NOTICE OF FORFEITURE.

Rico, Dolores county, Colo., Aug. 13, 1881.

To Wm. Dwyer:

YoU are hereby notified that we have expended one hundred dollars (\$100) in labor and improvements upon the Fickle Goddess lode, situated in Pioneer Mining District, Dorores county, state of Colorado. Said expenditure was made for the purpose of holding the claim for the year ending Dec. 31st, 1880, in accordance with law. And if within ninety days from the service of this notice by publication, you fail or refuse to contribute your proportion of such expenditure as a co-owner, your interest in said claim will become the property of the subscribers under the provisions of section 2324, Revised Statutes of the United States.

as the Pride of the Rockies, the gateway

father of Colorado's prosperity, past,

present and future. Denver is a beautiful city of no small the city's general appearance, that the people have done nothing by halves, since

The train with her boy.

The train arrived in Denver about 5 known to the western adventurer, than office of Drs. Brancroft and Edson. will centre there, for Denver is the natumercantile centre of the broad territory between the Missouri River and the Pacific slope. Colorado will of course in a be supported by the immediate resources of their various and respective localities, but when any of these cities shall overtake Denver, the latter will have overtaken any city of these United States. It has been the good fortune of Denver to possess men of money and a disposition to expend that money in the material advancement of the city, as well as their individual interests. To enumerate the attractions of Denver, would be an endless task, for their is attraction in almost every feature apparent to the ordi nary observer.

Denver has sent forth to the mountains f Colorado, more home capital than all other Colorado towns combined, and the Grand Tabor Opera House, Windsor Hotel, Tabor Block and numerous other large stone and brick blocks are monuments to the investor and mining operator's success.

The Electric light has reached Denver, meeting great favor, and will eventually

crowd the gas out. Pueblo has undergone a great change in the last few years. The little city of the South has a foundry, a smelter, and the Colorado Coal, Land and Improve ment Company have built just at the edge what is now Colorado: but in all localiof the city, extensive iron and steel works.
All of these institutions give employment to hundreds of men, and circulates a vast amount of money in Pueblo county. A mount of money in Pueblo county. After waiting there several days the number of new business houses are in known, though only for domestic and course of erection there, and Pueblo is a ornamental purposes, for it is a fact that live business town. The old Chieftain no government existing in the new world west. To the pilgrim searching for a western home, the *Chieftain* beckons western home, the *Chieftain* beckons Chieftain, News, and South Pueblo Ban-

This little railroad, extending its branches to tap every important mining camp in Colorado, and driving on to the Pacif ic coast, is doing more road building and expending more capital than any other company in the railroad world. No oth er road has ever been built under half so many difficulties and disadvantages as along the route between Durango and On the evening of the fourteenth, we Denver is grand, and the journey a pleas started for Pueblo, reaching that place ant one. Denver can now be reached from Rico in 48 hours by taking the Taand there taking the first eastern bound

CONCLUSION OF THE TRIAL.

The jury gave a verdict for the defendants, after the case had been ably argued for hours, by T. M. Patterson, for the defendants, and Thomas Macon, for the plaintiffs.

A motion for a new trial was overruled and judgment was then rendered for the defendants, Hull, Krille and Boaro, whereupon Mr. Patterson moved to dismiss the bill in equity, filed by the plaintiffs, and dissolve the injuction. The court ordered that the bill be dismissed, and the injunction be dissolved at the expiration of four months from Oct. 1, '81, unless the Supreme of the United States prayed an appeal to the Supreme Court.

The witnesses of both sides of the case have performed their duties, and no unnecessary feeling should now exist among acted as referee at a prize fight, traded them, for harmony is essential to the welfare of all.

When you go to Denver, and want to

A Six-Year Old's Nerve.

