J. W. Greenhaw to Conduct Revival Here for Methodists

Rev. J. William Greenhaw of the Grant Street church Wichita Falls, will do the preaching here next week when the local Methodist church has its revival, with services each evening at 7:30.

One of the special items to be stressed during the week of evangelistic work will be to connect the "disconnected Methodists."

Special music is being arranged by Mrs. James Sewell, and Don Owens will be at the organ.

The public is invited.

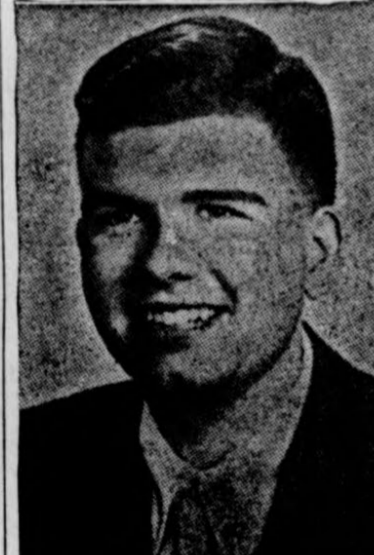

25 Years Service Honored by Phillips

George D. Carroll of Kamay was honored by Phillips Petroleum company upon completion this month of 25 years of service with the company.

Mr. Carroll has spent his entire service in the natural gasoline department in the north central Texas area. He joined Phillips as plant operator at Herron City in young country.

During his employment he has also served as engine operator and stillman at the Eliasville plant in Stephens county and operator and repairman, his present position at the Mankins plant.

Mr. Carroll has long been active in Boy Scout work and is chairman of the local district committee.

DISCIPLES

Billy Weeda, who plays the part of John Leigh in the colored moving picture showing at the Christian church Sunday morning, plays his own life story.

Mr. Weeda is a student at one of the church-related colleges of the Disciples of Christ and his acting lends a note of realism to this picture "Where Do Ministers Come From?"

All the main parts were taken by students which fact, along with the humorous incidents, makes the picture appealing to all young people as much as to the older ones.

There is much light hearted fun besides some real heartaches and problems, with the romance being well played.

The public is invited to see this film for which there is no charge.

PROCLAMATION

Whereas, the public school system in Texas dates back to the beginning of our state, and whereas through the insistence of our forefathers, who recognized the importance of education, our present school system was established;

And whereas the troubled world today is torn between the forces of darkness and light, which in a sense means slavery or freedom; and since only as free men have we the courage to exercise our heritage so dearly won, therefore one of the best evidences of public support is a definite effort on the part of each citizen to become familiar with the public school system and to keep in touch with it;

And whereas, in recent years we have had to face great problems in the administration of our public schools, we have learned that the solution of these problems is only possible with public interest, understanding and co-operation;

Therefore, I, R. E. Van Horn, mayor of Iowa Park, do designate the period of March 1-7 as Public School Week in our city, and call upon the citizens of Iowa Park to observe the week as a time for visiting our schools and learning more about their operation.

(Signed)

St. Clair Seeks Safety Among Kite Fliers, Makes Suggestions

Safety rules for boys and girls who fly kites were outlined today by Ted St. Clair, manager for Texas Electric Service company in anticipation of the opening of the 1954 kite flying season.

As explained by Mr. St. Clair, the five safety rules in order of their importance are: First, fly your kite out in the open where it won't get caught in wires and trees. Second, use only string made of cotton, silk, linen, nylon or rayon. Third, use only wood in your kite frames. Fourth fly kites only in good weather. You don't want to get them rain soaked. And fifth, if your kite should get caught in electric wires, call Texas Electric Service Company. They will send someone to get it down for you.

"Local youngsters who fly kites have been very careful in the past about where and when they flew their kites," Mr. St. Clair stated. "We had a perfect record last year with not one boy or girl being injured and only a few kites demolished. This year I fully expect that even the number of kites lost will be reduced because it seems that every year, our boys and girls listen more carefully to our warnings and cooperate better in making kite flying safe."

May we remind you?

The gas bills you're now paying are for winter months when a home may use 5 to 10 times as much gas as it does during a summer month. In practically all areas served by Lone Star, January and December had considerably more heating weather than the same two months a year ago.

And, of course,

You know Lone Star was one of the last businesses to raise its rate or price for service. Rate was reduced in 1942 so the one raise made last year added very little more to the price charged during depression years. The average year around cost in the average home here is still about 16 cents per day.

Thank you!

A FOR YOUR THOUGHTS!

There's one that buys more than most --and that's the penny you spend for electric service! For instance, you can six large rugs for one cent's worth of electricity. And just one penny buys the power to wash three of laundry!

Like to sew? You can for five hours on one worth of electric power. In fact, every time you pay your electric bill you're paying for a of comfort, work-and-time-saving help, and pleasure. Yes, electric service is a real friend... always ready at the flick of a and so low in cost that you must agree: It's the Biggest Bargain in the family budget!

