Malik's Korean Peace Proposal **Causing World-Wide Speculation**

THE_TIMING WAS PERFECT-Whether or not Russia's Jacob A. Malik was sincere in his proposed cease-fire in Korea is a question that only time will answer, but of one thing the people in the home towns of America were sure-the timing was perfect.

The average man in the small towns of the country has a sincere desire for peace. He is sure of a number of things: (1) U.S. casualties now number 73,600 and he wants his sons and brothers home; (2) The war has strained the nation's bipartisan foreign policy and threaten to cause an even more serious internal split; (3) and the war has increased the dangers of inflation throughout the western world.

Perhaps the Russians realized these facts and picked the first anniversary of the start of the Korean war for their peace move. But the move was unusual in that Malik made no reference to any of the Korean peace conditions previously set by the Soviet bloc: a deal on Formosa, admission of Communist China to the United Nations, and withdrawal of

foreign troops from Korea. It could be that the Soviet is sincere. But it could also be that the Soviet recognized the great propaganda potentialities of a peace move at this time. The home towners of the nation would do well to remember, however, that Russia is not officially in the

war. The next step is up to

the Chinese Communists. If the Chinese, who have made

no comment on Malik's prop-

osition, indicate what he said

actually reflects a change in

their Korean policy and a de-

sire to end the fighting, then the man on Main Street can

allow himself to hope for

However, if the Chinese ig-

peace.

The Silent Enemy

Rain and mud have taken over the battlefields of Korea as the silent enemy of the foot soldiers. And while peace rumors circulate throughout the world, the fighting and dying goes on.

nore the whole business, or restate their earlier demands for U.N. membership and control of Formosa, as the price for a Korean settlement, then the suspicion that Malik was more interested in making propaganda than in making peace will be confirmed

The U.S. state department has indicated a willingness to play its part in bringing an end to the hostilities in Korea if Malik's offer "is more than propaganda." But until there is some concrete evidence of sincerity in the proposal the U.S. will act with caution.

At the moment that seems the only sensible attitude to adopt. It is one the home towners may find best to follow.

THE BALANCE SHEET—As the first year of conflict ended in Korea, the fighting was as bloody and dirty as the day it began. But the balance sheet would indicate the Communists have lost the first round in their planned aggression.

On the credit side of the ledger: (1) The first U.N. battle force was raised and integrated in the initial bloody weeks; (2) the U.S. and her allies were dynamited into world-wide alertness and rearmament; (3) American military forces have learned valuable military lessons, developed new techniques, and tested much of the enemy's strategy; (4) the west has proved it will not abandon the small nations of Asia and Europe; and (5) the North Korean army has been mangled and the Chinese have had star-tling losses, estimated in all at 1,162,500 casualties.

On the other side of the ledger: (1) Allied casualties have been heavy for peaceful nations (approximately 352,500); (2) most of the west's military strength has been hobbled to a peninsula of secondary world-wide importance; (3) the Russians have lost only one known combat man in battle; (4) conflict has hastened the financial drain and made inflation more dangerous in the west; (5) Communists still retain the initiative, in Korea and throughout the world.

THE YEAR OF INFLATION-Since the Korean war began on June 25, 1950, livestock prices in this country have increased \$3 to \$10 a hundred pounds. At the same time, livestock production was much greater during the past 12 months than the preceding twelve.

A year ago hogs were no higher than \$20.50. Today they are selling at \$23.50, and last summer went to \$25.50 a hundred pounds.

The cattle trade is about \$6 a hundred pounds higher than a year ago

SYNTHETIC BLOOD EXTENDER **PVP-Macrose May Solve Nation's** Need for Synthetic Blood Plasma

One of the biggest headaches of civil defense-how to stockpile blood for disaster use-is on the way to being eased by science.

Facilities have been set up to mass-produce a synthetic "blood extender," a chemical fluid that can be used in place of whole blood or plasma in certain types of treatment.