The late John Hittson will be remem bered as one who well deserved the title of the bravest of the brave. He lost his life by bravely sticking to his buggy when his horses, uncontrollable through fright, were dashing along a dangerous road; finally breaking the vehicle and crushing him to death. An event yesterday showed that his widow and his little son, a boy of six years, are worthy of the name and fame of the deceased father. On Monday afternoon the little fellow will return with a better opinion of her or his individuality for residing in and helping to build up a new mining camp the little revolving wheels. To prevent the loss or town elsewhere in Colorado. The people of Colorado may point to Denver cord finally became fastened to one of the rapidly moving wheels and the poor boy's arm was actually torn in twain. through which the first hardy pioneers The bone was broken sheer off, the flesh and adventurers passed, to explore the torn through and the dismembered arm grounds where cities and towns now hung bleeding by the wheel. In ten minstand, supported by the operations of Surgical aid could not be secured in Deer mines discovered by them, and as the Trail, and the mother with great fortitude and presence of mind, took the little fellow home, changed some of his clothing, packed a few articles for use on the journey, placed the dissevered portion of proportions, and it is clearly evinced by his arm into a satchel, and got on board

the days when Cherry Creek was better o'clock Monday evening. was Denver. Millions upon millions of as neither was in, she waited with her dollars have been invested in this wonder. suffering boy until their return. The ful city of the west, and millions more The surgeons naturally requested her to having left Rico about 7 a. m., of the ral mining, manufacturing, railroad and would only injure her own health and nervous system by staying, and would also by her agitation render their work

Colorado will of course in a she, however, steadfastly refused to few years, build up a number of cities, to leave her charge but held the boy in her lap during the whole process of amputation. The boy did not utter a cry or groan during the whole operation, but when he returned to consciousness after taking the anæsthetic, asked the doctor: "Did you put my arm on again?"

But finding that his arm was still miss

"Why did you not put my arm on again?" Such heroic fortitude as was exhibited by this child is rare indeed, and if rightly directed may yet give the boy an honored place in the history of his race and coun-

Among the many objects of interest carried to Spain by Columbus, after his discovery of America in 1492, nothing excited the cupidity of the old world residents so much as the curiously wrought articles of gold that were found in the possession of the natives. A swarm of adventurers soon crossed the ocean, in search of treasures, and the amount secured by the Spaniards under Cortez in Mexico, and Pizarro in Peru, which they wrested from the residents of those two countries, amounted to a sum that caused Charles V, from the royal tenth set aside by his followers as his share, to be the wealthiest monarch in Europe. In a few years after the Mexican and Peruvian provinces had become dependencies of Spain, the Western Hemisphere had been explored by Europeans, from the equator to the present southern borders of come to Pueblo. Here there are two daily and three weekly newspapers, the in the manafacture of spear tips, and as bolts in the construction of houses, and for cutting instruments, they lacked all knowledge of the manufacture and use of iron in any form—a metal that abounded in great quantities in their country.—Silver Cliff Gazette.

Leadville Heard From.

"The fact that General Bearce has within the past year traveled over all the mining districts of the Rocky mountains, and examined all the leading mines, now comes back to Leadville pronouncing it the greatest mining camp of the world, is evidence that stories from afar have little truth. He says Leadville mines ship more ore in a month than the entire Rico district will ever produce."-Leadville

Gen'l Bearce, while visiting at Rico, said that the prospect of Rico, at its present age, was far better than was Leadville's prospect at the same age; that Rico had more ore in sight, and that the Wabash mine was the "biggest" he ever saw. So much for the General.

From the Durango Herald.

There are 582 houses in Durango. The foreign passenger business, as shown by coupons of tickets sold at this point during the month of August, amounted to 37,000.

The caily receipts of freight at the depot continue very large, The merchants of Durango, Silverton, and Rico are ev idently laying in immense stocks of goods

for the winter trade. The Denver & Rio Grande coal sheds in Durango are 280 feet long with a roof 42 feet wide. Bins are built on either side of the track the entire length and engines run under the roof to coal up.

A Deadwood minister recently preached three sermons, led the Sunday school, shot-guns, licked a deacon for snoring during service, and yet some of our eastern ministers, who preach two sermons a week, claim that they are over-

Quite a number of Denver capitalists are interested in Rico mining property, and they will develop it.

The other assay gave 3.10 for them. ciding which is the most feasible route to of an ounce gold and 16 ounces silver per the Pacific coast.

