HOWARD HOUSE DAMAGED BY FIRE SATURDAY

The stucco residence of Mr. and Mrs. W. T. Howard was badly damaged by smoke and fire about noon Saturday when an oil stove exploded. Prompt assistance from nearby filling stations kept the flames in check until the fire department reached the scene.

Little damage was done beyond that occasioned by smoke and water.

BAPTIST MEETING TO BEGIN SUNDAY

Announcement was made Sunday that the revival at the Baptist church will begin Sunday, August 2, at the eleven o'clock hour, and will continue for two weeks, with services twice each day.

Rev. W. F. Cole, pastor of the First Baptist church at Lamesa, will be in charge of preaching services. Rev. Cole has just returned from a most successful meeting at Eldorado, Arkansas, and is expected to be a source of great spiritual inspiration and growth. He is known throughout his section of the South Plains as a forceful and eloquent speaker, and O'Donnell people consider themselves fortunate in having the privilege of hearing him.

Music will be under the direction of C. H. Mansell, regular choir leader of the church, with Miss Alma Hyde at the piano. Both are splendid musicians and the song services are expected to be an important part of the success of the meeting.

OFFICIALS UNCOVER HUGE GAS THEFTS HERE

Detectives employed by the Phillips Petroleum Company, acting with Sheriff B. L. Parker and county attorney G. H. Nelson are this week employed in investigation of a gigantic theft ring which, according to reports, has been the source of a number of depredations.

Charges have been filed against five men as a result of the investigation of a recent looting of the Phillips Company's warehouse here where more than two thousand gallons of gasoline and other commodities were taken. The property was located Thursday last week on the farm of one of the men, and it is his statement which formed the basis for charges against the others, among whom are two local men and another man from Tahoka.

Of the five men charged in the case, two were arraigned Wednesday before a justice of the peace in Lubbock on an arson charge.

All men have now posted bond, but as yet the date of the trial has not been set, however, it is supposed it will come up in the next regular term of the district court to be held in Tahoka in September.

RETURN TUESDAY FROM SUCCESSFUL FISHING TRIP

Mr. and Mrs. W. H. Harville and J. P. Bowlin returned the first of the week from a fishing trip on the Brady river, and backed up all their stories by producing the goods—in other words, this is one fishing trip which really deserves the name.

The party went down last week as Mr. and Mrs. Vernon Martin moved to their new home at Melvin, and celebrated the arrival at the new home by organizing a first-class fishing trip, with the aforesaid results.

But the funny part of it is that neither Mr. Bowlin or Mr. Harville will reveal the exact location of the fishing hole, and it is surmised that they expect to go Isak Walton again sometime.

STATE WORKER TO TEACH B. Y. P. U. CLASSES

Miss Grace Conn, assistant state Field Secretary of the Baptist Young People's Union, will conduct classes here during the Brownfield associational revival which will begin August 23, continuing one week.

Miss Conn is recognized throughout the state as one of the most gifted and efficient officials engaged in this work, and O'Donnell is peculiarly fortunate in securing her as teacher.

Classes will be conducted each evening at the local churches throughout the Brownfield association, and conferences will be held each afternoon at Tahoka. Commencement exercises will be held at Tahoka Sunday, August 30, at which time certificates will be awarded to those completing the course of study.

Local B. Y. P. U. workers are now planning with interest and enthusiasm which is being manifested here, and expect the revival to be a great success.

The use of more toothpicks is being urged as an aid to the lumber industry.

SPLENDID ATTENDANCE AT NAZARENE MEETING

The revival meeting which has been under way the past several days at the Nazarene church has attracted no little attention and interest, with services of spiritual power and benefit being held each day.

The messages of the evangelist have been impressive and thought-provoking as well as inspirational. Members of the church have thrown themselves heart and soul into the work, and interest has been running high.

The revival will probably close Sunday night, and the public is cordially invited to attend the remaining services.

Organization of a local chapter of the Isak Walton League of America was organized. Officers were E. C. Hart, president; A. C. Fairley, vice-president; C. A. Baldwin, secretary; B. J. Boyd, treasurer.

A campaign was under way to send delegates to Boy Scout camp at Ruidoso.

CHURCH OF CHRIST INSTALLS NEW SEATS

Benches were moved from the local Church of Christ last Thursday, making room for the installation of opera chairs in the auditorium. The chairs are part of those which were formerly used in the Lynn Theatre, and after undergoing a thorough cleaning to remove marks of the fire, they are most comfortable as well as presenting a more pleasing appearance.