The product is PVP-Macrose, or polyvinyl pyrrolidone. It could be a major aid in caring for shock resulting from burns or wounds, and

DAVID WAYNE, who reaches new heights in Columbia's "M" always wanted to be a dramatic actor, but made his mark as the comic leprechaun in "Finian's Rainbow" and was stuck with comedy. He went straight from college into a Shakespearean Reportory company, got small parts on Broadway, spent some time in the British and U.S. armies,

then returned to the stage. "Portrait of Jennie" was his first film, then came "Adam's Rib." That role as the murderer in "M" was just what he had been looking for, and some folks say that his per-formance is one of the best dramatic jobs ever to come out of Holly-

John Wayne, not content with being No. 1 box office star, has conferred with Mexican officials on plans for filming "The Alamo," with himself as star, producer and director. He is now in Ireland, working in "The Quiet Man," which John Ford is directing. Maureen O'Hara, Mildred Natwick, Barry Fitzgerald, Ward Bond, and Arthur Shields appear with him.

Republic Pictures lists "The Quiet Man" as one of 12 of its new films: they all sound good Richard Tregaskis, the war correspondent, went to Indonesia to do research for "Fair Wind to Java": "Hoodlum Em-pire" will be based on Bob Considine's racketeering expose and the Kelauver committee hearings. "Iron Master" tells of the discovery of iron ore in Minnesota.

Dr. Charles E. Dutchess demonstrates how a container of PVP-Macrose is suspended during its administration to a patient.

production ran 20 per cent above the 12 months preceding the start of the war. When the war broke out, steers were selling downward from \$31.50. Currently they are topping at \$38.50.

Sheep and lamb production has changed slightly, but prices have de-veloped much higher. Best lambs are about \$34.50 now, down from \$42.50 in March, but compared with \$28.50 a year ago. Ewes are topping at \$17.50 now, down from \$25 in February, compared with \$10.50 a year ago.

The Home Front Battle

On the bome front the battle to keep down prices was the issue of special groups. The ClO entered the tray launching a drive for tighter anti-inflation controls.

RECORD-BREAKING TAX-By a vote of 233 to 160, the house approved a record-breaking \$7,200,000,000 tax increase, including a 121/2 per cent boost in individual income tax.

The measure is now before the senate where the finance committee is holding hearings. The senate is expected to approve the bill, possibly with a few minor changes.

Here is where the government would collect the additional money; Individuals, \$2,847,000,000; corporate income and excess profits taxes, \$2,855,000,000; excise taxes, \$1,252,000,000; and miscellaneous changes in the revenue laws, \$245,000,000.

PARIS TALKS END-After 16 weeks of futile talks, the deputy foreign ministers of the United States, Britain, France and Russia broke off their efforts to write a program of a big four conference to ease world tension.

But they left the door open for their governments to make one last attempt to arrange a meeting of the big four foreign ministers, which has been suggested for July 23 in Washington.

No one in the diplomatic world believed that the Russians would accept the invitation.

The more he thought about the idea the better he liked it. What would George do when he saw the sign on the front of the house? He bet the old fraidy-cat would leave in a hurry.

But he must be careful. He wished he knew exactly what time George for she would get hold of him soonwould come. If he put up the sign too early, one of his own folks might see it before George came. And that, of course, would be the end of it. On the other hand if he waited too long George might come before

was staring at the sign tacked on the front of the house. He started to turn and run, but decided he might as well face the music now, er or later.

"So, Smartypants, I'll have to sit home tonight and twiddle my thumbs just because you must have your little joke!"

Tommy was silent for a minute, twisting one leg around the other. "Maybe you could phone and explain-he'll pro'bly go home." The words came reluctantly for he didn't want Winifred to telephone, and if she did he hoped George wouldn't be home.

"I will Not!" she cried holly. "Not when he didn't care enough to see which of us was sickwhy, I might be dying of mumps for all he knows-or cares!"

"People don't die of mumps, do they?'

"What difference does that make?" she retorted.

"It doesn't excuse him from asking. If he didn't dare to come to the door, he could have stood in the yard and yelled. Surely, I couldn't have thrown the mumps on him! Anyway, if I had the mumps he ought to be willing to have them too!"

It was almost too good to be true. Tommy thought. Only one thing was needed to make everything perfect and that would be for Frank to come

And then Frank did come. He jumped out of his car and asked anxiously, "Who's sick?"

"No one. That sign's just Tom-my's little joke," Winifred explained.