A News agent out West deserves a testimonial. For hundreds of years, not pay ore at no distant day. a single account of a destructive hail storm has appeared in the newspapers that he didn't say the "hailstones were as large as hen's eggs." Many persons have come to the belief that eggs were invented for the sole purpose of comparing with the size of hailstones. But there has been a new departure. A telegraphic account of a recent storm in the West says "the hailstones were as large as door-knobs," and the author of the new comparison will doubtless receive the thanks of all newspaper readers .- Norristown Herald.

UNPARALLELED SUCCESS.

It would be difficult, perhaps impossible, to find another camp in Colorado in which the amount of development done when we might as well have a place of upon the mines at Rico, during the sumholding the same where the several thous- mer of 1881 has accomplished such magnificent results in the discovery of large deposits of rich ore as at this point. The late mining suit from Rico is a This success is due to three causes, first, fair illustration of the useless expenses, the case with which large amounts of desuffer in going away out to Del Norte. Rico with a small amount of labor; sec-Several thousands of dollars have been ond, the large number of valuable depos expended in this controversy, in trans- its; third, the energy and wisdom with porting and holding a large number of which the miners of Rico have expended witnesses in readiness for the trial. At their labor during the present summer. any other point in the San Juan country | Our attention has of late been particularthe cost of this trial would not have been by attracted by the showing made during one quarter so great as it has been, the summer by the mines in Horse gulch and vicinity. Judging from present developments this portion of the camp seems destined to ship during the coming summer to our smelter here in town and to Durango an immense amount of ore yielding a large net profit to the fortunate owners of the mines. It would consume too much space to undertake to enumerate all of the very promising mines in this section of the camp. The people of Colorado have, however,

been for some time acquainted with some of the older discoveries from which considerable pay ore was shipped before-our wagon-road to Durango was completed. Such mines as the Johnny Bull, Puzzle, Rico Union, Puzzle Extension, Victoria, Harrietta, Stephen B., John B. and Monster had some time since deservedly acquired a fine reputation. During this ummer, and especially the latter part, a Rico, Hoosier, Hidden Wealth, Little Wink, Hard to Beat, Hancock, Bull of the Wood, Fortune Tunnel-site, Nettie, Compadre, Big Missouri, Ellen A., Rockford Bell, George Washington, and Omaha have come to the front in most excellent style. The difficulties which have heretofore stood in the way of working our mines to a profit, have now passed away. The terminus of the railroad which a year ago was two hundred miles distant, is now within forty-five miles of our place, and within the next forty-five days will be within twenty miles of Rico. Within the last thirty days a good toll Durango, the present terminus of the railroad, and since its completion large amounts of ore are being shipped ont of purchasing, and for certain grades of ore preparing their mines to take out and

ship ore early next summer. Parties who have not already sold or bonded their mines will do well to hold them for the spring market. News reaches us from every part of the state, and from many points east that the merits of Rico as a mining camp are becoming thoroughly known and appreciated and The Denver and Rio Grande Railway | we may look for decided prosperity in company are building in every direction, our camp another season. Rico will turn and have agents in Denver and Pueblo, out more pay ore vext summer than all hiring hundreds of men every day. They the balance of the San Juan country. Durango that that town does to Chicago.

The preliminary survey spoken of in our previous article, if made at all, will be and 8 ounces silver per ton, or \$25.12 giving employment to all who will work or will not be able to treat the ores coming from Rico alone. The D. & R. G railroad, be it said to their credit, will offer such low rates that Rico ores can be shipped to the smelters at Pueblo and Denver at a handsome profit to the mine not to dispose of good mining interests at less, nor to ask more than a fair price for HOME CORRESPONDENT.

Wagons are arriving in Rico every hour of the day, and every day of the week heavily laden with goods for our merchants winter trade.

Nevertheless These Are Facts.

Rico is situated in the heart of the Dolores mining camp, in the new county of Dolores. This mining town and camp is a part of what is known as the Great San Juan Mining Region. Rico is distant from various points, viz: From Durango, 45 miles.

