THE NEXT ATTRACTION.

"The Convict's Daughter," a powerful melodrama, and one that has caught the public fancy, will be produced with all its wealth of scenery, startling devices, electrical effects and superb acting company at the Opera house on next Wednesday evening. Although only in its second season, the play has been witnessed by larger audiences than any other melodrama written in previous years.

It appeals to every class of theatergoer from the boy in the gallery to the "mother" of the family, to sweethearts and sisters, and the father who loves his only child as much as his own life.

Entertaining, the management has not been satisfied to stop at that. He has furnished every little detail in regard to scenes and situations, with proper ties and mechanical devices.

The first act opens at Colonel Gould's Kentucky home, with its pretty home-like cottage, beautiful flowers and shady trees, and the air of perfect, happy contentment.

Surely one commences to feel its sunshine and warmth from the very beginning. The interest never flags from the first to the fifth and final act.

You are carried from one scene to another, with keen excitement and a great hope and desire, that right will succeed, and wrong shall reap its reward.

A wonderful bond of sympathy has spread itself through the audience, for the sweet, innocent child of the convict and her down-trodden father. There is but one way to appreciate this truly great play, go and see and be convinced that "The Convict's Daughter" will always be remembered with pleasure.

UNITED STATES CIVIL SERVICE EXAMINATION

The United States civil service commission has ordered that an examination be held by its local board in this city on Wednesday, November 20, 1901, at 9 o'clock a. m., for the grades of clerk and carrier in the post-office service. Only citizens of the United States can be examined. The age limitations for this examination are 18 to 45 years. No application will be accepted for this examination unless filed with the undersigned, on the proper blank, before the hour of closing business on October 23, 1901. Applications should be filed promptly in order that time may remain for correction if necessary.

The commission takes this opportunity of stating that the examinations are open to all reputable citizens of the United States who may desire to enter the service, without regard to race or to their political or religious affiliations. All such citizens are invited to apply. They shall be examined, graded and certified with entire impartiality, and wholly without regard to any consideration save their efficiency, as shown by the grades they obtain in the examination.

For application blanks, full instructions and information relative to the duties and salaries of the different positions apply to Clara E. Thomas, secretary, board of examiners, postoffice service. Postoffice address: Stamp window.

WILL ENDEAVOR TO BRING BARBERS HERE

The annual meeting of the Journeymen Barbers International union will be held in Saginaw, Mich., October 1. Mr. J. S. Hudson will be the delegate from Colorado Springs union to the international body.

Mr. Hudson will make an effort to secure the next meeting for Colorado Springs. He will bear to the meeting at Saginaw letters from Mayor Robinson, Governor Orman, and the Colorado Springs chamber of commerce asking the international body to choose Colorado Springs as the next meeting place. Secretary McClurg of the chamber of commerce has taken the matter up with the mayor and has asked the governor to second the invitation from this city and the governor has consented to do so.

Much Activity in Realty Circles

The real estate business in Colorado City is in a very healthy condition. There has not been a time for years when anything like the present activity has been seen in building circles.

Not only are buildings being erected in all parts of the city, but there are a number of large deals pending which will probably be closed in the immediate future. With the new reduction in the cost of building, the new plant, the new business blocks, the Chauteau improvements and the probable building of a new hotel the city has a bright future before it.

H. C. Kinsman reports four real estate transfers within the last few days. From J. E. Jackson to M. K. Rodebaugh, lot 11, block 181, on Colorado avenue between Second and Third streets, consideration \$200. The place will be improved for residence purposes.

From J. P. Jackson to Ella Kinsman, lot 12 on Colorado avenue between Second and Third streets, and lots 21 and 22 on Washington avenue between Second and Third streets. The price paid was \$1,000.

From J. R. Quimby to Wiley Swank, lot 29, block 182, on Lincoln avenue. Consideration \$100.

From Richard Smith to Dollie Winters the lot corner of Monroe and Second streets. Price \$1,200. There is a four-room house on this property.

EVERYBODY GOT SOUVENIRS.

At Hibbard's Opening of their Carpet Department.

All roads led to "Hibbard's," 19 South Tejon street, yesterday. It was the first of their carpet department for the fall and winter trade and the store was visited by thousands.

There were over 12,000 tickets in the boxes when the young women who did the drawing.

There were over 12,000 tickets in the boxes when the young women who did the drawing. Two hundred tickets, all but two of which were blank, were placed in another box. On the two were written the words "Ladies wheel" and "Gentlemen's wheel." One each of the latest tickets and of the tickets containing the names were drawn simultaneously.

The wheels were made by the Adams City company.

Cottagers Sustained Unfortunate Losses

There was very little insurance on the cottages that were destroyed by fire on Ruxton avenue early yesterday morning, according to the information in yesterday's Gazette.

It is understood that Louis R. Ehrlich, who owned the property, had \$2,000 of insurance on the buildings but this cannot be verified, as Mr. Ehrlich is at present out of the state. Mrs. Doolan, Master Doolan, Mrs. Shaw and Miss Bradbury, who occupied the west cottage, lost everything in clothing. The cottage next to this one was occupied by Mr. and Mrs. John Brooks and Mr. Jones of Cripple Creek. Neither the occupants of this cottage nor of the former one had any insurance.

Most of those who were living in the buildings had secured tents and are now camping in the lot back of the cottages.