ELECTRICITY DOES SO MUCH - COSTS SO LITTLE

From where I sit... by Joe Marsh

Wish I'd Said That

You know Miss Perkins. Well, she's been driving her own car around our town for a little more than 30 years.

The other day she had a bit of trouble parking down on Main Street. Didn't quite make it the first try, so she pulled out to start over when a fellow waiting to pass started tooting his horn impatiently.

On the second try, she was still having a little difficulty and so this smart aleck hollered, "Lady, do you know how to drive?" "Yes, young man," Miss Perkins answered, "I do. But I don't have time to teach you now."

From where I sit, it's not always easy to have a good answer ready when you need it. But when somebody insists that I vote for his candidate, for instance, or choose tea instead of a temperate glass of beer with dinner, I know the answer. It's all a matter of personal preference... and none of us like "backseat driving" from anybody.

JUNIOR NEWS

First of all we would like to thank all the room mothers for the party they gave us Saturday night.

Lobby, Dennis, and Ralph were absent Friday. You had better not do it again, or a certain teacher will phone your parents.

Eubs drove Ira Joes Lincoln to Crowell Monday night. How long did it take you to get there Eubs?

Monday night at Crowell Coach Corbett discovered a new basketball star in his managing department. Gerald said he wanted to play so he did.

Clayton will please warn James when you are going to spit out the window.

Christena seems to be doing pretty well for herself. Sunday night after church she had a date with a certain boy.

Caroline sure likes to make left turns. Huh! Caroline was with a certain Senior Saturday night. How about that Sewell?

"Good Luck" Rosemary.

Lloyd, who is the cute Soph, you like to talk to in the sixth period study hall?

June's boyfriend sure likes government class now.

Say, Mable, that sure was good fudge you made! Wasn't it class?

Henriann, you had better watch the company you've been keeping lately. Someone might find out.

I see Clayton's schedule is steady again.

There is a new meeting place for the boys now. Everyone is getting to be regular members. By the way it is called "The Office."

John Hurt better known as Banana Nose can talk more and say less of any body in the Junior Class.

Dennis Fletcher is going with a real cuate Soph. Congratulations, Fletcher.

Dan McLaughlin's geometry is getting lower all the time and those D's don't help any.

Gary Harris is going to be a regular wizard in math. If you don't believe me just ask Mr. Smith.

Gladys Shelton has been dreaming an awful lot about stripped chickens lately I wonder is it could be because of the blue mercury she's been seen in lately.

Bobby is beginning to notice a few of the girls from Wichita. Are you still going with Jane?

It seems as though the Junior girls haven't a chance with Marvin.

New Owners Assume Duties of the Holiday News

Mr. and Mrs. J. Keith Blalock have purchased the Holiday News and have assumed ownership of the paper effective Feb. 10, last week being their first issue.

The publisher and his wife are native residents of Iowa Park, which makes them no strangers to this community. The policy of the new owners will remain unchanged from the policy of the George R. Huckaby's, former publishers. The advertising rates will be the same. Mrs. Dennis Kellog will still be the editor and the new owners will try to serve the community just as the Huckaby's did.

Everyone is urged to continue to bring the news of Holiday citizens and their visits and visitors, the school news, club news, and civic project news to the editor for publication. They would appreciate any suggestions and help in the coverage of news events, especially those of interest to the community. This paper will be the one in which the names of the readers will appear, and everyone is urged to let the new publishers know of such items which concern, interest and benefit the town.

Both Mr. and Mrs. Blalock are college graduates, he from Baylor, and she from NTSC. They have two boys, 4 yrs. and 5 mos. They are all looking forward to meeting all the townspeople and offer their services anytime they can be of help.

SENIOR NEWS

Marie Ruth Mundt, is the daughter of Mr. and Mrs. A. R. Mundt, of this city. She was born on June 15, 1903 in Wichita Falls. She started to school in Iowa Park in 1942. Marie played volleyball one year for the Hawks. Her hobby is skating and she has an ambition to get out of Mrs. Owen's class, (English) with passing grades. Marie is well liked around IPHS, because of her sweet disposition, and friendly personality.

Franklin De Spradlin, "Hic" is the son of Mr. and Mrs. G. L. Spradlin. He was born in Wichita Falls on November 29, 1934. He started to school in Iowa Park, in 1941, and came in Iowa Park, in 1943. Hic played football for four years, ran track two years, and played basketball two years. His hobby is sports, and he has an ambition to be a mechanic. Hic is popular because of his friendliness.

I'm sure you've heard about the party at Cathia Thornberry's home. Everyone had loads of fun. You certainly missed something if you weren't there.

We had a party at Leonard Luckett's house last Saturday night. If your son is minus a nose it's probably because his cigarette (that he shouldn't have been smoking) blew up in his face. All the little fiends were loading each others cigarettes. Thanks to the room mothers and teacher sponsors for giving us the party.

