35th year, No. 49

O'DONNELL, LYNN COUNTY, TEXAS.

Wed. July 24, 1957

\$2 And \$2.50 Per Year

Part Of Area Has Rain

Over the week end scattered evening thunder storms benefitted several small areas. A shower Saturday nite resulted in about half an inch of moisture in vicinity of the County Line gin. Sunday nite another shower resulted in 12-100 inches here and up to 8-10ths in south of town to O. K. vicinity. The same nite a shower also fell in the Draw area. Monday afternoon late a brief sprinkle eased the heat here. As we go to press Tuesday nite, the prospects again are good for showers. Cotton is growing well but feed needs a rain.

Mr and Mrs. C. E. Griffin recently returned from a visit with their son, Bobby Dan and wife, in Tenn.

MANY HEAR YOUNG EVANGELIST AT WELLS

A revival is currently in progress at Wells Baptist Church with the Rev. Larry Taylor of San Antonio as the evangelist. Large crowds are attending nightly. Following are sermonic subjects for the remainder of the week —

Thursday nite — "His Majesty, The Devil."

Friday nite — "The Big Payoff."

Saturday nite — Mr. Taylor will give his life story titled "From a life of vice to a life for Christ."

Sunday morning — "Juvenile Delinquency and that nite 'God's Three Deadlines'."

Sells Bread Here

Teeter's Sweet Shop here is now selling that good Golden Crust bread in the Yellow wrapper. Ask for it today at your favorite grocery.

REUNION IS ENJOYED

About 55 folks enjoyed a reunion Sunday at Lamar Park Community Center in Lamesa. Present were Mrs. Lydia Brunson, Mrs. Annie Beddo, of Santo, Lew Neal Banks of Odessa, Mr and Mrs. Luther Brownlow, Mr and Mrs. Glynn Brownlow, Mr and Mrs. Derrell Brownlow, Mr and Mrs. Weldon Brownlow, Mr and Mrs. Cleon Eason, Mr and Mrs. Harold Hall and family, all of here, Mr and Mrs. Bobby McGlaun and baby of Tahoka, Mr and Mrs. Howard Eason and family of Pampa, Mr and Mrs. Robert Murry and family of Muleshoe, Mrs. O. D. McElroy and family of Springfield, Mo., Mr and Mrs. Herbert Eason and daughter of Andrews, Mr and Mrs. Doyle Eason and family of Lamesa, Mr and Mrs. Holland Eason and children and Mr and Mrs. Boyd Eason and children of Morton, Mr and Mrs. Ray Eason and children of Lamesa, Sandy, Claudette, Janie Eason of Lamesa, Mrs. Billie Ray and Ronnie of Odessa.

Mr and Mrs. Bob Marshall and family and Mrs. Jim Cathey of Beaumont visited Mr and Mrs. Darrell Parker and family last week.

Mr and Mrs. Darrell Parker and family, Mr and Mrs. Jack Cathey and Mike, Mr and Mrs. Henry Cathey and Margaret and Johnny, Mc Laurin spent Sunday at Lake Thomas.

TEACHER RESIGNS

Mrs. Dock Dewbre, first grade teacher here for past two years, has resigned to return to Tahoka to teach. Her husband is employed in Tahoka.

For sale or rent — my home near high school, see R. T. Rains or E. J. Smith

Mr and Mrs. R. T. Rains and family are moving to Monahans this week where he is employed by the Post Office there.

Waitresses wanted — Jackson's Cafe.

LOTT HEADS MASONS HERE

Officers of the local Masonic Lodge recently installed are — Hugh Lott, Worshipful Master, J. G. Rogers, Senior Warden, J. M. Noble, Jr., Junior Warden, W. E. Tredway, Treasurer, R. C. Carroll, Secretary, W. J. Shook, Chaplain, A. G. Crutcher, Senior Deacon, Archie Haney, Junior Deacon, L. M. Mires, Senior Steward, S. M. Clayton, Junior Steward, S. L. Walters, Tyler, Mr. Tredway, the Deputy Grand Master of 116th District, was installing officer and W. E. Singleton was Marshal.