Mr. Sheldon of New York is to spend several days at the Cliff house.

Mr. J. W. Cook leaves today to attend the carnival in Denver.

E. Williams, who was employed this season at the Manitou house, left for Denver last evening, where he will accept a position as head waiter in one of the hotels.

SPRINGS AIDES HAVE BEEN APPOINTED

Dr. Frank Donaldson and Loring Lennox have been appointed aides in the historical and industrial parade in Denver next Tuesday afternoon. They will have to stand at the county central building of the parade.

It is now but a few days until the Mountain and Plains festival in Denver and the question of sending a maid to represent El Paso county is still agitating the county commissioners upon whom devolved the delicate task of selecting one girl from so many, all of whom would be honored by the selection.

Miss Olive Verlan has been suggested by her friends as a fair representative of the county to act as maid of honor at the event. Miss Verlan is considered very beautiful and has the pose and dignity that one would naturally expect of a young woman to be maid of honor.

COLORADO CITY WILL HAVE STOCK COMPANY

The young people of Colorado City, with latent histrionic talents are planning to form a stock company to give plays in the new Wycoff opera house during the coming winter. The cast will include the best local talent, assisted by several amateurs from Manitou and Colorado Springs. There will be 12 persons in the company, and a number of them have been on the stage for several years.

It is not the intention to give the performances for private ends, but for the benefit of charitable institutions. The plays will be given every four weeks and will include a number of strong works. All the net receipts will be turned over to some charity, which will be announced before the tickets are placed on sale.

As soon as the carnival is over a meeting will be called and the cast will then be announced. Several of the players were in "Uncle Josh," which made a great hit in the city last winter.

LEAK IN GAS PIPE CAUSES SLIGHT BLAZE

There was a small blaze in Nelson's jewelry store on Colorado avenue at about 7 o'clock Wednesday evening. The blaze was caused by a small stream of gas which was escaping from a leak in the gas pipe becoming ignited. The fire was quickly cut off at the meter and a serious fire averted.

WOODMEN OF WORLD ORGANIZE NEW CAMP

A lodge of the Woodmen of the World was organized in Manitou yesterday evening. There was a large attendance of visiting woodmen from Colorado Springs. The new lodge starts out with a good membership.

The meeting, which was held in the Knights of Pythias hall, was called to order at 8 o'clock by Mr. Pyles of Colorado Springs, who has charge of the formation of such camps. A degree team of the same city was on hand to assist. There were present many Woodmen from abroad who were interested to witness the ceremony.

The members of the degree team from camp five of the Springs were: R. Keller, captain; Frank Hart, W. H. Akin, H. H. Gleason, J. H. Gouker, A. M. Conacher, W. H. Clements, E. C. Burford, John Walsh, George Small, D. Worley, Ed. Blaurock, Claude Blanchard, Tom Crandall, H. McDonald, L. C. Rose and Wm. Dossler.

The lodge will be called Manitou camp, but the exact number has not yet been announced. Twenty-five charter members joined Wednesday evening and there are several yet to be examined which will make their number 37. Dr. Rich has been appointed consulting physician for the new lodge.

The meetings will probably be held each Wednesday evening.

SOCIALIST CANDIDATES DON'T LIKE THE HONOR

The Socialist party of El Paso county met at the court house last night and nominated a full county ticket. After the nominations had been made several of the nominees refused to allow their names to stand and the county central committee of the Socialist party will have a meeting before making public the candidates elected last night.

Forrest Woodside was elected temporary chairman and Thomas W. Reid secretary. About twenty new names were added to the roll call. Before concluding, a committee was appointed to draft resolutions condemning the assassination of the late president, William McKinley.

CLERKS UNION HAS A BIG ATTENDANCE

The Retail Clerks union held its regular meeting in the hall over Johnson & Wilbur's store last night and had a very large attendance. One of the features of the meeting was the initiation of ten new members, six men and four ladies.

The evening committee reported great progress. Since the publication of the list a few days ago, eleven grocery stores and one clothing store have signed the agreement to close at 6 o'clock every evening except Saturday. The clerks have got out a card bearing the inscription, "We Close at 6 o'clock Sharp, Excepting Saturdays and the Week Before Christmas." These cards will be given to the storekeepers today.

MINERAL COLLECTION FOR THE HIGH SCHOOL

Secretary Collins of the High school has just received a collection of minerals from the United States department of geology that he has presented to the school. The collection will be placed in the geological exhibit of the school.

The new school at Pike View is about completed and will be ready for occupancy next Tuesday, W. G. Wilbur, former superintendent at Roswell, will teach here.

ADY-WIDDICOMBE

The marriage of Miss Marie Widdicombe, daughter of Mr. and Mrs. Albert C. Widdicombe, and Mr. Roscoe P. Ady, son of the late Hon. J. W. Ady, occurred yesterday afternoon at the home of the bride, 110 East Carmillo street, at 2:45 o'clock. Rev. Dr. James B. Gregg, pastor of the First Congregational church, performed the simple but impressive service in the presence of the relatives of the bride and groom. The marriage had been set for Wednesday at about the same hour, in the home of the groom's father, Col. Ady, who had been ill for some time. This at the appointed time, instead of the afternoon service being conducted for the father of the groom. Hence the marriage postponed under circumstances of such sadness, everything in the most quiet, unostentatious manner possible.