Ladies of the church met on the lawn and put in several hours cleaning and repairing and enjoying a pleasant social hour in connection with the work. Refreshments of ice cream and cake were served.

ANNOUNCE LEGION SOCIAL TO BE POSTPONED

Guy Bradley, commander of the Legion, announces that the community social which was scheduled for Thursday evening will be indefinitely postponed.

When the affair was planned, dates of the meetings were forgotten. As soon as they were called to the attention of the legionnaires, the change in plans was made.

The Legion desires at all times to co-operate with every move for the good of the town and community, and the commander and members of the local post hereby express their sincere regrets that the conflict in dates was announced.

STATE MASONIC OFFICIAL TO HOLD EXAMINATION

W. S. Tate, chairman of the State Committee on Work of the Masonic lodge, will be here Wednesday, August 19, to hold examinations.

All members of the local lodge are requested to keep this in mind and to govern themselves accordingly.

CONTRACT LET FOR MESQUITE BUILDING

Contract for construction of a tile and brick school building at Mesquite was let Wednesday afternoon to Mr. Waller of Lamesa, who, according to reports reaching this office, represented Harvey Allen, architect who drew up blue prints and specifications for the job.

Fifteen bids were turned in, several from Lubbock, Big Spring, and even more distant points. A number of local men were included in the fifteen bidders.

The winning bid was approximately \$6,000.00, according to E. T. Wells, manager of Higginbotham-Bartlett Lumber Company here.

The building will consist of four class rooms, with accordion doors between two of them so that they may be converted into an auditorium. Construction is expected to begin immediately.

SINGING CONVENTION TO MEET AT WELLS

We are requested to announce that the Singing Convention will meet Sunday afternoon at Wells school building, at 2:30 o'clock.

All singers and those who enjoy good music are cordially invited to be present at this time.

VERNON MARTIN'S MOVE TO NEW HOME AT MELVIN

Mr. and Mrs. Vernon Martin, who have been members of the faculty of the public schools here for the past two years, moved last Thursday to Melvin, where Mr. Martin will be the head of the Vocational Agriculture department for the coming year.

Mr. Martin as agriculture teacher and Mrs. Martin as a grade teacher were markedly successful in their work here, and the community as a whole regrets their move.

Mr. Martin has been of immeasurable benefit to farmers in this territory in advising and assisting in farming and stock-raising problems.

The Index, along with their many other friends, wishes for the Martins a successful and prosperous year at Melvin.

CHANGE IN PHILLIPS AGENTS EFFECTIVE THIS WEEK

Buddo, Yandell, well-known citizen of Dallas, is the new Phillips Petroleum agent here following the checking out of W. H. Veazey this week.

Mr. Yandell has many friends in this section of the country, and will no doubt be quite successful in the work, with which he is quite familiar, having been connected with oil and gasoline business for the past several years.

LOCAL MEN SUBSTITUTE FOR ABSENTEE OFFICIALS

As pinch hitters, Cliff Lambert and Roy Gibson modestly own up to being reported to have discussed the advisability of advertising that they will be glad to substitute on most any and all occasions.

Mr. Lambert is the only official member of the gas house gang during the absence of Roy Wilkes, local manager, who is enjoying his vacation here in the knowledge that all affairs of the West Texas Gas Company will be efficiently and sufficiently looked after by the versatile Lambert. Mr. Lambert, by the way, is rather disgruntled over the importance with which Mr. Wilkes has carried himself; all that's necessary, he says, is just the ability to keep still, look wise, and let the gas run, trickle, gallop, or whatever it's supposed to do, right on through the mains. In case that won't work, says Cliff, phone down to Lamesa for Barney.

Mr. Gibson refuses to let himself be called fire chief, but says he is only substitute until C. B. Hubbard returns from the wilds and swamps of South Texas where thirteen inch rains are quite the usual thing.

He was elected assistant chief at the last election, and was therefore automatically made chief when Mr. Hubbard moved to Bishop, but like another famous man, he "didn't choose to run". Assistant chief and nothing else, says Hoot, but as an assistant he's been the berries.

Just remember—when the gas bill is too high or the biscuits burn, call Cliff. If the aforesaid biscuits burn too burned, or the lawn mower bursts into flames from too speedy manipulation, call Hoot.

RED & WHITE DEALERS ATTEND PICNIC TUESDAY

Representatives from every Red & White store in the Lubbock district were in attendance at a picnic and get-together held Tuesday evening at Two Draw Lake at Post.