Frank laughed. "That's good! just saw Jack Martin in town and he said he had seen a mumps sign on your house when he drove by. So I thought I'd come out and see

if you needed any help. Say, why aren't you at the ball game?" "How do you expect me to go? Walk? Our car's in the garage for

I'd be awfully glad to take you in, if you care to go. And Tommy too-unless three's a crowd."

"Not when the third one's Tom-my," Winifred said, putting her arm around the boy. "He did me an extra good turn tonight."

WHO are the capitalists of America the communists and socialists howl about, and if it were possible, would destroy? Among them are the farmers, with large or small holdings. They are engaged in productive enterprises as individuals with investments in plants - their farms - and in tools - their farm implements.

Another element of the capitalist class are those owning rental properties, whether it be one small cottage or a considerable number of rental units that are providing homes for people.

Then there is that vastly larger number who are stockholders in business, large or small, and in transportation facilities. This class consists of many more than four million, all of them American capitalists. Among that four million are many thousands of workers, classed as both workers and capitalists.

This class of capitalists by its investments provides the tools of industry, and creates the 60 million jobs of America, as well as providing for their declining years; they do not have to depend on something for nothing for those years.

All together the capitalistic classes in America, including the several millions of life in-surance policyholders, repre-sent by far the larger portion of the 150 millions of American people. They are the people who make of America what America is. They are the peo-

ple the socialists and communists seek to destroy by taking from them that which they have thriftily accumulated, and leaving for these thrifty Americans only a place on a park bench, where they, too, could hope for that something for nothing to be passed out by the government. The question to-day is: Do we want the socialists and the communists to succeed in their nefarious plans?

Those who would replace our American free enterprise system, that has made possible such a number of thrifty capitalists, whose combined investments have provided 60 million jobs, and give us instead the ideas or methods of socialism or communism, are not seeking the best interests of our America.

The free enterprise system does not provide something for nothing, but it does provide the ways and means of providing for ourselves as individuals if we are willing to make the needed effort and most are much of the same kind, provide something for nothing.

The business institutions of the nation, both large and small, are making a real effort to impress upon the people that our free enterprise system is dangerously threatened.

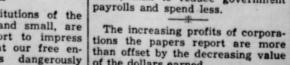

I was reading today the 39th

Mutual Casualty company in which the president, James S. Kemper, devotes a chapter to that subject. In it he says: "The cunning of the Kremlin must be met by candor and courage in Washington, that men in the mass must be countered by an abiding faith that, with God's help, men are destined to be free. Private enterprise can and will provide right direction in America, and in so doing hold high the torch of liberty for the world to see.

> Before the senate committee in vestigating the firing of MacArthur, Secretary of State Dean Acheson was a reluctant witness. He did not wish to talk about the mistakes, or worse, he had made in the far east, but the committee was insistent and out-voted him. Out of it all the people have learned the contents of the secretary's note to our diplo-

mats in foreign nations, in which we wrote off Formosa as a part of our foreign policy. Acheson said that note was a phony.

As the politicians see it, it is better to levy more taxes to provide for more unnecessary spendings, and it will be more profitable, in votes, than to reduce government

of the dollars earned.

Lesson for July 8, 1951

The "We-Feeling"

GOD INVENTED the family; that a "divine institution." It is part of God's plan for each of his children that he shall learn how to live, (taken not in a lonely cell by himself, not as a lonely wolf fighting Sim Pri against all comers, but as a member of a family.

enormously important in many ways. There is room to Dr. Foreman speak of only one of

them. Students of personality have found a new but simple name for something that every one ought to have, but not every one does have: it is called the "we-feeling."

The lone-wolf type of person never really thinks "we." His mind divides the world into two armed camps: on the one side is "I" and on the other side is every one else.

He goes through life assuming that nobody is for him, nobody is with him, and he in turn is for nobody and with nobody. His "hand is against every man," as the Bible says. Even if he teams up with others for a while, he will doublecross them if he thinks he will make something out of it. He is your typical criminal, "anti-social" as teachers and sociologists call him.

What It Means to Grow Up

CHILDREN usually begin life without much we-feeling, if any. They don't naturally share their toys or their dinners or anything else. They grab all they can and they don't like to be grabbed from. The process of growing upreally growing up, not merely get-ting older and bigger—is a process of developing a healthy we-feeling. Nearly every one develops this to some extent, of course; but when some people say "we" they don't mean very many.

