LOOKING TO THE FARMER

Washington, D. C., Nov. 24.

The Baird Star,
Baird, Texas.

The government is asking the American farmer to dedicate the remaining weeks of 1942 to an intensified scrap hunt.

Steel mills need more heavy scrap and the farms are one of the best sources of this type of metal.

We need your paper's further help in this farm drive, and in aiding our salvage committees to continue this effort throughout the next few weeks. Mats and other material to help you are being prepared and will be mailed to The Baird Star soon.

All salvage committees are being instructed to continue to make available to the farmer all their transportation facilities and manpower, and to cooperate with you in every way possible. The Nation is looking to the American farmer. I am sure, with your help, he will come through.

DONALD M. NELSON, Chairman.

Meatless Days Loom Mrs. B. B. Kannady Died Tuesday

Baird and Callahan County people face many meatless days. The supply of beef, pork and mutton is dwindling and there is no likelihood of a replenished stock until after the first of the new year.

While under the OPA meat dealers are unable to deliver meat in excess of quotas, there is an abundance of beef in this section. Producers now being in the peak season for marketing milk fed calves.

As we understand the ruling governing the slaughtering and offering for sale of beef, pork and mutton the dealer offering same for sale must have a 1942 quota starting October 1, 1941 and running through Dec. 1941. The butcher may slaughter 100 per cent of this quota and all who butcher cattle, hogs or sheep for sale, must have this permit.

Write the Office of Price Administration at Dallas for information. The regulations are rather strict.

Junior Mechanics Needed At Midland Air Field

A widespread civil service campaign began in this area today to recruit critically needed junior mechanics, \$1860 a year, for civilian employment at the Army Air Force Sub-depot, Midland, Texas, according to Elva L. Smith, acting local civil service secretary.

Persons with two years mechanical training or experience may qualify. Auto mechanics and men with hydraulic, machinist of instrument experience are especially urged to apply for this civil service position.

Application forms may be secured from and should be filed with the local civil service secretary at the post office.

Persons engaged in war work of equal skill need not apply.

Mrs. B. B. Kannady Died Tuesday

Mrs. B. B. Kannady, 68, of Belle Plain died at the Callahan County hospital Wednesday evening following an illness of several weeks.

Funeral services were held at the Methodist Church at Belle Plain yesterday afternoon with Rev. Royce Gilliland conducting the services. Burial was made in the Belle Plain cemetery.

Mrs. Kannady is survived by her husband and several children, all grown. Among the children being Mrs. Floyd Woods, of Baird; Mrs. Charlie Bruton and Mrs. Enoc Bruton of Belle Plain and Mrs. John Pond of Glendale, Calif.

Mrs. Kannady also reared several orphan children. She has been a resident of Belle Plain for the past 20 years.

Rev. W. B. Hicks New Methodist Pastor Here

Rev. W. B. Hicks, new Methodist pastor, who comes to Baird from Spearman, arrived Saturday evening and held services Sunday morning and night.

Mrs. Hicks and daughters, Christine and Clarice Jo arrived late Sunday afternoon. On Monday evening a reception and old-fashioned pounding was given the new pastor and family in the basement of the church.

There are five children in the Hicks' family, W. B. Jr., is in the service of his country, being attached to the medical corps and now stationed in Hawaii; James is in the mechanical department at Sheppard Field, Wichita Falls; Their daughter, Mrs. Gerrald Farr lives in Wichita Falls, where Miss Christine will go to enter business college after the Christmas holidays; Clarice Jo will enter Baird High School as a Freshman.

The Star welcomes Rev. and Mrs. Hicks and family as citizens of Baird--You will like our good people.

EULA H. D. CLUB HAS CANNED FOOD PROGRAM

Food for Victory was the theme of the Achievement Day Program which was carried out by a canned food exhibition by members of the Eula Home Demonstration Club, Wednesday, Nov. 18th in the home of Mrs. L. E. Lewis.

Members also had an exhibit of articles made of cotton.

The annual report blank was filled out at which time it was found that over 3480 quarts of food has been canned in 1942 by 8 club members.

Plans were formulated for a game night to be held soon.

November 30th has been set aside for Club members to make Surgical Dressings in Baird.

Recreation was led by Mrs. L. E. Lewis. Refreshments were served to the agent, four visitors and seven members.