Local persons attending were Mr. and Mrs. B. L. Davis, Mr. and Mrs. C. L. Davis, Mr. and Mrs. Naymon Everett, and Dick Tune from the B. O. Store, and Mrs. and Mrs. Harvey Line and Mrs. Guy McGill of the Johnson and Line.

All amusement facilities of the lake were at the disposal of the crowd, and full advantage was taken of swimming, boating, and fishing privileges. Messrs. Harvey Line and Naymon Everett brought distinction to the local party with their diving skill, and Dick celebrated by losing more money than we knew was in circulation.

Speeches from leading dealers and officials of the organization were a feature of the event, and were enjoyed almost as much as the "marvelous cats".

MUCH INTEREST IN CHURCH OF CHRIST REVIVAL

The Church of Christ revival which has been in progress here since last Friday night continues with good interest. Several have been added to the local church membership, and other additions are expected.

Last Sunday morning the Bible School attendance broke all previous records, 154 being reported by the various classes. Of this number sixty were in the young people's classes. An effort is being made to reach the 175 mark next Sunday morning.

Evangelist James H. Childress has charge of the preaching. Mr. Childress, when not engaged in evangelistic work, preaches for the Central Church of Christ in Houston. When at home he teaches a weekly Bible class over one of the Houston radio stations. Mr. Childress holds the A. B. degree from Abilene Christian College, and last year received the Master of Arts degree from Southern Methodist University at Dallas.

The revival will very likely close Sunday night. The public is cordially invited to enjoy the concluding services of the meeting.

T. E. L. CLASS MEETING AT MRS. VERMILLION'S

The T. E. L. Class meeting which was scheduled for last Friday afternoon was postponed because of the funeral of Mr. Bain Parker, but will be held this Friday, August 31, at the home of Mrs. W. E. Vernilion.

Members are requested to bring pencil and paper, and to be prepared to take examination on the recently completed study course, "The Seven Laws of Teaching".

THE RAILROAD RATE INCREASE

Following is a protest filed by Congressman Marvin Jones, of Amarillo, with the Interstate Chamber of Commerce Commission:

"I desire to file a protest against the general 15 per cent increase in freight rates as applied to the railway companies of America.

"This protest is not filed in any spirit of hostility to the railroads. Naturally, we would like to see them prosper. Transportation is essential. However, a period of depression, such as that through which we have been passing, when practically all businesses are taking a loss, is not, in my judgment, the time to ask for an increase in railway rates. The times are abnormal.

"The prices of practically all commodities have been materially reduced during the last two years. Agriculture is prostrate. The major products of the farm are selling far below the cost of production. Present freight rates are in many instances already prohibitive. To use present conditions as a basis for an application for an additional load on these already over-loaded commodities is, in my judgment, out of the question.

"Besides, I doubt very seriously whether an increase in rates would increase revenue. It might do so temporarily, but it would not increase them in the long run. I believe, therefore, it is a short-sighted policy even from the view point of the roads themselves to ask for this increase in freight rates at this time.

"An illustration: the freight rates on wheat from the Panhandle of Texas to the Gulf ports is at present an average of more than 33 cents per hundred or 20 cents per bushel. Wheat is selling at 25 cents per bushel. The cost of transportation of this commodity is already taking so large a percentage of the total value that not more than half of the commodity is moving, and a large percentage of that which has been moving has been distress wheat that must be sold.

"I realize the sharp and in some instances unfair competition to which the roads are subjected. Undoubtedly these inequalities should be corrected and competition placed on an even basis. But this will not be corrected, on the other hand it will be aggravated by the increase in freight rates which are already too high. The trucking, the feeding, the use of water ways and even the use of the commodity for fuel will be increased by such a policy.

"If the freight rates on wheat as given in the illustration, which now range from 30 to 37 cents per hundred from Panhandle points to Gulf ports, and which under the new rates to be made effective August 1st will range from 29 1/4 to 34 cents per hundred, had been reduced to range from 20 to 25 cents per hundred, I believe the increase in tonnage would have made up the difference and would not only have created a better feeling, but would have left conditions in far better shape for future operations.

"If the 15 per cent general increase should be allowed it would not only wipe out the tonnage per bushel above referred to, but would make these rates even higher than at the present time. What is true in this section would probably be true in most sections of the country.

"There come times when all businesses must shoulder a loss during an emergency period. For any concern, whether in transportation or otherwise, during such a period to undertake to recoup such a loss by saddling a heavier burden on the struggling agriculture and business interests of the country, is an improper course of procedure, and one that will complicate the difficulties and eventually work against the interests of both the roads and the public.

"I earnestly urge that the application for these increases be denied.