We have all heard of the man who prayed: "Lord, bless me and my wife, my son John and his wife. Us four, no more. Amen!" He doesn't make a very good citizen.

But as the "we"-circle grows wider and wider we get a more and more public-spirited and serviceminded citizen, till at the high point of the we-feeling we see a man like St. Paul who calls himself a debtor to all men, or like John Wesley who said, "The world is my parish," or a modern international citizen and statesman such as John R. Mott.

Serve Protein-Rich Foods for Summer Meals **To Repair Tissues**

"SHE SETS A GOOD TABLE," in days gone by was the very last word in compliments for good homemakers. Cold or

hot weather, this meant foods which had that important stickto-the-ribs quality, namely, meat, fish, poultry or cheese, rich in protein.

Though salads and cooling desserts are much in demand for hot weather, no smart homemaker forgets that her family is active in work and particularly in play. This means they need to re-build and repair body tissue and muscle, and nutritionally speaking, protein foods must find a place in the diet. A "good table" is still as essential

as it was in grandmother's day, and is possible when food wisdom, beauty and imagination are used for its preparation.

Cheese Pegs are a good example of a nice choice for supper. Protein-rich cheese is combined with mashed potatoes, butter and eggs, then fried to a golden brown. Serve them with garden vegetables for a well-balanced meal: cauliflower flowerets, plum tomatoes, cucumber wedges and whole green beans, dipping the vegetables in sour cream dressing to enhance their appeal.

How the Family Helps

THE very best place to learn the "we-feeling" is in a good family. This does not necessarily mean an aristocratic family or a wealthy one. Many good families, perhaps most good ones, are quite poor and obscure, as the family of Jesus was.

But whether it is in the city or the country, or however large or small it may be, the good family is one that helps every member of it to grow up into a healthy adult we-feeling. Living in a family teaches the meaning of "all for one."

In a good family, all are proud of what any one accomplishes; the big brothers and sisters are just as pleased with little brother's first steps as little brother is himself. When father wins a prize at the state fair, or when mother is elected an officer in her church society, or when Molly makes the honor roll in school or Jim makes the basketball team, everybody in the family is just as pleased as if they themselves had received the honor. When any one of the family gets

into trouble, they all stand by to help. . . .

The Best Families Are Christian

THE best families are those where religion is real; and if we believe that the Christian religion is the best, then we shall agree that Christians ought to have the best families.

Remember that in a Christian home Christ is the real head of the house. If ever any one had the "we-feeling" in its purest form, it was Jesus. No. one can ever live long in his company and stay selfish.

So in the home where he is not only the best-loved guest but the true head of the house, every one from oldest to youngest learns to say "we" and loves to say it, and means it and lives it. From such homes come the best citizens and neighbors.

to cylinders ½-inch thick. Cut inch thick. Cut into 2-inch lengths and fry in deep fat heated to 400°F. Drain well.

Combine the soured cream, mayonnaise, lemon juice, mustard, horseradish, salt, cayenne and paprika to taste. Chill well. Separate cauliflower into flowerets and chill thoroughly after washing. Place in center of platter and surround with tomatoes, cucumbers and whole green beans. Serve with soured cream dressing and hot cheese pegs as an accompaniment. . . .

HOT POTATO SALAD is a popular meal, especially when served with a budget meat, frankfurters. Both potatoes and frankfurters are rich in proteins.

*Pan-Fried Franks (Serves 4-5)

Heat 2 tablespoons fat in a heavy skillet and put in 8-33 frankfurters whole. Brown mod-erately fast on all sides, couking until heated through. Serve immediately.

Well-seasoned hot potato salad is a welcome treat when served with pan-fried frankfurters. Neither the salad nor the frankfurters takes much cooking, and will help keep your kitchen cool when the temperature's soaring.

LYNN SAYS: Make Simple Foods Into Party Dishes

Welsh rarebit becomes interesting when you add an egg for richness, then add a small can of salmon flaked and just a touch of onion juice for flavor. Serve on toast triangles.