BOYS CLUB RESUMES WORK FOR THE WINTER

The Boys club will hold its first meeting for the season next Saturday night at 607 South Tejon street. The club has new quarters now that are very much more commodious than the old headquarters. The enrollment of the club is now something like 100. Reading and diversions are provided at the club rooms.

Manitou Liquor Case in Court

A case involving the rights of clubs to sell liquor without regular local licenses occupied the attention of the county court yesterday. It was the first of four appeals made by Dr. B. B. Creighton and William Wagner from decisions in the Manitou justice court, the two defendants having been fined four times for different alleged violations of the town ordinances.

The case on trial yesterday was an appeal from a fine of \$100 and costs imposed for the sale of liquor at the Arcade club without a town license. The prosecution was presented by J. W. Kruger and Judge Ira Harris, the attorney for the defendants being J. K. Vanatta. The sale of liquor is admitted, but appeal being based on questions of law.

The Arcade club is regularly incorporated, but the Manitou authorities say the club has no right to sell liquor without a town license, it being contended that the sale is for the profit of the proprietors. The defendants deny this and say that the club has a right to sell liquor to its members.

The taking of testimony was ended yesterday afternoon and the case will go to the jury today unless it is disposed of by a decision of Justice Hubbard on some of the motions of the attorneys.

The case of Triplett vs. Triplett, a divorce suit, was tried in the county court and a verdict returned for the plaintiff.

In the district court the jury in the case of the People vs. Isaac Cahn, accused of assault and battery, resulted in a verdict of acquittal on instructions from the court.

O. K. McCoy pleaded guilty to the theft of a bicycle and was sentenced to the state penitentiary, sentence being suspended.

A motion for a new trial for E. L. Rice, accused of selling liquor on Sunday, was filed.

The case of the People vs. Hatfield was dismissed.

Another Suit Over the Antlers Fire

So long as the courts of El Paso county last, the Antlers fire of October 1, 1898, will be kept green in the memory of the citizens of Colorado Springs. It would take much space to enumerate all the suits that have come out of that fire.

Another was filed yesterday in the district court. This is the second within the past two months and the end does not seem to be in sight. The suit is between the estate of the late John Magill vs. the D. and R. G. R. Co. It is a combination suit, in which the claims of some 20 contestants are united. Thirty people who claim to have been burned out in that fire have joined hands with Magill and he brings the suit for all. The aggregate sum of damages asked is \$27,800.

WILL APPEAL TO THE CZAR.

American Competition Killing the Champagne Industry in France. (Paris Letter to London Times).

Paris, Sept. 3.—The agricultural party of France does not propose to allow the czar's visit to be merely of a sentimental character, but desires to take advantage of the presence of the chief of the Russian empire to demand the abolishment of the Russian duty on wine imported from France. The movement to this end originates with the council-general of the Gironde department, one of the greatest wine-growing districts in the country; but other departmental councils signify their intention of joining in order to come to the rescue of the suffering vineyards. One of the members of the Gironde council said to the correspondent of the Times this morning:

"The late congress of the wine growers of France, which was held in Paris recently, did nothing except to waste the money of the vineyardists. I have just returned from a tour of the vineyard district, where I witnessed the sad sight of peasants cursing the sun for ripening the grapes and maturing a magnificent harvest. I saw the grape juice literally running to waste on the ground. In fact, the present harvest is enormous, like its predecessor, which was ruin for the vinticulturists.

"The crop is too plentiful unless the product can enter foreign countries without duty. Certainly, if Russia is really our ally it ought to abolish the ruinous duty and thereby relieve the main French industry of the stagnation caused by the great falling off in the exports to America. We feel therefore, that the czar should be presented with a petition to this effect, whether or not the government is so inclined. If he refuses our request then we will know that he has not really the interests of France at heart.

"Much other evidence is at hand to show the woeful prospects of the wine growers. They are unable to dispose of their product even in France, to say nothing of abroad. The Bulletin des Halles, the great agricultural journal of the country, says: 'It is best, in fact, to tell the truth—namely, that unless we are able to compete successfully with the American champagne manufacturers we had better go out of the business and try how the land will grow wheat and sugar beets.'

The dots are in this issue.

ROOSEVELT AND THE CIVIL SERVICE.

THE WASHINGTON correspondent of the St. Louis Globe-Democrat stated last week that President Roosevelt would make a substantial advance all along the line in the reform of the civil service.

He is reported as having declared that the consular service should be brought under the civil service, that pension examining surgeons should be similarly classified and later fourth-class postmasters.

That there is great evil in the present system of clerical appointments in many of the departments at Washington all must admit. It is said that merit counts much less than "infloence" with the heads of some departments.

These matters come directly under the executive department of the government, and Mr. Roosevelt can exercise great influence over them.

It is not expected that President Roosevelt will attack these reforms in a precipitate manner, but will be guided by conditions.

One of the needs of American foreign commerce is the reform of the consular system, with promotion from the lesser to the more important posts. It is seldom that an American consul remains long enough in office to become of any value to his countrymen, either abroad or at home.

For the pension examining surgeons, Commissioner Evans himself has recommended that they be brought under classified service.

EXECUTE HIM QUIETLY.

CZOLGOSZ will be electrocuted at Auburn prison on October 28. It is a long time to wait, but the forms of law must be obeyed.

