Eagles Meet Cooper Here Friday Nite

Opener Is Dropped 19 To 6

Coach Blair's hard-fighting Eagles will take Cooper to the cleaners come Friday nite at Johnson Field here according to the word going around town. The two teams are evenly matched, according to a scout who saw the Cooper-Hart game of last Friday nite. Week after next the Eagles will host a fairly strong New Home team.

Best Game In 50 Years
Last Friday's game with Petersburg saw the Eagles drop the opener 19 to 6 in a thrill-packed, fighting game. A near-capacity crowd on joyed one of the best games seen here since Mr. O'Donnell named our town.

The high-flying Eagles played a far better game than the score would indicate and due to first-games jitters made numerous fumbles and errors in running the new split-T formation. The Eagles also hung up a record for penalties with about 175 yards being stepped off - most of it in 15-yard doses.

35 Yard Pass Sets Up Score

Showers Help Area

A "cotton shower" late Saturday nite gave 4-10ths inches of rain locally according to Ben Moore, sr. The fall in this area ranged from half an inch to 3-10ths. The moisture was not enough to give the late feed the needed "shot-in-the-arm" but was enough to revive the cotton that was wilting during the unseasonable September heat. Current estimates are that the cotton crop in this area will be near to that of last year and the feed crop will be unusually short unless there is a very late frost date.

Among the younger set leaving for college are Sammy Saleh, Texas U., Miss Shirley O'Hare, E. N. M. C. at Portales, Ralph Simpson and Edward Noble to Texas Tech.

SEES NO VALUE IN URANIUM DIRT FOR HEALTH

Austin — The increasing number of uranium dirt and sitting houses in Texas are getting frowns of disapproval from the State Department of Health. Health Commissioner Henry A. Holle says the healing value of dirt containing minute amounts of uranium isn't worth the time it takes a man to cover his aching feet.

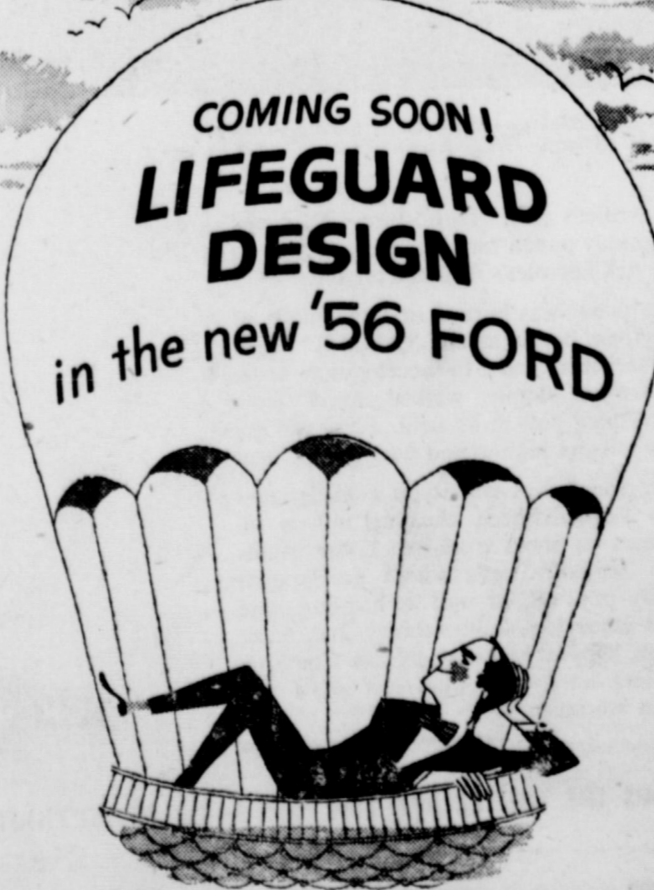

For the past six months the so-called treatment centers have been cropping up at various points until there are now dozens of them. Somehw the idea was started that the alleged radioactivity in the dirt was a cure-all for assorted aches and pains.

"Our industrial hygiene engineers have thoroughly checked 16 samples of supposedly radioactive dirt, and in no case has the concentration been more than that of normal background radiation."

Said Engineer Martin Wukasch: "The granite in the State Capital is more radioactive than any of the 16 samples. I've taken Geiger counter readings to prove it."

Wukasch demonstrated his point by passing an illuminous dial wrist watch over the Geiger counter probe. The needle of the counter jumped completely off scale. An ash tray, painted with uranium oxide, had the same result on the needle. But when the probe was buried deep in the middle of the 16 dirt samples, the needle was barely affected, no more than it would have been had the probe been held in mid air.

