Quarterback Club Sets First Meeting For Tuesday Night

The Iowa Park Quarterback club will meet next Tuesday evening at 8:00 in the high school auditorium.

According to Pete May, president, plans will be made for a membership drive. Also there will be discussion on selling programs at football games and making movies of home games.

Last year the club bought a blocker-tackler, secured an electric score board, made pictures of seven games, sold football programs, paid officials for junior high games, sold tickets and operated the concession stand at junior high games, honored the squad with a dinner, and bought a plaque for All-District players.

This is not exactly bragging, just letting patrons and fans know where the money was spent and just what the Quarterback club means to our football boys and their coaches.

Mr. May said, "Don't forget next Tuesday evening. Come out and meet our two new coaches, Bob Covington and Gene Snipes, and let them and the boys know you are backing the Hawks all the way—win or lose."

Wayne House is vice-president, and Bill Sawyer, secretary-treasurer of the club.

JOINT MEMBERSHIP
A joint meeting of the Lions club and the Chamber of Commerce membership will be held at the First Christian church next Tuesday at noon, to hear District Engineer L. B. Dean, Texas Highway Department, discuss highway improvement in this area. This is important.

Members of the chamber who are not Lions club members, are requested to telephone 2431 or 3552 for reservations for the Lions club luncheon before noon on Monday.

BROCHURE
Every day we are receiving requests for copies of the new folder of general information on Iowa Park.

In this morning's mail came a request from Colorado for 30 copies for military personnel coming to Wichita Falls. We quote in part: "I understand Iowa Park is a very desirable location for Sheppard Air Force Base personnel to live."

FORMAT FOR FACTS
We have received a 28-page questionnaire from the US C of C on facts about our local chamber of commerce. They promise us a survey of this size and scope will come

to us only every third or fourth year. We know surveys are necessary, because we've made them, and though they are a great deal of work, they are the best means of getting facts.

This one is asking for information accurately measuring gains and determining trends in the field of financing, membership, program of work, assessment of dues, staffing and salaries.

Well, it won't be any trouble telling them about the "staffing."

DEPARTMENT OF HEALTH
Is offering free chest x-ray examination again this year. It will be on Sept. 15 at Metz Appliance.

SCHOOL AGAIN
And more boys and girls are looking forward to it with pleasure than with pain. There are interesting days ahead for any child with a zest for living. Some are keen for knowledge, others are not interested. Perhaps education comes too easy for them.

The Manufacturer's Record tells of a drive for collection of millions of pencils for needy children in the US and other parts of the world who are handicapped in learning because they must use twigs from trees, lumps of coal, or just their fingers to trace letters in the dirt.

The drive is sponsored by Save the Children Federation, a 22-year-old organization dedicated to helping children of all groups.

Anyone interested may send their unemployed pencils to "Pencils Please," 1721 Park Ave., New York 35, N.Y.

Do You Wish Your Farm Workers Organized by the CIO and Yarborough?

The following news item was taken from the Dallas Morning News of Sunday, August 22, 1954:

SAN DIEGO, Texas — George B. Parr, the Duval County political power, said Ralph W. Yarborough would get his vote for Governor.

Parr interrupted a coffee-cup cafe conference with Roy Harrington of Austin, secretary - treasurer of the CIO State Council, to say that he was not particularly for Yarborough.

"It's just that I'm against Allan Shivers," said the political boss.

Parr said that on Wednesday night he went to Falfurrias to hear Yarborough make a campaign speech. Parr said he sat in the bleachers at the school stadium where Yarborough spoke and did not speak personally to the candidate. Some Parr-backed local officials sat on the platform with Yarborough.

"We haven't talked since before he announced," said Parr.

If You Don't Want Your Farm Workers Organized by the CIO, Vote against Yarborough!

HOW VALUABLE IS YOUR TELEPHONE SERVICE? Recently we asked a group of telephone customers to help answer that question by keeping a record of all the calls they made and received for a week. Like others in the group, Mrs. Felicia Littlejohn (above) was genuinely surprised at how much she depended on her telephone service and how it helped her through busy days. Altogether, Mrs. Littlejohn made and received 58 local calls in the seven days and she estimates that they covered a total of 345 miles... all for a few pennies a call. **SOUTHWESTERN BELL... The X-ray Survey

Remember — you have a date Wednesday, Sept. 15 — with the X-ray machine that will be in Iowa Park at Metz Appliance store from 9:00 a.m. through 6:00 p.m. Texas tuberculosis hospitals are over-crowded. Early tuberculosis can be cured through home treatment. X-rays find TB in its earliest stages.