"I am furnishing copies of this letter to the presidents of the three railroads which operate in this section, to wit, the Santa Fe, the Rock Island and the Burlington System.

All members of the club are urged to be present.

MRS. KOENIGER HOSTESS TO THURSDAY CLUB

Mrs. A. H. Koeniger was the charming hostess last Thursday afternoon to members of the Thursday club and a number of guests when she entertained with a forty-two party at the home of her mother, Mrs. W. J. Smith.

Roses, daisies, and other cut flowers were decorative touches in halls and reception rooms where tables were placed for games.

Refreshments of pineapple cream and cake were served to Mmes. J. P. Bowlin, Guy Bradley, John Eames, Roy Gibson, Harvey Line, Waldo McLaughlin, W. H. Ritzenhaler, L. E. Robinson, E. L. Sorrels, Hal Singleton, Jr., M. J. Whistley, A. W. Gibbon, Irvin Street, W. S. Cathey, and E. T. Wells.

MISS SMITH HOSTESS AT BRIDGE PARTY

Miss Laynette Smith entertained a number of friends last Thursday evening with a delightful bridge party at the home of her parents, Mr. and Mrs. W. J. Smith.

Cut flowers in pastel shades were tastefully arranged, bringing out a color scheme which was further emphasized by the dainty score pads. These were hand-painted for the hostess by Mrs. C. L. Davis, and created much admiring comment.

Six tables were placed for games during the evening, and guests were soon deeply interested in the contests. At the close of the evening, dainty refreshments of chicken sandwiches, stuffed olives, and lemon ice were served to Messrs. and Mmes. Naymon Everett, Marshall Whitsett, W. S. Cathey, C. H. Westmoreland, E. T. Wells; Misses Alma Hyde, Thelma Palmer, Hazel Burk, Chrysta Kennedy of Putnam; Mrs. J. W. Campbell; Messrs. O. Harris, B. J. Boyd, C. A. Rayburn, J. of appreciation on the part of those for whom he tries to coast. But let him tell it in his own concise fashion:

"Two weeks ago we penned the best editorial we knew how to write, doing our best to encourage the people of all this section to patronize home merchants—and bless your heart, honey, not a single business man in Commerce has even said 'thank you.' That goes to show what it goes to show."

Which leads the Tifton Gazette to remark that if Editor Shannon had urged folks to "buy it away from home" he would never have lived long enough to hear the last of the holler that would have been raised.

"THIS AND THAT" By JIMMIE

We've had legislatures in Texas before that have made some lengthy investigations, but we've never had one that couldn't shake it off when the public showed enough of the old disgust. But, apparently, this extraordinary effort has gone beyond the control of the steering committee, hearing committee and jeering committee. The public is unwilling to believe that anything good will come out of the session—other than the \$150,000 the state must pay for its folly. Yet the servants of the people can't stop the "cross questions and crooked answers"—for one good reason or another.

Although vigorous protests have been made to stop what many writers term the "two-ring legislative circus", no one seems to be able to take the "bull" by the horns and throw it any further than the outer reaches of the legislative halls. It would appear that the lawmakers can't control oil production because they can't control their own members long enough to formulate a plan of procedure. And that was to be expected.

Many a representative left home thinking he could save the oil industry only to find that the best he can hope to do now is to save the double-six for an off in a game of Forty-two. Reports have it that the solons dream by day and domino by night. All of which would indicate that the servants of the people see more advantage in holding seven "rocks" of one suit than they do in trying to hold seven oil wells to one well.

The "board of inquiry" has questioned nearly everybody who ever had anything to do with oil, except the little lad in Tyler who had taken two table-spoonsful of castor oil for being unruly—and if he don't prorate or do something soon, they will probably look into his case. Things are so bungled now that nobody knows whether the question is for a cure, or for curiosity.

One senator wanted to let the oil industry save itself and have the legislature pass a law that would save human life. The idea didn't go over—probably because a majority of solons don't feel like taking a junket to Hades to find out if it would be worthwhile.

LAST MAN'S CLUB

An imitation, with variations, of the famous Last Man's Club of Civil War veterans organized at Stillwater, Minn., more than half a century ago, is seen in the formation of a club of World War veterans in Edgar county, Illinois.

The Stillwater outfit put aside a bottle of wine to be drunk by the last survivor of the club. It is currently reported that when the "last man" opened his bottle it was found that the wine had turned to vinegar. Probably in reference to the Prohibition law.