The Springfield Republican suggests, however, that in view of the extension of the free rural delivery it ought to be easier to take the fourth-class offices from the politicians, since their importance and attractiveness are bound to decrease.

ECHOED FROM THE PACIFIC.

IN NO part of the country did the blow of McKinley's assassination fall harder than on the Pacific coast. He had visited the people so lately, and had become known so well that his death fell like a personal loss upon many.

There are subjects that might here be discussed, but as the mayor said to you in his opening address, this is perhaps not the time nor the place to indulge in recrimination and discussion of new and pressing questions of public interest.

Let the past go—forgive, as our dear president forgave; but let him who proposes to renew that kind of business look out for himself.

We have all learned a lesson. I believe we have come to the conclusion that there is too much glittering generality of the constitutional declaration that no law shall be passed abridging the liberty of the press or the right of free speech.

It is not expected that President Roosevelt will attack these reforms in a precipitate manner, but will be guided by conditions. One of the needs of American foreign commerce is the reform of the consular system.

General Superintendent Hurley will maintain his headquarters at La Junta. He yesterday announced the appointment of K. Etter, now employed in the division office at New Orleans, La., as his chief clerk.

WEBSTER CENTENNIAL.

ONE HUNDRED years ago Daniel Webster graduated from Dartmouth college, at Hanover, N. H. The event is being celebrated this week in a suitable manner, and on Wednesday the cornerstone of Webster hall was laid.

The family made many sacrifices to educate him, and he taught school one year after graduation to secure money so that his brother Ezekiel could also go to school.

The story that Webster tore up his diploma after graduation has long since been exploded. There may be some question of taste in celebrating the centennial graduation of a scholar from his college with a torchlight procession and floats, but then Hanover was having its big week, and, as Mr. Dooley says, the Midway is the principal thing at an industrial exposition anyway.

Gladstone is reported to have once said of the anarchists, "Their most valuable asset seems to be a melancholy preponderance of mischief, and their principal characteristic a passion for murder."

FROM THE PRESS OF THE NATION

The Chicago Tribune "Sold." (Detroit Tribune.)

Some investigating member of the Chicago Tribune staff has gone through his wife's pantry shelves or has been fumbling over the office files. In his search for something else he has happened upon one of those ubiquitous copies of the Ulster County Gazette of the date January 4, 1900.

When the editor of the Belleville Blade makes such a funny break, his neighbors, who have probably been bitten in the same fashion in the past, give him the hoarse hoot and "ye editor" buys, to secure their silence.

Charles Crist Delmonico. (New York Letter.)

Charles Crist Delmonico, who died in Colorado Springs last week, was of the third generation in the family whose name had been associated with good eating and famous dinners for three-quarters of a century.

Santa Fe Changes. (Topeka Capital.)

Division headquarters of the Santa Fe will be established at Dodge City as a result of the recent separation into two grand divisions each in charge of a general superintendent.

The President and the Trusts. (Omaha Bee.)

President Roosevelt has clear and well-defined ideas as to how the great combinations should be dealt with. He does not advise legislation for summarily destroying them as some do, because he has the practical judgment to understand that such a policy would work wider destruction than that of the combinations.

KNIGHT-CAMPBELL'S

You have choice of best makes of pianos at extremely low prices.

To those who intend purchasing a piano or an organ and desire to secure a good instrument at a big discount from the prices at which pianos and organs must of necessity regularly be sold,

Knight-Campbell Co.,

have a proposition to make here that surely will interest you. A brand new piano, full size and octave, New York make, beautiful case design, a piano that is well worth \$400, will be offered to day at \$198—easy payments if you wish. A practically new piano only out to rent a short time, regular selling price \$350, will be offered at \$179—price almost cut in two. A second-hand piano, old and reliable make, which has just come in in exchange, will go for \$147. These are only a few samples.

Our stock—as well known—comprises "Steinway," "A. B. Case," "Everett," "Fischer," "Kimball," "Franklin," "Smith & Barnes" and numerous other makes, all of which are offered.

So popular have the special prices become and so well appreciated that parties from neighboring towns have swelled the list of buyers and provided themselves with a handsome instrument at the usual price that a low-grade piano is placed on the market.

Remember, if you are not ready to buy the best—Steinway, A. B. Case, Everett, Fischer, Kimball, Franklin or Smith & Barnes—you may exchange a piano of less cost for a period of two years, not losing a penny of the original purchase price. Stool, scarf, and year's tuning free.

COURT OF INQUIRY HELD BRIEF SESSION

Washington, Sept. 26.—The Schley court of inquiry was in session for only an hour and three-quarters today, adjourning at 12:45 o'clock in order to permit its members and others engaged there to attend the funeral of Judge Wilson, late chief counsel for Admiral Schley.

Captain Wise concluded his testimony, Admiral Cotton made a brief statement on recall, and Lieut. Spencer S. Wood, who commanded the dispatch boat Dupont during the Spanish war began his testimony.

Machinist Gray, who was in charge of the starboard engines on the day of the battle of Manila, also testified briefly. He said that on the day of the battle the starboard engines were stopped and the machinery reversed.