WE HAVE a real nice stock of Shoes at a good price for same. Will D. Boydston.

Y. A. Orr, Pioneer Druggist Died At Putnam

Y. A. Orr, 75, one of Putnam's leading pioneer citizens, died late Sunday at his home there following an illness of seven weeks.

A resident of Putnam since 1892 when he established the Orr drug business in Putnam, he served for 28 years as postmaster, was for 14 years mayor, retiring in 1938, was a charter member of the Masonic lodge, and had been active in many community building programs during his half century in Putnam. He was a Shriner and Knight Templar.

The funeral was held at 2 p. m. Tuesday at the Methodist church with the Rev. Wayne Dunson, pastor, officiating. The Masonic lodge conducted the burial rites.

Y. A. Orr was born Dec. 11, 1867 in Carroll county, Tenn. He moved to Texas in 1889, located at Cottonwood, Callahan county, where he taught school and worked in a drug store. He came from there to Putnam 50 years ago.

In 1900 he was married to Chaddie Hale of Eastland. She died a number of years ago.

Survivors are two daughters, Mrs. H. N. Baxley, Chicago; and Mrs. Claude Cunningham, Midland his stepmother, Mrs. Mary Orr of Merkel, who is now 97 years of age a step sister, Sallie Orr, of Merkel four brothers, F. M. Orr and Frank Orr, Carroll county, Tenn.; Will Orr, Wickett; Henry Orr, Odessa and a sister, Mrs. J. A. Adkisson of San Antonio.

COTTON GINNING REPORT

Census report shows that 3929 bales of cotton were ginned in Callahan County, Texas from the crop of 1942 prior to Nov. 14 as compared with 4046 bales for the crop of 1941.

Horded Coffee Must Be Used

Coffee hoarders will have no advantage over other persons after rationing starts Saturday, Nov. 28 under regulations issued by the O P A.

Any coffee in the cupboard in excess of one pound per person on that date should be consumed thereafter at the ration rate of one pound per person every five weeks the OPA directed and no more should be purchased until the supply on hand is used.

This ruling will be enforced through a registration to be conducted later when a new universal ration book is issued. For the start of coffee rationing, stamps at the back of the sugar ration book will be used and no immediate registration will be entailed.

But when registration is held later for the new ration book, house holders will be required to report the amount of coffee they had on hand Nov. 28 and to produce stamps from the sugar ration book to cover it. Thus hoarders will be prevented from using the sugar ration stamps to buy coffee in excess of the ration rate.

The OPA warned that "appropriate action," which it did not specify, would be taken against persons unable to produce stamps from their excess coffee supplies, and also in cases where the coffee stamps are missing from the sugar ration books of children under 15 not entitled to coffee rations.

EPISCOPAL SERVICES

Rev. H. H. Black of Colorado City will hold services at the Episcopal Chapel of the Lord's Prayer on the First Sunday in each month at 2:30 o'clock p. m. All are cordially invited to attend the services.

Save Waste Kitchen Fats to Make Explosives!

FATS make glycerine. And glycerine makes explosives—for our own and our allies' guns! Right now we need great quantities of glycerine. And every drop of your waste kitchen fat is wanted to help load the cannons.

WHAT TO DO. Save all kinds of waste fat—bacon grease, drippings, used vegetable shortening. Strain them into a clean, wide-mouthed can. Please don't use paper or glass. Keep in a cool, dark place so they won't turn rancid.

TAKE TO YOUR MEAT DEALER when you've collected a pound or more. Take them early in the week, if you can. The meat dealer is cooperating patriotically. He'll pay you for the fats and get them started toward the war industries. Remember, this is a war job—a fighting, shooting war job—that only you women can do.

This advertisement has been paid for by the Glycerine and Associated Industries and approved by the Conservation Division of the WAR PRODUCTION BOARD

The Women's Home Demonstration Clubs of Callahan County are sponsoring this campaign. All fats must be left at Brashear's Red and White Grocery Store in Baird—where it will be kept in storage until it is picked up.

Scrap Slackers Read This!

(From the Jackson Citizen Patriot, Jackson, Mich.) So, you're busy?

Don't doubt it a bit. You live on a farm. Your hired man quit. You can't hire labor in competition with war plants. The corn hasn't been cut. You're way behind on the fall work.