Somewhat different is the scheme of the Illinois veterans. Their Last Man's Club starts off with 100 members, each of whom is to contribute one dollar a year to the club's treasury. When the roll has been reduced to ten, the fund thus created is to be divided among these survivors.

From insurance company statistics it is estimated that this division of the "jack-pot" will occur about the year 1981. The ten survivors at that time when the roll has been reduced to 10 and 90 years old.

Advancement in medicine and surgery in the meantime may possibly be the means of extending the lives

GIBSON AND MAY O'DONNELL AND LUBBOCK TRUCK LINE General Hauling Phone 21 or Phone 48 O'Donnell, Texas

of these veterans, so that the fund being created may not be distributed as soon as is now estimated. It is likely that some of them will still be alive when the year 2000 rolls around.

THE PEDDLER NUISANCE

House to house peddlers and solicitors of orders for this and that are becoming an ever greater nuisance to the American home, as any housewife might truthfully testify. Still, the housewife whose home is constantly invaded by these itinerant super-salesmen has the remedy in her own hands.

A timely suggestion along this line is made by Prof. Conrad of the New Jersey Teachers College, who points out that the peddler who boasts that his firm has no store is trying to make a store out of your home. You are expected to furnish a place where he may do business free from the expense which other merchants must pay.

Besides, he insists on making you shop at his convenience, no matter how much it may interfere with your daily routine. He takes up your time arguing you into buying something that in most cases you neither want nor need. Sometimes you buy to get rid of him, when you

"This is a home, not a place of business, and I am not going to allow you to use it as a store. Good day."

That might seem rather inconsiderate. But it is one way of discouraging the peddler, who has no regard for the convenience of your home as a market place, in unfair competition with home merchants who pay rent, taxes, license fees, and in other ways contributes to the welfare of the community.

NEW SCIENCE TRIUMPH

Thousands of years ago mankind learned to use fire in cooking his food, but not until recently did he learn another of nature's open secrets—how to render foods imperishable by employing the same refrigeration principle that nature uses in polar regions.

Although Arctic explorers have often testified to the efficiency of 50 and 60-below-zero cold in keeping their musk-ox meat and fish deliciously edible for months in a frozen state, it remained for an American scientist, Clarence Birdseye, to find the way to duplicate polar refrigeration in warmer climates.

Years of hard work in experimentation have resulted in Birdseye's perfecting a quick-freezing process by which meats, sea foods, poultry, vegetables and fruits are frozen at 50 below zero in a manner that does not permit them to lose any of their fresh flavor or appearance, even though they are kept hard-frozen for months.

It is fitting in this age of mechanical wonders, that science has made a contribution to the food field comparable in significance with the motor car, the radio, the airplane, the motion picture and the other new and important additions to life's enjoyment.

Usually the fellow who drives fast isn't going anywhere in particular.

AN ELOPEMENT AT 14

Most parents would be shocked if a daughter eloped and got married at the age of 14, and in most cases their apprehensions would be justified. But one never can tell, as a recent news story illustrates.

A Tennessee girl named Mary Adeline fell in love with A. V. Dedrick, but her parents forbade her to marry because she was only 14. She ran away from home and married her lover, who was 21, and later received her parents' forgiveness and blessing. That was a long time ago.

But Mr. and Mrs. Deadrick are still living and have celebrated their 72nd wedding anniversary, surrounded by six children and more than fifty grandchildren and great-grandchildren. Both are still active, he at 93 and she at 87, and conduct a summer resort near Knoxville.

Briefly stated, their recipe for a happy married life is: Be considerate of each other; face troubles with a smile; work to the same end in life; each do his or her part to the very best possible; practice self-denial.

An excellent formula, no doubt, but regardless of its success in the case mentioned, we would advise young people not to be too impatient to put it into practice.

URGES FARMERS TO RAISE MORE PORK

COLLEGE STATION, July 27—Just four pigs dressing 170 pounds each, will give a farm family 680 pounds of bacon, ham, pork loin, spare ribs, sausage and lard worth approximately \$190, an amount of food that it would require 4 1/2 bales of 8-cent cotton to buy, A. L. Ward, Dallas, educational director, National Cottonseed Products' Association, told the livestock group at the Farmers Short Course, Texas A & M College, in speaking on "Opportunities of Hog Production."

Every farmer should produce meat enough for his home use at least. Mr. Ward said, adding that on most farms enough kitchen waste together with feed-lot waste to raise a litter of pigs will be found. If a farmer produces feedstuffs, he will, of necessity, have to market them in some form of livestock. Due to their high efficiency in converting feedstuffs into meat and to the quick turnover that they offer—it being possible to reach the finished market in six to eight months—hogs offer one of the best means of marketing such feeds, the speaker said.