Captain Wise was questioned at considerable length as to what he had done before the arrival of the flying squadron of Santiago towards locating Cervera's fleet in the harbor. He said that while he had satisfied himself of the presence of the Spanish fleet, he had been content to communicate his knowledge to Admiral Schley through Captain Sigbee, not considering it necessary to make direct communication with the commander-in-chief.

Lieutenant Wood gave the particulars of his delivery of dispatches from Admiral Sampson to Admiral Schley on May 22 while he lay off Cienfuegos. He said Schley seemed very nervous and especially anxious to know what Sampson's intentions were. He had not concluded his testimony when the court adjourned for the day.

DUKE AND DUCHESS WELCOMED IN WINNIPEG

Winnipeg, Man., Sept. 26.—The duke and duchess of Cornwall and York received their first welcome to the west at Winnipeg today. They arrived at noon and remained for 10 hours. The next stop on the tour will be tomorrow at Regina. Thousands of visitors from the prairie towns gathered for participation in the reception here and the streets were filled with cheering crowds when the party arrived. All the local militia and police, the regulars quartered here and several civic societies were formed about the station. The duke and duchess were welcomed by Premier Laurier and the countess of Minto, Lieut. Governor McMillan, Premier Roblin, Mayor Arbutnot, the bishops of the Roman Catholic and Anglican churches, the justices of the supreme court and a number of prominent citizens. After the formal presentations the duke and duchess were escorted through flag-lined streets and under great arches made of wheat and in front of the city hall where a series of addresses were made to them. The duke

COLUMBIA MADE GOOD SHOWING

20 seconds before the starting gun was fired. They were recalled. Coming up again they fled away across the line, both on the starboard tack but Columbia half a length in the lead and a length to windward. Both carried the same sails, main, club topsail, stay, jib and baby jib. The slight made the difference of the spectators tingle with delight. Then for ten miles down the Long Island shore in plain view of the spectators the two big single-stickers smashed into the head sea sending spray smoking to the crossrees. Strain as Shamrock would she could not hold her white rival even. Slowly but surely Columbia forged ahead, pointing higher and footing faster. Shamrock tacked and tacked again but Columbia went about with her each time and appeared to be the more nimble. Tined again and again by the experts she was quicker in stays by ten seconds.

Then set down the Long Island coast made a beautiful marine spectacle. The patrol fleet under the direction of Captain Walker of the revenue cutter service, maintained a perfectly clear field. Half a mile of revenue cutters and yachts at an angle of four points from each side of the course formed a right angle, changing direction as the yachts tacked. In the hollow of this angle as if on a fence corner there was most interference with the yachts than if they had been sailing in the middle of the Atlantic, while behind the fence on either side were the solid floating, moving line of careening hulls, rail to rail, their smoking stacks making a black wall above them. On into the bucking seas the yachts went, spurning great rollers from their shark-like bows.

The American was undoubtedly the prettier boat. Her sky-scraping club topsail was not so high by eight feet as that of her rival, but she appeared more stately and graceful. She seemed a thing of life, lifting to the seas with less effort and piercing them with less fuss while the heavier breasted Shamrock pointed and shivered them with the force of her impact.

The slender lines of the racing machines looked too frail to carry the canvas which towered above them. About 10 feet above the water line, a height equal to a modern ten-story building, the slender topmast of the Shamrock showed the pyramid of canvas, but her 83 square feet more of canvas than the Columbia carried could not make her overtake the white beauty.

It was directly off Long Beach hotel, with its crowded piazzas that the Shamrock showed in front for the first and only time during the race. As the wind had hauled more to the southward she had died down somewhat. Charlie Barr headed the Columbia off shore in the hope of meeting it. Instead he hooked his nose into a dead calm and for some minutes Columbia lay with her sails flapping while the Shamrock, catching a slant wind, nearer shore, drew rapidly ahead. But the victory was short lived. The cant of the wind to about six knots, making it from this point a close haul to the mark. The Columbia rapidly overtook her adversary and Captain Sycamore, in desperation, concluded to press on more canvas by trying a larger jib topsail.

While the sailors were out on the bowsprit taking in the old and bending on the larger sails the Columbia went by the Shamrock as if she had been moored to the dock, making two feet to her one.

From that time to the outer mark the Columbia gained steadily. As she came alongside the turning point, leaving the mark on the starboard hand, Barr put his helm hard down and huffed around it. Then she fled away. Her great balloon jib broke out like a puff of smoke, her boom was eased off and she was away for home on a broad reach. The bands crashed, the whistles blew and the crowd aboard the excursion fleet cheered. The fleet courteously waited until Shamrock rounded seven minutes and four seconds later and gave her a cordial reception.

From that time on it was a procession, not a race. The Englishmen tried half a dozen different head sails in the hope of improving their position, but the American forged steadily ahead. Then at the stake boat, gradually died down and an hour before the time limit expired it was evident that the yachts could not finish in time. The committee boat finally hoisted signals declaring "no race," and the big excursion fleet headed back to New York. Only the steam yacht Erin with Sir Thomas and his party aboard, remained alongside the challenger and escorted her to her anchorage.

Under the rules the unfinished race will be sailed on Saturday, and the course will be again 15 miles to windward or leeward and return.