Pennsylvania Dutch Pepper Cabbage

(Serves 6) 1 small head cabbage (2 pounds)

1 teaspoon salt 1 medium onion, grated

1/2 cup sugar

3 cup cream % cup cider vinegar

1 green or red pepper, chopped Chop cabbage fine. Add salt, onion and sugar. Let stand one hour. Blend cream and vinegar. Pour over cabbage. Add pepper and mix thoroughly.

A TANGY PIE which includes protein-rich eggs is an excellent dessert choice for hot weather meals. This one goes well with a hearty meal becalse it's light and airy with a refreshing flavor of lemon:

*Lemon Velvet Chiffon Pie

% cup sugar 4 tablespoons cornstarch 1/4 teaspoon salt

2/3 cup boiling water

- 2 éggs 2 tablespoons butter
- 1/3 cup lemon juice
- 1 teaspoon grated lemon peel
- 1 tablespoon plain gelatin 1/2 cup cold water
- 1 cup light cream

Mix together sugar, cornstarch and salt in saucepan. Add boiling water, and while stirring, cook until thick and smooth. Remove from heat and mix in beaten egg yolks and butter. Cook over low heat, stirring constantly, for 5 minutes. Remove trom heat; add lemon juice and peel. Stir in gelatin that has been dissolved in cold water. Blend in cream. Let set until mixture begins to thicken. Fold in stiffly beaten egg whites. Pour into baked 9-inch pie shell and let stand in a cool place until thick. If desired, served with a topping of whipped

Stuffed peppers with ham or chicken are something of a novelty. Fill the parboiled green peppers with a mixture of ham or chicken mixed with cooked rice and seasonings including basil. Sprinkle with cheese and bake. Serve with heated

tomato soup, as a sauce. Tender green beans, fresh out of the garden, do proudly as your vegetable for company dinners. Cook them with a bit of sugar, then drain and season with a dusting of salt, pepper and melted butter in some hot cream.

SCANNING THE WEEK'S NEWS of Main Street and the World

Korean Conflict Is One Year Old; World War May Have Been Averted

SOON, IF AT ALL-A few days ago-June 25-the Korean war was one year old. Today, after a year of fighting Communism in battle, the questions uppermost in the minds of most Americans is what are the chances for world peace? Is World War III nearer or more remote?

A great many unknown factors and "ifs" arise with such questions. But there is a growing belief in the world today that a general war is more remote than a year ago. This reasoning is based mainly upon two points: (1) The free nations of the world are growing stronger every day; (2) the free world has demonstrated in deeds as well as words it will resist aggression.

There is one fact that none of the free nations of the world is overlooking. There is the possibility, in the face of the west's growing strength, that the Soviet Union realizes it must act soon, if at all. To wait would only give the west time to grow so strong that victory for Communism would be an impossibility.

The Korean war seems to have accomplished several things. It brought to life the west's lagging plans to marshal military, political and economic resources to meet future aggression. And these moves may have served as a deterrent to ambitious aggressors.

TEXAS TOUR-Gen. Douglas MacArthur flew to Texas for a number of official receptions and speeches. For three days he preached his doctrine of a realistic approach to far east problems. He went so far in a Dallas speech as to say "it is fantastically unrealistic to refuse to accept the fact that we are at war-a bitter, savage and costly war.

But the colorful general who has caused more controversy in a few months than many prominent figures do in a lifetime, departed from his main theme to take a slap at the domestic policies of the Truman administration

"There are those who seek to make the burden of taxation so great and the progressive increases so alarming that the spirit of adventure, tireless energy, and masterful initiative which built the material strength of the nation shall become stultified and inert," he said. "There are those who seek to make all men servants of the state."

The departure from the main theme of his speeches since he returned to the United States increased speculation that the general may be planning a political career despite his assertion he is not interested in entering politics. The Texas visit has been called a test for future political moves.

GRAIN FOR INDIA- The long delayed grain for India bill, lending India \$190,000,000 on easy terms to buy 2,000,000 tons of U.S. wheat and other basic foodstuffs, was signed into law by President Truman.

The bill was subject to months of heavy debate in congress before it was finally passed. Critics argued that India's opposition to some U. S. policies in Korea made her an ill deserving beneficiary. Backers said it had a humanitarin purpose and, besides, it would help line up India with the western world as opposed to the Communist bloc.