Development of the dairy industry

will, in many cases, be the factor in the matter of the hogs on any particular Ward continued, pointing out that those districts removed from those populations where sold, pigs are in demand as of using the skimmed milk dairy by-products.

PHILIP'S MISSIONARY LABORS

LESSON TEXT—Acts 13:4-14
 GOLDEN TEXT—Therefore they were scattered abroad went everywhere preaching the word.
PRIMARY TOPIC—Philip Tells a Stranger About Jesus.
INTERMEDIATE AND SENIOR TOPIC—Promoting for Jesus.
YOUNG PEOPLE AND ADULT TOPIC—The Gospel Breaks Over the Frontier.

1. Philip Preaching in Samaria (v. 1-8).
 In taking the gospel to the Samaritans we see the broadening of the scope of Christianity. Philip was one of the seven so-called deacons. He went to Samaria and preached Christ showing that God's purpose included these despised people. Christ is the Christ of the evangelist. Not the Christ as an ethical teacher or as an example, but Christ as the Savior from sin through the offering of himself on the cross as a substitutionary sacrifice. II. Philip Preaching to the Ethiopian (Acts 8:26-39).

Following the preaching to the Samaritans, the gospel was preached to the Ethiopian who in this instance was the gospel in its outreach to the ends of the earth.
 1. Philip meeting the Ethiopian (v. 26-39).
 Leaving work by divine direction (v. 26). The Lord called Philip away from a great work in Samaria and specifically directed him to this man. The Spirit of God directed him to go and act for himself to the chariot. The fearful question "put to the treasurer gained him a seat by his side. The mission which at first seemed so surprising was now clear.
 2. An offering of state seeking the way of salvation (v. 27, 28). The Ethiopian had been to Jerusalem to worship. Despite his high official position he was not ashamed of the worship of God. The journey from that far-off country required hardship and expense, but to one whose soul yearns after God this is all joy.

3. A providential meeting in the desert (v. 29). The coming together of these two men was clearly the predetermined way of God.
 2. Philip preaching to the Ethiopian (v. 30-35).
 The Ethiopian's employment on the way (v. 30). He was reading the Word of God. The particular portion was the fifty-third chapter of Isaiah. A most excellent way to spend one's time and to glorify in the Word of God. It is through God's Word that the individual is shown the way of life.
 4. The need of an interpreter (v. 31). The Ethiopian was reading one of the clearest of the Old Testament in the Old Testament, yet he was unable to understand it. The Ethiopian, a great statesman, needed an interpreter of the Scriptures. The people need to be experienced before they can be witnesses to his saving power. The human mind in its natural state is blind to spiritual things, making the work of an evangelist indispensable. Preaching the Word of God will always be necessary. God has designed that through the foolishness of preaching, men should be saved. Valuable indeed, as the Bible is in the hands of men, the touch and influence of the believing man who has experienced the work of God in his own heart is needed.

5. Philip's message (v. 32-35). He began at the scripture which the Ethiopian was reading and preached Christ to him Jesus. This shows us that the person presented in the fifty-third chapter of Isaiah is suffering in the stead of others was Jesus Christ, also that the central theme of the preacher's message should be Christ crucified. He did not preach Jesus as a great teacher, but as a Savior who had suffered and died in the stead of sinners. The vicarious atonement is a note which is at the very heart of the message of every evangelist.
 6. Philip baptized the Ethiopian (v. 36-38). As a result of Philip's preaching, the eunuch proposed baptism. When Christ is truly received the man will desire to confess him in baptism. Where this desire is lacking the gospel in its fullness is evidently not preached. The Ethiopian might have offered many excuses as to why he should neglect this important ordinance, but like every man who is honest before God, he was willing at any cost to render obedience.

7. The Ethiopian rejoicing (v. 39). Having been baptized, he went on his way rejoicing. Confession of Christ and obedience to his Word always brings joy.
Worry
 Oh, if religion could only rid us of this cursed habit of worry, what a blessing it will be! And Paul says it can. He is writing in the shadow of a prison. "Be anxious for nothing." What a song to sing itself through prison bars!—James I. Vance.

The Cross
 The cross is the real measure of life. You either stumble over it to spiritual death or you rise on it to newness of life.—P. T. Forsyth.

