IOWA PARK, TEXAS

## Howell, Rusk win in trustee voting

Newcomer Jimmy Howell topped all candidates in Saturday's school trustee election, and won one of two slots on the board.

G.R. "Rusty" Rusk was the only incumbent seeking re-election, since Jesse McCullough had opted not to run again, and was also a winner.

Howell polled 492 votes and Rusk 438.

Howell was a Vocational Agriculture instructor at Iowa Park High School several years, resigning a few months ago to go into business.

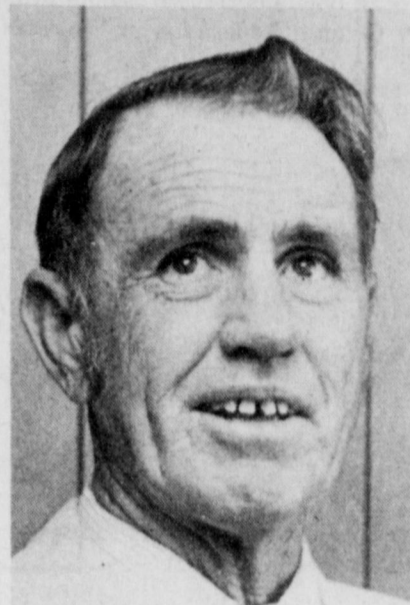

A total of 879 voters turned out at the polls, of which 585 voted at the Kidwell box, 213 at Bradford and 81 at Valley View.

Voting results were:

	K	B	VV	Total
Howell	290	123	79	492
Rusk	318	117	3	438
Mercer	224	60	3	287
Downes	87	27	72	186
Klinkerman	130	53	0	183
Gilmore	73	22	0	95
Hayley	49	22	1	72
McKenzie	27	6	6	39
Hambright	19	9	1	29
Lawson	19	5	0	24
Ikey	7	0	0	7
Lucas	2	5	0	7

JIMMY HOWELL

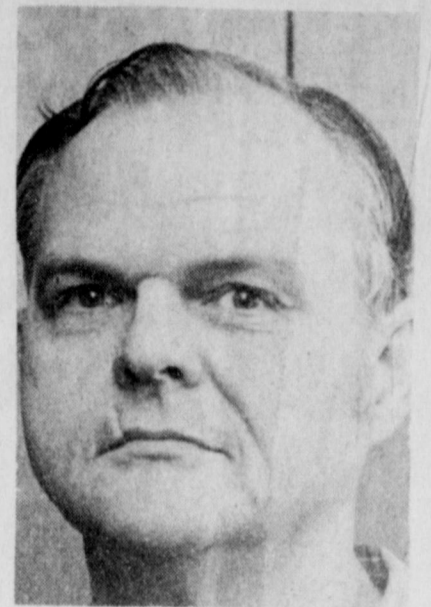

RUSTY RUSK

JOHNNY CRAWFORD

LITA WATSON

BUD THOMPSON

## Crawford narrowly defeats Smith for mayor's position

Incumbent Johnny Crawford narrowly edged newcomer Lloyd Smith in the mayor's election Saturday, by a scant 27 votes.

The only other incumbent in the city election, Mrs. Earl F. "Lita" Watson, won handily in her bid for a third term as alderman.

The other council seat, for which no incumbent was running, was won by former alderman C.E. "Bud" Thompson.

Voting in the election was considered very light by observers.

Crawford, seeking his third term as mayor, built up most of his lead in the Kidwell box, where he drew 276 of his 325 total votes. Smith received 220 votes at Kidwell (Precinct 32) and 78 at the Bradford (Precinct 33) box, to account for his 298 votes.

The third candidate for mayor, Marlin "Jim" Sargent, polled 67 at

Kidwell and 27 at Bradford for 94 votes. Like Smith, this was his first attempt to run for a public office.

Mrs. Watson and Thompson will be declared winners, along with Crawford, when the votes are canvassed at the next regular meeting of the city council, which will be Monday. All races were at-large.

Attracting the most votes in the Kidwell box, and also in the overall election, Mrs. Watson drew 391 votes at Kidwell and finished with 474 for the day.

Thompson led all voters in the Bradford box with 86, and drew to within 30 of Mrs. Watson with 444 votes.