The O'Donnell Lodge, No. 1187, was granted its charter Dec. 8th 1922. Regular meeting is on the 4th Thursday of each month. Visiting brothers are welcome.

Mr and Mrs. Archie Haney moved to Seagraves this week to be near to his farm.

NEW PASTOR DUE HERE SOON

Rev. Bill Burton of Gruver has accepted the pastorate of the First Baptist Church and will be here Sunday, August 11th. Mr and Mrs. Burton have a daughter, 19, a son, 6, and a daughter 4.

SONG BIRDS LEAD LOOP

In the Little League here last week the Cardinals measured the Braves 9 to 8 and in the nite cap the Dodgers nipped the Cardinals 5 to 4. This Thursday at 7:30 the Cardinals play the Braves and at 9 the Dodgers meet the New Home team. Friday nite at 8 the Dodgers tangle with the Braves. Following is the standings to date — Cardinals, 3-2. Braves, 2-2. and Dodgers 2-3.

Leon Archer is home with a discharge from Army after a tour of duty in Germany. He plans to return to California where he was employed before entering the Service.

—Visiting in the Joe Proctor home Sunday were: Mrs. Lona Harris of Hobbs, Mr and Mrs. John Proctor of Ropesville, Mr and Mrs. Ed Mc Kee of Seagraves and Mr and Mrs. Bobby Proctor and family of Denver City, also Mrs. Fred Franks of Manassas, Virginia.

Miss Lydia Smith of Chillicothe is visiting her sister, Mr and Mrs. O. L. McClendon.

Mary Ann Farrington of Lubbock visited here last week with Mr and Mrs. C. W. Stubblefield.

MIDDLETON REUNION HELD

Recent guests in the Dub Middleton home were his daughter, Betty Jewett, and husband, Major John Jewett and two children who have just returned from a four year tour of duty in Turkey and Germany. They met the other children of Mr. Middleton in Ruidoso for several days. Those being entertained by Mr and Mrs. Middleton were Mr. and Mrs. Joe Tafoya of Socorro, N. M., Mrs. Homer Trimm of Houston, J. T. Middleton, Jr. and family of here, Mr and Mrs. Lewis Thomas and Ann Thomas and Mr and Mrs. Lewis Wayne Thomas of Lamesa and William D. Thomas of the Navy who has returned to California where he is assigned to a ship for foreign service.

To Discuss Water Problem Here

All Are Invited To Attend

A meeting of residents of the town jointly with members of the City Council will be held this Thursday morning promptly at 8:30 a. m. at Jackson's Drive-In Cafe to discuss in a round-table forum the problems to be solved in increasing the water supply for the town by next summer.

Members of your Council are anxious to get any ideas and opinions of the residents and work toward a plan of solving this limiting factor to further growth of our town.

Mayor S. M. Clayton, Jr. will preside at this brief, informal meeting to show the City Dads the folks will back them in this objective.

Mrs. Dodie Hays of Carlisbad, N. M., Mrs. Bernice Chilcote of Amarillo, Mrs. Story Williams of Clarksburg and Mrs. Gladys Lumpkin of Omaha visited their brother, Mr. and Mrs. Shock Blocker over the week end.

Mr and Mrs. Lyndell Kenley of Lubbock are the proud parents of a fine baby son born July 16th. He weighed 7 lb 7 oz. and is named Mitchell Bruce. Mr and Mrs. Luther Kenley of here are grandparents.

The infant son of Mr and Mrs. Roger Doss was returned home Sunday from a Lubbock hospital after surgery. He is doing fine.

Mr and Mrs. Boyce Allen and children spent last week with their parents here. Mr and Mrs. Jesse Lane accompanied them to Lubbock Wednesday and the group spent the nite with Doyle and Leland Lane and families and attended the Davis reunion at Lamesa Saturday afternoon.

Madams Homer Hardberger, W. E. Tredway, F. M. Jones, Bob Carroll, Levi Gray attended the Over The Walls Garden Show at Lubbock Sunday afternoon.

METHODIST NEWS BRIEFS

Rev. and Mrs. Howard Marcum and family left this week to vacation in West Virginia.

