Country Editor

During the time "Silent Cal" was president, we had a most unusual pourse in freshman English at Dall-

At a time when foreign exchange students were relatively unknown in the South, it was our good fortune to have a young lady, a grad-uate of University of Prague, as our

Instructor.

The purpose of the course, as it remains today, is to learn to write mechanically correct prose and the yardstick was ten blacklisted errors. I you made one such error, it was

One theme was to view a cutaway stage model of a room describ-ed in a famous novel of murder. After five minutes of studying the room, the model was removed and students wrote a theme on what

Blanka wrote a note inviting this 19 year old youth to her usual Saturday nite tea. To us it was better than an "A"

We remember sitting on the floor in an informal circle of older youths,

drinking black tea. eating a type of pickled fish and eating hard, dry black bread. The group talked of many things — and sitting there we many things -- and sitting there we learned to learn from the conver-sation of others. Today we are still absorbing the culture, the manner-isms, the experiences of others. isms, the experiences of others.

Everyday can be a day of education to each of us.

It was in that early period that we got an introduction to logic and

philosophy --perhaps a crackpot var-iety (at least mother thought so.) At one tea our teacher threw out e idea that if the spirit departs

the body at death—then the spirit had to enter the body. Was it before or after birth? And more important where did it come from? Thru natural development? Or from a large "reserve" of spirits. The discussion was not Bibicial in nature but of the earlier Greek logic. In later years we had a lady friend versed in astrology. She finally decided that yours truly was an 'fold soul' having traveled the road many times. If such is the case, we hope next time to be born with the ability of

thinking big -- like Billy Sol.
In a more serious vein, this Sept. ember, as we integrate the thesis of emper, as we integrate the thesis of learning by association will be put into practice. The minority races will learn our ways, our ambitions, our ideals from ASSOCIATION more than from text books. If each generation sees a better, more intelligent, more tolerant population. elligent, more tolerent populationit is from such a beginning as we will make in less than six weeks.

Downtown...

About all you can hear talked a-bout downtown these days are the crops, rain and the new business in town. Heard a fellow say the other day if the Lord would let it rain on unjust, he would take a bucket and pour it on his neighbor. Another fellow said he was thru with these Methorist farmers because they just didn't use enough water and from now on he was going to use a Bap-tist farmer on his place. It goes since this is written early for the paper, perhaps by the time you get it, the rain will have already come. It sure is nice to see some new

be first class and up to date in It appears to me that we have a

good business outlook here in spite of the pesmistic outlook of some. Always did hate to see a fellow drag his heels in the dirt. If you like O' Donnell, and the people here, you ought to tell somebody about it. No one ever slings mud without getting his head.

Nice Cotton Shower **Tuesday Morning**

A nice cotton shower Tuesday morning netted about half an inch of much appreciated moisture. The fall was general over much of this trade area and fell slowly. To the west of town the Wells and New Moore area has had several good cotton showers during the past week. Crops are generally normal for approaching August but bulk of area will be late due to June planting. Cotton chopping is in full swing

PONY LEAGUE PLAYOFF IS TODAY AT HOBBS

The Lynn Co. All-Star Pony League will play in a district playoff Wednesday (today) at 7:30 p. m. (N. M. time) at Hobbs. Members of the team from here are Danny Hale, Larry Emerson, John Emerson, Johnny Olbera and Tom Ed Vestal. Winner of the Hobbs games will play in the regional game next week at Denver City. The Lynn Co. chan-ces are good as they have a nice ball club.

Mr and Mrs. Jeff Shook and Lin-da visited their daughter, Mr and Sterling Bearden at Stephenville and saw Six Flags over Texas

Rites Read For Mrs. J. A. Edwards

Funeral services for Mrs. J. A. Edwards were held at 3 p. m. last Saturday in the First Baptist Chur-Saturday in the First Baptist Church of Lamesa with Rev. Milo B. Arbuckle, pastor of First Baptist Church, officiating Assisting Charles Charles and Church officiating Assisting Charles Char urch, officiating. Assisting were Rev. Calvin Partain of O'Donnell, and Rev. J. Wayland Edwards of Lubbock.

Burial was in the Lamesa Memorial Park under the direction of Higginbotham Funeral Home. Mrs. Edwards died of an apparent heart attack Thursday about

noon in a Lamesa beauty shop She was born March 30, 1900 in McLennan County and had lived in Lamesa for 12 years. Prior to that she and her late husband lived here without saying that a little rain, or a whole lot, would be welcome, and since this is

Survivors include four daughters
Mrs. Don Hackney and Mrs. Tommie Gibson of Lamesa, Mrs. Wayne Carroll of here, and Mrs. Lon development in the business section of town. A new cafe is going in which is going to be real nice. Also Dr. Rumbo's new clinic is going to yon. Mrs. John Vermillion of Rising Star and Verne Jordan of Austin and eight grandchildren.

Mrs. Edwards was a most grac-ious, Christian lady who had a wide circle of friends here mouring her homegoing.

Air Conditioning experts agree...

WATER cooling is BEST!

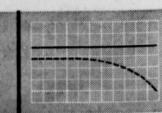

Youngsters learn mighty early about the cooling effect of water when the weather's hot. And air conditioning engineers know that water cooling is far more efficient than air cooling. The reason is simple . . . 85° water can absorb more heat from your home than 100° air.