Carmen Lozipone finished third with 166 votes, Buddie Johnson had 151, Steve Coy 97 and Harry Stokus 38. Four write-in votes were also recorded.

Thompson replaces Johnny Lee on the council. Lee had declined to seek re-election, citing conflict of hours with his real estate sales business. He had been in the furniture business when he was elected two years ago.

MAYOR	Pct. 32	Pct. 33	Total
Crawford	276	49	325
Smith	220	78	298
Sargent	67	27	94

ALDERMAN	Pct. 32	Pct. 33	Total
Watson	391	83	474
Thompson	358	86	444
Johnson	89	62	151
Lozipone	126	40	166
Coy	74	23	97
Stokus	32	6	38
Sargent	2	1	3
Voyles	1	0	1

with three gallons; and water will be recycled from sewer treatment plants for public consumption.

Parkey said the proposal to import water from Oklahoma and Arkansas would one day come about, but it would all go to the high plains of the state, where 30 percent of the nation's food is produced.

He believes the project to control salt pollution of the Kemp Lake watershed will one day be completed, and be usable for human consumption.

The \$11-million appropriation for the salt pollution control project this year was cut by \$2-million recently when Pres. Carter balanced the budget.

"If I were Iowa Park, I would buy all the water I could from the Ringold project; make plans to buy from the water district, if it is available; and make sure all wastes of water were eliminated, such as leaks, faulty meters and the like," Parkey said.

## Water key to future

Water will one day be our most precious commodity.

Fred Parkey, the area's most qualified authority on the subject of water, made the statement Tuesday when he spoke to the Noon Lions Club.

Everyone is thinking about the cost and shortage of energy fuels today, Parkey said, but alternate sources can be developed. There is no substitute for water, he pointed out.

Every site for entrapment of water in this part of the country has been developed, with the exception of the Ringold area. In the near future, area cities are expected to band together and build a dam there.

Parkey said Iowa Park should purchase as much of that water project as possible, in order to insure future water supply.

Without water, growth is impossible, he said.

He forecast that one day meters would control the maximum amount of water a home or business could purchase; people would stop watering lawns; showers would be accomplish-

## Trustees pick Boutwell to head school board

Roy Boutwell was elected president of the Iowa Park school board during the board's reorganization Tuesday night.

Boutwell, beginning the second year of his second term on the board, succeeds Bill Spruiell, who had served two years as board president.

Delbert Catlin was elected vice president and Martha Dudley secretary.

"I've enjoyed serving as president the past two years and I've appreciated all the cooperation involved," Spruiell said as he exchanged seats with Boutwell.

Boutwell said he appreciated the work Spruiell had done, "especially during the past year I've been on the board. I just hope the next year and future years will be as productive as the past year," he said.

Reorganization of the board took place following the administering of oath of office to Rusty Rusk and Jimmy Howell, both of whom were elected in voting Saturday.

A resolution honoring Jesse McCullough for his many years service on the board was read and approved. McCullough, who was not present Tuesday, did not seek re-election for another term.

A good portion of the meeting time was taken up with discussing maintenance plans.

In closing down the Valley View campus this summer, trustees approved a proposal that metal building siding be used to cover the windows. This would allow the least amount of disfigurement of the structure when it is re-opened.

Students attending the fifth and sixth grade classes at Valley View will be moved to Iowa Park beginning next year.

Personnel will inventory books in the library there, and dispatch them to their respective campuses in town during the summer. Furniture will also be brought to the different schools, it was pointed out.

Trustees approved using vinyl tile to cover the floors at the junior high's blue metal building, where some classes will be held next fall, at a cost of \$3,000.

The administration building will be completely carpeted, replacing carpet which was installed some 15 years ago. Cost of that project will be approximately \$2,400.

Tile covering will be put on the

high school basement classroom floors during the summer, at a cost of \$4,000. To carpet the area would require \$16,000, Supt. Harold Cowley said.

At least two, and possibly more, current routes covered by school buses will be eliminated next year, Bill Steger told board members. He has not yet completed a study to determine how many routes will be required.

Gasoline for buses is now costing \$1,052, Steger said.