When seen after the race, Sir Thomas said: "It was not a satisfactory race be-

TECHNICAL DETAILS OF THE DAY'S RACE

The Columbia was the first to reach the scene of the start, being towed from her moorings out to Sandy Hook lightship. Her mainsail was set but it took her skipper some time to see what sized gaff topsail to send aloft. The breeze at 10 o'clock was blowing about 10 knots an hour from north and east and it then looked as though it must increase. At last it was decided to set the biggest club topsail aboard and a very pretty sail it was when masted and sheeted. The Columbia took quite kindly to the swell that rolled in from the sea, making very little disturbance in the water. She made several tacks around the lightship before her rival appeared on the scene.

The Shamrock with her mainsail and big club topsail hoisted and her head sails set in tops, passed out by the point of the hook in tow. It was noticed that she splashed the water about considerably and pitched heavily in the long ground swell. About half way out to Sandy Hook lightship the tow line was cast off and the head sails were broken out. Her canvas set admirably. Never was a finer set of sails seen on a cup challenger.

The tug Navigator, which carried S. N. Kane, Chester Griswold and Newberry D. Lawton, the regatta committee, anchored to the southward of the lightship, making the extremity of the line and soon a string of signals and flags displayed, signifying that the course would be east by north 15 miles to windward and return.

The preparatory gun was fired at 10:55 and from that moment the yachts were amenable to the rules of the New York Yacht club. The wind was eight knots. The weather was cool, and the atmosphere clear. Ten minutes later the warning gun was fired and it was then that the two racers came into close proximity and began to jockey for the weather berth at the start. Baby jib-topsails were hoisted in stops on both craft.

Captain Sycamore held the tiller of the Shamrock with William Jameson beside him. Barr was at the wheel of the Columbia. He placed the cup defender to the windward of the challenger and kept her there in spite of his opponent's efforts to get clear. The Columbia, on the port tack, crossed the bow of the Shamrock and then tacked and stood the line. Both skippers were in such a hurry that they crossed before the starting gun was fired. They were recalled by three short blasts from the whistle of the committee boat. Both then were round and immediately after the gun had sounded Columbia on the starboard tack crossed the line ahead. The Columbia was to windward of the Shamrock, the official time being:

Columbia, 11:10:49.
Shamrock, 11:11:01.

The challenger went on the port tack just after crossing and the defender followed her example. In order to get free from the back wind of her antagonist which was retarding her considerably, the Shamrock was kept broad off the wind and she speedily worked clear of her rival, going through the water very fast. The Columbia held her huff and it was noticed that when the two were close hauled, the American yacht pointed higher than the Shamrock. At this time the wind freshened a little.

The Shamrock went about on the starboard tack at 11:25. The Columbia also tacked and was again 15 miles to windward or leeward and return. The American boat is quicker in stays and gathers way faster than the Shamrock. At 11:35 the Columbia went on port tack and crossed the bows of the Shamrock a good 200 yards in the lead. This was quite en-

TO DECIDE ACTION AGAINST TURKEY

Paris, Sept. 26.—The Courier du Soir, which is usually well informed, makes the following sensational statement: "One of the results of the conferences between Emperor Nicholas and President Gouber, M. Waldeck-Rousseau and M. Delcasse, during the czar's visit to St. Petersburg, in exchange of views between European cabinets now progressing with the object of arriving at an understanding as to action against Turkey."

"Germany's concurrence is assured," Emperor William has consented, but Count von Buelow has raised objection to some details of action proposed, thus necessitating a further reference to the other governments before a final decision can be reached.

WOMEN GOLFERS

Chicago, Sept. 26.—The close contest between Miss Bessie Anthony, the present champion, and Miss Congdon of Glenview, was the feature in the first round of the women's golf championship tournament today. Nineteen holes were played, Miss Anthony winning the deciding one in five strokes to her opponent's six. On the first nine the pair were in a square, but she continued evenly until the home green was reached. A two-foot putt held would have given Miss Congdon the right to play in the semi-finals, but she rimmed the hole and the match was halved. Miss Anthony won out on the extra hole.

THE CRITICAL YEAR OF MARRIED LIFE

Not the First Year, but the Third, and the Reason Why.

"Some folks have a way of declaring that the first year of married life is the most trying," writes Edward Bok in the October Ladies' Home Journal. "But where one gets a close knowledge of several families the conviction is brought home that the trying period expires the first year. I should fix it rather at the third year, when the pretty trousseau is showing wear and needs replenishing; when the wedding presents have lost their luster; and this thing has worn out and that thing has to be replaced; when a little family is growing up and steady miseries are introduced into the family reckoning. That is the trying period when interests are apt to become very close. Likewise calculations. This is that the saving of the comparatively care-free and less expensive first year of married life comes in heavily, for the steadily increasing income was then lived up to in unnecessary buying and foolish entertaining. This a great deal of happiness in a world wrecked by debt, and generally the debt could have been avoided if a little more care and common sense had been exercised."

Again—Don't Drink During Meals.

To limit the amount of water and fluids which you take during meals, since large quantities of these, especially ice water, hinder digestion. Not more than one glass of water should be taken during each meal. In order to quench the thirst which is so apt to hamper you at meals, eminent authority suggests taking a glass of hot water fifteen or thirty minutes before meals. This acts especially well in the morning, as it cleanses the stomach. (October Ladies' Home Journal.)

Fall and Winter Millinery . . .