"THIS AND THAT"
 BY JIMMIE
 Now that the legislature is in extraordinary session the people can expect something extraordinary to happen. As everybody knows, the session was called to save the oil industry from something or somebody. But many other bills will be introduced to correct or control things that don't fit into the modern scheme of "life liberty and the pursuit of happiness."
 We have an idea that something should be done about old age at this extraordinary effort of our lawmakers to control and regulate. Old age has been going on for a long time now, and, as Mark Twain would say, nobody's doing anything about it. We are against it. Nothing is accomplished by old age; it leaves man with nothing but a head full of memories and advice to give the young. It should be stopped.
 There might be obstacles to overcome, but it would be a nobler experiment than one president Hoover termed a "a noble experiment." We've put the damper on everything else by simply making it unlawful, if we can do that surely we can stop old age.
 Our only fear lies in the fact that an investigation would be necessary before the law could be passed making it a crime to get old, and it would have to extend too far back, making it expensive too great. Investigation is the first rule of political procedure and the lawmakers wouldn't even think of passing a law without first making a thorough investigation. They have always done it before.
 But there wouldn't be an all powerful lobby to fight. About the only lobby that we know of would probably assume the attitude of "Go on, big boy, we'll get you in the long run," and let it go at that.
 Old age now might be all right if it was regulated. No set rule is followed in getting old. Some people get old at 130; some are just beginning to age at 130. There are too many ways a man can get old. He can work too hard or he cannot work hard enough. "Staying up with a friend" makes some people old, but makes others rich and young.
 It's a complicated situation, but if our legislators can untangle such things as over production and under-consumption, and that sort of stuff, they can do something about the age old problem of old age.
 Business may have turned the corner, but it must have struck a rough detour on the way.
 After he has vigorously pressed his suit, a young fellow's suit often needs pressing.
 There are a lot of bright people in the world, not to mention those who are merely lit up.
 Trade at home and help yourself.

FARMERS MAY CHARGE FOR HUNTING PRIVILEGES

Through the provisions of a law enacted in 1925, permitting land owners to make a charge for hunting privileges on their premises, farmers and ranchers of Texas are in a position to make game auxiliary crop of considerable importance, William J. Tucker, executive secretary of the State Game, Fish, and Oyster Commission, pointed out in a talk on "Game as an Auxiliary Farm and Ranch Crop" at the Farmers Short Course, Texas A & M College, Wednesday.

While charge for hunting privileges had been made prior to the passage of the law of 1925, it was not until legal status was given the procedure that land owner awakened to a true value of their crop, the speaker went on to say. Whereas game, he continued, is property of the people in their sovereign capacity, a qualified right in such game is held by the land owner whose premises it occupies, and therefore the lawmakers reasoned that the owner has the right of profit in the game resources of his land as long as he takes this profit from the privilege of hunting. There is, of course, Mr. Tucker pointed out, a vast difference in the sale of hunting privileges and the sale of the game itself.

Sale of hunting privileges has been most extensive in central West Texas, known as the Hill Country, where an abundance of deer and turkey attract the hunter and prove a source of considerable revenue to the rancher. Game is regarded no longer as an accidental crop but as an auxiliary crop of considerable importance to increase the potential harvest, the speaker said.

Daddy's Evening Fairy Tale
BY MARY GRAHAM BONNER

COULDN'T FOOL SANTA

"Did I ever tell you," began Daddy, "just how wise Santa Claus is, and how one little boy almost fooled him—but didn't!"

"Please tell us," exclaimed Nick and Nancy together.

"And I was the little boy," smiled Daddy, and the children laughed delightedly, as he continued:

"I had written a long letter to Santa Claus asking for skates, knee pads, a hockey stick and a pair of strong gloves. It was the day before Christmas and bedtime was such a long time coming.

"In fact I have never known the day to pass so slowly."

"We can understand that," chuckled Nick. "I should say so!" exclaimed Nancy.

"I was ready to go to bed just as soon as I had my supper and my stockings had been hung up. Soon I fell asleep and had the most wonderful dreams.

"I thought I saw the reindeer, with Santa Claus driving them right over cities and towns, right over chimneys and roofs.

"Suddenly I woke up. It was still quite dark. 'Oh, dear,' I thought. 'It's not even time to get up. And I thought I wouldn't awake until morning.'

"Then I wondered if Santa had been here. I got out of bed, put on my wrapper and slippers and took a look at my stockings. They were empty and then I thought that I couldn't have been asleep very long.

"As I was climbing back into a bed I heard a sound that came from the direction of the chimney.

"Then I heard sounds of feet stamping on the roof.

"The reindeer! I thought, so I hurried across the room to the fireplace and stood there, very still and not making a sound.