That's why ARKLA-SERVEL Sun Valley's GAS air conditioners are WATER cooled! Water cooling, plus Sun Valley's "no moving parts" principle, gives you two big advantages unavailable with other air conditioners. One, a Sun Valley gives you CONSTANT EFFICIENCY, while air cooled units lose as much as 15% efficiency. Two, Sun Valley operating COSTS REMAIN CONSTANT, while air cooled equipment operating costs rise as much as 23%.

Barbecued turkey is excitingly new and tasty, and when cooked right it all but melts in your mouth. Because supplies of turkeys are pentiful, their use is suggested for the next family picnic,

Research studies by members of the Department of Entomology at Texas A and M College show that even light infestations of bollworms can cause sizable cotton yield loss-

FARMERS GIVEN S. S. INFORMATION

Most farm workers are now covered by the social security law. In order to determine if the work on your farm must be reported, the law provides certain guidelines. Generally if you employ a person to do farm work and pay him as much as \$150 cash wages in a year, or if he works for you 20 or more days for cash wages figured on a time basis, hourly, daily, etc. you must make a social security tax report. John G. Hutton, district manager of the Lubbock Social Security Office, pointed out that there is a question in he minds of some farmers conreceipt for his tax deduction at the end of the work, or at the end of the year, which ever comes first.

There are situations, Mr Hutton said, in which the crew leader and farmer have a written agreement that the crew leader is the farmer's employee. In this case, the mem-bers of the crew are the farmer's employees also and the farmer is responsible for deducting the tax and making the required reports for wages paid. In either case, the farmer is obligated to keep a record of the name, permanent address, and employer's identification number of

the crew leader. cerning tax reports for crew leaders and crew members.

The crew leader is the employer of any crew of workers he furnishes to do farm work and pays sufficient wages (either for himself or for you the farmer). If he brought a crew to your farm, it is his responsibility to keep a record of the name, addto keep a record of the name, address and social security number of each crew member who works enough to meet the \$150 cash wage or 20 day test mentioned above. He should withhold 3 1-8 percent tax from the pay of each such worker and match it with the employer's 3 1-8 percent when he files his tax report at the end of each calendar. report at the end of each calendar year. He should give the worker a Hutton said that free pamphlets for crew leaders and farmers are available at this time and can be obtained by writing this office at 161619th st., Lubbock, or calling PO 3-0456 and asking for "Socia Security Information for Crew Lead-

trs and Farmers, For next day your S. S. man will be in O'Donnell ask at the post office.

Many farmers are finding fertiliz-ers a good production item buy. The price of fertilizers has not increased since 1951 and Texas farmers have increased their use by 23 percent during the period. There is room for additional usage but a soil test should be used to determine the amount needed.

Water heater need replacing?

INSTALL A FLAMELESS

ELECTRIC WATER HEATER

AND ENJOY ALL THESE ADVANTAGES

SAFE-NO FLAME

Perfectly safe in any location, an electric water heater has no flame to blow out accidentally, no fuel to leak, no pilot light or flue to worry about. And the outside of an electric water heater is always cool to the touch.

EFFICIENT

Electric heating elements are in the water, inside the tank. The tank is completely insulated, even on the bottom, to prevent heat loss. And no heat is wasted up a flue. You get hotter water faster and it stays hot longer.

LONG LIFE

With an electric water heater, the tank bottom is not subjected to the corrosive action of flames. There are no valves to stick, no burner to adjust. An electric water heater assures you many years of trouble-free service.

INSTALLS ANYWHERE

Because an electric water heater requires no flue, it can be installed anywhere in the house, close to the point of greatest use. This saves long pipe runs and consequent waste of heat due to water cooling in the pipes.

SUNSHINE CLEAN

With an electric water heater, there are no by-products of combustion to soil walls or ceilings. No unpleasant fumes. No flue to accumulate soot. An electric water heater provides the cleanest method known for heating water.

MODERN-COMPACT

Choose from round or table top models at your plumber's or appliance dealer's. Compact round models require only four square feet of floor space. Table top models provide additional counter space in kitchen or laundry.

***50 INSTALLATION CERTIFICATE**

OFFER EXPIRES AUGUST 31

Good for \$50 on the retail purchase and installation of a new electric 40-gallon (or larger) glass-lined quick recovery water heater, replacing your present water heater. Offer good for installation in any home served by Texas Electric Service Company. Certificate available now and the August 31 only, from your appliance dealer, plus electrical contractor. See about it soon!

Sunshine is a source of vitamin D as most people know. What is apparestly misunderstood is that ordinarily healthy people can get all the vitamin D they need thru routine activities such as hanging out the family wash maying the lawn. the family wash, mowing the lawn or walking to the store. For persons suffering from pellagra, lung tuberculosis, high blood pressure or hyper-thyroidism slnlight may be definitely harmful.

In case you have wondered about the source of freckles, here is the answer: The color of everyone's ekin is determined by the amount of pigment in skin cells. Darkcomplexioned people have considerable, blondes very little. Under a microscope the pigment in skin microscope the pigment in skin cells looks like tiny flecks of brown paint. Sometimes, especially in the children, it is manufactured unevenly and collects in the spots we know as freekles.