Rev. Ray Elliott of Lakeview Methodist Church, Waco, will be the visiting evangelist at the Methodist Revival to open here on August 4th and close the 11th. Rev. Ed Crandall, a former pastor of the local Methodist Church, will preach Sunday here.

NAMED TO LABOR BOARD

O. G. Smith, Jr., local newsman, has been named a member of the Farm Labor Committee of Lynn Co. by the Texas Employment Commission with offices in Amarillo. The first meeting will be in O'Donnell Aug. 6th at 10:45 a. m. in the Index office.

CARD OF THANKS

I wish to thank all my friends for their visits, prayers, flowers and cards during my recent illness. Again my most sincere thanks. Mrs. Maude Shaw

Card Of Thanks

My sincere thanks to everyone who helped me in any way when I lost my home by fire. If I lost any names and did not send you a thank you card, please accept this as a note of my appreciation. My special thanks to Buck and Weldon Martin for the use of the house. Come to see me in my new home. Mrs. U. C. (Gert) Rains

CO-OP MEET DATE SET

The annual meeting and barbecue of the O'Donnell Farmers Co-Op Association will be held Saturday, August 10th

JACK POT AT \$248

At the Trades Day drawing Saturday here Mrs. L. H. Clark won a 20 percent ticket worth \$52. This Saturday the drawing will be held at Ellis Chevrolet and the JACK POT is worth \$248. Week end business has been very good due to the visiting laborers here for the chipping season.

BEAN REUNION DATE SET

The annual reunion of the families of the late Mr and Mrs. Ezra J. Bean will be held in Ruidoso on July 26, 27, 28th. The cabin will be located near the city park. All the friends of the families are welcome.

Practicing steps in a folk dance during a week of camping with the Caprock Girl Scout Council at Buffalo Lakes are two members of Troop 264 of O'Donnell. Nena L. D. Bingham is standing on the left in front, Susan Smith, daughter of Mr and Mrs. E. J. Smith, is on the right in the second row.

MRS. TAYLOR HOSTS CLUB

Mrs. Wayland Taylor was hostess to the Thursday Bridge Club last week. Mrs. Clyde Winans won high score and Mrs. J. V. Burdett Jr. won second high with Mrs. J. T. Forbes winning bingo. Mrs. Clyde Winans will be hostess at the next meeting.

Our thanks to Pete Page for several nice home-grown peaches. The local peach crop is very short due to a late freeze.

J. V. Burdett Jr. recently purchased the home place of Mrs. Olive Hart in the northeast part of town. Mrs. Hart left Saturday to live in Houston.

Mr and Mrs. J. T. Forbes and family are vacationing in Colorado.

COSTUME JEWELRY 1-2 price

LOTT PHARMACY

FEW COTTON PESTS TO DATE

Weather conditions continued favorable for satisfactory progress of cotton. The somewhat slower than normal growth has possibly been due to very unfavorable earlier weather conditions. The excessive shed of small squares likely resulted more from such conditions than from insect damage. No general serious insect infestations have developed in the area. Thrips occurred in light infestations thruout the area according to the Extension service.

Fleahoppers were present in small numbers on most cotton which had reached the squaring stage. Lygus bugs occurred in light infestations thru the area. Bollworm eggs, with scattered small worms, appeared in increasing numbers.

Friends honored Mr and Mrs. Joe Jackson with a housewarming Monday nite. Hostesses included Mrs. S. M. Burrus, Mrs. W. A. Jordan, Mrs. Ike Barnes.

WELFARE FUNDS SOON TO BE AVAILABLE FOR HANDICAPPED

Complete and permanent invalids or persons in the community so men tally deranged that they require continuous oversight to keep from harming themselves or others may soon be able to receive small monthly checks from their State Department of Public Welfare through the new state-federal program of Aid to the Permanently and Totally Disabled. The Constitutional Amendment, which was adopted by the voters in November, 1956, limiting the amount of money that can be appropriated for this program to 1.5 million dollars per year, makes aid possible only to those who are helpless and have no relatives able to support them.

Leo Healer, Welfare Supervisor for this area, pointed out this is the only welfare program which requires consideration of the ability of relatives to support. This law defines "responsible relatives" as children, parents, step-children, step-parents, brothers and sisters. Healer said that for the first time in nearly 20 years the Department's Field Workers will be required by law to determine the resources of relatives of persons who apply for aid.