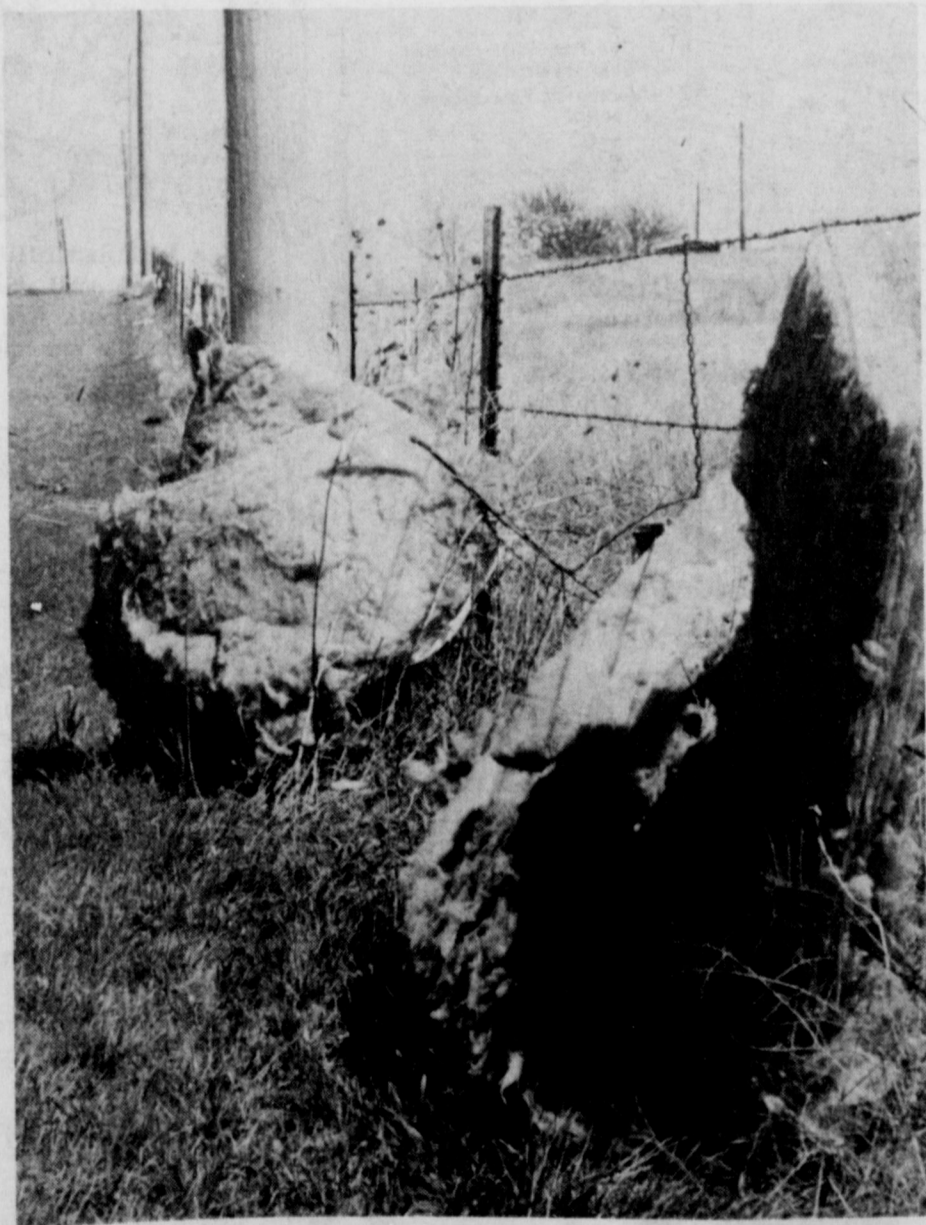

The board of equalization will meet July 18 for local tax hearing, at the

administration building, and July 21 for oil and utilities tax hearing. Steger proposed. Board members approved the proposal.

Contracts were extended to all maintenance, custodial and cafeteria personnel, with cost of living raises from seven to 10 percent being approved.

Two resignations were received and approved. Dianna Self, history teacher at the high school, resigned, as did librarian Jan Crow.

A request for the high school band to hold a bake sale to raise funds for its annual banquet was approved.