Silverton, 35 " Ouray, 75 "
Lake City, 75 "
Onhir Ophir, 22 "San Miguel, 80 "

We cannot give with accuracy, the pop- A. Krille, Bank of Rico. ulation, as it varies with the changes of the seasons of the year. It is now estimated at 1,500. During the present summer and coming fall, the population will doubtless increase to 3,000. Of this number, there will be fully 1,000, or, perhaps 1,200, who will locate as permanent with the seasons of the year. It is now estimated at 1,500. Beidler, Pioneer.

RESTAURANTS.

Harry Edwards, THE Restaurant.

Thomas & Bangs, Rico Bakery and Lunch Rooms, and groceries.

BUTCHERS. citizens of Rico and Pioneer Mining Dis- John Gault.

Rico is a rich camp, with a good reputation, of which it is deserving.

We have at hand a great abundance of WATER, WOOD and COAL. Clear cool water is carried through the J. M. Semple. principal streets of the city.

The number of mines and prospects lo cated in the camp, counted over 3,200 last fall, and we are safe to assert that there are over 3,500 mines and prospects, each and all of which have been develop.

Bacon & Ro ed more or less, with shafts, tunnels, adits, etc., varying in depth from 10 to 200 and 300 feet. There are twenty three paying mines, and a large number of ore producing mines, which development will make paying mines.

Now is the golden opportunity for capitalists to invest in the hundreds of un developed prospects at Rico. We will make it as plain to you as you would have us. Note these things:

1. A mine is a mineral producer, giving a profit to the possessor, after mining

the dirt, ore or quartz, and reducing the same to gold or silver.

2. Prospects are not mines, but simply prospects which must necessarily romise to be mines, with sufficient de velopment.

3. Among the many thousand prospectors throughout the various mining districts of the world, the majority are not millionaires, but penniless laborers in the advancement of the mining industry who receives greaterly try, who receive, generally, as their compensation, the prejudice which has grown so largely in capital's opinion of them. We don't deny dishonesty for the prospectors, for there are some dishonest ones, as well as dishonest railroad pro-jectors, live clergymen and senators, but when the prospector offers to sell you a claim or location, and asks you to look and examine for yourself, he has something to sell, and evidently wants some money; too often he is compelled to sell for a paltry sum, with which to purchase something to eat and wear.

4. There are a great many prospect and mine owners at Rico, who have not sufficient means to develop their proper ties, and are willing to sell interests at low figures, to enable them to develop.
5. Now is the time, and those who first sow will first reap.

There is enough saw timber around Rico to build a city of several square miles. A GOOD WAGON ROAD is almost ready for travel between Rico and Durango.

If you don't believe the above, we ask that you will investigate it all.

Change of Time on the D. & R G. On and after Sunday, September 11,

trains will arrive and depart as follows: Passenger arrives at 12:55 a. m.; passenger leaves for east at 1:45 a.m. Sleepers Pueblo and Denver. To accommodate Ruby Camp, Gunnison....... 10,130 the public and save the trouble and bother at night I will sell tickets and check bagare during the afternoon for trains leaves gage during the afternoon for trains leaving next morning at 1:45, and I hope Silver Cliff, Custer. 7,990 passengers will take advantage of this, es- Silverton, San Juan.... pecially those desiring to purchase tickets Trinidad, Las Animas 6,005 through to points east, so that there may be plenty time to look up routes, get baggage checked through, secure sleeping-

car accommodations, etc.
FRANK C. JACKSON, Agent.

A Cough, Cold or Sore Throat should be stopped. Neglect frequently results in an incurable lung disease or Consump-tion. Brown's Bronchial Troches are certain to give relief in Asthma, Bronchitis, Coughs, Catarrh, Consumption and Throat Diseases. For thirty years the Troches have been recommended by physicians, and always given perfect satisfaction. They are not new and untried, but having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age. Public speakers and singers use them to clear and strengthen the voice. Sold at twentyfive cents a box everywhere.

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and erying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it. There is not a mother on earth who has ever used it who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescrip-tion of one of the oldest and best female physicians and nurses in the United States. Sold everywhere, 25 cents a bottle.