The "permanency" and "totality" of the disability will be determined by a State Reviewing Physician after study of a complete physical or mental examination by the person's own private physician. Complete helplessness from a medical standpoint, rather than inability to work, is the criteria. The state will pay the private physician for his examination.

Funds for assistance payments will be taken after July 15. While the helpless individual will not be able to leave home, the persons responsible for his care may come to the local welfare office and acquaint the Department with his situation. A Field Worker will then call, as soon as possible, at the offices in this area are located at: Courthouse, Tahoka; Courthouse, Brownfield; City Hall Station; Old Levelland; Courthouse, Morton; Courthouse, Muleshoe, and Courthouse, Dimmitt.

Field Worker headquarters offices in this area are located in the towns of Lubbock, Brownfield, Littlefield, and Levelland. Outlying counties or towns are handled by workers from these offices.

Biggest Sellers...because they're Biggest Savers!

You can tell from the way they're put together that Chevrolet trucks stay on the job... save on the job!

A truck with built-in stamina—that's Chevy. Whether highballing down highways or roughing it across rugged terrain, or doing delivery duty in town, dependable "can-take-it" Chevrolets are cutting

downtime to the barest minimum. A truck with a choice of ready-to-go power—that's Chevy. From an advanced lineup of eight engines—140 to 210 hp—you can save by choosing the power precisely matched to your job. Thanks to compact weight-saving design, Chevrolet's V8's deliver high power per pound of engine weight—power that works harder for you. Chevy truck 6's are famous for their stay-

ing power. Whichever engine you choose, you know it's got the power to back up every inch of brawn in every Chevrolet Task-Force truck. A truck for your job—that's Chevrolet, too. From pickups to middleweights to high-tonnage tandems, there's one just right for your job. See your Chevrolet dealer. He'll show you a model that's practically made to order for your kind of hauling.

Chevrolet Task-Force 57 Trucks

The "Big Wheel" in trucks!

Only franchised Chevrolet dealers display this famous trademark

READ THIS STARTLING FACT

5 out of 10 smaller cars wear a Pontiac price tag —yet none gives you any of Pontiac's advantages

PONTIAC GIVES YOU UP TO 8.9% MORE SOLID CAR PER DOLLAR!

Not one of the smaller cars can give you the heavy-duty construction, the road-hugging feet and solid security that surround you in every Pontiac. Yet Pontiac's the nimblest heavy-weight you ever managed—and your Pontiac dealer can show you more than six dozen advanced-engineering reasons why! Pontiac has gone all out to make this genuine big car the best behaved beauty that you ever had the pleasure of bossing. You'll find Pontiac's exclusive Precision-Touch Controls make steering and braking the surest, easiest you've ever experienced! Park it, cruise it, try it in stop-and-go traffic... this is driving the smaller jobs can't duplicate!

PONTIAC GIVES YOU 4 TO 7 INCHES MORE WHEELBASE!

The small cars extend bumpers and fenders to look big—but Pontiac puts the extra length where it counts—between the wheels! Pontiac's longer stride brackets the bumps instead of riding on them. And this extra length shows up inside, too, in stretch-out space for six footers. Add to Pontiac's bonus in length its all-new suspension system and you have an exclusive Level-Line Ride no car at any price can surpass... and a built-in sense of direction and security that will spoil you for the smaller cars forever!

PONTIAC'S PERFORMANCE TOPS THE BEST THE SMALL CARS CAN OFFER—BY A WIDE MARGIN!

Not one of the smaller cars can measure up to Pontiac Performance. Whether you judge a power plant by engineering statistics or on-the-road performance, Pontiac's Strato-Streak V-8 stands head and shoulders above anything in the low-price field. Your Pontiac dealer will be happy to show you a complete facts-and-figures comparison—then an eye-opening test drive in traffic or out on the highway will supply all the heart-lifting proof you need that Pontiac has separated the men from the boys when it comes to performance!

—AND PONTIAC HAS ALWAYS BEEN FAMOUS AS ONE OF AMERICA'S TOP TRADE-INS!