**BIG BLOW AFTERMATH** - Winds gusting in excess of 50 miles per hour Monday evening were credited with considerable damage to roofs in Iowa Park. It also caused damage at Iowa Park High School, where sheets of insulation were blown from the walls of a gymnasium presently under construction. The insulation was caught in a barbed wire fence on the south side of the campus.

## Scouts volunteer help to Chamber

This year's annual city-wide clean-up got a shot in the arm when Boy Scout Troop 38 volunteered to not only work, but solicit other youth organizations to help out.

Co-sponsored annually by the Chamber of Commerce and city, the final day of clean-up week has been when groups would pick up trash along side major roads and in parks and vacant lots.

However, the past two years, very few volunteers have made themselves available. In fact, last year only two young boys and an adult reported.

Clean-up week will be April 21-26 this year, and the dates are the same as nationally-designated "Keep America Beautiful Week."

Groups wishing to volunteer their help should contact the Chamber of Commerce, April 26th, all volunteers will have areas designated where they will be asked to work.

### Weather Report

Weather reports are officially compiled for Iowa Park at the Texas Experiment Station, southeast of town.	
Rainfall for week.....	.10
Total for month.....	.10
Total for year.....	2.79
Total last year.....	6.66

**POSSESSION CHARGED** - Mikel Budge Brookshire, right, was charged Wednesday evening of last week with possession of a controlled substance after being arrested at his home at 918 Van Horn by Iowa Park police. Officers entered the home shortly after 7 p.m., armed with a search warrant. He was taken before Justice of the Peace Virgil Hill, who set his bond at \$1,500, and then taken to Wichita County jail. Shown unlocking the police station door is officer Billy Hamilton.

ANGELA CORBETT and KERRY JOHNSTON

## Announce engagement

The engagement of Angela Carter Corbett and Kerry Johnston, son of Mr. and Mrs. Gene Johnston of Iowa Park, has been announced by her parents, Jim and Gloria Corbett of Irving. The couple will exchange matrimonial vows June 7.

Miss Corbett was graduated from McArthur High School at Irving and is attending Mountain View College. She works as a receptionist at St. Stephens Presbyterian Church in Dallas.

The future groom was graduated from Iowa Park High School and

received a bachelor of music degree summa cum laude from Midwestern State University. At the university, he was named Outstanding Young Man of America for 1979 and was vice president of Cap and Gown, an honorary scholastic society. He belonged to Alpha Chi, a scholastic society and was president of Phi Mu Alpha Synfonia, an honorary music fraternity.

He is attending Perkins School of Theology at Southern Methodist University and is organist and choir master at St. Stephens Presbyterian Church.

## Yoga, egg painting are club's program

The Home Life program for the 23 Study Club Thursday afternoon was presented by two guests, Mrs. Carl Siegler of Wichita Falls and Mrs. O.R. Moore of the Valley View community.

The meeting was held in the home of Mrs. C.A. Hicks and Mrs. L.E. Brooks was co-hostess.

Mrs. Rollins Woodall served as program coordinator, introducing each program phase and participant with poetic lines to achieve effective continuity.

Mrs. T.M. Clark used "The True Meaning of Easter" for the theme of her devotion.

Mrs. Siegler, who teaches a class in yoga at the YWCA in Wichita Falls, stressed and demonstrated how learning to maintain good health serves to keep people active and alert and recommended the yoga form of exercise as an excellent aid.

She said that yoga is not something mystical or terrifying but an exercise that has for its advice "be aware of your body." She showed club members exercises that they could do at home, the relaxing way of breathing and urged them to be aware of their bodies by keeping them flexible, watching the diet and relaxing.

As Mrs. Moore stood by her display of egg artistry in the den of the Hicks' home, she told how egg decoration has been a splendid art for many centuries, with each country contributing its own designs and this culminated in the priceless, richly-

splendid designs of jeweler-artist, Carl Faberge. His name has become synonymous with beautiful eggs and his work serves as a stimulus for artist and craftsmen today, most of them work with far less expensive and elaborate materials.

Mrs. Moore's exhibit of the egg art creations formed from turkey, goose, ostrich, rhea and quail eggs, some hand-painted and decouped, others decorated with braids, rhinestones, beads, pearls, difficult cut designs, hinged windows and doors, many with surprises inside, attested to her mastery of the art within the space of three years.