In the months of debate many forgot the fact that the food purchased by the loan will prevent famine in India. It was the only humane thing this nation could do.

PRICE CONTROLS-By the time this reaches print the defense production act which gives the government the power to control prices, wages and rents may or may not have been extended. In all probability it will have, but it will not contain the broader powers as asked by President Truman.

Special interests-the cattle industry, landlords, the building industry and others-have used every trick at their command to get amendments tacked to the act that would be to their advantage.

As a result, the house banking committee voted tentatively to knock out two future price rollbacks on live cattle planned by the office of price stabilization. Also, the senate banking committee voted to renew and expand the government's rent-control program. But the senate committee at the same time recommended a raise in some of the rent ceilings.

The committee felt that a 20 per cent increase should be allowed in some areas. Many of these areas already had from 10 to 30 per cent increases above 1942 levels.

As for the house vote on beef rollbacks, it was a direct slap at the administration's beef policies. The vote was in the form of an amendment that would limit future price rollbacks on all agricultural commodities to 90 per cent of prices on May 19, 1951.

Whatever its form, the new defense production act will be far from what President Truman asked.

MACARTHUR HEARINGS-Any day now the MacArthur hearings will

100 YEARS OF BROTHERHOOD **YMCA Charts Five-Part Program** To Cover Rural Areas of Nation

.(The second of two articles.)

One hundred years ago the Young Men's Christian Association, known familiarly to four generations of Americans as the "Y" was founded in the U.S. to fight vice, degradation and delinquency in the cities. Now, in planning its next century, the YMCA is going to move into small towns and rural areas.

EVERYBODY but Columbia Pictures has plans for Rita Hayworth: her home studio is just waiting for her to report for work. With a large part of the American public agog to see her because of her much publicized romance, they could put her into a dramatization of the alphabet and make millions Virginia Van Upp has completed two stories for Rita, and it is rumored that Metro wants to borrow her for "The Merry Widow." What would really make the customers storm the box offices would be a re-

make of "The Shiek," co-starring her with Tony Dexter, of "Valentino" fame. Or would that come dangerously close to being autobiographical?

Gertrude Astor begins her 37th year in pictures by playing the role of the landlady in "The Dark Page." She says she must have appeared in 1400 films, beginning in 1914 when she went to California to work in "Under Two Flags."

Jackie Kelk, "Homer" of "The Aldrich Family," has just received an offer of more than \$5,000 for his extensive postage stamp collection; it was made by Louis Ramvuela, who owns cattle ranches in Argentina. Kelk hates to sell it.

Meredith Willson's "May the Go

The YMCA began aiding servicemen during the Civil War when Y workers, 'called "Christians" by the soldiers, followed both armies to serve decently cooked hot meals; help tend the wounded and insist on the humane treatment of prisoners of war. In the Spanish American War, they introduced doughnuts and coffee to soldiers. At one battle they arrived with their rations some three hours ahead of the troops! During World War L the Y, according to General Pershing, performed 90 per cent of the welfare work for soldiers overseas and during the recent con-flict, as now, the YMCA comprised one-third of the soldier-service organization known as the U.S.O. The best of the Y's hundred years of experience will go into the new

five-part program designed to cover non-urban areas. The organization will work this way:

1. The Small City Association, to operate as independent units in cities under 25,000 population.

2. The Town and Country Association, covering both farms and small towns in a single county or group of counties.

3. The County Branch, covering a rural area centered about a large city

4. The Outreach Program, tending from a thriving city YMCA to cover small neighboring com munities.

5. The District Program, all rural, directed by the state YMCA organization but sponsored socially and financially by the area served.

. . .

FINANCIAL PROBLEMS, of course, will play a large part in the Y's scheduled rural drive. YMCA officials emphasize that the Y cannot and will not begin at the outset to construct large, streamlined buildings, with hotel space, gymnasium, meeting rooms and swimming pools in order to lure members. A YMCA, they explain, must first establish a firm spiritual foundation and a record for concrete service to the community before it can begin to think in terms of permanent headquarters.