In the U.S. this year over \$600,000,000 tax dollars are being spent to treat tubercular patients. It is a costly disease.

That one minute you spend at the free X-ray machine could save you months or years on a hospital bed.

Every mother, father, uncle, aunt and cousin; and yes, grandparents too; should be x-rayed to protect babies from catching tuberculosis. No one is too old or too young to catch the disease.

Don't Forget to Vote!

Booger Cage Playing Football in Europe With Army Team

Cpl. Harrell Cage, who is stationed in Germany, recently wrote home that he is a member of the football team of 1st AAA Group of 34th Brigade in Europe.

His team was in Mannheim at the time of his writing, then were to go to Berlin for seven days. They will have games this season in Paris, Berlin, Frankfurt, Karlsruhe, Stuttgart, Keiserslauter, Munch and Weisbaden.

The team colors are yellow and red for home games, blue and white for games on the road.

Harrell, better known here as Booger, is playing fullback and doing the punting and extra point kicking.

During the night some fiend had tossed poisoned food over the fence to the dog.

It seems that "poisoning dogs" happens several times a year in most cities. The person who does this sort of thing is like a thief who sneaks in the night to accomplish some dirty deed.

There is a law in Texas which punishes a person for inhuman treatment to dumb animals. I think poisoning would come under that heading.

There is a standing reward offered for information leading to the person who poisons dogs or other pets. If you have any ideas on this subject, contact your local Humane Society. Call 5542 in Iowa Park or call Wichita Falls Humane Society.

Many valuable animals are lost each year through the sadistic poisoning of dogs. I can name any number of valuable dogs that have been poisoned in this town!

Won't you co-operate with the Humane Society and help catch the dog poisoner? All information will be kept strictly confidential.

WARNING!

TEXAS FARMERS-RANCHERS WARNED OF CIO LABOR PLANS

AUSTIN, Tex., Farmers and ranchers of Texas were warned this week that the CIO plans to organize the farm workers of Texas if its candidate wins the Governor's race.

This warning came from Governor Allan Shivers who charged that the backers of his opponents "want to turn the state government over to the same bunch that is trying to wreck Port Arthur."

"One of the first things they would do is put one of their red-hot organizers from Port Arthur in as labor commissioner. Then every time a farmer or rancher wanted to hire someone he would have to go through the CIO."

Governor Shivers said there was no doubt in his mind that the aim of the CIO after the job of organizing industry in Port Arthur and along the Gulf Coast is finished is to begin organizing farm labor in all parts of Texas.

"You can imagine what will happen

when the CIO starts dictating how many laborers are needed to plow ten acres of land, refusing to allow a man to work more than thirty-five hours a week during the harvesting season and telling how much a farmer can charge for his crop," he said.

The Shivers administration, the Governor said, has worked hard to help preserve and protect the rights of the working man.

"But as long as I am Governor, the professional labor bosses who have been sent to Texas from the East — specifically those in the CIO and its Political Action Committee — are not going to run our State Government," Shivers promised.

Shivers said the average working man in Texas appreciated good government and that they were not going to let CIO bosses and professional organizers from the East do their thinking — and voting — for them.

CONFIDENTIALLY Mr. Motorist

There's been a lot of MYSTERY about this wheel aligning business—a lot of technical talk about such things as "camber," "caster," "toe-in" and other terms to explain why your automobile steers hard or wears out tires as fast as you can buy new ones. We don't believe in ghosts or mystery stories and that's why we've installed a new John Bean VISUALINER in our Steering Service Department.

The VISUALINER is the first machine we've ever seen that makes driving easier and safer by harnessing beams of light. Checks wheel alignment quick-as-a-flash and projects a "picture" on a screen so that you can see for yourself whether your car needs attention. It's no secret that faulty wheel alignment can cause "wandering," "road weave" and other hard steering symptoms. So, drive in today and let the VISUALINER show you whether your automobile is right for the road.