"I was afraid that my breathing could be heard. At last I heard a voice come down the chimney and it was saying 'I can't go on yet, my pretty reindeer.'

"There is a small boy down there who wants to have a look at us and you know we mustn't be seen by anybody."

"We like to do our work and then go flying off again, don't we reindeer?"

"It must have been Santa who had been looking down the chimney and had seen me."

"Then I thought that he would be late on his rounds and that some boy or girl might miss their presents just because of me, so I detaching Santa Claus. 'I hurried back to bed.'

"Then what noises and sounds I heard but before I knew it I was fast asleep again.

"When I awoke it was broad daylight. I jumped out of bed and dashed to the fireplace.

"My stockings were filled! Everything I had asked for was there and I was so happy.

"My Daddy said to me 'I heard many strange noises last night. They lasted for a long time.'

"Sounded like a team of horses on the roof and then I heard a voice."

"I didn't like to tell him that they were reindeer and that it was Santa's voice," he had heard and that what he had heard was the reindeer becoming impatient because I was keeping them from doing their work.

"But I never did it again. It was a wonderful night—the most wonderful Christmas eve I had ever had, but I must have been the cause of some other boy or girl being overlooked.

"You would never do that, would you?" he asked the children.

"Never," exclaimed Nick and Nancy.

But Not He
We had to face the north wind, coming home from a visit to a neighbor on a cold winter night. Little Aiden trudged along without a word. His father asked him if he was cold.

"No, I'm not; but, boy, that wind sure is!" he answered.—Liberty Magazine.

How One Woman Lost 102 Pounds of Fat

Almost Unbelievable Nevertheless True

Dear Friends: You advertised Kruschen Salts for reducing, so I finally tried them and when I started I weighed 219 pounds and when I took them for a year and three weeks I lost exactly 102 pounds.

I am 23 years old and I look at least 3 years younger now than I did when I was fat. I have a picture of myself before and after so if you want to see them let me know.

I am always telling my friends about the wonderful salts. I am always advertising them.

I took 2 bottles every month for a year and 3 weeks. It amounted to \$25 for reducing 102 pounds but it was worth it.

If I can be of any help to you let me know.

Yours truly, Miss Nellie Simpson, 1903 Wayne Street, Swissvale, Pa., October 31, 1930.

The Modern Safe Way—Right Way To Lose Fat

Just take a half teaspoonful of Kruschen Salts in a glass of hot water every morning before breakfast.

You can hasten the reducing action of Kruschen by going lighter on potatoes, pastry and fatty meats.

Unlike other salts, Kruschen doesn't reduce by rushing forth thru the system. Rather it's an ideal blend of 6 separate mineral salts which help every gland, nerve, and body organ to function properly.

Women everywhere are overjoyed with this marvelous reducing treatment. Frequently pound by pound of surplus fat leaves and soon you possess that trim, slender figure you've always craved.

An 85c bottle of Kruschen (lasts 4 weeks) is sold by leading druggists the world over—start this SAFE method to lose ugly fat TODAY! The Corner Drug Store sells lots of it. mg-431

THREE LAKES
Mr. and Mrs. Ennis Curtis and her aunt, Mrs. Sallie Robinson, spent Sunday in the J. C. Sparks home. Miss Adell Ellis of Tahoka spent the week-end with Lenora Sikes. Mr. Elmo Hassell is spending a few days at New Home with relatives. Mr. and Mrs. W. E. Sikes and Mr. and Mrs. T. M. Ellis, Jr., went to West Point to church last Sunday. C. D. Sparks is spending the week with his aunt, Mrs. Ennis Curtis in O'Donnell. Mrs. Jake Ellis is on the sick list. Mr. and Mrs. W. E. Sikes and family, T. M. Ellis, Jr. and family, and Mr. and Mrs. Sikes and daughter of Grand Prairie who were here visiting went to Lubbock last Thursday shopping and sight seeing. Quite a crowd attended the cream supper at T. M. Ellis' Saturday night. Three Lakes Baptist meeting starts the first Sunday in August. The pastor will do the preaching. Everyone is invited to attend. Mr. and Mrs. Floyd Tamplin attending Sunday school at Wells last Sunday. J. A. Duncan returned from a Lubbock hospital last Friday where he had undergone an operation for appendicitis. Perhaps it was unemployment that impelled the serpent to sell Eve on that apple proposition.

A Service For You
The insurance agent is your representative. His service is of a highly specialized nature and his duties are not merely to collect premiums, but to study and understand your insurance needs and provide correctly for them. As insurance representatives we are able to help you, and will review your needs and advise you without obligation.