Instead, the organization burden will fall largely on the rural secretary, a YMCA career man who has been given special training for his job and, more likely than not, been educated at one of the Y's twenty-five degree-granting colleges. He will begin, like the founders of the first YMCA in Boston in December of 1851, by interesting social-minded members of the community in the Y movement. He may work through churches of all denominations or through the public schools. Depending upon how long he has been in the area he will spend three months to a year observing local conditions and then report lengthily to his superiors on how, in his opinion, the YMCA can best improve its foothold in your

FARM FOLKS are always asking a squire for information and advice on law. Dave Tidwell was no exception.

Fiction gave me a few peaches. Dave's place didn't look any too prosperous. He spoke of his dilapi-

dated old car near the barn. "I guess I'll never have money enough to buy a new one," he said. "Can't make anything on this place now."

I could see he had something else on his mind. Pretty soon he started to ask questions.

"Squire, who does money belong to if it's found hidden in a man's barn?"

"Why, I suppose it would belong to him, unless someone else could prove direct ownership," I told him. More questions were asked, rather cautiously. At length he said:

incident and read into the millions of words of testimony.

No hearig or debate in American history ever caused so much comment in the big towns and the home towns of the nation. And possibly no incident in modern history, excepting World War II and the Korean war, received such coverage in the nation's press. It made good reading in dailies and small town newspaprs alike.

The debate may have been good for the nation, and certainly, was carried out in the best American tradition of free speech and thought. But there was one regretable aspect of the hearing. Our potential enemies now know the inner thoughts and reasoning of American foreign policy. Our policies are an open book to the entire world.

RESERVISTS TO GO HOME-Home town enlisted reservists - not members of organized reserve or national guard units-are going to be released by the army. Approximately 100,000 will be released in the next six months.

There will be no "point system" or other inflexible standards to determine the order in which the reservists are released. Each unit will set up its own standards, giving "primary consideration" to maintaining maximum effectiveness.

But veterans who served 90 days or more during World War II are to be let out first under the general standards set up by the army. Reservists who have had previous military service other than World War II are to get second priority

He came to work for me nearly forty years ago and stayed until last year when he died. I didn't pay him much but he saved his money. He didn't trust banks, either, and he never

want Sid to have anything of his. "A few days later Obie died. The money wasn't quite enough to bury him, but that was all right. I paid the balance. Sure enough, Sid came snooping around, inquiring about Obie's money. I told him what I

"Dave," I said, "what people don't know won't hurt them. If I found any money in my barn I would regard it as another good crop. If anyone thought different, it would be up to him to prove his claim."

Dave looked satisfied. "I guess I can trust you, can't I, squire?' I forgot all about the matter until

a year later. Then Dave Tidwell came to my office carrying a half bushel basket of peaches.

"These are some of the peaches you liked so well, squire," he said. "I had another nice crop this year. Matter of fact, all crops were good this year. No charge. My regards." The look he gave me was a pe-culiar, knowing one and confidential like.

GOP Again Faced With Lack of Positive Platform

In 1940, 44 and 48 the Republicans had an opportunity to win. They muffed all three chances by not Aside from some one of our miliproposing a definite program, and sounding hard on that program. This 1952 looks like, not only another, but the best of four opportunities to win, provided Republican leadership can and will produce a positive platform which the voters will support.

This is no time or place for indecision. The time is for a definite and constructive program that will put America back on the prosperity highway, maintain our economy and outlaw in-flation. Can the Republican leadership draft such a program and express it in implicit, and easily understandable phraseology? Picking the candidates is the

next important step yet to be taken. Should a popular hero soldier, such as either Eisenhower or MacArthur be the candidate of either party, he would be virtually assured of election. MacArthur removed himself from consideration by the statement he made in San Francisco, a statement I am sure he meant. Eisenhower's political affiliations are not definitely known, and he could be a candidate of either party.

It is hardly probable that he would be a candidate for the Democratic nomination if the President wishes again to be the candidate of his party.

BIBLE

THE

Lesson for July 15, 1951

EVERYBODY who begins a home wants it to last. Nobody really wants a temporary, makeshift home. There have been people who

thought they wanted "trial marriage" but such persons did not want a home at all. What is it that holds homes together and makes them last? Life brings many an earthquake shock. How do you get Dr. Foreman shockproof homes?