There's a lot of junk scattered around the farm--some down in that swale hole and some in the farm yard, and there's an old harrow in the fence row on the south 40.

But you're just too busy to pick it up. Sorry. You'd like to help.

Or maybe you live in the city. You're working six days a week--perhaps seven. You don't have a minute to yourself. No chance to hunt through the garage and the basement and the attic and the back yard to see what you can pick up in the way of scrap metal.

OK, if that's the way you want it, Mr. Farmer and Mr. City Man. But, wait a minute?

Remember that kid who went away a while back and now he's wearing a war uniform, and his mail address is Army Post Office in care of the Postmaster, New York City?

Sure, you remember that kid. Well, some of these days he'll be coming back . . .

That boy who now is facing death if he comes back, is going to know--and if he doesn't come back, you're going to know that maybe just one more heavy tank or just one more howitzer or one more machine gun might have won the battle and let him come through sound and safe.

You don't want him to discover that crap iron if he comes back, do you?

And you don't want to see it yourself, if he doesn't come back, do you?

Let's collect it today and get it ready for the pick-up trucks which will send it on the way to reinforce that kid who's going to need all of the reinforcements he can get.

EDITOR'S NOTE--Read the appeal for scrap from Donald Nelson published on this page.

America Needs To Conserve Food

ByHomemaking Dept. "Waste is America's National Vice". We not only have ourselves to feed, and that job has to be done with some of last year's farm workers doing other defense work, but we have 20,000,000 British to help feed. Americans are the only people in the world who throws away bread. In England cakes and buns burned during air raids are named "Berlin Buns" and "Siren Cakes" and sold more quickly than ever. Garbage is transformed into meat via 18,000 pig clubs in Britain.

There are approximately 1,500,000 school children in Texas. The following are the calculated results of probable wastes for a single day.

If each child should waste from 1-2 to 1-3 of a leaf of lettuce, there would be wasted about 32,000heads of lettuce. This would have supplied 10,500 British fliers with their much needed vitamin A. Lack of vitamin A definitely interferes with their ability to nail the Nazi planes.

If each school child in Texas leaves 1 tablespoon of his milk in his glass just once a day,there will be lost enough milk to provide 100,000 British Children with a cup of milk, or it would supply one full day's supply of the much needed calcium for 26,800 children

If each child wastes 1-3 slice of bread, there will be lost in the garbage 33,175 loaves, probably enough to provide bread for one day to all the families living in Fort Worth or Dallas.

If each child wastes one teaspoon of sugar, the amount lost would fill 147,095 cubic feet of valuable shipping space. The energy wasted is enough to support over 200,000 soldiers on a 3 mile march.

How much money goes into the garbage pail by Texas school children if they waste only 1-3 leaf of lettuce, 1-3 slice of bread, 1 tablespoon of milk, 1 teaspoon of sugar? Total \$13,257.13. This would buy 716 Defense Bonds of the smallest denomination and would buy a good day's meal for around 50,000 people.

Look on your plate and see if

you do this. Help your plate to the amount of food you will eat, but no more--make the "clean plate" slogan a practice with you (The above information was compiled by Dr. Ercel Eppdight, Texas State college for Women, Denton, Texas.)

... while all America gives Thanks for a bountiful harvest in WEST TEXAS

You: Yes, West Texas is contributing much to the war effort. Food, cotton and wool for clothing men in the fighting forces. The whole world can be thankful for a bountiful harvest in West Texas. But, what do you mean, Reddy, "on KP duty"?

Reddy: This: it's the first wartime Thanksgiving Day. Many people will observe it over the country by working, turning out the weapons of war. Our power plants will be on the job as usual, providing electric service for your home and business, and for Uncle Sam's Army camps and for war industries--

You: I see! On KP duty, too!

Reddy: Yes. Electric service is doing Kitchen Police duty EVERY day. And since the factories that used to make appliances now are doing war work, everybody should take good care of what they've got. Keep them repaired and in good working condition--

You: But suppose they break down... repairmen are hard to find and new parts are scarce.

Reddy: In that case, call the West Texas Utilities. Our service department has arranged to help out in emergencies.

You: Thank you, Reddy. I guess we can be thankful for you, too!