Say Keith you kinda enjoyed the party didn't you? Those jr. girls are cute aren't they?

Delores seemed to be in high spirits Monday morning. James was home this weekend. This must be that thing called "love."

Rosetta was absent three days last week. We were certainly glad to see you back Monday morning, Rosi.

A lot of the kids got sick last Friday afternoon or something. There certainly was a lot of them absent. Mr. Elms and Mr. Swim weren't here. Maybe the kids were just grieving over them being gone.

That Shirley Johnson, Retha Starr and Ava Lea Watts are absent more than anybody I ever saw. When you cats are absent you're missing harping, from the best harpers this little town of friendly living has ever known.

Larry Lee has a habit of flirting with a jr. girl. These flirty sr. boys.

(I won't mention the girls.) Larry what did you keep going outside for Saturday night?

Old Port Lindley is still courting June James. He causes her to be late for homemaking class every day.

Exclusive: Nancy informed me that I was to ask George for a date, for her. Author unknown.

Due to Dr. L. A. Crawford's illness, Dr. T. L. Phillips will be associated with him until his complete recovery. 506 North Broadway, Wichita Falls. adv

Romanticist Music Heard at Study Club

The Modern Music Study Club met Thursday, Feb. 12, at the home of Mrs. W. G. Steele, who was assisted with hostess duties by Miss Helen Reed and Miss Ethyle Kidwell.

Chairman for the evening's program was Mrs. Paul Zink. She introduced the program with a resume of the later romanticist composers and their effect on this period of music.

First musical number was a piano duo by Mrs. Otis Gay and Mrs. Esther Thornberry entitled "Pomp and Circumstance" by Elgar. They were followed by Mrs. Gayle Park, who played two MacDowell piano selections: "At an Old Trysting Place" and "To a Wild Rose."

Mrs. Oscar E. Lochridge gave an interesting talk on "Impressionism—What Is It?" Debussy was stressed, for it was he who was the most radical of all impressionist composers. Mrs. Lochridge then played as an organ solo one of his loveliest compositions: "Reverie." Mrs. C. W. Coppock, Mrs. Fenton Dale and Mrs. James Sewell gave a choral version of Sibelius' "The Tryst."

Members attending were Mmes. Joe E. Chandler, Chester Gleason, Wayne House, Henry Jones, O. R. Owens, Preston Pace, F. W. Wright, Bill Curry, Chauncey Weiler, Coppock, Dale, Gay, Lochridge, Park, Sewell, Steele, Thornberry, Zink, Misses Mary Butcher, Kidwell and Reed.

Ever add up the TAXES you pay with your TELEPHONE bill?

OUT OF YOUR TELEPHONE BILL last year was paid an average in Texas of \$42.36 per telephone in taxes. Of this amount, almost half — \$18.96 — was Federal excise or "luxury" tax. This tax we simply collected and turned over to the Federal government, at the rate of 15 per cent on your local service and long distance calls costing less than 25 cents, and 25 per cent on long distance calls costing 25 cents or more. If you subtract this tax from your bill, doesn't the actual cost of your telephone service look like an even better bargain than you thought it was? SOUTHWESTERN BELL... Soil Conservation

Madrid clover seeded in a conservation rotation is usually seeded from March 1 through April 15, according to technicians for the Soil Conservation District.

Madrid clover is used because it is a deep rooted legume that will penetrate plow pans and dense subsoils. Other benefits derived are that it adds organic residues to the soil that improve tilth and water holding capacity, increases nitrogen in the soil and can be used for hay, grazing and seed production.

Soils of clay and loamy nature that are neutral to alkaline produce the best crops of Madrid clover.

Farmers find that clover usually responds to an application of superphosphate and may on some soils require nitrogen. Farmers planning to seed Madrid are advised to carry a soil sample to a laboratory for chemical analysis. Better recommendations can then be made and the ASC through its conservation program can assist in the cost.

Twelve pounds of Madrid clover per acre should be drilled and lightly covered.

The area south of Iowa Park has entered the community awards in the Bridwell Soil Builders Awards program. Fenton Dale, A. E. Bailey and Luis Hartmangruber will contact the farmers to explain the program and secure individual entries that will make up the community score.

Freshmen and sophomores of Iowa Park under leadership of Mrs. Chauncey Weiler have completed essays on "What I Can Do about Soil Conservation." Awards will be made to the top two essay writers in each class by the Iowa Park Amvets.

F. E. Hill has been named chairman of the Red Cross drive for Iowa Park and vicinity. He will announce the list of his helpers and plans for the drive at an early date.

Mrs. Otis Hendrick visited in Blair Okla., Sunday with her parents Mr. and Mrs. J. A. Farr. Her mother has been in a hospital but is reported better and able to be brought home.