Mrs. Earl Watson, federation counselor, thanked club members for their support and gifts during her two-year administration as Santa Rosa District president, and announced the TFWC convention at Amarillo April 24-27.

During the business directed by

### Sorority slates salad supper

Epsilon Eta chapter of Epsilon Sigma Alpha will hold its annual salad supper Tuesday at 7:30 p.m. in the Fellowship Hall of First Christian Church.

Entertainment will be provided by the Iowa Park High School Madrigal Singers, under the direction of Janet Walker. All active and inactive members of the sorority are invited.

Mrs. Erwin F. Soell, an announcement was read by Mrs. Chauncey Weiler concerning the association of Dr. Drew Grand Sawyer, formerly of Iowa Park and the recipient of the 23 Study Club's first Outstanding Senior of the Year award in 1964, with Dr. Ronald W. Deskin, M.D. and Associates in Austin. He had previously become a Diplomat, American Board of Otolaryngology.

Mrs. Soell distributed ballots from the General Federation of Women's

Clubs giving members the privilege of registering their votes against inflation. They will be returned and given to the nation's leaders in Washington.

An Easter motif was carried out on the refreshment table laid with a white cutwork embroidered cloth over pink satin. The centerpiece was a floral arrangement of purple Dutch iris, pink, blue, yellow and green dahlias flanked by Mr. and Mrs. Easter Bunny and colorful eggs.

# Cook of the Week

An interview this week with Terry and Tracy Taylor, daughters of Mr. and Mrs. Darrell Taylor, who are our Cooks of the Week, led us to prognosticate that they will be most excellent "Cooks of the Future." The training and experience that they are getting through 4-H Club work is valuable to them now and will be as future homemakers. Today, they share the recipes for some of the dishes that they have entered in 4-H Club shows.

Terry and Tracy Taylor

Both girls are members of the Iowa Park 4-H club and Terry is serving as president this year. They have competed in different categories in Wichita County 4-H Shows for several years. They served on the livestock judging team April 2. They will work at the Wichita County 4-H Omelet Cook-Off and Exhibit Show April 18 and will enter the county Dress Revue in June.

Terry, a 10th grade student at Iowa Park High School, had the champion gilt at the recent Wichita County 4-H Show. She has competed on the district level in Dress Revue. She is a Double A Honor Roll student, a member of the pep squad and F.F.A.

Tracy, who is in the seventh grade, won showmanship gilt at the county show. She has competed in foods on the district level. She is a single A honor student and member of the basketball team.

## APPLE PIZZA

**CHEESE CRUST**  
 1 1/2 cups flour  
 1/2 cup butter  
 1/8 t salt  
 1/4 cup water  
 1/4 finely shredded Cheddar cheese

**FILLING:**  
 8 medium apples  
 3 T water  
 1/4 cup sugar  
 3 T butter  
 1 egg beaten  
 1/3 cup strained apricot jam

Make dough for crust first. Combine flour, butter and salt and cut butter into flour in coarse crumbs. Add cheese, sprinkle water in while stirring. Make into a ball and chill. Peel and core four apples, cut into 1/2" pieces. Place in blender with water and puree apples.

Pour apple puree into saucepan, add 3 T sugar and the butter. Stir over medium heat until butter is melted. Let cool. Roll out pastry dough into 16" circle. Place in 14-inch pizza pan, roll edges for rounded border. Spread 2 cups dried beans on top of dough, bake for 12 minutes. Remove beans, brush with egg; bake 4 minutes more. Spread apple puree evenly on crust. Peel and core rest of apples, slice in crescents. Arrange in circular pattern; put remaining sugar on top and bake 20 minutes. Brush pizza with apricot jam and serve.

**FROZEN FRUIT SALAD**  
 5 ripe bananas  
 2 T lemon juice  
 1 cup sugar  
 1 cup marachino cherries, chopped  
 1 cup pecans, chopped  
 1 large carton Cool Whip

## FRUIT PUNCH

1 small pkg. jello (any flavor)  
 1 cup hot water  
 1 cup sugar  
 3 cups cold water  
 1 large can pineapple juice  
 Mix and freeze. Set frozen mixture out two hours before serving. Add 1 quart of ginger ale and serve. Serves 20 people.

