People power: Bill Buntin makes it work.

"People depend on us for electric service. So when there's trouble, we work till it's fixed-nights, holidays, good weather or bad.

"I think the people in this company have a real good attitude. They're concerned about their work.

You meet some real nice people in this job. Most of us bring our lunch, and eat by the truck. Several times, we've had people bring us out iced tea, even a chair to sit in. It gives you a good feeling."

Bill Buntin is one of more than 2600 people who provide the real power behind Texas Electric Service Company. It's people power ... at work for you.