Some landowners now in the uranium "healing" business have erected tents in which patrons can sit while absorbing alleged radioactive emanations. Others have soft drink stands where patrons can refresh themselves while awaiting their turn.

A Health Program For Schools

Every school should have a definite school health program. Situations such as, the kind of drinking water, arrangements for the school lunch, the lighting, seating, ventilation and cleanliness of the schoolroom and the personal practices of the teachers and children are the bases of the school health program.

Every school has tremendous opportunities to promote the health of its pupils and of its community. From early childhood to early manhood and womanhood, most children are enrolled in schools and are under the supervision of school staffs for a substantial part of the day for about half the days of the year. The conditions under which they live in school, the help which they are given in solving their health problems, the ideals of individuals and community health which they are taught and the information and understanding that they acquire of themselves are factors which operate to develop attitudes and behavior conducive to healthy, happy and successful living.

According to the State Health department, schools alone cannot enable children to attain all the desirable goals of individual and community health. Considering the magnitude and multitude of the diverse and continuing efforts that must be made to satisfy the health needs of children, it is fortunate that many people and groups, in addition to schools, are greatly interested in promoting health. Parents have a prime responsibility.

GROUND OBSERVER PROGRAM COMES TO O'DONNELL

A representative from the Defense Filter Center in Dallas presented a program about the Ground Observer Corps in the O'Donnell High School auditorium at 7:45 p. m. on the night of Sept. 22nd.

The Ground Observer Corps, a component of Civil Defense, is composed entirely of civilian volunteer airplane observers. Observer posts are being established throughout the United States to supplement the radar network of the U. S. Air Force in watching for unidentified airplanes that may try to invade our country. In Lynn County, observer posts will be established as well as at Tahoka, New Hope, Wilson and Draw. To support the posts, it will require approximately 20 volunteers from each town who can donate two hours of their free time out of each month.

Any person interested in taking part in this vital program is invited to attend this meeting. A brief outline of how the GOC

NOTHING IN ITS FIELD CAN MATCH CHEVROLET FOR ACCELERATION!

Drive with care... EVERYWHERE!

Great Features back up Chevrolet Performance: Anti-Dive Braking—Ball-Race Steering—Out-rigger Rear Springs—Body by Fisher—12-Volt Electrical System—Nine Engine-Drive Choices.

When you need a quick sprint for safer passing, this V8 delivers!

It's pure dynamite, and you have to go way, way up the price ladder before you ever find its equal.

Chevrolet's new "Turbo-Fire V8" packs a Sunday punch for safer passing that no car in Chevrolet's field can match!

The proof was burned into the sands of Daytona Beach at the NASCAR* trials earlier this year. In acceleration tests, Chevrolet simply walked away from everything else in its field. Plus—and get this—all the high-priced cars except one!

Surprising? Not when you consider that this beauty's been cleaning up on all comers in short track stock car events this season. That's where acceleration really pays off, as well as handling ease and cornering ability—things that mean safer, happier highway driving. Come on in and let a new Chevrolet show you what we mean.

Kitchen's brighter . . . work seems lighter

See your dealer soon about lighting equipment and right-size bulbs to modernize your kitchen lighting.

You'll avoid working in your own shadow with an incandescent or fluorescent fixture over your sink.

Fluorescent lamps under cabinets illuminate work surfaces, make kitchen chores easier.

Good lighting means faster and easier work in the kitchen. It's easier to read recipes . . . to make sure that dishes are clean . . . to check details of food preparation . . . to find things in drawers and cabinets when your lighting is properly planned. For proper lighting most kitchens require a 150-watt bulb for the center ceiling fixture with good "local" lighting at sink, range top and work counters.

EAGLES Continued front page

The closing five minutes of game when Q. B. Jearld Barton tossed a beautiful 35 yard pass to Bobby Sumrow in the shadow of goal. A short belly-pass by Barton to Ben Rieberg was good for the counter. Actually the visitors had the better team but were only one T. D. better than the Eagles. Errors accounted for the difference. Coach Brock's line looked better than any line here in recent years. The fans were pleased with the spirit of the team and the new split-T of Coach Blair will make the Eagles a real scoring machine by mid-season. A good guess Friday nite:

Eagles: 25; Cooper 13 — the Eagles should have a two T. D. difference.

Mr and Mrs. Richard Merritt of Carthage, Ill. were guests of Wayne Vandivere and family last week. The two men were buddies while in service.