Well, our Grand Opening is over—and a grand opening it was, too! The great crowds came and passed and re-passed through the various departments of our great store during all the day and evening, and an every hand was heard nothing but expressions of praise and commendation at the beauty and richness of the various displays. In the Millinery Department especially was this true, for in this department we have made especial efforts this year which in their results amount to absolute innovations. It is no longer necessary to pay \$25 and \$30 for a Fall or Winter Hat, for by our system as now in operation, identically the same Hat may be bought here for from \$12 to \$18. And by this it must not be understood that the showing here is confined to all high-priced goods—our well-known principle of giving to all what they want at the price they can afford to pay, applying in this department as in all others. The showing of Hats in the Millinery Department includes hundreds of fine creations—stylish, neatly trimmed—of the best materials—up-to-date in every particular, and at prices ranging from \$2.25, \$2.75, \$3.00, \$3.50 up to the higher prices mentioned. An inspection is all we ask, and an inspection is bound to be satisfactory to you because of the great values we show.

The new Velvets and Chenilles for trimmings are in and ready for your inspection. By the way, do you realize the great advantage of buying here on account of the very complete making and trimming department maintained right in our own store?

Children's Hats are also found here in most complete and late varieties—clean ranging from \$1.50 to \$3.50, and they'd cost you at least a third more elsewhere.

Another Sensation in Shoes . . .

It's astonishing how often we find it absolutely imperative to have a clean-up in our Shoe Department—but still, not much else could be expected when the great trade here is taken into consideration—and the great trade is not much of a wonder when the values and prices are considered. It is not saying a word too much to assert that more and better shoe value is to be had here for less money than you would receive anywhere else—but that's not strange either when you consider that it's the rule in every department at Pelta's.

Well, that's a good story—and the better for being perfectly true in every respect—but it's only preliminary to saying that we've been cleaning up again—found a lot of Ladies' Shoes—about 300 pairs—some French Kid—some all kid—some vesting tops—some tan—some black—some button—some lace—some a little out—some quarter coin toes and some the square patent leather—but not a shoe in the lot worth less than \$2.00 and \$3.00. They're all out on the table where you can feast your eyes on 'em—try 'em on if you wish—pick 'em over till you're suited, and then have a pair wrapped up for \$1.00

They won't last long at this price, of course—so you'd better come down town a little early Friday and Saturday morning.

Bargains for the children, too. Here's a couple of hundred pairs of Children's Shoes—made by Gregg & Robinson, Cincinnati—no better anywhere, you know. Some tan—some black, some button, some lace—full range of sizes, and they'll make the little ones happy for, pair 85c

All subscriptions sent by mail must bear postmark prior to the above time.

TRY YOUR SKILL AT COUNTING

There is no trick about the puzzle. It is simply a matter of counting the Dots. It is absolutely a test of skill and ingenuity.

Address all Remittances and Guesses to the

PUZZLE DEPARTMENT, COLORADO SPRINGS GAZETTE, Colorado Springs, Colo.

TO CONTESTANTS: The Gazette upon receipt of Ten Cents will send at the close of the contest a diagram or key of the above puzzle so constructed as to prove the correct answer to the satisfaction of all contestants.

Form for guessing the number of dots, including fields for name, address, and amount of guess.

JEALOUSY MADE HER DESPERATE

Kitty Schueler of Manitou Found Her Husband Gambling in a Colorado City Saloon and Poured Three Shots Into His Body--He May Recover.

Will Schueler, 25 years old, was shot three times by his young wife, Kitty, in a Colorado City saloon last night and was probably fatally wounded. The woman fired four times at her husband, but only three of the bullets took effect. She was arrested, but refused to talk about the crime, except to say that she did it because she was jealous.

LUMBER FIRE INCENDIARY

Persons Who Have Looked Into the Case Hold This Opinion--Good Work by Government Representatives.

The statement published in the Gazette a few days ago to the effect that persons who have investigated the matter believe the lumber fire at Rosemont early Sunday morning to have been incendiary original, might be repeated daily. Reports from the scene continue to be that the persons who are investigating the cause of the fire and endeavoring to ascertain exactly what was burned are more and more convinced that the fire was set deliberately by someone.

Big Improvements at Seven Falls

Few Colorado Springs people are aware of the scope of the improvements that are under way at Seven Falls, the result of the determination of the Hull brothers, owners of South Cheyenne canon, to give the people who visit their attraction the greatest possible degree of comfort that can be provided.

The road has been put in excellent condition at the expenditure of a large amount of money and the workmen are presently engaged in removing rock and preparing the ground in the immediate vicinity of the bottom of the Seven Falls for the erection of a public pavilion that will represent the expenditure of about \$5,000. The pavilion will be large enough—40 by 50 feet—to accommodate a very large number of people, and will afford ample protection for those caught in rain storms in the canon or a place of rest for those who find the trip a tax upon their staying qualities.

REPUBLICANS HAVE GOOD HEADQUARTERS

The Republican County Central committee has opened headquarters in the Midland block, in the same rooms occupied by the party in the last campaign.

Notice is hereby given that on Tuesday, Oct. 1, 1901, at 9 a. m., the board of county commissioners of El Paso for such cause, made and provided, hold its first regular meeting for the year of 1901 at the county board of equalization in and for the county of El Paso, for the purpose of equalizing and adjusting the assessments of the several taxpayers of the said county.