MISS KIDWELL HAS TAUGHT PARENTS OF FIRST GRADERS

Several pupils who will begin their schooling in Iowa Park next Monday have parents who also were pupils under Miss Ethyle Kidwell, principal of the elementary school. Among these are Janet Kimberlain, whose mother Mrs. Nell Reaves

Kimberlain, was in the graduating class of 1931.

Dennis Hill's parents are Donald Hill, 1934, and Mrs. Annie Lee Jacks Hill, class of 1931.

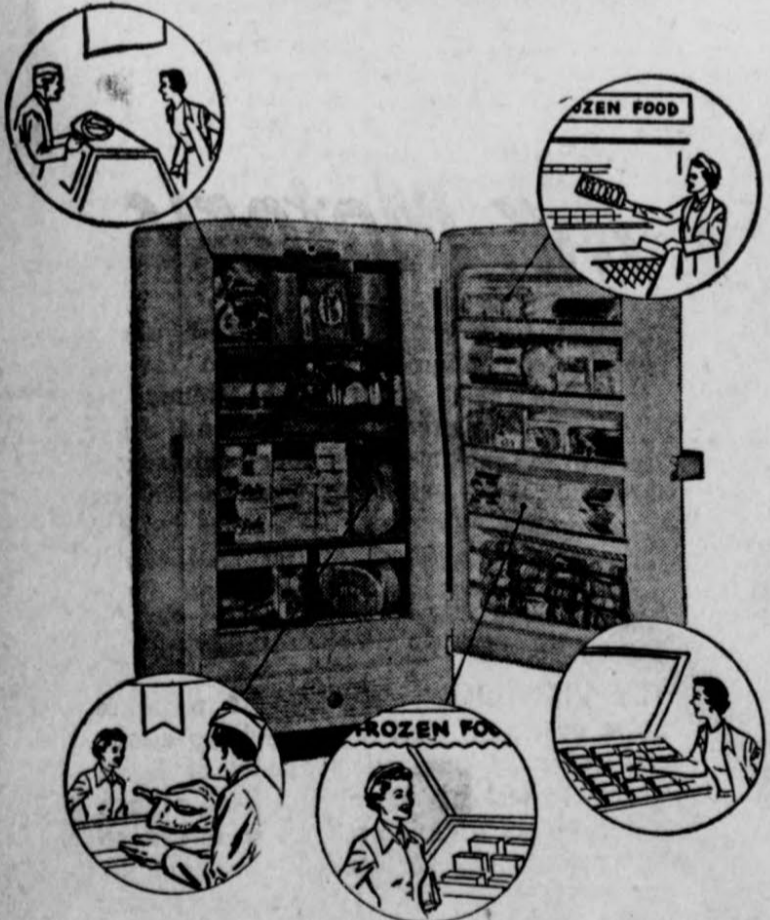

Denny McCarthy's father, Louie McCarthy, got his sheepskin from Iowa Park High School in 1927.

Children above are Betty Levell, daughter of Mr. and Mrs. Maurice Levell; and Tom Boren, son of Mr. and Mrs. Earl Boren, Valley Farms.

Sam Hill and his staff get a big kick out of helping the school folk get started off right each fall, with just the right accessories to make classwork fun. The School Bells Are Ringing

Let's All Be Careful!

Records of the Safety Associations reveal that one out of four traffic fatalities are pedestrians. The undersigned individuals and businesses urge all parents to instill in school children a respect for the 'Signs of Life.' These signs of life are found on almost every intersection of Iowa Park streets and highways. If all people will observe caution in walking as well as in driving, the children, great imitators all, will naturally learn to do the right and safe thing.

We cannot stress too strongly the need for care in driving on all the streets of Our Town, and especially at times when school children are en route either to or from school. There is no errand to be run which is as important as the life of even one of our little ones.