Reddy: Well, we can ALL be thankful for the American system of FREE enterprise under which any man or woman is free to create a business that fills a particular need in this or any other community, just so long as they give the best possible service at the lowest possible cost to the most people, pay taxes in support of the government, and contribute to the growth and development of the community.

You: Right! That's the West Texas way... the American way... of doing business!

Cisco To Have Training School For 200 Girls

From the Cisco Daily News: Cisco has secured a training school for women, training them in the automobile field and will have 200 girls to start with.

The school is to begin with 200 young women between the ages of 18 and 40, all unencumbered. They are to receive nice salaries that will give them spending money. They are to work in two eight-hour shifts, in groups of 100. The school will transport them to and from their work, at the former Cisco and Northeastern railroad round house where the shops will be located. Arrangements are and have been made to take over the Daniel hotel entirely and a part of the Laguna hotel a homes for the girls.

In addition to the trainees, there will be instructors and secretaries for the office work. The secretarial employees will be recruited locally it is understood, while the workers will be recruited from 12 states. J. R. D. Eddy, state director of trades and party are in Cisco this week to arrange for the taking over of the C & N. E. roundhouse, recently acquired for the site of the school. The city is to put the building in condition to house the machinery and equipment that will be furnished for the training.

This will be quite an asset to the city of Cisco from a business standpoint, as it will furnish a considerable payroll monthly that they have not been getting.

WTU HAS 136 MEN IN ARMED AS WAR CONTRIBUTION. PAYING \$1,200.00 TAXES

Uncle Sam, observing the first wartime Thanksgiving Day since 1917, still has many things for which to be thankful, among them four substantial contributions to the war effort being made by the Westexas Utilities.

The company, which begins its 32nd year of service to West Texas next month, is credited with supplying ample power for production in this area, highly skilled men for the armed forces, many tons of scrap metal, and with contributing \$1,200,000 in 1942 taxes.

Light and power from W T U's three major generating stations at San Angelo, Quanah and Abilene now is serving war plants over a 45,000-square-mile territory with military training camps at San Angelo, Abilene, Ballinger, Stamford, Cisco, Vernon, Childress, Dumas and Dalhart. The need for electricity at all points has been met in full and without delay.

The company now has a total of 138 men in military service, with more being called almost daily. Twenty-four of the 138, many of whom are trained technicians, already are commissioned officers. One is a lieutenant-colonel, six are majors, four are captains, twelve are lieutenants, and one is a Navy ensign.

Each local office has contributed quantities of scrap metal in community drives, much of which was highly prized copper and aluminum.

Statisticians have figured that the \$1,200,000 in 1942 taxes paid by the company, up 39 per cent from last year, is "enough to blast the Japanese with 57 million bullets from the new Gerand rifle" based on the Arm's specified price of 29 cents a dozen.

In addition to these four major contributions to the war effort, nearly a thousand employees in nine districts are competing for bond-buying honors. Early this year over 96 per cent of all regular employees pledged themselves to a voluntary war bond and

stamp buying program.

The various districts, with headquarters in Abilene, Cisco, Stamford, Dalhart, Quanah, Ballinger, McCamey, Childress and San Angelo, now are trying for the highest percentage-of-payroll purchases of war bonds and stamps.

Ev'rybody Ev'ry Pay Day

6,000,000 Women Enrolled in War Savings Payroll Plan.

WASHINGTON, D. C.—Women At War Week, opening Nov. 22, during which women will seek to sell the greatest single week's volume of War Bonds and Stamps will serve to put the spotlight on the mighty contribution women generally are making toward financing the war.

Six million women are on War Savings payroll plans. Their monthly deductions total \$70,000,000.

The customers of 300,000 newspaper boys who have sold more than \$50,000,000 in War Bonds and Stamps are mostly women.

Volunteer saleswomen run nearly all the Bond booths in theatres from Maine to California. They also are sparking the War Bond sales in retail stores.

Ralph G. Engelsman, Associate Field Director of the payroll savings section of the War Savings Staff, readily admits that without the support of women the phenomenal record of payroll savings enrollments would not have been achieved. Payroll savings plans are now in operation in 148,000 businesses and factories. Employees of twenty-five thousand of these firms are converting at least 10 percent of gross payrolls into War Bonds every payday.

Associate Field Director Engelsman says that women have contributed directly and indirectly toward this record. When a man devoted 10 or more percent of his pay envelope to War Bonds, the woman at home has had a powerful voice in the decision. Her planning, her economies and her cheerfulness play their part in the success of payroll savings.