Maybe it comes as a surprise to you that so much more car can be yours at the same price you've seen on the smaller cars. But there's the fact! And Pontiac is a wonderful investment, too! As you know, it has always commanded a top trade-in. So why not step out of the small-car class and into a Pontiac... there's nothing in your way. Your Pontiac dealer has the keys and an eye-opening offer waiting for you right now! So why not look and feel like a million—instead of a million others?

NOTE! If you want the ultimate in both economy and extraordinary performance, new Tri-Power Carburetion is available at extra cost on even the lowest priced Pontiac models! It's America's newest power advance and exclusively Pontiac's at so low a cost!

TRADING'S TERRIFIC RIGHT NOW!

Liquorist Hits Bottle in Moral Way at Meetings

WINONA LAKE, Ind.—About the last place you'd expect to see liquor bottles prominently displayed would be in a revival tent.

But "converted" whisky bottles are a part of the evangelistic equipment used by the Rev. Curt Emmons. They form a musical instrument played at services by his 20-year-old daughter, Ethelee. She taps them with wooden sticks—vegetable-brush handles—bringing forth a ringing sound.

Many liquor bottles are picked up, but few are chosen for the ecclesiastical musical instrument. Emmons explained that perhaps as many as 250 are tried and found wanting before a bottle with the right musical tone is found.

Ethelee began playing snare drums when she was 7. She has played various instruments at the services and took up bottles about eight years ago.

The bottle that would be most difficult to replace is a piercing, high-pitched, half-pint gin bottle from London, England. It produces the highest note of the keyboard of some 27 bottle keys. Some of the bottles used for lower notes contain varying amounts of water.

When a bottle is broken Emmons begins hunting around vacant lots and other likely spots for discarded bottles. The keyboard contains bottles from 12 different states including Kentucky. The labels have been removed.

Amber bottles produce better tones than clear bottles—why, Emmons doesn't know nor could he account for the fact that only one of more than 200 bottles that look just alike is suitable for musical purposes.

Emmons told of a drunk who staggered in to the meeting one night and came up to the front row, where he could get a good view of the bottles. After the sermon, he went to the altar and re-nounced whisky.

"He walked out of that meeting as straight as you or I," Emmons said. "God sobered him up."

Purple Heart Veteran Deported as Wetback

SAN ANTONIO—Immigration authorities sent a 21-year-old Purple Heart veteran of Korea back to Mexico as a "wetback" recently.

The veteran, Cpl. Alberto Gonzales of Monterrey, Mexico, was sent in an immigration bus to Laredo, Tex., to be put off in Mexico. Immigration Officer W. L. Meuhlhause said he had entered the United States on a dead man's birth certificate before he joined the American army three years ago. Wetbacks—named for those who swim the Rio Grande—are illegal entrants.

The G.I. Forum, which works on the problems of Latins in San Antonio, assigned an attorney, Richard Casillas, to the case with instructions to "go all the way to the state department if necessary" to allow Mr. Gonzales to live in the United States.

The immigration office said he was being allowed to leave the country "voluntarily" and predicted he could get a permanent visa from the American consul in Mexico that would allow him to come back in time for the wedding.

Mr. Gonzales was discharged from the army at Fort Sam Houston.

He joined the Army Sept. 17, 1948, and enlisted for another three years on the same date last year. Vella Sanchez, 20, his fiancee, said he had spent a year in Korea, with headquarters of the Eighth army.

"He was wounded in the hip and got a broken ear drum," she said. "He has the Purple Heart, five campaign stars, the United Nations ribbon, the Korean service ribbon and a unit citation."

Spare Parts for Body Are Available to Man

NEW YORK—Spare parts for the human body still can't be ordered from a mail-order catalog.

Nevertheless, the advance of medicine during the past few years has made available an imposing array of replacements for damaged or ineffective organs.

Following the development of the blood bank, first of the spare-part repositories, ingenious surgeons have found ways to maintain banks for eyes, bone, cartilage, arteries and veins. There are now methods for transplanting whole organs from one individual to another, and for constructing replacement organs from tissues taken from the patient's own body.

Some man-made spare parts, such as the artificial kidney, are already coming into clinical use, while others, among them the mechanical heart and plastic heart valves, are well along in the experimental stage.

