilbur Shoemaker, Claude Tate, Frances Scott, Alice Joy Bowlin, Iva D. Everett, Kathleen Veazy and Mary V. Shook.

A delicious salad course was served after which the guests departed having wished Evelyn many happy returns of the day.

Each member of the H. D. Club is urged to bear in mind that Oct. 5 is Club Day. We will meet at the High School Auditorium and urge every member to come.

Dr. J. W. Head of Borger is spending the week in O'Donnell on business.

C. E. CAMERON

is the representative of the Texas Electric Service Company in O'Donnell.

For any information about your electric light service call Mr. C. E. Cameron at Texas Electric Service Company, Lamesa, Phone No. L. D. 11 or or at Lamesa Texas, Phone 237

Will buy good dry new maize. J. P. Bowlin, O'Donnell, Texas.

An Open Letter to the Editor

From the President of General Motors

LAST SPRING I wrote you that my belief in the country newspaper had led us in General Motors to decide to advertise our products together in the small-city press of the country.

The returns from the series of the messages recently published have justified that faith; and we shall continue to advertise in your community through your newspaper this fall.

It occurs to me, however, that some of your readers may be asking: "What is General Motors?" and "Why is General Motors?" These are fair questions and I should like to answer them as frankly as I can.

General Motors was organized some years ago on the theory that a group of large companies, working together, could render a better service than they could separately. In this we simply applied to industry a principle that is as old as civilization as regards the human family and human progress.

Original members of the General Motors family were Buick, Cadillac, Chevrolet, Oakland and Oldsmobile, together with the Delco-Light Company and other well-known companies manufacturing automotive equipment. By joining together their resources, we were able to establish great Research Laboratories, a 1245-acre Proving Ground and the GMAC Plan of credit purchase; to effect vast economies in purchase and manufacture and distribution; to assure and maintain the quality of every product in the General Motors family.

Has the General Motors family principle proved itself in practice?

The best answer, I think, is to compare the Chevrolet, Buick, Cadillac, Oldsmobile and Oakland of today with the models of five or ten years ago.

Then add Pontiac, a General Motors creation. Add LaSalle, another General Motors creation. And then consider how General Motors has developed these cars into a complete line, within which any family may find a suitable quality car at the price it plans to pay: "A Car for Every Purse and Purpose."

Another example is Frigidaire, the electric refrigerator. General Motors had the resources to spend millions to develop a satisfactory refrigerator, and then to apply to its manufacture the same processes which have increased the utility and lowered the cost of the automobile.

We believe that this record justifies General Motors as an economic institution. Its products are quality products, first of all. Their prices represent the economies of united effort passed on to the purchaser. In the last year one in each three automobiles chosen by the public has been a General Motors car. The service of Delco-Light electric plants has extended to more than a quarter million homes, while Frigidaire has become the world's largest selling convenience of its kind.

We believe also that the values now offered in the current General Motors products (which are listed below) prove anew that "many minds are better than one" and that a family of companies, working together, can produce results which are decidedly in the public interest and of increasing benefit to the individual family.

Very truly yours,

Alfred P. Sloan, Jr., President
General Motors Corporation

Districts in Texas Changed

Boundaries of hunting districts in Texas are made by an act to the regulations under the migratory-bird treaty act, according to an announcement of the department of agriculture. The department of agriculture. Regulations were made to harmonize federal regulations and the state regulations. This amendment has the effect of prescribing an open season for mourning doves from September 15, and on waterfowl (except wood ducks and swans), coot, and Wilson snipe or Jack snipe from November 1 to January 31.

Many from O'Donnell are attending court in Tahoka this week. In fact most of the population of the town was in attendance on Wednesday.

SEED WHEAT.

I have a limited supply of good seed wheat for sale. J. P. Bowlin.

Missourians are to erect a monument, through popular subscriptions to the memory of Jesse James. Here is a chance for Tex Rickard's World series magnates and landlords to contribute to "inspiration."

The Post Office Department has decided to curtail mailorder houses from shipping unsolicited merchandise, in their effort to foist undesirable goods on the public. We like the selection and the use of that word—"Cur-tail."

German scientists have improved three new anaesthetics. Which should be most interesting news to our local coal barons who are getting ready to boost prices.

where it strikes the Louisiana line. In that part of Texas lying south and east of the above designated boundary line, the seasons on mourning doves are from November 1 to December 31, and on waterfowl (except wood ducks and swans), coot, gallinules, and Wilson snipe or Jack snipe from November 1 to January 31.

The change in the regulations has been made to provide sportsmen in a portion of east Texas an opportunity for mourning dove shooting, a privilege that was denied them by reason of the conflict between Federal and State district boundaries resulting from recent state legislation.