The Treasury Department is counting upon this woman influence in its current campaign to "top that 10 percent by New Year's." By the first of the year the Treasury hopes to enroll at least 3,000,000 women workers in a payroll savings plan and 5,000,000 more men with total deductions for War Bonds over the 10 percent mark.

'This Is My Fight Too'

Proud of her investment in the American way of life and equally proud of the grime of war production on her face and arms, the young lady in this "Women At War Week" poster symbolizes two of the chief activities of women at war.

roll savings plan and 5,000,000 more men with total deductions for War Bonds over the 10 percent mark.

Record War Bond Sales Is Goal Of Women At War Week Nov. 22

WASHINGTON, D. C.—America's women in the cities and on the farms—in war factories and in their homes—are determined to make Women At War Week the greatest War Bond selling effort since Pearl Harbor.

Mrs. Franklin D. Roosevelt sounded the keynote for the Treasury Department's Women At War Week, Nov. 22 to 28, with an appeal to women to save on "little things" to provide money for War Bonds.

"We women want to work hard, we want to be a part of this strenuous period because unless we are, we will not be able to face the men when they return and claim our share of the future responsibility for building a peaceful world," the First Lady declared.

During Women At War Week volunteer War Bond saleswomen will wear an armband similar to the one being attached to the sleeve of Mrs. Henry Morgenthau, Jr., by Miss Harriet Elliott.

The overall direction of Women At War Week rests with the Women's Section of the War Savings Staff under the leadership of Miss Harriet Elliott, Associate Field Director, and Mrs. Henry Morgenthau, Jr., Chief of the Special Activities Unit.

From coast to coast women in every community have made plans for torchlight parades, fashion shows, teas, rallies, store window displays, Stamp and Bond booths, pageants, civic sings, balls and mardi gras. In each locality administration of the one week drive rests with the local War Savings Committee which has worked out activities adapted to their areas.

Mrs. Morgenthau, in a special message for Women At War Week, declared that the spirit of America's pioneer women lives today more strongly than ever. "The average American woman began to rise to new heights on Sunday, Dec. 7, 1941," Mrs. Morgenthau said. "This winter the average American woman will be spending less in order to save more to invest in War Bonds and Stamps. She will not, please God, ever have to fire a gun or fly a bomber. But she will, please God, always do everything she can to help buy anything—and the best of everything—that fires or flies or floats in this terrible war."

WOMEN AT WAR—Overalls, wrenches and drills replace fineries as these war workers in an Army Arsenal march to tank repair shops. Note the determination on their faces. These women are typical of hundreds of thousands who are working in war factories and investing part of their earnings in War Bonds.

Mrs. Roosevelt (left) says women help men at front by buying War Bonds. At right is the label tag which volunteers will wear during Women At War Week, Nov. 22 to 28.

Sharing Meat Is Democratic

The government's share-the-meat campaign, a voluntary program for consumers, aims at a fair division of available supplies among those who need them, until a system of card rationing can be set up to achieve the same purpose arbitrarily. Meat rationing is not expected until early 1943.

The two-and-one-half pounds of beef, lamb and pork allowed per adult per week is sufficient for an adequate diet, provided other necessary foods are included, says Hazel Phipps, specialist in food preparation for the A and M. College Extension Service.

But, if you are terribly fond of meat flavor and miss it for that reason more than any other spread the flavor of meat by mixing it with other foods," Miss Phipps says.

The specialist explains that cereal foods such as bread in stuffings, hominy, rice, and macaroni are good meat extenders. Vegetables can extend the flavor of meats in stews, soups, chowders and pot roasts. With meat rationing many homemakers will learn to become more thrifty with leftovers. They will need to save all left-over meat, gravy, or drippings, and make broth of the bones. Left-over cooked meat can be sliced and served cold or in a salad. Or, Miss Phipps says, it can be combined with other foods in appetizing hot dishes such as browned hash, meat pie, stuffed peppers, croquettes, and chop suey.

It will also pay housewives to make greater use of kidney, brains heart, and other variety meats which are not included in the "sharing allowance." Like other more familiar meats, these are good protein foods and are an especially rich source of iron and the B vitamins, Miss Phipps says.