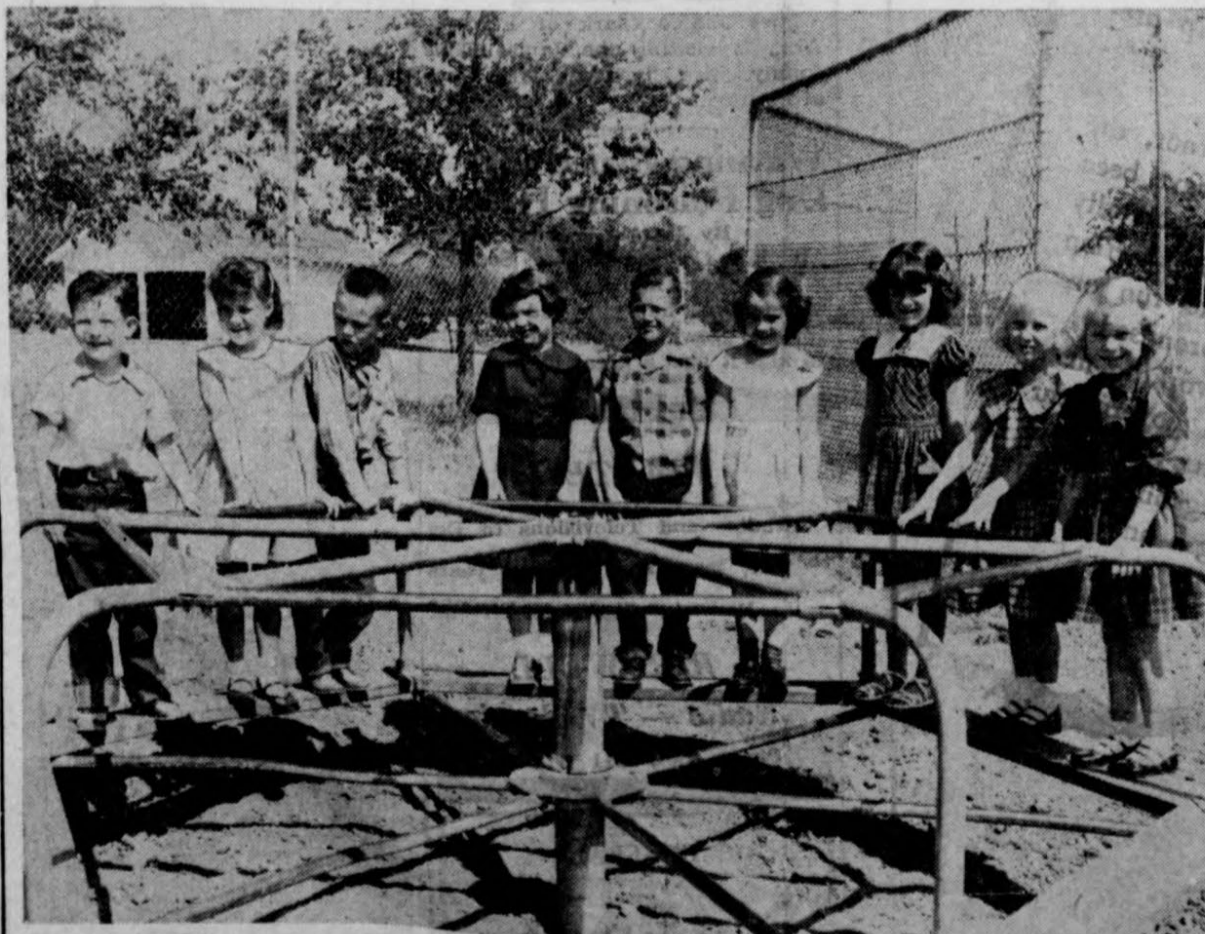

Pictured here are some of the children who begin school in Iowa Park next Monday under the trained supervision of Miss Ethyle Kidwell and a staff of experienced teachers.

- Eager, ready and waiting for their first day are:
- Ann Parkey, daughter of Mr. and Mrs. Fred Parkey.
 - Mickey Smith, daughter of Mr. and Mrs. Roy Smith.
 - Debbie Williamson, daughter of Mr. and Mrs. Lee Horn.
 - Rita Guthrie, daughter of Mr. and Mrs. N. E. Guthrie jr.
 - Louis Dale Kingcaid, son of Mr. and Mrs. Pat Kingcaid.
 - Denny McCarthy, son of Mr. and Mrs. Louie McCarthy.
 - Miss Kidwell, principal of the elementary school.
 - Carolyn Lowrey, daughter of Mr. and Mrs. Gene Lowrey.
 - Janet Kimberlain, daughter of Mr. and Mrs. Roy Kimberlain.
 - Dennis Hill, son of Mr. and Mrs. Donald Hill. Parents of these children have been busy outfitting them for their first term of school, and most of the clothing worn by these youngsters was bought at local stores.