For Rheumatism, Liver and Kidneys

If liver and kidneys fail, rheumatism starts. The cause must be from self poisoning. RHEUMALAX restores elimination, thereby relieving rheumatism very quickly. Rheumalax is sold under money back guarantee by Christopher Drug Co.

Stomach Gas Drives Man From Bed

"I had gas so bad I had to get up nights on account of the pressure on my heart. I used Adlerika and have been entirely relieved."—R. F. Krueger.

Even the FIRST spoonful of Adlerika relieves gas and often removes astonishing amount of old waste matter from the system. Makes you enjoy your meals and sleep better. No matter what you have tried for your stomach and bowels, Adlerika will surprise you. Corner Drug Store

Margarite and W. B. Hicks Jr. were the charming little hostess and host to about twenty members of the Junior Missionary Society Tuesday P. M. from 4 to 6 o'clock.

Numerous games were enjoyed and music and songs rendered by the society. After the delicious refreshments were served the children bade Margarite and W. B. adieu with hopes of spending another such delightful afternoon with them again.

A Wick that never burns down...

THE wire feeding electricity to your lamps is a wick that never burns down.

Night and day, year in, year out the current keeps flowing. Ready at a finger's command to light your reading lamp, operate your washer, work your vacuum cleaner, heat your iron, cook your meals.

Any number of jobs—electricity does them if you'll let it. Which means dependable appliances as well as adequate wiring in your home. We're here to advise you on how to get the most out of electrical energy as well as to supply it.

Cotton Farmer

I have installed some new machinery and made a number of changes which puts my gin in tip top shape to do even better ginning than last season. There is not a gin on the South Plains any more modern, and better equipped to handle any kind of cotton, with any better results than my gin.

NOW READY TO RUN AND WILL APPRECIATE A PART OF YOUR GINNING

A. D. Brown's Gin

What's Doing In West Texas By W. T. C. C.

Lampasas—Lampasas will be 1928 host to the Heart of Hills District of the West Texas Chamber of Commerce, it was decided at the San Saba convention held September 22. More than 250 farmers, businessmen and their families took part in the annual gathering. President R. W. Haynie's talk on "a fair and equitable distribution of water of the streams originating and flowing in the West and through the West" was one of the most widely approved speeches of the meeting. Development and exploitation of the untold mineral wealth of the region was another point stressed by the convention.

Alford—One hundred and sixty-three cars of watermelons had been shipped out of Alford by train up to September 15.

Henrietta—Contract has been let for a new high school building to the sum of \$43,000. The structure will be two stories high, with tile roof, and will have its heating plant in the basement. It is to be constructed in 120 working days.

Mason—Mason, the largest inland town in Texas, is to have another newspaper soon. Dan W. Huffer of Brady will be the owner and editor.

Benjamin—Population of this town was largely augmented within the past weeks by widespread attendance of the bank robbery trial of E. C. Bergman and James Watson. The offenders were given 50 and 45 year sentences respectively.

Jayton—Jayton schools have gotten underway with a record attendance. It is planned to put the institution on a firm basis of affiliation this year.

Carbon—Street lights are being installed in this town and numerous improvements in residential and business houses are underway.

Junction—The chamber of commerce and citizenship of Junction are hard at work on plans for incorporation of the city. Vote to incorporate was made recently 158 to 116.

Eldorado—Schleicher county farmers are making good profits from

poultry here. One stockfarmer kept books on 150 white leghorn hens for six months and found that they fed themselves, bought feed for raising 500 other chickens, and banked over \$25 a month besides. He exhibited his birds at the annual Schleicher county fair held for the fifth time recently.

Roswell, New Mexico—In celebration of the annual Cotton Carnival, the Southwestern Dispatch of Roswell, N. M., recently came out with a special edition of seven sections. These were devoted to written and pictorial matter on the towns of Carlsbad, Artesia and the mountain section, Rodeo, Dexter, Flower and Hagerman, to a history section, and a section on masonry and the premium list.

Fort Worth—The eighteen story 300 room Worth Hotel was opened to the traveling public here September 24. The building is beautifully finished and has excellent appointments. It will accommodate many of the thousands of visitors to the 1928 convention of the West Texas Chamber of Commerce which will be held here next June.

Snyder—Scurry county farmers are getting real service, from their organization, the Scurry County Chamber of Commerce. The body is working in cooperation with the U. S. Department of Agriculture in providing for local farming interests.

Abilene—The Hilton Hotel, heralded as the largest and finest hotel between Fort Worth and Los Angeles, was formally opened to the public the week of September 19. The structure has 260 rooms with baths and is ten stories high, beautifully finished both inside and out.

A flaming meteorite, 25 pounds in weight, is reputed to have caused a recent forest fire in the Walla Walla section of the Umatilla National Forest in Oregon. The meteorite, according to the Forest Service, broke off a 28 inch tree 20 feet from the ground and lodged in the stump.