Most Drinking Starts Before College Days

NEW HAVEN, Conn.—Four out of every five college men who drink began their drinking before entering college, a researcher at Yale University's laboratory of applied physiology reported recently.

Robert Straus, research associate, disclosed for the first time preliminary results of a five-year study into the drinking habits of American college youth. This study was made by Mr. Straus and Selden D. Bacon, director of Yale's center of alcohol studies.

Of the American women students who drink, 65 per cent also started drinking before entering college, Mr. Straus said.

"The probability that a young person will drink at all," he continued, "is closely related to the practices of his or her parents."

"Of the men whose parents both drink, 90 per cent are themselves users. However, only half of the men (51 per cent) whose parents both abstain, drink."

"Where both parents are users, 83 per cent of the women drink on occasion. However, when both parents abstain, only 19 per cent of the women students drink."

He declared that parental advice on abstinence seems to be much stronger than advice from either church leaders or teachers.

Family income is a large factor "closely associated with the probability that one will use alcohol. Among those whose family income is under \$2,500, two thirds of the men and only 30 per cent of the women students drink."

G. I. Surprised That Duty Makes Him Hero

CENTER HARBOR, N.H.—Soldiers from this town perform their duties whether or not it makes them heroes. One was even surprised that performance of an especially hazardous piece of duty recently qualified him as a hero.

The following note was received by the parents of Pfc. Erwin Young notifying them he was chosen to receive the bronze star for gallantry in Korea:

"I did what I thought was my duty and they called it heroic action. I shot a Chinese at point-blank range and one of his hand grenades blew up in my face. I sure thought I had had the course. It didn't even mar my beauty, though."

"Things are pretty quiet here right now and we're all waiting to go into the army reserve."

I say, over there,
**WHAT'S THE BEST

Diazinon applied as an emulsion spray at 0.5 percent strength proved best of several chemicals used in tests to control house flies in dairy barns. Manning A. Price of the Texas Agricultural Experiment Station who has conducted the tests in dairy barns located in Brazos, Burleson and Grimes counties said diazinon emulsion spray controlled flies 59 days, compared with 51 day control when diazinon was applied as a wettable powder.

Doubling the solution of either type diazinon spray — 1.0 percent did not give any better control. In fact, it controlled the flies a shorter period of time than the 0.5 percent spray.

Other chemical sprays used included Compuud ET 14 which gave fly protection for 40 days when applied at the rate of 1.0 percent either as a wettable powder or an emulsion spray. Compound R 1303 protected against flies for 52 days, and Compound 4124 for 45 days.

The week of July 21-27 has been proclaimed as Farm Safety Week in the nation, and Governor Daniel has also asked rural families to join with their friends and neighbors in a continuing campaign aimed at preventing needless farm accidents.

CIGARETTES — DO THEY SPELL "EARLY DEATH"?

Austin — Half of the men and a fourth of the women of the United States smoke cigarettes daily, according to a recent survey of the U. S. Bureau of Census. That adds up to something like 38 million cigarette addicts — 25 million men and 13 million women. Those figures, besides revealing the extent to which the smoking habit has become ingrained among Americans, accentuate the grimness of the recently validated relationships between cigarette consumption and the general death rate, including dreaded lung cancer.

It took the American Cancer Society four years of concentrated study of the smoking habits of 118,000 men to reach these conclusions—

A 57 percent greater death rate from diseases of the heart and circulatory system among smokers as compared to non-smokers; a 97 percent greater cancer death rate; a 125 percent greater death rate due to pulmonary diseases excluding cancer; and a 29 percent greater rate of death from all other causes.

Among men over 50 with a history of regular cigarette smoking, the general death rate is 52 percent above the death rate for men who have never smoked.

The same study revealed a slight relationship between pipe smoking and lung cancer and practically no relationship between cigar smoking and lung cancer. Present studies indicate that the reason cigarettes are more important in the cause of lung cancer than either pipes or cigars is that tars in cigarette smoke is drawn in at much higher temperatures.

Should you stop smoking? You must answer that question alone. Ask yourself if the fleeting pleasures you get from cigarettes outweigh the risks involved.