## PUMPKIN BREAD

2 sticks margarine  
 2 3/4 cups sugar  
 3 whole eggs  
 3 1/2 cups flour  
 1 t soda  
 1 t cinnamon  
 1 t cloves  
 1 t nutmeg  
 1 t vanilla  
 1 #303 can pumpkin  
 Cream margarine, add sugar, eggs and vanilla. Sift flour, soda and spices and add to mixture; then add pumpkin.

Grease and flour four one-lb. coffee cans, fill half full with mixture. Bake one hour at 325 degrees. Let set 5 minutes, then remove from cans.

Lids may be put on cans to freeze.

## APPLE CRISP

4 cups sliced peeled apples  
 3/4 cup flour  
 1 t cinnamon  
 1 stick butter  
 1 cup sugar  
 1 t salt  
 1/4 cup water

Place apples and water in 10-inch square pan. Sift flour, sugar, cinnamon and salt in bowl. Cut in softened butter into coarse crumbs. Sprinkle over apples. Bake in 350 degree oven 40 minutes.

## POTATO CASSEROLE

2 lbs. frozen hash browns, thawed  
 1 can cream of chicken soup  
 8 ozs. shredded cheese  
 1 small onion  
 Salt, pepper to taste  
 1 carton sour cream  
 1 stick butter

Mix ingredients in large baking dish. Put crushed cornflakes on top. Bake for 30 minutes at 350 degrees.

# As I See It.....

By **BOB HAMILTON**

I had been wondering what the reaction would be in Wichita Falls, the first time that city was threatened with another tornado after last year's disaster.

It was one year ago, today, that the monster walked through the city, you will recall.

Well, Wednesday of last week the city was threatened, and it was a case of panic. I wasn't there, but reports from those who were indicated a lot of people didn't mature in the wake of the 1979 storm.

One person was sitting at an eating place on Kemp, and said he saw three different accidents in front of the store. People were racing in every direction, which is exactly what the experts told them not to do.

Our own school personnel said hords of parents reached the various campuses here, wanting to take their children away when the storm was in the area.

People, almost everyone killed in Wichita Falls last year was in a car. The experts say that is absolutely the wrong place to be.

So, if a tornado threatens again, stay wherever you are, unless you are in a mobile home or a house built on pier and beam.

Those children are probably in

better shape than the parents, safety-wise. The schools are practicing safety measures, which is probably more than takes place in most households.

Listening to a Dallas radio station, I learned to better appreciate our tornado alert program here.

Would you believe that virtually every suburban town in the Dallas-Fort Worth area does not have a tornado warning system? Those cities rely on fire trucks and police cars to go through the town with sirens blaring, to alert people to take cover in case of a tornado. Or they expect the people to be notified by radio or television.

I'll put our system of a spotter network and siren alert up against about any community. I certainly feel safer, and I pity the people in the Metroplex for what they don't have.

And, speaking of pity, ... that's what I have for the people working in the census taking project.

I have never heard of a government project so totally fouled up, and you can bet there will be a cry from every city and chamber of commerce, in this part of the country anyway, that the people count was wrong.

Lack of organization, lack of planning, lack of communication are the reason. And all that lacking

apparently stems from the regional census headquarters in Abilene. Some of the blame obviously comes from Washington.

There are cases where the cost to administer a test to someone wanting to work in the census program is costing in excess of \$50, and that doesn't mean the person is hired. That is the cost of an hour test, when cost accounted.

Score one more for the bureaucrats.

## Nigeria is subject of UMW speaker

Mrs. W.A. George presented a talk on Nigeria for the meeting of the Ruth Fellowship of United Methodist Women Tuesday morning. Mrs. W.F. George was the hostess and Mrs. Eldon Thompson, the program leader.

Eleven members and two other visitors, Mrs. Pearl Weeth and Mrs. Gene Owens, were present.

Nine members attended the meeting of Mary Fellowship which was held in the home of Mrs. Bertha McDonald. Mrs. Margaret Carter led the program entitled "The Art of Living in the World Today".

Mrs. Chauncey Weiler gave a program on "Everyone Has One Talent" and stressed how people should be faithful in developing their

talents, whether few or many, for the Rebecca Fellowship meeting in the home of Mrs. M.L. Hines. Mrs. Don Beals presided.