Homes Without Marriage

LET it be said at once that while most homes begin with marriage, and the normal home consists of father, mother and children. there are homes without married couples. The story of Mary, Martha and Lazarus in the New Testament is the story of such a home.

Here were three grown persons, two sisters and a brother, and they had a good home; it must have been a good one, or Jesus would not have enjoyed going there as often as he did.

There have been other homes which have blessed all under the roof, such as a cottage group in an orphans' home, or a group of old people living together in one household; even a boarding house may, through the consecrated genius of some one person, become a kind of home, beloved and long happily remembered.

But when all is said and done. all these kinds of marriage-less homes, good as they often are, take as their model the "normal" home of parents-and-chil-dren. And this normal home begins with marriage. If the marriage is permanent, the home will be; if the marriage drifts and wrecks, so will the home.

. . .

"Till Death Do Us Part" AS the present writer has said in "From This Day Forward" (a small book on the meaning of the Christian marriage service): "Only the Christian religion sponsors the highest form of marriage in the world. For Christian marriage is permanent. The state does not demand so much, social pressure in most places will not demand it, other religions have lower ways. But the Christian ideal of marriage is nothing less than the union of one man and one woman, for their lifetime.

One Good Turn Deserves Better

Out of the lead car in the crackup stepped a woman driver. A man was already coming forward from the car that had smashed into hers.

"Really, I don't understand your carelessness," complained the lady. "I turned the way I signaled I would." "True," nodded the man,

"That's what confused me."

Quick Thinking

"Dear, didn't I hear the clock strike three when you came in?" "You did. It started to chime eleven, but I stopped it to keep it from awakening you."

That's a Poke, Son

Down the street came the political boss and his hand-picked Congressman. The latter was inclined to vanity and, as they rounded a corner, he remarked with a self-satisfied expression, "Say did you see that good-looking girl smile at me?"

"Smile?" shot back the gruff political boss. "Why, the first time I saw you. I laughed out loud!"

Tour to Hades?

The American visitor was gazing down into the crater of the famous Greek volcano. Finally he commented, "It sure looks like hell!"

"Oh," retorted his guide, "you Americans-you've been every-where!"

Selecting A Water Heater

QUESTION: I'm contemplating buying a water heater My water supply has a high lime content and I'd like to know if lime will collect on the walls of a glass-lined heater. I don't know whether to buy a water softener or not If I can get a satisfactory length of service with a glass lined tank, minus a softener it will mean a real saving for me. Glass lined tanks are guaranteed against rust and corrosion, but I wonder if the same holds true when there is lime in the water

ANSWER: The lime would be less likely to stick to a glass lining than it would to a rough metal surface. It sounds like a good investment to me. Regarding a water softener. I believe you have the wrong idea as to the cost of of these units. No Endurance Test

"CHRISTIAN marriage is not a mere endurance test. If that is all, it may be genuine, but not suc-cessful. Now a genuine cake is not a pie and not a roast; but not all genuine cakes are successful.

Marriage and a home at their best can be a kind of heaven; but who would want a heaven that might evict its tenants any morning?

On a windy day in a certain street of houses hastily built for G.I.'s, any one might see the flimsy shingles flapping in the wind like so many sheets of paper. The young couples who were flim-flammed into buying these houses have already regretted it. No one want to live in a house that the wind will blow to pieces. And no one wants a home that will be shaken apart by the winds of adversity or the earthquake shocks of diappointment.

The Heart of the Home

THE only real basis of a lasting home is love. Everybody knows this much; not every one knows what love is. Love is not mere sentiment, and much more than emotion.

What Paul said long ago has been put by J. B. Phillips into modern words

"This love of which I speak is slow to lose patience - it looks for a way of being con-structive. It is not possessive; it is neither anxious to impress nor does it cherish inflated ideas of its own importance. Love has good manners and does not pursue selfish advantage. It is not touchy. It does not compile statistics of evil or gloat over the wickedness of other people . . . Love knows no limit to its en-

durance, no end to its trust, no fading of its hope; it can outlast anything. It is, in fact, the one thing that still stands when all else has fallen."*

A home where love of that sort is at its heart, will stand every shock of time.