FEW COTTON PESTS TO DATE

Weather conditions have continued favorable for growth and fruiting of cotton. While plants are not as large as normal for this late, cotton is fruiting at a satisfactory rate in most of the earlier planted fields, according to the Lubbock office of the Extension Service.

Although several of the cotton insects are present in most fields, infestations have not been heavy in most plantings. Aphids were reported present in some fields but infestations have been light. Thrips were present from light to medium infestations. Fleahoppers appeared in larger numbers as cotton reached the fruiting stage. Garden webworm (leafless weed worms) were reported in Lynn and other counties as worms moved to cotton as weeds were destroyed. Cabbage loopers were present in cotton on most fields. Grasshoppers appeared in damaging numbers in Dawson and other counties.

DAY'S END . . . Members of the all-Texas recruit company find time to write a letter home at the end of a busy schedule. Edward F. Follett, Jr., of Texas City (left), and Andres Canales, Jr., of San Antonio, write home after another week of recruit training. The Texas company will pay tribute to their State during the summer-long open house celebrating Great Lakes Navy Homecoming's "Salute to Texas" week, July 1-7. (Official U. S. Navy Photo)

Artists Found Home In Mountain Town

LITTLETON, N. H. — Tucked away on a back country road in this White Mountains community, a group of artists have "found a home" for summer activity in New Hampshire and have named it Rock Pool. They have converted and rebuilt old farm buildings into studios and an art shop. During the season skilled instructors demonstrate the arts of ceramics, sculpturing, painting, wood-cutting, and silver-smithing. The visitor to Rock Pool can watch the entire process of creation. For instance, in ceramics the clay is mixed, shaped, baked in the kiln, glazed and decorated in an individual studio with the most modern and complete equipment.

Each artist also holds classes in his own medium and students can learn the art of jewelry making, or take a sketching class with a professional model, or "show" a vase on the electric wheel.

A new idea in the art world, each of these artists is self-sufficient. Owner Bill Gordon has long been interested in arts and artists in Boston, and it was his idea to convert Rock Pool into an art center. He provided the lodgings and equipment and then turned the project over to the artists, who in return, give a percentage of their summer's intake back to make the project self-sufficient.

Of his project, Director Gordon declared, "It is inspiring to have this new colony here in New Hampshire, and there couldn't be a more logical spot for an art center than this peaceful and scenic countryside with its natural offerings of beauty to the artist."

Community Soaked As Indians Perform Ancient Rain Dance

ANADARKO, Okla.—The American Indian Exposition here was rainsoaked 12 hours after the Jemez Apache Indians completed a rain dance under a clear sky.

Chief Juan Gachupin and his 14-year-old daughter, Leonora, performed the rhythmic, stamping dance while two braves chanted and beat a tom-tom, before 10,000 delegates from 35 tribes and 6,000 palefaces.

Another performance was scheduled. The rain threatened to reduce attendance and slow down athletic contests.

Two years ago, the Kiowa Indians performed a "forbidden" pagan sun dance over the angry opposition of tribal leaders. It was followed by rains so heavy that they nearly washed out the exposition.

Farmers near Anadarko rejoiced after the rain. A summer drought had almost destroyed their cotton, peanut and feed crops. Chief Gachupin refused to take credit.

Asked through an interpreter whether he thought his dancing had anything to do with the rain, he grunted, "I couldn't say."

The Jemez tribe, descended from the pueblos, has claimed for centuries that the dance does bring rain.

Exposition officials said that the opposition to the sun dance in 1950 came from the fact that it was considered pagan.

Commuter Snags Train But Can't Hold It

EUREKA, Calif.—Loafers around the railroad station here tell this for the truth. Seems the station agent heard a loud crash on the platform. He ran out and saw the rear end of a train disappearing around a curve. A disheveled gent lay prone on the ground, surrounded by the contents of his banged-up suitcases.

An owlish youngster stared at the gent, but made no effort to assist him. "Was he trying to catch the train?" the station agent asked the youngster.

"He did catch it," replied the youngster, "but it got away."

Elusive Weather Stays Jump Ahead Of US Forecaster

DURHAM, N.C.—The weather is often wrong because "weather information is as perishable as a ripe tomato on a hot sunny day," a U. S. Naval meteorologist declared here at Duke University.