Eight members, one guest, Mary Catherine Owens, were present.

The temperature of the interior of the sun is estimated at 20 million degrees Fahrenheit.

### Thank you for your votes

I would like to encourage anyone to attend the City Council meetings, 2nd & 4th Mondays at 7 p.m. 101 E. Cash St. It is our government, our town. Let's work together to make it the best.

Lita Watson

### To the Voting Citizens of Iowa Park

I would like to express my thanks for the vote of confidence made by the voters of Iowa Park in the election of school board trustee. Your continued support and interest in our school and students will be needed by all the school board members of Iowa Park CISD.

I feel we have one of the best school systems in the state. I have also noticed that nothing can stay in the same status; it either continues to grow and get better or it will backslide. I want to do my part to help make our school an even better educational experience for our students. In order to do this the teachers, parents, students and administration must all work together to provide educational experiences for our students that will make them ready to join and become an active part of our society.

Thanks again,  
Jimmy Howell

## Council meeting slated Monday

One ordinance and three resolutions will be considered when the city council meets at 7 p.m.

## Some fishing is expensive

Someone apparently did some expensive fishing last week.

Charles Friday reported to police last Wednesday that several boxes of Owens sausage had been taken from his truck while parked at 914 W. Louisa.

Police Monday received a telephone call from a citizen who had found 15 two-pound packages of the sausage on the north bank of Lake Gordon. Some had apparently been used as bait for fishing.

According to the report, the sausage taken was valued at \$800, and a \$60 lock was demolished in gaining access to the loot in the truck.

## Chamber of Commerce

### Why support it?

Everyone benefits from the Chamber of Commerce...the housewife, the merchant, contractor, farmer, skilled worker, professional person, all business firms, visitors and even retired residents.

Members benefit through their own efforts by the successful solution of the many problems undertaken. It is well recognized that by coordinated group action more benefits will result in which all share.

By bolstering the economy, the potential of all business and professional activities is increased, more jobs are created and the tax base is broadened through property development.

Property values in an ever progressing community are improved, new stores, shops and other services made available to the housewife more conveniently located and diversified shopping facilities with competitive prices and greater selections. A prosperous city can have better stores, libraries, schools, new streets, parks and more recreational and cultural facilities.

## Swimming instructor course is offered

The American Red Cross will conduct a basic swimming instructor course at Midwestern State University on April 21, 23, 28, and 30 from 6 to 9:30 p.m.

### THANK YOU

I would like to take this opportunity to congratulate my opponents for their victory in the City Alderman race.

To those who so faithfully supported me, I duly appreciate your firm support in this race and leave this great thought with you: We have only begun and shall return another day.

Sincerely yours  
Buddy L. Johnson

# Thank You

I would like to take this opportunity to express my gratitude to all who supported me in my candidacy for re-election to the Iowa Park School Board. I am truly grateful.

**G.R. 'Rusty' Rusk**

## VOTING ABSENTEE?

(April 14 — April 29)

**Make Sure Your Vote Counts!  
Cast Your Absentee Vote For  
MILES GRAHAM**

"Wichita County needs the experience I will bring to this office. I feel that my experience as an administrator, my dedication and the more than 5 years I have served in the tax office qualifies me to best serve you."

**Promote Chief Deputy  
Miles Graham  
to Wichita County  
Tax Assessor-Collector**

"Miles is a man of integrity"

Paid for by Committee to Elect Miles Graham  
Eloise Mason, Treasurer- 2502 Ruskin, Wichita Falls, Tx. 76308

## Look at the issues in the race for county commissioner precinct 3: QUALIFICATIONS!

The only issue in the race for county commissioner precinct 3 is qualifications... who is the man with the best background, experience, ability and desire to serve the citizens of precinct 3 and Wichita County. N.E. "Jr." Guthrie is that man.

**"With the background that I have in the construction business and management familiarity with budget making, materials and costs, I feel that I am qualified to continue the good work that our precinct has grown accustomed to."**

**N.E. "Jr." Guthrie**

Pol. Adv. Paid By N.E. Guthrie, 1501 Johnson Rd., Iowa Park, Tx. 76367