MINERALOGY AND PETROGRAPHY

"Contribution to the History of Petrography" is the title of a book which serves a purpose broader than the mere presentation of discussions upon the titular subjects. Issued in connection with the Bi-centennial of Yale, consisting of reprints of some of the more important articles which have appeared in the history of the development of mineralogy at Yale, it has a distinct learning of that great university.

THE COLORADO SPRINGS MINING STOCK EXCHANGE

Colorado Springs, Sept. 26.—The market today manifested some weakness in places, especially among the most active stocks in the mines list, but the general run of the trading was very good. The preferred prospects list was more active than it has been in some days, and the prices there were inclined to be higher. There was considerable satisfaction expressed in mining circles at the turn which the trading has taken in the direction of the lower priced stocks. Doctor-Jack Pot was almost entirely out of the game, and while the other three of the especially active stocks in the mines list were still conspicuous, the trading has dropped

off considerably. Elkton was a feature of the trading, selling at one time as high as \$1.75, but slumping to \$1.25. El Paso sold down to 60, Gold Dollar was very weak at 18, while Isabella sold lower at 55, under heavy trading. Orphan was a trader at 19. Alamo, Eastwick and B. H. Ajax were in some demand, and Central sold up to 9%. Mollie Dwyre was in demand at a price fractionally above 7, and Sedan was active, but closed weak at 6%. Navajo was again a very lively trader, closing at \$8 per 1,000. C. C. and M. was active and sold up to 8. There has been a considerable demand for this stock since the affairs of the company were determined to be in good shape.

from the Bank of England of more than \$2,500,000 for Germany was taken to indicate the ability of the London market to respond to demands upon it in the event of any real stringency in the New York money market. The movement of prices had the usual effect of softening the views of the day's events to compare to the usual quiet and steady at about the best. The principal weak spots in the bond market were in speculative issues. These rallied with stocks and others were firm throughout. Total sales, par value, \$2,000,000. United States bonds were all unchanged on the last call.

EASTERN MARKETS

New York, Sept. 26.—The tone of today's stock market showed growing improvement over that of yesterday. There was considerable evidence of realizing still which persisted after the opening bid and showed a tendency to recur from time to time, but support was forthcoming on every decline and before the day ended the bears were generally disposed to cover their short lines, causing practically a complete recovery of all losses. Not a few stocks had decided net gains, including Amalgamated Copper, Anaconda, the Vanderbilts, Pennsylvania, B. & O., St. Paul, Chicago Greatwestern, Manhattan and Peoples Gas. The opening losses were due to the demoralizing effect upon copper mining shares in the foreign markets and a break in Amalgamated. Rio Tinto were off over 3 points in Paris where the stock market opened here and the copper market in London had made a further slump. London poured out stocks freely upon the New York market in liquidation, making the opening active and weak. It became evident very quickly that support was to be accorded to Amalgamated Copper and Anaconda. Only 700 shares of the former and 600 shares of the latter sold at 1/2 below last night's closing. All subsequent transactions were at or above last night's level. Both stocks fluctuated frequently during the day, but the large short interest showed itself nervous over the rally after so extensive a decline and with all the bad news, so far as known, already published. The active demand from the shorts caused Amalgamated Copper to recover more than yesterday's loss and the stock closed only 3/4 below the best. Anaconda is 3/4 higher for the day. The relief of sentiment afforded by the recovery in Amalgamated overshadowed all other considerations. The severe liquidation in some of the railroad stocks, which was a feature yesterday, was not in evidence and the fears felt of unfavorable developments in the companies not yet known to the public were relieved. The selling was explained as being due to liquidation by bull pools, and suggestions were heard of internal dissensions between the members of the pools to account for the liquidation. The very favorable reports of the iron trade outlook, including the rise in the price of pig iron and assertions that large orders for steel rails would go over to next year, was accepted as a checking indication. The announcement of the arrival in San Francisco of a consignment of \$2,500,000 in Australian gold, taken in connection with yesterday's report of a shipment of a like amount from Sydney and the large receipts of Klondike gold in the last few days, served as re-assurance to those who felt uneasiness over the future money outlook. The withdrawal

The Metal Market. New York, Sept. 26.—Again there was a decided drop in the price of copper at London while the local market remained featureless. The market was weak abroad, under liberal offerings prompted by reports of heavy stocks and a lack of bull support. The close was weak at 151, 15d for spot, and 152 1/2 for futures. Tin, after opening weak under liquidation at New York, turned around and became firm on good buying orders, the close being firm at \$25 for spot. At London, however, the market was unchanged, spot quoted at 112, 15s, 8d and futures at 110, 15s. Lead and spelter were unchanged here and abroad. Iron markets dull and unchanged.

The London Market. New York, Sept. 26.—Commercial Advertiser's London financial calendar: The stock market today was a narrow and sensitive one governed by apprehension over the copper mystery. The metal opened at 64, fell to 60 1/2 and closed at 62. Copper stocks followed suit. Americans followed the course of copper. They opened very weak, a full point under parity and were steady, but idle, until New York came as a slight buyer, particularly of Atchison. Then prices see-sawed idly. London moved in sympathy with New York. Call rates ran up to 1 1/2 and the markets were obliged to go to the bank for a large amount of money.

New York Money. New York, Sept. 26.—Money on call 3/4; 10 day 3/4; ruling rate 3/4. Prime mercantile paper, 5@5 1/2.
