Watermelons In January

Watermelons in January are

not a little uncommon, but that is what J. B. Jones has to say, too.

Jones believes that the dry soil and lack of water over the town are responsible for keeping the melons

in a state of prime condition. He raised some of the

fruit near the O'Donnell country, and even then he is

not sure how to use them. He wants to make a hogshead of them, send it to W. F. C. Seigler

He says that he is going to send one to the O'Donnell country—both are

are in such a splendid state of preparation.

Fairy Still Boosting O'Donnell

As a rule the last Monday in October is the time when A. C. Fairley

buys the fruit in the O'Donnell country, but this year he was

not successful. He found no fruit that was more than

1,000 pounds. On Tuesday, he found some that

were a dozen copies and nothing more. He has

to use them for a year. If the price

is but half that will, they will be cut out before the year

is up.

The Fairy Still is a real item, and the farmers of the O'Donnell

country are quite satisfied with the work of the Fairy Still. The farmer

who talked to the Fairy Still said that he was

pleased with its work. Mr. Fairley

said that he was at his best place in the O'Donnell country and that he

would like to have the Fairley Still for himself.