Loan For Food Production

The Farm Security Administration is helping thousands of low-income farm families to increase production at a profit of the needed war foods by loans and help in farm and home management. It is particularly important that farmers who cannot obtain credit from other loans agencies see the county rural supervisor of FSA at their earliest convenience and before the beginning of the peak loan season.

Small farm operators should make immediate inquiry as to the requirements for a "Food for Freedom" loan and start putting all his labor and land resources to work on the Nation's food production line.

Loans may be made to help the small farmer produce most of the family's food needs and a surplus to sell including dairy and poultry products, poultry, hogs, beef, etc. Farmers qualifying for "Food for Freedom" loans must have a desire to make a contribution to the Nation's food requirements and also have possibilities for repaying the loan a period of time ranging as high as five years if a lease or rental contract on desirable land can be obtained for this period. Action should not be delayed. See Mr. Estle G. Ammons, County Rural Supervisor of the FSA located at Baird, Texas.

OPLIN 4-H CLUB

The Oplin 4-H Club met Thursday Nov. 19th from 10:30 to 12:00 noon. A demonstration on selecting and wearing clothing was given by Miss Marjorie Brown, Home Demonstration Agent of Callahan County.

Plans for recreation park were discussed and a committee appointed to start work on the project. Members present were, Jerrine Pentecost, Maxine Johnson, Joan Poindexter, Paula Windham, Emma Sue Slough, Wilma and Bettie Mae Millhorn, Joreta Gwin, Billie and Coleen Bryson, Mary Ruth Johnson and Mrs. Tommie Windham. Two new members, Dorothy Johnson and Tommie Sue Steakley joined the club.

A Modern Kitchen Guide

Shows How to Prepare Delicious Meals at Low Cost

With Food Prices Going UP This is of Prime Importance These Days

MODERN KITCHEN GUIDE

is essentially a practical cook book with many fine recipes that make low cost meals. Recipes are not fancy, hard to make concoctions of some domestic science "expert" but the favorite recipes of several good home cooks who compiled the book.

912 Recipes — 256 Pages

Ring Bound for Easy Reference

Because of its practical character women praise and ask for it. More than 900,000 have been sold in all parts of the country. Here is a typical letter from Mrs. Emma Bine, East Swanton, Pa.

"I have your cook book called a Modern Kitchen Guide, given me by a friend. Several of my relations and friends who have read the book like it so much they all want one. Would like to know where they could be bought."

As a service to the community this newspaper is glad to make the splendid book available to its readers and subscribers. Through our connection with Dunning Publications, Inc., Frank Chicago, Ill., specialists in this type of book, we are able to offer Modern Kitchen Guide set, as you might expect, at \$1.50 or \$2.00 but for ONLY 50¢.

Safety in the Home

Home is not always the safest place to be for home rate next to automobiles in the greatest number of fatal accidents besides the huge amount of non-fatal accidents. Last year there were 31,500 lives lost due to home accidents according to the figures of the National Safety Council. Of these over 16,000 deaths were results of falls. Next in order were burns, poisons, and firearms. Non-fatal accidents requiring medical treatment were 4,050,000 including approximately 130,000 permanent disabilities. Wage low medical expense, and overhead cost of insurance associated with 1941 home accidents totaled \$600,000,000.

Falls on stairways are very common. Keep stairs well lighted and clear all steps of toys, broom and other truck. High heels are especially dangerous on stairway. Keep shoes in good repair. Prevent falls both inside and outside the house by teaching children to pick up their toys. Avoid placing any furniture in doorway or narrow passageways. If you must use kitchen stools piled on chairs to reach high places watch for trouble.

Stew pans on the stove with handles turned out invite tragedy especially if your youngster grabs at them. Next to burns and scolds smothering causes most of our accidental infant deaths. Babies are no match for pillows in a tussle.

Opening cans with a butcher knife may open a gash in your wrist. Wrong use of tools causes 1 out of 10 home accidents.

Never use a penny to make a burnt-out fuse work. Fuses are safety valves, prevent fires. The penny removes that protection. Don't run electric cords across floors, through doorways, or under rugs. There's danger of tripping short circuits, shock, fire. Place outlets where needed.

Every accident affects the war in one way or another. Men and women are kept from work, machine made idle, production slowed because of home accidents.

Remember to save manpower and that accidents help the Axis.