Addressing the Duke mathematics institute, Louis P. Allen of the office of naval research, pointed out that because of many weather elements and processes, "a forecaster cannot possibly comprehend and integrate all the information without taking most of the day to do it."

Weather maps, he explained, describe the atmosphere only at the earth's surface, and at the moment of observation.

Even with electronic computers, Allen said, the effort needed each day—both human and financial—to report the weather picture "staggeres the imagination."

Meteorologists know the main factors governing large scale atmospheric motions, he said, but more needs to be known about the total picture. This, he emphasized, requires new scientific tools.

"We cannot afford to let any subject which has so many far-reaching and profound effects upon civilization become merely a topic of conversation. We cannot control it; therefore we must predict it, and we need more than a screw driver and pliers to do it!" he said.

"The fallacy of our weather picture technique lies in the fact that the picture does not describe the processes which cause weather to be created and modified," he said, "nor does it throw any light upon these processes from which an understanding can be developed."

Earthquakes Unlikely In Flat, Level Areas

LOS ANGELES—Earthquakes occur more often in mountainous regions than where the ground is more level.

All mountains, except those of volcanic origin, result from the uplift of the earth's crust, followed by erosion which etches out these features. Where these processes are going on, great stresses are produced in the crust, and when the strains set up are relieved, great fractures called faults are produced. As huge blocks of the crust move along these faults, they set up the vibrations called earthquakes. In regions that are flatter, active mountain building processes are not going on. Such stresses are not produced, and earthquakes are less common.

Principal Outlaws T-Shirts, Dungarees

ROSELLE, N.Y.—Schoolboys should dress properly for an occasion and school is an occasion was the recent ruling of Albert S. Peling, principal of the Abraham Clark school here.

He told the parent-teacher association that clothes may make the man but all types of clothing are not becoming to school boys.

He called upon parents to see that their sons were dressed properly. "T-shirts and dungarees are all right for a job, he opined, but they are not appropriate for school attire. He made no criticism of the apparel of the girl students.

Farmers are reminded that they may now apply for a refund on the 3 cent Federal tax on gasoline used for farming. The refund claimed must be based on the quantity of fuel used for farming purposes on individual farms and ranches during the period from July 1, 1956 to June 30, 1957.

Curves Eliminated Between N. C. Towns

OLD FORT, N.C.—The re-location of a road between here and Ridgecrest is taking the hairpins out of a mountain trail, but the job itself is a hair-raising one.

With an army of bulldozers, tractors, trucks and other earth-moving machines, construction crews are making war against a mountain. In jeeps that scamper over ravines, like mountain goats, engineers direct the operation by radio-telephone.

The road-building project is based on the "leveling off" principle, which means filling in the valleys, as well as cutting through the hills. And in making the necessary "fills" and "cuts," workers must cope with the movement of millions of cubic yards of stone and soil, frequently working at angles that defy the law of gravity.

In the words of one engineer, "The project would be next to impossible were it not for jeeps, which we use for operating in all advanced positions, and for the many trips we must make to and from the field office." The radio-telephone system of communications was also rated as "vital to the project."

When completed this fall, the new road will replace an eight-mile section of U.S. 70, which has 98 dangerous curves and a bad accident record. The new highway will have two 22-foot lanes, no hazardous bends, only 19 curves of the easy-to-take variety, and it will reduce the overall traveling distance by a good two miles under the old route.

The construction firm of W. E. Graham & Sons, Cleveland, N.C., called the road re-location project the biggest ever undertaken on this side of the Mississippi. Pointed out, too, was the fact that the new road will have 10-foot shoulders and a drainage system utilizing heavy-duty culverts up to 54 inches.

A shower for pigs will pay during the hot months of the year. A No. 3 Tee Jet nozzle spraying as little as a 3 gallons of water an hour will keep from 6 to 10 pigs comfortably cool all day without crowding. It is good management to keep livestock comfortable.

Weeds on ranges use from 6 to 8 times more water than do good native grasses and advised as either mechanical or chemical control methods. Ask your county agent for publications on range management and weed control.
